TRAIL DUST

By DOUGLAS MEADOR

Stored in warehouses of the unknown are countless destinies delivered; especially deposed on the laths of fate and left to collect the dust of eons.

One of the happiest men I've ever known is Tom King. Adversity has dreamed up some salty licks to plague his days but they melted before his sense of humor like candles in an oven. He looks for a man who has paid his money for admission to a show, with the determination to laugh, even if some of the performers are dull. His observations are classics, as this example: "I've just like a goose; I wake up in a bright, new world every day."

Peace of mind is a precious jewel, polished to a brilliant hue by the frequent passing of personal problems.

Youth is often blamed for its excess of exuberance but is seldom charged with incendiary intentions toward the world.

Many people recuperate in the porch after violent experiences in jumping at investment opportunities.

When science perfects an anesthesia to relieve the pain of an unhappy love affair, song writers are doomed to poverty and want. Love is the only distress which increases in popularity when set to music.

Plastic and frequently highly-colored bug catchers which adorned the tops of automobile hoods a season or so ago, have vanished out of the Southwest's arteries of traffic. P. T. Barnum dreaming on the midway of Valhalla, surely enjoyed the spirited acceptance of the public to this item. He would probably like to revise his famous observation, since with the growing population, and the greater number of resourceful individuals, it is necessary that more than one be born every minute.

When a man is seized by a spasm of anger he drives another pier for the bridge over the river that separates him from destruction.

Redecoration Job Completed By Cafe

Waybourn's Cafe resumed business this week after being closed several days for a complete redecoration and repair job. Interior of the cafe was completely redecorated in pleasing pastel shades and the booths have been remodeled to provide greater comfort to customers.

Attractive sunlight control shades have been installed in the windows and other appointments have been added to enhance the atmosphere and to provide customer comfort.

Mill Iron Hints Oil

The Mill Iron, 120,000-acre ranch, mostly in Hall and Childress counties, may go into the oil business. Lafayette M. Hughes, trustee for the ranch, in Childress Tuesday indicated the possibility after the sale of the Mill Iron, 6,000 registered Herefords. Emphasis will be on beef, Blue Panic grass, and possibly oil, he declared, in an article appearing in Wednesday Amarillo Globe-Times. It said the decision to sell was based in part on the possibility that oil will soon be flowing on the Mill Iron.

The Sinclair Oil & Gas Company recently began drilling operations on the Mill Iron land in Hall county.

"We could not continue our breeding program with oil wells in the pastures," Hughes said, but we can run steers."

Announcement of the sale, largest purebred deal in livestock history, was made Monday by two Phoenix, Arizona ranch operators, who bought the cattle.

Election Scheduled In Matador Tuesday

Matador citizens will elect two councilmen and a mayor in Tuesday's city election. Two candidates are announced for each office. Mayor Douglas Meador is opposed by W. L. McWilliams.

Meador has made no campaign but filed for a place on the ticket and announced that he will accept the office if the majority of the citizens of Matador want him back. Meador has refused to accept any pay for six years of service as Matador's mayor.

"It is a distinct honor to be elected by and serve the citizens of the community in which I was born," he declared, "but I do not want to stand in the way of a truly democratic form of city government. If the citizens of Matador feel that another mayor can better serve the community and welfare of the community, I pledge my sincere cooperation to their decision."

"I am grateful for the votes, support and cooperation of the people of Matador during the past six years. I have enjoyed the distinction and honor, but especially the faith of the people. I have never felt that I have given anything more than that which is my duty as a citizen, in serving without compensation. Perhaps the reason is that I love Matador," Meador said.

Four Council Candidates
R. L. Brandon, T. B. Alsop, Jack Norman and Billy Wason are announced for councilmen, with two places to be filled. Voters will indicate two of the four candidates they prefer and the two receiving the largest number of votes will be elected. The election will be held in the courthouse lobby.

Jack Norman, who has served one term, is the only one of the four candidates who is a present member of the council.

Child Leaves Home For Look At World

Bill Casey, age 2, found home life boring, and yesterday decided to have a look at the world beyond his habitat at the Woodruff apartment on south Eubank street.

The young son of Mr. and Mrs. A. M. Casey was found by a Latin American family on the State Highway 70 Bellard creek bridge, more than a mile from home, about 2 p. m. yesterday.

The child was standing directly in the path of the car and the driver had a near accident to avoid hitting him. The little boy told his finders that he was looking for cows, as they brought him back to Stanley Hospital where his parents are employed.

