Czechs Turn Down Hitler's Demands; Britain Concerned With 'Larger Issues'

Sympathy For The Czechs Not Enough

Nation's Effort To Rule World, However, Means Fight LONDON, Sept. 27 (AP)—The official Gazette today published a royal order from King George declaring "a case of emergency exists" and authorizing the calling up of auxiliary air forces for defense.

An order in council authorizing the calling up of defense units in the air force was issued yesterday, but the full order declaring the existence of a state of emergency was not disclosed until its publication in the official Gazette.

LONDON, Sept. 27 (AP)—Prime Minister Chamberlain told his compatriots tonight that "if we have to fight it must be on larger issues" than sympathy for Czechoslovakia.

In an address to the empire and the world from Ten Downing Street the prime minister said: "Sympathy Not Enough

But soon afterward he added: "If I were convinced that any nation had made up its mind to dominate the world by force of arms I should feel that it must be resisted."

Chamberlain spoke only about 15 minutes. His address, the most momentous British broadcast since the abdication crisis of 1936, was delivered from the cabinet room of famed Ten Downing street.

After he had finished his speech was broadcast in German. Chamberlain said he would not hesitate to take a third trip to Germany if he thought it would do any good, but at the moment "I can see nothing further that I can usefully do in the way of mediation."

Motives for the act, which the state alleged Cepeda performed, was stressed by District Attorney Cecil Collins and County Attorney W. S. Morrison in the testimony of Isabel. In response to a question by the district attorney as to who was the father of the child, Isabel replied that Gregorio was.

Resistance Is Promised By Leader

And, Note Says, Support Of Britain And France Expected LONDON, Sept. 27 (AP)—The Czechoslovak government announced today it refused to accept Adolf Hitler's demands on Sudetenland.

The note stated: "My government wishes me to declare in all solemnity that Hitler's demands in their present form are absolutely and unconditionally unacceptable to my government."

"Against these new cruel demands my government feel bound to make their utmost resistance and we shall do so, God helping us."

The Czechoslovak map said the document and map presented by Hitler "is a de facto ultimatum of a vanquished nation and not a proposition to a sovereign state which has shown the greatest possible readiness to make sacrifices for the appeasement of Europe."

"The smallest trace of such readiness for sacrifices has yet been manifested by Mr. Hitler's government."

The issue will not be one of bonds, but on the road itself, Judge Taylor indicated. Reagan county has ample securities on hand with which to finance the roadway costs.

Among those who appeared before Reagan county commissioners at the invitation of Big Lake citizens were Jimmie Greene and Lester Fisher, Big Spring.

WAR NOTES

WASHINGTON, Sept. 27 (AP)—Two American warships sped toward Europe today for possible service in returning refugees or other duty in the event of war.

The navy said the cruiser Savannah which sailed Saturday from Philadelphia and the destroyer Somers which left Norfolk the same day would proceed to British ports.

LONDON, Sept. 27 (AP)—The United States embassy in London today urged Americans in Great Britain "to arrange to return to the United States" if they could do so.

A statement issued without comment by an embassy official said: "Notice to American citizens: 'In view of the complicated situation prevailing in Europe it is considered advisable to recommend that American citizens who have no compelling reason to continue their sojourn here arrange to return to the United States.'

LONDON, Sept. 27 (AP)—A peaceful army of Americans—businessmen, tourists, naturalized immigrants, just ordinary Americans—looked homeward longingly today from all over Europe.

From the British Isles, France, Italy, Germany, European Russia and intermediate points came applications for return passages to the United States.

Steamship agencies were besieged. In London and Paris, lines reported every available space in all classes had been reserved up to October 15.

United States Lines officials said they planned to increase the passenger-carrying capacity of their ships by setting up army cots in the salons if necessary to aid repatriation of Americans abroad.

LONDON Prepares Against Air Raids LONDON, Sept. 27 (AP)—London, nerve center of the British empire, today prepared for the possible arrival of enemy airplanes by designating the city's two deepest subway stations for immediate transformation into air raid shelters.

The two stations, at Charing Cross, almost exactly in the center of London, were ordered closed at 5 p. m. tonight by the London transport board for "urgent structural work."

Authoritative quarters indicated vast underground shelters against air bombers would be built, part of the greatest defense preparations in British history.

All night long through the drizzling rain, her old men dug trenches in parks and vacant lots. All night long her young men rolled away to their guns along the coast.

In the ghostly glare of torchlight, residents dug up their gardens. Convinced their peace-time hours were numbered, they threw out their chrysantheums and dug themselves refugees below ground.

Police in front of door to door with instructions how to dash on windows in air raid black-out. Patients able to continue convalescence at home left hospitals.

Everything imaginable was turned into air shelters. Workers sealed the wine cellar at Windsor Castle. They barricaded railroad tunnels, old caves along the south coast, church crypts, bank vaults.

AMSTERDAM, The Netherlands, Sept. 27 (AP)—The government announced today that it was strengthening frontier forces and that troops already along the border were taking up wartime posts.

