Lions Install Officers

By Lila Meado: Lion Alan Bingham took the helm as president of Matador Lions Club, Tuesday, when officers for the 1981-82 year were installed.

District 2T-2 Governor Lion Ron Betenbough of Lubbock installed the incoming officers at regular luncheon meeting of the club, at the First United Methodist Church. He was introduced by Deputy District Governor Lion Jake Shanberg of New Deal.

In a brief introductory address, Gov. Betenbough lauded the Matador club for its service record to the community, and charged the members to increase the membership by inviting new prospects into the organization.

"Lions International has become the world's largest service organization since it was begun in October of 1917 by Melvin Jones, a Texan, who injected the idea of service, into an organization known as the "Business Circle." Since that time, the movement has grown to world-wide proportions," the speaker declared. "Everyone has a need to be worthwhile in something, and a Lions Club, such as this, is the best place to realize and fulfill this need."

Other officers installed included Miss Rachel Patton, the club's Sweetheart since 1934, and the new queen, Shelly Jackson. The outgoing queen, Bunni Zabielski was also recognized.

Lion Bill McCaghren was installed as Recorder; Gerald Pipkin, 2nd vice president; L. B. Campbell, 1st vice president; R. M. Stanley, Lion Tamer and Larry Hoyle, Tail Twister. Also given the charge of

duty were directors Vann Francis, Donnie Jackson, Travis Jameson, Sonny Russell and Walter Jones. Two officers, Lion Forrest C. Campbell, secretary, and Lion Kirby Campbell, 3rd VP, were absent.

Lion Alan Bingham presided and at the conclusion of the program, declared, "You have heard the challenge given us. We have a good year ahead, and I will need your help in meeting our goals." Before adjournment he led the club in an expression of appreciation to the Methodist Women for an enjoyable meal.

NEW LIONS OFFICERS for the Matador Lions Club were installed Tuesday at the regular meeting. The new slate of officers was installed by the 2T2 District Governor Ron Betenbough. Shown in back row are Gerald Pipkin, 2nd Vice President; Bob Stanley, Lion Tamer; Larry Hoyle, Tail Twister; Deputy District Governor, Jake Shanberg; District Governor Ron Betenbough; L. B. Campbell, 1st Vice President and Bill McCaghren, Recorder. Front row is Alan Bingham, President; Miss Rachel Patton, Sweetheart and Shelley Jackson, Lions Queen.

FENCE FIRE -- Volunteer firemen were called out at about 5:30 Tuesday evening to a fire behind the Gus Bird residence in south Matador where a stockade type fence and shed were burning. Cause of the blaze was unknown, but the fire had apparently started near the fence on the ally side where some large dead and dry weeds were located. Firemen quickly brought the blaze under control but not before it had destroyed much of the fence and damaged the shed. It also burned grass around and under nearby butane tanks.

The group can work to create public support and good public relations for

the library, to encourage gifts, endowments, and memorials, to raise financial support for special library projects and expansions not covered by the regular budget, to increase hours of service offered by the library and to broaden its scope of service; and to create public awareness of the library's place in the community.

Any citizen wishing additional information may contact one of the board members, Darla Gwinn, Syd Pipkin, Marie Linson, Michelle Bearden or Ronnie Thacker.

STORM DAMAGE -- Mrs. Wade Martin is shown standing beside their barn which was damaged by a tornado Sunday evening.

A POST set in concrete was uprooted Sunday evening when a tornado hit the Wade Martin home. Mrs. George Pope also had damage to her barn and home from the same turbulent weather.

Tornado Strikes Sunday On Wade Martin Farm

Turbulent weather hit the Flomot rural area in Motley County with devastating force, Sunday when a tornado, hail, strong winds and flooding rains caused extensive property damage.

A tornado traveling from a northeasterly direction dipped to the ground at 7:15 p.m. at the Wade Martin farm, located two miles east of Flomot, and destroyed numerous farm buildings. Cedar posts were lifted out of two

found scattered fragments from the buildings on their land. Mr. and Mrs. Martin were fortunate to escape serious injury.

