UPCOMING EVENTS

Thursday, November 10: Friends of the Library meeting, 4:00 p.m.

Singing Group To Perform At Methodist Churches

The singing group, Providence, will perform twice in Motley County this coming Sunday. Working from the Methodist-affiliated Texas Tech Wesley Foundation the group will perform contemporary Christian music and witness at the Roaring Springs UMC United Methodist Church at 9:30. The group will arrive in Matador to have pre-service music at 10:45 at the First UMC. They will also serve during the church's special All-Saints - Veterans Day Celebration. Any veteran is invited to join the church after services for Sunday Dinner.

Lions Club News

The Matador Lions Club met Tuesday, November 1 with twenty Lions and two guests present.

Lion Clawson presided over the meeting. Jeremy Jones, Motley County High School Senior, gave a report on his trip to Boys State in Austin this summer.

Sheriff Jim Meador reminded everyone to vote Tuesday, November 8. He also stated that there is a proposition on the ballot to separate the Tax Assessor/Collector from the Sheriff's office. Sheriff Meador stated that he was in support of this.

Meeting adjourned.

Voters To Decide On Separation Of Offices

The Motley County Commissioners Court has voted to bring before the voters of Motley County the separation of offices of the Sheriff and Tax Assessor/Collector.

Motley County is one of only four counties in Texas that have the Sheriff and Tax Assessor/Collector combined. It is required that all elected officials be certified for the office held. The Sheriff is

not certified as a Tax Assessor/Collector. The duties of Sheriff involve his time, making it impossible to work as Tax Assessor/Collector. It is important the person doing the work of the Tax Assessor/Collector be responsible for this office and obtain proper certification. This separation of offices will not require additional personnel as the location of these offices will remain as is now. Sher-

iff Jim Meador endorses the divisions of these two offices.

The separation of the offices of Sher-

iff from Tax Assessor/Collector will be decided by the voters of Motley County at the General Election, Tuesday, Novem-

ber 8, 1994. We urge you to go to the Polls and cast your vote for this important change in your county government.

National Voter Registration Act Receives Mixed Reaction From Public

by Kobbri Risser
Plainsmen Press Staff Writer

NOTE: This article is taken from the *Plainsmen Press*, South Plains College newspaper. Kobbri is a 1994 graduate of Motley County High School. She is the daughter of Mr. and Mrs. Fred Risser of Matador.

Starting early next year, there will be a number of changes in our political system. One change is actually starting in December and will be implemented throughout the state by April. Texas is going to issue a new style of driver's license. A picture will no longer be taken, because digital imaging will be used.

Another major change will be the National Voter Registration Act which will become effective in January. This new law will involve every public assistance agency and the Department of Public Safety, and will require them to ask every person who comes through the door if he or she wants to apply to register to vote.

Lonnie Rannals, a spokesperson for the Department of Public Safety, does not know of any advantages for this new law. Melinda Nickless, a spokesperson for the Secretary of State, believes the new law will prove beneficial.

"The overall effect of the National Voter Registration Act will be very positive," Nickless said. This law could possibly register up to 95 percent of all people that are eligible to vote.

However, there are also drawbacks to this law. "They're giving us a lot of things to do, and no funding," Lonnie Rannals, Inspector of Driver's Licenses in Austin, said. "In our case, it's going to cost us a lot more money."

Each year about 1.4 million invitations

are sent out for people to renew their licenses by mail. This new law will require the Department of Public Safety so include a voter registration application and instructions in both English and Spanish.

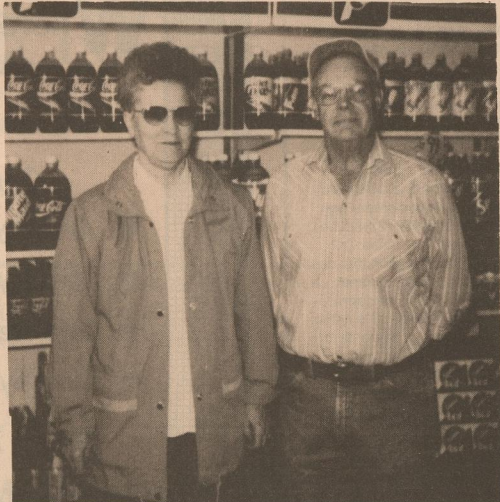

Everytime a person comes into a public assistance agency, he will be asked if he would like a voter registration application. If he says 'yes,' then the computer will print out a voter registration form. If the person says 'no,' then he must sign a declination. The Department of Public Safety is the only department that does not have to keep a declination.