German Press Puts Blame On Benes BERLIN, Sept. 27 (AP)—Resembling in makeup the days of 1914 before the World war, German newspapers today uniformly charged to President Benes of Czechoslovakia the blame for whatever may be Europe's fate.

Chancellor Hitler's own mouthpiece, the Voelkischer Beobachter, in heavy red type bannered "We are resolved!" An editorial titled "the last word" drew the conclusion "the fuhrer's speech actually was the last word spoken by Germany in this conflict."

MOSCOW, Sept. 27 (AP)—Soviet newspapers ignored Reichsfuehrer Hitler's speech today, but gave prominent display to President Roosevelt's appeal for peace.

The stronger stand taken by Great Britain and France was viewed in Soviet quarters as a justification of Moscow's repeated warnings against the folly of trying to buy off Hitler with concessions.

Europe Will Need American Food LONDON, Sept. 27 (AP)—European nations looked hungrily toward the Americas today in a mad scramble to fill their cupboards for war and prevent the starvation that stalked the last conflict.

With the possible exception of Soviet Russia no major European nation grows enough to feed itself. Without the wheat fields and cattle lands of North and South America, they face starvation.

For the past two years the principal European nations have taken some steps to store up for a rainy day. Now they are setting up organizations to do so in earnest.

Great Britain claims to have enough food stocks, together with normal production of the British Isles, to feed the country for one year without a single ship coming in. It was announced April 25 that large stocks of wheat, maize and sugar had been stored.

England imports at least 50 per cent of her beef, mutton and pork and three-fourths of her wheat.

Germany's bumper wheat crop is expected to total well over 25,000,000 tons. Field Marshal Hermann Wilhelm Goerring, 20th economic director, recently ordered hurried building of huge granaries.

Going into the Nurnberg Nazi party congress it was certain no blockade could bring Germany to its knees for lack of food.

The meat situation in Germany presents a different picture. Food meat is not very plentiful in the Nazi camps.

Four Danube countries—Hungary, Yugoslavia, Romania and Bulgaria—which with Poland and Lithuania are regarded as exporting nations, had an aggregate wheat harvest of more than 10,000,000 tons, which was said to be a record.

Usually well informed sources said Italy has had by now a very positively small stock of food.

\$13,500 Open Becoming Pro Nightmare

Scores Skyrocket And Crowd Fails To Show Up

WHITE PLAINS, N. Y., Sept. 27.—The "Westchester 48," which started out as a "dream tournament," has turned into a nightmare.

As it headed into its final 36 holes today at the Fenway Golf club, this \$13,500 open golf competition had failed to live up to any of its promises except possibly that of close rivalry.

On Saturday and Sunday it attracted thousands of persons but hardly any of them paid. Yesterday, as Billy Burke of Cleveland remained on top of the heap, the play didn't even attract enough people.

To liven up the competition, circles were drawn around three holes and it was announced prizes would be awarded to those putting their tee shots within the circles.

Local wrestling patrons have their final opportunity of the year to plank down 40c or 65c, as the case may be, at the ringside of the Big Spring Athletic club and loosen their vocal cords at a maul show tonight.

Joe McCarthy Is Confident Over Future

Says Yanks To Have Little Trouble In World Series

By GAYLE TALBOT NEW YORK, Sept. 27 (AP)—The average baseball manager whose team has won only two of its last ten games is a worried individual with a drawn look, given to starting nervously every time he sees a telegraph messenger. He knows that any news he receives from his club-owner is going to be bad.

So it was pleasant to find Joe McCarthy with his ample bulk propped back comfortably, no lines furrowing his noble brow, no doubt of the future written on his placid countenance. His Yankees have been doing the dippy-doodle ever since they clinched the American league flag, but Joe can afford to be an indulgent parent.

"Yeah, we haven't been so good lately, have we?" he said easily. "However, I think we'll probably do all right when we get in the world series. I know all about this club."

The players all have admitted to McCarthy that they might have let down a little, though not intentionally, since they shook off their last rivals. It's a sort of custom with the Yankees. Last year they lost six of their last ten games, but you wouldn't have suspected it when they began shooting for keeps in the world series.

McCarthy said he hasn't even dispatched a scout to the vital Pirates-Cubs series starting today in Chicago. The series offers him a fine opportunity to size up the two clubs remaining in the National league do-fight, yet he swears he isn't peaking.

This Week To Tell NL Story

By EDDIE BRIEZE NEW YORK, Sept. 27 (AP)—This week tells the story in the National league... Cubs against Pirates in a three-game series starting today. Pirates still remain the favorites, although thousands are pulling for the Cubs. You can't lose sight of the fact that the Cubs have been on top of a hectic race since July 12 and that's a real test in any man's league. Besides that, they have one of the best balanced clubs in either major league. On the other hand the Cubs are coming along under the inspiring leadership of old Gabby Hartnett and they have two red hot pitchers right now in Bill Lee and Clay Bryant. Anything can happen, brothers.

