## Nation Battles Winter Storm

### TRAIL DUST

By DOUGLAS MEADOR

A tragic condition produced by modern life is the malignancy of retirement which attempts to abort the course of endeavor without first banking the fires of dreams.

An observer has an opinion that women shed fewer tears at weddings than were shed a decade ago. This may be a product of our changing economy. With the current rate charged by baby sitters, relatives and friends of a young couple have reasonable assurance that they are not going away forever and that relationships will remain amicable.

Work is a river which flows into the delta of an individual's ambition. Eventually it builds strong, new soil to sustain the sprouts of achievement unless the silt of experience has been washed by pollution with bitterness.

Fortunately we are not considering India when some frustrated person feels that we should give this country back to the Indians.

Age is that period when we begin blaming an absence of foresight, rather than crediting the situation to a power failure of courage.

Bars and liquor stores have an investment in every consumer of their wares which should be protected as much as possible from drinking and driving. Some of their best customers never come back.

### Protest Group To Hold Second Meet

Amarillo's second meeting of the National Indignation Convention will be held in the Municipal Auditorium Thursday, January 20. The meeting will start at 8 p. m. and doors will be open at 6:30. There is no admission charge.

General William P. Campbell, retired, who is now executive assistant to Dr. George Benson of Hardin College, Searcy, Ark., will be the speaker for the patriotic meeting. His topic will be "The Soaring American Eagle versus the Growing Russian Grizzly."

The N. I. C. was formed in Dallas in October to protest the training of Yugoslavian pilots at Perrin Air Force Base, near Sherman. It reconvened November 22, 23 and 24 with representatives from cities all over the nation.

At the first Amarillo meeting 1000 persons assembled in the auditorium to hear Tom Anderson make the principal address.

### IN QUANAH HOSPITAL

Ed Whitaker is a patient in Quannah Hospital, convalescing in room 229, following surgery Wednesday of last week. Mrs. Whitaker was with her husband, and other relatives who went to be with them included their son, Lowell Don Whitaker, and Mrs. F. B. Henderson of Matador; Mr. and Mrs. Joe Smith, Flomot, and Mr. and Mrs. Earnest Whitaker of Levelland.

### COME TO CHURCH SUNDAY

### Membership Quota Topped By Legion

Fleming Post American Legion (No. 337) has again exceeded its membership quota of 111, it was announced this week by Commander J. L. Woodruff.

Committees have been set up and plans for the year's activities have been outlined.

Among the Legion's projects is the annual Senior Banquet for all seniors in the county, and participation in sending boys from this county to Boys State at Austin each year.

Regular joint meetings with the Ladies' Auxiliary are held the first Monday night in each month, and include a covered-dish buffet supper.

### Noted Author Had Visited Matador

Boyce House, known as the bragging Texan of them all, who died recently in his hotel room in Fort Worth, had visited in Matador on several occasions. The 64-year-old author and humorist, whose books of Texas tales have sold hundreds of thousands of copies, apparently died of a heart attack. He had suffered a heart attack last September and had been in ill health in recent months.

In 1945 he visited in Matador and spoke at the high school and at a Lions Club meeting. On another occasion he was an over-night guest of Mr. and Mrs. Douglas Meador.

His most recent visit here was made last year while on a business tour as executive vice-president of the Association of Consumer Finance Companies of Texas. He had been with the firm eight years.

Although he had written on various topics and was a native of Arkansas, it was his compilations of tall Texas tales that brought him renown. It was the publication of "I Give You Texas" in 1943 that gave him his first big boost. The book sold 130,000 copies, many of them to Texans overseas fighting the war. "Tall Talk From Texas," "Texas Proud and Loud," and many others followed.

### Cottle Pioneer Dies At Paducah

Mrs. Mary Elizabeth Clary, 86, pioneer Cottle County resident died at 1 a. m. Friday in Richard Memorial Hospital, Paducah.

Funeral services were at 2 p. m. Saturday in First Methodist Church of Paducah. The Rev. Grady Adcock, pastor and the Rev. Ivan Adams, pastor of the First Christian Church officiated.

