put on a pretty face

Rouge is the most misused of all the cosmetic glamour products. Consequently, many women are afraid to use this most important beauty aid.

But every woman should use rouge in her daily make-up routine. Rouge counteracts the natural droop of the facial muscles by drawing attention up toward the cheekbones, brightens eyes and gives a healthy glow to dull complexions.

In keeping with today's natural, unmade-up look, Fashion Two Twenty has created the ideal rouge. This delicate peach and cream cosmetic goes on easily, and blends beautifully with all skin tones or lipstick shades.

Here's the proper way to apply rouge:

- Place a tiny dot of rouge at a point the width of two fingers away from your nose.
- Tenderly blend the rouge upward along the cheekbone to the hairline until your cheeks shyly flush with color.
- Lightly press translucent powder over your face.
- After make-up is completed, gently pat a moist sponge over your entire face.

Notice how your eyes suddenly appear larger. That tired look has disappeared.

Today's lively, colorful fashions call for make-up that's just as vivacious as a gal's wardrobe. So, don't let a pale, wan complexion detract from your good looks.

Remember, a subtle blush of rouge will give your "pretty face" the bright, lively look of now.

**SAN ANTONIO**—Millions of Texans will be licensed to publicize HemisFair 1968 next year. All private passenger cars and trucks will carry a license plate similar to the one being held by Miss Danielle Hutchinson, 20-year-old secretary with the international exposition. The plates, which go on sale February 1, must be on vehicles by April 1, five days before the opening of the 184-day Texas World's Fair. Reduced priced tickets and bonus books are now on sale in 280 cities throughout Texas.

**RECORD SEEN FOR STATE'S REGISTRATION**

Austin—State Highway Engineer J. C. Dingwall has announced that Texas will register approximately 7 million vehicles during 1968. "This is the largest number in our history," Dingwall said.

All 1968 Texas license plates have been delivered to the 254 County Tax Assessor-Collectors for issuance during February and March of 1968.

Of the estimated 7 million vehicles to be registered, the Texas Highway Department believes that 4.75 million will be passenger cars and 1.9 million will be commercial trucks and tractors. Trailers and motorcycles will account for the balance.

The most dramatic increase is expected in the motorcycle category, based on the past two years' experience. While passenger car and commercial truck registration will increase about 3 1/2 per cent. This follows a 25 per cent increase in motorcycles in 1966 over 1965 and another 17 per cent increase last year.

Motor vehicle owners can avoid long lines by registering during the month of February, rather

than waiting until the March rush.

Owners should bring four items to the Tax Collector's office when registering vehicles: Certificate of title, 1967 license receipt, current resident address, and zip code.

State law requires each owner to register his vehicle in the county in which he resides and to present his certificate of title as evidence of ownership.

To continue with the Soil Fertility Workshop, Calcium will be the next element. This secondary element is not a problem in Motley County except that we may have so much of it in our soils, it may affect other elements. Before you lime any soils in Motley County, be sure to have a soil test made, as the addition of more calcium may increase your soil problem, or introduce new ones.

Excess calcium depresses the uptake of potash and magnesium. The element is needed for plant growth however, as it activates certain enzymes; combines with pectin to form calcium pectate, a cementing material laid down between cells; is essential for growth and functioning of root tips; combines with protein molecules; assists in meristem growth; and aids in the nitrogen metabolism.

The Texas Forest Service is working on a new book, "Famous Trees of Texas". They are seeking for information on all trees that have historical background, so if you know of any trees that will meet this classification in Motley or other counties, they would appreciate your assistance.

**'Texas' Auditions To Begin Saturday**

CANYON—Actors and singers who wish to take part in the third season of the "Texas" show will begin auditions this week on the campus of West Texas State University.

Director William Angus Moore and musical director Royal Brantley announced audition schedules and requirements this week for the Paul Green symphonic drama presented each summer in the Pioneer Amphitheatre in Palo Duro Canyon State Park.

There are roles for adults and college and high school age performers. Adults and high school

students will be heard between 9 a.m. and noon and 1 and 4 p.m. Saturday in the Branding Iron Theatre of the Fine Arts Building. Auditions primarily for college age students are scheduled for the same hours on Jan. 27.

The directors said a performer should prepare a memorized reading, not to exceed three minutes, that will show voice projection and characterization.

Actors filling minor roles also double as members of the chorus, and all applicants should audition for singing as well as acting roles. Singers will present one number. The selection, whether it be an operatic aria, an art, show or folk song, should show strength and quality of voice, the directors said. Singers may bring their own accompanists, or bring music for an accompanist.

"Texas" will play June 29 through Labor Day, and members of the cast must be available from June 1 for rehearsal through closing of the season. Performances are scheduled each night except Tuesday.

