Matador Magnificent In First 1958 Defeat

Law Nabs Printer In Oklahoma Town

Jerry L. Tarrington, 22, who left Matador abruptly May 28, the same night a billfold containing \$100 was taken from a paid of trousers belonging to editor Douglas Meador, is in jail here.

Tarrington gave the name of Richard Wayburn when he was first arrested here for driving without a license. He told Sheriff Jinks Wilson he was a printer and the Tribune provided part time employment for him so as to enable the youth to pay his fine and earn a small income.

The trousers from which the billfold was taken hung in the Tribune shop washroom. The billfold without the money was found the next morning by Sheriff Wilson west of the Tribune building.

Sheriff Wilson said finger prints of Tarrington were traced by federal officers to the Marine Corps where he went AWOL May 21. He was arrested here by Deputy Jody Graham only a few days later.

Tarrington was arrested in Apraho, Oklahoma, August 30 and returned here late Tuesday to await action of the grand jury.

Powerful Dragons Win 13-6 Victory

by Johnny Ezzell

EVEN IN DEFEAT the Matador Matadors were magnificent Friday night when they held the powerful Paducah Dragons 13 to 6 under the lights on Burleson Field. The previous week the Class A Dragons had defeated the Childress Bobcats 27-0.

It was the Matadors' first 1958 defeat. Among the home team's most loyal fans it was believed the Class B Matadors were probably outclassed two touchdowns. Both grandstands and the sidelines were packed to capacity Paducah had almost as many fans as Matador.

Here is a report of the game by Johnny Ezzell, Matador High School sports reporter.

The Dragons used a fleet of fast backs to defeat the Matadors.

All the scoring was done in the second quarter. Paducah's Charlie Johnson went 5 yards around left end, and Tommy Rekeits 4 yards around right end for the visitors' two scores. Gerald Pipkin jump-passed 11 yards to End Tommy Scaff for the Matadors' touchdown.

Johnson scored on the third play of the second quarter and used his left foot to kick the extra point. Paducah led 7-0.

Lose On Downs

The Matadors took the kickoff and drove to the Paducah 43, losing the ball on downs. Rekeits went for 18 yards and Johnson for 29, to the 4. Rekeits skirted left end for the score. Johnson kicked the extra point but a penalty moved the Dragons back and a pass try failed.

The Matadors came back with a 63-yard drive in four plays. Pipkin took the kickoff back to the 37, then he and Bobby Cross combined for a 44-yard pass and run play. Pipkin gained two and Bill Crenshaw six to the 11, then Pipkin hit Scaff with the scoring pass. The extra points try failed.

Neither team could mount a scoring drive in the last half. The closest the Matadors came was the Paducah 33, while Paducah moved to the 20-yard line of the losers.

Friday night the Matadors are scheduled to play the Idalou Wildcats of Dist. 4-A, at Idalou.

County Areas Receive Rain

By Douglas Meador

A series of rainstorms that dotted Motley County last week and continued early this week brought precipitation to most areas according to reports. Last week heavy rains fell in parts of the Flomot community and Roaring Springs.

Early Monday morning another series of rains swept across the county, registering 1.40 inches here, a trace in Flomot and .60 in Roaring Springs. Between 2 and 3 inches fell at Northfield Sunday night, it was reported.

Last week Flomot received between one and two inches while a flood struck the Gasoline area just north of the Motley County line. There as much as four inches was reported with some damage to crops and the Farm to Market road. Matador only received a trace while the precipitation at Roaring Springs was one inch and at Buzz Field airport .60-inch. Heavy rains were reported in north Dickens county out of the early Monday storm.

The rains "set off" by autumn cold fronts, fell quietly without any storm characteristics. Farmers say the rain is too late to benefit most cotton but that it will aid late feed.

The rains will generally benefit range conditions according to ranchers. Surface water tanks were dry in many parts of the county due to the exceedingly hot weather and almost total lack of rain in August.

Bus Solves Problem For Northfield

A school closed in Motley County last week but the action was in no way associated with the strife and bitterness that marks the closing of schools elsewhere in the nation.

Northfield school has closed its doors, but the five students of the Northfield community are attending school. They are riding a school bus daily to Matador.

The action was volunteered through the amicable relations between the parents of the students, and the board of trustees. The two school districts, Matador and Northfield, were consolidated last year, with the Northfield school continuing operation.