Burial was in the Garden of Memories Cemetery, Paducah, under the direction of Norris Funeral Home of Paducah.

### Boy Saves Life Of Brother By Quick Thinking

Quick thinking and quick action of a boy saved his brother's life at Floydada last week.

Ewell Gene Martin, 14, son of Mr. and Mrs. Curtis Ewell Martin who live about five miles east of Floydada, is a patient in Methodist Hospital, Lubbock, (Room 532) suffering an arm fractured in two places, deep lacerations and injured shoulder. The boy was the victim in an accident at Davis Gin in Floydada, Tuesday, January 2, about 1:30 p. m.

Ewell Gene and his brother Kenneth, 11, were operating a cotton stripper at the gin, picking up "bollices" from the ground with the machine. The father was in the gin office at the time. The injured youth saw a battery cable which the machine was about to pick up. He attempted to remove the cable when the "finger of the front beater" of the stripper caught his glove and pulled him into the machine.

Kenneth leaped instantly to the tractor from which the stripper was being operated and shut off the power. In a few more moments his brother would have been killed, his father said this week.

### County Lions Are Well Represented At Borger Meet

Motley County's three Lions Clubs were well represented Saturday and Sunday at the District 2T-1 mid-winter conference held in Borger. One of the outstanding features of the conference was the meeting of students of the area with exchange students from foreign countries.

Two girls from Matador, Lions District Queen Donna Williams and Miss Cherri Barton were escorted by the Matador group. Matador Boss Lion Billy Wason and the following Lions and Lionesses attended: Mike Hoyle, J. E. Edwards and Frank Price.

Attending from Roaring Springs were Lion Charles Long and Mrs. Long, accompanied by Ronnie Davis and Sharon Williams, and Lions attending from Flomot were Wilburn Martin, Malcolm Turner, Ikie Gilbert, Sam Ross and Herb Martin.

### Residents Attend Rites for Mother

Mr. and Mrs. Harold Flora returned home last Thursday from a trip to Charles City, Iowa, where they attended funeral services for his mother, Mrs. Edith Flora, 87.

Mrs. Flora died on Wednesday, Dec. 27. She was a long-time resident of that place, and funeral services were held on Saturday, Dec. 30, at 1:30 p. m.

Besides her son, Harold Flora of Matador, she is survived by two daughters, Mrs. J. W. Shultz of Long Beach, Calif., and Mrs. Kenneth Covey of Charles City. Mr. and Mrs. Clinton Hobbs accompanied his sister and brother-in-law, Mr. and Mrs. Flora, to Waurika, Okla., and they made the trip to Iowa from there, by train.

### To Extend Sale

Mrs. W. F. Jacobs, manager of Matador Variety said yesterday afternoon that due to inclement weather hindering a clearance sale scheduled to start tomorrow, she would probably extend the sale prices through next week.

### Club To Sponsor MOD Drive Here

Eternas Study Club will sponsor the March of Dimes Drive here, and will conduct a campaign for funds on Monday, January 22, it was announced by Mrs. Bill Seale, club president.

Members of the club will conduct a house-to-house canvass on that date from 6 until 8 o'clock in the evening.

Plans for a benefit program at Flomot are being made by the Flomot Home Demonstration Club, and further announcements concerning the campaign will be released by Mrs. L. B. Turner of Flomot, who is county chairman of the drive.

### Invite Cub Scouts To Attend Meeting

An invitation is extended to all boys in the community ages 8 to 10 to attend a meeting Monday night, January 15 at 7:30 in the basement of the Methodist Church. Purpose of the meeting is to enlist new members into Cub Scouting.

All parents having sons this age, who are interested in their becoming Cub Scouts are urged to attend the meeting with them or see that their boys attend.

Dean McAnally has accepted the responsibility of serving as Cubmaster and J. M. Hill, former Cubmaster will serve as assistant and will assume duties of Cubmaster of the Webelos as they advance from Cubs.

"Scouting should be an important event in every boy's life, because of what it teaches," the leaders pointed out. "The truly big ideas of Cub Scouting are the deeper values that equip boys for a richer and finer life," they declared. Cub Scouting is also preparing the boy to become a good Boy Scout.

