74TH YEAR—No. 8

MATADOR, MOTLEY COUNTY, TEXAS, THURSDAY, MAY 2, 1968

PRICE TEN CENTS

Voter will Take Controls Saturday

Did you know that Motley County is one of the 256 counties in the United States listed as having a prevalence of chronic hunger and malnutrition? Authority for this startling news is a "Citizens Board of Inquiry into Hunger and Malnutrition." The board was created in July after a Senate subcommittee heard testimony from six doctors of cases of starvation in Mississippi. It was formed on the recommendation of Walter P. Reuther, president of the United Auto Workers and chairman of the Citizen's Crusade Against Poverty, which financed its investigation. The release was from Washington by wire services and carried in this area by at least three daily newspapers and one national magazine. One statement in the release said: "If you will go look, you will find that America is a shocking place." In the 20 states declared suffering from chronic hunger, Georgia led with 47 counties, and Mississippi was 2nd with 36. Of the 20 "hunger counties" in Texas, three are in West Texas (Foard, Cottle and Motley).

The Tribune is concerned. How was this survey made and when? Was it made by Russian or Cuban agents, and why was it published without confirmation? There is no hunger in Motley County except people on a diet and trying to reduce, and the Tribune is certain the same condition exists in Foard and Cottle Counties. County Judge Forrest Campbell says this county receives about 7000 pounds of surplus foods per month, and at times it is difficult to find people who can qualify for them. Farmers are having difficulty finding anyone who is willing to work. A carpenter spent half a day trying to find a helper last week. If anyone is hungry in Motley County, he or she is unable to work (in which case needs would be supplied) or they have not told anyone but the "Citizens Board of Inquiry" in Washington.

There is the classic story about the old cowboy who said he had attended a lot of funerals in West Texas, but never one in which the deceased had starved to death. The serious question is, why are these releases printed by reputable news sources? Certainly they can not improve the image of the area or of the nation. The Tribune does not believe any inquiry was made in Motley County. If it is untrue here, it is reasonable to assume it is untrue in the entire United States.

TRAIL DUST

By DOUGLAS MEADOR

My brother is interested in work with no more effort required than clapping hands at a dance.

Without wishing to criticize a delightful morsel, it seems to me a great amount of energy is consumed in wrapping and unwrapping tamales.

About the only excuse for profanity is having to say something, without anything to say.

Praise is always more rewarding to the speaker than criticism, but the fact is too simple for most of us to employ it.

A rancher who never wears his trousers inside his boots, says he dares anyone to say he is not patriotic. At present, he is offering to volunteer two brothers-in-law for foreign service. Also he has a father-in-law whom he would volunteer for Paratroop service, providing he be allowed to pack the chute.

Often silence is not the best excuse because it leaves too many possibilities for conclusions.

Nature's beauty is enriched by its abiding patience; there is no hurry for a rose to bloom; for an eon to pass.

VFW TO ELECT OFFICERS

An election of officers for the coming year is on the agenda for business at regular meeting of the V. F. W. Tuesday, May 7, it was announced this week by Post Commander Alton Marshall. All members of the VFW are urged to attend the meeting, which starts at 8:30 p.m.

Recent visitors in the home of Mr. and Mrs. Edgar Lee were Mr. and Mrs. Ray Waite of Midvale, Idaho. Mrs. Waite is a cousin of Mr. Lee. Also visiting in their home with the Waites, were Mr. and Mrs. E. W. Smallwood.

High Ranking Seniors Named

The tension is over; the results have been announced. Valedictorian for this year's Matador High School senior class is Miss Carol Martin, daughter of Mr. and Mrs. Henry L. Martin. She received this honor by achieving an average of 90.87 during her junior and senior years.

FINAL RITES HELD FOR MRS. CAMPBELL

Memorial services and final rites for Mrs. R. E. Campbell Sr., 80, were held at 2 p.m. Saturday in First Baptist Church. Officiating was Rev. Gene Hawkins, former pastor of this church, now pastor of the First Baptist Church in Seminole.

Mrs. Campbell passed away about 11:15 p.m. Thursday in Richards Memorial Hospital, Paducah, where she had been a patient for 16 days. She had been in ill health since suffering a stroke approximately 30 months ago.