AUSTIN, Sept. 27 (AP)—Prospects for eradicating the pink boll worm in Southeast Texas today appear very good, agriculture department officials said today.

TEXAS FARMERS' INCOME IS LOWER

AUSTIN, Sept. 27 (AP)—Cash income to Texas farmers dropped nearly 50 per cent in August as compared to the same month last year, the University of Texas bureau of business research reported today.

Dr. F. A. Buschel, assistant director, said income was approximately \$40,000,000 compared to \$77,000,000 a year ago. It was caused chiefly by a decline in cotton marketing and lower prices for this commodity, he added.

Sixtieth birthday anniversary of the Woman's Missionary Society of the Southern Methodist church is to be commemorated by Circle Three of the First Methodist church next Monday afternoon in the form of a silver tea at the ranch home of Mrs. Lora McDowell and Circle One is to honor the occasion Monday afternoon October 15, at the parsonage at 4:30 o'clock, both groups decided at meetings Monday afternoon.

All of the circles met Monday in the individual homes to study the second chapter of the mission book, "The American City and Its Churches."

Circle One
Mrs. G. W. Chowms was hostess to Circle One with Mrs. Clyde E. Thomas leading a discussion on the "Lights and Shadows of Cities That We Know." Mrs. Will C. House gave the devotional.

Mrs. House discussed San Antonio, Mrs. Thomas, New Orleans, and Mrs. W. A. Miller gave the lights and shadows of Washington, "Shadows of Our City" was the topic of a talk by Mrs. W. D. McDonald and Mrs. Fox Stripling gave "The Lights of Our City." "Lights and Shadows of Picture Shows" were pointed out by Mrs. House.

Mrs. Chowms was assisted in serving by her mother, Mrs. George Higginbotham. Present were Mrs. House, Mrs. Stripling, Mrs. J. L. Hudson, Mrs. C. E. Johnson, Mrs. W. A. Ricker, Mrs. Dell Hatch, Mrs. Robert Hill, Mrs. McDonald, Mrs. Thomas, Mrs. Clyde Waits, Sr., Mrs. C. E. Shive and Mrs. Miller.

The meeting was opened by group singing of "Rescue the Perishing" and Mrs. J. B. Pickle followed with a discussion of "Making a Living." Statistics on what the church is doing for relief were given by Mrs. N. W. McCleskey and Mrs. V. H. Fiewellen related a true story of the hardships of a Chicago boy, Johnny Castello.

Mrs. Keaton served refreshments assisted by her daughter, Marilyn, to Mrs. Arthur Woodall, Mrs. G. E. Cunningham, Mrs. J. D. O'Bar, Mrs. Arthur Pickle, Mrs. R. L. Warren, Mrs. J. B. Pickle, Mrs. G. S. True, Mrs. Fiewellen, Mrs. H. F. Howie and Mrs. E. D. McDowell.

READING AND WRITING

Seven books of fiction which will not strain the minds...
SUNDAY—Fortoday David Cornell DeJong's long and entrancing story of life in Holland, "Old Haven." The effect of the book, in which the conflict between the old and the new life in Holland is beautifully expressed, is a little like a long look at a painting by one of the Dutch masters. It deserves a quiet, slow reading. (Houghton Mifflin: \$2.50).

MONDAY—Elizabeth Corbett's Mrs. Meigs is now one of the novel reader's favorite characters. "She was Carrie Eaton" is not about the old lady, however, but about the girl the old lady once was. It is mostly about her meeting with Richard Meigs, and their unexpected difficult situation. (Appleton-Century: \$2).

TUESDAY—"New England Bora" is another of Sara Ware Bassett's Cape Cod romances; as a matter of fact, it is a double romance, one from December, one from May. It's pretty sentimental, but as usual the atmosphere of the Cape is there. (Doubleday, Doran: \$2).

WEDNESDAY—"The General's Lady" is Esther Forbes' new historical romance, one quite as worthy as her "Paradise." It concerns the passions which center around one Morganna Milroy, who married a rebel general in the American Revolution to save her fortune and found other interests while the general was busy at his trade. (Harcourt, Brace: \$2.50).

THURSDAY—Not a mystery, "The Devil Thumbs a Ride" had perhaps better be called a melodrama. It concerns the events which followed the holdup of a grocery store in southern California, and it is a first rate, speedy, credible yarn that does its author, David Robert C. Du Soe, credit. (McBride: \$2).

FRIDAY—"The Buccaneers" is the late Edith Wharton's last novel, unfinished and published largely as she left it by Galliard Lapeley, her literary executor. Thus it does not represent Mrs. Wharton quite fairly, although it has much interest to those who worry about the ways of authorship. (Appleton-Century: \$2.50).

SATURDAY—American Catholics will be most attracted by the stories in Doran Hurley's "The Old Parish," but there is plenty for others as well. The flavor is folksy, and much sympathy goes into the telling. (Longmans: \$2).

