Success may be the ability to decide on what is important, and serving each situation when its turn arrives.

Some television shows would receive high rating as fever-ridden nightmares except for the break in sequence for singing commercials.

Time keeps running its fingers through the gray hair of memory and the white smoke of buggy whip cigars. The burning porous substance made the tongue sore for several days, and was not improved by being all filter tip.

Felling tears may break the gossamer web of love but another, and more resplendent pattern will be spun. Alack, it is the never-shed tears that inundate the heart and silence the music it might have known.

If circumstances require the mixing of gasoline and alcohol, it is best done in a blender, to be poured in a convenient sink.

When a plane crashes, a complete investigation follows to determine the cause, and prevent its recurrence. On the other hand when a life crashes, society has no further concern after sweeping the broken bottle from the path of others going the same direction.

Hope For Future Is Youth Message

YOUTH of today may look with hope to the tomorrow, was the reassuring message extended here, in Union Services Sunday night at First Methodist Church, to inaugurate Youth Week in Matador.

Speaker was Rev. Gene Hawkins, pastor of First Baptist Church, who offered "Three Cheers for the Future," as he declared, "I get tired of the long faces of those who go about crying that the world is going to the dogs."

The first "cheer" which he offered was that of pardon, as described in Matthew 9:2. "... Jesus seeing their faith said unto the sick of the palsy, Son, be of good cheer, thy sins be forgiven thee."

"The true beginning of a good life is one of freedom from sin ... there are 29 million children in the world suffering from spiritual malnutrition; we can-

HOME FROM TRIP

Mr. and Mrs. Claude Harp returned home Monday night from Phoenix, Arizona, where they spent the past month.

World is Afraid Today, more than ever before in history, the world is beset with fear, Rev. Hawkins reminded his audience.

"As Christians we need to thrust our Church into orbit and proclaim to the world, the Presence of the Son of God. ... today, more than ever before in history, we need the 'good cheer of a Presence,' as in Matthew 14:27. 'Jesus spoke unto them, saying, Be of good cheer; it is I; be not afraid.'"

In conclusion, the youthful pastor told of the "good cheer of Power," and read Christ's mes-

Services Held For Pioneer Of County

Funeral services for Mrs. B. F. Moring, 77, a pioneer of Motley County, were held at 2 p. m. Monday in the First Baptist Church, Plainview, with Dr. Roy McClung, pastor, officiating.

Mrs. Moring died Friday of a heart attack at the home of a daughter, Mrs. Henry Gardner. She was pronounced dead on arrival at Plainview Hospital and Clinic.

Mrs. Moring had lived with a daughter, Mrs. F. A. Moseley, Canyon, since the death of her husband in 1956. She was visiting in the Gardner home.

A native of Erath County, Mrs. Moring moved to Matador in 1901 and from here to Hale Center in 1924. She moved to Plainview in 1936. She was a member of the Plainview First Baptist Church.

Survivors include the two daughters; a son, Tracy, of Kress; a brother, Foster Fulfer, Seminole; five grandchildren; and six great-grandchildren.

Mrs. Velma Fulfer, a sister-in-law, went to Plainview Saturday to visit with the family for the day.

FORMER TRIBUNE PARTNER HERE FROM WASHINGTON

Mr. and Mrs. Howard Hamilton of Alderwood Manor, Washington were Matador visitors this week, arriving Tuesday to visit his father, G. E. Hamilton and Mrs. Hamilton; a sister, Mrs. Melvin Meason and family, and his brother, John Hamilton and family.

Mr. Hamilton was a partner with Douglas Meador in establishing the Matador Tribune in 1933 and in purchasing the Motley County News from former publisher G. C. Mitchell, now of Lubbock.

INJURED IN FALL

Mrs. H. S. Watson suffered bruises, and a broken bone in her left wrist in a fall at her home Saturday afternoon. The accident happened when she stepped in a sunken place in the yard, and fell against her arm while bracing herself against the porch. She was treated at Traweck Hospital for her injuries, and is recuperating at her home which she makes with her daughter and husband, Mr. and Mrs. Bill McCaghen. Another daughter and husband, Mr. and Mrs. Mose Damroh of Canadian, visited in the home Sunday.

Course Scheduled In Civil Defense

A course in civil defense has been scheduled in the Flomot community, starting Thursday, February 23, it was announced this week. The class will be held in the school house, starting at 7 p. m.

