

Christmas Pageant To Be Staged In Sandie Stadium Instead Of Palo Duro

CANYON, Texas, Nov. 21—The first annual Palo Duro Pageant will be held in Sandie Stadium five nights next month instead of at Palo Duro Canyon State Park. It was announced today by a committee of clergy and other civic leaders.

The committee, which will have a permanent non-profit organization to sponsor the event each year—will meet tonight (Monday, Nov. 21) to form the Palo Duro Pageant Association. Moving of the 1949 production of "The Beginning of Glory" which depicts the Christ Story from Abraham to the Nativity, will be presented five nights—December 16, 17, 19, 20 and 21 at 7:30 p. m.

William Bersen of Hollywood and former director of the Rockefeller Center Players in New York City, will direct the cast of 218 players and some 300 instrumentalists. Bersen represents Geller Productions, the organization which prepared the script, settings and costumes from an original idea by John L. McCarty, Southwest Public Relations man and Manager of Palo Duro Canyon State Park.

The new Palo Duro Pageant Association will be formed by the Amarillo Ministerial Alliance, the Chambers of Commerce of Amarillo and Canyon, the Amarillo School Board, the Amarillo Retail Merchants Association, the Palo Duro Boosters Club, the Palo Duro State Park Management, the public relations firm of John L. McCarty, and other civic organizations.

The script for "The Beginning of Glory"—based on the Old Testament and showing the events which were climaxed in the Birth of Jesus Christ—has

At the last football game for the Matador Matadors Friday night at Burleson Field, Wanda Graham was presented with a large bouquet of red roses and introduced as Football Sweetheart while the Pep Squad sang, "Let Me Call You Sweetheart", and the football boys stood at attention. The roses were presented to her by Captains R. L. Giesecke and Grady Phillips.

Wanda was attired in a black street-length dress with matching accessories. She was escorted onto the field by Glenn Woodruff, in a 1950 "Matador Red" Ford convertible, and was accompanied from the field by Captains Giesecke and Phillips. The football Queen was elected by secret ballot last week, but no announcement will be made until the football banquet which will be held December 5. The five nominees for queen are Margie Timmons, Joyce Reynolds, Joyce Allene Martin, Doris Ann Doss and Sybil Jackson.

NOVEMBER BIRTHDAYS

Gad, Kids! Look at all these birthdays. Remember them and will we ever bust them? Mr. Gilbreath, you help to remember them too, cause you would come in handy.

Albert Morris—Nov. 10, Joyce did you whip him? We didn't know about it.

Roy Taylor—Nov. 12. I bet that you didn't know that he was getting to be an old man did you? Age doesn't mean any harm against slugging.

Calvin Cooper—Nov. 13. Calvin is mighty little, but yet he has birthdays too, did you know it?

Ronald Hobbs—Nov. 14 and Bonnie Hughes the same day too, reckon they are twins? At least they have something in common, BIRTHDAYS.

Doris Ann—Nov. 15. Doris we didn't know you were getting so old. She was either 16 or 17.

Margie Timmons—Nov. 28. My the F. H. A. Sweetheart is getting old too, let's try to remember this so we can make her remember.

Cecil Carmen—Nov. 30. Talk about little packages, with lots of noise, well just look at Cecil.

THE TROUBLEMAKER

Joyce and Albert are at it again, or rather they were last Thursday night and Friday night too.

I wonder why Wanda is so crazy about big cotton trucks? and I don't think that she wants the cotton to be all pulled to soon either.

Well, Garland, it seems if you had a change of heart, or was it Melba that took the change?

Bonnie was all happy at the game last Thursday night and believe that some one from Afton could have been the cause of it too.

Billy Paul, this isn't just a habit any more, I think that is just every day life. What about it Royella.

Chemicals May Stop Invading Weed Tree

Mesquite, the invading weed tree, which has infested some 55 million acres of Texas range land may soon be shivering to its bud zone. That is the report made by A. H. Walker, extension range specialist of Texas A. & M. College, upon his return from the recently held Field day at the Spur Experiment Station.

The Texas Agricultural Experiment Station's research work on mesquite control has been concentrated at the Spur station since 1938. Station superintendent R. E. Dickson has directed the work; associate station agronomist C. E. Fisher has a hand around the tree from the ground up to 30 inches high and expect satisfactory control.

Ranchmen and operators who have large acreages of mesquite to control are advised to wait and observe the results next spring at the Spur station.

Fisher and his co-workers do not expect to get a 100 percent permanent kill, but are hoping

this year. Final permanent kill cannot be determined until next spring and Fisher advises ranchmen to wait and see before using any of the chemicals. The cost of the material and application, according to Dale Young, should not run over \$3.50 per acre.