"Can you see that if anyone goes in once a month to all these offices, that the paperwork nightmare is unbelievable?" Rannals said. "And these declinations are required to be kept for a minimum of 22 months." This new law should not affect Texas very much according to Nickless. "Most of the aspects of the National Voter Registration Act have already been implemented in Texas," she said.

However, other states will have to go through more changes. California, for instance, will have to supply voter registration applications in eight different languages. "Certain states are absolutely not going to do it," Rannals said.

The Department of Justice has already brought suit against one state because its legislature met and closed without passing a law or doing anything to implement the National Voter Registration Act. Texas has been notified early that we will be one state that is under close scrutiny according to Rannals. However, he does not know the reason.

"I believe, frankly, that people who are interested enough to vote will go out and register to vote," Rannals said. "They don't need to be told everytime they turn around."

NEW BUTCHER — Billy Ray Martin, right, has been hired as the new Butcher at City Grocery in downtown Roaring Springs. Pictured with Mr. Martin is his wife, Mary Lou. Mr. Martin has been a butcher for over 35 years. He has worked in Supermarkets and had his own meat market in Brownfield. They are originally from Ropesville and enjoy small town life, and are looking forward to a slower pace. They enjoy square dancing in their spare time. The Martins will celebrate their 44th wedding anniversary November 24. Welcome to Motley County, Mr. and Mrs. Martin!

TEA Grants Motley County Waiver

The Texas Education Agency has granted Motley County Schools a waiver for semester test exemptions. The Motley County School District site based management team drafted a proposal to try to help increase attendance and raise classroom grades by awarding students an exemption if they met the requirements.

This proposal was presented to the teaching staff where it was approved and sent to the school board. After discussion of the waiver it was passed by the Motley County School Board and sent to TEA.

Motley County Schools was notified this past week that the waiver will be required at the end of the year to see the affect on attendance and grades. The re-

quirements for meeting the waiver are as follows:

1. An 80 average in each subject area with only (1) one excused absence per semester.

2. An 85 average in each subject area with only (2) two excused absences per semester.

3. A 90 average in each subject area with only (3) three excused absences per semester.

4. A student with an un-excused absence in any class becomes ineligible for

the exemption regardless of grades.

5. Three (3) tardies equals one (1) excused absence.

6. Extra-curricular or co-curricular absences do not count against the student.

7. 9th and 10th grade students will only be allowed to be exempt from three (3) classes, which they choose, if they meet all the above criteria.

8. 11th and 12th grade students may be exempt from all classes provided they meet all the above criteria.

By implementing this waiver into the school system this semester we hope to give our students an incentive to attend classes and improve their classroom grades.

Motley County Elementary Teachers Introduce "Book It" Program

The Motley County Elementary teachers began using a new incentive, the "Book It" Program in their classrooms. This program recognizes students in grades K-6 who meet the reading requirements. The program is co-sponsored by Pizza Hut and runs for a five month period from October through February. This is the way the program works.

First, the teacher sets monthly reading goals for each child in the class. The student must read the number of books established for them by their teacher. Younger students can have their parents read to them and then sign a letter to the teacher stating that this has been done. This way it involves the family, also.

Secondly, after the monthly goal has been met by the student, the teacher awards them with a Pizza award certificate. The child takes the certificate to a participating Pizza Hut restaurant, where he or she is congratulated by the manager and given a free one-topping personal pan pizza, a button, and a 3-D sticker for the button. The child receives another pizza, along with a sticker, for each month they meet the requirements.