Interment was in East Mound Cemetery, directed by Seigler Funeral Home. Pallbearers included several deacons in the First Baptist Church and named as Honorary Pallbearers were the remaining deacons.

Mrs. Campbell was born Lottie Myrtle Curi, in Knoxville, Tenn., on December 10, 1887. She came to Texas as a girl, and was married at Tolar, Texas, June 8, 1913 to Richard Ernest Campbell. They moved to Matador in September, 1929 and have since made this their home.

Mrs. Campbell was an active member of the First Baptist Church until ill health overcame her. For many years she taught a Sunday School Class and had served the Woman's Missionary Society as president, as well as holding other offices in the organization. She endeared herself to young women and girls, and was affectionately called "Mama" Campbell, not only by members of her family, but by her friends. She died on April 25, 1968 at the age of 80 years, 4 months, and 15 days.

Survivors include her husband, R. E. "Pappy" Campbell, and two sons, Judge Forrest Campbell and R. E. Campbell Jr., all of Matador; one brother, H. C. Curi of Tolar; one sister, Mrs. Sterling Price of Concord, California; four grandchildren and four great-grandchildren. Serving as pallbearers were C. R. Davis, Stuart Dixon, J. E. Edwards, Bill McCaghen, D. P. Keith and Eddie Russell.

TB X-Ray Unit Coming May 16

Christmas Seal mobile detection unit of the West Texas Tuberculosis Association will be in Matador Thursday, May 16. The unit will be located at the American Legion Hall between the hours of 9:00 a.m. to 1:00 p.m. and 1:30 p.m. to 6:00 p.m. The X-ray unit is being sponsored by the Lions Clubs of Matador, Flomot and Roaring Springs as a community health project.

Many other abnormalities besides TB are detected by this means. On the last trip to Matador, a total of 415 X-rays were taken. 2 TB suspects, 7 cardiovascular abnormalities and 11 other chest problems were found. There is a charge of \$1.00 which pays for the film and the developing. The West Texas Tuberculosis Association bears the cost of having the film read and reported to each one in the survey.

A post card is mailed to those having a normal chest film. The ones who have an abnormal reading are notified by a first-class letter which urges them to contact their private physician or the local health officer for further information and examination.

Everyone is urged to keep the card with the number of their X-ray film and the date taken. These films are stored at the office of the Association and can be made available to physicians upon request. An old film can be valuable for comparison purposes if some trouble develops in later years. Children under 12 years of age are too small to be x-rayed on this type unit, but every adult is urged to take advantage of this opportunity.

High School Choir To Present Concert

The Matador High School Choir will present its spring concert Thursday, May 9, at 8:00 p.m. in the high school auditorium, it was announced this week by Mrs. Ronald Davenport, director.

Theme of the program will be, "Happiness is Spring in America." The selected songs will include "Climb Every Mountain," "Today," "This is My Country," and a stirring number in which Mrs. Charley Johnson will sing a solo, accompanied at the piano by Mrs. Vernon Higginbotham and daughter Jan, which will close the program.

Also featured will be several small groups from grade school, and several paintings done by the art students of Mrs. Bennie Keltz.

The public is cordially invited to attend the concert. No admission will be charged.

COME TO CHURCH SUNDAY

A GYRATING Democratic political campaign will straighten out and fly right Saturday when the voter takes over the controls. The absentee voting indicates he is ready, willing and anxious for the opportunity.

County Clerk Pat Sheridan said yesterday that a total of 70 absentee ballots had been cast out of 79 applications, which is almost double that of recent election years.

Voters registration in Motley County is 1381. However, few observers expect the county vote to be near its full strength.

Greatest interest is in the race for sheriff with incumbent J. D. Spray being challenged for his second term by former sheriff John Stotts. Both candidates are supported by groups of friends.

Only other contested race is that for commissioner of Precinct 1, with incumbent Clyde Gilbert being challenged by C. M. Barton Jr.

The great state handicap is the wild race for governor. The only candidate who visited Motley County during the campaign was Lt. Governor Preston Smith.

The county has five voting boxes: Flomot school building, Whiteflat store, Northfield Community Building, Roaring Springs High School and the courthouse lobby in Matador.

Convention Hour is 2 p.m.

