Boys Win Bi-District Advance To Regional

The Motley County Matadors beat Smyer 76-66 in bi-district basketball action at Lorenzo Tuesday night and now advance to the first round of the Region 1-1A tournament at Levelland this Friday afternoon.

Motley County will face Greenwood at 4 p.m. Friday and if victorious they will play San Elizario Saturday morning at 9:30.

The Matadors led all the way in the game but it was no picnic. Motley County got into foul trouble early, receiving 28 fouls in the game, and had to outshoot Smyer 33-23 from the field to overcome the foul-shooting advantage. Motley County jumped out to an 18-14 lead at the end of the first quarter as Smyer missed seven free throws in a matter of minutes. The Matadors had a 41-32 lead at intermission.

"Smyer came to play

ball," Coach Danny James said. "I knew they were a good team. We were extremely pleased with the effort of our kids. When we got into foul trouble early, the bench came in and did a super job. It was a real team effort."

Motley County had outscored Smyer 18-16 in the second quarter and then 21-18 in the third, and 19-18 in the final period.

But, fans were worried as fouls mounted up. Harvey Lee fouled out, Glen Calvert fouled out, Jerry Long fouled out, Charlie Campbell had four fouls, Wesley Stafford had four, Dwight Campbell had three and Tim Shannon had two.

"We just got out there and played football instead of basketball. It took a while for us to settle down. We want to say a big thank you to all the fans for their support all year and for supporting us so well in the

ballgame Tuesday night." Dwight Campbell lead the scoring with 24 points. Harvey Lee scored 14, Charlie Campbell had 11 and Wesley Stafford had 10. Jerry Long had nine, Glen Calvert four and Tim Shannon had two. Also

playing on the team were Shawn Bearden, Roy Thompson, Darrell Moore and Kyle Hardin.

School will be dismissed early Friday, and all Motley County fans are asked to turn out and support the team.

County Endorses Library Proposal

The County Commissioners met with the library committee on March 9, 1981. The library budget, the public canvassing report and advantages of the library were discussed in depth. Input from the members of the community present and the library committee was given.

The County Commissioners passed an order to accept the ordinance of the proposal budget as submitted by the library committee. By this action,

the Motley County Public Library was established.

The Library Board of Trustees was appointed by the County Commissioners consisting of Marie Linson, Syd Pipkin, Darla Gwinn, Ronnie Thacker and Michelle Bearden.

The newly appointed Library Board of Trustees wishes to thank all those people who have given their help and their support to this project. Any and all donations of books, money and time are now being accepted.

Comptroller Officer To Be At Courthouse

State Comptroller Bob Bullock has announced that Raymond Bogus from his Lubbock Field Office will be at the Motley County Courthouse, Tuesday, March 17, 1981 from 1:00 p.m. to 3:00 p.m. A Comptroller's representative is available to assist local residents at the Courthouse every third

Tuesday of each month.

Bullock urged anyone with problems or questions concerning State taxes to contact Mr. Bogus at the Courthouse in person or call the Lubbock Field Office at (806) 795-0691. A toll free number (1-800-252-5555) is also available to Texas taxpayers.

One Act Play Contest To Be Held In Matador

The Zone One Act Play Contest will be held here Thursday, March 26.

Motley County will present "Breaking Up Is Hard To Do"; Patton Springs, "When The Fire Dies"; McAdoo, "Death of a Hired Man"; and Southland, "Livin' De Life".

Production will begin at 1:30 p.m. and admission will be charged.

The Judge will be Ms Jini Rambo from Western Texas College in Snyder.

There will be two plays

chosen from these four which will advance to the District Contest in Smyer on April 2.

Motley County's play will be directed by Mrs. Carrol Hays. The cast will be Narrator, Rob Francis; Jonathan, Gary Simpson; Margaret, Shelley Jackson; Bob, Robert Potts; Doris, Kim Campbell; Marshall, Kenny Holt; Carolyn, Traci Green; Boy, Brent Campbell and Crew and Understudies, Linda Palmer, Kyle Hardin and Scott Read

Lions Queen-Shelley Jackson, daughter of Mr. and Mrs. Kelly Jackson, was crowned Thursday night, February 26, as the Matador Lions Club Queen for 1981. The pageant was held just before the Lion's annual candy sale and the Motley County Junior class play. (Photo by Gerald Garst)

City Election Set For April 4

Election for three Matador City Councilmen will be held April 4 in the Motley County Courthouse.

The positions of Joe Smith, L.B. Campbell and Lewis Bostick are up for election this year. The three men have filed for re-election.

Absentee voting starts Monday, March 16, and will run until four days before the election. The voting will be held at the Motley County Courthouse.

Notice

The Motley County PTA will meet Monday, March 16 at 7:00 p.m. in the Motley County School.

New officers for next year will be elected.

Genealogy Workshop Set

High Plains Genealogy Society will have a workshop March 21 from 9:00 a.m. to 4:30 p.m. at the Unger Memorial Library in Plainview.

This workshop will be open to anyone interested in family history.

NWS To Present Program To School, Public

A program on severe weather will be presented at the Motley County School and the Motley County Courthouse on Monday, March 16. Larry Eblen, of the National Weather Service in Lubbock will be the speaker. The program will be presented for all persons of Motley County March 16, at 7:30 p.m. at the Courthouse. Larry will discuss severe weather at the school at 2:00 p.m. the same date.

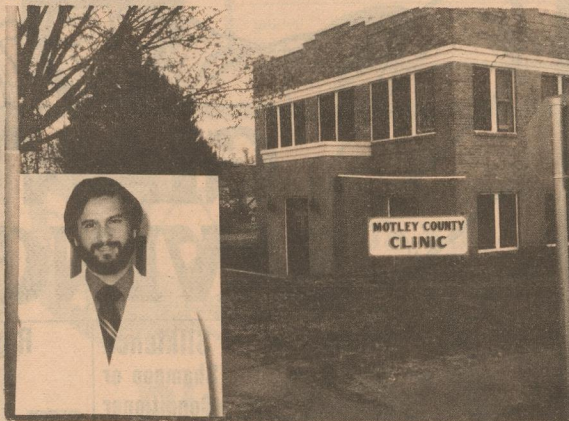

Severe weather is used to describe several types of weather activity. High wind, heavy rain, hail, and tornadoes are responsible for millions of dollars of damage, injuries, and deaths in Texas each year. The information that will be presented from the National Weather Service is designed to help reduce some of these losses.