If a child meets the reading goals all five months, he or she qualifies for the Reader's Honor Roll, a classroom record of student achievement. Children and teachers will be given a free pizza party if all the children in a class meet their reading goals in any 4 of the 5 program months.

This is the tenth year for the "Book-It"

"BOOK IT" PROGRAM MEMBERS — Rhonda Ashley, Stephanie Prather, Rachelle Renfro, LeAnndra Wallace, Denise Shannon, Mark Cox, Casey Lawrence, pictured back left to right; (sitting) Brenda Gillespie, Brittany Moore, Brittany Perryman, Chooch Long, Paige Neal, Leigha Burns, Brandon Moore; (kneeling) Derrick Cruse, Kayla Copp, Ashley Stevens, and Brooke Decker.

Program. It's fun, it's easy, and it's rewarding. The program is an incentive for reading and it can involve the whole family. Just another way that the staff at Motley County Schools is using to educate your children and have fun at the same time.

Below is a list of the students who met the "Book-It" requirements for October. Kindergarten, First, Second, and Third, none.

BENEFITS OF THE EPSDT PROGRAM
Many parents are not aware of the benefits provided by the Early and Periodic Screenings Diagnosis and Treatment program that include free medical and dental care to Medicaid-eligible youth from birth through age 20.

As in well-baby check-ups, services include:

- Complete medical history
- Complete physical examination including vision and hearing.
- Nutritional and development assessment.
- Laboratory tests.
- Immunizations
- Health education

Diagnosis and treatment for problems discovered during checkups. Referrals to other health care providers as needed.
EPSDT children can get routine dental check-ups every 6 months (starting at one year of age), dental sealants on permanent molars, and treatment for dental problems. Limited orthodontic treatment is also covered. Emergency or medically necessary dental services are available to EPSDT clients at any time from birth through age 20. Check-ups include age appropriate education about dental health, including use of fluoride and prevention of baby bottle tooth decay.

The EPSDT program provides one professional eye exam per year, and eyeglasses every two years. The child may receive additional medically necessary vision services as needed.
The schedule for EPSDT Check-ups is as follows: Newborns 1-2 weeks; 2, 4, 6, 9, 12, 15 and 18 months; 2, 3, 4, 5, 6, 8 and 10 years; and annual visits beginning at age 10.
It is important not to miss a checkup. A child who is in poor health or who has nutritional, hearing, or developmental problems may not be able to socialize or learn normally. Public schools support the EPSDT program. Children may be excused from school for EPSDT medical and dental checkups.
These services are provided confidentially and without regard to sex, race, color, disability, national origin or religion. Parents can receive this help by dialing 1-800-4BABYLOVE. Questions regarding eligibility and transportation will be answered by the local Department of Human Services office.
Educational programs of the Texas Agricultural Extension Service are open to all citizens without regard to race, color, sex, disability, religion, age, or national origin.

Such faithful help has made your reporter's job much easier. Again, my thanks!

Kobbi Risser Honored At Luncheon

Levelland — South Plains College honored 86 of its brightest students recently, including Kobbi Risser of Matador during its annual Scholars Recognition Luncheon.

The scholarship recipients and their parents were guests of the South Plains Scholars Committee and were recognized by college officials for outstanding scholastic achievement. Special guests included the donors who have contributed funds to support the college's Scholars Program.

Ms. Risser, daughter of Mr. and Mrs. Fred Risser, was honored as a 1994-95 recipient of the college's prestigious C.M. Sanders Scholarship.

Mike Caplinger, superintendent of Cooper Independent School District,

delivered the keynote address, challenging students to "take advantage of your college opportunity to build leadership, scholarship, service and character."

"You are all leaders because you have that rare ability to influence others," he told the gathering of more than 250 persons.

"The only way to reach success is to set goals for yourself, and then work on developing these four qualities."

Caplinger is 1967 graduate of South Plains College and in 1992 was recognized as Superintendent of the Year for Region 17 of the Texas Education Agency.

The Scholars Program is the most prestigious scholarship program offered at South Plains College. The program, administered by the South Plains College Foundation, awards scholarships in amounts up to \$2,000.

