Windmill Energy Study Conducted by University

Using windmills to generate electricity is a rather recent application of wind power, when you consider that windmills have been used to do man's work for more than 5,000 years, reports Dr. Bill Cooper of Oklahoma State University.

reports dealing with windmill generation of electric power. Some of these reports date back to the early 1930's Cooper noted.

He also noted that the homes and farms using wind power to generate electricity in the 1930 time period did not have the large power demands that our modern homes of today require.

As a help to persons interested in the subject of wind electric power, Dr. P. M. Moretti of the Oklahoma State University Department of Mechanical and Aerospace Engineering has

written an article answering some of the most frequently asked questions. His article also gives the names and addresses of a number of manufacturers of wind electric systems. The article concludes with a list of references for further study, reports Dr. Cooper.

Launched By Tax Board Taxpayer Rights Campaign

Kenneth Graeber, executive director of the State Property Tax Board (SPTB), recently announced a statewide effort to inform property owners in Texas of their rights and remedies as taxpayers.

"Major changes in the state's tax laws were effective January 1 with implementation of the new Texas Property Tax Code," Graeber said. Among the more significant provisions are those which:

-- Establish a central appraisal district in each county which will value all property for tax purposes and provide that value to each taxing unit in the district;

-- Provide a single board of equalization -- which will be empowered to hear taxpayer

appeals on a wide range of matters rather than just questions of value;

-- Make it possible for taxpayers to file all exemption applications and property renditions with one office in a county rather than with multiple tax offices;

-- Permit one-time applications for homestead exemptions and open-space land valuation, rather than annual applications as previously required;

-- Provide, for the first time in Texas, a method for taxpayers to limit property tax increases to eight percent annually through an initiative and referendum process applicable to all taxing units.

Graeber said rendition forms are available from appraisal district offices or from county

tax office. Complete information on rendition requirements and on the availability of tax exemptions and special valuation for agricultural land is contained in a pamphlet produced by SPTB titled "Taxpayers' Rights, Remedies, Responsibilities!"

The pamphlet, which also includes suggestions on how to prepare and present a taxpayer appeal, is available at no charge from appraisal district offices, from most local tax offices, or from the State Property Tax Board.

Gary Lancaster Files For Matador Mayor

Gary Lancaster, local CPA and cowboy, has filed for Mayor of Matador and will be unopposed during the April 3 city election.

Lancaster filed recently when long time Mayor Kirby Campbell

decided not to seek reelection.

Lancaster opened a CPA office two years ago on the east side of Bob Stanley Pharmacy and Jo-Barb-Dee barber and styling shop. He has also been

a working cowboy for ranches and cattle companies.

"This will be an opportunity for me to do something for the community," he said, "I feel my accounting

background might help us to get some federal grants."

Lancaster, 36, and his wife Carolyn have three children.

The only other positions to be voted on

during the April 3 election are two city councilmen positions.

John Briscoe and Doyle Rose each have filed for re-election and are running unopposed.

Whiteflat Homecoming Set For April 3rd

All Whiteflat ex-students and friends, April 3 will be here soon. The Whiteflat reunion will be held on Saturday, the 3rd at the American Legion Hall in Matador. A basket lunch is expected. Notify all your out-of-town family

and friends.

If you have pictures to put in the newspaper please send to Nora Belle Dunning within the next two weeks. We need them.

Everyone is invited to attend the homecoming.

Comptroller's Rep. To Be In Matador

State Comptroller Bob Bullock has announced that Kay Doggett from his Lubbock Field Office will be at the Motley County Courthouse on Tuesday, March 16, 1982 from 1 p.m. to 3 p.m. A Comptroller's representative is available to assist local residents at the courthouse the third

Tuesday of each month.

Bullock urges anyone with problems or questions concerning state taxes to contact Mrs. Doggett at the courthouse in person or call the Lubbock Field Office at (806) 795-0691. A toll free number (1-800-252-5555) is also available to Texas taxpayers.

The QA&P Railroad was built from Quanah to Roaring Springs and was later extended from Roaring Springs to Floydada. Gus said that soon after the railroad was built, there was a store, run by Mr. and Mrs. Will Willis at Russellville, and also a big depot and a sectionhouse. Mr. and Mrs. Willis had their store in a small frame house, but lived in a tent set up near the store. Gus also reported that he rode the first train from Russellville to Roaring Springs. Texas Cities Subject Of Recent Program

LONE STAR CITIES was the subject of the program presented for El Progreso Club at its meeting February 25 in the home of Mrs. W. F. McCaghren.