A tornado is best described as a "violently rotating column of air in contact with the ground". It is a center of extremely low pressure surrounded by high winds - usually rotating in a counter-clockwise direction. A funnel is a violently rotating column of air that does not touch the ground or cause damage.

Tornadoes generally move to the northeast at 30 to 40 mph, but can turn in any direction, retrace their paths, speed up to 70 mph or stop dead still. Most tornadoes last only a few minutes, although some have persisted for three hours. Most tornadoes first appear as funnels hanging below the rain-free bottom at the rear of the thunderstorm. They then dip downward, touch the ground, and grow in size. Toward the end of the life cycle they shrink into a rope-shape and begin to tilt. They appear to be weak, but are still dangerous.

During the period from 1950 to 1980 seven tornadoes were reported in Motley County. Most of these storms were from a southwesterly direction and 57 percent occurred during the month of May. No injuries or deaths were reported from these tornadoes.

The Matador Volunteer Fire Department in cooperation with the Motley County Sheriff's Office is sponsoring this program from the National Weather Service and hope that all citizens of Motley County will attend.

New County Health Officer-Dr. Victor S. Chavez was named Monday by the Motley County Commissioners Court as the new health officer for the county. The doctor is at the Motley County Clinic on Tuesday and Thursday of each week. The Clinic is open each day providing basic medical care and family planning for local residents. (Photo by Leon Watson)

District 4-H Adult Leaders Meeting To Be Held Here, March 18

Motley County will be the host for the District 3, 4-H Volunteer Leaders Association Spring meeting. The meeting will begin at 9:00 a.m., Wednesday, March 18 in the United Methodist Church in Matador.

Three concurrent training sessions will be held that morning on Award Applications, Scholarship opportunities and Method demonstrations.

That afternoon there will be individual county reports and a business meeting. Following the meeting an optional tour of the Springs Ranch will be held. A registration fee of \$6 will be charged to cover the cost of coffee, cookies and lunch.

4-H volunteer leaders from 21 counties will be

participating in this meeting. All Motley County 4-H leaders are encouraged to attend.

Please call the County Agent's office, so that we know how many to prepare food for.

Clinics Set At Courthouse

The Texas Department of Health will hold a Multiphasic Screening Clinic at the Motley County Courthouse in Matador on March 24th. The time for the clinic will be from 10:00 a.m. to 4:00 p.m.

Preventive health services available to adults will include blood pressure check, vision and hearing check, diabetes screening, blood test, Pap test, and others. All screening services will be given without charge.

The Motley County Immunization Clinic will be held at the Motley County Courthouse in Matador on March 25th, from 10:00 a.m. to 4:00 p.m.

Immunizations given in this clinic, sponsored by the Texas Department of Health, will be available to persons of all ages without charge. Individuals under age 18 must be accompanied by a parent or guardian.

Contestants and Escorts for the 1981 Lion's Club Queen Contest are from left to right, Beverly Witcher, Clay Martin, Sonya Shuder, Charles Ed Cammack, Deanna Durham, Shawn Bearden, Teresa Fore, Kyle Hardin, Reneigh Gwinn, Roy Thompson, Shelley Jackson, Wesley Stafford, Traci Green, Glen Calvert, Varlena Lee, and Harvey Lee.

Billy Joe Roys Receives Degree

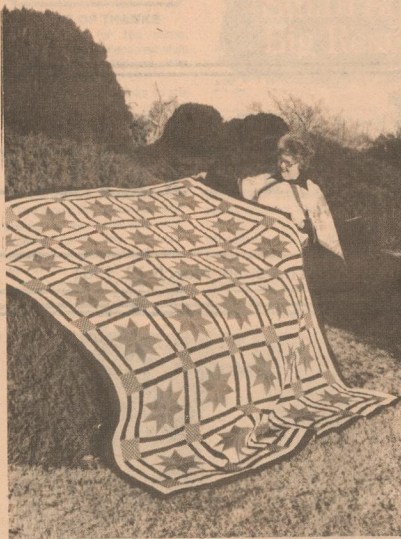

Billy Joe Roys graduated from Texas State Technical Institute in Amarillo, Friday, February 27, 1981 at 10:00 a.m. The graduation ceremonies were held in the Chapel on the TSTI Campus. Job L. "Nick" Hammond, Personal Director for the City of Amarillo, was the guest speaker.

Billy is the son of Mr. and Mrs. Billy C. Roys of

Flomot. He received an Associate of Applied Science Degree from Construction Technology. He is also a graduate of Motley County High School.

Attending the graduation ceremonies were his family, Mr. and Mrs. Roys, Dedra, Priscilla and Mark.

The human body burns alcohol at the rate of about one-half ounce an hour.

DISTRICT CLUB QUILT -- Mrs. Harold Campbell, Matador, president of Santa Rosa District, Texas Federation of Women's Clubs displays a queen-size quilt which will be awarded at the district convention March 20-21 in Wichita Falls. Donation tickets at \$1.00 each are being sold by members of the federated clubs in Burkburnett, Crowell, Iowa Park, Matador, Memphis, Paducah, Quanah, Seymour, Vernon and Wichita Falls. The red-white-blue quilt was pieced and quilted by members of El Progreso Club, Matador. It is on display at Matador Variety, and will be on display at the convention. Proceeds from the ticket sales will be divided between Santa Rosa District and Girlstown USA.

Arrival Announced

Mr. and Mrs. Robert Shannon announce the birth of a son on February 28 in South Park Hospital in Lubbock. The new arrival weighed six pounds and was named Nathan Wayne.