Local Students Included In National Dean's List

A total of three students from this area are among the over 114,000 students included in the 17th Annual Edition of The National Dean's List just published by Educational Communications, Inc., Lake Forest, Illinois.

Students are selected for this honor by their college deans, registrars or honor society advisors and must be in the upper 10% of their class, on their school's dean's list or have earned a comparable honor. Listed students are eligible to compete

for \$25,000 in scholarship awards funded by the publisher and may also use a referral service for future employment opportunities. More than 2,500 colleges and universities nationwide use the publication to recognize their academically qualified students.

Local students selected include: Daniel L. Alexander, McMurry University; Charles R. Fulmer, South Plains College; and Lacey Melody Parks, Clarendon College.

Son-In-Law Retires After 40 Years With Boeing

Frank Hill, left, is presented with plaque by Del Bradshaw, Vice President of Boeing.

Cora Hall recently received word that her son-in-law, Frank M. Hill, of Seattle, Washington, retired after 40 years service with Boeing. Mr. Hill received his 40 year award at a ceremony staged in his honor on September 12, 1994. Present were his wife, the former Martha Hall of Matador, and his mother Alta Hill, of Tacoma, Washington.

Frank was presented with a plaque by Del Bradshaw, Vice President of Defense and Space Group at Boeing. The plaque displays some of the many projects that he had been involved with over the past 40 years. Projects such as Saturn

5; Hydro-Foil; Lunar Rover; Minute Man; and the Lunar Orbiter. As tech-designer, Frank was responsible for the electronic packaging for each.

Frank officially retired on October 1, 1994 with a party hosted by his family. Present were his children, Deborah and husband Jim LeDahl; Cindy and husband, Barry Becker; Mark and wife, Glenda Hill, all of Seattle. Also present were his grandchildren, James and Rebecca LeDahl, Kimberly and Kayla Becker. Other family members and friends were also present.

Men Just Weren't Meant To Be Clothes Washers

by Earlyne Jameson

A friend's new walking shorts became a casualty, because men just weren't meant to be clothes washers.

Occasionally, on weekends, he ran the washing machine. When he mowed the grass and did the yard work, he accumulated a pile of dirty sweaty clothes.

His pile of other weekend seemed dirtier than usual. In such cases, he remembered his wife always used Clorox, so he decided to add some. At the last minute he tossed in his Oak Hill shorts... the fancy kind with two deep vertical pockets on the front legs.

He poured in a cup and a half of Clorox, most of it on the new shorts. Then he pulled the knob and he water started pouring in.

What a surprise he received when the washing ended! He pulled up the door to

put the clothes in the dryer and picked up the new shorts. He hardly recognized them because they looked entirely different with white splotches all over them.

When he showed the shorts to his wife she laughed and said, "Don't you know that you first dilute the Clorox in a quart of water, then pour it into the machine? Or else you could first let the water and stuff in the Clorox before you add the clothes Clorox is too strong to put directly on the clothes."

Well, at least he found a good use for the shorts the next day. They, of course looked too awful to wear away from the farm. He was just starting to paint the barn and needed a pair of old shorts. The bleached shorts were perfect for the job. I wouldn't matter how much red paint he got on them. In fact, he thought it might even improve their looks!

Public Notice

Southwestern Bell Telephone Company (SWBT) has filed an application with the Public Utility Commission of Texas (PUC) to restructure the current PLEXAR I and II service offerings. This restructure will significantly change PLEXAR I and II services.

The restructuring of PLEXAR I will, among other things: (1) reduce the maximum line size from 30 to 9; (2) obsolete and grandfather certain optional features; (3) eliminate the requirement to subscribe to Feature Package Two in order to subscribe to certain optional features; (4) reduce the nonrecurring and monthly rates of certain features; and (5) increase the nonrecurring charges for the PLEXAR I System Charge (\$2.10 to \$8.00), Call Transfer Disconnect feature (\$3.00 to \$8.00), and Convenience Dialing I feature (\$6.35 to \$8.00). All current PLEXAR I customers will have the option of keeping their current PLEXAR I service, switching to the new restructured PLEXAR I service, or switching to PLEXAR II service with ten or more lines.