County Democratic Chairman Furman Vinson said precinct conventions will be held at 2 p.m. Saturday. Precinct chairmen are: Flomot, Sam Ross; Whiteflat, Boyd Perkins; Northfield, N. L. Cook; Roaring Springs, C. L. Marshall, and Matador, Roy Grundy.

Revival Announced By Flomot Church

A week end revival will be held at the First Baptist Church, Flomot beginning Friday evening and continuing through Sunday, it was announced this week by Rev. Leo Cole, pastor.

In the pulpit will be Rev. Johnny Hoggatt, who is serving as pastor of the Sanford Baptist Church while attending Wayland Baptist College, Plainview. Although young, Bro. Hoggatt has been preaching for several years and has gained wide reputation for his dynamic ability in the pulpit.

Leading the singing will be Bob Storre, who has been serving the church as song leader.

Services are announced as follows: Evening services at 8 o'clock; Sunday School 10:00 a.m. Morning Worship, 11:00 a.m. Training Union at 7:00 p.m. A cordial invitation is extended the public to attend the services.

Special Program

Rev. Cole has also announced a special program which will be presented at the church on Wednesday evening, May 8, at 8 o'clock instead of the usual Wednesday night prayer meeting.

A group of young people from Quitaque and Flomot will present a musical program entitled "Good News," with piano and guitar accompaniment.

"The program had been presented at Glorieta Baptist Assembly with tremendous success, and the Quitaque young people obtained the same material to present locally," Rev. Cole said. "We cordially invite everyone to attend this outstanding program."

Rev. Cole further announced that Rev. Hoggatt will be guest speaker at an "In Time" banquet scheduled for Thursday evening, which the church is sponsoring for all Flomot High School students and honoring the senior class.

Mr. and Mrs. D. E. Pitts were guests of Mr. and Mrs. R. W. Crickard of Oklahoma City, Okla., the early part of last week.

BINGLE - BANGLE - BUN- GLE players Thursday afternoon included Louise, Geneva, Tommy, Jerry, Laverna, Leona, Margaret Jane, Mickey and Hazel. Mickey won the ball with 12 points.

TEE-OFF TIME IN MAY IS 9:15 a.m.

BENEFIT TOURNAMENT

The weather was a handicap in our CANCER benefit tournament, Sunday, as it was TOO cold and WINDY. However 17 players entered, (last year there were also 17 players)... Dan True predicts this as the last spell of the season... Let's hope he is right!

THOUGHTFUL Leona Cox provided the ONLY bright and warm spot of the afternoon, having a big urn of COFFEE on hand. Really did hit the spot! Players were Marvin Patton, Tommy Edwards, Tom Yeates, Louise Barton, Charlie Long, Jake Goodson, Dick Carpenter, Laverna Price, Mickey Bostick, Nell Clem, Chester Dye, Geneva Wilson, Buzz and La Voe Thacker, J. M. Hill, Winifred Darsey and Charlie Swift. HOWEVER, Winifred, Nell and Charlie Swift played only 9 holes... the others played 18.

WINNING TEAM was Louise, Charlie L. and Jake, with 223 score or 74-1/4 points... RUNNER UP TEAM was Tommy, Marvin, and Tom, with score of

241 or 78-1/4 points. Winners received 3 balls each, and runners-up received 2 balls each. Dick Carpenter "holed out" on No. 4... One player remarked: "Only consolation of the afternoon's play was that I contributed to the Cancer Fund!"

CHILLY KIBITZERS were Leona, L. M., Margaret Jane and Hazel.

Others who contributed to the fund but did not play were: L. M. and Leona Cox, Mike Hoyle, D. I. W. Birnie, Mary Meason, Margaret Jane Hill, Lucretia Campbell, and Hazel... Others have said they would contribute... So far we have received \$90.00

BIG THANKS TO GREENS COMMITTEE!

Marvin Patton, D. I. W. Birnie and Ben Edwards... they have really been busy getting our course marked... Fairways are marked with a man-made ditch, dug by Alton Marshall... and much BETTER than marking with oil, as had been done in the past. TEE BOXES are marked with lime, as are fairways on Nos. 5, 8 and 9. Now we hope to get a mowing job on the fairways and the greens worked... and our course will be in GOOD shape!

Keith Patton is Iris Show Judge

Mr. and Mrs. Keith Patton returned home Monday night from a trip to Hobbs, New Mexico, and El Paso, where he served as judge in two iris shows.

