TRAIL DUST

The orbit of each life function with seasons for planting, growing and harvesting. Frequently they overlap to confuse designation but the pattern becomes more defined in inspection. Weeds and millet harvested from the soil were weeds and millet were sown. Best adjusted tenants of complex star's terrain are who sing from the faith in hearts when the season is dry and beset by continuing stress.

Imagination is the child of industry and must exercise its inheritance or perish in the endless sea of mediocrity; or the vast, waterless dunes of stagnation.

Supper is amplified according to the weight of its spontaneity. It is by the time remaining of its potential sequence, aided by the time remaining given coffee break.

Despite the distracting noises of modern world, the human mind has a staunch friend in the who can not sing and keeps self reminded of his limitations.

Memory is the only play-back on the tape recording of life, entirely sufficient.

Goodness is a quality of the heart that needs no declaration to announce its presence.

DEATH OF A GIANT—Pulse of the massive engine at the West Texas Utilities Company plant in Matador is silenced forever as workmen cut the 60,000-pound giant into pieces and hauled it away as scrap metal. The diesel was moved here from McCamey in 1931.

CUTTING TORCHES WRITE FINIS FOR MASSIVE ENGINE

AN OLD FRIEND is gone. The massive 60,000-pound diesel engine maintained here by West Texas Utilities Company for a third of a century, has been dismembered by cutting torches and reduced to scrap metal.

Sid Holland Company of Childers purchased the six cylinder, 360 horsepower engine and 240KW generator, together with switchboard equipment and removed it from the old utilities firm plant on south Main street.

The great engine has long been obsolete but was kept in Matador on a standby basis. With Matador now being supplied by power from three lines (Paducah, Spur and Memphis) through a massive network of modern system, the engine has gone the way of many small power plants and been reduced to scrap metal.

Many remember the sound of the old engine as it produced power for often flickering lights as its speed varied, or more demand for power was placed on it.

The engine's history was supplied to the Tribune by Jimmy Martin, editor of the "Electric Times" official publication of the utilities firm.

Here from McCamey He said it was moved here from McCamey in Sept. 1931 and first placed in service Nov. 5, 1931. According to company records it replaced a smaller engine acquired by WTUC from Central Power and Light Co. when WTUC purchased the property here in 1926.

It pulled the load many times. (Continued on back page)

Matadors Hit Air; Rout Hornets 42-0

By JOHNNY EZZELL

FOUR touchdown passes tossed by Quarterback Gary Lancaster (each to a different receiver) aided in completely neutralizing the Lorenzo Hornets here on Burleson Field. The final score was 42-0. It was the second shutout this season for the Matadors, the first being against Silverton 32-0.

The Matadors ran up 15 first downs to six for the visitors. They ground out 319 yards on the grass and 73 in the air for a 392 yard total. Dink Wilson was leading rusher with 97 yards while Fullback Loyd

Martin rolled up 55 yards and Ros Bearden added 55.

Defensively Gale Stafford, Buddy Davis, Dale Dixon, Jimmy Welling and Pete Davis were the leaders in holding the Hornets scoreless.

The Matadors scored the second time they obtained possession of the ball. A 7-play 45 yards march was climaxed when Lancaster tossed a 23 yard pass to right end Jimmy Don Green. Martin blasted over left tackle for the extra points.

Early in the second quarter, right half Ros Bearden went over left tackle, cut to the right and raced 33 yards to paydirt for 14-0 lead. Moments later the Matadors blocked a Lorenzo punt and recovered it on the Hornets 13-yard line. Martin scored from that point when he slammed over left guard and cut to the right. Kenny Barton kicked the extra point.

In the same quarter the Matadors moved 61 yards to score. The longest gain in the series was a 36 yard sprint by Martin. Lancaster tossed a 6 yard pass to Bearden for the touchdown. Barton kicked the extra point for a 28-0 halftime lead.

Block Another Punt
The Matadors blocked a punt in the last moments of the third quarter and turned it into a safety when they tackled the Lorenzo back who had recovered it in the end zone.

The Matadors took the ensuing kickoff and moved for a touchdown. Lancaster tossed to Wilson for the tally, the play covering two yards.

The final Matador score came when Lancaster tossed a 10 yard aerial to left end Buddy Davis.

The Matadors will play the Estelina Bear Cubs at Estelina Friday evening at 8 p. m. in the first of two contests for the district championship. The other will be played here with the Turkey Turks as guests on November 11, the Matador Homecoming date.

VOTE FOR TEXAS

RICHARD M. NIXON, candidate for President, is a Californian, but he thinks the Texas way. Richard Nixon stands for:

- A strong national economy and defense so that America will not have to apologize to Khrushchev for anything;
- A sensible farm program that will attack and solve the present problems;
- Texas retaining its tidelands, and a tax policy favorable to Texas;
- Local control of our schools.

If you will read and compare Nixon's platform to that of his opponent, you will agree that a vote for Nixon is a vote for the best interests of Texas.

John Kennedy and Lyndon Johnson are the men who get things done, who believe in strengthening small business, encouraging new ventures and greater industrial growth - and who believe a fair share of the national income is the right of every farmer.

Here in Texas hope for the future... to put an end to GOP policies that have brought tight money, HIGH INTEREST rates, growing business failures, and the cost-price squeeze on the farmer.

Which Democratic Platform?

Which do you prefer: the socialistic, anti-Texas platform of Kennedy — or the Nixon Platform that more nearly conforms with Texas principles and ideals as expressed in the State Democratic platform?

The Kennedy platform is against nearly everything Texans are for—it is for nearly everything Texans are against.

What will be your choice? It is between a party label and the best interest of Texas and the Nation.

Allan Shivers says: "I'LL TAKE TEXAS. I accept the Texas Democratic platform and will work for it. I repudiate the other—the Kennedy platform. I will join with my fellow Democrats to work and vote for men of maturity, experience, responsibility, and a fearless dedication to this country's best interests.

"I will vote for Richard M. Nixon and Henry Cabot Lodge."

Encouraging talks were given by Coach Macon and Mr. Moore. Then the students rose and sang the school song with all of the spirit and determination they had.