The home of Mrs. George Pope, a mile north of Flomot, had extensive feet of concrete and Mrs. Martin said a clothes line post that was demolished had been there since 1929. The flying debris damaged the windows and roof of their home and following the storm, neighbors

damage when a strong wind lifted the roof of her barn slamming it into her home. Seab Washington, south of the Wade Martin farm, reported a hard falling four inches of rain with hail that damaged his cotton crop.

LIBRARY NOTES

Beverly Darsey, Librarian
Jackie Bearden, Asst.

Slowly but steadily progress goes on in Motley County Library. As grant funds come in, book and shelving orders are mailed. The library is sporting a new look already—a new secretarial desk and chair and an electric typewriter. We would like to thank the following men who helped us move old furniture and other materials out of the library room last week, giving us much more room for our many donated books, Mark Rickman, Larry Hoyle, Gerald Pipkin and Joe Freeman.

Since April we have received approximately 2500 donated books. This is a good start toward the 7500 needed for accredited membership in the West Texas Library System (three years to reach this goal).

PUBLISHERS WEEKLY (March 13th) mentions that the average book price rose from \$18.95 in 1979 to \$21.71 in 1980. With prices like these, we are especially appreciative of our approximately 2500 donated books.

During the month of July, Motley County Library received several cash memorials and other cash gifts in addition to many donated books. We would like to thank the following donors for their support during the month of July, Mr. and Mrs. S. C. Burleson; Mary Meason, Carol Hays, Randall Whitworth, Charlie Long Family, Clay and Barbara Jameson, Mr. and Mrs. Charlie Scaff, Barbara Parks, Mr. and Mrs. Tom Duggan, Mr. and Mrs.

Robin Darsey, Mr. and Mrs. Luther Lancaster, Dr. and Mrs. Tim Green, Joan Patton, and Diane Barker.

Beverly and Jackie have been accessioning, processing, and cataloging those 2500 donated books.

We would also like to thank Syd Pipkin who has been helping process some of these books in her home. We hope to have many of the donated books ready for check-out by mid-August, as we expect to have our shelving by then. A "paint-the-library" day has also been planned by Library Board members. Board members have also planned for the organization of a Friends of the Library group (more to come later on this subject).

The CETA program has extended the length of time for Jackie's services to the library. We are grateful that she will be with us until August 19. Also we are happy to announce the Joan Patton will be doing some volunteer work for us in the library on each Tuesday beginning next week.

Though our collection is still not ready for check-out we do encourage everyone to use our Interlibrary Loan Service. Costs involved are, 1. Postage to return materials to the lending library. 2. Insurance; if the lending library requires it. 3. Photocopying done by most out-of-state libraries.

Native Son Preaches Here Sunday At Methodist Church

A Matador native was guest speaker Sunday at the First United Methodist Church here, of which his great-grandparents and maternal grandmother were charter members.

Dr. Dan E. Solomon, pastor of Travis Park United Methodist Church, San Antonio, spoke from the pulpit of a new, modern edifice. His great-grandparents, Mr. and Mrs. T. N. Edmondson, with a small group of pioneers, including members of their family, had organized the church in 1892, under cottonwood trees on Ballard Creek, northeast of the townsite. Among the members was Dan's grandmother, Fannie Edmondson, later Mrs. F. M. Jinkins. The son of Mrs. Mabel (Jinkins) Solomon and the late Henry Solomon, Dan was born in Matador and started to school here. His parents later moved to Tula and he grew up on a farm near Tula. He is a graduate of Tula High School and was class Valedictorian.

He felt the call to the ministry while still in high school, and his continuing education was to that end. He holds the Bachelor of Arts degree (Summa Cum Laude) in Mathematics from McMurry

Pastor, First United Methodist Church, Plainview. He is currently Chairperson of the Southwest Texas Annual Conference Council on Administration.

He has been Chairperson of the Board of Ordained Ministry of the Southwest Texas Conference, also of the Council on Finance and Administration and of the Task Force on Evangelism.

Dr. Solomon is a member of the General Board of Church and Society of The United Methodist Church and is Vice President of the Board of Trustees of the Board of Church and Society, as well as Chairman of the Building Operations Committee of the Church Center for the United Nations in New York. He is a member of the World Methodist Council and a delegate to the World Methodist Conference. Lecturer (Jackson Minister Week), writer (has had articles "The Pulpit," "Christian Advocate," and "West Texas Chamber of Commerce Magazine") and teacher (in Conference Schools and Missions in SW Texas Conference).