Cost (per student) of providing education facilities for the small enrolment became prohibitive however, and the board sought a solution to the problem. It has proved simple. The teacher, Mrs. D. H. McGinley has joined the faculty here. Mr. McGinley is driving the school bus daily, and Mrs. Jim Dobbins has been employed in the Matador lunch room.

Teacher and students leave Northfield each morning, drive the 27 miles to Matador over the new all-weather road, and return when their school day is completed here. Travel time between Northfield and Matador is approximately 40 minutes, and the students are on the bus less time than other students who travel the Barton-Whiteflat routes, according to Superintendent Bert Ezzell.

SCHOOL DAZED

By Charlotte Campbell

In spite of efforts, school has gotten itself underway for another nine months.

As I clunk away on my military typewriter, and reflect on cooler days, it seems as though the gap between May and September was a two-day week end.

A not-so-eager-to-hit-the-studies student nearly got his wish. The lightning he called for failed to hit the school building though it did succeed in mangleing a helpless elm on the south side of grade school. There must be a moral to the story.

"If at first you don't succeed, try try again," or else learn to aim your wishes.

In my typical fashion I joined every club within MHS walls and halls. I am probably one of those people who would let a train run over me if everyone else did.

The thing to do if one joins anything is to become president. Presidents appoint committees. The key to revenge.

The noticing things committee has come up with this deduction: Class elections are sure ways of getting nothing done faster than anything else.

Another deduction: There are 14 boys per every MHS girl. One class friend of mine was overheard remarking that some girl must have 28 boys.

For the records, I did learn a lot of things at Tech's Journalism workshop. And I returned home with new ideas of reforming Texas newspapers, and with a Siamese cat. I have not accomplished much with either.

The cat is worth mentioning because of its strange and particular eating habits. It eats paper and people and furniture.

Must add here a welcome to new MHS students. In case any of them wonder what I am doing, I am editor of the Brand and no one edits my copy.

Meet Mr. Moore

by Kay Rattan

M. H. S. has a new face at faculty meetings! Wayland Moore replaces Elbert Reeves, as science teacher.

Mr. Moore is a 1950 graduate of Matador High School. He attended college at Texas A. & M., and is a loyal "Aggie".

This is his second year to teach, and his first year to teach girls! I think some of the girls have discovered that they cannot get by with any more "pranks" than the boys can though. He previously taught agriculture at Roaring Springs High School.

Mr. Moore said that his main reason for becoming a teacher was because he enjoys associating with young people. He stated that the teachers and students of M. H. S. have been very cooperative, so far.

Mr. Moore is married and has one son, Darrell, age four months. He and his family have made their home in south Matador.

MY IMPRESSION OF MHS

by Wayne Tucker

Like a lot of other West Texas schools, I have noticed an air of friendliness in Matador that prevents a person from remaining an outsider very long. If the other new students had no more trouble getting started in M. H. S. than I did, then they are well on their way to a successful school year.

The school spirit here is just plain wonderful. This type of spirit should carry us on through many victories this year both on the football field and in the classroom. In my opinion Matador High School has a lot to be proud of.

Some students seem to think that it is hard to change schools after you enter high school, but if a school is operated like the state board suggests then there is seldom any difficulty in getting organized. Even in changing schools in my senior year I had very little trouble in moving to Matador.

There is an old saying that, "Institutions, as well as persons, have their own individuality. This seems to be especially true about schools. So I could not be truthful and say that Matador is better than other high schools I have attended. While there are some things about it that I don't particularly like, there are a great many more that I do like, and I think that the other new students will agree with me when I say, "I am very proud to be a part of Matador High School this school year."

LUNCHROOM MILK COST HAS ONE CENT DECREASE

The lunchroom feeds 210-240 people each day. Each person buying a plate lunch gets one-half pint of milk, but pays two cents for any extra he drinks. Last year extra milk was sold for three cents.

The lunchroom storeroom has a new floor covering and has been enlarged for better storage. The workers this year are as follows: Mrs. Henry Thompson, Mrs. Lewis McDonough, Mrs. W. B. Wason, and Mr. S. H. Allen.

FFA Dues Now Set At \$2.00

FFA has set a new price on the dues.

Ten cents of the dues will go to the National Organization, ninety cents to the State, ten cents to the Area, and any set amount to the Chapter.

FFA members voted to put ninety cents per member into the Chapter which makes a total of \$2 dues. Ninety cents per member will go toward financing the annual FFA Barbeque held in May. The rest of the fund will be made up through the butchering shop.

The FFA seed cleaner will be run again this year with each boy having his turn to run it.

