TRAIL DUST
 By DOUGLAS MEADOR

Windmills are close to the destiny of West Texas. They were responsible for life in a land which needed the single ingredient, water. A well of water and a good windmill were frequently more valuable than land. And the windmills were music. A friend says she remembers the sound of the great wooden wheel windmill at night when she was a child. Many nights it lulled her to sleep with its even strokes, lifting precious water from the depths of the earth.

★★
 Apparently one of the country's present problems is communication. Parents are unable to communicate with their children and children are unable to communicate with their parents. The situation is obvious; most of the time a television set is doing the communicating.

★★
 No music is sweeter than the patter of rain, unless of course you happen to be beneath a roof that allows the rain to come through.

★★
 Trying to evade a tithe of your earnings when the collection plate is passed, may leave skid marks on your conscience.

★★
 To keep the truth convincing it is necessary that it not be contaminated with any other ingredient.

★★
 Whiskey will not cure a cold, according to a pioneer, but applications of the treatment will prevent the cold from being a nuisance.

★★
 Winter is an outlaw in the skies, shooting down yellowed leaves and whipping the barren branches of trees, until they are stilled with the weight of snow. Splendor is never far away from nature's violence.

Letter to the Editor

A recent letter from William Webb, French Creek, W. Va., tells of his experiences after leaving Matador last summer, en route to his present location near Buckhannon, W. Va.

The Englishman and his horse, Wrangler, left Scottsdale, Arizona, April 19. He spent the week end of June 29, in Matador, camping out east of town. Although he had planned to ride the 2500 miles horseback, he changed his plans because of adverse circumstances which he describes in his letter, as follows:
RFD 2, Box 190
French Creek, W. Va. 26218

Hello Friends:
I hope you are well. I am fine. worked at the Sheppard Air Base

My long ride ended at Humboldt, Tenn., after I had been jailed for the second time. I did not undertake such a long ride just to be put in jail.

The first time I was put in jail was in Choctaw County, Oklahoma. I was picked up by a deputy in Boswell, and taken to Hugo and held in the county jail for six hours. I was accused of stealing a paint horse.

After six hours, my friends came down to get me out. The Sheriff turned me loose, and the deputy who picked me up, said it was a mistake, and apologized. That was on August 2nd. On September 25, I was arrested in Humboldt, Tenn. They said I had broken into a garage and stolen some money at midnight the previous night I was jailed for two hours, then they apologized and turned me loose.

After spending a total of eight hours in jail I decided to quit. Although we did not complete the 2,500 mile trip as planned, we did cover 1,715 miles, which is a long ride any old how.

My horse, Wrangler, is still down in Tennessee. He is with a veterinarian. As soon as I have saved enough money I am going to have him shipped here.

I could not get a job in Vernon, so I stayed in Iowa Park, and

in Wichita Falls.
Wrangler and I were on TV twice, on channel 3, Wichita Falls, and channel 12, Sherman. Sincerely,
Bill Webb, the English Cowboy and Wrangler, the toughest horse in the West

HHH Wins Texas By 38,960 Votes

AUSTIN — Vice president Hubert Humphrey carried Texas in the general election Nov. 5 by an official total of 38,960 votes, said Secretary of State Roy M. Barrera Friday.

Official election returns showed Humphrey had 1,266,804 votes, President-elect Richard Nixon 1,227,844 and George Wallace 584,269.

Official returns in the races for governor and lieutenant governor will not be canvassed until the legislature meets in January, but Barrera's unofficial figures showed Gov.-elect Preston Smith with 1,663,650 to Republican Paul Eggers' 1,254,843.

Lt. Gov.-elect Ben Barnes became the first man in Texas history to poll more than 2 million votes.

Barrera's figures have Barnes with 2,040,390 to 792,757 for Republican Doug DeCluitt.

by Judy Marrs

Four panelists discussed teenager's problems in the high school auditorium November 19, for Future Homemakers' second night meeting of the year.

Jeanette Day, first vice-president, was narrator for the discussion. Panelists included Mrs. Howard Traweck, Mrs. Larry Heard, Richard Turner, and Gwendell Smith, all local residents.

Recalling their own experiences as teenagers, the panelists discussed problems concerning dating, curfews, and rebellion.

Mrs. A. L. Fair, chapter sponsor, stated that the discussion was "one of the best we have ever had."

Refreshments of cake, spiced tea, and coffee were served by FHA social chairmen in the Home Ec. kitchen following the program. Guests at the meeting included parents of the girls, teachers, and other interested residents.