The Cub Scout promise is this: "I promise to do my best; to do my duty to God and my Country; to be square and to obey the law of the Pack."

### Many Visitors At Church Dedication

### MOVE TO LEVELLAND

Mr. and Mrs. Joe Meador left Monday for Levelland where they will make their future home. The move was arranged by Mr. Meador's children. One daughter, Mrs. Ted Woolery, lives in Levelland. He is 89.

### Mercury Here At Zero Yesterday

COLDEST weather in a decade swept across Texas Tuesday. The mercury here dropped to three above zero by Bob Stanley's thermometer (two above at City Wells) yesterday morning. Amarillo had five below and Dalhart registered a chilly 14 below.

Light snow fell Monday night but all roads in the area remained open. Motorists, however, were warned to restrain driving to necessity trips. Stockmen were busy tending shivering cattle.

Damage here was confined to frozen water pipes and automobile radiators. Freeman Thacker, manager of the Thacker L-P Gas Company said ample gas is in storage here to care for needs, although delivery trucks are busy around the clock. No report of any accident resulting from the frigid weather had been received at press time last night.

Most damage resulted in South Texas where Galveston Bay froze at the shore, the first time in 60 years. The mercury dropped to 13 degrees at Austin, and below freezing temperatures moved into the Rio Grande Valley, causing damage to vegetables and citrus crops.

Dallas and Fort Worth under snow and sleet developed a gigantic traffic jam that almost brought business to a standstill. One Dallas News editor who lives across Big D from his office, required six and a half hours to get to work.

### Christmas Cards Collected Here For Missionaries

Announcement is made that old Christmas cards are being collected locally for missionaries in Formosa.

Bill Pallmeyer is in charge of the movement, and First Methodist Church is designated as the place to leave the cards.

A million cards a year can be put to use, according to information received from Mrs. Lillian B. Dickson, missionary in Taipei, Taiwan (Free China). The missionaries stamp a Bible verse in Chinese on the back of each card and give them out in outdoor Sunday Schools as a reward when the child memorizes a Bible verse.

Those donating greeting cards are requested not to cut off any handwriting on the cards, as the handwriting proves they are "used cards," and can then be mailed as "Printed Matter Only" according to post office regulations.

### Class Scheduled In Civil Defense

A class in Civil Defense has been organized at Northfield to begin January 16. The class will begin at 7 p. m. and continue until 10 p. m. (except for intermission) Tuesday and Thursday nights, January 16 and 18, and Tuesday and Thursday nights, January 23 and 25. The class will be instructed by County Judge Elbert Reeves.

Increasing interest in Civil Defense is also being shown elsewhere. Roaring Springs Lions Club has a current project of signing members for instruction each Thursday night through the month of February. This group will also be instructed by Judge Reeves.

### Republican Meet

Republicans are invited to a political meeting in the Dickens County courthouse Monday night starting at 7 o'clock. The announcement was made late yesterday by Ben Overstreet.

## Change To Benefit Cotton Production

CHANGE in method of determining cotton acreage is going to greatly benefit Motley County, according to ASC Office Manager Tommy Moore. It is almost like receiving a one-third increase in cotton allotments, but it will only affect skip-row planting. In the past the skipped rows have been counted as cotton. But beginning with 1962 crop the acreage of cotton will be the acreage devoted to the crop.

### Cage Tilts Set Here

Two top-interest basketball games are scheduled here Friday night when Quitaque girls meet Matador girls at 7 p. m. and Quitaque boys meet Matador boys about 8:30.

The interest among cage fans is in the girls contest which promises to be a thriller. Matador girls have won four district games and Quitaque girls have won four district games. The game Friday night will decide the district leadership.

Quitaque boys have won four district games and Matador boys have won two and lost two district games.

The contest will be held at the school gymnasium here, starting promptly at 7 p. m.

Three games are scheduled with Estelline, Tuesday, January 16, starting at 6 p. m. with a "B" boys game followed by the "A" girls and boys games.

Matador beat the Estelline girls 48-26 at Estelline but the boys lost by a 59-31 score. The "B" team won, 24-10.