Grandparents of the new arrival are Mr. and

Mrs. Johnnie Phillips and Mr. and Mrs. Doyle Shannon. Great-grandparents are Mr. and Mrs. Sam Porter of Dickens, Hosea Phillips, Mr. and Mrs. Bly Shannon of Quitaque and Mr. and Mrs. Bert Grundy of Quitaque.

Santa Rosa District TFWC Convention Set For March 20-21 In Wichita Falls

Twenty-first annual spring convention of Santa Rosa District, Texas Federation of Women's Clubs is set for March 20-21 at Trade Winds Motel in Wichita Falls, Mrs. Harold Campbell, Matador, district president, announced.

A colorful queen-size quilt with a bicentennial motif will be awarded a lucky ticket owner during the convention. Members of clubs in the district have been receiving ticket contributions of \$1.00 on the quilt, which was pieced and quilted by members of El Progreso Club of Matador. Proceeds from

the tickets will be divided between Santa Rosa District and Girlstown USA.

Registration for the convention will be from 4 p.m. to 6 p.m. on Friday and from 8 a.m. to 9 a.m. Saturday.

Hostess clubs will be 1934 Study Club, Wichita Falls, Mrs. Earle L. Eakle, president; 23 Study Club, Iowa Park, Mrs. China B. Smith, president; Philia Study Club, Iowa Park, Mrs. Herman Escus, president; and Amity Study Club, Iowa Park, Mrs. Ben Rice, president. Mrs. Campbell will preside at an open dinner

Friday evening. Speaker will be Dr. C. L. Kay, Lubbock, President, Institute of Business and Economics at Lubbock Christian College. A reception following the dinner will honor Dr. and Mrs. Kay, past state presidents, past district presidents, life members and guests. Hostesses will be members of El Progreso Club.

Mrs. Campbell will call general assembly to order at 9 a.m. Saturday, following a board meeting scheduled at 8:30 a.m. Attending the board meeting will be chairmen of departments and

divisions, chairmen of standing committees, past district presidents, life members, trustees and all club presidents.

Luncheon speaker Saturday will be Mrs. Harriette W. Whatley of Fairfield, past president of Texas Federation of Women's Clubs and currently serving on the Historical Foundation from Trinity District. Her subject will be: Looking for Miracles in Legislation.

Other features of the luncheon will be Fashions For Awards, Arts and Crafts Awards, door prizes, and awarding of the quilt.

Shower Honors Bride-Elect

Miss Brenda Renfro, bride-elect of Billy Osborn, and daughter of Mr. and Mrs. Charles Renfro, was honored Saturday afternoon with a shower at the home of Mrs. Bundy Hal Campbell.

Sharing hostess duties with Mrs. Campbell were Mesdames Clay Jameson, Vann Francis, Glenn Woodruff, Doyle Rose, Kelly Jackson, Ray Cruse, Dean Turner and L. B. Campbell.

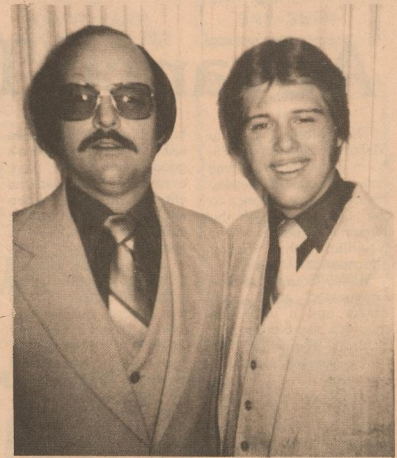

Miss Koree Campbell registered the guests. Mrs. Woodruff, Mrs. Rose, Miss Susannah Woodruff and Miss Shelley Jackson alternated at the silver coffee service and crystal punch bowl in serving refreshments. Other friends of the honoree, Misses Kim Campbell, Colleen Rose and Reneigh

Grinn assisted with the gifts.

The bride-elect's chosen colors of pastel spring hues were carried out in a lovely floral arrangement for the dining table, which was covered with a white, lace-trimmed cloth. Cake squares were decorated with dainty flowers of tinted frosting, and heart-shaped mints were in pale green and yellow.

Honored guests were mothers of the engaged couple, Mrs. Charles Renfro and Mrs. Betty June Bearden, and grandmothers of the bride-elect, Mrs. Ben Edwards and Mrs. James (Zola) Renfro.

The couple will be married Saturday, March 14, in the parlor of First Baptist Church.

Rev. Gary Hillyard-Blake Northam

Blake Northam Accepts Position At Baptist Church

Blake Northam, age 21 from Houston, Texas accepted the position of full time Minister of Music and Youth at First Baptist Church, Matador Sunday. He will be attending Wayland Baptist College

where he plans to get his degree in music. Blake will be living in Matador.

Blake recently left the gospel singing group called the Northam Brothers to accept this position.

Dallas, Texas was named after George Miffin Dallas. Who was he? Vice-president of the United States in 1845.

Lighthouse Electric District Meeting Held

The Lighthouse Electric Cooperative, Inc., held their annual Hall Thursday night meeting, Thursday night, February 26 at the Community Center Building in Memphis and nominated Wayne Hunter of Flomot to serve a three year term as representative of District IV. Mr. and Mrs. Coy Franks of Flomot served on the District Planning Committee for the meeting.

Other local residents attending were Mrs. James Monk, Mr. and Mrs. Jack Starkey, Mrs. Jeff Sperry, Mrs. Wade Martin, Mary Ellen Barton, Viola Stinson, Mr. and Mrs. Wilson Barton and Mrs. and Mrs. Bobby Clay and daughter.

Hancel Payne Rites

Funeral services for Hancel "Buck" Payne, 63, were held at 3:00 p.m., Monday, February 23 at the First Baptist Church in Quitaque with Revs. Hollis Lock, Royce Denton and Mike Grebenick officiating.

Burial was in the Rest Haven Cemetery under direction of Quitaque Funeral Home.

