ISSUE NO. 15

Travis Jameson Elected To City Council

In a surprising turn of events in the April 4th Matador City Council election, write-in Candidate Travis Jameson narrowly ousted incumbent Lewis Bostick with a vote of 120-114. Questions aroused in the Sunday Avalanche Journal quoting City Secretary Nell Berryman, that "officials would have to confirm Jameson's apparent victory because he did not register prior to the election or indicate his intent to serve," was unfounded.

An attorney for the Election Division, Tom Harrison was contacted on Monday and verified that this election was valid as "only County and State officials in a general election were required to declare their candidacy," quoting from Section 146.001 and 146.002 of the Election Code Manual. Incumbent L.B. Campbell received 141 votes and Joe Smith 132 votes. In the city of Matador, 284 total votes were cast.

The Roaring Springs City Council's unopposed positions were filled with incumbent Gene Brannon receiving 61 votes; Charlie Long receiving 56 and Joey Thacker 55. In the Roaring Springs area, a total of 77 voters were at the polls with 64 eligible to vote in the city election. The Hospital Board election showed Larry Hoyle receiving 410 votes and H.C. Smith 360. These also were unopposed positions. In the School Board election James Palmer won a two year term with 174 votes and Coy Franks with 220. Hal Martin had 75, Barbara Jameson 65, Johnny Scott 32, Lamar Tilson 81, Chip Smith 24, L.J. Barkley 126, Ronnie Vandiver 37 and Alvin Alexander 12.

A total of 453 people voted in this election: 284 from Matador, 50 from Flomot, 15 from Northfield and 77 from Roaring Springs.

SPEED LIMIT TO CHANGE ON TEXAS RURAL INTERSTATES

WASHINGTON - As soon as the Senate Thursday, April 2, overrode the president's veto of a massive highway bill, gears began turning here and in Austin to move workers onto construction sites and to raise the speed limit to 65 mph on most rural interstates. The new speed limit should be in place by mid-summer.

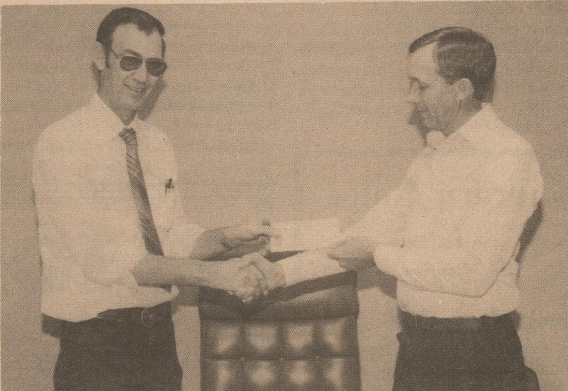

Texas will receive \$847 million for projects in the coming fiscal year. More than \$181 million in projects had to be postponed after Congress failed to act on a highway funding bill in the last session.

Motorists should continue to obey the 55 mph speed limit for the time being, according to Bo McCarver, spokesman for the State Department of Highways and Public Transportation, interviewed by telephone from Austin.

For trucks, the top speed limit will be 60 under the new bill (55 mph at night).

The higher speed limit will apply on 2,422 miles of rural interstate highways, but not on 704 more-urban miles.

Motley County ISD Receives First Check

As a last official act as Motley County ISD Trustee President, Roy G. Hobbs presents the Grant Fund check of \$236,488.00 to Motley County ISD Superintendent Ron Cummings.

The Motley County ISD Board of Trustees met in the boardroom of the High School, April 6, 7:30 p.m. Those attending were Guy Campbell, Bobby Williams, Donnie Cruse, Randy Barton, Roy G. Stephens, and the new board members James Palmer and Coy Franks. Also attending were Superintendent Ron Cummings, Don Ewing, High School Principal and Michael Patrick, Elementary Principal.

The minutes were read and approved of the previous meetings.

Next on the agenda was the canvas of the Election results, these were certified by the board. The newly elected boardmembers were sworn in.

The floor was opened for nominations for president. Donnie Cruse was elected as President and Guy Campbell was re-elected as Vice President by acclamation, Bobby Williams was re-elected Secretary by acclamation.

Motion was made and seconded to pay the bills.

Cummings gave a report on the TEA Accreditation visit the school had March 25-27. He explained the recommended areas that the school needs to comply with TEA, one of which is the Library needs more books. After stating other problem areas, they stated that the "Facilities are outstanding and the highest praise for student behaviour, manners, and eagerness to learn."

Cummings reported that the check from the U.S. Department of

Education on the Disaster Grant, had arrived last Thursday, this is the first installment to be received. The board members were shown a copy of this check for \$236,488.00. This check was for 75% of the grant payment for curriculum only, (clean up, minor repairs, movable equipment, buses, textbooks, including library books, and rent on the temporary facilities.) When this is spent and documented to the satisfaction of the U.S. Department of Education, then the other 25% will be sent. This grant does not cover any of the construction costs.

Cummings reported that they were in the process of getting the insurance rate documented, the releases had been sent to Butler, Sunbelt, and Donohue, then the building would be released to the Motley County ISD and the insurance would be adjusted and set up with Pipkin Insurance Agency.

The board next interviewed the third prospect for a Head Football Coach.

Cummings informed the two new boardmembers of the 20 hours of school board training that they have to take in the next 18 months.

Cummings asked the approval of the school board to set the Drivers Ed. teaching fee at \$100.00 per student. Campbell asked why the school had to charge. Cummings explained there were no funds available from the state.

The board then went into executive session to discuss personnel.

Is Our Clinic In Jeopardy?

By Barbara Jameson

On Friday, April 3, Gerry Jones RN Nurse Practitioner and Motley County Clinic Supervisor was notified by phone, by the South Plains Health Provider Organization (SPHPO) Planning Director Sue Terry that SPHPO had received "unfavorable comment" regarding funding for fiscal year, beginning June 1, 1987 from South Plains Association of Governments Board (SPAG).

Mrs. Jones states, "The staff at Motley County Clinic wishes to assure the public that the clinic will continue to operate as it has been. As of this date, we have no reason to believe the federal monies received by SPHPO will not be received for another year. As with any federal funds, it is important to realize they are renewed on a yearly basis."

The Health Advisory Committee is required by SPAG to make favorable or unfavorable comments and must give evidence of such regarding the funding of a health provider, which SPHPO is. SPHPO is an administrative organization that applied for a \$4 million grant to operate nine clinics in eight counties.

Ronnie Thacker, SPAG executive board member states, "There are four aspects of mismanagement that SPAG has been concerned about SPHPO for one year now: 1) Management is top heavy with a greater proportion of monies going to above average management-level salaries, etc. and not enough money getting to the clinics; 2) lack of accountability, specifically SPHPO hasn't submitted a requested audit; 3) Turning away indigent patients; and 4) lack of peer review for their physicians." Mrs. Thacker went on to say that there are two other health providers who are interested should SPHPO not be refunded. She stated that "SPHPO has been closely monitored by SPAG for a year and, basically, have been given two years to, more or less, clean up their

act." The advisory committee had to have found evidence that SPHPO had done so or they could not recommend funding. The committee did not find the evidence they needed verifying a change of management practices and so voted seven against the recommended funding, (four abstained from voting) to offer funding. "Understand that the clinic in Matador was not a problem but some of the others were," in regards to turning away indigent patients.