Called To Kansas

Mr. and Mrs. Geo. Hall and son, Harold, left Saturday for Humboldt, Kan., upon receiving a message of the death of Hall's brother-in-law, Charlie Schaffner, who died suddenly of a heart attack. The funeral was to be held Monday and they are to return the first of next week. Australia's first mill for extracting tung oil, used for paint making and similar purposes, was erected at Maccoot, an industrial suburb of Sydney.

FASHIONABLE FALL FEATHERS

Feathers are fashion news this fall. Dark green and charcoal ostrich tips tumble forward from the dark green velvet toque worn by this youthful American. More colorful plumes pattern the enamel top of her square flat powder case. Her frock is dark green crepe.

KBST Remaining On Air An Hour Longer To Bring Its Listeners More Network Programs

Additional radio service comes to KBST listeners today with the announcement that the week-day operating schedule has been extended until 10 o'clock. The station heretofore has closed down at 9 o'clock on week-days, and at 8 o'clock on Sundays. Last Sunday the station announced an extension of the Sunday operating schedule to 9 o'clock.

Further extension of the Sunday schedule will be made with elimination of the afternoon shut-down from 3 to 5 o'clock. In future KBST will remain on the air Sundays continuously from 10:30 a. m. until 9 p. m.

The extension in operating schedule are made so that popular programs on the Mutual Broadcasting System and Texas State Network may be heard and also in carrying out the station's pledge constantly to improve service wherever possible.

Nationally known dance bands will be added to the KBST schedule as a result of the time extensions. Dance music is broadcast nightly from leading hotels over the country by Mutual and these programs may be heard over KBST from 9 to 10 o'clock.

Another principal reason for the schedule extension was to bring to KBST listeners one of radio's outstanding dramatic shows, "The Lone Ranger," which will be heard Monday, Wednesday and Friday nights (except when football broadcasts prevent) from 9:30 to 10 o'clock.

POTATO CONTEST
An unusual program comes to the KBST log from 1:15 to 1:45 p. m. Wednesday in the form of a broadcast of the potato-picking contest between two governors in Aroostock county, Maine.

Gov. Lewis O. Barrows of Maine will vie with Gov. Berallia W. Clark of Idaho as the two statesmen race down adjoining rows of fresh-dug potatoes in a special match encounter, feature event of the colorfest contest held near Fort Fairfield, Maine, in the heart of America's greatest potato raising area.

Dave Discroll will be at the Mutual microphone to describe the festivities which each year attract entries from all parts of the world. The contest will be broadcast over Mutual's entire coast-to-coast network.

After the program and business session, a social hour was conducted with the St. Mary's unit serving refreshments to Mrs. Rix, Mrs. William I. # Sales Rally Is Held Here

### Talks, Moving Pictures Feature Crusade Meeting

The things that make sales and keep customers satisfied were presented in picture and talk at the municipal auditorium Monday evening when a small crowd of Sales Crusade participants attended.

Little habits, little things such as facial expression, personal appearance, enthusiasm, and interest in customer were stressed in two pictures, "Along Main Street" and "The Human Touch."

Ray H. Stone, speaking on "Personal Selling," said that since selling is the art in every business that live personality was the foundation of active selling. He viewed the crusade as a campaign in salesmanship training and felt that nothing unuseable had been sold during the entire drive.

"I am thankful," he said, "that we are mobilizing for sales while Europe mobilizes for war."

Martelle McDonald urged all people to cooperate in the Go To Church Day movement on Sunday. Because it cannot be advertised on the same basis as commodities, he said there was a definite need for individuals to feel responsibility of promoting it.

Cliff Wiley looked on the campaign as the means by which "a lot of them have got to know each other."

In a brief talk, Grover Dunham, mayor pro tem, sketched the water situation in light of the Tuesday bond vote. City Manager E. V. Spence, in a word, explained why the vote was called now.

Approximately 100 attended the meeting.

# Man About Manhattan

by GEORGE TUCKER

NEW YORK—Carl Erbe leaves shortly on one of the few remaining trips of interest which haven't been exhausted by tourists and travelers. This is the "inland passage" from New York to Florida, and he sets out October 15 with two companions in a 90-foot auxiliary sailing yacht.

The trip south will require about three weeks, and on it they will explore little-known bays and coves, threading their way through a mass of small islands so little peopled that electricity is non-existent and the natives, a rural folk who live chiefly by fishing and trapping, still use kerosene lamps.

Erbe's departure this year is a little earlier than usual. He goes south in leisurely fashion, but once there his work will be cut out for him, because he handles Jack Dempsey's Miami restaurant as well as the Patio and Colony clubs.

This means here that the Riviera, Ben-Marden's place on the Palm-sides, is closed and deserted now save for a ground crew and workmen who are putting in new equipment. The entire crew, from waiters and bartenders to chefs, and even Marden's private barber, are on their way south to open the Florida clubs. It's an annual custom with Marden to take his staff south. Half the year they work in an atmosphere of waving palms and soft sea breezes; the remaining months they are stationed in New York.