He died at 10:00 p.m., Sunday in the Lubbock Methodist Hospital after a lengthy illness. The Silvertown resident was a member of the Fairmont Baptist Church and a native of Turkey.

Survivors include his wife, Henrietta, a daughter, Mrs. Dannie Green of Clarendon; two sons, Lonnie of Quitaque and Earl of Clarendon; three brothers, O. C. Warren and Ray, all of Quitaque; four sisters, Olive Stockton and Lillie Reagen, both of Quitaque, Frances Martin of Portales, N.M., and Eva Lee of Carlsbad, N.M., and 11 grandchildren.

Attending the services from Flomot were Mr. and Mrs. Art Green, Mr. and Mrs. Virgil George and Mr. and Mrs. Junior Payne.

Mary Ellen Barton and Viola Stinson visited in Snyder, Friday with Mr. and Mrs. S. D. Hays.

Visitors during the weekend of Mr. and Mrs. L. E. Shorter and Mr. and Mrs. Clois Shorter and daughters were Mr. and Mrs. Richard Rhodes, Ricky and Russell of Amarillo and Louis Shorter of Lubbock.

Mr. and Mrs. Darrell Cruse and daughter, Leah visited in Floydada, Sunday with her grandparents, Mr. and Mrs. Charlie Lewis. Mr. Lewis is a patient in the Caprock Hospital following a light stroke Tuesday, March 3.

Guests of Mr. and Mrs. D. M. "Ikie" Gilbert last weekend were Mrs. Leland Heiskell and Christi of Dalhart.

Guests in the home of Mr. and Mrs. L. D. Bilberry last weekend and celebrating Mr. Bilberry's birthday were Mrs. Jean Richardson of Snyder, Mr. and Mrs. Rue Gaylean, Eric and Andy of Abilene, John Spear of Floydada and Mr. and Mrs. Jack Loudermilk of Quitaque.

Mr. and Mrs. Jack Starkey accompanied home, Thursday their parents, Mr. and Mrs. C. W. Starkey from Winnewood, Okla., where they had visited the last two weeks with Mr. and Mrs. Joe Long. James Cypert of Ralls visited the family, Sunday. Mr. and Mrs. Al (Wanda) Garrett of Alameda, Calif., arrived last Friday to visit her mother, Mrs. Doris Morris

and brother and family, Mr. and Mrs. Wendell Morris. Mr. and Mrs. Billy Roys have been in Lubbock this week with her mother, Mrs. Thomas Valdez, a patient in Lubbock General Hospital following surgery, Thursday.

Visiting last weekend with Mr. and Mrs. Wilburn Martin were Marilee Martin of Fritch, Paula Dillen of Borger, Mrs. Bob Lane and Gwen of Lockney and Mrs. David Martin and son, Cole of Pampa.

Bob Morris and Roxie Turner of Pottsview visited Friday with her sister and husband, Mr. and Mrs. John Jones. The family visited in Paducah, Friday afternoon with their brother, Luther Turner.

Mr. Mike Arrington and son, George Wade of Canadian visited during the weekend with her parents, Mr. and Mrs. Ronald Clay.

Luncheon guests of Mr. and Mrs. Wade Martin last Saturday were Mr. and Mrs. Ervin Merritt and Mrs. Steve Merritt, Amie and Amber of Plainview.

Mr. and Mrs. Bob Hambright, Alissa and Jim Bob of Floydada visited last Saturday with her parents, Mr. and Mrs. John Jones.

Mrs. Lewis Cannon of Tulia visited her mother, Mrs. James Monk last Sunday.

Mr. and Mrs. Bobby Don Smith and children of Gruver visited Mary Ellen Barton and Viola Stinson, Sunday.

Graduation Party

Mr. and Mrs. Billy Roys honored their son, Billy Joe, on the occasion of his graduation from TSTI with a party, Saturday night, March 7 at the Flomot Community Center. Yellow and white were the featured colors of the streamers, candle

arrangements and a beautiful cake with "Best Wishes Billy Joe" on top made by Mrs. Arnold Johnson. Refreshments of cake, assorted cookies and soft drinks were served.

Those attending the congratulations courtesies were Wayne Hunter and his son, Randy, a student at Regional Junior College in Vernon, Mr. and Mrs. Rex Johnson, Derrel and June, Mr. and Mrs. Arnold Johnson and Kayla, Herb Martin, Mr. and Mrs. Joe Ikey, Larry, Tina and Julie, Glen Galvert, Darla Dempsey and Rev. and Mrs. Terry Jones, Kristina and Julie.

Attend Funeral in Kansas

Mr. and Mrs. C. W. Starkey and Mr. and Mrs. Jack Starkey attended the funeral services of their grandson and nephew, Joel Edward Starkey, 32, of Manhattan, Kansas held at 2:00 p.m., Tuesday, March 3 at Tibbitts, Griffin Highland Chapel in Topeka, Kansas.

Mr. Starkey died at 5:00 p.m., Friday, February 27 at his home from a self-inflicted gun shot wound to his head. He was born, February 25, 1949 in Lockney and moved to Topeka in 1954.

Survivors include two sons, William John and Christopher Joel of Manhattan; his parents, Mr. and Mrs. Johnnie Starkey of Topeka; one brother, Rickey Starkey of Stockton, Calif., and his grandparents, Mr. and Mrs. Ed Davis of Lawrence, Kansas and Mr. and Mrs. C. W. Starkey of Flomot.

Anita Hunter

Anita Hunter Named New Outreach Director

Anita Hunter has been named director of Young County-Graham Outreach Center. She replaces Mike Malone, who resigned.

She is the daughter of Mr. and Mrs. Wayne Hunter of Flomot and granddaughter of Mr. and Mrs. H. G. Hunter of Quitaque.

Mrs. Hunter holds a bachelor's degree in social welfare from Texas Tech University and a master of science degree in social work from University of Texas in Austin. She spent last summer studying Spanish at the Academia Hispano-Americana in San Miguel de Allende, Mexico.