Larry Hoyle, President of the Motley County Hospital Board stated "that the Hospital board fully supported the Motley County Clinic and personnel and would do everything possible to keep it in operation."

Lillie Crouch states, "As a member of the South Plains Health Provider Board, I have the highest regard for Ben Flores and the organization. I feel each member and employee exhibits high integrity and has a deep concern for the people in the communities it represents."

A member of the Advisory Committee, Dr. John Selby stated that the decision for funding is up to SPAG. "We have a lengthy list of reasons why we feel something needs to be done. The cost of patient fees seem out of line, an absence of efficiency and effectiveness of the services for the dollars (it cost), lack of efficient management for indigent care, lack of communication between county authorities and so on," Dr. Selby elaborated. "For \$3.7 million the public is not getting its money's worth for patients."

Sue Terry, Planning Director for SPHPO of Plainview is also Clinic Director of Crosby, Floyd and Motley County Clinics. She states that she would like "to dispell rumors that the clinic's will be closed. We would like to have the support of the SPAG Board of Directors but it is not necessary."

She did not see any reason for not getting the grant money by the end of May. "The Motley County Clinic has historically been one of the best supporters of the Health Provider Service. We are very appreciative of Motley County Support. The excellent work by the employees of the clinic here and the support of the people, the County Judge and the pharmacist are wonderful."

Ben Flores, Executive Director of South Plains Health Provider, was unavailable for comment on this issue.

Karen King of the Lubbock based SPAG office stated that vote was to recommend to the funding agency of the Department of Health and Human Services in Dallas to red flag the grant application to monitor SPHPO's use of funds.

Several members of the Advisory Board, other than Dr. Selby, were interviewed by telephone. Judge Wayne Whiteaker of Littlefield explained that there had been questions about the operations of the clinics in the Lamb and Hale Counties. "The negative votes by the committee members is to show an unfavorable comment to the Department of Health and Human Services of Dallas, who does the grant funding. The vote was to give unfavorable comment for the application of services, not to defer funding. In no way is there any doubt that the health clinics will be funded. The advisory board wants the clinics to be more closely monitored." Marie Linson, Motley County's representative, on the advisory committee was unavailable for comment.

Judge Bill J. Whitaker commented, "We are well pleased with the operations of our clinic and hope that those who have problems will get them straightened up because it does reflect on all the Health Providers areas. We want everything cleaned up and in order, with proper documentation. We see no reason why this clinic should or would ever be closed."

AIDS Meeting Held In Matador

by Michelle Bearden

Painting a grim picture for AIDS patients and potential AIDS victims, Dr. Arnold Isaacson, M.D., Director, Public Health Region II, explored facts and exploded myths regarding AIDS at the Senior Citizens Building in Matador on April 9.

Dr. Isaacson stated that six weeks ago he was requested by Austin to get the facts out about AIDS to the general public via public health nurses, county judges, county extension agent and school administration and teachers.

Tommy Snell, Program Specialist for the Texas Department of Public Health presented an 18 minute film which will be shown at 7p.m. Channel 28, KAMC on May 29. KAMC has donated one hour to air the film and information regarding AIDS which has rapidly become the

major epidemic for the 80's. "The AIDS virus attacks the very cells we have in our bodies designed to protect and turns them into a factory that manufactures the virus itself," Dr. Isaacson stated.

AIDS, Acquired Immune Deficiency Syndrome, basically attacks an individual's autoimmune system which leaves the body open to many infections. Normally harmless illnesses become life threatening. Opportunistic infections are the most frequent killers of AIDS patients. Diseases such as Kaposi's Sarcoma, Tuberculosis, a rare form of pneumonia (Pneumocystis Carini), Meningitis, several varieties of diarrhea are examples.

It is primarily a sexually transmitted disease and there is

currently no known cure. Dr. Isaacson related that public health has thought that out of 10 people exposed to AIDS, 2 will get AIDS, 2 will develop AIDS related complex and 6 will have no symptoms. "However, recent studies," Dr. Isaacson went on, "indicate that 10 out of 10 persons will eventually get AIDS and they will die."

Currently, Texas rates 4th in the nation with 1,799 cases resulting in 1,059 deaths. In the South Plains region, 15 cases have been diagnosed and 5 of these have already died. The Center for Disease Control projects that by the end of 1991, there will be 270,000 AIDS cases and 179,000 deaths at a cost to the nation of \$8-16 billion.

The three ways that AIDS is

"Son Beams"

By June Keltz

Our world is made up of the strong and the weak. Obedience to our Lord calls for the strong to sacrifice selfish desires in order to help the weak. In the gray areas of Biblical instructions where black and white "wrongs" are not clear, the stout must always yield to the frail. If our flesh cries out to be satisfied to the degree that we succumb to its demands, then we have indeed been subdued by weakness.

Jesus said "whoever causes one of these little ones (weak ones) who believe in Me to stumble, it is better for him that a heavy millstone be hung around his neck and that he be drowned in the depth of the sea." (Matt. 18:6) We become uncomfortable when we realize that someone is looking at us as a representative of the Father and we quickly try to divert his attention to Jesus. We who are living stones must be stepping stones to holiness and not stumbling blocks leading feeble ones to hell.

Jesus was adamant when He declared "Woe to the world because of its stumbling blocks! For it is inevitable that stumbling blocks come, but woe to the man through whom the stumbling block comes." (Matt. 18:7)

We may even feel that we are so mature and perfected in the things

of God that we are privileged to take our liberty in what we know. Watch out! "But take care lest this liberty of yours somehow become a stumbling block to the weak. For through your knowledge he who is weak is ruined, the brother for whose sake Christ died. And thus by sinning against the brethren and wounding their conscience when it is weak, you sin against Christ." (1 Cor. 8:9, 11, 12)

When our flesh says, "It isn't fair, I want to do this thing and I don't see anything wrong with it," remind that carnal nature of an undisputed truth. Our Lord and Saviour, the stalwart one of all ages, denied Himself the comfort and perfection of Heaven to come to earth, suffer, die a horrible death and rise again so that we weak ones might have life. We have not sacrificed anything worth mentioning until we have suffered as He did.

"Or do you not know that your body is a temple of the Holy Spirit, who is in you, whom you have from God, and that you are not your own? For you have been bought with a price: therefore glorify God in your body." (1 Cor. 6: 19, 20) We are obligated to deny the demands of our fleshly lusts in order to be a blessing, not a stumbling block, to our weaker brothers.

Home Economically Speaking
By Carolyn Halsell

PLANT VINCA NOW FOR SUMMER COLOR

Vinca, or periwinkle, is one of the most heat and drought tolerant bedding plants available and extremely popular among Texas gardeners. Vinca range in flower color from white to lavender and grow to a height of 10-12 inches. Some low-growing varieties are also available.

Vinca is excellent for garden beds or areas of mass color in the landscape. They thrive in almost any soil condition and seem to

flower best in the heat of summer. These plants are also well adapted to container culture and make a nice accent for decks, patios and porches.

The "Little" series of vinca has been selected by the Texas Agricultural Extension Service as the outstanding performer for 1987. These plants reach a height of 10-12 inches with bright green foliage. "Little Bright Eyes" (white with a red eye) and "Little Pinkie" have proven to be the best two varieties for Texas gardens.

Most vinca are grown from transplants which are placed in the garden after the danger of frost has passed. These plants may also be grown from seed and should be started 6-8 weeks before the desired planting date. Vinca require full sun for best growth but will tolerate some shade.