County Judge Elbert Reeves will conduct the course under the auspices of school authorities here. Mrs. Wilburn Martin advised Judge Reeves that 30 residents of the community will sign up for the instructions.

Instructions will be given Thursday and Friday nights (Feb. 23-24) and two more nights the following week. Lessons require three hours each evening, with two intermissions.

Civil defense training is gaining much greater interest throughout the nation and is now termed a "deterrent to aggression" since an enemy would hesitate to attack knowing that a large part of the population would survive and be capable of retaliatory action.

Western Banquet Enjoyed By Guests

In a departure from the traditional, 23rd annual Mother-Daughter banquet held Tuesday night featured a western theme, and the informality of the affair met with the hearty approval of the guests.

Two hundred sixty girls and mothers, both real and adopted, assembled in the auditorium of the First Baptist Church to listen to a prelude of organ music presented by the pupils of Mrs. John Stevens.

Following invocation by Mrs. W. F. Jacobs, the supper of barbecue, beans, salad and cake, was served in the basement, where the program was presented, with Mrs. J. P. Sturdivant, president of Matador Parent-Teacher Association, presiding.

Special guests were Mrs. Horace Wood of Spur, President of 18th District Association of Parents and Teachers, and her daughter, Priscilla.

Further details of the banquet will be contained in a full report next week.

Eldred Seiglers Back From England

Mr. and Mrs. Eldred Seigler reached home Thursday from a two-weeks visit in Devonshire, England with her relatives, including her parents, Mr. and Mrs. G. J. Warren and brother, Llewellyn, and with other brothers and sisters in the area of Wellington and Exeter. The family home is at Claydon, 16 miles from Tauton, and approximately 150 miles from London.

They made the trip by plane from Dallas, returning the same route. They left the London Airport at 2:15 p. m. Wednesday, Feb. 8, and arrived in Dallas at 11 p. m. on the same date, a difference of 6 hours in time making this possible.

The Tribune had erroneously reported that the Seiglers made the trip from Houston and that Mrs. Seigler had gone to visit her mother because of illness. Instead, it is her father, who has been ill for several months.

GIRLS CAGE TEAM DISTRICT CHAMPS

MATADOR GIRLS for the second year in succession, have brought home the district basketball championship honors. Over the weekend the team defeated Estelline 50-17 and Lakeview 45-42. The game Friday night with Estelline was won with comparative ease. The game Saturday night (at Turkey) with Lakeview, was not easy.

Playing to a packed gymnasium, the Matador girls fought from a 23-21 deficit at the end of the first half, to win the tournament, and the right to represent the district in bi-district play. Winner of the bi-district will advance to the regional tournament at Canyon, March 2-3-4.

Every member of the Matador team played exceptionally well, and each girl seemed to come up with "the big play" when the situation demanded it. Frances Cooper led the scoring with nine field goals and 11 free throws. Carol Campbell followed with four field goals and Jill Scaff with three field goals and two free throws. Jill Scaff, Pat Cooper and Dorothy Crenshaw led in rebounds, while Dixie Barton, Sue Cross and Doris Cooper played well on offense and defense. Carol Campbell and Dixie Barton were named to the all-district team.

TWO MEMBERS of Matador FFA Chapter Key Vaughn, left and Ros Bearden, stand beside the Matador Chapter monument west of town. FFA Week begins Saturday and next week the Tribune will carry more complete feature stories on the Matador, Roaring Springs and Patton Springs Chapters' activities during the past year.

FFA Chapter Earns \$11,000 Past Year

During the 1959-1960 school year, 29 boys who were enrolled in the vocational agriculture program in Matador High School and who completed the school year, returned a labor income of \$10,998.21 on their supervised farming programs.

A summary of this report as compiled by vo-ag teacher Bill Moss, shows 17 animals fed for beef production, 20 beef cows for calf production, 50 broilers, 25 laying hens, 95.6 acres of cotton, 45 pigs fed for pork production, 2 head of breeding hogs, 145.4 acres of small grains, 4 mares for colt production, and 28 acres of cereal grains.

Boys are encouraged, but not forced, to have as many projects as possible because diversification is important, as every farmer knows.

According to figures released by the National Future Farmers of America organization, as of June 30, 1960, total investment in farming programs by FFA members was \$94,365,338. Total labor income of members from farming programs was \$56,709,440.

Progressive Club Continues Study Of International Affairs-South America

The home of Mrs. C. P. Westbourn was attractive with Valentine decorations arranged by Mrs. Forrest Campbell for regular meeting Thursday of the Progressive Study Club.