She worked as a counselor in an elementary school in Austin during the first year of her

social work internship. The second year she counseled individuals, families and groups for the Clinica de Consulta Familiar in Houston, a family counseling agency for Hispanics.

A native of West Texas, she was born in Matador and spent her childhood in the Quitaque-Flomot area, graduating from high school at Flomot. She attended Wayland Baptist College at Plainview for two years before transferring to Texas Tech.

As Outreach director Ms. Hunter will be in charge of all aspects of the local mental health program provided by the Center, located at 806 Cherry St. Her duties will include some counseling along with the supervisory responsibilities.

Whiteflat News

By Earlyne Jameson

Mrs. Morris Stephens visited in Vernon, Thursday with her daughter and husband, Mr. and Mrs. Scott Martin. Mrs. Martin was ill. Mr. and Mrs. Robin Darsey and son, Bert visited her grandparents, Mr. and Mrs. Curtis Goodwin and mother, Mrs. Ray Fox in Afton, Saturday.

Mrs. Skeet Jameson attended to business in Paducah, Tuesday and visited Mrs. Grace Stephens before returning home.

Ted Jennings and children, Jill and Todd of Haskell visited his parents, Mr. and Mrs. T. W. Jennings, Saturday. Jill remained to visit this week with her grandparents.

Methodist Women Hold Recent Prayer Program

The "Prayer and Self-Denial" program of the United Methodist Women was presented by Mrs. Arthur Cooper, Christian Personhood Chairman on Wednesday afternoon February 25th in the church parlor. Mrs. John Hamilton, president opened the meeting with prayer.

Mrs. Cooper's theme for the program was "Of Such Is the Kingdom", which was regarding children. Her scripture was taken from Luke 18:16, where Jesus rebuked his disciples by saying "Suffer little children to come unto me, forbid them not, for of such is the kingdom of God." Her discussion was presented in three parts regarding Children of the Kingdom. In part one, Children of the Kingdom, she brought out the fact that children should be a very important part of the church, and should be brought to church at an early age. Using an article from the paper, The Texas Methodist, Mrs. Cooper stated that the article mentioned the fact that children are the litmus test of the church. A church can be judged by how it treats it's children.

In the second part, Mrs. Cooper discussed some of the childlike qualities which bear the marks of the Kingdom. These qualities show that a child is dependent, a child is trusting, a child has a

sense of wonder, and a child is loving. These qualities were explained with interesting true stories of children showing these qualities. Mrs. L. L. Lynn presented a beautiful prayer at this time on "Giving Thanks for a Little Child".

Children Need Love, the third quality of the Kingdom was expressed through stories showing that we often deny children's personhood by denying them love. The story of Helen Keller was mentioned as an example of what love and understanding can do. Moses from the Bible had parents who loved him so much that they saved his life when he was put in a basket in the Nile River.

An offering was given by members present, and Mrs. Cooper listed several places where the money will be used to help children. Prayer by Mrs. Cooper concluded her program.

A short business meeting was conducted by Mrs. John Hamilton, president. Minutes of the November meeting were read by the secretary. The year books were passed out, and Mrs. Hamilton introduced the program theme of the year, "Love Made Visible".

Others attending besides those mentioned were Miss Mary Slover, and Mesdames Henry Ford, Marvin Brotherton, Olive Russell, and Chas. Keith.

Services Held Tuesday For Mrs. Irma Jinkins

Services for Mrs. Irma Jinkins, 81 of Route 6, Amarillo were held at 2 p.m. Tuesday, March 10 in San Jacinto United Methodist Church in Amarillo, with the Rev. Rex Mauldin, pastor, and Gary Mauldin, officiating. Burial was in Llano

Cemetery by Blackburn-Shaw Memorial Chapel.

Mrs. Jinkins died Sunday.

Survivors include her husband, Leland, a son, Lee Stanford of Amarillo; one brother; three sisters; three grandchildren and one great-grandchild.

Fuller To Speak At Local Club

Mr. Larry Fuller, Division Manager of Southwestern Public Service Company of Amarillo, will be guest speaker at the open meeting of El Progreso Club to be held Thursday, March 12 at the First United Methodist Church at 7:30 p.m. The public is invited to attend this educational meeting.

Mr. Fuller's topic will be "The American Cancer Society, Texas Division". He was Chairman of the Board of Directors of this organization for the past three years and is now a member of the National

Board of Directors. Mr. Fuller plans to talk about the current cancer situation Nationally and what is being done in the field of cancer control and its effect on towns the size of Matador, our State and the Nation, and more specifically on what is being done in the field of cancer control in Texas at the present time.

Perhaps this meeting will answer some of the questions that you may have about what is being accomplished with your contributions to The American Cancer Society. Everyone is urged to attend.

Honor Roll Announced

Students on the Distinguished List with all grades of 92 or above for the Fourth Six Weeks are as follows:

1st Grade-Eric Farley, Matthew Neighbors, Kani Bynum, Tonya Hoyle, Misti Lobban, Christi Shorter, Kristi Timmons, 2nd Grade-Shawn Cox, Billy Lefevre, Bonnie Richards, 3rd Grade-Brand Cruse, Todd Cummins, Jarrett Cason, Prissy Roys, Cindy Shorter, Paige Williams, 4th Grade-Bart Bynum, 5th Grade-Shanna Lancaster, 6th Grade-Koree Campbell, 7th Grade-Cody Christian, 8th Grade-None.

9th Grade-Renee Renfro, Wade Vandiver, 10th Grade-None, 11th Grade-Tonda Cross, Derinda Cruse, 12th Grade-Charles Cammack, Kenny Holt, Beanie Davis.