Letter To The Editor

Dear Editor:

By now we have two new members of the Motley County School Board. I want to take this opportunity to publicly thank Roy George Hobbs for his service to the school and community. I know several have served more years, but probably none has spent more time on the job. Surely none has spent more time worrying about decisions that had to be made.

There has been a lot of doubting of board decisions during the last three years. But never could I doubt that he made every effort to do what was right for the school and

taxpayers.

During the public meeting, he was very professional and had done his research well. Then he presented the facts well to the group. He could always give a logical reason for decisions that had been made. However, he expressed concern that I would begin school with 32 students in the portable building.

In no way is this meant to reflect on others who have served, but just a special thank you to one who did a difficult job well.

Sincerely,
Chelsea Read

Jo Ann's Jots & Jingles

By Jo Ann Dickson

We know it is Spring when we begin to see and hear the birds sing. I found a little book the other day that told some interesting things about some birds. I would like to share this with you today.

There are about fourteen thousand different kinds of birds in the world. There are about 800 different ones in the United States.

The MOCKINGBIRD has a fine song of his own. However, if he hears another song of a bird that he likes he will stop his own song and be still and listen.

The CANARY along with the FINCH is a household pet and the Canary can be trained to sing a number of songs.

The PARROT repeats what it hears. Sometimes it is difficult to persuade him to talk.

The CHICKADEE is an active bird and often hangs upside down on a limb to reach his food. The CHICKADEE will call to his friends to come and share his food.

The bravest of birds is the KINGBIRD. He is not large but he attacks his enemies without fear. He also travels to far-away places without fear.

The BARN OWL likes secluded places such as a barn or a church steeple.

The KINGFISHER is just as his name implies. He is a good fisherman. His eyes are keenly sharp.

The SONG SPARROW uses the same musical scale as humans. You can actually write down the tunes he sings.

The BLUEBIRD means happiness. He is beautiful and loved by man.

But we really know Spring is here when we see the ROBIN. He is the true announcement of Spring.

But when I think about all these characteristics of the birds, I wonder which came first MAN or BIRD? One thing is sure, though, the same heavenly Father cares for us both!

Delta Kappa Gamma Meets

Twenty-eight members of Gamma Eta chapter of Delta Kappa Gamma met Monday evening, April 6, in the home of Chelsea Read. Also serving as hostesses were Josephine Hamilton, Vivian Morris and Jewel Varnell of Patton Springs, and Bessie Mae Marshall of Roaring

Spring. The main business item was a discussion of pending legislation that concerns education and retired

teachers, Josephine Hamilton was in charge of the program, "Total Wellness." This was presented by a panel of area teachers.

AIDS, continued from page 1

primarily spread is by (1) Sexual Contact with infected persons; (2) shared needles and syringes contaminated with infected blood (or blood exchanges); and (3) to infants of mothers exposed to AIDS.

Although virtually unknown prior to 1981, AIDS currently has spread to 77 countries, Africa, Europe, North and South America infecting all ages, races and both sexes. The current U.S. doubling rate is 11-12 months.

In the U.S., at first the AIDS patients were homosexual men but spreading to bisexual men, intravenous drug users, transfusion recipients, hemophiliacs and heterosexuals and prostitutes.

The HIV test (Human Immunodeficiency Virus) tests for antibodies produced by the AIDS virus and will show positive 4-12 weeks after exposure to the infection.

Prevention of AIDS hinges on the education of the general public with a clear focus on the rather old-fashioned concept of chastity, according to Dr. Isaacson. President Reagan has adopted five principles in fighting AIDS: "Despite intensive research efforts, prevention is the only effective AIDS control at present. Thus, there

should be an aggressive federal effort in AIDS education."

--The Federal Government should provide AIDS education materials that "encourage responsible sexual behavior based on fidelity, commitment and maturity, place sexuality within the context of marriage."

--School based AIDS education, "should be locally determined and should be consistent with parental values."

--The Federal Government, "should focus on developing and conveying accurate health information on AIDS to educators and others, not mandating specific school curriculum."

--Any health information provided by the Federal Government for use in schools should "teach that children should not engage in sex." Programs should have parental approval.

The key to blocking AIDS transmission is education and the use of condoms. Dr. Isaacson states, "Condoms are 90% effective for the prevention of pregnancy, we really don't know how effective they are against the tiny AIDS virus." The

chance of getting AIDS increases with the larger number of sexual partners a person has. A sexually active person has to assess the risk they are taking."

Interestingly enough, the AIDS virus is fairly fragile when it is outside of the body. Bleach, for instance, will kill the virus. You CANNOT get it from the air, dishes, water fountains, swimming pools, normal skin contact of food carriers.

In an unusual direction, the Surgeon General of the U.S. Public Health Service, C. Everett Koop, M.D. states, "The most certain way to avoid getting the AIDS virus and to control the AIDS epidemic in the U.S. is for individuals to avoid promiscuous sexual practices, to maintain mutually faithful monogamous sexual relationships and to avoid injecting illicit drugs."

To be tested for HIV antibodies, a person can go to the Lubbock City-County Health Dept. P.O. Box 2584, 1902 Texas Ave. Lubbock, 79408. Contact Ray Colombe at 762-6411. There are several service providers in Lubbock which the Public Health Department can direct a person to.

Good News Department

You can greatly improve your chances of surviving a fire in your home. Install a smoke detector and keep it properly maintained. Neglected detectors with weak batteries may not be able to warn you in time to get out safely.

A simple way to save lives in the case of fire is to keep smoke detectors and other fire safety mechanisms in working order.

Proper installation is at the heart of making your detector work for you. Follow the directions on the package carefully. Make sure you place them in appropriate locations, including one on each level of your home.

You should resist the temptation to remove the batteries from the device or otherwise tamper with it. The Federal Emergency Management Agency's U.S. Fire Administration recommends checking all detectors monthly. The battery on a smoke detector should be changed yearly. Pick a day and mark your calendar—your birthday for example—as the day to change the battery. Remember...it's a real protector—a smoke detector!

And all your (spiritual) children shall be disciples—taught of the Lord (and obedient to His will); and great shall be the peace and undisturbed composure of your children.

Whiteflat Reunion Big Success

The Whiteflat Community reunion was held on April 4, 1987 with 118 people registering and with several more that failed to register.

The day was spent laughing, talking and telling jokes. Many class mates enjoyed talking about things that happened in earlier years.

Mrs. Jason (Lula Kate Harcrow) Sauls, Varner McWilliams and Jack Willis entertained the group with music. Later we sang old sacred song led by Lorena (Willis) Edwards.

Officers for next year are Troy Perkins, President; Charlie Kimbell, Vice President; Luther Green, Cemetery President; and Nora Bell (Stephens) Dunning, Secretary and Treasurer.

People came from as far away as California and Iowa.