Mrs. Frank Pohl was leader, and Mrs. Ted Elliott gave highlights of the development of Dallas and Fort Worth, two of the earliest metropolitan areas in the state. Mrs. Elliott spoke from personal knowledge, having formerly lived in Fort Worth, as she told of the early history and development of industrial and cultural aspects in that area.

Theme of the program was the importance and beauty of six Texas cities, including San Antonio and Austin; and El Paso and Houston, to be given by two other members,

Mrs. Frank Price, who was unable to attend due to illness and Mrs. A. B. Simpson of Northfield, who was hindered from attending because of weather conditions.

Roll was called and answered by each member naming her place in Texas. Inspirational Thought by the leader concluded the program.

Mrs. McCaghren served refreshments of hot spiced tea and coffee, with cake squares, cookies and mints.

Attending the meeting were Miss Rachel Patton, Miss Mary Keith; Mesdames Furman Vinson, John Hamilton, W. D. Lipscomb, Phil Green, W. F. Jacobs, E. A. Day, Robert Darsey, and those above mentioned.

LIBRARY NOTES

By Beverly Darsey Librarian

During the month of February, 285 books were checked out from Motley County Library. Fourteen interlibrary loan requests were called in to West Texas Library System. Twenty-four films were shown to 366 persons; eighteen filmstrips were shown to 67 viewers. Thirty-six reference questions were answered, and 10 WTLS young-adult paperbacks were circulated.

On Thursday, March 4, twenty-six second grade students and their teacher, Mrs. Tom Shults, toured the library and viewed the film "The Legend of Sleepy Hollow." Library cards were distributed for parents to sign and return to the library.

Recent donations of cash, books, and periodicals have been received from Billy

Whitaker, Luther Green, Tim Green, Ted Elliott, Marie Linson, Ed Burks, and Darla Dempsey. We greatly appreciate these donations to the library.

Eight children attended the Film Festival on Saturday, March 6, and viewed two films: "The Big Red Barn," and "The Legend of Sleepy Hollow." These and other films are available for checkout from the library. Films may also be ordered from the West Texas Library System by contacting Beverly at the library. A film catalog which lists titles and subjects for films that may be borrowed from the System is on hand at Motley County Library.

Library hours are Thursdays and Fridays from 9:00 to 5:00 and Saturdays from 9:00 to 1:00.

Predicta Study Club Hears Program On County Schools

The Roaring Springs Predicta Study Club met February 18 in the City Cafe with member's husbands as special guests. Decorations featured a Valentine theme and Mrs. Tommy Wilson and Mrs. Pearl Palmer served as hostesses.

Mrs. Lavoe Thacker, president, brought the meeting to order by welcoming the husbands and thanking them for their help through out the year.

Mrs. Nell Clem read the program which was prepared by Mrs. Lem Miller and Mrs. M. S. Thacker. Mrs. Miller was absent because of a broken arm. The subject of the program was a History of Schools in Motley County and about people who were associated with the school.

Mrs. Mary Webb also helped in acquiring information for the program as her parents, Duff and Myra Green, were early settlers in the county. From Mr. Green's records it was learned that on January 5, 1918 there were 25 schools in Motley County. Today there is only one consolidated school to serve the whole county.

Transportation to school was by walking five or six miles, in many cases bare-footed through grassburrs or goat-heads, or riding horseback, or in the case of the Northfield districts, three covered wagons were furnished for school buses.

We learned the first graduating class from

Roaring Springs was in 1917. Graduates of this class were Ura Keahey Monteeth, Gladys Hoyle Moss, Lula Blye, Eunice Payne and Ray Robertson. Early school superintendents 1915 to 1940 were C. C. Renfro, who taught the last year in the "old Rock School House." He was also the first superintendent in the new brick building in 1915-16. Others were Mr. Cooper, Mr. Henry, Mr. Underwood, G. W. Bennett, C. C. Bishop, Mr. Jones, W. A. Lewis and Mr. Gussom.