Others from out of town were Mr. and Mrs. J. D. Payne of Lubbock, and Mrs. Frances (McMahan) Brown of Canyon, accompanied by a friend, Mrs. Nan Newberry of Amarillo. Mrs. Brown and Mr. Payne are cousins of Dr. Solomon. Among friends present were two of his former teachers, Miss Verlin Reeves and Mrs. Charlie Keith.

NEWS

FOR HOMEBUYERS

For You: Affordable Housing

In this article, a housing spokesman discusses steps our Government should take to fill America's acute need for affordable housing.

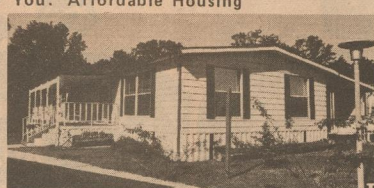

By Walter L. Benning
America has many problems. One of the most pressing is the lack of housing that is both readily available and affordable.

Not tall towers of institutional brick, but individually owned homes. One to a family.

The problem of providing affordable housing for the hundreds of thousands of families who need homes can be solved with the proper understanding and cooperation of the local, state and federal governments. Our nation has the resources to build all the homes we need. But the lack of affordable housing is real.

First, these governments must adopt a sensible policy that encourages an orderly development of our land—for recreation, industrial growth and for housing. This country has space on which to build without disrupting the areas that should be left in their natural state.

The mobile home industry provided almost 275,000 homes to meet housing needs last year and the capacity of the existing factories is such that 300,000 additional units could be manufactured annually. This safe, available, affordable, housing is being denied to

many Americans because local, state and federal governments do not take the initiative in modernizing zoning laws.

Antiquated zoning laws fail to recognize the dramatic changes that have occurred in the mobile home industry. Most mobile homes are moved only once—from factory dealership to a permanent site. Mobile homes are made in factories by expert craftsmen, are safe, meet or exceed all local housing codes and in fact, are the only homes which meet a Federal code established by the Department of Housing and Urban Development.

The second thing that can be done to bring housing to those who require it is for the lending institutions to allow a more realistic repayment period on the purchase of a mobile home. Twelve to 15 years is the average term or repayment for mobile loans while the national average for site-built homes is 25 to 35 years.

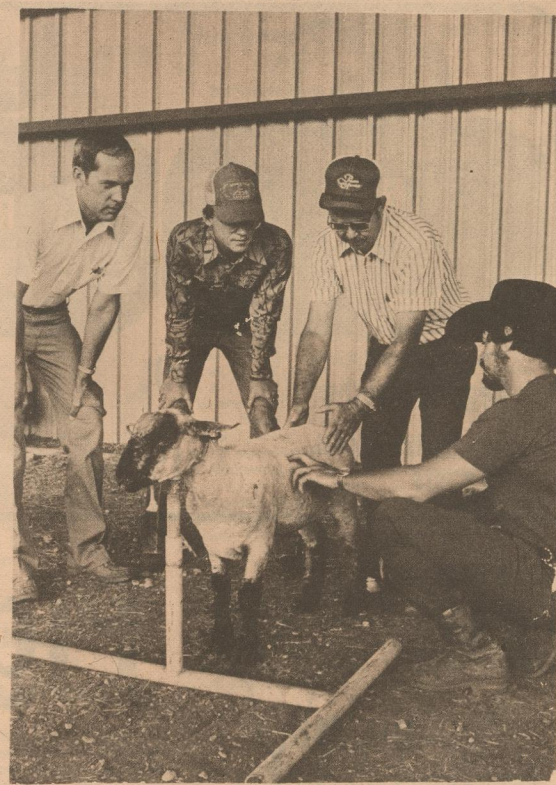

The government must get

serious about breaking the housing logjam. Millions of Americans who need homes cannot afford the average cost of \$64,000 for a site-built home. The government can help. It should enact realistic, conducive zoning policies and codes that address themselves to the needs of Americans.

Government must encourage lending institutions, through government mortgage guarantees, to offer prospective mobile home buyers mortgage terms which recognize these homes as the permanent dwellings they are.