The proposed PLEXAR II restructure will, among other things: (1) change the tariffed offering to serve the market segment of 10-74 stations; (2) create two station pricing structures, one for customers with 10-29 stations, and one for customers with 30-74 stations; (3) reduce the sensitivity for the loop portion of the rate to two price bands: 0-2 miles, and beyond 2 miles; (4) offer a PLEXAR II basic station that can be flexibly configured, from a number of standard features, to meet the individual customer requirements; (5) change the way the termination liability is calculated so the customer is responsible for 65% rather than 56% of the present worth of the remaining monthly payments in the contract; (6) create an option that allows month-to-month customers to convert to long term contracts of at least three years and receive a credit or "contract signing bonus"; and (7) establish a System Subsequent Change Charge which applies per serving central office when changes are made that affect the entire system.

Current PLEXAR II customers will also have the option of keeping their current PLEXAR II service, or switching to the new restructured PLEXAR II service. PLEXAR II customers with at least 75 stations also have the option of switching to PLEXAR Custom service in certain situations.

This application has been assigned Docket Number 13210. Persons who wish to comment on this application should notify the Commission by November 28, 1994. Requests for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757, or you may call the PUC Public Information Office at (512) 458-0256, or (512) 458-0221 tele-typewriter for the deaf. Matadors Stay In District Running With Much Needed Win Against Lorenzo

HEADED FOR A RUN — Motley County Matador, #20, Junior, Jarrod Brooks, takes off for a run in an attempt to make a touchdown during last Friday night's game with the Lorenzo Hornets. Also pictured is #70, Senior, Jeremy Jones. Come out and support the Matadors this Friday night when they will go up against Spur, at 7:30 p.m. **BEAT SPUR!!!!**

The Motley County Matadors got 4 interceptions from their defense and left Lorenzo last Friday night with a much needed 12-6 win to keep their play-off hopes alive. The victory gave the Matadors a 2-2 district record going into the final game of the regular season.

Motley County received the opening kickoff but could go no where and punted to the Hornets. Starting from their own 42 yard line, Lorenzo marched deep into Matador territory before Jarrod Brooks picked off a pass at the 1 yard line. Brooks provided more excitement 3 plays later as he broke free on a 90 yard run, but the play was called back because of a penalty and again the Matadors were forced to punt. The first quarter would end in a scoreless tie.

Lorenzo mounted another scoring threat early in the second quarter after recovering a Motley County fumble at the Matador 21 yard line. Jeremy Jones' sack of the Hornet quarterback for a 12 yard loss or third down forced a Lorenzo punt, and the Matadors took over on their own 20 yard line.

Motley County put together an 80 yard drive for the first score of the night with Brandon Blanch carrying over from 2 yards out for the touchdown. The 2 point run attempt failed, and the Matadors had a 6-0 lead late in the half.

Lorenzo made one last attempt to score before intermission, but Kevin Keltz killed the drive with an interception near the Matador goal line. The score remained 6-0 at the end of the first half.

The second half began with Lorenzo taking the kickoff and promptly ran it in from 3 yards for their only score of the night. Juan Hernandez ran it in from 3 yards out to tie the game at 6-6. The extra point kick was missed. Defense dominated the remainder of the third quarter, and it ended with the game still tied.

On Motley County's first possession of the final quarter, they put together a 64 yard drive that would provide the decisive touchdown. The big play of the drive was a 21 yard pass from Brooks to Keltz that set the Matadors up with a first down deep in Hornet territory. Keltz crashed over from 2 yards out for the touchdown.

Again the conversion attempt failed, but Motley County still held a 12-6 lead.

