TRAIL DUST

By DOUGLAS MEADOR

Silt of two score years has settled around my convictions and I am a prisoner of discarded social standards. Despite liberal views on behavior I am unable to feel at ease when women exercise their privileges in a bar room. Their rights are without question; their actions are still controlled by the ethereal feminine value of propriety.

Tragedy is reflected in the high mirrors of heaven when a man hitches his wagon to a star and forgets that a wheel is tied to his limitations.

When the last flacons of truth have been emptied into understanding's vast cistern, it will become apparent that greatness is simply an attitude of the heart.

Laughter writes its own music to the accompaniment of flutes that are attuned to acoustics conditioned with the sound of angels singing.

Knowledge is so abundant that its value is often estimated by the supply, without making due allowance for the cost of processing.

In cutting the corners a man may deprive himself the harvest from cultivating some of life's most productive acreage.

Smoke from a thousand campfires was in the old cowboy's eyes and the sun and the wind had eroded his cheeks. His voice was crisp like hoofs breaking thin ice on a frosty morning. Behind the hill where he stood was the sandy river bed winding its way into the horizon and the sunset. He was silent as he watched a gold embroidered band sail across the gray harbor of twilight; then he turned and walked across the dry river; into the shadows.

Duty is the slave of character, anticipating a command before it is spoken, and polishing the master's boots while he sleeps.

Kind words are fireflies that start through the foliage of private despair and sometimes light the candles of hope merely by their passing.

Machinery Display Is Scheduled Here

The Minneapolis-Moline "Cavalcade" of modern farm machinery is scheduled here for Tuesday, November 23, under the sponsorship of Peg's Garage, M.M. agency.

With him during the surgery were his wife, her parents, Mr. and Mrs. Clyde Gilbert and his mother, Mrs. C. O. Middlebrooks of Matador. Upon their return home, Mr. Middlebrooks and a daughter, Mrs. W. H. Moore of McAdoo, went to Quannah Monday to his bedside.

MRS. J. H. SAMPLE CLAIMED BY DEATH

Mrs. J. H. Sample, 79, a resident of Matador the past 33 years, died at her home on South Main street, Monday about 9:25 P.M. She had been in ill health for several years, and had undergone surgery early in the summer. However, she was progressing satisfactorily until she became critically ill Friday night. Death was attributed to a heart condition.

Funeral services were conducted Wednesday at 3 P.M. in the First Baptist Church, by the pastor, Rev. Bruce Oliver. He was assisted by a former pastor of the church, Rev. H. G. Verner of Santa Anna, who delivered the message.

Pallbearers were, Melvin Meason, Bill McCaghen, Howard Traweck, Freeman Thacker, Pat Sheridan and Richard Seay. Eudy-Seale Funeral Home was in charge of arrangements, and interment was in Matador East Mound cemetery by the side of Mr. Sample, who preceded his wife in death, Nov. 6, 1940.

Born in Mississippi
Eula Murrell was born October 1, 1875 in Scott County, Miss., and passed away November 15, 1954 at Matador, Texas, at the age of 79 years, 1 month and 14 days.

She was married July 7, 1897 (continued from page one)

'Jackets' Clip Owls For Crown

Roaring Springs Yellowjackets, Friday night visited the Dickens Owls and returned home with the District 3-B six-man crown, stringing the Owls to the tune of 40-8.

The game Friday night made the district championship official altho the undefeated 'Jackets' were out far enough in the lead to insure victory if they had lost the token game. At the same time of the Dickens-Roaring Springs game, Matador Matadors were in the process of defeating Quitaque, which gave Motley county two district championship football teams.

All of the touchdowns made by the Yellowjackets against the Owls were made on runs of 29 or more yards. Jacket players in the scoring were Pee Wee Long, Roy Mathis, David Osborn, Bud Edwards and Bob Stafford, who scored twice. Charlie Long kicked an extra point and Harold Edwards and Bud Edwards ran one extra point each.

