

Bank Issue In Senate

WASHINGTON, July 16 (AP)—Chairman Wagner (D-N.Y.) of the senate banking committee called today for United States membership in a world fund bank which he said would bring "orderly markets and dependable currency values."

Wagner submitted to the senate the monetary proposals named collectively "Bretton Woods" after the town in New Hampshire where they were born one year ago in a world conference.

Vinson Named By Truman To Treasury Post

WASHINGTON, July 16 (AP)—President Truman today nominated Fred M. Vinson, war mobilization chief, to succeed Henry Morgenthau Jr., as secretary of the treasury.

The chief executive acted ahead of schedule in order to comply with a request by Margenthau that the new secretary be named without delay so he could tackle a number of pending financial problems.

Mr. Truman first had planned to submit Vinson's nomination only after returning from the Big Three meeting in Berlin.

The president also submitted to the senate today the nomination of Theron Lamar Caudle of Wadesboro, North Carolina, to be an assistant attorney general succeeding Tom C. Clark, now attorney general.

Caudle, 41, is a 1926 graduate of Wake Forest College who since 1940 has been United States attorney for the western district of North Carolina.

Harold William Judson of California, who used to practice law in the president's native Missouri, was nominated for assistant solicitor general to succeed Hugh B. Cox, whose resignation for "personal reasons" has been accepted by Mr. Truman.

Chinese Mop Up Kanhsien Troops

CHUNGKING, July 15 (AP)—Chinese troops were reported mopping up Japanese remnants in the streets of Kanhsien today after capturing the airfield south of that Kiangsi province city—sixth former American air base site to be regained by the Chinese in their current drive.

To the southwest in Kwangsi province other Chinese forces were closing in on still another former American air base at Kweilin. The Chinese high command announced today that one Chinese column had captured Hwangminkang on the Hunan-Kwangsi railway 50 miles southwest of Kweilin.

Another Chinese column captured Liukianhsien, 35 miles northeast of Liuchow.

The major portion of the Japanese troops garrisoned at Kanhsien were reported retreating to the north in the direction of Wanam.

On the east China coast, meanwhile, Chinese troops recaptured Chonghsien in Chekiang province, 117 miles south of Shanghai.

Further south the Chinese seized Limkon, important highway center in the neck of the Liuchow peninsula.

Leopold Refuses To Abdicate Throne

BRUSSELS, July 16 (AP)—The Belgian cabinet met in emergency session today following an announcement by Prime Minister Achille Van Acker that King Leopold had decided against abdicating but also had decided not to return to Belgium immediately.

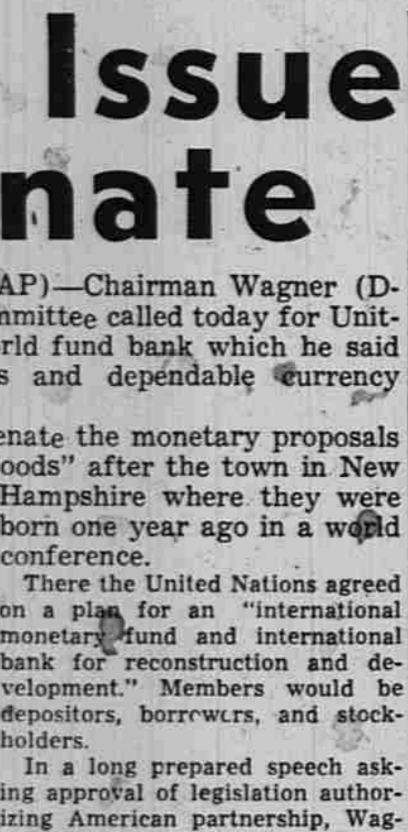

Rumors were current that the king had addressed a message to the Belgian people saying he wanted to await a general election before making up his mind on a course of action, but there was no confirmation of this.

The prime minister told newspapermen yesterday that in view of this situation, the regent, Prince Charles, "has refused the resignation of the government" and consequently the present government will go into office again.

Former Resident Of Big Spring Succumbs

Mrs. Creed Coffee received a message recently informing her of the death of Mrs. Hal R. Townsend Wednesday in El Paso. Funeral services were held there Friday.

Mrs. Townsend's only son, First Lt. Wayne Townsend, was reported killed in action in New Guinea January 10. Lt. Townsend attended school here several years ago when his parents lived in Big Spring.

Truman Visits German Capital

Visits With Churchill, Talks With Advisers, Awaits Stalin Arrival

By DANIEL DE LUCE and ERNEST B. VACCARO POTSDAM, July 16 (AP)—President Truman talked with Prime Minister Churchill and toured the wrecked heart of Berlin today preliminary to the first Big Three meeting, at which the war with Japan likely will be a leading topic.

First American president to visit Germany in 25 years, Mr. Truman had an opportunity to see Adolf Hitler's ruined and looted chancellery, the battle-scarred reichstag and the wreckage of the Tiergarten.

Soviet spokesmen said they had no word that Premier Stalin and Foreign Minister Molotov had arrived in Potsdam, but added: "They will be here in time for the opening of the conference." The opening sessions, originally scheduled today, apparently had been delayed until tomorrow.

Prime Minister Churchill called on Mr. Truman for their first meeting since President Roosevelt's death, but this was described as simply a courtesy call.

Mr. Truman also conferred with Secretary of State James F. Byrnes, veteran of the Yalta conference, and Admiral William D. Leahy.

The scores of state and military leaders talked in an atmosphere as remote to the outside world as Shangri-La. The 200 newsmen assigned to the momentous and closely guarded gathering got no closer than the adjacent suburb of Sehlendorf. The conference may last three weeks and the only authoritative news from it will come from the conferees themselves.

Stalin's first objective—defeat of Soviet enemies in the west—has been achieved. The others are said to be:

Under the new alignment, Giles explained, "fury of the B-29 program is about to be doubled." Superforts will concentrate their "full destructive weight where it will put Japan out of the war-making business as fast as possible."

The 21st Bomber Command on Guam and old B-29 groups in China and India are inactivated; all are consolidated under the new USASTAF—official designation of U.S. army strategic air forces.

After Superfortresses begin operations from Okinawa bases, "there will be a number of valuable targets within range on the Asiatic mainland," he said. Presumably northern Japan, thus far untouched except by the navy, also will come under B-29 attack.

Gen. Carl A. Spaatz, with Giles as his deputy, heads the consolidated strategic forces.

The 20th Airforce will continue to operate from Marianas bases, with support of P-51 Mustang fighters from Iwo Jima. (Now operating independently as the Seventh Fighter Command, the two Mustangs formerly were part of the Seventh Air Force.) Maj. Gen. Curtis E. (Old Iron Pants) Lemay, of the old 21st Bomber Command, heads the new 20th Air Force.

Parents of children starting to school in September were urged to have them vaccinated and examined now by Health Nurse Ann Fisher.

Mrs. Fisher reminded that there might be some physical defect which if discovered now, might be corrected before the beginning of school in September. She reminded that some inoculations might cause the child to be upset, and should be out of the way before school opens.

The nurse added that quite often the teacher might have some physical defect which should be corrected before teaching another year. She warned that the time was short now until the opening of classes, and that teachers should have check-ups also.

JAP CABINET MEETS LONDON, July 16 (AP)—The Tokyo radio said today that Premier Suzuki had called an emergency meeting of the Japanese cabinet and all regional governors at his home to discuss the war situation and prepare the Japanese people for invasion.

Stiff Shellfire Covers Rugged Marine Invasion

Splash Ashore To Find Only Docile Natives, Japs Have Gone Away

By ROBERT GEIGER IHIYA ISLAND, Okinawa, June 5 (Delayed) (AP)—Rugged, tensed marines of the Eighth regimental combat team splashed ashore on this little island 310 miles south of Kyushu June 3 behind a stiff rocket and shellfire barrage and beneath low-flying air cover and found no one but docile natives.