Students with all grades 83 or above for the Fourth Six Weeks are as follows:

1st Grade-Paul Barton, Chancy Cruse, Amber Brandon, Renee Davis, Heather Hobbs, Lisa Jones, Cathey Perryman, Amy Woolsey, 1st Grade-Omitted from 2nd Six Weeks, Mindy Hillyard, Richard Lewis, 2nd Grade-Natalie Burkes, Amy Cook, Tony Gonzalez, Ginger Martin, Brandee Spray, Amy Stephens, 3rd Grade-Cary Franks, Cory Franks, Donnie Wittler, Brandi Barton, Yulanda Campbell, 4th Grade-Regina Cruse, Paka Barton, David Stafford, Will Richards, 5th Grade-Shannon Campbell, Dana

Wittler, 6th Grade-Shawna Campbell, Loreta Cross, Jade Jones, 7th Grade-James Hal Bearden, Kimberly Hand, Kim Phillips, 8th Grade-Chad Stephens, Kim Moore, 9th Grade-Melea Taylor, Carla Christian, Holly Hobbs, 10th Grade-John Russell, Roy Thompson, Kayla Johnson, Delynn Timmons, Deanna Durham, 11th Grade-Carlene Luckett.

12th Grade-David Walker, Brenda Perryman, Cindy Johnson, Linda Palmer, Lydia Vega, Bunni Zabielski.

Toys made over 2,000 years ago include dolls with movable joints, balls, clappers, sleds, kites, animals of clay and playthings on wheels.

Lunchroom Menu

March 16 -- March 18

Monday
BREAKFAST: Apple Juice, Toast, Cereal, 1/2 pt. Milk.
LUNCH: Burnot, Macaroni & Cheese, Lettuce & Tomato Salad, Corn Bread, Fruit, 1/2 pt. Milk.

Tuesday
BREAKFAST: Orange Juice, Waffles & Syrup, Sausage, 1/2 pt. Milk.
LUNCH: Texas Hash, English Peas, Sliced Carrots, Hot Roll, Butter, Cake, 1/2 pt. Milk.

Wednesday
BREAKFAST: Orange Juice, Toast, Cereal, 1/2 pt. Milk.
LUNCH: Cheese Burger with Lettuce, Tomatoes, Pickles and Onions, Jello, 1/2 pt. Milk.

Thursday
Spring Break

Friday

Careers With A Future

According to the U.S. Department of Labor, employment of computer programmers and systems analysts is expected to grow faster than the average for all other occupations during the 1980s. Already, there are more openings for computer programmers than there are people to fill them.

"Thousands of skilled jobs in the computer industry are going begging," says Kingsley G. Bewley, president of the Bell & Howell Education Group, a nationwide system of institutes that train people for careers in computer programming and electronics. "With the proper training, there are limitless opportunities for those who embark upon a computer career."

Bell & Howell Education Group institutes teach computer science as it is applied in the business world. Pay scales for computer programmers are excellent. According to data processing employment firms, starting salaries for computer programmers last year averaged between \$11,000 and \$15,000. Salaries for programmers with a few years' experience averaged between \$18,000 and \$24,000.

For information on career opportunities in computer science for business, write: Bell & Howell Education Group, Inc., Dept. 4702, 2201 W. Howard Street, Evanston, IL 60202.

OIL INFORMATION LEASING SERVICE

P. O. Box 1983
Plainview, Texas 79072

President Reagan Deregulates Oil Industry.....

STRIKE IT RICH

YOUR CHANCES ARE BETTER THAN EVER.

More local residents are filing in the Bureau of Land Management Oil and Gas Lease Drawing. To qualify for this drawing you need only be an adult and an American citizen.

A little known Federal law (the 1920 Mineral Leasing Act) makes it possible for you to compete equally with Exxon, Gulf, Texaco and other giants of the oil industry, because under the law a company or individual may submit only one application to lease per parcel.

The oil and gas regulations are complex and this letter offers only a thumb-nail sketch of the various ways to obtain a federal lease. The complete regulations are contained in the Code of Federal Regulations, Title 43, Part 3100. This book may be found in most public libraries.

The simultaneous oil and gas leasing system is administered by the Department of the Interior's Bureau of Land Management. On the 1st business day of January, March, May, July, September and November the BLM posts a list of lands within its jurisdiction that are available for leasing. Applications are accepted until the close of business on the 15th working day after the list is posted. If more than one application is received for a given tract, a drawing is held to decide who will get the lease. Three application cards are drawn for each parcel, and the order in which they are drawn fixes their order of priority.

Note: No assignment of a lease may be filed before the lease is used by BLM. No agreement to assign a lease may be made before the lease is issued, or before 60 days after the drawing, whichever is sooner. Any assignment entered into as a result of an agreement which violates these restrictions will be disapproved by BLM. These restrictions are intended to allow all interested parties an equal opportunity to negotiate for the lease and to protect applicants from being unduly influenced to enter into agreements to make transfers not in their best interest.

If you are the successful applicant, you are given 30 days to pay the first year's rental after you receive official notice. Upon payment the BLM will issue the lease. Currently the rental rate is \$1.00 per acre per year.

Most Important Facts To Consider

1. We urge you to be cautious! You should consider the speculative nature of your investment in time, effort and money before filing an application. Oil Service performs a number of services as your agent for a fee. Oil Service is not an authorized agent of the BLM or Government. It is not necessary to patronize our service to apply for an oil and gas lease.

2. Most winners in the drawings will tell you, "To win you need to be consistent in your filings..." While a few people have won a lease on their first time to file--most of us aren't that lucky. Decide the number of applications you want filed each period, then stay with it! Your chances to win will be greatly improved.

Oil Service will select for you a parcel we believe to be the most desirable at \$20.00 per parcel (which includes the \$10.00 filing fee.) The lease is 100 percent yours. Oil Service nor anyone associated with them does not have any interest of any kind in any lease you win as a result of our service. It is our continued desire that you consider using our service in the sale of your lease, and we will assist you in gaining financing of your lease payment, if required. After your application has been sent to BLM we will send you a card telling you the State, Parcel Number, Description, Acres and estimated value of your filing.

The March Filing Period is Only Days Away

March 10th is the last day Oil Service will accept application for this drawing period...any received after this date will be filed in the May filing period.