Those attending were Juanita McWilliams Aylesworth, Fred and Dorothy Adams, Hoyt and Carrie D. (Perkins) Burnam, Connie Ross McWilliams Browning, Mary Helen (Stephens) and Doc Cross, J.C. Cornell, Keith and Cheryl (Jameson) Dickson, Lorena Willis Edwards, Pat Green, Laurie Browning Griggs, Shauds and Nancy (Berryman) Harcrow, J.W. Hongh, Frances (Tiny) White) Johnson, Jodie Jameson, Beulah (Stephens) Jameson, Edith Norton Jenkins, Leslie Jameson, Charlie Kimbell, Gail and Paul King, Allie Sauls Lombardo and children Richard, John and Katie Sue, Peggy Jean Spray Martin, J.C. and Arlene Murphy and daughter Karen Palmer, Varner and Lenna (Buckannan) McWilliams, W.L. (Bud) and Johnnie Bille (Willis)

Ed D. Smith

Ed D. Smith Chosen As Appraisal Coordinator Of Lubbock

Ed D. Smith of Lubbock chosen out of eight other applicants to fill the position of Appraisal Coordinator for Lubbock Central Appraisal District.

Smith, a former Matador resident returned to Texas from Lake Tahoe, Nevada with his wife Pat, four years ago. He went to work for the Lubbock Appraisal District in 1984 as an appraiser. He is the son of Mrs. Catherine Smith of Matador.

Program For Matador Garden Club Covers Orchids And Other Plants

Mrs. Edgar Lee led a program on horticulture, with emphasis on orchids, when Matador Garden Club met March 16 at the Senior Citizens Building. Members described an orchid they had received, in answering roll call.

After a discussion of orchids, the theme changed to other plants, and Mrs. W.N. Pipkin read an article titled "Travel the World of Flowers," from The Lone Star Gardener.

Mrs. Lee explained that in terms of plant life, orchids are classified as bromeliads, with the word "exotic" applied to some varieties. "Bromeliads grow lush in Florida in the trees in swampy areas, as do the small native orchids," she explained. "On the other hand, the word exotic means plants which do not grow rampantly in our particular district." Several instances were cited, of local individuals who have grown orchids.

From her article, Mrs. Pipkin revealed that several varieties of orchids originated in Southeast Asia and include East Indian Lotus, Vanda Orchid, Cockscomb and Cymbidium.

"As people began to move about on this earth centuries ago, they carried plants with them. Explorers and adventurers returned to their homelands with flowers from far-off places. Colonists carried seeds and bulbs to the New World and some have done so well in their adopted regions that their beginnings are seldom remembered," she said.

As an example she cited: Holland's tulip is a native of Turkey; the "French" marigold arrived in Europe with the return of the conquistadors from Mexico and ninety-eight percent of the plant life of the islands of Hawaii are imports.

Native plants from North Africa include the carnation, grape hyacinth, sweet pea and snapdragon, while those from South Africa are African violet, geranium and gladiolus, among others. China, Mongolia, Japan, Mexico, Europe and North and South America are other countries where flowers and other plant species originated.

An interesting bit of information concerning the Irish shamrock was given by Mrs. Freddie Welling, a club visitor, who told of the folklore surrounding its origin.

Thought for the day was a quotation by John Greenleaf Whittier: "Close to my heart I fold each lovely thing the sweet day yields; and not disconsolate with calm impatience of the woods, I wait for each leaf and blossom, when God gives us spring."

Mrs. Ted Elliott, president, and Mrs. W.D. Lipscomb were hostesses and served hot spiced tea and cake with heavenly hash topping. Others present, in addition to those mentioned were, Rachel Patton and Mesdames Artie Wason, Robert Darsey, Alvin Stearns and Douglas Meador.

Sesquicentennial Final Report

In its last official act before sunseting on March 31, the Sesquicentennial Commission has published a "Final Report," an overview and assessment of activities associated with the 1986 celebration.

"In addition to highlighting the major events of the year, the report traces the development of the Commission since its creation by the Legislature in 1979," said Patrick A. Terry, Executive Director of the Commission. "It covers the disappointments as well as the successes. We particularly hope it will help Texans involved in organizing future commemorative celebrations. May they benefit from our 1986 experience."

Motley County Track Team News

The Motley County Matador Track Team traveled to Aspermont Saturday where they competed in the Double Mountain Relays against many outstanding teams.

The ten young men who competed did a great job. David Zarate ran the 400 meter dash and placed 4th in the finals. David also ran the sprint relay. Brandon Eddleman competed in the pole vault and ran on the sprint relay. John Wallingsford ran in the 1600 meter run, doing a very good job. Brent Marshall gave lots of competition in the 100 meter dash

and 200 meter dash. Brent was also on the sprint relay. David Stafford and Tim Kendall both threw the shot and discus. Roy Estrada ran the 100 meter dash on the sprint relay, and in the 200 meter dash. Walter

Linson threw the shot and discus and also ran the 400 meter dash. Rusty Willmon and Heath Campbell ran in the 800 meter run. Heath also competed in the pole vault.

The Lady Matadors did an excellent job capturing 3rd place all

around. Along with many individual medals and ribbons, they also brought home a 1st place plaque for the Sprint Relay and 2nd place medals in the 800 meter relay.

The mile relay also placed getting 6th in the finals. The 400 and 800 meter relays consist of Shanna Lancaster, Leigh Barton, Yulanda Campbell, and Kathy Mangram. The mile relay consists of Jeanette Ortiz, Brandi Barton, Cindy Shorter, and Chandra Brown.

Individually, Koree Campbell ran the 100 meter low hurdles placing 6th in the finals. Koree also threw the discus. Tanya Cummings ran the 3200 meter run. Shanna Lancaster

competed in the 100 meter dash and also long jumped. Leigh Barton placed 4th in the 200 meter dash and also competed in the high jump and triple jump. Paka Barton ran

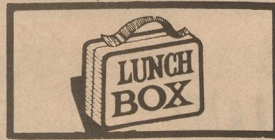

the 200 meter dash, doing a good job. Jeanette Ortiz ran the 400 meter dash. Regena Mangram, Joely Ewing, and Margie Guerrero each threw the shot. Joely also

threw the discus and received a 3rd place medal. Yulanda Campbell added to her relay medals a 6th place ribbon for the 100 meter dash. Yulanda also competed in the long jump. Kathy Mangram also added to her medals a 3rd place medal for the 200 meter dash.

Kathy also long jumped and triple jumped. Tammy Taylor competed in the 100 meter low hurdles doing a very fine job. Cindy Shorter ran the 100 meter dash and 400 meter dash.

Chandra Brown competed in the 100 meter low hurdles and in the discus throw. Brandi Barton, besides running on the mile relay also got 4th place in the high jump. Memori Assiter ran in the 1600 meter run and did a fine job.

The Matadors are doing real well thus far and are improving every track meet. They will be traveling to Hamlin Saturday, so come enjoy and support these very talented and determined track stars.

Jr. Class To Present Play

by Koree Campbell and Tanya Cummings

On the evening of Friday, April 10, Motley County residents will have the opportunity to participate in an evening of dining and the theater.

The Junior Class will present "Soon To Be A Major Motion Picture" which is a corkscrew comedy by Eddie Cope at 7:30 p.m. in the gymnasium.

Before the play begins the class will serve a baked potato supper at 6:00 p.m. in the cafeteria.

Tickets for the potato supper will be \$3.00 for adults and \$2.00 for children 12 years old and under. Tickets for the play will be \$2.00 for adults and \$1.00 for children 12 years old and under.

"Soon To Be A Major Motion Picture" is a whirlwind of laughs, plot twists, mistaken identity, and comic surprises. There is an underlying hint of common sense, too, which makes this play fun for those who see it.