### Drilling Rig Hit By Cold Weather

Cold weather has caused the newest Motley County oil test, General Crude's Frank Eiring No. 1 to suspend operations until pipes thaw out.

Sojourner Drilling Company of Abilene moved to the location about 12 miles northwest of Matador, last week and set up the rig about the same time the deep freeze air struck the Panhandle and caused water lines to freeze. The well is scheduled for 9,000 feet, according to earlier announcements.

### Bill Heally Will Seek Re-Election

State Representative Bill Heally of Paducah will seek re-election as Representative of the 82nd District which now includes Cottle, Foard, Hargeman, Wilbarger, Motley, Donley, Hall and Childress Counties.

In a letter to the Tribune this week Representative Heally said he plans to announce for re-election and issue a formal statement immediately after the Special Session of the Legislature.

A comment in the letter is as follows: "As far as the Special Session is concerned, I think the major item is to reappropriate money for the Farm-to-Market roads which the Governor vetoed."

### Banquet Plans For Girls Considered

A group of Matador women will sponsor the annual Mother-Daughter banquet this year if sufficient mothers are interested to the extent of assisting with arrangements, it was announced this week.

Since the Matador Parent-Teacher Association, who formerly sponsored the banquet, is not functioning this year, there has been a question as to whether or not the annual affair would be held.

Mrs. Harold Campbell has been named chairman of a planning committee, and a meeting is called for Tuesday, January 16, at 3:30 p. m. to discuss the matter. The meeting will be held at the high school.

All women of the community are invited, and mothers are especially urged to attend the meeting. Those who are interested in helping, but who may be unable to attend the meeting next Tuesday, are asked to call Mrs. Campbell at her home and let her know of their intentions.

be the acreage devoted to the crop.

Mr. Moore said that farmers have found in the past that they could produce more cotton by skipping a row (at various intervals, usually two rows of cotton and a skipped row) than to plant cotton in every row. Water from skipped rows helped produce more cotton in the planted rows.

In the past it was measured as a field or patch. In the future it will be the acreage actually devoted to cotton, which will mean the farmer who finds the skip-row planting more profitable, will not be penalized for the rows that are skipped.

Instructions on the change are complicated in details but the above is a general idea of how farmers are going to be allowed more land for cotton if they use the skip-row pattern.

The release says the provisions apply only to cotton and the method of determining acreage for other crops and land uses is not changed.

More complete details of the change can be obtained from Mr. Moore's office in the basement of the courthouse.

### Postmaster Exam Again Scheduled

The postmaster place in Matador has not been settled. The Post Office Department has called for another examination of applicants, open until January 30. The pay is \$5370 per year.

According to a news release received by the Tribune dated January 2, the examination has been announced under revised qualification standards recently agreed upon between the US Civil Service Commission and the Post Office Department.

The Tribune did not publish a former notice of examination, believing appointed acting Postmaster Charlie Scaff had perhaps failed to meet some minor qualification and would take a second examination.

The Tribune sincerely believed that acting Postmaster Scaff was entirely satisfactory to the patrons of Matador post office. It has no reason to change this opinion. Through direct interview with many patrons and through observation, it has been impossible to find a single complaint against Mr. Scaff's character, service and courtesy during the eight years he has been associated with Matador's post office both as a clerk and acting postmaster.

The notice of the second examination was posted in the post office, in the city hall and in the courthouse. The Tribune is not paid nor is it obligated to publish the notice. It has the choice according to news value of all government publicity.

Complete information about the examination requirements and instructions for filing applications may be obtained at the post office here. Application forms must be filed with the US Civil Service Commission in Washington and must be received not later than the closing date.

### Quattlebaum Rites Are Held At McAdoo

He is survived by two sons, four daughters, three brothers, two sisters and 12 grandchildren.

### PIED PINIONS

By Mrs. M.

According to one's horoscope, Capricorn promises favorable legal decisions; increased property values; new car; news of a birth; week-end pleasures; additional income; faulty advice; rash conduct.