Mr. and Mrs. Patton visited iris gardens in Hobbs and Carlsbad, N.M., and Dell City, Texas. While in El Paso they were guests of Mrs. Watson Townsend and children, formerly of Matador, and en route home they visited other former residents, Mr. and Mrs. M. C. Green of Ruidoso, N.M.

Mr. Patton is President of the South Plains Iris Society, Region 17 and an American Iris Society Judge.

Pot Plants Add To Outdoor Decorating

Outdoor gardens can be easily supplemented with container plants for those who want to be weedless gardeners this spring and summer. Even avid green-thumbers appreciate the addition of colorful flowering plants or unusual foliage in clay containers make to outdoor landscaping effects.

For maximum decorative mileage, try some of the following suggestions.

• Keep the raised planting bed or planter near the entrance of the house in flower-show perfection with the varied array of plants available at nearby nurseries, florist shops or garden centers.

Start with spring-flowering bulbs, then switch to annuals and tender bedding plants. Later, select hardy chrysanthemums. All are grown in porous clay pots that can be plunged right into planter box soil for a continuous seasonal display.

• A hot spot on patio or terrace can be converted into a cactus garden.

Cacti grow in all shapes and sizes and make interesting and unusual arrangements. Plunge the clay-potted plants into planter soil, or simply slip them into matching saucers. They love sun and a sandy soil kept on the dry side.

• Grow a selection of potted herbs on a kitchen window shelf. Nothing perks up summer meals more than fresh herbs. Parsley, chives, tarragon, basil and mint can all be grown in small three or four-inch clay pots.

• Hanging baskets or plants in pot rings do wonders for bare stretches of garage wall or fencing.

If it's a bright sun area, try geraniums, lantanas or marigolds; for shade, fuchsias or tuberous begonias will provide the color.

• Postlamps look still more decorative when their bases are encircled by pots of flowers.

Red, pink and white geraniums make a nice combination. To give plants a bit of height, set them on inverted clay pots or saucers.

• Line a flight of sunny garden steps with pots of sedums, aloes or other succulents.

The stepped repetition of the claypotted plants will create a pleasing pattern.

• Hanging baskets can be suspended from overhead lathes or rafters, even from tree branches.

FERTILIZE TURF
Spring fertilizer should be applied to lawns just as the green grass blades start to show.

CONTROLLING WEEDS
To prevent weed growth, maintain a dense, vigorous-growing lawn. Thinning lawns with slow grass growth invite weeds.

WATERING LAWN
Most lawns need approximately one inch of water every seven to 10 days, to wet the soil about six inches deep.

FOR GROWTH
Pot plant stopped growing? Try a bigger pot, new soil.

E. D. 'Pete' Timmons, Northfield rancher and Ervin Willard, work unit conservationist, checking grass seeding equipment on Timmons' ranch. Timmons overseeded 320 acs. of rangeland to a mixture of sideoats grama and blue grama with this equipment. The pasture will be deferred this year to allow the grasses to develop into strong plants. Range seeding is a good practice for getting better grasses on poor condition rangeland. Some soil disturbance is also needed to help get a stand. Timmons is using a 14 tandem disc followed by the 14 foot grass drill. This does a complete job in one operation. —UPS&WCD photo

A 1962 Tech graduate in range, Willard has worked with the SCS since 1962.

In the office here Millard Schuchart and C. L. Hacker Jr., and Willard comprise the staff which gives technical advice to farmers and ranchers through the Upper Pease Soil Conservation District. Duke Lipscomb and J. M. Hill are local district supervisors.

Major W. I. Speer With Korean Unit

(Special to the Tribune) SEOUL, Korea — Vietnam veteran Major Walter I. Speer, son of Mrs. J. L. Speer, Flomot, Tex., and the late Mr. Speer, is among Pacific Air Forces (PACAF) fighter-interceptor pilots sent to Korea during the U. S. buildup triggered by the North Korean crisis.

The F-102 Delta Dagger pilot is assigned at Kimpo Air Base, a prime air defense installation just west of the capital city of Seoul. As part of increased readiness operations, PACAF tactical fighters, interceptor and reconnaissance aircraft have been augmented by units of the Tactical Air Command and Aerospace Defense Command.