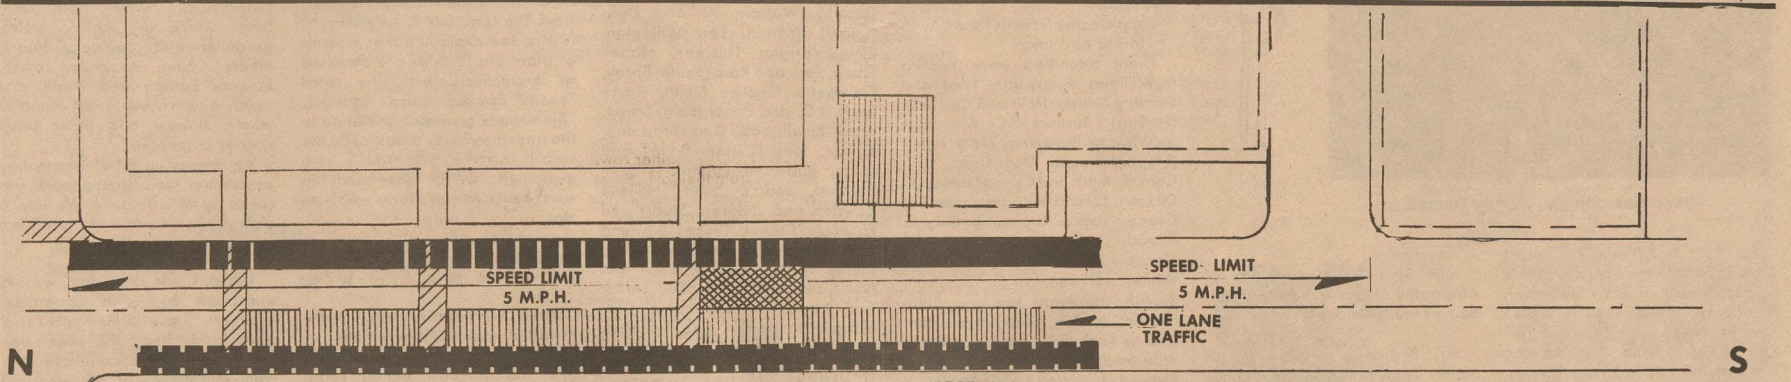

The campus of Wisteria College had been quiet and serene and conservative for years. Suddenly, things begin to happen - things like Tom Floyd (Herbert Sims) who dreams up get-rich quick schemes faster than his gullible roommate,

Bob Braden (Brandon Eddleman) can finance them; the new Dean (April Vandiver) with an embarrassing Hollywood secret in her past and a daughter (Melissa Gray) who is all bookworm on the outside and all boy-crazy on the inside; and Mrs. Aurumwater (Marianna Zarate) who wants to transplant her movie studio to the Wisteria campus.

Other characters are Mrs. Ray (Rhonda Long), who is a middle-aged owner of a campus boarding house; Sally Ray (Shannon Campbell), Mrs. Ray's temperamental 20-year-old daughter who is a cooking expert; Big Muldoon (Les Woolsey) who is a big, gruff taxi driver with a sentimental streak;

and Little Muldoon (Scott Gray) who is a not too bright, but nice, simple, likeable kid. Pameley Porter (Shanna Lancaster) is in her mid-20's, stylishly attractive, but snobbish, and A Man (John Wallingsford) is a nice-looking adventurer in his mid-20's.

Proceeds from the evening will be used to present a magical evening for the Seniors of 1987 at the annual Junior-Senior Banquet.

Procedures & Guidelines For Student Pickup And Traffic Flow, Effective at Motley County ISD, 4-13-87. Procedures and Guidelines will be strictly enforced. Your understanding and cooperation sincerely appreciated.

Social Security Tips

by Terry J. Clements

If you are approaching retirement, you are probably looking forward to a well earned reward after years of hard work. Yet, you enjoy working and do not want to stop entirely. You may ask, "If I take a part-time job or run a small business, can I still get Social Security retirement checks?"

The answer depends partly on your age. If you are under 65, you can earn up to \$6,000 in 1987 and receive ALL benefits due. If you are 65 through 69, the annual exempt amount this year is \$8,160. And if you are 70 or older, there is no limit on earnings. The exempt amounts increase each year to keep pace with rising wage levels.

Even if you earn over these amounts, partial benefits may be payable. The basic rule is that \$1 in benefits is withheld for each \$2 earned over the exempt amount.

There is also a special rule that applies in only 1 year—usually the year you retire. You can get a full benefit for each month earnings do not exceed one-twelfth of the annual limit (in 1987: \$500 if you are under 65 and \$680 if you are 65 through 69).

This monthly rule allows you to start getting benefits right away in the year of retirement no matter how high your earnings earlier in the year. If you are self-employed,

your time and services devoted to the business are considered in addition to net income; you can get more information on this at the Social Security office.

To see how these two rules work, consider "Joe" who retired at 62 in 1986 and gets \$450 a month from Social Security. He took a part-time job in January 1987 and will earn \$7,600 in 1987. Under the basic annual rule, Joe will lose \$800, or a little less than 2 months benefits.

Now, let's say Joe, instead, retires June 30, 1987, and earns \$15,000 in the first months. Then he works part time the last 6 months for \$300 a month. Even though Joe's total 1987 earnings are \$16,800, he can get a full benefit for each of the last 6 months under the monthly rule.

You should notify Social Security any time you start or stop work or have a change in estimated earnings. In this way you can avoid a possible overpayment. It's best to estimate on the "high side" to be safe since your benefits for the year will be based on that estimate.

We will be pleased to answer questions you have about how earnings affect Social Security benefits. You may contact us at 1401-B West 5th street, or call us at 293-9623. Appointments can be arranged if desired.

Recollections

by Duff Green

ROUND UPS

Back about July 1895, I was with the Spur wagon when they rounded up and branded seven hundred and seventy heifer calves in one day. They had earlier gathered eight hundred cows and heifer calves to be driven off the range. They were placed in a beef pasture and later the plans were changed, so they branded them and turned them out again.

I was at a work with the Matador in August 1899, when they made two round-ups in one day at Patton Springs and branded seven hundred and thirty calves, though there wasn't any daylight left to cut the round-up when the last hot iron was used.

The Matador used a Hoodlum wagon that carried a portable forge and burned coal, making a hotter and more consistent heat than wood.

The Spur branding was done with wood. Neither illustration is a fair sample of the average days work.

In the Matador case, it was the first branding over the range that year and the calves were both large and plentiful. The average days branding that year, as late as the start was made, possibly was not more than three hundred calves per day, the first time over the range. The second branding would be extremely light in comparison.

At that time the Spur averaged branding some ten to twelve thousand calves, while the Matador went from sixteen to eighteen thousand per year.

Croton Flats, Patton Springs, head of Wolf Creek, Teepee Pens, and the mouth of Turtle Hole were where the big round-ups were held for the Matadors.

The men I remember working with at the Matador Wagon in 1899 were: John Jackson - (Wagon Boss), Charlie Morris, Raldo Newman, Jack Luckett, Roy McClain, Jack Morris, George Fugett, Henry Cook, Will Drace, Bill Parlow (Pitchfork Kid), Ed Russell (Cook), Bill Stafford (Flying A Man), Bill Presley (Fork Man), Claude Jeffers (Fork Man), Ben Britt (Spur), Willard Gwinn (00 Man), and John Wheeler (TM Bar Man).

Did you ever sit on a hill, a mile or more from a round-up and try to tell what it was all about? It is one of the

most foolish sights to be seen.