But the only Japanese in the whole area—garrisoning a tiny island nearby—had watched the barrage and promptly rowed over in a long boat to surrender their entire 156-man garrison.

(Adm. Chester W. Nimitz today—July 16—announced the unopposed occupation of Ihiya and Aguni, June 3 and 9, respectively, but did not mention the surrender of the third, Ihiya, 8 miles long, is about 20 miles northwest of Okinawa's northern tip; Aguni is 35 miles west of central Okinawa.)

Well, it was a good training maneuver," remarked Maj. Gen. Leroy P. Hunt, of Berkeley, Calif., who commanded the marine invasion.

The absent Ihiya garrison (like Aguni's) evidently had been called to Okinawa more than two months earlier to aid in the futile defense of that large island.

A few Japanese planes approached Ihiya Ron the first day but failed to reach the American invasion fleet. A tropical storm—complete with typhoon warnings—made the ships withdraw temporarily Monday but did no damage.

Accidents cost the lives of two marines and injured 12. A score of natives were wounded by the pre-invasion barrage and seven died. Approximately 3,000 others waved white flags and surrendered immediately. No one committed suicide.

The Ihiya natives, a pitiful band of ragged old men, women and children, were dumfounded as they watched the helmeted, broad-shouldered marines roll up in huge amphibious tractors.

Speaking only Okinawan dialect, they had trouble making American interpreters understand that this was the first time, any sort of mechanical vehicle had moved along their roads.

At 18, he will be one of the youngest men ever to enter the naval academy from here.

A 1944 graduate of Big Spring high school, Barkley starred in football, being mentioned prominently as an all-district center. He was co-captain of the Steebs his senior year and served part of the year as president of the student council. He also was active in scout work, having attained the rank of Eagle.

He and his mother leave Tuesday for Fort Worth for a brief visit and he will continue from that point to the academy.

1942 CARS RATION FREE WASHINGTON, July 16 (AP)—The OPA today removed all rationing restrictions on new 1942 model passenger cars, effective Wednesday. The agency described rationing as no longer necessary because new cars soon will begin reaching the market. The action will permit dealers to clear their stocks of the 6,000 cars still unsold.

Pre-School Health Check-Ups Advised

Parents of children starting to school in September were urged to have them vaccinated and examined now by Health Nurse Ann Fisher.

Mrs. Fisher reminded that there might be some physical defect which if discovered now, might be corrected before the beginning of school in September. She reminded that some inoculations might cause the child to be upset, and should be out of the way before school opens.

The nurse added that quite often the teacher might have some physical defect which should be corrected before teaching another year. She warned that the time was short now until the opening of classes, and that teachers should have check-ups also.

JAP CABINET MEETS LONDON, July 16 (AP)—The Tokyo radio said today that Premier Suzuki had called an emergency meeting of the Japanese cabinet and all regional governors at his home to discuss the war situation and prepare the Japanese people for invasion.

Enemy Dealt Heavy Blows On Sea, Air

By LEIF ERICKSON GUAM, July 16 (AP)—Dealing the enemy a devastating succession of blows, U.S. sea and air might virtually erased three Japanese cities, struck heavily at 13 others and sank or destroyed 152 surface craft over the weekend.

The powerful Third Fleet all but leveled two Japanese oil centers in northern Japan while its carrier planes burned another to the ground, winged offshore to knock off 108,000 tons of shipping and joined with American-based aircraft to bomb and strafe 13 additional Nipponese towns and cities.

(Japanese Domei news agency early today said the fleet had withdrawn, presumably because of bad weather, but warned it might return any time and any place. (DOMEI said 2,500 carrier

planes took part in the strikes on Northern Honshu and Hokkaido—1,500 Sunday, 1,000 Saturday. The agency claimed early reports indicated damage was "slight.")

Battleship forces spearheaded by the 45,000-ton superbattleships Missouri, Iowa and Wisconsin, all but destroyed the iron and steel center of Mororan on Hokkaido Island yesterday. Carrier planes had burned out practically all of industrial Koshiro on the same island the day before.

B-29s made a return visit to attack the Nippon oil company plant at Kudumatsu on Honshu, about five miles southeast of Tokuyama, with high explosives.

Elsewhere in the far western Pacific, navy search privates heavily attacked Korea; army Liberators hit the Singapore area and shipping off southern Honshu; Thunderbolts ranged to the China coast; attack and fighter bombers hit two Kyushu island cities; carrier planes struck three airfields on Honshu, and 100 army Mustangs attacked airfields around Nagoya.

The Tokyo radio additionally reported that carrier planes also raided Otaru, Abashiri, Ashigawa and Obihiro, all on Hokkaido.

The battleship shelling of Muroan blasted two steel plants, one synthetic oil factory, other war plants and left the city rocked with fierce explosions and fires. Saturday's bombardment of Kamashi on Honshu set fires in the steel mills which spread to the waterfront.

Between 50 and 75 Superfortresses struck Kudumatsu, one of the fourth largest oil refinery center in the home islands. The B-29 command reported that previous attacks on nine of Japan's 10 fuel centers inflicted damage ranging from 45 per cent at Otake, to 95 per cent of the Maruzen Oil Refinery at Shimotsu, on the inland sea.

The reports on carrier strikes cover Saturday and only preliminary figures for Sunday morning. Strikes on both days were made in adverse weather.

When their force withdrew, the Nippon steel company's large plant was rocking under a series of terrific explosions. Stores of munitions apparently were blowing up.

In the most destructive naval night attack, Badger's big battleships pounded against any Japanese defenses and started fires spreading along the city's waterfront.

In the first strikes yesterday, nine ships and six small craft totaling 12,000 tons were sunk and nine ships and 30 small craft totaling 12,000 tons were damaged in the early morning.

Besides his commands in Arizona and Virginia, the colonel has commanded Moffett Field, Calif., and the army air field at Chico, Calif., and the overseas replacement depot at Greensboro N. C., an assignment he had in addition to his duties at Phoenix.

Col. Nissley, a native of Kansas, is married and has two daughters. His family are at present residing in Long Beach, Calif.

His new command here is a station with a reputation throughout the AAF Central Flying Training Command for exceptional administrative and military efficiency attained during Col. Rockwood's tenure of command. Col. Rockwood also has stressed the cadet bombardier training program with emphasis on flying safety of which the Big Spring Bombardier school has an outstanding record.

MRS. HINES DIES DALLAS, July 16 (AP)—Mrs. Laura Clayton Hines, 72, native of Lewisville, Denton county, widow of the late Howard B. Hines, Wichita Falls business man, died at her home yesterday. She moved here with her husband in 1920.

Col. Nissley saw his first military training at the University of Texas, where he attended the Air Force ground school in 1917, before going overseas in September of that year for pilot training in Italy and France.

He received his commission as a first lieutenant in the Aviation Section of the Signal Corps while on duty at Tours, France, in July of 1918, and was instructing on Liberty DH's at the Issoudun air station in France when the armistice was signed.

Returning to the United States in 1919, he retained his reserve commission until being commissioned in the regular army in 1923, when he was sent to Brooks Field, Texas, for a refresher course.

Since 1925, when he graduated from Kelly Field, Texas, the colonel has served at Langley Field, Va., twice; Rockwell Field, Calif.; Long Beach, Calif.; Maxwell Field, Ala.; Chanute Field, Ill.; and Denver, Colo., where he activated Lowry Field with a cadre of 500 men.

Those who came washbuckling across France and Belgium sweeping ladies off their feet have found the frauleins just do not sweep.

For one thing, most of their menfolk are home now. The discharge of German soldiers by tens of thousands daily has provided escorts for most young women—especially the most attractive ones.

And on the authority of the camp's Casanova (every camp has one), sour black bread, cheese and sauerkraut, do not exactly make for the breath of spring among German girls.

"Anyway, you know," he said, "most Germans haven't had soap for six months."

From even talking with Germans, saying it was "cruel and inhuman."