Mrs. Ben Keltz was leader for the program which she introduced with a Shakespearean quotation. "How far a little cometh throws its beams, so shines our good deeds around the world."

She introduced Mrs. Albert Reeves, who gave a paper prepared by Mrs. W. E. McLagrove on "Brazil" as the program was a continuation of "International Affairs - Our Neighbors to the South."

Mrs. Reeves described Brazil as being the largest country in South America and the fourth largest in the world (about half of the people in South America live in Brazil, most of them are Catholic and the language is Portuguese, she said).

The government, art and music of Argentina was brought by Mrs. Frank Montgomery. She said that most of the wealth of the country comes from stock and grain. The people are very politically minded and their religion is principally Catholic. Many great writers, one having won the Nobel Peace prize, come from this country.

Arguway the smallest of the South American republics was described by Mrs. Gene Hawkins as having a very high standard of living. The country has a good school system and three out of four of its people can read and write, she said. Their chief occupations which the Spaniards were the first to settle the country, their language today is still principally Spanish.

Mrs. C. E. Hamilton spoke on Chile, and after giving a short resume of its history, she introduced a friend, Miss Lela MacCarter of Childress, who had vacationed in South America last summer and who then spoke. Miss Carter took the group on

an imaginary trip through several of the South American countries as she described each in glowing terms. She said the Indian background is very strong here and that they do not have the racial problems which we have, although the people are a mixture of races. In Peru, she said, they have only two classes of people - high and low - no middle class.

She mentioned the terrible earthquake in Chile in 1960 and the noticeable destruction which resulted when entire cities were covered in the sand that lying over the ruins. Innumerable was one of the most unforgettable experiences of her life. Her advice to everyone was to visit South America.

In the business session, Mrs. J. E. Pitts, president, welcomed the visitors and thanked the hostess for the use of her home. She also nominated members of the Santa Rosa District meeting which will be held April 12-13 in Wichita Falls, and urged all who could, to go.

Mrs. U. L. Wille reported that Mrs. Albert Reeves is now a district officer, and is the second from this club.

Since next meeting of the club will be "Guest Day," Mrs. Reeves asked that all members inform Miss Sue Giem who will be hostess, whether they plan to attend and whether with or without a guest. This information should be given to Miss Giem not later than Feb. 22.

Members present other than mentioned, were Anastasia A. Duffern, Vance Gilbreath, V. D. Luscovitch, Fred Simpson, Ralph Stapleton, J. A. Whitworth, Harry Willett, J. L. Woodruff, R. W. Overstreet, and Roy Patterson. Also a visitor was Mrs. Bertram Knight of Childress, who accompanied Miss Carter.

Dani Clower of Plainview visited here Sunday with relatives and friends.

Former Roaring Springs Resident Cited By Texas Department Of Public Safety

John N. Fletcher Jr., of Lubbock has been named "Knight of the Road" of the South Plains area for 1960. Major Harry Hutchison, Commander of the Texas Department of Public Safety's Region No. 5, announced today.

Fletcher will be one of six Texans to be honored in Austin February 10 as outstanding Knights of the Road. One of the six men will be named "most representative Knight of the Road" for the state at a banquet at the Commodore Perry Hotel.

The Lubbock driver was selected from about fifteen South Plains men who received Knight of the Road awards during 1960 for courteous or heroic acts on area highways. The Knight of the Road program is sponsored jointly by the Texas Department of Public Safety, the Texas Safety Association and Hobbs Trailer Company.

Fletcher was cited as a Knight of the Road last July 16 when he attempted to rescue a fifteen year old Ralls youth from drown-

ing in a "wet weather" lake near Ralls.

Fletcher was driving a Moss-Gordon Lint Cleaner Company truck en route to Roaring Springs. Just after turning north on US 62 about one-half mile west of Ralls, Fletcher stopped his truck beside a lake to check the load and heard faint cries for help.

Investigating, Fletcher found George Hall, 17, who said his brother, Albert Gene Hall, had stepped into a deep hole while they were playing in the lake. Albert could not swim, and he disappeared.

Fletcher immediately stopped a passing motorist and sent him to Ralls for an ambulance, Fire Department and Police Officers. Then he stripped off his shoes, shirt and dived into the murky waters and attempted to locate the victim.