To see a herd of cattle, bunched together and surrounded by horsemen; some sitting still and others running this way and that way, back and forth. In view and yet too distant to tell the purpose of actions, makes it look foolish and strange indeed. Doubtless the dumb cattle are as much in doubt as the spectator from afar. It is a bit pathetic at branding time. A man rides into the bunch, tosses his line around a calf's neck, and comes dragging it out to the fire. There stands the flankers waiting and the marker with a knife in hand. The iron in the fire is a red hot glow. The calf little or large is doing its utmost to hold back, kicking, bucking and bleating trying to free itself from the rope that has it entangled.

The poor mother is following her babe in terror and bewilderment, stricken with a dumb fear, not knowing if her baby will be taken away from her forever. Just following along, filled with anxiety for its safety, yet powerless to help or to aid it. When it is freed, though it may be all tattered and slit, bloody and scared with the knife and hot iron; she runs along side with a renewed joy in its freedom and does what she can to relieve it from suffering.

A brutal custom to be sure, but the only one to establish ownership and identity. As work progresses more and more of the mother cows are separated from their offsprings and wander about in misery and grief calling. Calling by means of lowing or bawling until the din is one continuous moan of distraction.

I recall a round-up and branding of unusual size, on the headwaters of Wolf Creek, a tributary of Tongue River, where three ropers worked, which meant the handling and branding of three calves to the minute. By late afternoon, the cattle were mixed and milled to finish.

Hundreds of mothers were lost from their off-spring. The wagons were camped in the vale to one side. Sleep that night was next to impossible. The noise was thoroughly awakening, and thus it was until midnight or later. By daylight, peace and quiet had prevailed the scene. Not a sound could be heard to break the stillness, other than the dismal call of a hungry coyote somewhere in the canyons. The last mother cow had regained her calf and slipped away under the cover of darkness. Making it easy to hear the cook's shrill call, "Come and get it!" A joyous prelude to quick action, and another days work was begun.

The original request for a change went to the Texas Department of Agriculture (TDA), which PCG officials were advised had the authority to prohibit such sales without new legislation. The PCG Board in its quarterly meeting October 8 last year resolved to inform TDA of "its desire to see the Texas Seed Law administered as now written" and its "opposition to removing cottonseed from seeds eligible for sale under the law's variety not stated provisions." That position was reaffirmed at a Board meeting January 14.

A bill has been introduced in Austin which, if passed, would make it against the law for anyone in Texas other than a producer to sell cotton planting seed under the "VNS" or variety not stated provisions of Texas Seed Law. Producers could still catch their own seed and sell caught seed to neighbors, but all other entities would be barred from VNS sales.

The legislation is proposed by Representative L.B. Kubiak of Rockdale at the request of seed breeders in the state who seek a better return on dollars invested in breeding research. On the other side of the issue, Plains Cotton Growers, Inc., Lubbock, the Texas Cotton Ginners Association, the Texas Independent Ginners Association and others are offering strong opposition.

It was later reported that TDA refused the request for change, advising petitioners that no change would be made without a legislative mandate.

Kubiak's bill, HB1698, was referred to the House Committee on Agriculture and Livestock on March 19 and hearings were set for April 6 in Austin.

Lynn County cotton producer Wayne Huffaker is a PCG director and Chairman of the organization's Plains Cotton Improvement Committee which directs the use of about \$100,000 per year of producer money in seed breeding research.

PCG's belief that the sale of VNS planting seed should retain its legal status stems from concerns about both availability and price.

On availability, PCG points to the wide and unpredictable weather-induced variations in planting seed demand from year to year.

"Under these conditions," says PCG Executive Vice President Donald Johnson, "we don't think it practical for us to rely on a few seed companies to produce and maintain the inventories of quality seed required to assure adequate supplies year in and year out."

Seed company representatives contend their inter-company competition would prevent excessive price increases. But PCG is skeptical of that view. "The law of supply and demand still works," Johnson states. "Shortage would be inevitable, and we'd be naive to think prices wouldn't get out of hand when they occur."

Vernon State Hospital Offers Mental Health Treatment

Statistics show that one in eight persons in the state of Texas need help for mental illness during their lifetime. Persons in this area needing inpatient treatment in a state psychiatric facility would go to Vernon State Hospital.

Vernon State Hospital, is a comprehensive mental health facility and is the newest state hospital in Texas. It was constructed in 1969. Originally conceived to be a geriatric hospital, it's mission was changed before opening to be the inpatient facility for the entire Texas Panhandle. The hospital currently serves 43 counties of north and west Texas, from the border of Wilbarger and Wichita counties to the New Mexico state line, south to Lubbock county and east to Young county. The area encompasses nearly 22,000 square miles and some 200,000 persons.

In addition, the hospital operates the State's only adolescent drug treatment, serving all of Texas. The adolescent unit was opened in 1974.

Vernon State Hospital operates a variety of programs, including short-term psychiatric, long-term psychiatric, adult chemical abuse and geriatric medical programs. The hospital oversees operation of seven rural outreach clinics serving

13 counties with community services, as well as assisting in placement of patients to and from halfway houses, intermediate care facilities, nursing homes and community mental health centers.

The hospital's impact on the areas it serves is tremendous, according to Business Manager John N. Stone. "Without Vernon State Hospital, patients would have to go at least an hour's distance to receive the same services we provide," he said. "The psychological and economic impact of being a patient far from home would greatly decrease a patient's recovery potential," he added.

The hospital maintains public education services to the area. Experts in the fields of psychiatry, mental illness, social services and addictionology provide information and assistance to help prevent mental illness and chemical abuse. "Complexities of life today make it very difficult for persons to cope. We feel that it is much better for the person to help keep them out of the hospital instead of treating them after they get here, even though it's not always possible," said Information Director Jerry McLain.

Persons having questions about hospital services or needing assistance may call 817-552-9901.

Senior Citizens Report

by Iris Blevins

The Senior Citizens Bus went to Lubbock Monday with Faye Bartlett doing the driving. She reported that a number of our group rode the bus, and two people had doctors appointments.

Thursday the bus went to Plainview with five people riding. We are expecting a full bus load when the weather gets more settled.

Friday evening was game time at the center. Due to a revival that has gone on for a week, and the Whitflat reunion coming up on

Saturday, we had only one table of forty two, but each one was ready to play and have fun.

We will have our next luncheon April 14. So, be thinking about it and make your plans to be there. April 15 will be cheese day at the Senior Citizens Center in Matador. Time has been changed to begin at 3:00 p.m. (instead of 2:00) until 5:30 p.m. We all signed the "Petition" to keep the Dr. and Clinic in Matador. We believe Motley County needs this service.

The Lord reigns; Let the earth rejoice, and let the earth be glad
The Lord reigns; Let the earth rejoice, and let the multitude of isles be glad! Psalm 97: 1

DPS News Release

Capt. Bob Russell, District Supervisor of the Amarillo Highway Patrol District comprising of 31 counties said, "For the month of February, our troopers investigated 4 fatal accidents, 126 personal injury accidents, and 219 property damage accidents. There were 4 persons killed and 165 persons injured in these accidents."

Sgt. Brad Parker of Tulia stated, "In Motley County, our troopers investigated 0 fatal accidents, 0 personal injury accidents and 4 property damage accidents in the month of February. No persons were killed and no persons were injured in these accidents."