Major Speer, who has served nine months in Vietnam, is permanently assigned as a member of the combat-seasoned 64th Fighter Interceptor Squadron. Detachments of the unit while on duty in Vietnam have policed the skies and escorted fighter-bomber and rescue aircraft over both North and South Vietnam.

A graduate of Flomot High School, the major attended Texas Technological College before entering the Air Force.

His wife, Mary, is the daughter of Mr. and Mrs. H. C. Byrd, Como, Texas.

Earning Limit Raised by S. S.

The \$1500 social security earnings limit has been raised. A social security beneficiary may now earn \$1680 in wages or self-employment income and still receive all of his benefits for 1968, according to a release from the Social Security Administration in Lubbock.

The monthly earning limit has been raised from \$125 to \$140 per month. An additional \$175 million will be paid this year to about 760,000 beneficiaries because of this change.

For more information regarding the earnings limit, see a representative of the Lubbock office on his next visit to Matador on May 7, at the First State Bank.

COUNTY AGENT PALLMEYER SAYS:

Chlorine is another micro nutrient, but no deficiencies in Texas have been confirmed. In most cases, this element may be in toxic amounts rather than deficient.

Chlorine is necessary to maintain the electrical balance in cells and is vital to chlorophyll phosphorylation. Wilt, chlorosis, necrosis or leaf bronzing indicate deficiency signs, while slow growth, reduced leaf size, chlorosis and tip and marginal burning may indicate toxicity.

Make sure to have a test for chlorine made before trying any treatment for your chances are great that some other element is responsible for any improper growth.

Boron is another micronutrient that may be deficient in some areas. There is a narrow range between deficiency and toxicity, so be sure this element is needed before applying.

Boron is thought to play a role in protein synthesis; to be related both to calcium and potash metabolism in plants; and be necessary for nodule formation in certain legumes. Boron is immobile in most plants, therefore visual symptoms occur first on new growth. Leaves of the terminal bud may cease to grow, become curled and drawn down in a rosetted appearance, or the entire bud may die. If these symptoms occur, check before applying with fertilizers, or as a spray material.

Weather Affects PCA Attendance

Fair weather and a backlog of field work on the part of most farmers combined to curtail attendance at the 34th Annual Stockholders meeting of Rolling Plains PCA, held in Stamford, Saturday, April 27. Attendance totaled 518, which was down from previous meetings, officials announced.

Relected to Board of Directors were C. G. Burson Sr., of Haskell, 3-year term; L. M. Bartlett, Wellington, 3-year term; and Dean Decker, Childress, 1-year term.

W. A. Baxter of Anson won the color TV set which was given as attendance prize.

In addition to reports from the board of Directors and Management, the assembled crowd heard addresses by W. H. Calkins, Vice President of Intermediate Credit Bank of Houston and Charles G.

4-H Foods Show Date Announced

Annual 4-H Favorite Foods Show will be held here Monday, May 6, at 7:00 p.m. in the First Methodist Church, it was announced this week by Mrs. Helena Reed, Home Demonstration Agent.

Each contestant will prepare a food, show the recipe used and what other foods she would serve with it, and set the table in an appropriate and attractive manner for that meal.

In addition, each must be prepared to answer questions by the judges about how the food was prepared, its cost and the nutritional value.

The judges will award ribbons based on the appearance of the food and table, their knowledge of basic nutrition and of course, how the foods taste.

The girls work together in a group with adult leaders or junior leaders, as well as practicing at home. They meet for about five meetings, and are learning a variety of things.

"As Home Demonstration Agent," says Mrs. Reed, "I have stopped in on group meetings and observed junior leaders Mary Martin and Olive Curlee demonstrate such basic things as how to measure and how to break open an egg. Other more experienced girls have done such things as Baked Alaska under the watchful eyes of Mrs. Bundy Campbell and Mrs. Coyal Francis. The programs are tailored to fit the interests and abilities of the group."

Parents and the public are cordially invited to attend the Foods Show.

Lighting Accents Garden, Entrance

Lighting and landscaping work hand in hand, welcoming visitors to a hospitable home with a cheery "Hello." Carefully placed lighting helps shrubbery and other plantings around the entrance stand out effectively; in the garden, lighting highlights various landscaping features.

