71ST YEAR—No. 23 MATADOR, MOTLEY COUNTY, TEXAS, THURSDAY, AUGUST 12, 1965 PRICE SEVEN CENTS

Voters Reject Hospital Plan

36 Majority Flomot Vehement; 48 Against, 1 For

A DECISIVE, but not overwhelming vote Saturday defeated the proposed Motley County Hospital District, 246 against and 210 for. Counting 14 absentees, a total of 456 votes was polled in the county's five boxes, estimated less than half of the full qualified voting strength. One Negro voted in the Matador box. Only property-owners were qualified to vote.

Standout in the election was the vehement rejection of the Flomot box, which voted 48 against and one for. Roaring Springs voted 49 against and 27 for. Northfield voted 15 against and 4 for. Whiteflat 19 against and 13 for. Absentee votes were 8 for and 6 against.

Only box in which the issue carried was here in Matador with 157 for and 99 against. Matador voted more than the remainder of the county combined, by 70 votes (not counting the 14 absentees).

Apparently the added tax proposal of from 30c to 75c levy on \$100 valuation was the issue that defeated the plan. Almost without exception large property-owners strongly opposed creating the district. On the other hand younger people with children to consider, supported the district in the hopes that its creation might keep medical facilities and a hospital when, at some time in the future, the present entirely adequate services were no longer available. The lines seemed to be clearly drawn, but other influences figured in the outcome of the election.

Ballot Aided Defeat

It is also probable that the wording of the ballot which voters used Saturday aided in defeat of the proposed hospital district. The ballot, prepared by law, said in effect, that a tax levy of 75c maximum on \$100 valuation would be imposed on property.

This was not true literally. (Continued on back page)

NEW GAME WARDEN HERE; NOLES IS TRANSFERRED

New Game Warden for Motley County is Ronnie Brooks, replacing Game Warden Jerry Noles, who has been transferred to Waco. Mr. and Mrs. Noles and daughters, Brenda, Debra and Beverly left Thursday, July 29 for their new location.

RELATIVE DIES

Mr. and Mrs. Scott Robbins and daughter, Scottie, accompanied by Mrs. Frank Stafford, drove to Lockney Friday afternoon to attend funeral services for a cousin of Mrs. Robbins, Mrs. Lena Cox, 76. Mrs. Cox died Wednesday night at her home 5 miles east of Lockney. Funeral services were held at the First Methodist Church in Lockney and burial was in the Plainview Cemetery. Two sons survive.

Mr. and Mrs. Ronnie Christian and Craig accompanied his sister and family, Mr. and Mrs. L. J. Blakney and Anna Jean of Turkey to Galveston where Anna Jean will be a patient in John Sealy Hospital.

Ezzell To Receive Community Tribute

A COMMUNITY will pay tribute to a dedicated teacher here Friday night (August 13) at the American Legion building, when the Matador Lions Club and the public at large honor Bert Ezzell.

The program scheduled as "Ladies Night" by the club is open to the public which will be preceded by a "covered

dish" supper in the Legion club room.

It will be the last public appearance of the Ezzell family. Mr. Ezzell has been associated with the Matador school system for more than a quarter of a century and has been Superintendent for 19 years. He resigned in the spring and is now moving to his home in Abilene.

Joe Meador to Speak

Principal address of the evening will be made by former resident and native son, Joe B. Meador, now manager of the Vernon Chamber of Commerce. Both Meador and Ezzell were under General Patton in Europe during World War II.

A traditional meeting of the Lions Club has been a "get acquainted" Ladies Night meeting between Lions, their wives, families and new teachers, on this date, prior to the start of school.

This year it was decided to devote the program to the departing superintendent and his family, and open the program to the entire community. The public is cordially invited, with the only requirement being to bring a "covered dish" to the supper.

Former Coach Charles Johnson has been elected to fill the vacancy resulting in Mr. Ezzell's resignation. The supper and program will start at 8 p.m. according to Lion Forrest Campbell, in charge of the program.

Church Honors Family

The Matador Church of Christ honored the Ezzell family with an ice cream supper, Tuesday night at the home of Mr. and Mrs. Ward Rattan. A large crowd attended, and as a token of friendship presented the Ezzells with a set of lawn furniture.