Raymond Raillard, executive vice president of the Texas Panhandle Heritage Foundation, sponsoring organization, and the directors will be present for the auditions.

AUSTIN—Texas Liquor Control Board activities occupy a widening spotlight.

Complaints of wrongdoing by some board employees will be aired at a hearing before LCB members and Administrator Coke Stevenson Jr here January 29.

Gov. John Connally has praised the board for firing of seven men over incidents involving questionable sale of a confiscated truck and alleged mishandling of 11 bottles of contraband liquor.

Dallas Dist. Atty. Henry Wade called on the Texas Department of Public Safety to investigate the LCB after his staff came up with what he termed a "protection"

scheme involving board agents. Grand jurors in Smith County also are probing a claim that one liquor license was so quickly granted that local law enforcement people had no chance to object.

Connally said he is confident the board itself will pursue every lead relentlessly and will call on DPS and the state attorney general to assist with the January 29 hearing.

"The board feels as I do," said the governor, "that any employee guilty of questionable conduct or misfeasance or malfeasance should be punished severely and quickly."

**ATTORNEY GENERAL'S OPINIONS**—County commissioners courts are not bound under the new open meetings law to permit live broadcasts of meetings or the taping of proceedings for delayed broadcasts, Attorney Gen. Crawford Martin held. In other recent opinions, Martin concluded that:

★ Anti-lottery laws are not violated by service stations which give away free cards entitling holders to win prizes.

★ A city can impose its building restrictions on public junior college districts and require them to pay regular building permit fees.

★ State Board of Examiners in Basic Sciences does not have authority to deny certificate of proficiency in chiropractic to an applicant otherwise qualified by law who presents evidence of having taken the required college credits.

**DALLAS FIRM'S BID LOW**—State Building Commission awarded contract to R. E. McKee, General Contractors, Inc. of Dallas for \$5,050,000 for new State Finance Building in the Capitol Complex. Legislature voted funds for it in 1965.

McKee was the low bidder among seven. Other bids ranged up to \$5,328,000. It's the third big, new, modern office building in the complex.

Construction is scheduled to start on February 1.

**STATEWIDE SCHOOL PLAN**—U.S. Office of Education and the State Board of Education have given their approval to the Texas Education Agency's plan for developing a statewide program for coordinating the long list of federal state and local education programs.

Plan includes "integrating, coordinating and focusing presently diverse educational programs in the state on a limited number of high priority activities and populations."

Idea is that local school districts—after they've decided what federal and federal state programs they want to participate in—file only one application, which would go through the state to the federal level. Then, when

it's time to report back what the grant money was used for, only one report for all the various programs would be necessary from each district.

**FINE ARTS GRANTS DISTRIBUTED**—First \$23,109 in National Endowment for Arts grants has been distributed through the Texas Fine Arts Commission to help finance 11 cultural programs.

Money went to Midland Community Theatre, University of Texas Music Department, Texas Technological College in Lubbock, Victoria Civic Theatre, Dallas, Austin and Fort Worth Symphony Orchestras, Dallas Theatre Center, Houston Municipal Art Foundation, San Antonio's Texas Historical Theatre Foundation and Southwest Texas State College at San Marcos.

**'68 TAGGED HISTORIC**—About 7,000,000 motor vehicles will be registered in Texas this year. State Highway Department says that's the largest number in Texas history. All license plates have been delivered to county tax assessor-collectors and will be issued during February and March.

Some 4,750,000 tags will go on passenger cars and 1,900,000 on commercial trucks and tractors. Balance is for trailers and motorcycles—where the biggest increase will take place. Motorcycle registration are expected to be up 16 per cent this year as compared to a 3.5 per cent increase in cars and trucks.

Each owner must furnish the tax collector's office with the vehicle's title, 1967 license receipt and the owner's current address and zip code.

**DRAFT QUOTA SET**—February draft quota for Texas is 1,165 men. This is compared with 1,659 for January, 924 for December, 1,159 for November, 977 for October and 1,180 for September, says Col. Morris Schwartz, State Selective Service Director.

February figure is five per cent of the national call of 23,300. Local Selective Service Boards have been instructed to schedule 4,590 men for pre-induction examinations in February—a reduction from 5,455 ordered in January.

## Carries Overseas Pharmacy Essentials

Call it droge, pharmakeio or chemist—a drugstore by any other name doesn't always carry the variety and brands found in America. So, if you're in doubt about getting your favorite hair coloring, analgesic or makeup while touring Europe this summer, why not take these essentials with you in a COPE Tote?