Pep Club To Sport Matadors' Colors

The MHS Pep Club will support the Matador football team by "sporting" its colors.

The Pep Squad voted to wear red skirts and red sweaters. They will be led by cheerleaders wearing black uniforms with red M's on the sweaters. The cheerleader's shoes are red, and their corduroy skirts are lined with red taffeta.

Drum and bugle corps members are wearing their regular Toreador costumes. Drum and bugle twirlers have silver costumes with red and black trim. The drum majorette is wearing red.

SENIORS CHOOSE RINGS

Seniors of '59 have selected their rings and invitations. They were chosen from a wide selection of Herff Jones' rings and invitations, displayed to the class by a Herff Jones representative.

Orders for the rings were sent from Hunt's Jewelry. The rings are expected to arrive within seven weeks from the date the manufacturers receive the orders.

Invitations will be ordered at a later date.

RALLY ROUND-UP

Fans of the Matador Matadors are invited to attend pep rallies for their team.

Rallies are held each Friday, game day, at a student assembly in the high school auditorium at 3:10 p. m.

Pep Club President, Peggy Welling, says that visible support for the football players before the game is as encouraging as support during the game.

Pep yell will be led by high school's attractive cheerleaders, Daphne Lynn, Patti Craven, and Karmen Jenkins. "Football music" will be furnished by The Hep Cats, Mike Groves, Gerald Pipkin, and Pat Seigler.

BUY NOW

"La Arena", 1959 edition of the M. H. S. yearbook, may be purchased now. Price is \$3.00. Orders may be made to Peggy Welling, business manager of the annual, or to her assistant Karmen Jenkins.

A pageant, "The Seventh Flag" was presented Wednesday night by the W. M. U., with Mrs. Lee as narrator.

As Mrs. Lee gave a resume of Texas under the six national flags, Mrs. Elbert Reeves pinned a miniature replica of each flag on a large map of the state. The Christian flag, representing the 7th flag, was brought to the plat-

form by Mrs. J. D. Craven. During the narration, Mesdames Gene Hawkins, Ben Keltz and Bill McCaghren, in costume, portrayed the advancement of Christianity from the early days of the Indian to the arrival of the missionaries.

Posters stressing "Education," "Benevolence," Latin-American Work and "City Missions" were exhibited by Mesdames Forrest Campbell, Elbert Reeves, Velma Fulfer and George Cullin.

Let's take advantage of the watermelons and cantaloupes that are still available. Melons are valued for their vitamin content. They are good sources of vitamins A and B and an excellent source of Vitamin C.

The simplest way to serve melons is very cold and in their rind. In this form cantaloupes are delicious as a breakfast fruit or a luncheon appetizer. Served a la mode, with a scoop of vanilla

ice cream, they make a dessert worthy of any occasion. Although watermelons are usually thought of as a dessert or cocktail dish, they make a delicious breakfast too. Either scoop out balls or cut the melon into one inch squares, sprinkle with lime juice and dust with powdered sugar. Serve very cold.

Some people seem to feel that prescriptions are outrageously priced. The truth of the matter is this: Last year the average American bought about 3 prescriptions for a total cost of around \$7.50. An average of less than \$3.00 per prescription. Sure, some drugs cost a lot. So do television tubes—for the same reason. They're expensive to manufacture. New and improved production methods, however, bring prices down. Penicillin, for example, costs only a small fraction of what it did when it first came out. Your pharmacist has a professional knowledge of drugs and can tell you this. They are fairly priced. You get what you pay for. We are always pleased to serve you.

Children Should Be Taught Safety Traffic Program
AUSTIN, Sept. 11 — "A child's traffic safety habits, more often than not, reflect the examples that have been set by his parents."

J. O. Musick, General Manager of the Texas Safety Association, made this statement today in appealing to motorists for cooperation in TSA's current Back-to-School traffic safety program.

"Good traffic habits and attitudes of parents will do a lot to keep children safe in traffic," he said. "Also important is the extent to which parents try to teach children safe traffic practices."

Musick said that instruction in traffic safety is a fairly simple matter for parents — the important thing being to do it consistently. He then listed five of the most important rules to teach as being:

1. Teach children, largely by example, that it is always best to cross streets at intersections only waiting for the proper signal and looking in both directions before leaving the curb.