Meanwhile, Erbe and two companions are putting that yacht in shipshape condition. If you walk into his Madison avenue office to day you'll find him poring over maps, making a careful check of the inland passage. Outside of pack-trail trips, it's the one remaining thriller left to travelers in this country. The trip is a long one, and not without its perils. Most of the travel must be done in day time, which means they'll be up at quaint ports all the way down the coast. Night cruising is too dangerous... too many hidden reefs and shallows waiting to trap unwary pilots.

The route they'll take reads like a Rand-McNelly map salesman talking chockaw... They'll go "outside" around Sandy Hook and into Cape May, and from there the trail leads through the Delaware river, the Delaware and Chesapeake canals and on to Norfolk. At the Virginia port they go "inside" again

through the Albermarle river and through Currituck Sound, the Alleghany river and Albermarle sound.

From the sound they follow the Pungo river canal and the Neuse river, leaving that stream eventually for Vogue sound, after which they come to Indian river. They follow the Indian all the way to Miami.

It'll be quite a trip. They'll make it in a leisurely fashion. No hurry of course. Long days of lasing in the sun, when there isn't work to be done, salt air and plenty of good wholesome grub.

It sounds like a swell jaunt. They asked me if I wanted to go along, but how can you spend three weeks on a boat tracing the inland passage and write a column about New York?

# O'Daniel Well Is Gauged At 847 Barrels

### Heavy Production In Southeastern Snyder Pool

Moore Bros. No. 4-A O'Daniel, in the northeast corner of the southwest quarter of section 24-30-1s, T&P, rated 847 barrels daily potential on a 24-hour flowing test completed Monday.

The test, most southeasterly of the Snyder pool wells, was shot with 600 quarts from 2,840-2,794 feet and made one of the best showings of any of the producers in that portion of the field. It is now cleaning out 25 feet of bottom. Sun Oil Co. No. 5 Snyder, 2,310 feet from the south and east lines of section 24-30-1s, T&P, was cleaned out to bottom and went on a 24-hour test at 7 p. m. Monday. Shell Petroleum No. 3 T&P, in section 24, near completion at 2,775 feet. Eastland No. 2 T&P, in the same section, was below 1,700 feet.

To the southeast of the Snyder pool, Parton and Strickland No. 1 O'Daniel, 500 feet out of the north-south line of section 24-30-1s, T&P, spudded and made 45 feet of hole. Magnolia No. 3 M. H. O'Daniel, 2,310 feet from the south and east lines of section 24-30-1s, T&P, drilled to 1,200 feet with rotary. Magnolia No. 4 M. H. O'Daniel, on the same lease, rigged rotary and made 160 feet of hole.

To the northwest edge of the pool, Greene Production Co. No. 1 Snyder, a rehabilitation test in the center of the northeast quarter of section 27-30-1s, T&P, prepared to test casing with 100 sacks of cement at 1,870 feet in an effort to shut out water.

Other tests drilling included Moore Bros. No. 3-B O'Daniel, section 24, oil string set at 2,531 feet with 50 sacks and rigging with spudder; Moore Bros. No. 4-B O'Daniel, east offset to the No. 3 well, rigging with rotary. Moore Bros. No. 5-A O'Daniel, 830 feet from the west and 1,850 feet from the south lines of section 24-30-1s, T&P, cellar and pits and moving in materials; Cosden No. 2 O'Daniel, section 24, 2,180 feet.

Ajax-Anderson & Prichard No. 1 Scott estate, wildcat test in section 25-29, W&N, drilled to 2,775 feet Monday. Verdict on this test is due to be reached during the week.

Pure No. 11-A Chalk, section 12-29, W&N, previously rated at 517.20 barrels daily, shot with 250 quarts from 2,824 to 2,125 feet, filled to within 100 feet of the top. It retained the old test figure, however.

# Hollywood Sights And Sounds

by ROBBIN COONS

**HOLLYWOOD**—The difference between a movie "gala premiere" and its legitimate stage equivalent is merely one of amperes, not of Boo-loo. (Paramount's "Fur and Feathers," if you know your Movie Quiz.)

The preview of a quickie causes the blues of the local night to be washed with a myriad of light spears; for a "gala premiere" the number of amperes consumed in electrical ballyhoo is trebled.

But when a big theatrical star brings a show to town, the Blitz-broze—local stronghold of the "legit"—outside the Federal Theatre—simply lays down its trunk red carpet, puts up a few modest incense-burners to illuminate the arriving celebrities who provide the Boo-loo, and lets the blue of the night alone. It also omits flowers.

And yet, when it comes to glamor-on-the-hoof, the "legit" attracts as well or better than the movie "gala." The movie stars turn out like Californians for an Iowa picnic—and with much the same nostalgic motives. They like to revel in memories of their good old days behind the footlights before Hollywood spoiled it all with its unpythonic week contracts and its insistence on feeding them sumptuously and regularly. They like to escape, if only for a little while, from the horrible prisons of their glided Beverly Hills lives.