"Billeted in one of the picturesque little chalets rimming the shores at this lake resort, they had been exposed daily to scores of bronzed Bavarian and Austrian belles sunbathing.

These three sat in a jeep today parked at the edge of a softball diamond. They were not fraternizing. They were just talking about it.

"It says that 'conversation with adult Germans on the street and in public places' is okay," the sergeant said.

"A GI began untangling his legs from the front seat of the jeep.

"Does that mean—"

"It means just what it says," the sergeant said. "Conversation!"

"Can't you ever touch them?" the soldier asked.

The third spoke up.

THIRD FLEET BOMBARDS JAPAN—Steel city of Kamaishi (explosion symbol) was the target as battleships, cruisers and destroyers of Adm. Halsey's fleet steamed to within 20 miles of Honshu to shell the Jap mainland for first time. At the same time, a carrier force attacked targets on northern Honshu and the northern-most island of Hokkaido, the latter never before hit by American air power. (AP Wirephoto Map).

American League Race For Pennant Tightens

The close four-way race for the American league pennant grew even tighter today, as the New York Yankees defeated Detroit 6 to 4 to cut out the Tigers' lead over the Washington to a game and a half. It also left New York and Boston, who are tied for third place, just two and a half games back of the Tigers.

The Yankees had to pull a three run rally in the sixth inning to win. For pitcher Zeb Eaton hit a pinch-hit home run with the bases loaded off Hank Borowy to put the Tigers out front, 4 to 2 in the fourth inning.

The contest was the first of a scheduled double-header, but the second game was postponed because of rain.

Meanwhile, the Boston Red Sox

were keeping pace with the Yankees as they trimmed Cleveland 6 to 4 in a game called in the sixth inning due to rain. The second game of their double-bill was also cancelled.

The scheduled double-headers between Chicago and Philadelphia and St. Louis and Washington were postponed because of rain.

Over in the National league, the pace-setting Chicago Cubs defeated New York 5 to 3 and 7 to 2 to pull four full games ahead of the second place but twice losing St. Louis Cards.

The double loss dropped New York into fifth place, as the Pittsburgh Pirates swept a double-header from Brooklyn, 9 to 1 and 15 to 3, as Truett Sewell held the Dodgers to seven hits in winning

the opener and Ken Gables stopped them with five safeties in winning the second tilt for his fourth straight pitching win.

The St. Louis Cardinals were slapped down twice by the Boston Braves, 3 to 1 in the opener, and 5 to 3 in the ten inning nightcap. Johnny Hutchings stopped the Cards with six hits in the first game for his fifth win, and Tommy Holmes added his 15th home-run of the year to the Boston campaign.

The Cincinnati Reds downed Philadelphia twice, 6 to 1 and 3 to 1, with Bucky Walters and Vern Kennedy the winning pitchers. Walters stopped the Phils with seven hits in the opener and Kennedy held them to six in the second game.

Today's Pattern

by Alice Brooks

Head straight into summer with a supply of smart, cool hats. This one of straw yarn, with matching bag, is lovely... costs little to crochet.

What could be simpler? Hat and bag are worked in straight bands of mesh; hat is picot-edged. Pattern 7140 has crochet directions for set. Send FIFTEEN CENTS in coins for this pattern to Big Spring Herald, Inc., Household Arts Dept., 259 W. 14th St., New York 11, N. Y. Print plainly - NAME, ADDRESS and PATTERN NUMBER.

Just out! Send fifteen cents more for our NEW 1945 Needlework Book—94 illustrations of designs; crocheting, knitting, embroidery, dolls, other toys, home decoration. Free Pattern for two crocheted handbags printed right in the book.

France Could Have Continued Fight In 1940, Gamelin Says

"This is the first of five articles on the personalities and situations which cost France four years of Nazi enslavement."

By GEN. MAURICE-GUSTAVE GAMLIN (Copyright, 1945, by the Associated Press)

PARIS, (AP)—I am going to surprise you, perhaps, in saying this is the first newspaper article I have ever written. This is the

first, and I am glad that it is for the United States, land of liberty par excellence.

I am frequently asked such questions as these:

"They say that if you had remained supreme commander you would have continued the fight against the Germans. Was this possible from a military point of view?"

"What parts of France could have been held?"

That question, "What must we do?" presented itself to us at two moments.

The first was May 19, 1940, on the evening on which I was suddenly relieved of my command. The Allied armies retreating from Belgium were being forced back toward the Schelde.

I thought it necessary to intervene. Therefore, on the morning of May 19, 1940, I gave the order for a general counter-offensive.

I do not know why.

The Vichy government never allowed this fact to be made public. After the evening of May 19 I was no longer kept informed of events. On Sept. 6, 1940, I was arrested and brought before the court at Riom. On March 4, 1943, I was taken to Germany.

Crown Perches Jauntily On New PGA Champion Heading For Clinic

By FRITZ HOWELL

DAYTON, O., July 16 (AP)—Byron Nelson of Toledo, the one-day PGA championship crown perched jauntily on his sunburned brow, will decide this week whether to retire from golf for a while.

The transplanted Texan, who yesterday defeated Sam Byrd of Redford, Mich., 4 and 3, to take the title over Moraine country club's hilly, wind-swept course, said he would enter the Mayo Clinic at Rochester, Minn., Wednesday for a checkup.

"My back has been bothering me," Nelson explained. "I want to find out just what the trouble is, and if the doctors say I need a rest I'll just put away my clubs until they tell me I can play again."

Nelson's back was injured about two weeks ago in a driving contest preceding the Victory open in Chicago.

Each night during the tourney

Nelson underwent heat, massage and osteopath treatments to prepare for the next day's round; and despite the injury he scored 48 birdies and two eagles, went over only 15 times and finished 37 under par for 204 holes. That performance earned him the title, \$5,000 in war bonds, a huge silver cup and assorted trinkets.

Byrd, the former Yankee baseballer who gave up the diamond for the links in 1936, had 39 birdies and one eagle in his 197 holes of tourney play, but skidded over on 27 holes to finish 14 under even figures.

The victory was Nelson's ninth tourney win in a row, a winning streak never before attained by any golfer.

"I won this one with my bristle," Nelson said. "It got me home in the 38-mile-an-hour wind when I couldn't have reached the green with anything else. I thought Sam had me there for a while, but he let me get away."

In my opinion we no longer had the means.

It was at this moment, then, May 25, that the high command should have placed the alternatives before the government—on one hand to resolve to fight to the end; on the other, to retreat.

"Redoubts" which we could have effectively defended for this purpose, provided they had been prepared, appear to me to have been the Cotentin peninsula, exactly where your troops landed in June of last year; Brittany; the borders of the Mediterranean with the southern part of the Cevennes and the lower Alps, and finally, the left bank of the Garonne to protect Bayonne.

The experiences of Tobruk, of the Crimea, both for the Russians in 1942 and for the Germans in 1944, in East Prussia, at Luebeck and at Dunkerque in 1945, have shown that you can hold out for a long time in narrow and well-chosen redoubts, even against greatly superior forces.

We would thus have gained time for organizing the defense of Great Britain and especially of North Africa.

(Tomorrow—Marshal Petain, the "defensive mind.")

Government Pours Money Into War Plants For Expansion, Repairing

By JAMES MARLOW

WASHINGTON, July 16 (AP)—The government still is pouring money into war plants for the fight against Japan.

The money is being spent for new equipment in existing plants, expansion of existing plants, or for new plants.

The money is being spent by the Office of Defense Plants (ODP) since Germany's fall in May. ODP has committed itself to spending \$4 billion dollars.

The new plants, the expansions and the new equipment are scattered all over the country. So not just one section is benefiting.

The ODP—formerly called the defense plants corporation, part of the government's big lending agency, the reconstruction finance corporation—has spent \$8,600,000,000 since it was established in August, 1940.

ODP officials say they do not know how much more the agency

will be called upon to spend and for this reason:

It puts up the money when the procurement agencies—like the war or navy departments—come in and say they need more of something that is being made or they need something never made before.