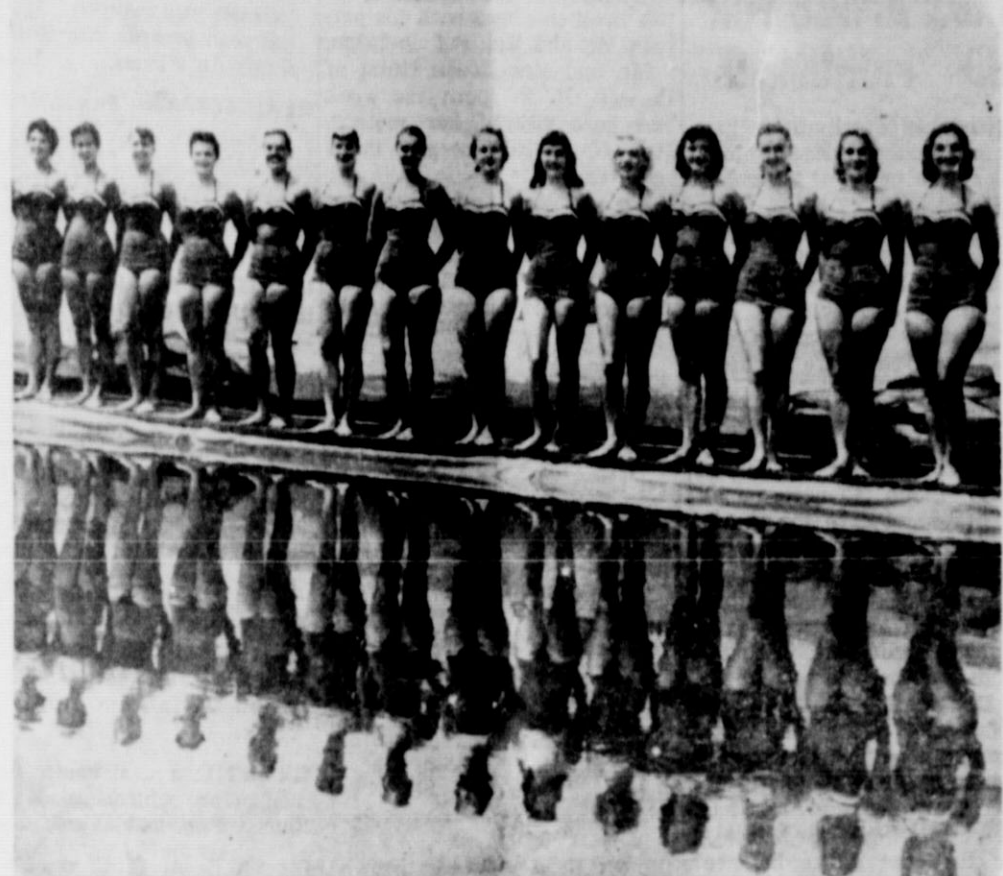

2. Support what the child's school is teaching about safety, and cooperate with teachers, officials and safety patrol boys by helping your child develop a healthy attitude towards safety-mindedness.

3. See that children play only in approved play areas — never in the street or near moving traffic. Then urge them to be safety conscious, even in play.

4. Teach children the safe use of outdoor toys such as roller skates, scooters, bicycles, tricycles and wagons.

5. Instill in children the idea that safety rules must be given the same respect and obedience as other rules of conduct learned at home and in school.

Mr. and Mrs. C. L. Kierim of Bronie returned to their home Saturday after a visit in the home of their daughter and family, Mr. and Mrs. Frank Pohl.

WATER FOLLIES DIVING THRILLS will be presented by daring Australian diving champion Kevin Newell, shown above, when the show appears each night during the Panhandle South Plains Fair, Sept. 29-Oct. 4. Water Follies of 1958, a feature of the World's Fair in Brussels, uses the world's largest portable pool.

However, there are measures that parents can undertake to hold injuries to a minimum for their sons if they are inclined towards heavy contact sports such as football.

Ideally, every athletic team, especially a football team, should have a team physician assigned to it. He should preferably be a man who has had some personal experience with athletics. Thorough and repeated medical examinations and evaluations of the athlete's physical fitness should be mandatory.

The team physician, the trainer, and the coach in any athletic program should be equally in-

About Your Health
A weekly public service feature from the Texas State Department of Health.

Henry A. Holle, M. D., Commissioner

Many mothers have misgivings this time of year, but just as many fathers begin to feel a little proud, because it is football time again. Worrying mothers have a justification for their feelings as well as Dad who likes to see Junior plunge through for a touchdown.