They turned out in extra-special Boo-loo the other eve when Gertrude Lawrence brought in "Susan and God." Miss Lawrence is a special favorite, obviously. If all the locals who speak of her as "Gertrude" really know her, she would give the American Legion a conclave since competition if she held a reception. She hadn't been around since "Charlotte's Revue" back around 1924.

That she once made a talkie called "The Battle of Paris" may have had something to do with this prolonged absence. Through no fault of Gertrude's—no, I haven't met her either—"The Battle of Paris" was not your greatest entertainment. If I know Gertrude—as I don't—it must have made her very, very

# Jerry Sadler Visitor Here

### Next Rail Commissioner Area's Oil Needs

Jerry Sadler, democratic nominee for the office of railroad commissioner, was here Monday on a brief inspection tour to ascertain the needs of the section.

"The only way I can find out what West Texas wants and needs is to come out here and talk with the people of the section. I want to get all information possible so that I can make the state the best railroad commissioner it has ever had," he said.

Declaring that any campaign bitterness was all behind, Sadler invited people of the section to let him know their problems and needs. He promised that he would be back in this area in about a month. Sadler has been west of here covering the KMA and the territory southwest of Lubbock. It was the first time he had been to Big Spring since May 2 when he was getting his successful campaign started.

# We Offer Complete "Winter-Proofing" For All Cars!

With modern facilities and winter driving accessories, Big Spring Service Stations and Garages open their "Get Ready for Winter" campaign on their Sales Crusade Day—WEDNESDAY... and every assistance is promised in helping local motorists prevent costly repair bills and mishaps this winter.

Local dealers point out also that the day need not be one of auto washing and lubricating only, but that other parts of your car's make-up be checked at the same time... such as radiator, transmission, differential, etc.

# We Service YOUR Car Like It Was OURS!

We look at it this way: if it was our car, we'd want it done right. And the fact that it's your car doesn't make any difference. You still get the best in servicing, money can buy. We are equipped with modern lubrication racks, lube "guns," and washing facilities and our attendants are experts.

TOTALITARIAN PROPAGANDA

On the date of July 27 I received from a Berlin informant information as to the German plan for the conquest of Czechoslovakia. It was presented as follows: "Calm has been maintained since May 21 in order to reassure Europe and to enable completion of fortifications in the west, on which 100,000 workers are now engaged."

With them. Between the 29th of August and the 15th of September Germany steps out. The Sudeten will stage a rebellion and German volunteers will rush in to prevent their persecution. England will wash her hands; France, baffled by the hesitancy of England and also by the new fortifications on the Rhine, will hesitate. In the mean while, the Sudeten territory will be purged of Czechs. A pact of non-aggression will be offered by Berlin to Prague, including perhaps a guarantee of their new frontier and a customs union that will make the whole country economically a part of Germany.

This plan would have marched forward according to schedule, except for a few factors. One of the most important of these factors was the foreign correspondents in Prague. To carry out this plan required a vast campaign of lying and deception.

And the propaganda in English has shown some restraint as compared with the propaganda broadcast by the German radio stations to their own citizens. It has passed every bound, not only of truth, but of verbal decency. The greatest protection that the world has against this barrage has been the independent newspaper correspondents in Prague and Berlin. Working under superhuman difficulties they have done, all of them together, one of the most superb reporting jobs in history.

There is a poetic justice in this. If Germany had had for five years an independent press and even the slightest measure of free journalism, her propaganda today would be ten thousand times more effective. The free press in the course of time would also be carried away by the war fever and national interests, I have no doubt.

But when the world knows in advance that every word that one hears is made to order; that to offer any criticism whatsoever, or to report any facts not in complete harmony with the propaganda office, will get one into concentration camps, every thing that the Germans say is immediately discredited. Already we are seeing it proved that totalitarianism in the field of journalism is not even efficient.

Now, Hitler doesn't believe this and never has. He believes that a most effective weapon can be forged out of the pure and unadulterated Lie. These last days I have been reading again that most illuminating guidebook, "Mein Kampf." I say "guidebook" because if one reads and understands it thoroughly one has the complete key to Hitler's mind and Hitler's policy...

## The Effects Of Liquor Cannot Be Repealed

Douglas Corrigan, who has captured the heart of the world with his "wrong way" flying, is greatly disturbed because a beer concern used his picture in an advertisement in New York papers.

He told reporters in no uncertain terms that he does not drink, and that he does not wish his picture used to promote the use of intoxicants.  
 The wrong way flyer expressed surprise and disgust over the tactics of the beer concern which had the effrontery to use his picture.

to commercialize his product, in the face of the fact that he has turned down scores of financial offers for the use of his picture and name.  
 Corrigan admitted that he had refused one offer of \$10,000 from a firm which wanted to use his name for advertising, \$25,000 from another concern, and \$5,000

a week for night club appearances.  
 After his uproarious greeting in New York surpassing even the welcome given the Lone Eagle, Corrigan said that he was thirsty and asked for a glass of water.