Fletcher continued to dive in search until the Ralls Fire Department arrived with boats and rescue equipment. Firemen stated later that although Fletcher was waterlogged and near exhaustion when they arrived, he remained at the scene offering his services until the lifeless body was brought to the surface.

The Knight of the Road program was started in 1954 to promote highway safety through public recognition of the courteous and heroic deeds performed by drivers of commercial motor vehicles in the course of their routine duties. About 120 commercial drivers are cited annually by Department of Public Safety Patrolmen and the "most representative Knight of the Road" is named each year at the Austin banquet.

Fletcher remains modest about his attempt to rescue the drowned youth. The driver, who is a Moss-Gordon Company Supervisor, is a native of Roaring Springs, the son of J. N. Fletcher. He is a veteran of four years Navy service as a heavy equipment operator. He, his wife Norma, son Marty, and daughter Kim, live at 2402 3rd Street, in Lubbock.

HERE'S PROOF YOU'LL SAVE MORE WITH A '61 FORD

Here's how the '61 Ford takes care of itself!

Lubrication Right—Ford's specially designed oil pump between timing and distributor shafts will keep oil flow steady and about 20 minutes because Ford has featured conventional pump design with a variable lubrication system.

Check Its Own Oil—Ford's oil gauge shows oil level between oil change because Ford's Full-Flow oil filter gives you filtration through three stages—keeping clean oil from any other type of filter made.

Adjust Its Own Brakes—New Truck Size brake adjuster—no more hand adjusting.

Search Its Own Motor—Ford's motor is double wrapped and insulated to last 3 times as long as ordinary motors.

Protect Its Own Body—All steel underbody parts are completely protected by rust-free and corrosion-resisting zinc plating.

Take Care Of Its Own Floor—New Standard Litter Traps keep trash away.

MATADOR SCHOOL FARM IS SCENE OF ACTIVITIES

The Matador school farm has been the scene of much activity in recent months. Some cross fencing has been done in the hog section, some new water lines have been laid and three concrete slabs have been poured which have been very helpful in keeping the feeders up out of the water and mud during the fall and winter.

The chapter hopes eventually to obtain some grain storage, small animal shelters, and calf feeding facilities.

The FFA chapter owns seven Suffolk ewes and one Suffolk buck, three Hampshire brood sows, and some feeder pigs at the present time. These animals are under the management of the Supervised Farming committee composed of Guy Campbell, Robert Brown, and Key Vaughn.

In addition to the chapter-owned animals, nine boys have a cooperative feeding project set up with one pen of feeder pigs. With the help and assistance of the vocational agriculture teacher, these boys have decided upon their feed, balanced their rations, and purchased their grain requirement during the harvest season.

In this project, the participating boys have put up their money in advance. Each boy is responsible for the watering and feeding of the entire pen for one week in each nine weeks and is "off duty" except for the grinding and mixing of feed about every ten days or two weeks. Boys participating in this project are Jimmy Welling, Pete Davis, Gary Lancaster, David Rattan, Don Seigler, Robert Brandon, Loyd Martin, Lonnie Terry and Key Vaughn.

Gift Profitable For FFA Chapter

How much good can a gift do? Drive by the school farm, the former Colquet Warren farm just west of town and see.

All the hogs, with the exception of the two white ones, are the progeny of a bred gilt given to the FFA chapter by one of its Honorary Chapter Farmers, Nelson McMahan.

The first litter of pigs from this gilt financed the annual FFA Barbecue last May, and other litters have banked enough for the barbecue this spring and produced other brood sows as well.

This gilt and her progeny have furnished invaluable experience in the feeding and management of swine of all ages. In the classroom the boys have studied the selection of individual animals, the proper care of brood sows, farrowing problems, care and management of sows and pigs at farrowing, the use of balanced rations, internal and external parasite control, the butchering of hogs, and marketing problems.

This knowledge, gained in the classroom, has been supplemented by the actual practice of these things on the school farm. This is more valuable, as a teaching aid alone, than the study of results from experiment

stations or from feeding tests run in the corn belt. Nothing has been done on the school farm that cannot be done on the home farm here in the school district.

This gift was another opportunity to put the FFA motto into practice.

Learning to do,
Doing to learn,
Earning to live,
Living to serve.
How much good CAN a gift do?

VISITING RELATIVES

(Delayed)

Mrs. John Moore of Bethesda, Md., is here at the bedside of her father, C. D. Bird, who is a patient in Stanley Hospital. While here she is visiting other relatives, including her brothers, Gus and Carl Bird and their families, and two sisters-in-law, Mrs. Olive Russell and Mrs. John Hamilton.

