FLOODS HAMMER COUNTY Washed Out Bridges Cut Off Communities

"A series of torrential rains Saturday in the foothills resulted in floods that drove Motley County residents from their homes and almost isolated Matador and Roaring Springs. Hackberry Creek here in Matador reached two feet above the Main Street bridge and caused traffic to be closed for several hours.

At least 5 highway bridges have been washed out or damaged in the county.'

JACK BRADSHAW WINS HIGH NATIONAL AWARD

"High National Honor has been awarded a former Motley County resident. Jack Bradshaw of College Station, graduate of Matador High School and who started his career in government service here in the old AAA office on May 21, has received the United States Department of Agriculture Superior Service Award. Presentation was made in the Sylvan Theater in Washington, D.C. by Secretary of Agriculture, Ezra Lazt Benson.'

WOMAN CARRIES TOE IN APRON POCKET AND FINISHES WASH

"Mrs. Raldo Martin of Flomot carried a severed toe in her apron pocket for two hours last week and finished her washing before she sought medical aid.

A cow stepped on Mrs Martin's foot and completely severed the second toe on her left foot. She picked up the severed digit and put it in her apron pocket, then administered first aid to herself, finished her washing before she was brought to Stanley Hospital where she received surgery."

NEEDED: "CAREAND TENDING"

It's true: Some things are just too important to allow them to grow on their own without any care or tending.

Families need to be taken care of in spe cial ways. Children need to be diligently tended. Our children need to be carefully nurtured. Their souls need a careful diet of spiritual food. To allow our children to grow up on their own without any care and tending by loving people will only bring heartache.

Good care takes time, energy and effort. No, it just doesn't happen. Christian families are the product of much care and tending by Godfearing Dads and Moms. Parents which are devoted to the Lord will spend time with their children and will make their spiritual welfare a major concern. Families don't just function, it is the members of that family who make it work. Family members who love one another and who are involved with one another encourage and strengthen the family unit.

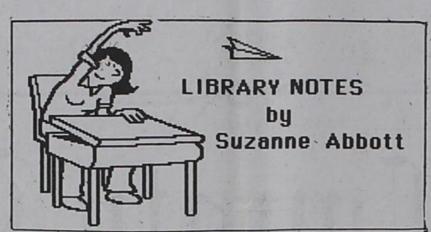

Thank you Lord for giving us the opportunity to grow, to care for and to tend the finest crop we will ever raise. I am speaking of our children.

Immunization: Keeping Children Healthy

(NAPS)—American parents are well on their way to meeting the national goal of having 90 percent of all two-year-olds fully vaccinated. According to the most recent figures from the U.S. Centers for Disease Control (CDC), a record 76 percent of toddlers in the U.S. have received recommended immunizations.

Immunization protects children against dangerous diseases during their most vulnerable years. Recommended schedules call for a series of vaccinations beginning at birth or two months, through age two and beyond, to help build immunity to such diseases as measles, mumps, rubella, polio, pertussis,

diphtheria, tetanus and chicken pox. Your child may have fussiness and discomfort following immunization. This can include fever, pain, tenderness, swelling and redness at the site of the shot. To reduce fever and relieve pain, your pediatrician may recommend an acetaminophen product, such as Children's TYLENOL®, even for children under six months of age. Never use aspirin. Follow these guidelines whenever you give your child medication:

· Children's medications are specially formulated to be dosed by weight and age. Know your child's current weight and remember, as your child grows, the amount of medication he or she needs will change.

· Read the label carefully before giving any medication to your child. Be sure that you have selected the correct product, that you understand the dosing recommendation and are aware of any warnings or precautions that may pertain to your child.

· Consult your child's health care provider if you have any questions about dosing or if your child is under age two or weighs

less than 24 pounds.

There are many reasons why proper immunization should start in infancy. According to the CDC, properly vaccinated children help reduce rates of infectious disease in the entire community. New vaccine recommendations remind parents and caregivers to discuss the child's immunization status with the health care provider at every office visit.

Look for information on early childhood immunization at your pediatrician's office. And for a free booklet on immunization, call 1-800-718-5702.

