## City Gets Lower Insurance Rates

FIRE INSURANCE in Matador is a bargain. The city has just been granted a 25% credit, which means that on a \$100 insurance premium, the purchaser will pay only \$75. It is the highest credit possible for the State Insurance Commission to grant. Bill Pipkin, local insurance agent Saturday advised the Tribune that he had received the 25% credit rating from the agencies which he represents. The new rate will become effective April 1.

## TRAIL DUST

By DOUGLAS MEADOR

Measuring character by material achievement is like judging the heat of a fire by the amount of smoke it produces.

★★ We are all victims of circumstances, most of which we have created ourselves.

★★ Some of our best hours may be traced directly to absence of interference from our own planning.

★★ Television would not have been as successful fifty years ago as it is today because cane-bottomed chairs are not equipped with swivel base.

★★ If praying men have anything in common, it is probably the weakness of faith sufficient to bring about impatience before the answer of prayer.

## Church Plans for Coming Campaign

Signing of pledges for attendance in a four-Sunday campaign in the First Baptist Church Sunday School will begin Sunday. It was announced this week.

Pledge cards will be presented in each class and department in the Sunday School for the next three Sundays leading up to the beginning of the campaign March 20 and running through April 10, the last Sunday of the spring revival which begins April 3.

Goals for each class and department have been set by the teachers and officers, and general superintendent Bill McCaughern expects some classes to pledge 100 per cent the first Sunday.

Members of the Sunday School will be asked to pledge themselves to the "Show Your Faith" campaign, which is based on the Scripture, Ephesians 6:16, "Above all, taking the shield of faith, wherewith ye shall be able to quench the fiery darts of the wicked."

The revival April 3-10 will feature Dr. Douglas Carver, pastor of the First Baptist Church, Pampa, as evangelist and John Matthews, educational director of First Baptist Church, Vernon as song leader, as previously announced by Rev. Gene Hawkins, pastor.

WORLD DAY OF PRAYER PROGRAM SCHEDULED  
In observance of World Day of Prayer, a program is scheduled Friday, March 4, at 3:45 p.m. at the First Methodist Church. It was announced this week.

ATTEND DRUGGIST MEET  
R. M. (Bob) Stanley and son, Fred Stanley, Thursday evening attended the quarterly meeting of the Crosby County Pharmaceutical Association, held in the Community Building at Crosbyton. Approximately 25 area druggists attended. Two representatives of the University of Texas Extension Service appeared on the program.

It is the highest credit Matador has received since 1952. Estimates are that property owners here may save \$4,000 (or more) per year.

The key rate of a municipality is determined by the efficiency of the fire department, reserve fire trucks, nightwatchman service, the city's water system, and other factors.

Matador has been fortunate in its fire losses during recent years which may be attributed in part to extreme caution of its residents.

Much of the credit must go to Fire Chief Freddie Welling and the Matador Volunteer Fire Department members, the training which the department has had, and the ability to use the fire fighting equipment.

By way of contrast, neighboring city of Paducah, plagued by serious fires in recent years, has a 15% penalty on its fire rate. The same amount of insurance protection in Paducah would cost 40% more than it does in Matador. This is in no way a reflection on the efficiency of Paducah's fire department, which is one of the best, but merely cites circumstances which have created wide variance in fire rates in the two communities only 30 miles apart.

## JUNIOR JOBS

by Ida Fair

The juniors are proud to announce their future stars: Garland Glascock, Carol Campbell and Linda Thompson. These three make up three-fourths of the Interscholastic League One-Act Play cast.

Representing the junior class in Interscholastic League Spelling this year will be Anita Martin. Ida Fair will be a second alternate.

The biology class seems to be in controversy over "stills." Are you getting some competition, Mr. Moore?

Mrs. Oden is having a hard time keeping control of her sanity. She teaches us what to say then the minute we get out of the room we start our old habits again.