Former Resident Given Promotion In Bartlesville

A former resident, Cecil C. Cammack has been given an advancement in the Legal Division of Cities Service Petroleum Company of Bartlesville, Okla., according to word received by relatives here.

In a reorganization of the Bartlesville Legal Division and retirement of the present general attorney, Mr. Cammack will become assistant general counsel.

Mr. Cammack is a native of Matador and the son of the late Judge W. R. Cammack and

Mrs. Jennie Cagle Cammack also deceased.

He joined the Cities Service legal staff in 1943, following almost five years of service as assistant attorney general of the State of Texas. He was a member of the company's legal staff at Houston and Fort Worth until 1956. At that time he transferred to the headquarters legal staff in Bartlesville.

Mr. and Mrs. Cammack reside at 3408 Hawthorn Ct. in Bartlesville. Their son, Cecil Jr., has the same position in Austin formerly held by his father, that of assistant attorney general, and their daughter, Virginia, teaches in the Lubbock school system.

Rattler Steaks Becoming Scarce

It's getting so you can hardly walk up to a market and buy a rattlesnake steak, according to "Rattlesnake" Bill Slover, who is trying to help overcome the acute shortage.

Last week four friends from Okeene, Oklahoma, came here and prevailed on Slover to help them obtain some good eating rattlesnakes.

Slover, who has been out of the rattlesnake business for some time, helped. He went with the Oklahoma men to a place on Dutchman Creek where they

obtained 32 snakes which netted 50 pounds, enough to see them through the immediate crisis.

The men have an order for 200 pounds and would be glad to buy 1,000 pounds of rattlers if Slover feels equal to the work of getting them out of their den.

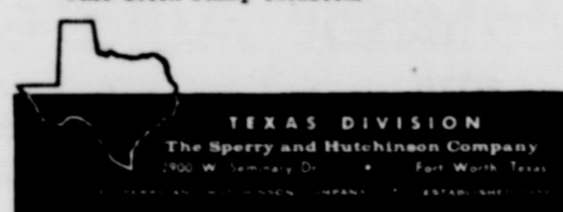

"It was cold out there," Slover said, "but I kinda get a kick out of catching 'em." He will probably supply the 200 pound order but doubts if he can fill the larger request.

(Delayed)
Week end guests of Mr. and Mrs. Vance Gilbreath were her uncle and aunt, Mr. and Mrs. C. E. Randolph of Seagraves.

INDUSTRY**

is one way we work to help build this community

The advertisement reproduced above is appearing in a number of national publications to promote the industrial advantages of this area. It is the first of our 1961 area development national advertising schedule which is to run throughout the year.

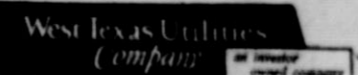

THIS year, West Texas Utilities Company is expanding its area development activities because we believe the growth opportunities ahead demand it.

We believe our service area faces growth unlimited because we are the center of the Southwest, and the Southwest is growing faster than the Nation.

This is the kind of story we are telling American industrialists in our national area development advertising. It is being supplemented by colorful folders depicting the industrial advantages of the area, and by personal visits which our representatives will make during the year.

Through the expanded area development program, we are working to help build this community, because as the Southwest grows, so should West Texas Utilities grow... and the communities we serve.

Mr. and Mrs. Jeff Daffern returned home Tuesday from Quanah, where he has been a patient following surgery in Quanah

Memorial Hospital. Visiting them in the hospital Sunday, were Mrs. Daffern's mother, Mrs. Bertha Garrison of Matador, and a sister and husband, Mr. and Mrs. Elzie Parks of Andrews.

IN APPRECIATION

May I take this means of expressing my heartfelt gratitude for the cards, flowers, gifts, and messages of encouragement sent me during my illness, and for prayers offered for my recovery. Your visits also were appreciated, and I extend special thanks to those who assisted my family by sitting with me while in the hospital, and helping in countless other ways to lighten their load of care.
Miss Maggie Bryan

CARD OF THANKS

We are truly grateful to everyone who remembered us with messages and other kindnesses during our recent bereavement. The cards and letters which were sent to our brother, Dewey, during his illness were a comfort to him and we especially appreciate this thoughtfulness, as well as the cards, flowers, visits and phone calls to his family there and the relatives here and elsewhere who were unable to attend the funeral.