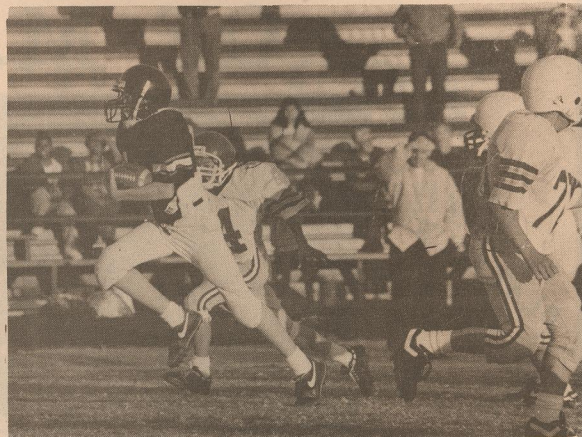

Lorenzo had two more opportunities to score, but each time the Matador defense stopped them with interceptions. First, Conway Clary picked off a deflected pass which gave Motley County possession at their own 16 yard line with a chance to run out the clock. The Hornet defense forced a punt, however, and Lorenzo took control of the ball at the Matador 38 yard line with 51 seconds to play. One pass completion brought the ball to the 25 yard line, but on the next play freshman linebacker Aaron Green dove in front of a Hornet receiver for the interception that sealed the game for Motley County.

This week the undefeated and state ranked Spur Bulldogs come to town to try and complete a perfect season. If Motley County is to have any chance of making the playoffs, they must beat the Bulldogs. The Matadors need your support. Come out this Friday night at 7:30 and let our boys know that you're behind them.

Mavericks Defeated By Lorenzo, 40-8

The Motley County Junior High Mavericks fell to the Lorenzo Hornets 40-8 this past Thursday afternoon. The Maverick touchdown came on a 70 yard kickoff return by Matt Cox. Jason Barton added the 2 point conversion. Casey Lawrence also had an interception on defense. The Mavericks will complete their season this Thursday at Spur. Game time is 5:00 p.m.

Motley County Maverick, Matt Cox, is on the run for a touchdown during last Thursday's game with Lorenzo. The Mavericks will face the Spur Bulldogs this Thursday, there, at 5 p.m., for their final game of the season.

Denise Gastineau and this year's annual staff are hard at work preparing the '95 annual which will be given out next year. There are 10 members currently enrolled in Mrs. Gastineau's yearbook class. They are seniors, Mandi Farley, Wendy Lancaster, Mark Lancaster, Lesa Prather, and Amanda Latham, and juniors, Mandie Carson, Veronica Gonzalez, Jeremy Smith, DaVona Atkinson, and Lindsey Williams.

There are many things to be done and everyone takes part. At the first of the year, the members sell ads which help pay for the printing. Then, we each do page layouts for the ads that we sold. Next, Mrs. Gastineau assigns pages to each member. The members are individually responsible for their own pages. They may design them in any way that they choose. The pages usually contain pictures, most of which are taken and developed by Renee and DaVona Atkinson, logos and sayings.

Each of the pages must be drawn up in time because there are deadlines for them to be sent in to the printers. Finally, when the printers are finished, the annuals are passed out for each of the students who bought one to enjoy.

When England wanted to cut government waste, a Texan showed them how to trim the fat

Cutting waste in government isn't easy. That's why, when members of Parliament wanted to make the British government more efficient, they consulted the recognized expert in America: Texas Comptroller John Sharp.

Hardly a surprise, old chap. Since taking office in 1991, John Sharp and his Texas Performance Review team have set the standard for streamlining government agencies, saving taxpayers a documented \$6.2 billion and helping Texas avoid a state income tax. And his reviews of Texas school districts have saved taxpayers more than \$24 million.

Now he's fighting to cut millions of dollars in welfare fraud and bureaucratic waste by abolishing paper food stamps, which are often stolen and then traded for drugs. Sharp's plan is to replace food stamps with computerized security cards.

No wonder U.S. News and World Report (1/4/94) says: "John Sharp has become the mastermind behind a sweeping overhaul of the bureaucracy that has put Texas at the forefront of the nationwide effort to...root out waste."

Yet, despite all the additional duties and initiatives taken on by the Comptroller's Office, Sharp still managed to reduce the number of his employees and return \$9 million of his budget to the taxpayers.