The little one room school house produced a persevering, tenacious and resourceful generation. A generation that had been taught Patriotism and one that loved America. It is seriously doubted that there was ever a "draft dodger" in the entire student body of the "Country School Generation."

Just think! Eighty one years ago, or only two and one-half generations ago these "disadvantaged students" came forth to produce the automobile, radio, airplane, helicopter, television, radar, the computer age, landing on the moon, missiles, the Nuclear age, the atomic energy. They mastered the technique of open heart surgery, laser beam surgery, organ transplants and were responsible for the almost complete eradication of typhoid fever, smallpox, polio and many other diseases.

What is left for the next generations of

"advantageous students" to produce?

We thank Mary Webb for going through her father's work and letting us hear

this. We enjoyed a delicious dinner prepared and served by the City Cafe owner Joetta Bumgardner and her employees.

In the Rough

By Hazel

We met at the Welcome Center on a coolish morning, for coffee and Mexican fudge - and games of bridge and Yahtzee. Present were Lucretia, Leona, Robbie, Olivia, Winifred and Hazel.

About noon, played golf -- Louise joined us for the first round.

Olivia won the ball - for most bogeys. She had a birdie on No. 1. Others playing were Leona, Lucretia and Hazel.

We sure appreciate having the Welcome Center - to use for our meetings, luncheons and games -- when we can't play golf. Its great to have such a delightful place.

UNITED STATES POSTAGE \$6.63

The stamp on a letter is only a small part of the cost of doing business by mail. You have to include the cost of secretarial time, materials, mail handling and overhead. That adds up to something like \$6.63.* You can do a lot of business with long distance for that amount, take care of orders faster, and save time and energy as well.

Plus you never have to lick stamps.

Pink Slip Program To Save SCSEP

(Editors Note: The following letter was submitted by Odessa Mullins. For more information on a "pink slip" contact Mrs. Mullins.)

As you know, President Reagan's FY83 budget contains no funding for continuation of the Older American's Act, Title V Senior Community Service Employment Program (SCSEP) beyond September 30, 1982. The budget contains only enough funding to phase-out Title V for the 7/1/81-9/30/82 period.

Some 54,200 persons aged 55 and older are employed by SCSEP in jobs of service to communities throughout the nation. The loss of this funding would seriously harm the "senior aides", who depend on the incomes and productive work provided to them through SCSEP. It would, however, also have a disastrous effect on thousands of community agencies which rely on these workers to help provide a host of vital social services, including many directed at older people.

We, in Connecticut, believe this threat to Title V is very serious. Won't you please join us in a special national "DON'T GIVE SENIOR AIDES THE PINK SLIP" campaign to let Congress know of the massive opposition to

proposed elimination of Title V.

We have asked one Area Agency in each state to spread the word about the "PINK SLIP" letter campaign. Our hope is that thousands of concerned individuals, not just senior aides and older people, will send the attached, simple message, printed or written on a single sheet of pink paper to their state's senators and representatives.

If each Area Agency and those nutrition projects having in-house xerox or memo facilities could produce and distribute even 500 of these "PINK SLIP" flyers throughout their network, the effect would be enormous. We suggest that no envelope be used to send the message on to Congress. Simply have the individuals sign the "PINK SLIP" with address (if they will) fold in three, staple, stamp and address to their Congressman. A sea of pink arriving in the Washington offices of Congressional members will, we feel, increase the effect of the letter campaign.

Won't you please join us? A small investment on your part (approx. \$10.50 for 500 sheets of pink xerox paper) may help to save this vital program.

Many thanks,
Barbara E. Grant,
Executive Director

Bike Wheels Turn For Childrens' Lives

WHEELS are turning to help save children's lives ... St. Jude Children's Research is proud to announce that Rev. Jim Warden, pastor of First Baptist Church, has been named to lead the 1982 Spring BIKE-A-THON in Roaring Springs.

Clifford Damstrom, St. Jude Director of the Southwest Region, stated that "we are extremely proud to find such dedicated people for this very important job."

"St. Jude Children's Research Hospital is the largest childhood cancer research center in the United States, and it is the first center dedicated exclusively to the research and conquest of catastrophic diseases of children," Damstrom stated. Today, the disease free survival figure for children treated at St. Jude has grown to over 50%.