Of the 44 million dollars contracted since Germany's fall, 21 million dollars are for new troop trains for use in this country; 13 millions are for a plant making fiber glass which the navy needs instead of kapok.

The ODP owns about 900 war plants. And it owns the machinery which equips about another 1,000 plants.

So far only about 40 complete plants, built in desperate haste to fight a two front war, have been declared surplus.

Three US Basketball Experts Open School

MEXICO CITY, July 16 (AP)—Three U. S. Basketball experts, William H. Miller and Lester McDaniel of Tulsa, Okla., and Bruce Drake, University of Oklahoma coach opened a two-week school here yesterday under auspices of the National Basketball Federation.

Miller, former coach of the diamond Oilers, has been here a month, and has conducted one-week basketball schools in Puebla, Pachuca, Tlaxcala and Cuernavaca. His program includes the capitals of 12 Mexican states.

WHY BE FAT?

Get slimmer without exercise

You may lose pounds and have a more slender, graceful figure. No exercise. No restrictive dieting. With this AYDS plan you don't cut out any meals, starches, potatoes, meats or butter, you simply eat them down. It's easier when you enjoy delicious, vitamin-fortified AYDS before meals. A healthy habit.

Get a large size box of AYDS, 30-day supply only. It's a large size box of AYDS, 30-day supply only. It's a large size box of AYDS, 30-day supply only.

Talbert Headed For No. 1 Tennis Rank

MENASHA, Wis., July 16 (AP)—Bill Talbert, the Wilmington, Del. tennis stylist out to get a No. 1 national ranking, apparently is peering his goal.

Last week he won the clay courts singles crown from defending champion Francisco (Pancho) Segura of Ecuador, to boost his rating. And yesterday he won the western senior title.

Three Electrocuted By Falling Power Line

SAN ANTONIO, July 16 (AP)—Three persons were electrocuted here yesterday when a power line, severed by lightning, fell on the steel top of a truck at a railroad crossing here.

The dead were Rudolfo Martinez, 20, Durango; Estanos Alido, about 50, Pearsall and Maria Martinez, 14, sister of Martinez, of Pearsall. Martinez wife, Mrs. Eliada S. Martinez, 19, was seriously injured.

FLUSH KIDNEY URINE

Benefit wonderfully from famous doctor's discovery that relieves backache, run-down feeling due to excess acidity in the urine

People everywhere are finding amazing relief from painful symptoms of bladder irritation caused by excess acidity in the urine. DR. KILMER'S SWAMP ROOT acts fast on the kidneys to ease discomfort by promoting the flow of urine. This powerful medicine is especially welcome where bladder irritation due to excess acidity is responsible for "getting up at night." A carefully blended combination of 18 herbs, roots, vegetables, balsam, Dr. Kilmer's contains nothing harsh, is absolutely non-habit forming. Just good ingredients that many people say have a marvelous effect.

Send for free, prepaid sample TODAY! Like thousands of others you'll be glad that you did. Send name and address to Department A, Kilmer & Co., Inc., Box 1256, Stamford, Conn. Offer limited. Send at once. All drug stores sell Syrnac Inc.

SUFFERS INJURIES

PRINCETON, N. J., July 16 (AP)—Lightweight champion Bob Montgomery suffered a wrenched shoulder and back and lacerations of the left leg in an automobile accident near here.

Cadets Jump Safely From Burning B-25

WICHITA, Kans., July 16 (AP)—A B-25 Mitchell bomber from the Pampa, Tex., army air base crashed here and burned early yesterday four miles east of Rose Hill, Kans., the midwestern procurement district reported. Milton M. Fagundes, a Brazilian, and Quentin B. Eisey, an American, parachuted to safety. They are aviation cadets.

Fagundes was at the controls when the ship made a night take-off from the Wichita municipal airport. Sixty-five planes from the Pampa base were here for practice takeoffs. Shortly after the takeoff, the bomber developed mechanical trouble and began losing altitude.

Fagundes and Eisey landed in a cornfield near the wrecked plane and escaped with scratches and bruises.

Couple Married In San Diego Recently

Nannie Jo Allen, daughter of Mr. and Mrs. Nathan Allen, and CM 2/C Elwood Carlile, son of Mr. and Mrs. A. L. Carlile, were married July 11 in San Diego, Calif.

Mrs. Carlile is a graduate of Big Spring high school and for the past three years has been employed at the Banner creamery. Carlile also attended the local high school. He served 32 months in the Southwest Pacific, where he participated in four major engagements.

The couple will make their home in San Diego temporarily.

Revival Draws Crowd At Church Of Christ

One of the largest crowds ever to attend services at the Church of Christ heard Raymond Kelcy Sunday evening, according to J. D. Harvey, minister.

Kelcy, leading in the church's summer revival, spoke on "The Plan of Salvation Delivered to the Apostles by the Apostles." He read the last 12 words of Christ from Matt. 28, Mark 16 and Luke 24, and then read Acts 2 to show how the Apostles under this plan to the world.

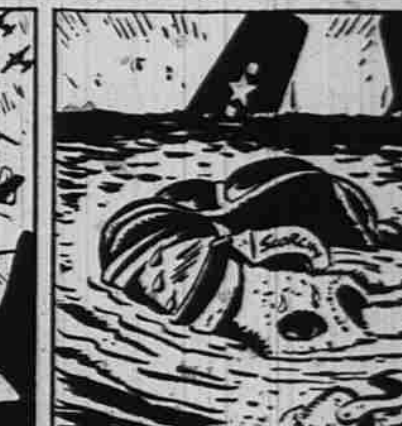

The meeting continues through the week, said Harvey, who extended an invitation to the public to attend services at the church at 14th and Main.

W. A. F. WINS GAME

WACO, July 16 (AP)—The Waco Army Air Field Wolves defeated the Seven-Up Bottlers of Austin yesterday 8-3.

USO Active As Home Away From Home For Servicemen

By JEANNE DICKERSON

After three years of wartime operation, the USO club here goes right on with a full slate of activities to make it a "home away from home" for servicemen stationed and passing through here.

Instrumental in the success of the USO have been Howard Bell, director, and Mrs. Ann Houser, program director. Others who are working with them include children in the various departments.

Chairman of the music library is Mrs. J. R. Farmer. In her department there is a file of classical albums, which are available to servicemen from 1 to 3 p. m. on Sunday afternoons. "We have around 30 albums in our unit now," Mrs. Houser explained as we made a tour of the establishment.

"They are all supplied through popular requests."

Another feature of the music room is home record-making. Servicemen pay 15 cents for the record, make a recording for family or friends, and leave the address with Mrs. Farmer for mailing. Citizens who would like to make records for relatives in the armed forces are welcomed. "The man came in with his wife and six children and made a record for seventh son who was overseas," Mrs. Houser explained.

In the reading room is Mrs. Ruth Burnam, chairman of the library.

The USO library, which is a member of the Book-of-the-Month club, is also supplied by popular request.

Testaments and religious literature are supplied for three faiths: Catholic, by Mrs. Frank Smith; Jewish, by Mrs. Bernard Fisher; and Protestant, by Mrs. J. T. Brooks. Gideon Bibles are also on hand.

Also in the reading room are writing desks, with stationery available at all times for service personnel who would like to write to relatives or friends. There are games such as chess and bridge in progress all the time.

A large game room, which is now under repair, furnishes facilities for ping-pong, checkers, chinker checks, etc. It is also in this room that the church women serve home-cooked food during hospitality hour at 5 p. m. on Sundays. A circuit of 11 churches alternate—a group of women from one church serving one week, another group the next.

As many as 500 service men visit the USO on Sunday afternoons. Some of the men there Sunday, July 15, were Cadet Ralph Johnson of Chicago, Ill.; T Sgt. Hollis Latimer, Nagogoches; A/C Bill DeFries, Springfield, Mass.; Pvt. Kenneth Bird, South Gate, Calif.; A/C G. E. Freas, N. J.; A/C Joe R. Gosso, New York City, N. Y.; A/C Jim Lockhead, Phoenix, Ariz.; A/C Ernest Reagan, Mass.; and F/C Anne Robert, of Bordeaux, France.