**Rules Set Up On Gym Use**

Rate Schedule And Regulations Approved By Board

The board of trustees of the Big Spring independent school district Monday night set up a list of regulations covering use of the new auditorium-gymnasium and fixed a price schedule for rentals. Left to a committee composed of the superintendent, president of the board and the business manager was the final decision as to use of the building by various organizations not covered in the fixed regulations.

The board also decreed that persons using the gym floor will be required to wear rubber or crepe-soled shoes which will not mark the floor—the same requirement put on all physical education class members.

Following are gymnasium-auditorium rules:

The facilities of the auditorium-gymnasium shall be used without charge by all groups whose activities are directly connected with the schools and the school children of Big Spring, namely: The Parent Teachers associations, the Elementary schools, the High School clubs and organizations.

For programs sponsored by service clubs, charitable organizations, lodges, clubs, societies, chamber of commerce and basketball teams representing other schools or organizations, the charge shall be \$5 for an evening's use, which, normally, shall be interpreted as a three-hour period.

The use of the facilities for practices or rehearsals may be had for \$2.50 per period. It is further recommended that individuals who desire to rent facilities for recitals or other purposes must pay \$5 for each period's use, except that rehearsals or practices may be held at the rate of \$2.50 per period.

No reservation is effective unless payment is made for the services required at the time that the reservation is asked for. All reservations are to be made through the principal of the high school.

No dance or other social affair may be held in the gymnasium unless it is sponsored by one of the school groups named in the first section of this recommendation.

**WAVE LOOKS GOOD TO BALD JUDGE**

SACRAMENTO, Calif., Sept. 27 (AP)—Justice Percy G. West was all sympathy as a woman suing for return of money she paid for a permanent wave told her woes.

"Now, your honor," said Alice Conley, combing her shoulder length hair with her fingers, "would you pay \$7.50 for a wave like this?"

"Young woman," replied the judge, fingering his bald pate, "I'd pay \$100 if I could get a wave like that."

**AFL Leaders Call For Campaign To Combat The CIO**

HOUSTON, Sept. 27 (AP)—Strong proposals for organizing campaigns against CIO strongholds in the automobile and ship building industries confronted American Federation of Labor leaders today.

John P. Frey, chief of the A. F. of L. metals trades department, suggested a permanent organizing committee "to combat the efforts of the CIO to control" workers in the shipbuilding industry.

Besides the Frey proposal was one from E. J. McShane of the Detroit metal trades council, asking for an organizer to enroll metal trades craftsmen in the automobile industry where CIO's United Auto Workers union scored important bargaining concessions during the auto industry strikes of 1937.

Both proposals were placed before the metal trades department convention meeting a week in advance of the full A. F. of L. convention.

Some federation leaders said they did not expect the metal trades department or the federation convention to make a definite move into the giant auto industry at this time.

**This Nation Would Be Chief Market In Event Of War**

WASHINGTON, Sept. 27 (AP)—Secretary Morgenthau assured the nation today that the treasury was prepared for any "eventualities from the European crisis."

He did not say what preparations have been made, but he implied that, for the protection of American business and finance, the administration's financial leaders have drafted a program dealing with these questions which would arise in case of war abroad:

1. Should the stock markets be closed?
2. What should be done to protect the dollar in foreign markets?
3. What should be done about all the foreign money which has come here in recent weeks in search of safety?

The stock market question was answered on high authority last week in the negative. An official said that the United States had undertaken to act as "the financial center of the world" and that it must keep its market open to prevent paralysis of finance and commerce.

Officials about the secretary are thinking of these things:

If Europe goes to war, the United States will be the marketplace of the world. Non-belligerent nations may turn many or-

ders here that would otherwise go to the fighting countries.

Essential to wartime trade will be the status of the dollar. The demand for dollars to pay for American goods probably would be enormous. To police the currency markets, therefore, the treasury will look to its \$2,000,000 stabilization fund.

The foreign deposits already here would figure importantly in the buying plans of warring governments. These governments might immediately requisition the funds deposited here by their nationals, as well as securities.

**Big Spring To Be Represented At Resource Parley**

This city will be represented at the Texas Water Resources conference called for Austin on Oct. 5-6 by Governor James V. Allred.

After he had planned to attend the meeting as a Big Spring representative, City Manager E. V. Spence was informed Tuesday by E. E. McAdams, executive secretary of the League of Texas Municipalities, that he had been chosen to be the official league envoy at the parley.

In calling the meeting, Gov. Allred said that there was a need for "intelligent conservation and utilization of available waters" and that possible "surface and underground" supplies should be developed commensurate with ultimate needs.

nations to partials stripped of all rights."

The creation of the Czechoslovak state, the fuhrer contended, was the clearest proof of how the victor nations violated the principle of self-determination.

The Czechoslovak government, he charged, not only failed to accord the Sudeten Germans their guaranteed rights but also proceeded to "Czechify" Sudetenland.

"Be assured that I thoroughly appreciate the high-minded intentions underlying your argument," the reichsfuhrer telegraphed.

Roosevelt appealed for continuation of peaceful negotiations in an effort to solve the Czechoslovak crisis and avoid war.