NEWS OF HEALTH

Saying "Good Night" To Sinus Aches
Many Americans are waking up to a few facts about sinuses that could help more people get a good night's sleep.

For instance: The symptoms of sinusitis include headache, facial pain and pressure, stuffy nose and watery eyes. If you suffer from these symptoms it's a good idea to sleep in a room with a humidifier when winter heating dries out the air and your sinuses.

It also may help to sleep propped up on an extra pillow to help your sinuses drain, especially when you have a cold or flu.

You might like to ask your pharmacist about a new sinus medicine specially formulated for nighttime use. Called Sinutab Nighttime Sinus Formula, it's a sugar- and alcohol-free liquid from the company that's made America's leading sinus remedy, Sinutab, for three decades.

Ruth Lee displays one of the first sewing machines brought to Texas.

the first sewing machine ever brought to Travis County, Texas. The machine was owned by Hugh and Helen Mary Tinnin, great great grandparents of Ruth Lee of Flomot. Helen Mary undertook to teach one of the house servants, Old Aunt Rose, how to use the machine. The old Negro woman then taught the other woman slaves. All the clothes worn by the slaves on the plantation were made on the "first" machine. The Tinnins had arrived in Texas in 1850 from Washington County, Arkansas. It took the better part of two years to make the trip. Tinnin took the southern route in order to avoid swollen streams and evade Indian attacks as much as possible. To help finance the trip he stopped off along the way to buy supplies for soldiers quartered at various camps.

The Tinnin machine with its original needle was given to the Texas History Commission by a granddaughter, Miss Helen Tinnin.

Roaring Springs News

By Odessa Mullins

GREENTHUMB NEWS

Tuesday, March 31, Motley County members attended a Greenthumb training session in Crosbyton at the Senior Citizens Center.

Earlene Vaughn, Library and Lee Harris, Crew Foreman of Matador, Jim McCleskey, Arther Sanders-workers, Ora Stoneciper, coordinator for the Roaring Springs minibus, and Mary Guerrero, Matador bus driver.

ATTEND SPRING FEST

Mrs. Odessa Mullins and Mrs. Beth Hinson attended Spring Fest in Lubbock at Bacon Heights Baptist Church Friday and Saturday. Mrs. Mullins was in charge of registration. There were conferences on all mission work from Mission Friends to Royal Service Magazines. W.M.U. ladies use also a session on W.M.U. Centennial. 150 ladies attended from region 12, with 21 being from Caprock Assn.

The ladies spent Friday night with Mrs. Mullins sister, Billie Odell.

Word was received last Friday of the death of Rev. A.J. Holster of Borger. He was the father of Mrs. Curtis (Vickie) Hull, former resident. He preached in the First Baptist Church while visiting here one weekend with Mrs. Hull.

MRS READ HOST GUILD MEETING

The Guild held it's April 1st meeting in the Truett Read home in Matador, with Mrs. Read as hostess and Imogene Swim, president, in charge. Alta Duval gave the Opening Prayer; Imogene Swim brought the Devotional. Mrs. Agnes Aaron, Bible teacher, taught the lesson on the 19th Chapter of John and Pastor Royce Scott said the Closing Prayer.

Those present were Agnes Aaron, Opal Bradford, Alta Duval, Freda Keahey, Chelsea Read, Imogene Swim, Lula Swim, Pastor Royce Scott, and a visitor Miss Lisa Tompkins of Austin.

Flomot News

INJURED IN ACCIDENT

Mrs. and Mrs. Orville Lee were in San Antonio Wednesday and Thursday for Mr. Lee a medical check up. He received a good report.

Don Foster of Tempe, Arizona, Mrs. Sherrilyn Cook and Keith of Lubbock visited Mr. and Mrs. Doyle Calvert and Glen, Wednesday and again, Sunday.

Mrs. Billy Morris played in a volleyball tournament at Clarendon, during the weekend and in Memphis last weekend. Her women's team won first place in both tournaments.

Luncheon guests of Mr. and Mrs. Ray Cruse, Sunday were Mr. and Mrs. Jay Henderson, Paul, Phillip and Jason of Plainview and Mr. and Mrs. Darrell Cruse, Leah, Keane and Derrick and Mr. and Mrs. Donnie Cruse, Regina, Brand, Chancy and Talon, local residents.

Mr. and Mrs. S.E. Lane of Clarendon visited Mr. and Mrs. A.D. Moseley, Saturday. Mr. Moseley is on the sick list.

Mrs. Leon Cloyd visited in Floydada, Monday with Mrs. Fern Bethal and in Turkey, Tuesday with Mrs. Jay Stewart and houseguest, Jason Cloyd of Memphis.

Mr. and Mrs. Wilburn Martin were in Amarillo, Tuesday. Mrs. Martin and friend, Mrs. Pat Scott of Amarillo attended a Southern Living Cooking School.

Mr. and Mrs. Wayne Hunter were guests Friday and Saturday in the home of their daughter, Anita Hunter of Lubbock. Mrs. Hunter attended a W.M.U. conference held at the Bacon Heights Baptist Church. Mr. and Mrs. Hunter attended a Jazz Concert, Friday night held at the Civic Center featuring accomplished jazz drummer, Louis Bellson and vocalist, Kathy Knight.

Louis Shorter of Amarillo visited Mr. and Mrs. L.E. Shorter and the Clois Shorter family, Sunday. Joining him here for a turkey hunt was Mike Green of Lubbock.

Dickie Cloyd and Jason of Memphis visited his parents, Mr. and Mrs. Leon Cloyd, Saturday.

Mr. and Mrs. Howard Rogers, Mr. and Mrs. Joe Degan and Donnie Rogers visited in Calgary, Thursday with Mr. and Mrs. Stanley Degan, Shawna, Shay and Dane. They celebrated Shawna's 14th birthday.

Cary Rippetoe

GREAT GRANDDAUGHTER RECOGNIZED FOR HER ACHIEVEMENTS

Cary Michelle Rippetoe of Cordell, OK, great granddaughter of John Barton of Flomot, is endowed with talent, beauty and scholastic aptitude. She has been recognized by national publications, including "Seventeen" Magazine and the Southwestern Oklahoma State University for her achievements and states they have been rewarding experiences.

Cary is a 1986 graduate of Cordell High School. She is presently a student at Southwestern Oklahoma State University working toward a degree in elementary

education and sociology. She is working in the Psychology Department at Southwestern.

The nineteen year old was listed in Who's Who in American High Schools and Universities, a district winner in Veterans of Foreign Wars Essay Contest and a finalist in 1984-86. She won a University of Oklahoma Alumni Award, 4-H officer and district youth conference delegate for two years.

The green eyed, brown haired lass was Miss Cordell in 1985-86; Miss Southwestern 1987 finalist; second runner up in Miss Clinton Scholarship Pageant; 1986 Cordell Wrestling Homecoming Queen; 1985 Cordell Football Homecoming Queen; mock trial acting lawyer and was active in Speech and Drama Club, annual staff, Future Homemakers of America, Student Council officer; Principal's Honor Roll and sophomore class vice-president.

Among her other talents, she is a vocal soloist, writes poetry, decorates window displays for businesses and sews.

Miss Rippetoe is the daughter of Linda Rippetoe of Cordell, OK and Mr. and Mrs. Gary Rippetoe of Willow, OK. She is the granddaughter of Mr. and Mrs. Jack Aldridge of Carter, OK, the former Betty Barton of Flomot.