"Children come to St. Jude for one purpose: A CHANCE TO LIVE!" With the wheels turning

in this Bike-A-Thon you will be making it possible for these children to have a chance to live! You will make it possible for daily treatments to continue. You will enable basic research into the cause and cure for cancer to continue. MAKE YOUR WHEELS TURN IN THIS BIKE-ATHON! Young people who want to help less fortunate children and get a little physical exercise and fun with the chance to win prizes, T-shirts and jackets are needed. We will need sponsors too. A sponsor is anyone who is willing to donate at least 10¢ for each mile that the young person of their choice rides during the Bike-A-Thon. Will you help?

The BIKE-A-THON in Roaring Springs is scheduled for Saturday, April 24th, beginning at 8:00 a.m. with a rain date of May 1. Details of the Bike Ride will be announced later.

SEEDS FROM THE SOWER

By Michael A. Guido, Metter, Georgia

A man saw a little boy stretch out his arms and wait for his father to pile up boxes for him to carry. As he waited for more, he said, "Son, you can't manage any more."

"Sir," answered the boy kindly, "my father knows how much I can carry."

What is true of that

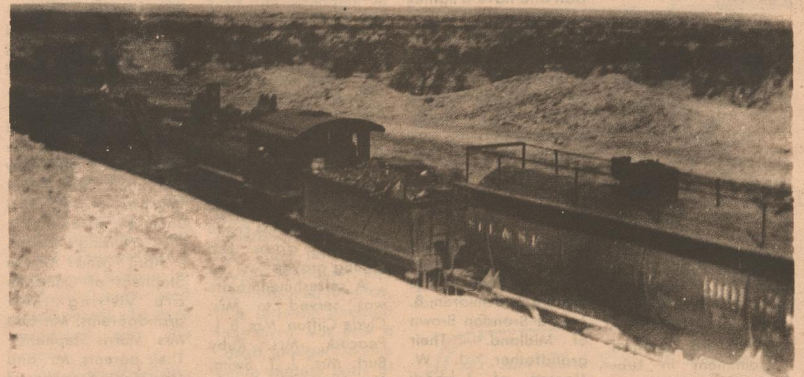

earthly father is true of our heavenly Father. He is faithful. He will be good, and only good to us.

His faithfulness is seen in His preventive providence. He will not allow us to be tested beyond what we are able to bear. And the testings come not to destroy us but to develop

us. His faithfulness is seen in His protective providence. When you and I are tempted, our heavenly Father will always provide a way out so we can stand up under it. He does not shield us from testings, but He does sustain us in them. Our Father is not in-

terested in a race of pampered pets. He wants strong saints: noble men and women. Christian nobility is not dispensed, but is developed in the heat of testings.

The grass is always greener after the rain, and you will be stronger after your trial. You will see.

Texas Heritage Program Features Fort Concho

A Texas Heritage program given February 11, for El Progreso Club featured a thesis by Mrs. Steve Stevens of Dallas, the former Joanne Darsey.

"Fort Concho: Guardian of the Conchos, 1867 - 1874" was the title of the thesis presented by Mrs. Stevens' mother, Mrs. Robert Darsey for the club's program on a Texas Fort. The meeting was at the Plainview

Savings and Loan Community Room, with Miss Rachel Patton as leader.

"Fort Concho, located on the delta formed at the junction of the North and South Concho Rivers, became the headquarters for the Fourth Cavalry, U.S. Army," Mrs. Darsey said in her introduction. "George Gibson Hunt was the first commander of the fort."

The early history of Fort Concho as compiled by Mrs. Stevens for her master degree at Angelo State University, San Angelo,

where Fort Concho is located, contains many interesting facts and reveals much research.

"Many, many battles and forays against the Indians -- who had a special hatred for the 'Texicans,' whom they blamed for placing them on the Oklahoma reservations -- came from the troopers stationed at Concho," Mrs. Darsey outlined, bringing the action as far north as Palo Duro Canyon in the Panhandle.

"It was from here (Concho) that Col. Ranald S. Mackenzie,

regimental commander of the Fourth Cavalry, made, formulated and carried out his successful campaign against the Comanche, Kiowa and Arapaho Indians at the Battle of the Palo Duro Canyon, Sept. 26, 1874. This battle defeated the Indians so badly that they stayed on the reservation from that time on, with the exception of small raiding parties."