"For that very reason," said the chancellor after his reference to the "immeasurable consequences" of such a conflict, "I cannot and must decline every responsibility of the German people and its leadership if, contrary to all my efforts to date, further developments should actually lead to an outbreak of hostilities. x x x

"It is my conviction that you, Mr. President, when you realize the whole development of the Sudeten German problem from its inception to the present day, will recognize that the German government has truly not been lacking either in patience or a sincere desire for a peaceful understanding. It is not Germany who is to blame for the fact that there is any Sudeten German problem at all, and that the present unjustifiable circumstances have arisen from it.

"The terrible fate of the people affected by the problem no longer admits of a further postponement of its solution. The possibilities of arriving at a just settlement by agreement are therefore exhausted with the proposals of the German memorandum."

**Conference Indicates Fuehrer Stands Firm**

LONDON, Sept. 27 (AP)—Viscount Gort, chief of the imperial general staff, and Marshal Sir Cyril Newall, air chief, conferred with Prime Minister Neville Chamberlain today, strengthening the belief that Adolf Hitler was obdurate in his "final" demands on Czechoslovakia.

The conference took place after Sir Horace Wilson, close adviser to the prime minister, flew back from Berlin after two meetings with the German chancellor in a desperate effort to stave off war.

The fact Viscount Gort and Sir Cyril called on Chamberlain immediately after Sir Horace's talks with Hitler was taken as an ominous sign.

**Assail Hitler's Desire To Crush A Free State**

PRAGUE, Sept. 27 (AP)—The Czechoslovak government radio today broadcast indignantly that Reichsfuhrer Hitler's demands showed a "brutal desire to crush Czechoslovakia as a free state."

"The form given by Hitler to his memorandum," the government station announced, "is sufficient to show that it is not enough to make an agreement and maintain peace. 'One feels in Hitler's memorandum a brutal desire to crush Czechoslovakia as a free state. The memorandum demands annexation to Germany of territory counting 2,736,000 in inhabitants of whom 2,823,000 speak German and 818,000 Czech.

"On the other hand, in the territory where Hitler demands a plebiscite there are 1,116,000 Czechs and only 144,000 inhabitants who speak the German language.

"It results from this that Germany would incorporate 818,000 Czechs into Germany and there would remain only 102,000 Germans in Czechoslovakia.

"The Hitler memorandum is flatly directed against the economic existence of Czechoslovakia."

**Time Out For Murder**

Man troops without previous arrangements for safeguarding the people within the territory who were not Germans and who did not want to join the German reich.

"I must say that I find that attitude unreasonable. If it arises out of any doubts that Herr Hitler feels about the intentions of the Czech government to carry out their promises and hand over the territory, I have offered on the part of the British government to guarantee their words, and I am sure the value of our promise will not be underrated anywhere.

"I shall not give up the hope of peaceful solution or abandon my efforts for peace as long as any chance for peace remains.

"I would not hesitate to pay even a third visit to Germany if I thought it would do any good. . . . At one point, the prime minister said:

"However much we may sympathize with a small nation confronted with a big, powerful neighbor, we cannot in all the circumstances undertake to involve the whole British empire in war simply on her account.

"If we have to fight it must be on larger issues than that. I am myself, a man of peace to the depths of my soul.

"Foreign conflicts between nations is a nightmare to me. But if I were convinced that any nation had made up its mind to dominate the world by fear of its force, I should feel that it must be resisted.

"Under such a domination the people who believe in liberty would not feel life worth living."

**SWEETWATER AREA BEING COMBED FOR JAIL FUGITIVE**

SWEETWATER, Sept. 27 (AP)—Nolan county authorities combed rugged country southeast of here today for John Buford, convicted robber who escaped from the courthouse jail yesterday and fled in a commandeered taxicab.

The cab driver, Stuart McGinley, of Sweetwater, was forced to accompany Buford but made his escape last night at Bradshaw, 35 miles southeast of here, when the fugitive went to buy cigarettes and left the ignition keys in the car.

Buford, under a nine-year sentence on his plea of guilty to armed robbery, pried his way out of the jail which is located on the fourth floor of the courthouse, made his way to the roof and from there went down the side of the building by window ledges and a fire escape. He passed a window where district court was in session.

staunchly denied that he killed the baby, that he was the father of the child, or that he had ever experienced illicit relations with his daughter.

Marcos Rios, son of Cepeda's wife, Pablo Rios Cepeda, and Marcos' wife, Margarito Rios, both testified about the birth, and said that Gregorio took the baby outside after announcing that he would kill it.

Jim Sullivan, who with John E. Littler is serving as appointed defense counsel, drew admissions from most of the Mexican witnesses that they did not like Gregorio, that they feared him. Sullivan contended there was no proof that Cepeda had done more than bury a dead baby, and that his family was attempting to frame him into a capital case.

Arguments were started Tuesday with Morrison leading off. He was followed by Sullivan before the noon recess. Before the case rests with the jury, John E. Littler and District Attorney Colings will sum up their cases.