A special activity in progress now is the shellcraft class. Servicemen, their wives, and junior hostesses are engaged in making attractive pins and earrings of tiny colored shells. In charge of this group is Mrs. Mary Locke, who is assisted on Wednesdays by Mrs. E. B. McCormick.

"We had a finger painting class last year," said Mrs. Houser. "It was one of our most popular projects. We still have four or five hundred paintings of the boys made."

In the poolroom there is a handy snack bar, which sells sandwiches, ice cream, candy and milk. When asked what they sold most of, Mrs. Houser promptly replied, "Milk."

Cowboy Henry Killed By Dallas Cafe Owner

DALLAS, July 16 (AP)—Claude (Cowboy) Henry, convicted slayer out on parole from the state penitentiary and husband of Toni Jo Henry who died in the Louisiana electric chair, was shot to death here yesterday after an altercation with S. W. Farrow, cafe owner.

Farrow surrendered at the sheriff's office and furnished bond after presentation by his attorney of a habeas corpus writ.

Tank Explodes

CORPUS CHRISTI, July 16 (AP)—A partially filled 80,000 barrel tank of naphtha at a tank storage terminal here exploded last night and for a time the fire threatened to spread to 20 other big tanks. Damage was estimated at \$50,000.

Smoke filled the sky for hours. Cause of the explosion, which occurred at the General American tank storage terminal, was undetermined.

Airport-Baptists Dedicate Church

The Airport Baptist church was dedicated Sunday with the assurance that as long as the congregation made its program that of the living church of God, success was bound to result.

Rev. James Roy Clark, pastor of the East Fourth Baptist church from whence sprang the seed for the Airport church, reminded those attending the dedication that Christ had established the church with the promise that nothing would prevail against it.

During the ceremonies, the Rev. Edwin Spears, pastor, called for an offering and \$616 was raised in bonds, stamps and cash toward the building fund. This will reduce the indebtedness below \$2,500.

History of the church was sketched by A. L. Leonard, chairman of the board of deacons. Rev. A. C. Ernest Reagan, Mass., and F/C Anne Robert, of Bordeaux, France.

Value of the church to the community was discussed by J. H. Greene, chamber of commerce manager; Joe Pickle touched on a program of publicity for a church; Rev. Dick O'Brien, First Baptist pastor, looked on the new church as an eternal investment, and Rev. Bill Arnett pointed to need of various church organizations. Invocation was by Rev. Chester O'Brien and David Green sang a special selection. The meeting was attended by a large number of members, among them young women who served as ushers and boys and girls who chopped cotton in

"We'd like to put them in for all who want them"

That's our business—to install telephones and furnish telephone service. We'd much rather put in telephones for all those waiting than put this ad in the paper. But there is still no choice. Though V-E Day has come and gone, the Japanese war is making heavy demands on Western Electric's telephone factories.

Of course, the end of the war in Europe brings us closer to the day when everyone who wants tele-

phone service can get it without delay. But that day would still be far off, even if all war demands ended tomorrow. Telephone equipment—dial central office equipment, switchboards, even cable—is complicated. It takes a long time to make, and a long time to put to work.

At present, a trickle of new equipment of various kinds is being made. Until more is available, we'll continue to do our best with what we have. Thanks for being patient.

Time To Repair Binders As Big Feed Crop Looms

"Now is a good time to repair corn binders for feed cutting since it looks as if a good percentage of the county will be planted in feed," said George Oldham, owner of Oldham Implement Company, located on the Lamesa highway.

The company has been giving advice and serving farmers of this district since 1935 when Oldham came here from Snyder. He has been in the implement business since 1929. They are glad to assist each farmer with his particular problem.

Oldham urges the farmers to get their calcium arsenate, (leaf worm poison) early because since the rain, it looks as if they will need it.

The plant covers 13,000 square feet and Oldham also operates a repair shop in connection with service for tractors and trucks. The company stands ready to give the best in quick and efficient service to its customers.

At the present, Oldham Implement Company has five or six used tractors for sale, of course, ration free. They also have one new Farmall B, hammer feed mills and 8 foot and 10 foot Fairbanks windmills.

All of Oldham's equipment and machinery bears the trademark of distinction. Big shelves and floor house the very best in first-class farm equipment.

The first plants for the exclusive manufacture of rayon in the United States began operation in 1912.

Air Conditioning Roundup Coleman Feature

Air-conditioned comfort is only one of the many conveniences offered residents at the Coleman Tourist Courts, 1206 E. Third St. Some of the cabins are equipped with installed cooler units, and others have ceiling and other type fans.

The apartments are also all completely furnished. Each unit contains a kitchen, private bath with hot and cold running water, and a bedroom. Almost all the kitchens are equipped with electric refrigerators.

Housing both temporary and permanent residents, the comfortable and attractive cabins each adjoin garages, which are provided at no additional expense.

Unlike most other wartime owners, L. E. Coleman places no restriction upon the rental of his units to families with children. "We just can't turn them down," he said.

This largest single tourist court, which at present includes 67 cabins, offered as a part of its pre-war services a grocery store, a service station and a hardware store. At present these departments have been closed, but Coleman plans to reopen them after the war and resultant shortages are over.

Although the cabins are filled to capacity at the moment, vacancies occur from time to time when men connected with the local bombardier school are assigned to other posts. These housing accommodations have done much to relieve the housing shortage in Big Spring, and the unit, which was originally erected to accommodate tourists and visitors principally, has been a life-saver to wartime residents.

Permanents Help Beat Hot Weather

Despite the wilting effects of West Texas' summer heat, Big Spring women can and are presenting a crisp, well-groomed appearance. They are getting Nabors' permanents and their well-kept and manageable hair presents an effect of coolness.

Mrs. Zeila Nabors said Monday that they have the various types of permanents which are popular now, and expert operators know which type should be used for each texture of hair.

Following the permanent waving, trained operators discuss hair styles with their customers and then arrange the hair in a becoming, easily-kept manner. Women today realize that their hair has a great influence on their overall appearance, and hence are taking much more interest in their hair.

Nabors' Beauty Shop is the dealer for Conture cosmetics, and have Revlon products.

Operators at Nabors' include Betty Burns, Nell Tiner and Mrs. Nabors. Jewell Monteith, who is out of town now, will return about Sept. 1. Mrs. Nabors advised many of her customers.

All three operators have full appointment books, and customers were urged to make their appointments early. All women have to do to be assured of the best in hair dressing is call 1232 or stop by the Nabors Beauty Shop at 1701 Gregg street.

New Budget Director Given Vet Preference

AUSTIN, July 16 (AP)—First veteran to be appointed to a major state job under the new preference law is Edwin K. Stork, named state budget director by Weaver H. Baker, chairman of the state board of control.

Stork, law graduate of the University of Texas, served as a pharmacist's mate in the U. S. navy from March 16, 1944 until April 25, 1945 when he was given a medical discharge.

Editorial - 1

A Heavy Responsibility

President Truman will be acting under heavy responsibility, not only to the United States but to the world as well, as he engages in conversations with Premier Stalin and Prime Minister Churchill.

In many respects, his task is heavier than that under which his predecessor labored so wisely and well. In previous days, the late President Roosevelt had the difficult job of reconciling the positions of England and Russia as well as trying to maintain the best interests of the United States.

Now that phase of the war is over and to some extent this instrument of compromise and reason will not be at the disposal of President Truman. Instead, he must rely upon the logic that if harmony could be achieved for the prosecution of a war, it is much more imperative that it be achieved for the peace of the world.