Fisher says if you have only a few mesquite trees to kill, an application of pure 2,4-D amine applied with a paint brush to the cut stump should do the job. Those with an acre or so, may spray a 1 percent solution of 2,4,5-T in diesel or kerosene on the ground up to 30 inches high and expect satisfactory control.

they'll be able to recommend a chemical which will give low-cost control of the mesquite for 5 years. The increased forage production during this period should more than pay for the control program. Spring applications of these chemicals have also given excellent control of such weeds as sunflower, Russian thistle, purple nightshade, annual broomweed, buffalo bur and many other troublesome range weeds.

Proper stocking to maintain a good cover of grass on the pastures will become even more important with mesquite control, says Walker. The mesquite, though robbing the grass of needed moisture have served to protect a lot of our good grasses from livestock. Keeping a cover of better grasses on our range lands is the best insurance against mesquite seedling invasion, says Walker.

MANY CHANGES ARE ANNOUNCED IN THE NEW 1950 PONTIAC

A total of twenty-eight changes are announced in the new 1950 Pontiac, now on display at Harp Pontiac, in Matador. Pontiac designers are again given an extremely wide choice. Chief among them are Streamliner lines are maintained with standard and de-styling, six and eight cylinder engines and Hydra-Matic or Synchro-Mesh transmissions.

Frontal design of both Chief and Streamliners reach a new degree of massive integrity with main grille bars reaching around the fenders, carrying the approach pattern into the view. Parking lamps are newly designed to carry out the horizontal flow. The grille, itself wider and quartered by prominent support bars. The center support carries the traditional Indian Head medallion.

Other styling highlights are a new hood ornament and medallion, new rear deck lid handle and new rear deck name plate. Both fore and aft the Pontiac Silver Streak, re-styled to blend with the 1950 exterior treatment, again gives Pontiac the world's best motorcar identification.

Rich Interior Styling

Art and engineering meet in the interior of the 1950 Deluxe Pontiac with aesthetically satisfying result. Door panels are a blending of two shades of gray with upper broadcloth softly merging with harder finished fabric of the lower panels. These lower panels are scratch resistant and easily cleaned.

Pontiac's instrument panel, which has won the praise of design experts for its functional elegance, remains essentially unchanged. There is a new horn button with distinctive coin-like design, and detail highlights add

sparkle to the front compartment.

Standard model upholstery is mixed wool cloth selected for trim appearance and long wearing capacity. Cloud gray is the dominant tone enlivened by dual pin stripes of plum and pebble gray at one and one-half inch intervals. Cushions and seat backs are finished with maroon piping. Arm rests are trimmed in maroon hard finish material and bound with narrow chrome moulding. Sidewalls, front seat back and head lining are in harmonizing shades of gray. Overall tone of the standard models is a rich, subdued elegance rarely attained by a motorcar in the Pontiac price range.

The Pontiac convertible, whose popularity last year broke records for this type of motorcar, also has come in for its share of 1950 re-grooming. Cushions are bolstered in five shades of deep buff leather: red, blue, green, tan and black and at the front of seat cushions and top of back cushions, blending with hard finish matching fabric.

Other Pontiac mechanical innovations for 1950 include:

A new and larger radiator core for the six cylinder engine; rubber rear spring bushings to eliminate road shock and power transmission noises and which eliminate lubrication need at this point; elimination of copper wire in spark plug coil and distributor cables to further reduce radio and television interference. Steering wheels have been lowered to improve visibility for persons of less than average height. Body rigidity and passenger safety is improved by changing the roof rail from channel to box-type construction. Door locks on the 1950 models now are freeze proof and coil spring holders eliminate tool rattle in the trunk.

Thanksgiving Dates Back To Year 1777

WASHINGTON, Nov. 12.—President Truman's Thanksgiving proclamation this year will be the 97th since the founding of the United States. The Continental Congress started the custom in 1777, but after Madison it languished and for 47 years it was not celebrated.

The Puritans observed Thanksgiving as a substitute for Christmas, which they regarded as a papist holiday. Their momentary period of peace and prosperity in 1621 made the holiday a natural one for them.

George Washington proclaimed two Thanksgivings, in 1789 and in 1795. John Adams set

aside days in 1798 and 1799. Thomas Jefferson did not believe in Thanksgiving but James Madison believed to such an extent he had two in one year—on January 12 and April 13, 1815.

That was the last Thanksgiving until Abraham Lincoln, in response to urging by the editor of Godey's Ladies' Book, named April 13, 1862, as Thanksgiving Day, exactly 47 years later.

Thanksgiving in 1862 was in April and in 1863 is was in August. In 1864, Lincoln put it on the last Thursday in November, the spot it still occupies.

Johnson changed the date, but Grant, in 1870, renewed it and it has been the same every year since, except in 1939. In that year, Roosevelt moved it up a week for economic reasons. Public pressure brought it back to

its traditional position.