County Agent's Corral

By Jerry Cummins

Good Soil Preparation For Gardening Success

I think it's safe to say that absolutely nothing can be more discouraging at planting time than poor soil. Gardeners all over the country are constantly amazed at what they are expected to grow their garden vegetables in. There are good soils and poor soils in Motley County although most are not that bad for gardening if prepared properly. Regardless of the type of soil in your garden, it can be improved by adding plenty of organic matter. This is one of the real keys to growing successful vegetables in your backyard.

If your soil is a heavy clay, adding organic matter will improve drainage and aeration as well as allow for better root development. If you have sandy soil, liberal amounts of organic matter will help it hold water as well as nutrients.

Where do you get organic matter? This magical stuff, which does all the above things plus serves as a source of food for soil fungi and bacteria, comes in the form of peat moss, compost, hay, grass clippings, barnyard fertilizer, leaves or even shredded newspapers.

When adding organic matter to soil, be sure to apply enough to physically change the soil structure. Ideally, at least one-third of the final soil mix in your garden should be some type of organic material. To accomplish this, spread a 2- to 4-inch layer of organic material over the garden surface and till it to a depth of at least six to eight inches. Apply the recommended rate of fertilizer over the garden surface at the same time and till it in along with the organic material.

This is also a good time to treat your soil for nematodes if they have been a problem in the past.

More about that later.

Last time I talked about working up the garden soil and mentioned using rototillers, I indicated they weren't absolutely necessary for gardening, but they sure do make soil preparation a lot easier. Many local gardeners prefer the shovel or spading fork to the rototiller and really enjoy getting out and working up the ground. But I know there are many who look for a simpler and easier way to handle this chore. For you folks who own a rototiller or those of you thinking about renting or buying one, here are some tips to make the tilling job a lot easier.

1. Tilling the garden will be easier if you leave a row untilled between passes.

There are two reasons for doing this, wide turns are easier to make with a tiller than "about faces," and the machine won't be pulling itself and you toward the next row (which it will do if you even come close to overlapping rows).

2. In tilling heavy clay soils or breaking up ground for a new garden, reduce the engine speed of the tiller so that it will dig better and buck and bounce less.

3. When tilling ground for the first time, don't try to work it to its maximum depth in the first pass. The first time around, set the brakes stake half the depth you desire. Then set it to full depth and go over the ground a second time.

4. It's important to till only when the soil is somewhat dry and friable. Tilling when it's too wet will leave behind large clods which will become rock hard when dry. Also, mud clumps clinging to the blades of the tiller will upset its balance, causing undue wear on you and the tiller.

My next column will deal with controlling soil-borne diseases.

New Device Helps Deaf Woman Hear The Christmas Season

By Liz Willding

(Editor's Note: This story about Mrs. Barbara Goodwin appeared in the Winter 1980 edition of Foundation Magazine. She is the daughter of Mr. and Mrs. Carl Cooper of Matador.)

This Christmas season, Barbara Goodwin will be paying particularly close attention to the sounds around her.

She will concentrate on the rhythm of Christmas carols, the sound of bells ringing, the rustling of wrapping paper being torn from presents on Christmas morning.

All of these sounds have special meaning to Mrs. Goodwin. Diagnosed as profoundly deaf in both ears, she lost her hearing a little over two Christmases ago.

Today, however, Mrs. Goodwin is again discovering a world of sound. This time, she is able to do so with the help of an experimental new implant. The first patient in the area to undergo a "cochlear implant" operation, her surgery was performed at Baylor University Medical Center in October by otologist, Dr. Fred Owens.

And, although the sounds she now hears are very different from those she had known, Mrs. Goodwin considers her implant the greatest of all Christmas gifts.

How the cochlear implant works.

An electrical device that generates small amounts of current near the hearing nerve when sound occurs, the cochlear implant allows patients to hear what are called "environmental noises."

These sounds are sometimes described as scratchy noises, sounding something like the sounds from an old-time radio.

For Mrs. Goodwin, her first sounds were "strange, crackling noises." Afraid that the implant might not work for her, she says she had a feeling of relief to hear those first, unusual sounds.

Almost immediately, Mrs. Goodwin was able to distinguish knocking noises and the quick clicking sound of a light switch being turned on and off with her new implant.

Dr. Owens explained that the cochlear implant simulates the natural process of hearing. Ordinarily, sound waves entering the ear are transformed into electrical current by tiny hair cells in the inner ear, or cochlea.

This electrical current is received by the hearing nerve and translated by the brain into sound. In many cases of profound deafness, the hair cells in the cochlea have been damaged or destroyed while the hearing nerve often remains alive and functional.

Despite a healthy nerve, if the tiny hair cells are missing, no sound can be heard.

Supplying the electrical current needed to stimulate the hearing nerve in cases where these hair cells are absent is the purpose of the cochlear implant, Dr. Owens explained. A system, the cochlear implant is comprised of two parts, an internal coil, which provides stimulus to the hearing nerve, and an external stimulator, which provides power to the internal coil.

Gathering research data.

One of only twenty physicians in the United States qualified to perform the microsurgical operation, Dr. Owens and his colleagues are all part of a special cochlear implant study.

"The cochlear implant study began in 1977 to gather experimental and research data on the implant," Dr. Owens explained. "Under the direction of Dr. William House of the Ear Research

Two Christmases ago, Mrs. Barbara Goodwin lost her hearing following a struggle with a serious illness. Today, an experimental implant device called a "cochlear implant" has reopened a new world of sound to her.

Institute and the Otological Medical Group in Los Angeles, California, twenty otologists (ear surgeons) were trained in the procedure.

"Before doing the implants in our own hospitals, we were required to do two cases in Los Angeles. This ensured that all of the future cases would be done exactly the same. This consistency will make our research data more meaningful."

Barbara Goodwin hopes her cochlear implant will be the crucial link she needs to regain something of the lifestyle she so mysteriously had snatched from her.

Only months before her first meeting with Dr. Owens, she had been wrestling with a condition totally unrelated to her hearing. When it took a sudden turn, it affected her in ways no one could have predicted.