Inspirational Thought was by the leader and a Federation report was given by Mrs. Frank Pohl.

During the business

session, officers for the next two years were nominated and elected. They are: Mrs. John Hamilton, president; Mrs. Phil Green, President-elect; Mrs. A. B. Simpson, 1st vice president; Mrs. Joe Campbell, secretary; Mrs. W. N. Pipkin, treasurer; Mrs. Harold

Campbell, parliamentarian; Mrs. Frank Pohl, Federation Counselor and Mrs. Douglas Meador, reporter.

Mrs. W. D. Lipscomb was hostess for the meeting and served refreshments at the conclusion of the program.

year to help fund the operations of public schools, cities, counties and special districts," Graeber said.

"We urge all property owners to become

familiar with the tax process and to file renditions and apply for all exemptions or other tax relief measures to which they are entitled," Graeber concluded.

Letter To Green Thumb Workers

Dear Green Thumber We have learned that the Reagan administration's proposed budget for 1982 does not include an appropriation for Title V of the Older Americans Act, which funds Texas Green Thumb and other senior employment programs. This means that Green Thumb will cease operations effective September 30, 1982, unless Congress votes in the spring to restore funding.

For constipation you'll call it "The Overnight Wonder"

Ever feel uncomfortable with your laxative? Then it's time you tried the gentle medicine they call "The Overnight Wonder."

It's today's Ex-Lax and it relieves the discomforts of constipation by helping restore the body's own natural rhythm. Try it tonight. You'll like the way you feel in the morning!

Chocolated or pills, Ex-Lax is "The Overnight Wonder."

At General Telephone... We're Not Simply Talking About Service Improvements We're Making Them In Petersburg

At General Telephone, better service isn't just a goal, it's a solid commitment. General Telephone spent over 354 million dollars in 1981 on capital expenditure projects (i.e. new electronic switches, expanded cable projects, modernization), and GTE will spend over 410 million dollars in 1982 to provide you the best telecommunications available.

For Petersburg this investment in service improvement is working as shown below. General Telephone is working hard to continually provide you with the best of service.

The Texas Public Utilities Commission (PUC) has established certain standards in public hearings, and our service results are listed against those standards.

	Texas PUC Standards	Petersburg January 1981	Most Current Figure
% customer calls answered promptly business office/ repair service	90	99.8	99.8
% service order commitments met as promised	90	100.0	100
* % local calls completed on 1st try	98	100.0	99.0
* % direct dialed long distance calls completed on 1st try	95	99.3	97.0

Notice

NOTICE OF CITY ELECTION
Notice is hereby given that the City of Matador will hold an election on April 3rd, 1982 for the purpose of electing a Mayor and two Councilmen. Election will be held in the Motley County Courthouse between the hours of 7:00 a.m. and 7:00 p.m.
Published in the Matador Tribune, 3-11-82

NOTICE TO PROPERTY OWNERS OF MOTLEY COUNTY

The new Property Tax Laws which became effective in Texas on January 1, 1982 make it very important that every property owner in the county take certain actions before May 1, 1982. Some of these actions are as follows:

1. If you qualify for a Residence Homestead Exemption, you must make application for it at the County Tax Office. Last year's application, if you made one, will suffice unless you have moved since then. Also, if you have become 65 years of age since last year, you must reapply to get an additional Homestead Exemption.
 2. Practically all owners of acreage in the county are eligible for productivity valuation on agricultural lands. Failure to properly apply for it will result in more than a doubling of taxes in most cases. A new application is not necessary of an accurate application was made last year and there has been no changes in ownership, acreage, or land use.
 3. The law requires that all vehicles used for the production of income must be rendered at the tax office. Also all inventories, fixtures, and equipment of businesses and farm and ranch operations must be rendered. Failure to render can result in it being valued by others less knowledgeable of its true value, and can result in the loss of some rights of protest of assessed valuations.
 4. Implements of farming and ranching are now exempt from taxation if owned by an individual; however, this exemption must be applied for each year at the County Tax Office.
 5. All the forms to apply for exemptions and to make renditions are available at the Tax Office as well as a new edition of the pamphlet "Taxpayers' Rights, Remedies, Responsibilities".
- If you have questions, please call or come in to the County Tax Office.