Several types of garden lighting units are available to draw attention to the work of a green thumb in garden and shrubbery areas of the yard. These units range from various types of walk lights to spot lights. Nearly all of these fixtures are designed to blend inconspicuously with their surroundings.

In most cases, the exterior appearance of a house can be improved immeasurably by dressing up the entry way. An easy way to do this is by the addition of a pair of flanking outdoor wall bracket lighting fixtures on both sides of the door. Keep their size in balance with the house.

Post lights, too, add a tremendous amount of personality to a home. Now, many are available in extra high, double lantern models, very reminiscent of the light posts of bygone eras. These units give the yard and

entry way of a home an extra dimension, as well as providing a safe passage along the walk or driveway to the door.

In situations where a sizeable overhang projects from the house, perhaps above an entry door or perhaps along a wall above a patio, fixtures hung from chains and matching the wall brackets and yard lights are used to add a family look to outdoor lighting, and of course, provide additional illumination.

Many post lanterns, wall brackets and ceiling fixtures for outdoor use are styled traditionally, with a variety of Early American types available. A good selection of contemporary fixtures are also easily found in the modern manner. Local lighting centers carry a complete line.

Most outdoor lighting efforts are further enhanced by the use of an electronic dimmer that varies the light levels from total darkness to full brightness with the turn of a knob.

The nice thing about such home improvements as outdoor lighting is that these projects can be planned totally, well in advance of installation and then done in stages, depending on flexibility of the budget.

take steps to curb such mail. Postmaster Charlie Scaff said in announcing plans for administering a new law which gives each family the right to decide that an ad is "erotically arousing or sexually provocative."

When an advertisement sent through the mails is offensive on these grounds, a postal patron can now ask the post office to direct the mailer to send no more mail to him and to remove immediately the patron's name from all mailing lists he owns, controls or rents.

To assist patrons, the Post Office Department has published a brief pamphlet, "How You Can Curb Pandering Advertisements" which is now available at the Matador post office. In addition

to explaining how the law works, the pocket-size leaflet contains a form letter one can use when sending his complaint to the post office.

The pamphlet explains that when a patron receives an advertisement which is, in his opinion, pandering, he must send the ad, its envelope and the form letter, or one which includes its language, to his post office with the order, "Request for prohibitory order," on the face of the envelope.

Social Security Discussions Aid Many Eligibles

Mr. Latimer has been with the Social Security Administration for 14 years. He is presently with the Lubbock office. The topic that was discussed was Disability Benefits under Social Security.

In addition to the payments, when it is practical, they will assist in locating an organization to rehabilitate. "If you are covered by Social Security and have a mental or physical disability which prevents substantial gainful work and the condition is expected to last for at least 12 months, you may file for bene-

fits," Mr. Latimer explained.

The next meeting will be held May 21st and topic to be covered is Medicare. An explanation of its coverage and the forms necessary will be explained.

Mr. Latimer pointed out that there are persons in all areas who are not receiving the benefits they are entitled to. It is the responsibility of all, to contact the elderly and disabled that they may file a claim and have their eligibility checked, he declared.

Texas Sets Top Tornado Record

A "Texas Brag" of which the state would like to escape is the 1967 record in number of confirmed tornadoes. C. O. Layne, state coordinator of Defense and Disaster Relief for the Texas Department of Public Safety says statistics from the United States Weather Bureau indicate that Texas again led the nation in total tornadoes last year with an all time record of 232.

The figures compare with the 77 twisters confirmed in the state during 1966.

Only two months in 1967, January and November, were free from tornadoes. September accounted for more than half with a record of 124. Of the September tornadoes, 115 occurred in connection with hurricane Beulah.

There were two twisters in

February, 11 in March, 17 in April, 94 in May and 22 in June. Other totals included July with 10, August with five, October with two and December with five.

A circular of tornado safety rules has been prepared by the Department of Public Safety and is available at the office of Sheriff J. D. Spray in Matador.

SMITH FOR GOVERNOR

He's Best For Us And Best For All!

(An Editorial)

TEXAS NEEDS a Governor fully experienced in State Government at all levels, as well as a man who, through dint of hard work and perception, is both experienced and successful in the areas of business and agriculture.

West Texas needs a voice—a strong voice at the top—in State Government, someone who views this area for what it is: an important part of the State, not just a source of tax income.

