MATADOR, MOTLEY COUNTY, TEXAS, THURSDAY, NOVEMBER 17, 1960 PRICE SEVEN CENTS

### TRAIL DUST

By DOUGLAS MEADOR

Attempting to satisfy his vanity a man frequently attempts his defects while trying to conceal them.

Have made it a practice to associate myself from a professional man during an electrical arrangement as satisfying during fair weather.

Must live with the disconcerting knowledge that the person down on distress is content with surprising regularity.

One who once made a girl who is apt to produce the physical reaction, but now she they are so droll.

Whom has become so rare that no longer has a sanctuary in the blue lagoons of silence and peace with strong personal appeal.

Light of lost civilizations was the child's eyes. The Aztec, perhaps the Incas had her the diminutive features and hypnotic eyes that as unmoving as the heads of nails driven in a plank, she played on her small lips as the chill of the night drew closer and yellow light of the features of the hopeful. She could not know that centuries have kept the same of hungry hearts than love.

### Undefeated Turks Fall in Pattern 42-0

EARLY THANKSGIVING was celebrated here Friday when the Matador Matadors cut up the undefeated Turkey Turks 42-0 and won the Dist. 9-B championship. The game completed the best season in the history of the Matadors, 9 wins and one tie.

The Matadors will meet the Rochester Steers Friday night at Rochester for the bi-district championship game. Site of the game was decided by the flip of a coin called by Coach Troy Gauntt, and quarterback Gary Lancaster added 56 yards on seven carries.

Taking the opening kickoff the Matadors marched from their own 33 to the Turkey 21 yard line before losing the ball. The Turks fumbled on the first play and the Matadors took over. Wilson carried for 4 to the 17, Ros Bearden went to the 13, Campbell slammed to the 5 and then went over left tackle for the six-point. Extra points try failed.

**Only Turk Threat**

Taking the kickoff, Turkey, with the aid of three penalties, went to the Matador 12 before losing the ball on the 16. It was their only threat of the night. Scoring again six plays later as Campbell cracked over left tackle at the 44, escaped his tackle and broke loose for a 56 yard scoring run.

Moments later the Turks punted on their 36 yard line. Bearden gained a yard, then Wilson hit over right tackle on a cross-buck, cut back to left and went for a TD. Campbell slanted over left tackle for the extra points that gave the Matadors a 20-0 halftime edge.

The Matadors scored the first time they received the ball in the 3rd quarter. They moved 57 yards in 9 plays (despite a 15-yard penalty). Campbell scored on a 19-yard burst over left guard. He went over left guard (Continued on back page)

The public is invited to attend games and support the local team. Admission will be 25 and 50 cents.

### Cool Response to Cadillac Beggars

CONDITIONS are rough for beggars. Take for instance the one that drove into Matador last week in a late model Cadillac pulling a DeLuxe house trailer that cost as much as a yacht. The woman "pandering" began hitting up local citizens for donations and was directed to County Judge Elbert Reeves, who holds the purse strings on the Matador Community Chest.

When she explained that her husband was ill and that she needed money desperately. She named a home. Judge Reeves happened to have a friend in the area and told the woman he would call his friend to verify the story. She excused herself to go and did not return. Judge Reeves had already received a report on his visitor before she arrived and some "case history." The same couple visited Matador a year ago they were driving a late model Chrysler at the time.

**Cases Are Screened**

Community Chest Fund Chairman C. M. Barton Jr. cited the case as one of many that might obtain money from local citizens during a year's time except for the chest organization. Every case is carefully screened before a dime of funds is released. Citizens tell the people who seek funds that they belong to the Community Chest. If it is a legitimate case, aid will be considered. Last year slightly more than 10 out of every dollar went to transients. The remainder was kept at home, except to three recognized charity agencies. The drive which starts Nov. 29 is for \$3,000 quota, the same as last year.

## Phone with the built-in switchboard

Here's a phone designed to play a big role in business offices. Right in this single instrument are all the conveniences of a telephone switchboard.

Six push buttons give you complete control over all incoming and outgoing calls. You can select any of five lines — talk on one while holding calls on others — "buzz" your secretary — or use the phone as an office intercom. Lights in the buttons tell you which lines are busy, which are free.

Our "phone with the built-in switchboard" is another example of how General Telephone works to make the telephone a more convenient and valuable instrument of communications for everyone.

Call or visit our Business Office and learn how little it costs to have the "switchboard" service of a push-button phone.

## Exes, Faculty and MHS Student Body Cheer Big 'M' to Victory in Pep Rally

The thrill of Homecoming and playing the Turkey Turks was felt throughout the pep rally, Friday, November 11. The auditorium roared as the traditional "Mr. Touchdown" was sung. The Exes, who filled the building, seemed to want to join in as the Pep Club yelled "Who Are the Matadors?"

### Senior Sidelines

By Frances Cooper

A party for the winners by the losers is the next senior activity. Since the class was about evenly divided for the Presidential candidates, it was decided that the half whose candidate lost would sponsor a party for the backers of the new President. Looks like fun for the Kennedy fans!

William Shakespeare's "Macbeth" is coming alive in the English 4 class. The murder of King Duncan was especially interesting.

### Delayed

"Potholders! Potholders!" cry the seniors. It seems even the boys enjoy participating in the money making project of the senior class. Mrs. Harry Campbell donated 100 hot-pot holders to the senior class. Many thanks go to her from the seniors.

Research themes have become a very real part of senior activity. Due in about four weeks, these annual papers will be prominent on students' minds until the last typing error is corrected and the completed manuscript is handed in.