Residents May Have Seen UFO

WITH reports from most of this hemisphere of people seeing "Unidentified Flying Objects," it may be possible that a Matador couple saw one of the objects which the Air Force has been unable to explain.

Mr. and Mrs. Doyle Rose and their three small children were driving between Jayton and Spur, on the night of August 1 (Sunday). The time was about 10 o'clock and the children were asleep when suddenly the sky was lighted with a bluish light. A long streak of light with sparks flying from it streaked across the sky from south to north, west of the highway. It seemed to keep a level course but Mr. Rose did not see any object, only the streak of bluish light with sparks flying from it.

Mr. and Mrs. Rose believed they had witnessed some unusual kind of meteorite until they later read of the UFO's being seen in this area. They wondered, had they too seen an UFO?

HOME FROM HOSPITAL

Bill Taylor returned home Friday from Galveston, where he spent six weeks receiving treatment in John Sealy Hospital.

Mr. and Mrs. Bill Lowmire of Lubbock visited here Tuesday with her mother, Mrs. H. Plemons.

TRAIL DUST

By DOUGLAS MEADOR

A retired acquaintance was carrying home last week from his vacation. He said he was getting behind in his loafing and that it is not easy to catch up, once you lose a couple of weeks.

Friendship seems to thrive after in soil where money has never been planted.

An elastic conscience may be convenient for the commission of evil but it will not stretch to cover the omission of duty.

One of the frightening aspects of age is the delusion that you have wandered away on a regular trail alone.

Some of the essential ingredients that go into a well-balanced life may be found in the social jungle where insecurity grows as a parasite on the lush branches of accepted justice, virtue is not transplanted but must grow out of a seed in the heart.

What a pity there are no animals to people of great resolve who can eat a single peanut or drink a single highball.

Reaching into the past for an old memory is like reaching into an old bag where woolen cloth has been stored, unprotected from the moths.

Cheerleaders Ready For Football-Time

Matador High School Cheerleaders are ready for the 1965 football season.

Jana Jones, head cheerleader, Sharlene Berryman and Olivia Campbell attended a Cheerleaders School at Texas Tech recently, and returned loaded with new ideas.

They learned yells and pom-pom routines and did practice tumbling during the day, and entered competition in "stunt night" programs. They were given lectures on sportsmanship, and new ideas for pep rallies.

The Matador team won a ribbon each day for their routines and brought home one white and three blue ribbons. In final competition they received 4th place and Honorable Mention.

Double Ring Service Is Read For Couple Recently In Hale Center

Miss Rita Gay Stubblefield became the bride of Mr. Amos Jim Dye at 10 o'clock Friday morning, July 30, in the home of her parents, Mr. and Mrs. Joe M. Stubblefield of Hale Center. The double ring ceremony was read by the Rev. Rex Mauldin, pastor of the Hale Center Methodist Church.

The bridegroom is the son of Mr. and Mrs. Alfred Dye of Roaring Springs.

Given in marriage by her father, the bride wore a suit of blue lace, a collar accenting the scoop neckline. Her accessories were white, with a white bridal hat veil covering her hair and framing her face. She carried a bouquet of white roses atop a white lace-covered Bible.

Mrs. Richard Shackelford of Cotton Center was matron of honor for her sister. She wore a street length pink lace dress with rosebuds in her hair. The flower girl, Devora Baker wore a soft orchid and blue polished cotton dress with full gathered skirt, trimmed with ruffles, and bows on the bodice.

Chester Dye of Roaring Springs attended his brother as best man.

For a reception following the ceremony, the refreshment table was covered with blue satin, with a white net overskirt, trimmed with wedding bells. A centerpiece, punch and traditional wedding cake accented the bride's theme of blue, white and silver.

The bride traveled in her wedding suit, adding a corsage of roses from her bridal bouquet.

Following their wedding trip to Ruidoso, N. M., Mr. and Mrs. Dye are presently residing in Matador, where he is employed at the ASC office.

They will return to Canyon in September, to continue their studies at West Texas State University, and Mr. Dye will be employed in the post office on the campus.

AUSTIN — Speaker of the House Ben Barnes has formally assigned Representative W. S. Healy to the Legislative Budget Board. Healy automatically becomes a member of the Board as a result of his service as chairman of the House Appropriations Committee during the recent session.