Texas and West Texas have this man in Preston Smith.

Here, in his home city and area—where he has spent his life and where thousands know him personally—it may seem unnecessary to urge support for his nomination in the Democratic primary election next Saturday. To some extent, perhaps it is unnecessary so to do, because Preston Smith will get a veritable avalanche of votes in his home section. He'll lead the 10-man field handily, and everybody knows it.

Yet, there are those here who, for one reason or another, won't take time out to vote unless reminded to do so; and the rest of Texas needs telling that the homefolks are back of Preston Smith for Governor, as they were for State Representative, Senator and Lieutenant Governor, in overwhelming numbers.

These are times in State Government in which *hard sense and long experience* count most; when the need for a Governor proven to be both *sound and prudent* is paramount. Preston Smith's entire career, from farm boy and filling station attendant to Lieutenant Governor and successful businessman, marks him as both.

During his six years as Lieutenant Governor, Preston Smith has served as Governor for almost 300 days—at times when Governor Connally has been out of the State. He is no stranger to the job, or to its problems and pressures. On some of those days, he has been faced with making decisions of great import and has made them well. Not one of his nine opponents has had this experience.

All signs point to Preston Smith's going into the runoff as a result of next Saturday's balloting and when he does, the odds point to his being *West Texas' first Governor*.

Out here in his home country, let's give Lieutenant Governor Smith a tremendous outpouring of votes to help him on his way.

That will not only be best for us but, also, best for all of Texas. —LUBBOCK AVALANCHE-JOURNAL

THE AREA OF TEXAS INCLUDED
IN THE
SEVENTH SUPREME JUDICIAL DISTRICT

TO THE RESIDENTS OF THE SEVENTH SUPREME JUDICIAL DISTRICT:

Thank you for the privilege of serving you for eleven years and four months on the Court of Civil Appeals.

For the sake of the Court from which I am retiring and for the good of the State of Texas, I earnestly solicit your votes for Jack Hazlewood because:

1. In my opinion, the judges on every appellate court, from the United States Supreme Court on down, should be first and foremost good lawyers. Jack Hazlewood is an outstanding lawyer.
2. Of six major scholastic honors possible for a student to win in the Texas University Law School, Jack Hazlewood won them all. Such a scholastic record is possible only by one with an outstanding legal mind and the willingness to work, two attributes needed on an appellate court.
3. Jack Hazlewood has had more than four times as much experience in the Court of Civil Appeals as both his opponents combined.
4. The most practical and effective training for an appellate court justice is trial and appellate practice, as a lawyer, against other strong lawyers. This is exactly the training Jack Hazlewood has had for more than fifteen years, and in it he has many times demonstrated his competence.
5. This is the exact same training five justices of the Supreme Court of Texas had before becoming members of that Court. None had judicial experience on the trial level. They are Justices Griffin, Walker, Greenhill, Steakley and Chief Justice Calvert.
6. In the official bar poll conducted by the State Bar of Texas among the lawyers and judges of the 46 counties of this district Jack Hazlewood received more votes than both his opponents combined. This poll indicates that the members of the legal profession also rank him number one.

Respectfully submitted,
Alton B. Chapman, Associate Justice,

NEW! For clean Sorghum... spray weeds when you see them! with BANVEL

BANVEL announces Banvel herbicide for control of all hard-to-kill weeds of major importance in grain sorghum. This includes carelessness (pigweed), sunflower, lambs-quarter, purslane, morning glory and other annual broadleaf weeds. Banvel herbicide is applied post-emergence, so there are no wasted sprays in years when rain is scarce and weeds are not a problem. With Banvel you see your weed problem and then spray—all in plenty of time to give young sorghum plants plenty of opportunity to grow.

Banvel is sprayed onto weed leaves and translocates to the roots... for new, total control of weeds. Just apply Banvel between the 10th and 25th day after emergence of grain sorghum (approximately 4 to 12 inches tall).

Banvel is not dependent on soil moisture for its effectiveness, so its results are dependable. And it's a liquid that won't clog your sprayers; nor does Banvel need constant agitation.

Banvel increases yields. It's excellent for use on grain sorghum, wheat, barley, oats and field corn. Order Banvel herbicide to get full potential from your valuable, high-yielding sorghum seed.

See your dealer today. You'll be glad you did!