Delegates In Capital

Two delegates of the Motley County Farmers Union, Ben Edwards and Curtis Graham, arrived in Washington Monday as members of the Texas group to begin conferring with congressional leaders about continuation of the present farm price supports.

The two Motley county delegates left Thursday afternoon for Wichita Falls at that point a specially chartered bus started the trek to the nation's capital with 29 delegates.

Daily newspapers yesterday said Fred Haiduk of Groom, president of the Texas Farmers Union and leader of the group told Senators Lyndon Johnson and Price Daniel that farmers in the drought-stricken Southwest must have price supports of at least 90 per cent of parity "if we are to survive."

Haiduk said price supports were needed for cattle as well as the so-called basic commodities. The senators expressed general agreement with the Farm Union's stand, said Haiduk, although not stating specifically that they would back price supports on cattle.

Woman Is Brushed By Death When Car Rolls Five Times

Wings of death must have brushed by Mrs. Stella Mae Bachtell early Friday morning. She turned her new automobile over five times—two of them end over end—on State Highway 70 a few miles south of Turkey, and walked away from the completely demolished vehicle.

Traveling alone about 2 a. m., Mrs. Bachtell, struck a sandy shoulder on the highway when her car went out of control. She was rendered unconscious in the accident for a brief time. When she regained consciousness, the car was upside down and the engine was still running. She cut the switch and crawled from under the wreckage.

Senior Play Mixes Moral With Mirth

Mirth with a Moral was the entertainment offered by Matador High School seniors when they presented their class play, "Beans For Breakfast" Tuesday evening in the high school auditorium.

Things began to hum in the Kent household when the Beane family arrived for breakfast, and each tried to impress the other with their wealth, secretly wishing for but totally non-existent.

James Graham as Gerty Gollop, and Billy Jack Spray as Uncle Podger "laid them in the aisles" with their hillbilly performance, and throughout the play, laughter from the audience greeted the other actors in their various roles.

As the play unfolded, and the plot thickened, it gradually became evident that "it never pays to tell a lie."

Others in the cast included Bette Montgomery, Cecil Irwin, Lois Hughes, Neal Pipkin, La Nelle Rattan, Reba Bain, Nancy Vaughn, Martha Jones, James Sturdivant, Barbara Neighbors, Dewayne Martin, Lonnie Lynn and Jerry Swearingen.

Interest Mounts As Revival End Nears

Spiritual reception to spiritual messages by Dr. A. Ben Oliver has been in evidence the past week in revival services at the First Baptist Church. Several decisions for Christ have been made and good attendance has been noted at all services.

AUSTIN, Texas—All of Governor Allan Shivers' proposals are moving along in the legislature.

Passed by the House Revenue and Taxation committee was the governor's tax measure, levying on beer, franchise taxes and natural gas.

To raise about \$25 million a year, the tax is designed to pay for increased salaries for teachers and state employees and for state buildings.

Before passing the committee by a vote of 16 to 4, the tax bill was changed in one particular: instead of a gathering tax, it is an increase on production, from 5.72 to 9.06 per cent of market value at the well.

Also in the House, the appropriations committee reported favorably a bill to spend \$10,718,000 for buildings.

In the Senate, the story was the same: Shivers' proposals were being pushed through to enactment.

Finally passed by the upper house was a bill to outlaw Communists.

This measure, which was approved unanimously, provides up to 20 years in prison for members of the party or its branches.

Also finally passed was a bill to increase the pay of state employees by \$120 per year. Senator Jimmy Phillips of Angleton had opposed the measure, which won by a vote of 24 to 5.

Phillips was also the opponent of an \$11 million program for state buildings, but he was the only one to vote against it as the proposal finally passed, 25 to 1.

Also approved by the Senate was the Aikin \$24 million proposition to give teachers a pay raise. Vote on this measure was

27 to 1, the opposition coming from Senator William H. Shireman of Corpus Christi.

Shireman's opinion was that the Senate ought not to vote on the additional expenditure for teacher pay prior to the passage of a tax bill in the House. Said the senator: "We don't want to write a hot check, like we did last time."

In the last session of the legislature, a pay raise bill for teachers was passed, but it died because no revenue bill was provided to pay the cost.

There is yet to be some debate before the legislature makes its final decisions.

For example, Representative Joe Burkett of Kerrville protested the proposed 60 per cent increase in corporation franchise taxes.

Difference of opinion also arose in the House in the shape of a bill presented by Representative Charles Murphy of Houston. This bill provides an alternative to the teacher pay raise proposition offered by the governor.