The Budget Board, a permanent legislative service agency with a full-time professional staff, is charged with the bi-annual preparation of an estimated appropriation bill to be submitted to the Governor and the Legislature after the convening of each regular session. Its duties also include performance of general budget services for state government.

Board members, who determine policy and direct the work of this important agency, are appointed after the adjournment of each regular session by presiding officers of the two houses, who also serve on the Board.

In making this formal announcement Speaker Barnes said, "Through the years Representative Healy has served very capably not only his constituency but the State as well in his own tenure in the House. His previous service on the Budget Board and his work on House Committee dealing with state finances have been particularly outstanding. His participation will be a valuable asset to the Board in its deliberations."

Healy is presently serving his sixth term as a State Representative. During the recent session he was a member of the House standing committees on Judicial Districts, Labor, and Rules, in addition to serving as chairman of the Appropriations Committee.

Care of Feet is Health Essential

A weekly feature from the Texas State Department of Health, Division of Public Health Education.

Your feet must last a lifetime, and if you've been sightseeing, hiking or just walking a lot lately, you're probably quite conscious of this fact.

Just because your feet are the lowest extremity of your body, doesn't mean that they deserve to be mistreated. Far from it. If your feet are to last a lifetime and serve you well, they require good care.

If you can heed the findings and suggestions by researchers and physicians before you have

difficulty with your feet, you'll be way ahead. According to a recent study, three times as many boys as girls have mild to severe skin problems with their feet. The researchers related that fact to the girls' tendency to take off their shoes or slip their heels out of their shoes when sitting in classes or elsewhere. The girls also wore lighter and lower shoes than the boys. Both of these habits tend to minimize excessive perspiration of the feet.

Perspiring feet are moist feet, and moist feet provide an excellent environment for the growth and multiplication of the organisms which contribute to diseases of the feet.

Although the locker room has long been considered the culprit of foot infections, research shows that fungous disease of the feet is probably not spread by such exposure. Instead, there are several points you can note and include in your foot-care program.

Keep your feet clean by washing them frequently, always drying them thoroughly if needed, use an antiseptic foot powder after drying.

As for footwear, use lightweight, light colored socks to minimize excessive perspiration. And change socks whenever they become damp.

The shoes, researchers found, normally contributing the most to good foot hygiene are those that cause the least perspiration. And as for youngsters, the researchers found that oxfords are preferable to boots, sneakers

or tennis shoes for all-day wear. Remember, your feet must last a lifetime, so give them the best of care.

SO DO REFRIGERATORS

THERE'S MORE LAUNDRY TO DO

Year in, year out—electricity provides you with more real service per dollar spent than any other item in your family budget, but it takes hot weather to show up electricity's BIGGEST value. The average WTU residential customer is paying an average of 18% less per KWH than in 1953.

Add up your Summer extras and see why Electricity does so much more for you...at so very little additional cost.

Brush Control "Pays Off" Through Cooperation With Soil Conservation

Even though the present conditions of rangeland in the Upper Pease Soil Conservation District generally seem rather drastic, there are some areas which are now or have recently been in very good condition. This is illustrated in the above photograph which was taken on the Heath Robinson Ranch about 15 miles Southeast of Matador, Texas.

This particular area was sprayed for shinnery oak control in the spring of 1961, deferred during the growing season of 1961, and grazed starting in October of the same year.

The forage production in this area was increased to a great extent and the resulting increase in beef production more than paid for the spraying operation and in a considerably short period of time.

Mr. Robinson did this brush control as a part of his long term conservation plan developed with the Upper Pease Soil Conservation District and with the technical assistance of the local Soil Conservation Service.

The livestock industry in the Upper Pease Soil Conservation District, which includes all of Motley County, has suffered a great deal during recent years. This can be attributed primarily to rising land prices, lower market prices received for livestock and extreme drought conditions which have prevailed the past 15-20 years.

If we assumed that the average price of ranch land in this area to be \$60 per acre and that this land would carry about 25 mother cows per section, this would mean that it would cost about \$1500 to buy enough land to support one mother cow and calf. If interest at 6 percent were applied to this land cost, the annual cost would be about \$90 per cow.