Perhaps his decision not to engage in separate conversations with heads of the other nations, at least prior to the Big Three meeting, will be to the advantage of the president, for he will enter the meeting free from any bias. It may enhance his position as the conciliator, and at the same time leave him with a firmer hand in bidding for the interests of this country, which it seems to us, are those which will be in the interests of mankind.

We'll Take The Rose

Damage to fields and crops due to the hard rain Saturday no doubt is rather severe, but then the net results will be beneficial. We could have got by without the latest outpouring, but it came, and that's that.

All in all, this unusual stretch of wet weather in July has retrieved an almost altogether hopeless crop condition. It is not, it seems to us, to figure that whatever is realized in crops this year may be set up as a value of the July rains. This will not consider the inestimable good done to hard-hit ranges by reviving grass and filling depleted stock tanks.

Today Howard county has a real subsoil moisture; it has more water trapped than perhaps at any time in its history. Fields and roads are washed, but that's the thorn with the rose, and we'll take it in good spirits, and with thankfulness that we got the rose.

Mirrors Of Austin—

Legislative Redistricting

By PAUL BOLTON

The Pennsylvania legislature also failed to redistrict and the courts up there held that all legislators must run at large.

Nothing may come of it, but Governor Coke Stevenson is studying the records in the Pennsylvania case. According to the information available in Austin, the governor of that state brought the suit up there to force redistricting on a recalcitrant legislature.

It is definite that the governor has asked other lawyers to bring the Pennsylvania decision for him in its relation to Texas laws and constitutional provisions. Stevenson strenuously recommended that the last legislature do something about complying with the constitutional mandate to legislatively redistrict the state.

Should he find the Pennsylvania precedents applicable in Texas one of two courses might be:

1. A special session for redistricting, pitched upon a warning to

legislators of the consequences if they failed.

2. A lawsuit with the same results as in the Pennsylvania case.

If the governor chooses neither course, then there's always the possibility of private citizens bringing suits, although such suits are not particularly favored by the courts. It's possible that citizens in some such city as Corpus Christi, which is clearly subject to discrimination by the present districting setup, might have the basis for a suit in that they might be able to show that they as individuals do not have the equal protection of the laws.

The date for the "Jackson Day" democratic dinner in Texas slips further and further away. The nearest its sponsors now can come to a date is the last week in July or the first week in August. But even those indefinite dates are tentative.

The committee in charge is so set on getting Senator Tom Con-

The War Today

by Dewitt Mackenzie AP Foreign News Analyst

It won't be long now before we have an answer to the greatest question that has grown out of the European war—whether the Big Three can stand solidly together in the reconstruction of a shattered continent as they have stood together on the battlefields.

If President Truman, Generalissimo Stalin and Prime Minister Churchill are able to keep the Berlin conference in the channels of unity and mutual confidence, then we shall have won the peace as we have won the war. Solution of all the great problems growing out of the Hitlerian conflict are bound up in this unity among America, Britain and Russia.

One can foresee blunt talk about the conference table, for confidence depends on the dissipation of any suspicions which the Big Three may have of one another's intentions. Confidence also calls for the mutual respect which recognizes that each has contributed its limit to the war partnership and that none is entitled to special prerogatives. While we are on the subject of contributions, it wouldn't be surprising if one of the results of the conference would be to let the rest of Europe understand what our Russian and British allies already know, and this is that there are limits to the resources which America can devote to the rehabilitation of the old world. The mistaken idea seems to prevail in many capitals that our Uncle Sam is Santa Claus.

Undoubtedly the freedom with which Uncle Sam has contributed throughout the war has created the impression that his means are unlimited. Well, he's not complaining, but the fact is that his Sunday suit is beginning to show some shiny spots.

There are major questions which are likely to arise at the conference. Among them may be Russia's attitude towards Japan—at least Tokyo is looking for this. There are numerous boundary readjustments on the fire, and hundreds of thousands of civilians to be transferred in order to avoid fresh minority problems. The whole continent is rocking with tense political situations, and the fiery Balkans are on the verge of upheaval.

nally as the principal speaker that it now looks like the dinner will be held entirely at the senator's convenience. However, the democratic officials still insist that the dinner will be held.

Some folks are putting together in a "cause and effect" manner Senator Rogers Kelley's return of his salary to the state. They say the senator is casting long eyes at the attorney general's office; and that one of the editors in his district had been "riding" him for accepting pay from the state during the time he was in the army.

Capt. Kelley undoubtedly would make a strong appeal to the service man vote in any race, as a man who spent months in the Pacific theater of operations. How much influence a man's service record is going to have on his political career remains one of those questions which only experience can answer. In fact there may be so many service men running for office that there won't be any bloc voting.

As examples: Col. Ralph Yarborough of Austin who once ran a strong race for attorney general, is back from Germany where he served as judge advocate with the 98th division and is soon to be on his way to the Pacific; Col. Jerry Sadler, former railroad commissioner, is now on duty in this country after a tour of duty in the Persian Gulf command which won him decorations by the Russian government; former Attorney General Bill McCraw will have plenty of war experiences to talk about as an army officer in charge of a ship carrying supplies in the early days of the Pacific war. All of these and many others are potential candidates.

For the department of personal mention, this story of the hitchhiking colonel: Before the war, Orville S. Carpenter was Texas' first old age pension director, second unemployment compensation commission director. A national guard officer, he was federalized and put on one trouble-shooting job after another, the last with the control command in Germany. A few days ago he was given his discharge and a terminal leave. He managed to hitch-hike plane rides from Paris to New York; from New York to Dallas; from Dallas to San Antonio—and there he was stranded, unable to get plane, train or bus space. The colonel was undaunted. He hired a taxi to take him to the edge of town and joined the GI's who congregate at this busy highway. He made it to his home in Austin in two days—San Antonio to New Braunfels and New Braunfels to Austin.

An ancient invention patented in the British Kingdom was for a machine gun that shot round bullets at Christian enemies and square bullets at heathens.

The professor explained that he first teaches his students how to use the punching bag "for timing and proper use of the arms." Then the student uses the sand bag to perfect body blows.

"All you have to teach them is the four basic punches—the straight left jab, the right cross, the left hook and the right uppercut."

The professor offered to demonstrate, but I declined. I'm the brittle type.

The Timid Soul

With The AEF:

By CLYDE A. FARNSWORTH

KUNMING, China, July 16 (AP)—"Now the way I heard it . . ." and your American soldier in China will cock his feet up and add another touch to the already vast collection of myths and legends related to the United States war effort in the Orient.

Some of these stories might have a shred of truth but most of them defy any attempts at confirmation. That doesn't keep them from being good stories.

There's a recurrent myth propagated by the boys who used to fly the hump over the rugged North Burma route before the conquest of Burma permitted easier passages—the story of sighting a mountain a mile higher than Mt. Everest. So far as I know the map coordinates of this peak never have been recorded.

There's the tale of the fellow that sold a whole airplane on the black market, or engineered the disposal of an entire convoy. The raconteurs never stand short on anything but the names.

Stories bearing on easy contact

Var Myths In China

between free and occupied China have been originated with rare imaginative skill.

As this myth runs—and you hear it over and over—an American soldier in Southeast China, riding the Hankow-Canton railway at the end of a long AWOL drunk, slept through his appointed station and passed that mythical place where the free China train crew turned the train over on schedule to the trainmen for occupied China. He woke up with a headache in a large and strange railway station.

He wandered about, trying to find someone who spoke English and, falling, was about to approach one of the strangely uniformed soldiers he saw about the place. He thought they were Chinese. But before he reached them a Chinese touched him on the shoulder, told him, "hoo-hoo" (not good) and led him away to safety.

The most glaring fault with this story is that when the Chinese controlled the inland sections of the Canton-Hankow railway there were no rails linking occupied and unoccupied sections.

Washington—

Work For Veterans Is Quite A Job

By JACK STINNETT

WASHINGTON—Rep. Butler B. Hare, veteran Democratic member of the House from Saluda, S. C., has two sons in the Navy.