Almost ten years earlier, premature arteriosclerosis (hardening of the arteries), had caused severe narrowing in the abdominal area of Mrs. Goodwin's aorta, severely limiting blood flow to her legs. To correct this, vein grafts had been placed above and below the blockage, successfully restoring adequate circulation.

But, her progressive arteriosclerosis eventually attacked the grafts, leading to more blockage and deterioration. And, by Christmas 1978, she was again suffering the effects of a severely blocked aorta.

On January 19, 1978, "the day before the Superbowl Game," her daughter Gerrie remembers, Mrs. Goodwin entered Baylor Medical Center for emergency surgery. Plans were made to remove the original graft, replacing it with a new one. But, a life-threatening infection was discovered in Mrs. Goodwin's abdomen where the original graft had deteriorated and ruptured. The corrective surgery had to be postponed.

Before new grafts could be placed, the infection had to be controlled. Massive doses of antibiotics and other drugs were administered to arrest the infection. A series of surgeries followed to restore circulation to Mrs. Goodwin's failing legs.

Medication and continuous care save Mrs. Goodwin's life. But, her illness had left her with two major handicaps. All efforts to restore circulation to Mrs. Goodwin's legs failed, resulting in their amputation. And, the heavy doses of medications had left her completely deaf in both ears.

Mrs. Goodwin feared that her new disabilities, especially her loss of hearing, would mean a lifetime of depending on others. But, shortly after her release from the hospital, a newspaper article she read gave her new hope.

"We read about the cochlear implant in a magazine supplement of the Sunday newspaper," Gerrie Goodwin recalled. "We thought, 'there is something

we can do,' and we decided to investigate it.

"We thought she would have to go to Los Angeles or Boston to have the surgery but then we found Dr. Owens."

Interested in Mrs. Goodwin's case, Dr. Owens began testing her to determine whether her hearing nerve was still functional. In addition, she would also have to meet a rigorous list of guidelines established in the study.

Currently, patients must have been able to hear and speak at one time in their life to qualify for a cochlear implant. However, in the future, Dr. Owens explained that patients who have been deaf from birth will be considered for surgery. At the time of testing, the candidate for a cochlear implant must be clinically "stone" deaf.

In less than two hours, Mrs. Goodwin's surgery was complete. In six weeks, when the area around the implant had healed, she received her external stimulator system.

Tuning into sound.

Affixed to a pair of eyeglasses, an external coil is positioned directly on the skin, over the internal coil. Power is supplied to the external coil by way of a small battery pack, called a stimulator. Also connected to the stimulator is a microphone, which can be worn in the ear like a hearing aid or attached to the stimulator. When Mrs. Goodwin switches on her system, a series of events happen.

"The microphone picks up any noises," Dr. Owens explained. "Gradually, she will learn to differentiate between pitches. And, with a little practice, she will be able to distinguish the number of syllables in a word."

"The electrical current then travels down the two wires, further establishing a current between the two. Vibrations are created and the patient hears something."

"At first, every sound Mrs. Goodwin hears will be a new one," Dr. Owens explained. "Gradually, she will learn to differentiate between pitches. And, with a little practice, she will be able to distinguish the number of syllables in a word."

"Asher Woolf, Ph. D., audiologist, will work with her, helping her to learn these skills. This will become a valuable tool for her, helping her to eventually learn a code system for limited telephone conversations. Mrs. Goodwin's training is every bit as valuable as the implant itself."

Dr. Owens explained that the cochlear implant is also very helpful to the patients' lipreading and aids them in maintaining the volume of their own voice. In some cases, they are even able to improve the quality of their voice.

"It is very important with a

cochlear implant patient to make sure that they don't expect more than they will receive from this procedure," Dr. Owens emphasized. "We go through a great deal of examination and discussion with the patients to make sure they understand what will be performed and what are the expected results."

"The implant is the first

step in a very long journey. We hope in the future to improve the mechanics and materials to help these people a great deal more."

Despite the limitations of the transplant, Mrs. Goodwin is thrilled to again hear.

She doesn't mind that the sounds are different and she isn't particular about what her initial sounds are.

"The sounds are much better than I expected," Mrs. Goodwin said. "When Dr. Woolf and Dr. Owens first turned my implant on, I was pleasantly surprised."

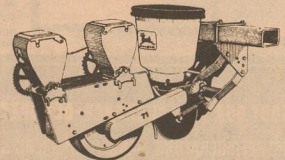

"I look forward to hearing any sound and am happy to again be a part of the hearing world."

Baylor Otologist, Dr. Fred Owens, displays the external coil and holder for the cochlear implant system. When the external coil is placed on the skin directly over the implanted coil and activated with an electrical stimulator, the patient hears "environmental sounds."

John Deere Planters Might Make The Difference

71 Flexi: multi-crop planting specialist

Accuracy is an outstanding feature of this versatile planter. Lock in planting depth with exclusive Dial-A-Depth. Adjustable down-pressure on the opener and press wheel help assure a good stand.

Statement Of Intent To Change Rates

General Telephone Company of the Southwest, in accordance with the Rules of the Public Utility Commission of Texas, hereby gives notice of the Company's intent to implement a new schedule of rates in Texas effective February 27, 1981.

The proposed changes in rates will affect all customer classes and are designed to increase the Company's gross annual revenue derived from local service by 23%.

A complete set of revised rate schedules has been filed with the Public Utility Commission at Austin, Texas, and is available for public inspection in each of the Company's Business Offices in the State of Texas. A summary of the Company's rate filing has also been sent to the Mayor's Office of each affected municipality.

Frigidaire 30" Range
Offer you so much more in
• Value
• Quality
• Dependability

You can program the oven to start baking or roasting at the time and temperature you desire... even tell it when to stop... thanks to automatic Cookmaster controls.

Put the arduousness of oven cleaning behind you. The Electric-Clean oven can clean itself automatically.

For better, more uniform broiling, a self-cleaning Broiler Shield reflects heat from the broiler unit away from the top of the oven and back across the broiler area.