The only answer to such high expenses is to grow more grass forage per section and not to put more cows on the same amount of land. One of the more profitable ways a rancher can do this is to include some type of brush control and rangeland deferment in his long term conservation plan.

COUNTY AGENT PALLMEYER SAYS:

Shoe polish, oven cleaner, hair-waving lotion and wax don't sound harmful, but these items plus kerosene, bleach, toilet cleaner, medicine, turpentine, lighter fluid, deodorant, dry cleaning fluid, and plant spray may be potential dangers in your home. Each product contains some hazardous substance that could cause illness or death if taken internally.

It would be inconvenient if not impossible to stop using these items in the home, but you can do the next best thing—protect the family, particularly the children from accidental contact with these products.

External parasites of livestock and poultry are profit robbers. They lower the production of meat, milk, and eggs by sucking blood from animals, transmit diseases, and cause loss in energy from annoyance.

Livestock insecticides are formulated as wettable powders, emulsified concentrates, smears, dusts and aerosols, AND ARE TOXIC TO WARM BLOODED

ANIMALS. Handle with care, and use ONLY in the recommended amounts.

Use only insecticide formulations prepared specifically for livestock, and in strict accordance with the labeled instructions. There may be considerable difference between insecticide formulations for plant use and those for livestock use.

Copies of MP-691, Guide for Controlling External Parasites of Livestock and Poultry are available for the asking.

Know what you are buying, by examining the labels—read the small print, looking for these words: CAUTION or WARNING, indicates that the material is a hazardous substance; DANGER, refers to substances that are highly toxic, extremely flammable or corrosive. POISON, refers to products defined as highly toxic.

Some of the labels will carry the skull and crossbones of a legally recognized poison, or there may be the statement "keep out of reach of children". Labels give indication of the principal hazard in such words as "flammable", "vapor harmful", "causes burns", "absorbed through the skin". Why not heed these warnings, and make your home a safer place?

Dangers Cited In Poisonous Plants

Each year about 12,000 children eat poisonous plants and in many cases even the parents of the children do not know the plants are poisonous, according to County Agent Bill Pallmeyer. He said a recent survey by the US Public Health Service shows that more than 700 species of plants in the US and Canada are known to have caused death or illness.

Following are some of the common plants on the list, and parts that are poisonous, as

Hospital . . .

(Continued from page 1)

No levy could have been imposed until the district was created and then only after approval by voters in a second election. Creating the district made it possible (in a second election) to impose as much as the 75c on \$100 levy. If the district had been approved the Commissioners Court would have named a five-man hospital board, which would have had complete authority of the district the same as a school board. The hospital board would have recommended the county's needs and the amount of bond. The voters could have then accepted or rejected the suggestions of the board.

Miss Hazel Dennis of Medford, Oregon, who has been visiting here in the home of her grandparents, Minister and Mrs. H. L. Dennis, left Thursday for a visit in Lubbock with her great-grandmother, Mrs. Jewel McLaughlin, before returning to her home. She is the daughter of Mr. and Mrs. Jackie Dennis.

THE FOOLISH FROG . . .

There's an old story that says you can't kill a frog by dropping him in boiling water. He reacts so quickly to the sudden heat that he jumps out before he's hurt. But if you put him in cold water and then gradually warm it up, he never decides to jump till it's too late. By then he's cooked.

People are just as foolish in many instances. Take away their health suddenly and that person becomes deeply concerned and will react quick in an effort to regain their health. But gradually steal their health from them and they can get in serious condition and not realize it until the damage is done.

A shining example of this is a middle aged woman who came to our clinic. She had been in an auto accident one year ago. At the time she thought she wasn't hurt. Within three months she had sinus congestion. Two more months passed and she now was also troubled with constipation. By the end of the year she was having black out spells and pain in the hip and leg areas. A chiropractic spinal examination revealed this woman had a severe pressure against the spinal cord in the neck area which was gradually deteriorating her health.

She was placed under chiropractic care for the correction of this pressure. After a period of time she gradually regained her health. Had this woman had her spine examined right after the wreck she could have avoided the gradual loss of her health.

A spinal examination today may help you to avoid serious sickness in the future.