Acronym for Contains Overseas Pharmaceutical Essentials, the COPE Tote has decorative handles that feature the ancient Egyptian symbol of life. It saves space, sani\*\* and savings by keeping everything in an easy-to-reach, spill-proof container that looks like a fashion accessory.

First check the following list for basic items to take along, add whatever essentials your personal needs require, then we'll show you how to make the COPE Tote for yourself or to give as a gift.

Don't forget to take such articles as toothbrush, toothpaste, soap, razor, skin lotion, mouthwash, deodorant and astringent. Since women's headaches are different, you'll want to include a combined aspirin-and-relaxant remedy such as Cope. Also add an anti-motion medicine if you tend to be "sensitive."

Other indispensables are an extra item of makeup and, if your hair is color-treated, take enough to see you through the whole trip. Transfer everything in glass bottles to plastic containers before packing—and don't forget to carefully transfer their labels too.

be the sides and ends of the handbar.

The Egyptian symbol of life is a circle with a cross affixed to its base. Make it by measuring a circle 6" in diameter and 1" wide on heavy pressboard. Sketch in the cross before cutting—then cut out two symbols to act as handles. Use these as a pattern to cut four thicknesses of white felt, then glue or stitch the felt to both sides of each symbol.

Affix the handles by sewing on to each end of the 24" strip. Sew onto the right side of material as per diagram. Next, attach sides and hem all around what will become the top of the bag. Sew side seams together on right side of material then disguise the seams by gluing or stitching strips of felt 9" long by 1 1/2" wide over each seam.

Cut another piece of pressboard 9" by 5 1/2" and place it in the bottom of the handbag for a solid base. There! Your own portable drug store. Attractive, efficient—and different—it will Carry Overseas Pharmaceutical Essentials wherever touring takes you.

To make your COPE Tote, choose a hardy, but colorful material such as the bonded sailcloth we selected. A yard will be plenty, plus about 3/4 yard of white felt for the handles and side bindings. Cut two strips of sailcloth 12" long by 10" wide and sew together to form one long strip about 24" long. Then cut two more measuring 10" long by 6" wide. These will

### PAMPER YOUR FAMILY WITH A BASKET OF BISCUITS

These tender baking powder rolls have a secret — tangy cheese spread tucked between layers of flaky dough. Tantalizingly spiced with mustard, garlic powder and a dash of hot pepper sauce, the fragrant biscuits are a cache of tempting flavors.

For warm biscuits on cool days partially pre-bake the rolls for 7-8 minutes, till they're done but not browned. Wrap tightly and refrigerate up to three days or freeze up to two months. Just before serving, pop the biscuits into a 425° oven for 7-8 minutes — convenient, easy and delightful!

Using enriched flour means gaining extra nutrients. Enriched flour contains three B-vitamins, thiamine, niacin and riboflavin and the mineral, iron. Enjoy it in good health.

### SPICY BISCUIT CRESCENTS

18 biscuits

1/2 cup sharp process cheese spread  
1 teaspoon milk  
1/2 teaspoon prepared mustard  
1/4 teaspoon garlic powder  
Dash hot pepper sauce

2 cups sifted enriched flour\*  
1 tablespoon baking powder  
1 teaspoon salt  
1/4 cup shortening  
1/2 to 3/4 cup milk  
Melted butter

Blend together cheese, 1 teaspoon milk, mustard, garlic powder and hot pepper sauce; set aside. Sift together flour, baking powder and salt. Cut in shortening until mixture resembles coarse crumbs. Blend in enough milk to make a soft dough. Turn out dough onto lightly floured surface and knead gently 30 seconds. Divide in thirds. Roll out one-third to 10-inch circle. Brush with melted butter. Spread half of circle with one-third cheese mixture. Fold circle in half to cover filling; lightly press edges together. Cut into 6 equal wedges. Roll each wedge, starting at wide end, sealing point to underside. Place on baking sheet. Repeat with remaining dough. Bake in preheated 425° oven, 14 to 16 minutes or until golden brown.

\* If you don't sift and in the absence of other directions, spoon flour directly from container into a one-cup dry measure, level off, then remove two level tablespoonfuls per cup, according to USDA recommendations.

NOTE: If self-rising flour is used omit salt and baking

### IN APPRECIATION

I wish to take this means of expressing my deepest appreciation for the visits, cards and food brought to us during my recent illness. Your thoughtfulness was a great help in our time of need, and will always be remembered with gratitude.

DID YOU KNOW THAT?

In a survey made of the pine-hardwood area of East Texas in 1965 it was estimated that there were about 55 billion board feet in standing timber. This volume is sufficient to construct about 3 million wooden homes, according to the Texas Forest Service. The forest resources of Texas are an important economic asset to all Texans, providing wood and wood products, labor and payroll.