Quite a calendar of events. The new car, week-end pleasures and additional income would be welcome, as they hint of travel—a pastime I find enjoyable. Increased property values sounds like more taxes, while news of a birth could be for anybody. Faulty advice could be either given or received, and as for rash conduct—well, we'll see where this leads. It could mean nothing more than expressing a blunt opinion at an inopportune moment.

Favorable legal decisions is also tabled for future speculations.

With Donna Williams receiving District Lions Queen crown; Jan Barton first in Washington and later riding in the Cotton Bowl parade; Keith Patton judging an iris show in Fort Worth; and Dale Dixon making the Avalanche-Journal Dream Team, Matador has really been in the news the past year.

Through oversight in some instances, and lack of information in others, the Tribune failed in reporting many news items of interest during the year.

A former resident, Mrs. Houston Patton of Wichita Falls, suffered a heart attack early in June and was hospitalized for six weeks. She recovered sufficiently to resume her music classes last fall. She is the former Eloise Morgan and taught music in the Matador schools some years ago. Also during the past year, Eloise and Houston became grandparents with the arrival of David Lynn II. The David Pattons live in Denton.

This treatise isn't meant to make our friends feel ancient, for, after all, we were young-marrieds at the same time. We went through certain stages of the depression together and could wax nostalgic where Eloise and Houston are concerned. Clipped from somewhere:

First man: "What do you call the stuff that holds bricks together?"

Second: "Mortar?"

First: "Of course not. That holds them apart!"

### ATTEND BIRTHDAY DINNER

Mr. and Mrs. Tom Tilson attended a birthday dinner for his brother, Bill Tilson, in Brownfield Saturday. His sisters of Denton also attended. Mr. and Mrs. Tilson visited until Sunday, when they returned home.

### Circuit Assembly Date Is Announced

Next circuit assembly of Jehovah's Witnesses will be held in Lubbock, January 26-28, it was announced this week by presiding minister V. D. Tiffin of Flo-mot. The announcement was made to the Quitaque congregation.

Tiffin said the teaching program outlined for the 18-congregation meet from Texas and New Mexico will be built around the theme, "Assist One Another To Do God's Will."

Purpose of the meeting is to analyze the teaching activity of the circuit and lay expansion plans at the circuit and national levels.

An analysis report at the Wichita Falls assembly six months ago showed 665 active workers in the Texas Circuit No. 9. The goal is a 5% increase for each semi-annual circuit assembly.

Tiffin said Jehovah's Witnesses carry on work in 185 lands, "But we are not merely concerned with the number of workers needed, but also with the quality of the ministry. The skilled worker needs advance training and so does the Christian worker. The Lubbock assembly is designed to meet this need."

Rev. and Mrs. Gene Hawkins and daughter, Nancy of Lockney, former Matador residents visited friends here Friday.

### February Wedding Plans Announced

Mr. and Mrs. E. L. Burns of 705 Bivins, Amarillo are announcing the engagement and approaching marriage of their daughter, Karan Lynn, to Mr. Ronald W. Fry, son of Mr. and Mrs. Roy Fry of Cardwell, Missouri.

Vows will be exchanged by the couple on February 16, at the home of the bride-elect's parents.

Miss Burns, a former resident of Matador, is a graduate of Midland High School and attended North Texas State University for two years where she was a member of ASEDU sorority. Miss Burns also is a graduate of Air Age Institute in Kansas City, Mo.

Mr. Fry is a graduate of Cardwell High School and has served four years in the Air Force. He is an agent for National Life and Accident Insurance Company.

Miss Burns is presently employed at the First National Bank in Amarillo.

Mrs. Paul Patton visited relatives at Decatur for several days following the recent Christmas holidays.

### DISTRICT OES OFFICER VISITS AREA CHAPTERS

She had previously met with chapters at Clarendon, Quitaque, Spur, Roaring Springs, Estelline and Dodson Monday. Mrs. Hobbs will meet with the Childress Chapter. Other official visits will be made to Turkey, Memphis and Wellington.

### IN APPRECIATION

I wish to take this means of expressing my appreciation to the staff at Stanley Hospital for being so good to me during my stay there, and to those who sent flowers and cards, and the many friends who helped us while I was in the hospital and after going home. Words cannot express my deep gratitude for each and every thoughtful deed.