He shows the veterans of this war and their postwar problems. As a result he has come up with and is urging on his colleagues what some believe would certainly develop into an important phase of finding work for returning veterans.

"The thought so far," says Rep. Hare, "has been that the problem will be to find employment in existing agencies (or businesses) for a considerable number, and then it will be necessary for the government to inaugurate construction or building programs of different types in order to accommodate the remainder."

"I really do not see much opportunity to place many returning veterans in existing establishments, occupations or industries. Most of these activities, except agriculture, are now employing the maximum and there will be some war industries wholly discontinued, and there will be the necessity of finding reemployment for the people now there employed."

"My thought is that instead of the government creating jobs for temporary employment, attention should be given to the idea of assisting veterans to create their own jobs—jobs that will become going and permanent place of employment," Hare says.

In a canvass of his own district Rep. Hare discovered what may be surprising to some: that there was hardly a community that couldn't support from one to many businesses that don't exist in those communities now. The conclusions weren't based on wishful thinking of the communities either. They were the opinions of men who have been successful in those towns and know what the residents want and how well they will pay to get the services they need.

As an example, Rep. Hare found one town of between 2,500 and 3,000 population which reported

Butane Firm To Form Insurance Company

AUSTIN, July 16 (AP)—Unless insurance companies are willing to underwrite butane risks, the present manual risks, butane dealers will form their own casualty insurance company, affirms William J. Lawson, executive secretary of the Texas Butane Dealers' association.

He said capital stock and preliminary operating expenses, approximately \$105,000 will be subscribed by butane dealers themselves since they "have no hesitancy in backing their opinion with necessary funds."

Washington Merry-Go-Round—

Truman's Greatest Test Before Him

By DREW PEARSON

WASHINGTON—Harry Truman, the farmer boy and haberdashery salesman from Independence, Mo., this week sits down to negotiate with a member of the British aristocracy whose ancestor was the Duke of Marlborough, and with the steely-eyed product of the Georgian mountains whose offspring are as tough as the granite hills which tower above them and who learn to shoot shortly after they are weaned.

It will be President Truman's greatest test. In addition to sitting down between two men of opposite temperaments and background who don't particularly like each other, Truman will find himself embroiled in the clash of two great empires which have been rivals ever since czars were czars.

One of the men—the revolutionary—represents a country with the world's greatest land mass which has been straining at the leash to get a warm-water seaport for well over a hundred years. His predecessors, the czars, built the Trans-Siberian railroad to Vladivostok in order to reach out to the Pacific. They seized Manchuria to get ports which were not ice-bound in the winter, only to find Japan blocking their way in the Russo-Japanese war of 1904.

They started down through Iran to the Gulf of Persia and the Indian ocean, but a British sphere of influence was in their path. They reached for the Dardanelles in the middle of the last century, but the British and French sent arms to fight it out in the bloody Crimean war.

Churchill's Anti-Russian Past The other man—the aristocrat—helped send Allied troops into Archangel and Siberia after the last war to encourage the White Russian generals to overthrow Stalin's new Bolshevik regime. His friends in the British cabinet also carved out Latvia, Lithuania, and Estonia from the old Russian empire to keep the new Red government from the Baltic sea.

The British aristocrat's friends and predecessors also helped write the Anglo-Japanese alliance, aimed at boxing Russia from the Pacific. They followed a policy of making the Mediterranean a British lake of controlling both its ends together with strategic bases in the middle.

Stalin's Demands. But now the man who sits down on the other side of Truman wants Russia to have a voice in the control of Tangier, the African port just opposite Britain's famous base of Gibraltar. Whoever controls Tangier can partly neutralize Gibraltar.

This man on the other side of Truman also wants Russia to have a representative sitting on the board which controls Suez, jugular vein of the British empire. And finally he wants Russian dominance of the Dardanelles, the narrow passageway by which Russian shipping reaches the Mediterranean from the Black sea.

These are revolutionary demands. They cut squarely across policy which has been "must" for the British empire for centuries.

ing loans for setting up such enterprises. About the only problem involved is that of making national or state listings and advertising the opportunities so that veterans can locate them.

But Stalin is a revolutionary. He is promoting exactly the same imperialistic policies of his predecessors, the czars, but he is smart enough to use political precepts which rightly or wrongly have appeal for thousands of people in the countries around the Mediterranean.

Truman, the man who sits in the middle, is no revolutionary. Neither is he an aristocratic stand-patter. He is a common-sense, middle-of-the-road man, who believes in changes when the majority of the people favor change. He doesn't speak with the same broad "a" of Winston Churchill and Franklin Roosevelt, and aside from his experience as an artilleryman in France in the last war, he does not have the same knowledge or background of European affairs. He is primarily a product of the middle west, backbone of America.

That may help him. Truman is known to feel that the British took advantage of us somewhat during the European war. As a senator, he sometimes dropped hints that the powers that were in the White House could have stood up more to Churchill's charm. But at the same time, Truman has been linked at the way the Russians walked over us in certain matters since the armistice.

So Harry Truman, former farmer and haberdashery salesman, is likely to do his best to stand up to both men who sit beside him. But at the same time, Truman has strong convictions about the importance of getting along with our neighbors and working out a permanent peace.

In fact there's nothing wrong with Truman's basic ideas. The big question is whether in sitting down with two old hands skilled at playing international poker of the most ruthless sort, Harry will have the finesse and background. One thing he may have to watch is his temper. His is a little short. So is Justice Byrne's. Both are quick on the trigger, shoot fast, and straight from the hip. In international discussions where big things are at stake, this tendency can break up a poker game.

Anyway, that is the stage setting and the cast of characters for this one of the most important of all Big Three meetings. And after weeks of sending diplomatic

column on the problems facing President Truman at Berlin will follow soon.)

Arthur Williams Dies In Stanton

Arthur F. Williams, 67, died in Stanton in the home of his sister, Mrs. Louie Baker, Sunday at 2:30 p. m. Mr. Williams had lived near Stanton for the past five years, and was formerly a rancher in New Mexico.

He is survived by his wife, Mrs. Lillie Williams; two daughters, Mrs. Lewis Vowell of Colorado City and Mrs. Louie Baker; two sons, Mack, of Hobbs, N. M., and Henry, of Stanton; two granddaughters, Mrs. Lola Mae York of Kirkland, Wash., and Wanda Vowell of Colorado City; five grandsons, L. A. Baker, who is in Germany, Leroy Baker of Stanton, Drew Vowell of Colorado City, Franklin Williams of Arizona, and Clark Baker of Stanton.

One brother, Tom, of Clyde; three sisters, Lula Bryant of Clyde, Sally Miller of Haskell county, and Eppie Harris of California; a daughter-in-law, Mrs. L. A. Baker of Stanton.

Services, which will be held Monday afternoon at three o'clock in the Eberley-Curry chapel, will be conducted by the Christian Scientists, J. D. Sitcher will be soloist.

Pallbearers will include Jack Jones, Alton Turner, Jack Saunders, El Saunders, Spencer Wright, Henry Stoeger, and Charlie Wright.

All-Star Team Wins San Angelo Tourney In Three-Game Play

Three ball clubs of the Big Spring Bombardier school scored four victories out of six tough weekend games, with the softball All-Stars setting the pace by copping the San Angelo Kiwanis tourney with three straight wins.

The revitalized hardball nine, playing the top-notch Pampa air field squad there, split a double-header 0-9 and 4-1, showing considerable promise for the squad's future in the remaining games.

At Sweetwater, Squadron F's Bombers dropped a 3-2 contest to the Tigers Sunday, in a game that went to the eighth frame without a score. Then both teams got two home, and in the last half of the ninth, the Tigers scored one more to win.

At San Angelo, the All-Stars Friday defeated Avenger Field of Sweetwater 4-0, and edged Carr's Mineral Boys of San Angelo out of the finals play by 4-3.