The junior assembly is now in order. Our program will be February 26 in the high school auditorium. We would like for all parents and the public to attend. This promises to be a good one, and we know some new talents will be uncovered.

## FISH FRYIN'

by Ann Garnett

The freshmen have been lucky to have only one student out with the mumps this year. With the mumps going around everyone who hasn't had them is being particularly careful. Barbara Bird caught them just in time to miss the Valentine party she had been talking about these last two weeks. It seems funny that Jimmie Willing was just getting over them when Barbara took them, doesn't it?? We think Barbara is trying to get a lot of publicity this year. Ever since school started, she has been doing things that get her name in the paper. For instance, the little incident of the Drivers' Ed car. What's up, Barb?

## SENIOR SCRIBBLES

by Daphne Lynn

It is hard to get the attention of the seniors in study hall now, because they are always staring at the wall on their side of the room. Could it be that they are admiring themselves in the new senior group picture recently hung on the wall? It is the first of the "60's" to be hung in the study hall.

"A quitter never wins and a winner never quits," was the motto chosen by the seniors in a recent class meeting. This was their motto when they graduated from the eighth grade. They also chose their class colors of red and white.

Mrs. Estes, as guest teacher, presented a comprehensive study of the book, "Reaching Rural Churches," by J. T. Gillespie, a Southern Baptist Home Mission worker.

**Roaring Springs Team Outstanding in Grass Judging**

An outstanding record has been chalked up by the Roaring Springs Grass Judging team, a unit of the Roaring Springs FFA Chapter tutored by Billy Peacock, vocational agricultural teacher.

In competition with 49 teams represented in the Grass Judging Contest last week at the Fort Worth Fat Stock Show, the Roaring Springs team placed 6th with 1099 points, trailing behind the fifth place team and a banner won by Benjamin, by only three points. The top score by the Gatesville team was 1147.

Bert Green, son of Mr. and Mrs. Mervin Green, was fourth high individual in the contest with a score of 389 out of a possible 400.

"It was a very good contest with every one having to work very hard to earn the points which they made," declared Peacock.

Students making up the team were Bert Green, A. J. Dye and George Smith with Max Thacker as an alternate. Other boys attending to get the practice and experience were Lewis Carpenter, Ronnie Davis, Truman Robbins and Nathan McCleskey.

The Roaring Springs team and instructor deserve to be commended on their efforts and standing, boasting one of the top grass teams in the state.

"This type of work opens the way for the student, after he finishes high school, to continue in the field of Range Specialist, S.C.S. work and numerous other fields of agriculture," Peacock pointed out.

**Soil Tests Urged**

Present project of the Roaring Springs Chapter is soil testing, which is being publicized with posters in business establishments, urging farmers to have their soil tested now instead of later when the soil laboratories are so busy.

Farmers wishing to have a soil test may contact the Ag chapter who will come to the farm and take samples and send in to the soil laboratory. Only charge for this service is the \$2.00 laboratory charge for testing and the postage necessary to send it. The samples are sent to Texas Tech College Soil Lab.

"After all, you wouldn't buy a car without looking under the hood—why try and guess what's under the soil?"

**COUNTY AGENT PALLMEYER SAYS:**

**ADAPTED VARIETIES BOOST COTTON YIELDS**

Selection of adapted varieties of cotton can boost cotton yields, grade and profit. Cotton variety recommendations for Texas vary with soil types, climatic conditions and farming practices.

The increase in mechanical harvesting should cause producers to give consideration to varieties best suited to the type of machine they plan to use.

Storm resistant or stormproof varieties are for strippers, while open boll types are for cotton pickers or hand gathering.

Three to four plants per foot in 40" rows are ideal for strippers. Control grass and weeds to improve quality and for more efficient machine operation.

Rolling Plains and High Plains producers will find storm-resistant Blightmaster, Paymaster 101 Stormking, Northern Star, Lockett 88, Lankart and Western Stormproof suitable for strippers, while Deltapine types, Paymaster 54B, Empire and other adapted open boll types are designed for strippers or hand harvest.