# A REDUCTION OF THE ELECTRIC RATE FOR HOME HEATING - NOW 1 1/2¢ PER KILOWATT HOUR

You don't have to have a fire in your house to keep warm. Through the miracle of Electric Heat your home can be heated "flameless" at a new low rate of only 1 1/2¢ per kilowatt hour.

Now is the time to consider "flameless" electric heat for your home. It is the first new way to heat since man discovered fire. Since no flues or furnaces are needed, it is as easily installed in existing homes as it is in newly constructed homes.

**NEW!**  
**1¢ RATE**  
(WATER HEATER)  
When you choose an electric water heater, WTU will give you a special water heater rate of ONE CENT a kilowatt hour. You do not have to have any other load requirements and the rate applies to residential and commercial customers alike.

Contact your WTU office or your electrical contractor for information regarding this new method of heating your home.

Marrs and Steven Gwinn were selected. This week it was Elaine Dixon and Mark Hill. These outstanding students are selected to encourage good work and better conduct.

The 4th grade meets every two weeks for the Jolly Bookworm Club. Officers are: President Brenda Moore; Vice-President, Steve Bostick and June Sandefer is Secretary. Interesting book reports are given during these meetings.

### (Delayed)

Eighth grade students are concentrating on basketball these days and studying a little on the side. However, this situation is about to be reversed as we realize that "report card time" is about here again. Many of us know that mother wasn't joking when she said that grades had to improve this six weeks or else! No shows, no dates-what a revolting thought!

Freddie Welling visited in the eighth grade class Tuesday and told us all about "Reddy Kilowatt." After showing us how to figure our electric bills and how much electricity was used by various appliances, we got on the bus and went out to the West Texas Utilities Sub-Station here in town. Mr. Welling's caution of "don't touch" was hardly necessary as most of us are in fear of that unseen stuff that makes the wheels of our appliances go around. We certainly enjoyed our trip and the information was very interesting.

The third grade had an exciting trip Monday, October 31. They visited the telephone office where they were told how it works and some manners for using the telephone. They have also been acting out plays and recording them.

The sixth grade was busy as well as excited getting ready for the Hallowe'en Party. They had a mask making contest, and winners were: Larry Elliot, first place; Rosanne Terry, second place; and Tommy Moore, third place. The decorations made the room a bit scary.

### Senior Personalities

**LIMELIGHT LADDIE** Clarence (Buddy) Davis was born in Cunningham, Texas, but became a resident of Motley County at the age of six months.

Buddy is one of our star football players, and also enjoys participating in track. His favorite entertainers are Bridget Bardot, Tony Curtis, and "Fats" Domino.

Tan is a favorite color for Buddy, steak a favorite food, and typing a favorite subject. **LIMELIGHT LASSIE**. Active

in basketball, Pep Club, Choral Club, and senior class activities. Carol Campbell is a definite asset to our school. She is captain of the girls' basketball team, head cheerleader, and reporter for the Choral Club and was chosen this year's football sweetheart by the Matadors.

Although Carol has been a resident of Matador all her life, she was born at Paducah. She is an ardent football fan and enjoys playing basketball. In school, chemistry holds her highest interest.

For good entertainment she believes Doris Day, Paul Newman, and The Platters can't be beat and for good food shrimp gets her vote.

When asked about her future plans, a whimsical smile is her answer.

### JUNIOR JOIS

by Vada Nichols

If an outsider could have listened in on the American history class recently, he probably would have thought the class was having a riot. The juniors had a political debate on the potential Presidents of the United States. You would not have known there were politicians in the class, but some of the students were really "boned up" on Kennedy and Nixon, their "acknowledgments, beliefs and intentions. Everyone had opinions and did his best to state them.

All the juniors are faring well. Virginia Carr has been visiting her father, who is recuperating from severe injuries at Fort Sam Houston, Texas.

### CAMPUS CLIPS

At last Homecoming is over. Everyone seemed to be in good spirits over the week-end as they participated in Homecoming activities.

Today and tomorrow are six weeks test days. Just think students-only four more six weeks tests!

All school students will have holidays from November 24 to 25, and December 23 to January 1.

Once again students smiled for the photographer as pictures were retaken Tuesday.

Beware!!! Opportunity merely knocks but temptation kicks the door in.

## STATE PRESIDENT VISITS LOCAL AG CHAPTER TUESDAY

by Jimmy Welling

The Matador Chapter of Future Farmers of America held its third meeting of the year November 9, in the Agriculture building. President Guy Campbell called the meeting to order. The opening ceremonies were performed by the officers.

The chapter voted to continue to give a quarter per member to the Boys Ranch FFA Chapter. The money is used there for various projects.

A highlight of the meeting was Joe Penn, State President of the organization, who visited the local chapter on Tuesday.

The district banquet will be held at Floydada, November 21, starting at 7:30 p.m. Dixie Barton, the Matador FFA Sweetheart, will attend to compete for the title of district Sweetheart.

## FHA'ERS Learn Wiring Safety

2nd vice president Geney Spray introduced the speaker at a recent meeting for the Matador chapter of the Future Homemakers of America. The meeting was held in the home ec room at 10 a.m. Tuesday, November 8.

Freddie Welling, representing West Texas Utilities, gave the girls a very interesting talk on

the importance of electrical safety in the home. He stressed the point that wiring should be checked by expert electricians, not by amateurs.

While he explained some of the various types of wires and fuses, he showed the club examples of these.

President Cheri Barton dismissed the meeting.