Volleyball Tournament Begins Tonight In Flomot, April 9

A volleyball tournament, sponsored by the Flomot Volleyball Assn., will be held in Flomot, April 9-10-11 at the Community Center Gym. Scheduled entries are 10 women's, 8 men's and 6 mixed teams. Finals will be played Saturday afternoon and night. General admission is \$1.00 for

adults and .50 for children. Awards will be presented for 1st, 2nd and 3rd place in each bracket after final games, Saturday night. There will be a concession stand with hamburgers, taco salad, nachos, homemade assorted goodies, soft drinks and coffee for sale. Come join the fun!

Whiteflat News

By Earlyne Jameson

NEW RESIDENTS

We welcome Mr. and Mrs. Jack Williams and five month old baby son, Wilburn Cy, formerly of Lubbock, to the Whiteflat community. Mr. Williams is employed by Davis Harvey, manager of the Blankenship Ranch, located 6 miles north of Matador. Mr. Williams is a 1973 graduate of Motley County High School.

Word was received that Allen Bryan of Phoenix, Arizona, a former Whiteflat resident, died at 5:00 p.m., Thursday, April 2. Mrs. Mollie Burleson of Floydada, long time friend, reported that the funeral services would be in Arizona, but at the time of the call, the services were pending.

Mr. and Mrs. Jack Aldridge of Carter, OK visited from Wednesday until Saturday with her father, John Barton.

Mr. and Mrs. James Gwinn and his mother, Mrs. Walter Gwinn of Matador visited Saturday and Sunday in Lubbock with Aly Gwinn.

Mrs. James Meador of Clifton

visited Mrs. Skeet Jameson, Wednesday. She was attending to business in Matador this week.

Weekend guests of Mr. and Mrs. Stuart Dixon was attending the Whiteflat Homecoming in Matador, Saturday were Mr. and Mrs. Jack Willis of Des Moines, Iowa, Mr. and Mrs. W.L. McCarty of Irving and Mrs. Adrain Risner of Wheeler.

Rhonda Spray of Bedford is visiting her grandparents, Mr. and Mrs. Jack Spray. Other visitors, Sunday were Lennie Stan and son, Jonah of Afton.

Mr. and Mrs. Johnny Turner, Heather Ann and Cobey visited at Lake McKenzie, Sunday with Mr. and Mrs. Joe Luckenbach of Comanche.

Mrs. Davis Harvey met her daughters, Mrs. Lorri Richmond, Buz and Brittany of Sweetwater, OK and Mrs. Debra Weis of Perryton in Pampa, Wednesday and visited in the home of Mrs. Vera Harvey.

Alfred Cooper was a patient in the Veterans' Hospital from Tuesday until Thursday. He is reported to be doing fine following medical tests and check-up.

Matador News

Mrs. Foy Moore is a patient in the Methodist Hospital in Lubbock, following surgery.

R.E. Campbell, Jr was conveyed by ambulance to Amarillo, Tuesday where he is a patient in the intensive care unit of the Veterans' Hospital. Visitors of R.C. Giesecke during the weekend were Mrs. Buddy Allen and children of Pampa, Charles Giesecke of Plano and his friend of Fort Worth.

Mrs. D.D. Root of Albany visited from Friday until Monday with her brother and wife, Mr. and Mrs.

Duke Lipscomb. Visiting them Saturday and Sunday was his son, Wyatt Lipscomb of Odessa.

Visiting Mrs. Ossie Smallwood on Saturday April 4 were her children and also attended the Whiteflat Reunion; Mr. and Mrs. Alvie Robison of Pharr, Mr. and Mrs. Jesse Smallwood of Plainview, Mr. and Mrs. Herbert Smallwood of Iowa Park and their granddaughter Jennifer, and Clyde Smallwood of Liberal, Kansas. Clyde came on Thursday and stayed until Sunday.

"Experience is in the fingers and head. The heart is inexperienced."

PATTON SPRINGS NEWS

Ranger Tennis Teams Defeat Silverton

The Patton Springs Ranger Tennis Teams defeated Silverton 5-2 last Monday night, April 6 at Silverton. The win brings the Ranger's record to 3-0 in dual competition. In Girl's singles, Darla Ellis won 6-3, 6-1 and Kay Osborn won 6-1, 6-1. In girls doubles, the team of Mary Baeza and Angie Burkes won 6-2, 6-2. The doubles team of Kristy Patrick and Sharon Fulmer lost a close one by a score of 7-5, 2-6, and 6-3. In boy's

singles, Chris Tilley won in straight sets 6-3, 6-4. In boy's doubles, the team of Kevin Scarbrough and Jarren Slaton lost the first set 7-5, then came back to win 6-0, 6-4 in an exciting match. Mikel Shepler and L.G. Little lost a hard fought match 6-3, 6-4. The Ranger tennis teams are looking forward to the district meet next Monday and Tuesday April 13, 14 at Valley.

Remember When

By Annie B. Cloyd
Box 22
Flomot, TX 79234

Hello Neighbors, it's nice to visit with you again with the sun shining, for a change. I'm still looking back at the old days here in Flomot, so we'll see if you can remember the first School Bus that

the school here ever had.

We talked about this a day or so ago and some remembered riding on it and that Mr. McGowen was the bus driver at that time. I was told that this one bus had to make about four different routes in order to get all the kids to school. That made some have to catch it before daylight and some wouldn't get to school till noon--but they all made it somehow.

When I was in school, our first bus was an old truck with a tarp over the sideplanks and one by twelve boards built in the back to sit on. We were glad to get it because we had been walking or riding a horse to school. Four miles when you are in

the first grade seems a long way to walk.

Now days the kids have a longer way to go to school and there has to be more busses, bigger busses and better ones--even if there are fewer kids to ride them. Funny how things change isn't it.

Kids have so many things to go to and so many other things to do at school these days that some have their own cars and others want to get one, some way or other, so they can keep up with the rest of the kids. It's always been that way though, we wanted to try and do or get whatever the other kids "did or got". Guess it's just human nature to be that way.

I remember asking my Dad if I could go with a bunch of the girls to a party and I made the statement, "Please..Mary Helen's Mother is letting her go." He said to me, "If she goes to hell, do you want to go too?" You know I didn't ask anymore. I knew if he said "no" that it wouldn't do any good to ask again...and that was a "no" if I ever heard one.

Are there still Parents like that now? I sorta doubt it, don't you. We let the kids do so much more that we got to do when we were young. I sometimes wonder if they don't have too much free time and not enough work to do at home.

Patton Springs Lunchroom Menu

April 13-16, 1987

MONDAY, APRIL 13

Multi-Peril Crop Insurance...

Deadline Is April 15

It's Good Business Sense

Today you insure everything on your farm. But are you insuring your ability to help provide for your family if your crops fail? That's the purpose of multi-peril crop insurance. The advantages include:

- Crop income protection
- Loan collateral
- Reduces the uncertainties due to crop failure
- Helps protect your productive assets
- Income stability
- Tax advantage
- Improved financial planning
- Helps keep the farmer farming

Talk to a crop insurance specialist: The Omaha All Risk Insurance Services Agent in your area. We go the extra mile to provide you with reliable coverage and fast, dependable service. You'll find that crop insurance is just good business sense.

This multi-peril crop insurance is underwritten by Omaha Property and Casualty Insurance Company, a Mutual of Omaha Company, and reinsured by the Federal Crop Insurance Corporation.