A study of 4,000 football players at 62 colleges showed that three out of four players during a season sustained injuries severe enough to make it necessary to suspend sports activity for at least four days.

In 601 football games played by these 4,000 athletes, 753 teeth were chipped or knocked out, 578 ankles sprained, and 53 knees strained. This seems like a staggering total, but on the most part these injuries are not permanently disabling and serve only to harden a youth for the rigors of life ahead.

interested in the prevention of injury and in the supervision of the smallest detail, such as the proper fitting of athletic shoes or the design of protective uniforms and pads.

In communities unable to afford a team physician, parents should seek out a doctor for examinations, at least to be present at football games, and to make suggestions which might prevent an athletic injury.

Pre-teenagers are especially vulnerable to dislocations and resultant deformities from athletic injuries. They should be matched carefully in any competitive athletic program not only in regard to size, age, and body build, but also in regard to stage of development, emotional maturity, and judgement.

If properly supervised touch football in this age group is far less dangerous than tackle football. Approximately 60 per cent of football injuries occur when the player is being tackled.

Perhaps the greatest aid in preventing sports injuries is the maintenance of a state of physical fitness. Insist that your son keeps in the best of condition and don't allow him to play if he is fatigued or suffering from a chronic injury.

ment of Public Safety, suggested that Texas residents have their trucks and automobiles inspected at the beginning of the period. This, he said, would save motorists considerable time and inconvenience annually accompanying long waiting lines at the inspection deadline.

George Reed Wins In Sears Contest

George Reed, 4-H Club member from Flomot was the only money winner from Motley County in the Lubbock area Sears Swine contest, according to information received this week by County Agent Bill Pailmeyer.

One hundred and four boys and girls competed for 22 cash prizes based on litter weight of pigs farrowed by registered gilts awarded to boys and girls in the 13 counties of the Lubbock area.

Reed saved five of the Poland China's pigs, and at eight weeks the total weight was 203 lbs. for an average of 40 3/5 lbs. per pig. This weight was good for 22nd place, with the winning weight being 453 lbs. for a litter of 9 pigs raised by Larry Bluestock of Abernathy.

Placing of other Motley County entries was as follows: Jimmy Fields, Matador, 31st; Sheldon Jacobs, Flomot, 32nd; Keith Brooks, Roaring Springs, 37th; Bill Brooks, Roaring Springs, 38th; and Rodney Hammons, Flomot, 39th.

A showing of the animals is scheduled for 5 p. m. today (Thursday), at the Matador FFA barracks.

THREE HURT IN WRECK

Rev. Douglas Carver, 54, pastor of First Baptist Church, Pampa, was one of three Baptist ministers from the Texas Panhandle who suffered injuries in a head-on collision of two cars Tuesday of last week. The accident occurred near Wichita Falls. Others injured were Rev. Carroll B. Ray, 50, pastor First Baptist Church, Higgins, and Rev. O. C. Curtis, 56, secretary of Baptist District 10 missions. Rev. Carver is well-known to many local residents, having conducted revival services here several years ago.

Mr. and Mrs. Tom Hart of Aspermont visited here Monday and Tuesday in the home of their son and family, Mr. and Mrs. Clay Hart.

FUNDS AMPLE FOR "KID" MONUMENT

Sufficient contributions have been received to place a monument at the grave of "Pitchfork Kid" in Amarillo's Llano Cemetery. A modest bronze tablet bearing suitable inscription will be placed at the last resting place of the cowboy.

Restrictions in Llano Cemetery in the area where Pitchfork Kid is buried require markers even with the surface of the ground so as to retain the park-like atmosphere of the burial ground. Llano Cemetery will have perpetual care for graves and the grass, trees and flowers.

Fred L. Hale of Amarillo, pioneer cowboy and long-time friend of "The Kid" has received a special price on a bronze marker from an Amarillo monument firm. Douglas Meador, editor of the Matador Tribune will write the inscription. Total cost will be less than \$100.

Since the monument fund has at present \$148, Meador has suggested that the entire balance be donated to the Matador East Mound Cemetery Association.

"Perhaps no comparable cemetery in Texas contains more pioneer cowboys than East Mound," Meador said, "and many of the old riders sleeping here were friends of the Kid."

"The balance of the fund will be held in trust in the First State Bank here allowing a reasonable time for any objections. Any contributor who is not satisfied with this disposal of the balance of money, may have his contribution refunded," Meador announced.

Latest contributions to the fund are \$5 from John L. McCarty of Amarillo and \$2 from A. M. Parker of Paducah.