Mrs. J. W. Pritchett

Mr. and Mrs. W. N. Pipkin spent the week end visiting in Post with their daughter and family. Mr. and Mrs. Vernard Alexander.

3. Make your pens carefully. You may whittle nibs to the individual taste of the pupil.

4. Men teachers may take one evening each week for courting purposes, or two evenings a week if they go to church regularly.

## Junior Jots By Judy Hart

The juniors enjoyed the Christmas holidays, but their New Year wasn't quite as enjoyable, since it was spent in a school-room.

Another thing that made it hard to come back to school was the fact that semester tests were on Thursday and Friday of that week. We needed some more holidays after those two days!

## Childress Firm Has Large Gain

First Federal Savings and Loan Association of Childress reported an increase of total assets to \$4,285,506.16 in its 1961 report.

The new mark represents a record one-year gain of 34% from the end of 1960, according to Russell V. Jones, Executive Vice President of the institution.

He said that the association forged ahead in nearly all phases of its business activities during the year 1961.

Net savings gains of \$931,328.33 were listed in the 1961 report, bringing the association's total savings capital to an all-time high of \$3,680,649.46. Nationally, savings and loan associations attracted a record \$8.5 billion on new savings.

The total number of First Federal's Savings and Loan customers rose to 2089 by the end of the year. They received a record \$129,188.85 in dividend payments at a rate of 4%.

The institution's lending volume, primarily loans made to purchase new or existing homes, increased to a record \$3,552,695.60 during 1961. Associations across the country provided a record \$16.5 billion in mortgage funds, approximately 44% of the total national volume and far more than any other single lending source.

The sharp increase in mortgage lending by associations during a year in which the national housing market showed only modest gains emphasizes again the importance of the savings and loan contribution in this field, Mr. Jones said.

He predicted a slight increase in local and national housing activities during 1962 when the economic recovery should be in full swing. Advance mortgage commitments held by savings and loan associations exceed \$2 billion at the start of the new year.

### Dickens County Supports Animal Health Program (delayed)

The animal health situation which has been receiving major attention in Texas, is now being studied in Dickens County, and has resulted in the organization of a group of livestock producers and others concerned.

In a recent meeting initiated by County Agent R. S. Conner and Vocational Agriculture teachers Odis Holly and Bill Gregory, Con Davis was elected chairman and Holly, secretary-treasurer. Other members of the county committee are Henry Harris, Guy Goen, Jim Barron, Clay Edwards, Jim Humphrey, Robert McAttee, Rob Simmons, Jack Smithey, Raymond Eldridge, Doug Hinson, Forrest Martin, Clark Forbis and Buck Carlisle.

The group will support the recently formed Southwest Animal Health Research Foundation in its drive to do something about the animal health situation. The screw-worm, a pest causing an estimated annual loss of one hundred million dollars, is a primary target.

Contributions may be made to any member of the committee. All monies collected will be passed on to the Foundation for support of existing research facilities and conduct of large scale field tests.

"We know this first program will cost several million dollars," said Chairman Davis, "but if we can remove the screw-worm from the scene, the annual savings will amount to several times the cost of the control effort."

## Don't

Ever wake up in the night with a splitting headache? Or a pain in your interior? And stumble into the bathroom and reach for a bottle in the medicine cabinet? And gulp down a pill or two, or a swallow of medicine?

Just about all of us, if we're honest, must answer "yes" to such questions. And that means that we've all risked serious, even fatal, trouble.

The American Medical Association offers a few simple rules for taking medicine, and they should be read, remembered and observed by every member of every family.

Never take medicine in the dark. Be certain you know what's in the bottle or pill box. Read the directions carefully before taking. They are there to protect and aid you. Don't increase the dose or take it more often than directed without checking with your doctor. If the label says "Shake Before Using," it means it, so shake. Don't take a medicine prescribed for someone else—this is a case where one man's meat can be another man's poison. Keep medicines out of the reach of children. Put the cap back on the bottle and screw it down. Some medicines change strength when exposed to air. Keep any medicine in its original box. For instance, putting sleeping pills in an aspirin bottle can produce dire effects for someone in the family.