All of Dickens' scoring was by Delbert Tennyson. The 'Jackets' are scheduled to meet Weirnet in a bi-district clash at Haskell tonight.

50 Drill for Minstrels

A cast of approximately 50 is drilling regularly for the Lions minstrel program scheduled here Tuesday night, November 30. The cast is practicing in five separate groups (in addition to four or five solo acts) and the complete show will not be assembled until dress rehearsal.

Mrs. Glenn Woodruff, directing the production, said the surprise element of separate groups of the cast being assembled for the final show, heightens the hilarity tempo.

In addition to members of the Lions club in the show, local talent including both men and women are in the cast.

A feature of the minstrel is an old-fashioned cake walk by the cast. The cake is being baked locally and declared of excellent quality. The cake will later be auctioned.

Donations of calves and cash were made by the following: John Russell, Joe Gaines, Bill Morris, Mrs. W. W. Moore, Geo. Blackshear, Eldred Seigler, H. H. Campbell, Curtis Graham, W. D. Lipscomb, I. B. Campbell, Carl Bird, D. I. W. Birnie, I. W. Fish, Doc Burleson, Jim Lancaster, Curtis Martin and Joe Bloodworth.

Bi-District Match With Stinnett At Floydada, Nov. 25th

DISTRICT 2B crown went to the Matador Matadors Friday night when they defeated Quitaque 20-0. It was the first district championship to go to the Matadors in 19 years.

Coach Ray Hopkins' undefeated team will meet the Stinnett Rattlers at Floydada Thanksgiving Day to decide the bi-district championship. Stinnett's average line weight is 161 pounds as compared to the Matadors 167 pounds. In the backfield Stinnett's average weight is 154 pounds as compared with Matadors 159 pounds. During the current season the Rattlers have scored 339 points to their opponents 113. The Matadors have scored a total of 331 points to their opponents 67. The Rattlers are coached by Cozell Foster, assisted by Don Seymour.

Winner of the bi-district game at Floydada will meet Meadow or Bovina, champions of district 3-B and 4-B. Stinnett, county seat of Hutchinson county, has a population of about 1100, with 153 high school students. Matador's population is about 1300 and the high school enrollment is 80. The Rattlers will be accompanied to Floydada by the Stinnett 50-piece high school band.

Stinnett has won district honors twice in succession, losing regional last year to Meadow (a strong contender this season) by a score of 20-7.

Side With Neighbors
By a unanimous vote of the Floydada student council Monday, the student body will sit on the Matador side during the Thanksgiving game for the first time in a quarter of a century.

Matador grade school football is self-supporting, according to Coach J. E. Edwards. The Matadors Juniors or "Mavericks" have all the equipment they need and it is good equipment, purchased new according to size and weight. (Some junior teams depend on cast-off equipment from the high school team.)

All junior game receipts go to the Grade School Athletic fund, Edwards said. Most of the money is spent for equipment. Officials usually serve without charge.

Report of the past season is as follows: Balance \$119.77. Gate receipts from all games \$164.18. Expense (equipment) \$79.28. Net receipts \$104.67. Award letters \$15.10. Balance on hand \$174.67. Mr. Edwards said the grade school athletic fund (as all other school funds) is open for inspection at any time by any interested patron.

Former Resident Confesses Murder

ROCKVILLE, Md.—The estranged, teen-age wife of a Texan was questioned Wednesday in the strangulation death of her six-year-old step-sister.

Police said Tuesday night a person who identified herself as little Katherine Nadine Bannister's step-sister — Mrs. Marion Moseley, 15 — had confessed that she choked her sister because "I hated her."

Mrs. Moseley, a student at Silver Spring, Md. Business College is a former Matador resident, and student in Matador schools, having started to school here in the first grade. Since separating from her husband, Milton Moseley, she had been making her home with her father and step-mother, and investigators said there had been constant friction between the two.