Proposition 1 Benefits Homeowners, Senior Citizens, and Teachers

by State Senator Tom Haywood

On Saturday, August 9, Texas voters have the opportunity to give themselves a tax break. The proposed consitutional amendment, Propositon 1 on the ballot, will provide for an increase in homestead exemptions from \$5,000 to \$15,000. Additionally, senior citizens will be able to transfer their tax freeze from one property to another if they should move. If approved by the voters, the \$10,000 exemption place of residence after the age of 65. increase will become the largest property tax cut in Texas history. The provision allowing our elder citizens to keep their taxes low will be welcome relief for those struggling on fixed pension incomes.

The idea is simple: if state government has a surplus of taxpayer money, that surplus should be returned to the size of state government in check.

The 75th Legislature, challenged by Governor George W. Bush's call 140 days to find a way to reduce the tax burden of all Texans. After numerous Texas tax system failed, legislators events, raffle ticket sales and a bid of Las Vegas trip at a choice of three check amount for yet another year. decided the quickest way to give property tax relief to homeowners was to refund the \$1 billion budget surplus This budget surplus will be used to replace the revenue school districts will lose as a result of the increased exemptions. Overall, this represents a progressive average tax refund of \$140 - \$150 per homestead.

The proposed constitutiona amendment will also provide relief for senior citizens. Currently, property taxes are frozen at the rate in effect when a homeowner reaches the age of 65.

> The Governor and Legislature have done the right thing by offering citizens a \$1 billion refund resulting in the largest tax cut in Texas history. Now it's up to the voters to approve it or modest 8% increase in salary for the reject it. *** **BARTON REUNION**

The dog days of summer did not deter the joy and enthusiasm of the A.L. and P.B Barton clan as they gathered at the Roaring Springs Assembly of God Youth Camp grounds, August 2, 1997.

The swimming pool was a popular diversion for the hot and young. Gordon Russell of Hale Center and Marisue Burleson Potts contributed a wealth of genealogical data that would have remained hidden in the archives had it not been for their tireless dedication of searching and recording.

Cameras flashed and camcorders rolled as the "Star", 10 day old, Ashley Hamilton, daughter of Mr. and Mrs. Brent Hamilton of Plainview, made her debut. The Keltz boys, Larry of Plainview, Terry of Slaton and Kelly of Roaring Springs, brought out their musical instruments and entertained the late afternoon group with Western Swing, Golden Oldies, and Gospel songs.

WIDOWS AND WIDOWERS MAY BE ENTITLED TO A HIGHER SOCIAL SECURITY BENEFIT

Some widows -- and widowers -who begin receiving Social Security survivor benefits before they reach retirement age may qualify for a higher retirement benefit later on. This is why we tell them check with us when they reach age 62 or 65. Unfortunately, not everyone does.

Here's how it works: Let's say your spouse dies and you apply for a survivors benefit as a widow or widower at age 60 (or at age 50 if you're disabled), Then, when you reach age 62 or older, you could switch to retirement benefits if you have worked and your earnings were high enough to entitle you to a benefit amount larger than the survivor's benefit you presently receive. When a person is entitled to more than one type of Social Security benefit, Social Security always pays the higher

When widows and widowers file a claim for survivors benefits, we ask them to contact us when they reach the full retirement age. Unfortunately, as the years go by, some people forget to check back with us to see if they are entitled to higher benefit.

However, when the surviving spouse doesn't contact us upon becoming eligible for full retirement, the person is not disadvantaged. In fact, when people betwee age 65 and 70 delay receiving retirement benefits, they actually increase their eventual Social Security benefit amount. For example, let's say a widow was born in 1930. Each year she delays receiving retirement benefits on her own earnings record, her potential retirement benefit amount increases by 4.5 percent. These increases are added in automatically from the time she reaches her full retirement age (65 in her case) until she begins collecting monthly benefits or she reaches age 70.

Because the rules on switching to another benefit are somewhat complicated, we suggest you talk with a Social Security representative about the options available to you. You can call our toll-free number, 1-800-772-1213, to make appointment to speak with a representative. Our lines are busiest early in the week and early in the month. So, if your business, can wait,