Simple rules? Easy-to-follow rules? They certainly are. And they can prevent trouble, illness, pain and even, needless death.

### Waggoner Carr Is Attorney General Office Candidate

I will be a candidate for the Democratic nomination for Attorney General of Texas.

This is a vital office. Much of the character and quality of Texas life for our families, our children, our businessmen, workingmen and farmers will depend upon the example of alert and responsible conduct of the Attorney General's office. We cannot build or long maintain an attractive climate for economical growth unless we first preserve a healthy climate of respect for law and order.

As a lawyer for 15 years, member of the Legislature for five terms and as Speaker of the House for the 55th and 56th Legislatures, and also as County Attorney for Lubbock County and Assistant District Attorney for the 72nd Judicial District, I believe my previous training and experience qualify me for this office.

In the elections this year Texas will have the greatest turnover in major state offices since the end of World War II. A new era will begin. This makes doubly important the desirability and necessity for the office of Attorney General to be filled by one who has had the seasoning of responsible public service at the state level.

Speaker of the Texas House of Representatives, over a half million Texans approved that record of service by their votes in my race for Attorney General. With such support as a foundation, we hope to carry our campaign this year to more and more Texans and to make the office of Attorney General itself an office serving all of the people.

My platform basically has but one plank—strengthening our legal framework where needed, and more vigorous enforcement of those laws, once enacted.

I feel that it is of the utmost importance that the office of Attorney General be used effectively to control and eradicate the inroads of crime in our state. The office must be used to support and assist honest and conscientious law enforcement officers, being careful not to destroy the responsibility of local officials to the people who elected them. We must, likewise, use that office intelligently to add new strength to all the laws enacted by our Legislature, and the holder of that office must work cooperatively with our lawmakers to evolve the new laws required by changing times in this state. We must eradicate those who prey upon the poor and the unsuspecting, but we must do so without being mere agents of predatory out-of-state organizations which seek special favors in Texas.

**Should Set Example**  
I believe we must continue the Texas tradition of maintaining free and fair competition in the market place. I do not believe we should look to Washington as the example and guide in this vital area of law enforcement. Texas should set an example here of practical and prudent law enforcement that will further encourage business organizations to expand operations in our state and create more jobs for our people.

As the campaign develops it is my intention, of course, to expand my public statements further to invite the support of all the people. It is not my purpose to serve any special interests and I will not seek the support of any block or group by offering them special privileges.

We are fortunate in being able to begin the campaign with strong support in every area of our state. Volunteers who were with us before and others who have joined our campaign since are already hard at work. We invite every Texan interested in a sound, stable and progressive state government—and for a clean, crime-free, wholesome state in which to raise our children—to join with us in this campaign.

### COUNTY AGENT PALLMEYER SAYS:

#### VALUE OF DEEP PLOWING FOR ROOT ROT CONTROL

Over 5,000 Texas cotton farmers are reducing cotton root rot by deep plowing. They deep plowed more than a quarter million acres during 1961 according to year-end reports by county agricultural agents.

Farmers in many counties have carried out result demonstrations which showed positively that deep plowing does reduce root rot, said Harlan Smith, extension plant pathologist.

Best results were obtained, he explained, when deep plowed soil was allowed to dry for ten days to two weeks during summer or early fall when soil moisture was below normal. Shorter drying periods have given a degree of control but are somewhat unreliable, Smith said.

Affected areas should be plowed and large amounts of organic matter turned under during the hot, dry season. Plow depths of from six to 18 inches are recommended, depending upon the soil type and equipment available. Mold-board or disc breaking plows are satisfactory for doing the job, the specialist said. Drying the soil for a reasonable period kills the root rot fungus by drying and killing cotton roots and those of susceptible weeds, Smith explained.

The reports from the counties showed that losses ranging up to 75% had been reduced to less than 5% by deep plowing. Eradication is not usually complete because the fungus may penetrate the soil to a depth of eight feet, Smith added.

Your county agent can supply additional information on root rot control practices.