Mail Route Protest is Considered

Reply to a letter by Tribune Editor Douglas Meador to Ben H. Guill, Executive Assistant to the Postmaster General, protesting the discontinuance of daily star route service between Flomot and Matador, was received this week. The letter is as follows:

"Dear Doug: Thank you for your letter of October 20, 1954, requesting that no change be made in star route No. 50153, Turkey to Matador, Texas.

"At the present time a survey of star route service is being conducted by our field officials in the Third Contract Section, which includes the state of Texas, in order to see what economies can be effected and the justification for renewal or readjustment for the new terms from July 1, 1955.

"As of this date we have not received a report regarding this specific route. However, the matter has been referred to our field officials with instructions to give your request full consideration before recommending any change in the route. I shall be pleased to advise you of any change recommended. Sincerely yours, Ben."

Rapid Growth Of Work Is Sighted

ACHIEVEMENT awards for outstanding 4-H Club work were presented Tuesday to 11 members of Motley county's seven clubs by County Agent Bill Palmeyer during the regular luncheon-meeting of the Matador Lions Club. Gold Star awards were presented Bert Green of Roaring Springs and Mary Ann Calvert, Flomot.

Presentation of other awards were as follows: Tractor work, Boyd Long and Sut Braselton, Roaring Springs; Poultry, Mary Slover, meat animal, Marcus Sweatt, Roaring Springs; achievement, Leo Reed and Wanda Mosely, Flomot; and W. R. Bain (Mae Martin was unable to attend the presentation and her award has been mailed); leadership, Richard Stafford, Roaring Springs, and Jan Barton, Matador. Mrs. Ike Reed of Flomot and Mervin Green, Roaring Springs, received awards for their work as leaders. Parents of the winners were also guests of the Lions.

In presenting the awards, Lion Palmeyer said that Motley county now has seven clubs with 20 active leaders. He said the total membership of 4-H clubs in the world is in excess of 2,000,000 (US and 42 foreign countries). Texas has 120,225 members, 4,479 clubs and 9,820 leaders. Approximately one-fourth of the boys and girls holding 4-H club memberships live in non-farm homes. Last year in the state of Texas 4-H clubs held 171,805 demonstrations in beef cattle, swine, chickens, rabbits, gardens, leadership, safety, riflery, home grounds beautification, citizenship, tractor maintenance and crafts.

He cited the growing interest in the voluntary organization for boys and girls between the ages of 9 and 21. Last year Motley county had five clubs (as compared with seven now) and 138 members as compared with the present membership of 261.

District Judge Alton B. Chapman of Floydada, also a guest at the luncheon, in a short address following the 4-H club awards presentation, said:

"During the years I have been in office as District Judge, we have never had a case of any kind against a boy or girl who was a member of a 4-H Club. I don't believe any greater statement can be made for the benefits of this work."

A fitting tribute to the valor of Americans who have given their lives in the cause of freedom was paid here Thursday by Representative Elbert Reeves.

Despite the small crowd attending the Armistice Day program held at Matador East Mound cemetery Thursday morning, Rep. Reeves made one of the most outstanding addresses ever heard here. Standing between two rows World Wars I and II veterans, Rep. Reeves cited the precious reward purchased with the lives of heroes through the nation's history. He said the responsibility of keeping the heritage of freedom intact for posterity must remain alert.

Invocation was by World War I Veteran Rev. Marvin Brotherton. Shortly after the program ended one Matador gin whistle sounded as a reminder of Armistice Day 36 years ago. Armistice Day has been designated as Veteran's Day.

Acting as hosts were their children, Mr. and Mrs. Glen Scotty Clements of Childress and Mr. and Mrs. Steve Thomas of Crane, Mr. Clements being the son and Mrs. Thomas, the daughter of the honored couple.

Garden flowers in hues of gold decorated the building and the anniversary-gold motif was carried out in all appointments.

Mrs. James Williams, Lubbock niece of the couple, registered the eighty guests who called during the afternoon tea hours of from 2 to 5 o'clock. The registration table was covered with a lace cloth over gold and held a bouquet of gold baby mums.