Plant only seed of varieties known to be adapted to the area, or if a new variety is to be tried,

**OLD SAVINGS BONDS UNDER NEW RULING**

Even your old saving's bonds are worth more under the new ruling, so the old bonds you have been saving now draw more interest. Interest rate was increased by one-half per cent. All E and H bonds bought before June 1, 1959 will draw one-half per cent more than originally promised, from this point to maturity.

Because they pay higher yields the older they get, you probably have many old bonds that will pay you above 4%, from now to maturity dates. Don't think that getting rid of the old three and three and one-fourth per cent bonds to buy the new three and three-fourth per cent ones is making money for you. Think twice, and then figure each transaction separately, as the old bonds are more valuable than ever.

### Garden Club Hears Program on Birds

An interesting flannelgraph presentation of bird life was given by Mrs. W. N. Pipkin at regular meeting of Matador Garden Club, held Feb. 15 in the home of Mrs. W. F. Jacobs.

The meeting as called to order by the president, Mrs. Forrest Campbell, who conducted a short business session.

Mrs. L. C. Harp followed Mrs. Pipkin on the program with a discussion on being a litterbug, and displayed several different types of litterbug containers.

Mrs. W. F. McCaghen served as program leader.

Japonica at the home of Mrs. D. E. Pitts Sr. was selected as "Garden Spot of the Month."

### local items

Mrs. R. E. Campbell Jr., and daughter, Carol visited in McLean during the week end with Mrs. Campbell's other daughter and family, Mr. and Mrs. Charles Cullin and baby daughter, Charise.

Bill Moore of Fort Worth, and Mrs. J. M. Harper and son, Cris, of Lubbock were visitors Sunday and Monday in the homes of their sisters, Mrs. Olive Russell and Mrs. John Hamilton.

### Roy Taylor . . .

(Continued from page 1)

and is well acquainted with the work of the Legislature.

In his statement announcing his candidacy, Taylor declared:

"Many matters of great importance will come before the next legislature. These matters call for representatives with deep convictions. They call for representatives who can be trusted to stand firmly by what is right and honest in spite of pressure from political groups.

"Our state and nation is taxing our people beyond all reason. Too much of the taxpayer's dollar is being lost through waste, extravagance, inflation and corruption. We must put an end to this and to the parade of higher and higher taxes.

"Taxes at all levels of our government are too high, a condition which can be corrected only by a careful and complete examination of governmental operations, followed by positive action designed to give us a more efficient, economical and business-like system.

"This can be done only by legislators who will not be influenced by economic ties or special interest groups and who are free from political entanglements. If elected, I will work for the following ideals and proposals:

1. Opposition to a general retail sales tax and a personal income tax.
2. Support for the general recommendations of the Hale-Aikin School program with local control of schools guaranteed.
3. Elimination of inequities in the new auto insurance plan which the present Insurance Commission and the last Legislature failed to remedy.
4. Adequate pensions and medical care for our aged citizens.
5. Support for a progressive state highway program, including a continued expansion of the Farm-to-Market road system.
6. Retaining and improving the state cotton research program to find more commercial uses of cotton and its by-products.

### POLITICAL ANNOUNCEMENTS

For Sheriff, Tax Assessor and Collector:  
Jinks Wilson (re-election)

For District Attorney,

7. Adequate legislation to insure conservation of our precious natural resources, with emphasis on soil and water conservation.

8. Business-like conduct of all the state activities, with faithful and diligent representation at all times.

"I feel that our ranchers and farmers are entitled to fair prices and fair treatment without being hamstrung by unnecessary state or federal interference and controls.

"Every citizen has a responsibility to choose carefully the men who will represent him in the operation of our state government. I will sincerely appreciate your serious consideration of my candidacy. I am campaigning in an effort to meet and talk with each and every person between now and election day, Saturday, May 7."
