The Matadors continued to play high Friday night, as they defeated the Greyhounds of Knox 18-6 to come out on top of an 11-0 record. The Matadors, content in long drives, moved to touch-downs on drives of 50, 66, and 52 yards in the air.

TRAIL DUST

By DOUGLAS MEADOR
While grinding out 200 yards on the ground, the Matador defense for the better part of the game was superb, although there were a few dry spots over so often. The Greyhound offense was held to 102 yards on the ground and only 52 yards in the air.

Richard Campbell opened the scoring for the Matadors in the first quarter with a four yard drive over right tackle. However, the try for extra points failed as did all of the remaining extra point conversions.

CHAMPIONSHIP FOURSOME — Winners in the Handicap Tournament held recently for both men and women by the Airport Country Club were the above foursome: Marion (Mrs. Glenn) Woodruff, Carl Tardy, Alfred Barton Jr., and Lucretia (Mrs. Roy) Grundy. The handsome, engraved trophies were given courtesy of the Men's Golf Association.

County Drops Taxes 4th Straight Year

THE KENNEDY ADMINISTRATION has been talking about reducing taxes, but Motley County Commissioners Court has gone farther than conversation and news releases. The county has reduced taxes, the fourth straight year in a row. The new rate for 1963 is \$1.14 per \$100 valuation which is 1c under last year.

The reduction includes the loss of more than \$14,125 in oil lease valuation (six pages dropped from oil and gas leases valuation). The county total valuation last year was \$8,057,550. For 1963 it is \$8,059,440. In 1961 the valuation was \$7,778,070 and the tax rate was \$1.20. The valuation increased \$200,000 in 1961 and taxes were reduced to \$1.20.

Well Is Unusual

AN UNUSUAL irrigation well has been developed in Motley County. The well is on the Joe I. Clay farm in the north part of the county. It is 265 feet deep with water rising to within 35 feet of the surface. It was financed through a Farmers Home Administration loan, according to Alfred Harrison, county supervisor of Floydada.

An 8-inch pump has been installed and a strong 8-inch well developed which produces 1200 gallons per minute with 100 feet of water left in the well. Clay is operating 185 sprinklers at one time from the well. Only 10 days are required to irrigate the 160-acre farm which produces cotton, peanuts, and hay. Approximately 30 acres of the hay crop land will be sprigged in Midland Bermuda grass in 1964.

The news release did not name the driller of the well, which is unusual in this area below the Plains.

Water Meeting Scheduled Here

Soil and water loans are made by the FHA from funds advanced by private lenders and insured by funds provided by Congress.

Harrison says loans may be used to drill wells and otherwise improve water supply systems for irrigation, home use, livestock, purchase pumps, tanks, ditches, and canals for irrigation, underground tile, etc.

Cardinals Nip 'Jackets 36-0

Six senior men on the heavy Oklahoma Cardinal team Friday night (Sept. 13) nipped the Roaring Springs Yellowjackets 36-0 in a heartbreaker for the 'Jackets' 2nd game of the season.

Effective running and passing pushed the 'Jackets' out of the scoring department. The Yellowjackets held theirs under fair control to the half which ended with the host team only 6 points on the scoreboard.

Daughter Has Surgery

Mrs. Roy Smith has been in Odessa this week with her daughter, Mrs. Tom Melton, who had surgery Monday, and looking after the Melton children.

Only serious scoring threat by the 'Jackets' was in the 1st quarter. It was a drive started by a long pass from Don Tardy to John Castillo, but the Yellowjackets could not break through the Cardinal wall to reach the final few feet to pay dirt. The ball went over on downs.

Church and Society

Former Resident Weds in Odessa

The Northside Baptist Church in Odessa was the scene for the recent marriage of Miss Sandra Fussell and Hubert L. Fulkerson, son of Mr. and Mrs. Lloyd L. Fulkerson of 1204 Smith, Odessa, formerly of Matador.

The bride is the daughter of Mr. and Mrs. J. R. Fussell of Odessa. Mr. and Mrs. A. B. Fulkerson of Matador are paternal grandparents of the bridegroom. Rev. W. I. Lee officiated for the double ring vows before a white arc of ferns and gladioli with 14 white tapers.