The tea table, laid with a white crochet cloth over gold, held a four-tiered wedding cake. The cake was made and presented by nieces of the couple, Mrs. Carl Daniels, Mrs. Pearl Gunn, Miss Ethel Kirkland and Miss Dolly Kirkland, all of Amarillo. The confection was frosted in white and ornately decorated with gold leaves, hearts and flowers. A miniature bridal pair stood under an arch of gold leaves on the top tier.

Gold baby mums were the floral arrangement for the table

and silver and crystal appointments were used in the service.

Following the traditional ceremony of cutting the cake by the honorees, the guests were served by Mrs. Daniels.

From Mississippi
Mrs. James Allen, a niece from Water Valley, Miss., presided at the punch bowl, and duties of the coffee service were attended by Mrs. Scotty Clements and Mrs. Thomas.

Assisting in the house party were Miss Mary Thomas, granddaughter of Mr. and Mrs. Clements, and Misses Sue and Ruth Potts.

Home of the bride's parents near Waco was the scene of their marriage in 1904. Rev. W. D. Boswell, pastor at that time of Oliver Branch Baptist Church performed the marriage rites. He is living in Waco now, but was unable to attend the celebrations.

The Clements lived in Flomot

for thirty years before moving to Childress in 1943. They have lived in their present home at 1503 Avenue H. Nw., since their arrival there.

Oil Millionaire's Biography Slashes At Matador Ranch

(By Douglas Meador)

Biography of one of the world's wealthiest men, Hugh Roy Cullen of Houston, has been written by Ed Kilman and Theon Wright. It is to be released by Prentice-Hall on November 29.

Either the great philanthropist (who has given away \$160,000,000) or his writers have done an injustice to the history of the Matador Ranch, formerly the Matador Land & Cattle Co.

In telling of his early struggles Cullen, in 1901, left his job as a cotton buyer in Mangum, Oklahoma, and traveled by horseback to Lubbock where he hoped to file on a block of plains land. In telling of his "perilous" journey, the 73-year-old "King of the Wildcaters" remembers the trek with a great amount of imagination, which has the appearance of having been created for the reader's benefit, rather than

ing associated with facts. The following excerpt is an example: "... He had a fair idea of the route, which descended to the Red River where the South Fork branched off, and then up across the sprawling ranges of the great Matador Ranch, one of the largest in Texas and notorious for its crew of rough-riding cowboys who made a practice of keeping strangers who might be "land settlers" away from their range. Their usual form of persuasion was a Colt forty-five."

During the trip Mr. Cullen became lost in a blizzard and almost froze to death before stumbling to the door of a nest-er's dugout. He was met by the man holding a Winchester. The nester thought the traveler was trying to get him outside so the gang could liquidate him. He recognized Mr. Cullen, however, since he had formerly lived near Mangum.

This makes interesting fiction but it has no place in a biography. By 1901 this area was perhaps a great deal more law-abiding than Greer county, Oklahoma. The Scotch syndicate that was the Matador Ranch, never hired outlaws except by accident. West Texas still has a large number of hands who worked for the Matadors in

1901. Many of these old riders still live right here. It is unfair to them and to the ranch to attempt to influence readers with a "dash of fiction" in something that is supposed to be accurate. It is highly probable that the "nester" who befriended Mr. Cullen was an Oklahoma cattle rustler "who expected callers" in the form of peace officers.

The big blizzard is not overdrawn. The weather in this area does not greatly vary from the weather in Mangum, Oklahoma. It was easy to get lost in any kind of a severe winter storm.

The book is interesting since it is the story of a poor boy who became one of the world's richest men. However, if the stories of his success deviate as far from the truth as his trip to Lubbock, the book should be classed as fiction—except the \$160,000,000 he has given away. That is not fiction; neither is it hay.