Murphy's bill would give school districts \$400 more per year per teacher, but would not entail raising all teachers' pay by that amount. The present \$2,402 annual pay minimum would be retained, but extra money would permit merit raises up to \$800 per year for any teacher.

There are other provisions in the bill, which Murphy said would give local trustees the opportunity to decide whether they want to accept the increased state allowance along with the greater local responsibility for financing the school program.

Placed in a House deep freeze was the \$10 per barrel beer tax offered by Representative Joe Pool of Dallas. In its place, the House committee passed the Governor's suggested tax increase of 63¢ per barrel, bringing the total tax to \$2. Rep. Joe Kilgore of McAllen presented the Governor's idea on the \$2 tax.

Adjoining states of Louisiana and Oklahoma both tax beer at the \$10 per barrel rate. Pool pointed out at a meeting of the House revenue and taxation committee.

A part of the anti-communist legislation met trouble in the form of opposition from religious organizations, three labor groups, and some members of the Senate civil jurisprudence committee.

Objections to setting up a state Loyalty Board of Review, which would deal with suspected Communists, were on the grounds that it would deprive Texans of

the right of trial by jury.

Senator Rogers Kelley of Edinburg, one of the bill's authors, moved that the measure be sent to a subcommittee for rewriting, and the motion passed.

Checks amounting to nearly \$11 million were handed to an Austin attorney as the state began repaying funds collected under a gas gathering tax, passed by the last Legislature and declared void by the U. S. Supreme Court.

Still in a suspense fund is about \$15 million, which will be refunded to the gas companies as soon as legal procedure can be completed.

Food packages will be sent to drought-stricken West Texas counties, Governor Shivers announced. The State Department of Public Welfare will ship 150 cases of food to Dawson county.

In the same area, highway projects totalling about \$3 million are being expedited with the aid of the Texas Employment Commission. Further assistance to dry West Texas may come from the U. S. Department of Agriculture, in the form of funds to work against wind erosion.

There are two dates of significance in April, for all Texas car owners. April 1, (today), is the deadline for purchasing 1954 license plates. From tomorrow on, if you are one of those who put off the annual trek to the county assessor's office, you will be charged a penalty of 20 per cent of your license fee.

April 15 is the deadline for your car's annual inspection and obtaining your safety sticker. Col. Homer Garrison, Jr., Director of the Department of Public Safety, reports that some three-quarters of a million Texas motorists have yet to have their cars inspected.

New Automotive Fuel Made From Aviation Gas Components

A new "high performance" automotive fuel, made possible by the use of aviation gasoline components recently released from government priority, has been developed by Phillips Petroleum Company.

The new gasoline contains Di-isopropyl, a high test ingredient originated by Phillips, which made possible more powerful, higher anti-knock fuels for combat aircraft. Until recently, the use of super aviation gasoline components has been restricted by military authorities for use in high performance aviation gasoline. These have now been released for use in automotive gasoline, and Phillips is able to use not only Di-isopropyl but

also HF Alkylate, both originated and first manufactured by Phillips.

According to Phillips research authorities the new gasoline, designated "Flite-Fuel for your car," offers important performance advantages. It provides

increased power, higher anti-knock quality, greater fuel economy, and freedom from stalling.

Equally important, say Phillips authorities, are the clean burning qualities of the new gasoline. Use of natural gas components, which leave scarcely any carbon

residue, eliminates the need for special gasoline for combat engine deposits. Distribution of this line has already begun and will be available in the future at all Phillips stations.

The Tractor That Pulls Like A Horse

The following statements are taken from the March 10 issue of "Farm Implement News", an unbiased publication which writes articles on all the new products of different farm machinery manufacturers.

"In the Super MTA (Super M. Farmall with Torque Amplifier) International Harvester engineers have come up with an idea and a mechanism that can compare in originality and impact with the Original Farmall. They have a mechanical whip that puts horsepower into horsepower. The torque amplifier, when the lever is pulled, makes the TA squat down on its haunches, as it were, and pull out as no other farm tractor has done before.

The torque amplifier adds one additional speed for each regular speed making a total of 10 forward speeds and two reverse speeds for the new models. With a torque amplifier, it is said that the operator can reduce the forward speed by 1/3 and increase the pulling power up to 45% without stopping, declutching, shifting or touching the throttle. The power flow to the rear wheels is automatic and uninterrupted."

We at Matador Motor & Implement Company believe that our new Super MTA is the finest Farmall that we have ever had to sell to you. We cordially invite you to come in and look this new tractor over and let us show you its features.