Given in marriage by her father the bride wore a dress of Chantilly lace and nylon pleats over satin, designed with tapered sleeves and a Peter Pan collar on the lace bolero. A pearl and crystal tiara held her fingertip veil of illusion trimmed with Chantilly lace. She carried a white lace Bible bouquet of cascading white carnations.

Miss Jean Painter was maid of honor and Misses Rebecca and Donna Fussell, sisters of the bride, were bridesmaids. Lloyd L. Fulkerson served his son as best man. Ushers were Billy Roy Gholson and Leroy White. John Lewis and George Fulkerson, brother of the bridegroom, were groomsmen.

Following a reception in the church parlor, the couple left for a wedding trip to Fort Stockton.

Mrs. Fulkerson is a graduate of Permian High School and attended Odessa College for two years. She is employed with John H. Sheets, M. D.

GENERAL TELEPHONE TOWNS ON THE MOVE

Van Heusen Shirts come to Augusta

When the Augusta, Arkansas Industrial Development Corporation set out to secure new industry, they came up with one of America's largest and most respected manufacturers of men's shirts.

The Phillips-Van Heusen Corporation, makers of famous Van Heusen shirts, was brought to this 2300 population town about a year ago. They employed local workers, instituted an intensive training program, and completed the first products in the brief time of 14 days. Such aggressive ac-

tion by local citizens and company officials has caused the plant to become a major factor in the local economy.

It is another reason we say General Telephone towns are on the move. Community improvements are under way, local resources are being developed, new businesses, new industries are coming in. If your town seeks additional information about expansion, perhaps we can help. Just write our Community Development Department, Box 1001, San Angelo, Texas.

"Now the next thing I do is to learn to play golf. . . I just can't stand the idea of all the gals back home doing something that I can't do. . . Anyway it isn't easy to get in out here and it is quite a lot more expensive — but the last few weeks I've been inquiring and the older clubs are beginning to organize beginners clubs with no age limit — so thought maybe I might just sneak in and give it a try."

Sure hope you join, Leora, for it is a lot of fun!

Although its first field was discovered 6 years ago, Motley County is the scene for the industry's continued search for oil and gas. Some 8 wells were drilled there last year, with 5 being wildcat exploratory wells, according to the Oil & Gas Journal. The Association estimated that more than \$636,000 was spent on drilling in the county this past year and that some \$557,000 of this went for dry holes.

Leasing adds many thousands of dollars to the county's economy. Tabulations by the International Oil Scouts Association show major companies in 1961 were paying rentals on about 318,000 undeveloped acres, which comprise about half of the county's area.

Royalty payments to Motley farmers, ranchers and other landowners are running at more than \$139,000 annually, the Association calculated.

Motley County producers and royalty owners also make a sizeable contribution to the support of state government, with production tax payments of more than \$51,000 a year.

Industry taxes likewise are important to the county government and school districts in the county. For instance, 32 per cent of the local property taxes collected for the Roaring Springs Independent School District comes from oil and gas operators, and 11 per cent at Matador.

CARD OF THANKS

Your many acts of kindness for our family during our recent sorrow at the passing of our brother, Bill Vaughn, were deeply appreciated, and we wish to take this means of expressing our heartfelt gratitude to every one who remembered us in any way. Your sympathy, as expressed by cards and other messages, flowers, and food were a solace to us in our time of need. May God bless you.

Mr. and Mrs. J. C. Smiley and Mr. and Mrs. Tom Vaughn, Roaring Springs, Mrs. Lydia Stone, Thousand Oaks, Calif.

Oil is Now Factor In County Economy

With oil production worth about \$1.1 million a year, Motley County citizens have a financial stake in the worldwide demand for energy and the complex economic and political problems involving the petroleum industry, according to statistics released this week by Texas Mid-Continent Oil & Gas Association.

"We have pulled together some figures from the most authoritative sources so residents of Motley County can see how local pocketbooks are affected by some of the issues which involve our industry," said J. Clyde Tomlinson, Association president. "Issues of current concern include the proposals to cut percentage depletion rates, extension of federal controls over prices at which Texas producers sell their gas, and development of laws and production methods that will help Texas compete with other states and nations for markets."

The latest year for which U.S. Bureau of Mines figures are available (1961) shows Motley County producing more than 376,000 barrels of crude oil, valued at about \$1.1 million. In 1961 there were 30 producing oil wells in the county, according to the Texas Railroad Commission.