Blurbs on the book say: "He barely finished the fifth grade but he made college possible for millions"; "he belongs to no formal church, but religious leaders praise his way of life and 'profound belief in the Lord'; "He is a potent political force but his policy is 'Pick the person... not the party.' His writers might have added to the last statement: "So long as it is not the Democrats."

Range Ridin's Rugged

FALL ROUNDUP time on the sprawling, unfenced Wyoming range-land, with the ruggedness it demands of cowhands, is facet of modern cattle ranching that has never yielded to mechanization. In herd collecting, branding and myriad other chores, the West's riding, roping cowboy and his horse are irreplaceable.

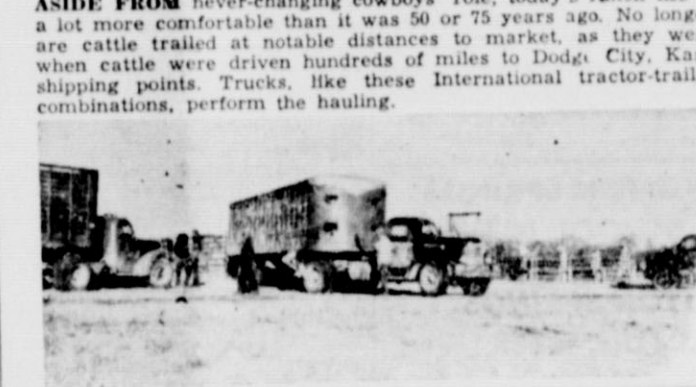

OFF-DUTY, cowpokes stage rodeos at mere drop of a dust-caked hat. Scene at Lander, right, showing rider proving mastery of bucking horse, is typical of action they produce.

HOLLYWOOD romantic tale to the contrary, it's a hard and tricky business. Deft lassoing calf and wrestling animal to ground often mean violent scuffs. But it's regular part of the task.

ASIDE FROM never-changing cowboys' role, today's ranch life is a lot more comfortable than it was 50 or 75 years ago. No longer are cattle trailed at notable distances to market, as they were when cattle were driven hundreds of miles to Dodge, Kan., shipping points. Trucks, like these International tractor-trailer combinations, perform the hauling.

PONTIAC FOR '55

The 1955 Pontiac is getting a royal welcome. "It's hot," they're saying, "the hot car of the year." And no wonder! With its Vogue Two-Tone styling and Strato-Streak V-8 engine, Pontiac wraps up more beauty, luxury, size and power than a like amount of money ever bought before. The price is near the lowest, but the car is way out front in everything that makes an automobile great.

The reason lies in the achievement General Motors is now celebrating—the vast experience gained in building 50 million cars. Research experience that uncovers what you want and need. Design experience that creates new trends. Engineering experience producing more dollar-for-dollar quality year after year.

That's the background of this All-New General Motors Masterpiece. Come in, drive it, and find out what it means to you. Let your own eyes tell you that here is the smartest car on the highway. Let your own hands report the new handling perfection brought about by recirculating ball steering and other advancements in the all-new shock-proof chassis. And let the great new Strato-Streak V-8 whisper its tale of getaway, response and compelling power that make driving a brand-new experience.

Then let us tell you about Pontiac's new thrift and reliability—and how little it costs to buy this future-fashioned beauty. Come in soon and get the exciting facts!

H. A. Juniors Are Visitors At Slaton

Four junior girls and Mr. A. Fair made a trip to Slaton, Monday to meet with the Lubbock county girls to study state material which is a level above material which third year students may earn. The state degree work is based on personal development through spiritual, physical, mental and social growth.

Speaking of the junior girls, they are doing real well in their new year.

Bachel Craven is making a nice evening dress of rose antique taffeta. Lucretia Edwards is making a very pretty light red corduroy jumper. Sara Sturdivant is doing a won-

derful job on a soft gray and rose colored wool coat, in a boxy style. Mickie Steen has already made a duster and is now making a pink wool jersey dress. Linda Chambliss has just finished a wine cotton dress which surely looks good on her. Sara Carson has just finished a black and white corduroy straight skirt.