Bobby Simpson is "Mr. Irresistible"

Bobby Simpson won the title of Mr. Irresistible November 20. The contest is held each year by the F.H.A. The winner is the

boy who collects the most ribbons from the girls by making them talk to him.

With the methods that the boys come up with, the girls find themselves ribbonless before noon usually. One of the popular methods this year was stepping on the girls' toes.

Bobby is the freshman son of Mr. and Mrs. James Simpson.

Mexico Alamo Story Published

(The Siege And Taking Of The Alamo, by General Miguel A. Sanchez Lamego; illustrated 53 pgs.; first edition limited and numbered; \$7.50; The Press Of The Territorian, Santa Fe, New Mexico.)

The Mexican view of the Alamo, gathered in the archives of the National Defense of Mexico by a respected military man and Latin American historian, looks at the battle itself almost as the Texan does.

But missing from General Miguel A. Sanchez Lamego's account of "The Siege and Taking of the Alamo" is the Texas bragadocio that tends to cloud the whole story. The painfully documented short history says the Texans' motives may not have been entirely pure in beginning the Lone Star Republic's successful fight for independence.

Nor were all the Mexicans bad guys.

The pensive review of the Texas War—and the dusty mission which symbolizes it—hints that the war began after Norteamericans, settling Texas at the generous invitation of Mexico, seized on an intramural dispute as an excuse to declare independence on trumped-up breach-of-contract charges.

Because of a dispute between the Mexican president, Miguel Barragan, and Mexico's de facto dictator, General Antonio Lopez de Santa Ana, Texans charged the federal institutions of Mexico had been overthrown by force and the "social compact" between Mexicans and Texans dissolved.

They declared independence from Mexico, precipitated the Texas War and, indirectly, the Mexican-American War that followed a few years later.

Lamego says, in effect, that Sub-Lieutenant Jose Maria Torres resulting in a state-governor appointment favorable to Santa

Ana, was only an excuse to take over the republic and eventually deliver it to the United States via a doctrine of manifest destiny. That's what happened, premeditated or not.

Out of 6,000 troops making the long, foul-weather trek north to San Antonio to reclaim it for Mexico, there must have been a hero—something many Texans are loathe to admit.

Lamego concentrates on one, Sub-Lieutenant Jose Maria Torres: "With determination he climbed to the roof and, with great effort while running great risk, he succeeded in lowering the Texan's flag and raising in triumph the Tri-Color of his battalion. This glorious deed cost him his life."

Lamego shows his mettle as a researcher in this slender book. This is the first book-sized review of the battle to come from south of the Rio Grande, and the first Alamo account of anyone's to make extensive use of the official archives in Mexico City.

The book will infuriate those who believe America never has had an impure motive. But for the serious Texas historian, its content is a must.

"The Siege and Taking of the Alamo" also will bolster the view that, after all, the land was Mexico's regardless of what the regime was like. The Texans, after all, were guests.

Your first thought is that Chevy is a good looking pickup...

Here are some second thoughts:

work truck playmate second car camper

We could add hobby hauler to the list. Chevy trucks are great for rock hounding. Collecting antiques. Etcetera. The point is: They're as versatile as anything on the road. Or off. Especially, four-wheel drive versions. They go anywhere.

Wherever you go, you go in style. Sleek front end features a new aluminum grille. In back, there's a new 8½-ft. box on some models. Great for big-campers.

Great under the hood, too. Six or V8. Standard on V8 models is a big 307 cubic-incher.

Under the rugged chassis, coil springs take care of bumps. Inside, thick foam seats take care of you. There's a lot more. And more you can order. Like, power steering and air conditioning. See your Chevrolet dealer for all the facts and the good word on low price.

Hand and Burleson did not know of the accident. They drove on to the Pease River bridge and waited, then returned. The road was barricaded by the two pickups in collision.

Peace Justice W. W. Clements had been summoned after word of the fatal accident reached Matador. He asked County Commissioner Clyde Gilbert to accompany him.

In the Devil's Gap area Gilbert said, "I helped build this road more than 30 years ago. I worked with Jim Edmondson . . ." they did not know then that Mr. Edmondson's wife had been killed and that he was fatally injured a short distance ahead.

Mr. and Mrs. Edmondson were en route to Amarillo to spend the Thanksgiving holidays with their children, her two sons and his two daughters who live there. Other members of their family had planned to join them there.