Of course, there's a lot more waste in Texas state government just waiting to be cut, so the job is far from over. That's why we need to keep John Sharp on the job.

GENERAL ELECTION (ELECCION GENERAL) (Condado de) MOTLEY COUNTY, TEXAS NOVEMBER 8, 1994 (8 de noviembre de 1994)

INSTRUCTION NOTE: Vote for the candidate of your choice in each race by placing an "X" in the square beside the candidate's name. You may cast a straight-party vote (that is, cast a vote for all the nominees of one party) by placing an "X" in the square beside the name of the party of your choice. If you cast a straight-party vote for all the nominees of one party and also cast a vote for an opponent of one of that party's nominees, your vote for the opponent will be counted as well as your vote for all the other nominees of the party for which the straight-party vote was cast.

NOTA DE INSTRUCCION: Vote por el candidato de su preferencia para cada candidatura marcando una "X" en el espacio cuadrado a la izquierda del nombre del candidato. Usted podrá votar por todos los candidatos de un solo partido político ("straight ticket") marcando una "X" en el espacio cuadrado a la izquierda del nombre de ese partido político. Si usted vota por uno de los partidos políticos y también vota por el contrincante de uno de los candidatos de dicho partido político, se contará su voto por el contrincante tanto como su voto por todos los demás candidatos del partido político de su preferencia.

Appreciating Freedom

As we participate in the democratic process of our country, we are reminded of the many courageous men and women who gave their lives in order to make us a free nation. How ungrateful we would be, if we failed to acknowledge the sacrifices they made in our behalf.

And yet, there is One who made an even greater sacrifice than these, that we might have an even greater freedom than that which is our national heritage. He died to free us from sin, to give us the liberty of serving God as we were created to do, to liberate us from the fear of death and condemnation, and to fill us with the hope of eternal life. How ungrateful we would be to fail to acknowledge His sacrifice for us!

I'm speaking, of course, of Jesus Christ, the One of whom the Bible says, He "gave His life as a ransom for man." Why not make it your aim during this democratic process, while we're appreciating freedom, to find real freedom through Jesus Christ, and honor Him for that greatest of all sacrifices by worshipping with us at the Church of Christ.

A warm welcome awaits you

Shooting Straight About Gun Safety

AUSTIN -- Firearms are commonplace in most farm and ranch households, but familiarity does not stop accidents from occurring.

"Most firearm accidents happen while people are cleaning or hunting with guns," Agriculture Commissioner Rick Perry said. "Prevention is the best weapon against these firearm casualties."

Families should make sure that the home has a safe and secure storage place for guns that is beyond the reach of children and careless adults. Store firearms and ammunition separately, and keep both locked up.

Hunting is a natural sport for many rural families. Perry said that hunting accidents can be prevented by following these basic safety rules:

- * Control the direction of your firearm muzzle. Carry your firearm safely. Keep the safety on and your finger off the trigger until you are ready to shoot.
- * Identify your target and know what

- is beyond it.
- * Be sure the barrel and action are clear of obstructions and you have only the proper size ammunition for the firearm you are carrying.

- * Unload firearms when not in use. Leave the action open. Firearms should be carried empty in cases to and from shooting areas.

- * Never point a firearm at anything you do not want to shoot. Avoid all horseplay with firearms.

- * Never climb a fence or tree, or jump a ditch or log with a loaded firearm. Never pull a firearm toward you by the muzzle.

- * Never shoot a bullet at a flat or hard surface or water. During target practice, be sure your backstop is adequate.

- * Avoid alcoholic beverages or other mood-altering drugs before or while shooting.

"The best advice for gun safety is to treat every firearm with the same respect due a loaded firearm," Perry said.

WTAMU Horse Judging Team Places First At National Competition

The West Texas A&M University horse judging team placed first overall at the All-American Quarter Horse Congress Contest in Columbus, Ohio, Oct. 18. The competition is considered the unofficial national championship of horse judging.