PATTON SPRINGS SCHOOL NEWS

PATTON SPRINGS HAS FULL WEEK

The Patton Springs F. H. A. Chapter held its initiation ceremony Tuesday night, November 9, in the Homemaking Department. The freshmen girls initiated were Jerry Ann Williams, Donna Sprayberry, Jean Melton, Rosemary Hicks, Dorothy Joplin Patsy Sullivan and Virginia Foard.

Following the initiation ceremony, the junior homemaking girls presented a program ex-

plaining the emblem of the F. H. A. At the last meeting of the Patton Springs Good Citizenship Club of the Fifth and Sixth grades, Roy Gonzales and Bertha Willmon were elected Good Citizens of the Week. A program on Thanksgiving was also presented. Martha Sue Goodwin read a story in which the action centered around a turkey farmer. Thanksgiving poems were read by Junior Gregory and Anita Faye Martin.

In a called assembly, November 12th, Mr. Snow Allen, lecturer, talked to the boys and girls of Patton Springs School on the subject of living a straight life. Mr. Allen told of his own personal experience of 15 years in the penitentiary. He told of the coldness, the boredom, the solitude, the hardships and trials of prison life. He told of seeing men, women, boys and girls who knew nothing of the joy of living, who knew only the emptiness and hopelessness of a criminal's life, who had lost all pride and character. He reminded the audience that there is a dividing line between right and wrong; that when you step over the line into crime and evil, you do so first in your mind—aware that you are making the choice. He said that a wrong is just a wrong even though it is a little one; and that the little ones lead to the big ones.

We think that the boys and girls got some good from Mr. Allen's talk and wish that every one could hear his story. We really appreciated his coming to Patton Springs.

LITTLE RANGERS PILE UP VICTORIES

The Patton Springs Little Rangers have done exceedingly well this season with five victories and no losses. The squad consists of: Harold Goodwin, Billy Goodwin, Ronnie Ragland, Charles Thomas, Darrel Blasingame, Max Legg, Dean Perryman, Rodney Randolph, Tommy Jack Lawson, Timmy Baxter, Oscar Hughes and Max Edwards—all from the seventh and eighth grades.

Their first two games were with Dickens on the Patton field with the Little Rangers defeating the Owls in both games. They journeyed to the Roaring Springs gridiron October 26 to score another victory over the mighty Yellowjackets. The squad showed speedy action against the Guthrie Jaguars November 2 with a score of 45 to 20. Their last game, November 4 with the Girard Cardinals, gave them a score of 45-20 again. The school congratulates Coach Ralph Marshall in his splendid work and we are looking forward to a future district winning team from this group.

MRS. SAMPLE . . .

(Continued on back page)
at Temple, Texas, to James H. Sample. They made their first home in Temple, and from there moved to Oklahoma. In 1909 they moved to Wyoming where they resided two years and then returned to Temple, later coming to West Texas and living at Spur for several years. They came to Matador in 1921, and made this their home the remainder of their lives.

Although Mr. and Mrs. Sample had no children of their own, they were vitally interested in the youth of the community, and during their more active years, sponsored various young people's organizations. One of these was the "Ukelele Girls", a group of local teen-agers of the late 20's, whom they accompanied on tours to present programs.

Mrs. Sample had been a member of the Baptist Church since an early age and loyally supported its causes.

She is survived by two sisters: Mrs. Berta Campbell, Matador, and Mrs. Jack Horner of Houston; two brothers, Hugh Murrell of Santa Anna, Texas, and Roy Murrell of Tucson, Arizona, and several nieces and nephews.

140 Yards in Penalties

The Matadors won over Quitaque Friday night in spite of the most severe rash of penalties the team has been assessed during the 1954 season. The Matadors lost 140 yards and had two touch-down drives stopped. The line stood firm, however, and Quitaque was unable to penetrate the Matadors 20-yard line during the entire game.