Besides the 96 regular Thanksgivings in America's history, there have been six special ones for victory in war, etc.

TO FORT WORTH

Mr. and Mrs. Vernon Doss and daughter, Doris Ann, left Wednesday to spend the Thanksgiving holidays at Fort Worth and Dallas. Mr. and Mrs. Doss will attend State Teachers meeting in Fort Worth, and will be joined there by their son and daughter-in-law, Mr. and Mrs. George Doss of Dallas.

Mr. and Mrs. Robert Birchfield and small son, of Levelland, visited here from Friday until Sunday with their parents, Mr. and Mrs. Jerry Birchfield and Mr. and Mrs. C. A. Markham.

Eight Cylinder Engine

The Pontiac eight cylinder engine has been stepped up in power by increasing the diameter of its cylinders but remains the same dependable Pontiac power plant, road tested by millions of owners and capable of delivering its best performance on standard grade gasoline. To match the increased power of the eight, the crankshaft rear bearing has been enlarged and a positive rear bearing oil seal added. To provide additional cooling capacity, the outside walls of the cylinder water jacket have been moved out at sides and ends. Where Synchro-Mesh rather than Hydra-Matic transmission has been ordered, a clutch with increased diameter is provided to assure smooth, positive engagement.

I believe in the Community Chest because it is preparedness and security for the welfare of our people.
Levi Wilkinson.

Certainly, I believe in, and will support the Community Chest, because every item in its budget is a worthy cause. It gives one the opportunity to help each welfare proportionate to its need. It prevents the first organization on the field from getting the cream, and the others having to go without funds. Each citizen should consider it a privilege to give to so many worthwhile causes with one donation. Let us all give liberally, and go over the top.
Clifford Potts, Pastor
First Baptist Church

I believe in the Community Chest because it is many campaigns in one. The work of seven campaigns can be done in one drive
H. F. Pipkin

I believe in and support the Community Chest because it is a good way to take care of many needs in one effort.
T. F. (Tom) Berryman

Beyond any doubt our dollars in the Community Chest will do more good than through individual contributions.
W. N. (Bill) Pipkin

I support the Community Chest because I believe in its christian principles and ideals and in the effort of the program to take care of the physical needs of people who are unable to help themselves.
Marvin Brotherton, Pastor
First Methodist Church

It is our American way of life to care for those of our people in need.
W. M. (Bill) Hill

I support the Community Chest because the greater percent or about 85% of all contributions remain in the community and county. It is not a "cure all", but is quite successful in that seven drives are put in ONE. It tends to eliminate solicitation from outside people, and I see a possibility of eliminating donations to outside people 100%.

LOOPHOLES in the Law

By WILL WILSON
District Attorney of Dallas County

EDITOR'S NOTE: This is one of a series of short case histories all taken from court records, showing how legal loopholes often enable criminals to escape punishment in Texas. Will Wilson is chairman of a special steering committee of the State Bar, which is working for revision of the antiquated Criminal Code and Code of Criminal Procedure in order to eliminate these loopholes.

Having drunk more beer than he could handle, Joe started a great disturbance in a tavern. The county sheriff was called. When he reached the tavern he tried to quiet Joe by talking to him. But Joe was in no condition to listen to reason. He threatened to kill the sheriff.

The sheriff was unarmed, so he went back to his car and got a pistol. When he returned to the tavern Joe had been carried to the back door by two men. The sheriff followed the men and approached Joe. As he came close, Joe stabbed him in the chest with a knife.

The wound was wide and went to the rib. It would have produced death if it had not struck a rib. Since that happened, however, the wound was not serious and the sheriff had to make only one visit to a doctor.

Joe was arrested, of course, and charged with assault with intent to murder. He was convicted of that charge. But when the case was appealed the higher court reversed the decision, the court ruling that the

trial testimony was faulty because the record contained no testimony regarding the size and length of the knife blade, or the type of knife Joe had used. Too many criminals go free in Texas because of such technicalities as this one. The State Bar wants to close the loopholes through revision of the criminal statutes.

Watch Out For The Symptoms!

Laughed out loud when I heard Hoot Davis was down with Chicken Pox. A man of forty-five catching a kid's disease!

So I went to see him, armed with jokes about "second childhood" but forgot them fast when I got there. Hoot looked terrible and had quite a fever.

While we talked, I came to think of how Chicken Pox is a lot like other "diseases"—diseases of the character, such as intolerance, self-righteousness or just plain ignorance. They're excusable in children, but when they come out in adults they're ten times as bad—and can be mighty "contagious."

From where I sit, we should all watch out for the "symptoms"—little things like criticizing a person's preference for a friendly glass of temperate beer or ale. We've seen personal freedom wither away in other countries, when individual intolerance was allowed to get out of hand and become a nation-wide epidemic.

Joe Marsh