"This is the first year WTAMU has fielded a horse judging team, and we are thrilled with these kind of results," Dr. Jim Clark, head of the Division of Agriculture, said. "This is the first time WTAMU has ever had a national championship horse judging team."

The horse judging team members, competing with 113 contestants representing 25 teams, placed first in the performance category, first in the halter category and fourth in the reasons category.

The members of the horse judging team are Bobby Bryant, senior agriculture business major from Amarillo; Aaron Callahan, junior agriculture major from Chatfield, Minn.; Allison Hall, junior agriculture major from Bourbon, Ind.; Penny Mars, senior animal science major from Matador; Kim Spring, junior animal science major from Dimmitt; Scott Sturgeon, junior animal science major from Amarillo; Shad Sullivan, junior agriculture major from Ordway, Colo.; Mandy Wright, senior animal science major from Canadian.

Callahan placed first overall with

second place in performance and third place in both reasons and halter.

Sullivan placed sixth overall with fourth place in performance.

Hall placed seventh overall with fourth place in halter.

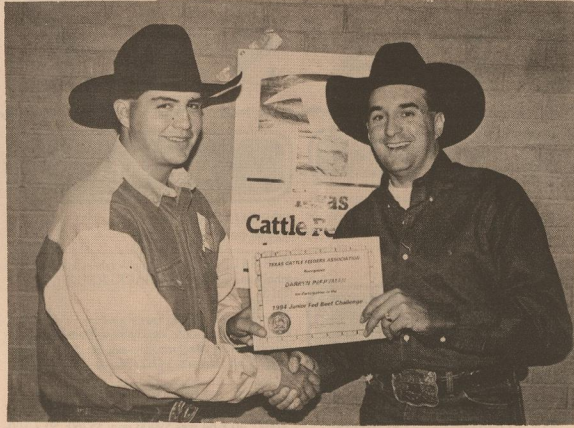

According to John Pipkin, director of WTAMU equine industry program and the horse judging team's coach, the members compete in three categories: halter, performance and reasons.

The students use standardized criteria to evaluate the horses' appearance and performance, then they rank the horses based on their evaluations. The scores are compared to those of an official panel to determine a score for each team member.

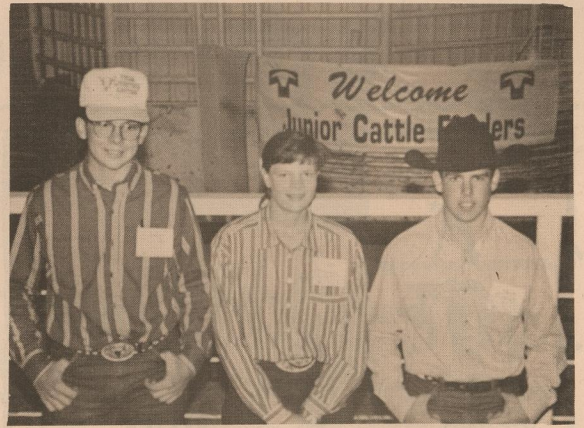

In the reasons category, the student must present a two-minute oral justification of their rankings before an official panelist.

Pipkin said he knew the team had a chance to win. "It's the result of a lot of hard work and a true team effort," Pipkin said. "Although Aaron had an excellent day and was the high individual, it took the whole team to do it."

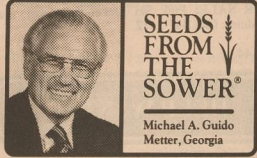

The team will compete at the American Quarter Horse Association World Championships in Oklahoma City, Okla., Nov. 15. They will also compete at the National Reining Horse Association contest in Oklahoma City, Okla., Dec. 2.

A young lady was asked to do something, but she answered, "Not now, maybe tomorrow."

"Pile up enough tomorrows," cried the professor, "and you'll find you've collected nothing but a lot of empty yesterdays. I don't know about you, but I'd like to make today worth remembering."

Today, by the grace of God, turn fear into faith, greed into gratitude, demands into dedication, getting into giving, selfishness into service, and you'll make it a day worth remembering.

If you wait for tomorrow you'll have an empty yesterday.