Arvin Ellithorp made all of the three Matadors touchdowns. His first TD was made during the first quarter on a play originating 53 yards from the goal. He went over guard to score standing on his feet. The try for conversion was futile.

In the third quarter, after a sustained drive from midfield, Ellithorp carried over from the one-yard line. C. H. Murphy made the extra point on a quarterback sneak.

Drive for the final touchdown in the fourth quarter started from the Matador 23-yard line and included a 37-yard gallop by Harold Martin. Ellithorp crashed over from the three-yard line and Murphy made the extra point. The Matadors made 161 first downs and a total of 303 yards while holding Quitaque to six first downs and 121 yards.

Business Is Good

Business was good for the Matadors during the season according to a report released Tuesday at the Lions Club meeting by Superintendent Bert Ezzell. Total receipts for the season was \$3,132.14. The Turkey game gate was \$628.97 while the Matadors realized only \$43.50 from the Lakeview game. On the expense side the Matadors have paid out \$1,999.23, leaving a balance on hand of \$1,132.91.

The statement said all bills were not paid and that \$400 would be needed for award jackets. The balance will be needed for equipment next year and for the care of Burleson Field.

Granny Drives But Won't "Shift"

Saw Grandma Taylor parking her 1924 Franklin out front the other day. Neat as a pin, radiator and hub caps gleaming—the whole car is as shiny as the day she bought it 30 years ago.

Then I stopped and looked again—for there, hanging on the spare tire was a sign: "This car NOT for sale."

Asked Granny what was going on. "Joe," she says, "it's this crazy for old cars. Everybody wants to buy my Franklin. But it has served for years and it's not for sale at any price."

The new models, with improved engines and chassis, and more comfortable full foam rubber seats in custom cabs, will be introduced at Ford dealers' showrooms November 12.

State Offers Geiger Counters For Rent In Uranium Seekers In Palo Duro Park

"Palo Duro Canyon State Park is the best spot in the Texas Panhandle to prospect for uranium, and we've made it possible for anyone to take a chance at today's biggest bonanza," Pete Cowart, park manager, says.

He refers to the newly-opened concession to rent Geiger counters. This, he thinks, gives Panhandle residents an opportunity to experiment with a Geiger counter, have fun, and maybe find uranium without having to travel great distances or invest in expensive equipment.

"Anyone who finds a deposit of ore assaying as much as 20 per cent uranium per pound is eligible for the \$10,000 reward given by the Atomic Energy Commission," Cowart says. "Amateurs have as good a chance at that bonus as experienced prospectors."

Is there uranium in Palo Duro Canyon?

"If I knew where there was a deposit of uranium in this canyon, I wouldn't be standing here renting Geiger counters," Cowart answers. "No one knows whether there is uranium in the canyon, and the only way to find out is to test every rock exposure with a Geiger counter."

Rock Types Present

Cowart says the AEC lists three types of sedimentary rocks as most likely to contain uranium, and all three types are represented in Palo Duro Canyon. The canyon has not been thoroughly prospected yet, either. Only a few visitors have taken Geiger counters into the canyon. The Geiger counters rented at the park are the simplest, but not the least expensive, made. They record clicks in ear phones, the number of clicks increasing greatly when radioactive minerals are found. Everyone renting a counter gets a sheet of simple instructions on its operation and another page of tips on where to look. It's so easy that grade school youngsters enjoy prospecting.

State Owns Minerals

The State of Texas owns minerals under the park, so if anyone finds a deposit of paying ore he will have to negotiate a lease on the area of the park involved, Cowart says.

This is the first time Geiger counters have been rented in a Texas state park. Cowart thinks it is the first time in the nation that the atomic-age devices have been used as a recreational attraction.

Palo Duro Canyon State Park is one of three Texas state parks which charge admission. This is because the state is still paying for land within the park. The state's share of proceeds from the Geiger counter concession will help to pay that debt.