Cpl. Lon Bredemeyer, who pitched the first two games, also hurled in the finals against Good-fellow Field's squad, which was sparked by their pitcher, Jimmy Fallon, who had been saved throughout the tourney for just that game. The All-Stars won 1-0, Bredemeyer allowing just two base blows to Fallon's three.

Savings And Loan Association Ends First Decade Here

The First Federal Savings and Loan association of Big Spring is launching its second decade of operation this month with a record of \$389,236 loaned on 249 homes in its first 10 years.

The unit originally was set up June 17, 1935, but actually did not go into operation until mid-July. On the first board were Dr. M. H. Bennett, president, W. W. Inkman, vice-president, Wm. B. Cuffie, Thomas J. Coffee, J. B. Collins, directors, and Merle J. Stewart, secretary-treasurer. Only changes today are Robert Stripling as secretary-treasurer who replaces Collins, who moved out of town.

Starting in with 70 original stockholders, the association at one time called in up to \$28,000 in federal funds to help finance early loans. However, this was retired and today the \$115,200 of 40 full paid subscribers, and the \$74,783.40 of 63 installment subscribers is all Big Spring money.

In 10 years, the association has paid out \$28,488.60, never missing a semi-annual dividend. As a member of the Federal and Savings Loan Insurance Corp., it has loans insured secured up to \$5,000. It also is a HOLBank member.

Troops Mopping Up In Northern Okinawa Sit And Wait For Japs

By DONNIE WILEY

WITH 27TH DIVISION, OKINAWA (AP) — Troops of this U. S. Tenth army division are cleaning up the wild mountain country of Northern Okinawa, where die-hard Japanese continue to lurk and frightened Okinawans still hide.

It's a change for the men, under Maj. Gen. George W. Griner of Chapel Hill, N. C., from the thunderous battle on southern Okinawa.

"Our job is just to wait," explained Sgt. George Knesky of Buffalo, N. Y. "We just wait on this cliff, overlooking the trail you climbed, and if any Jap soldier comes out we let him have it."

The cliff post was part of a blocking line through the wilderness across the entire width of the island — a military version of an impromptu police dragnet.

With Knesky were Cpls. John Hout of Monette, Ark., Murray Hamrick of San Sabá, Texas, and George Werner of Evansville, Ind.

The mopping up sweep started May 17, when the southern battle was still raging in full fury.

Another part of the operation is carried out by patrols, driving Japanese into the blocking line and setting up ambushes. Sgt. Adolph Beitel of Red Lodge, Mont., was leading a five man patrol.

"I heard a gun click in the brush nearby," he said. "I ducked off the trail and a Jap only ten feet away fired twice but missed. I fired into the brush and the Jap jumped and ran smack into another patrol coming up the trail."

Pfc. Emerson Barrett of Pontiac, Mich., took a pistol away from a Japanese soldier which was so small that "if I shot anybody with it, it would probably just make them awfully mad."

Police Investigate Thefts, Prowlers

Police investigated two thefts and two cases of prowlers over the week-end. Jake Douglas told police that a pearl-handled revolver was taken from his parked car Sunday afternoon. The other was the theft of clothes belonging to Kay Bell and Mary Jones when their room was burglarized.

Six drunks appeared in city court Monday morning and there were two vagrants, and two persons were held on burglary charges.

To keep her young children warm, an Eskimo mother carries them naked on her bare back, underneath her coat.

Public Records

Building Permits
Pablo Bustamante, building 8 x 8 foot addition to present 12 x 24 foot frame house at 303 Edwards, cost \$70.

LIONS DIRECTORS MEET
Members of the Lions club board of directors will meet at 8 p. m. Tuesday at the chamber of commerce office. Jake Douglas, secretary, has announced. It will be the first meeting of President Jack Smith with his board.

VISIT RELATIVES HERE
Mr. and Mrs. Marvin Young and children, Mrs. Isla Davis of Plainview, Jimmie Lee Mason of Winslow, Ariz., are visiting Sgt. and Mrs. Ward R. Hall and Mr. and Mrs. Roxie Dohbins.

COWSERT APPOINTED
DALLAS, July 16 (AP) — Chairman Murrel L. Buckner of the state game, fish and oyster commission, announced here that Capt. Frank M. Cowsert has been named director of law enforcement for the commission. Cowsert has been in the department for 23 years and was serving as assistant director of law enforcement at the time of his promotion.

Add a bit of salt to frostings, pie fillings and puddings to accentuate the sweetness.

Weather Forecast

Dept. of Commerce Weather Bureau

BIG SPRING AND VICINITY: Partly cloudy with scattered thunder showers this afternoon and tonight. Not much change in temperature.

WEST TEXAS: Partly cloudy this afternoon, tonight and Tuesday with a few widely scattered thundershowers late this afternoon and tonight.

EAST TEXAS: Partly cloudy with a few scattered showers in southwest and extreme south portions this afternoon, tonight and Tuesday; gentle to moderate easterly winds on the coast.

Brotherhood Meeting

Brotherhood of the First Baptist church will meet at 7:30 p. m. today in the church basement for a fellowship period prior to the regular monthly dinner at 8 p. m. The Rev. Jim Lassiter, Coahoma Baptist pastor, is to be the guest speaker.

THIS IS THE WAY THAT MILLIONS BUY ASPIRIN

Millions ask for St. Joseph Aspirin by name. There's none finer, none faster nor sure at any price. Many choose the 12 tablet package for 10c. But when you buy the big 100 tablet size for 35c you get nearly 3 tablets for 1c — a 3-for-1 value. Always demand St. Joseph Aspirin.

Grrowing 'Salad' Made Palatable For Bossy

GRANGEVILLE, Ida., July 16 (AP) — Farmer Ben Baker has found a way of getting rid of weeds in his pastures... and his cows are happy, too.

Irrked when Bossy and her bovine colleagues began to lose all appetite for the weeds, Baker hit on the idea of making the "screens" pleasing to a cow's state by the addition of table salt.

Bossy soon grew to like her new "salad"... and after a few helpings, Baker's pastures were weedless.

Statisticians estimate that the annual cost of street lighting in the United States is about \$1.20 per capita.

Mickey AWOL

One of the prize possessions of Lt. John Evans, 2109th Scurry, was his blue-bordered terrier, Mickey. He had him before he was assigned to England for missions over the redoubt area of Austria and Germany, and when he returned and was stationed at Big Spring Mickey came along. But the long-standing partnership seems in danger of being broken, for Mickey has been missing for a week.

(Continued from Page 1)

1. Defeat of Soviet enemies in the east—meaning first of all Japan.

2. Consolidation of the outer defense system for Soviet territories, which would extend the Kremlin's dominion farther than was ever reached by the czars.

3. The crystallizing of wartime friendship with the western allies to endure through long years of peace to come.

Virtually all European problems reported up for discussion in Potsdam bear in some way on the Soviet Union's outer defenses. One of the most pressing of these, of course, is the future of conquered Germany.

For the next 10 days to three weeks these three—a soft-spoken Missourian with a reputation for directness, a British aristocrat and a son of a Georgian cobbler—are expected to discuss hunger, reconstruction, boundaries and many other problems besetting Europe's conglomerate millions. It seemed certain, also, that the war against Japan would be on the agenda.

Senior Scout Camp Arrangements Made

The senior camp of the Boy Scout camp at Philmont, N. M., has been arranged, Executive H. D. Norris said Monday.

Boys who will attend the week's camp for Scouts 15 years or older will begin at the Kit Carson camp at Abreu, and will hike to Rayado. The Rayado lodge and site is inaccessible by vehicle and all provisions have to be carried in by mule, Norris said. Stanley Peurifoy and W. D. Berry will be in charge of the senior camp.

B & PW PICNIC
Members of the Business and Professional Women's club were asked to meet at 7:30 p. m. Tuesday at the First Methodist church for their monthly social, President Lillian Hurt has announced. Miss Hurt added that the telephone committee is not active yet and urged that all members be present.

Vanilla vines are cultivated under trees large enough to afford shade because they cannot stand much direct sunshine.