Assisting Americans in obtaining the attractive, livable homes they need—at a price they can afford—should be high on the government's priority list. The mobile home industry is probably the best answer to America's urgent need for housing.

Walter L. Benning is President of the Manufactured Housing Institute. MHI represents the mobile home manufacturers and suppliers throughout the U.S.

YOUR prescription and you

By Sue Boe, Assistant Vice President, Consumer Affairs, Pharmaceutical Manufacturers Association

Q. Why can't I get my old prescription refilled rather than having to get a new one from my doctor?

A. There are several possible explanations:

1. Your prescription may have been for a "controlled substance," (one that has a potential for abuse) classed by the government on a "schedule"

Boe that does not permit refills or allows only a few within a six-month period, and you may have already used up the available number of refills.

2. Some medicines should not be taken over a long period of time without periodic review of your condition by your doctor. Certain tests may need to be administered to be sure the medicine is working as intended in your system and not creating avoidable problems.

3. If your old medicine was to treat a short-term health problem, it should not be taken after the problem is corrected. If the

The word "mister" comes from a Latin word *magister* meaning "commander."

When savvy winter sportsmen shed their ski goggles, they mix up a mugful of "Appleton Hot Buttered Rum." Ready in minutes, this traditional beverage is guaranteed to chase the chill away in one mellow sip!

'APPLETON HOT BUTTERED RUM' CHASES WINTER CHILL

Whether your favorite reason for getting outside in the cold weather is skiing, snowmobiling, sledding, or skating, one sip of "Appleton Hot Buttered Rum" will convince you that this chill-chasing beverage is the best reason yet to come back inside!

When mixing your "H.B.R.," be sure and use a flavorful rum such as Appleton Gold, imported from Jamaica. The type of rum does make a difference in the drink. You get more real taste with Jamaican gold rums because they're made slowly and aged longer—the old traditional way.

Before settling back with your winter warmer, add a pat of butter and cinnamon "swizzle stick" to the mug.

Then relax and let this steaming drink make the winter chill disappear!

APPLETON HOT BUTTERED RUM
1 teaspoon brown sugar
Boiling water
1-1/2 ozs. Appleton Gold Rum
1 teaspoon lemon juice
1 pat butter
1 cinnamon stick
1 slice lemon
2-4 cloves

In a heatproof glass mug, dissolve sugar in a little boiling water. Stir in rum, lemon juice, and enough boiling water to fill mug. Top with butter, cinnamon stick, and lemon slice stuck with cloves. Serve immediately.

Makes 1 serving. Recipe can be increased according to number of servings needed.

NEWSWORTHY TRENDS
Gold Jewelry Gifts

New gold bar pins on a Christmas stocking are smaller in scale and daintier than in previous years. It's the newest way to wear or give a little gold this holiday.

Holiday shoppers take note. Gifts of gold have never been more desirable. And this year, jewelry designers have come up with ingenious ways of keeping the cost of precious gold jewelry in line. Here are some of the newest trends.

Christmas Pin-Ups
Gold bar pins are back on the scene in many fine stores and are a gift that suitably dresses up a tailored look. You'll find them in a variety of styles, from romantic to sleek, and you'll find they're scaled down in size this year, making them more reasonable in price.

The return of the classic gold circle pin, updated with accents of colored stones or pearls, is another newsmaker, to go along with the "preppy" look in fashion. And there are gold pins with bow or ribbon motifs, leaf and floral motifs, gold beads, geometric and the ever-popular heart. Novelty pins include scatter tacks with your own initials, cartoon characters like Popeye, and Western motifs, all hot-selling gold gift items at an affordable price.

Now 'Ear This
Ingenious new earring designs abound, such as gold swirls and openworked designs which give the illusion of size but considerably reduce the amount of gold used and, therefore, the price. Another important trend: "stamped" gold earrings that are comfortable, lightweight and more affordable than heavier "cast" gold designs.

Probably the most newsworthy items in the earring category are "earring jackets." These "add-ons" enable a woman to transform her pierced earring studs into a variety of new looks by simply slipping a "jacket" onto the post of each stud, then fastening the studs, as usual. Whatever you choose to give this year, karat gold bespeaks deep feeling, and as a symbol of that, it will last and last.
