Motley County Is Part Of Palo Duro Oil Find

Figures released recently show the Mayfield discovery well in Briscoe County is producing 136 barrels of oil a day.

As part of the Palo Duro Basin, Motley County may be sitting, almost entirely, on top of an oil field with boom possibilities reminiscent of the 1920's.

The basin covers a vast area of some 30

counties. The Marathon Discovery is directly north of Floyd County close to the Mackenzie Lake. A well is being drilled just inside the northern boundary of Floyd County. Another well is being drilled about 300 yards from the first Marathon well in Briscoe County.

The first Briscoe County well, the Mayfield, also pro-

duced 73 barrels of water on pump in 24 hours from perforations between 7880 and 7906 feet. It was drilled to 9500 feet. The second well, the No. 1 Pascal Garrison, is being evaluated at total depth. Reportedly, it has been drilled stem tested to 8,400 feet.

The same rig used on the Mayfield and the

Garrison has been moved to drill the No. 1 Cogdell. It is at the permitted 9000 feet and drillers are said to be submitting surface casing. Any results of the project should be known by mid-March. The immediate results of the discovery is an intensified interest in leasing. We have a confirmed report of \$100 an acre lease in the immediate vicinity of the Mayfield. Rumors have placed the figure as high as \$135 an acre.

Reports of leasing along the eastern part of Floyd County and into Hale County have been a confirmed \$10 an acre.

The leasing fury, however, is in southern Floyd County where many five-year leases are expiring and land owners are concerned about not only getting top price per acre, but also the concessions available.

The Amarillo Globe News reports that spurred by the Marathon results, a small

tract near the discovery well was reported leased for over \$100 per acre, with a \$650 per acre bonus, and one-quarter royalties instead of the usual one-eighth.

Leases in west Hall County are going for \$35 an acre the Globe reported.

With more than a million dollars in oil leases in the Palo Duro Basin already this year, operators are understandably nervous about such costs, but thus far the situation is limited to the immediate vicinity of the Marathon well.

Another report stated that the "bonuses have jumped from the \$25 to \$30 per acre range to as high as \$135," in the Marathon area.

The surest thing that can be expected from oil interest is that the reports will be conflicting and that no one is sure how much a lease will bring until it's written on a check or how good a well is until it's pumping.

FREE CHEESE -- Lena Cook, president of the Matador Senior Citizens, (standing) and Mrs. Ruth Baker, vice-president, were appointed to hand out the free government surplus cheese this week at the VFW in Matador. Also shown are Herman L. Ellithorp (left) and Edward Knox Jameson.

Residents Receive Surplus Cheese

Motley County residents are on the receiving end of something good from the government this week as families are given five pounds of cheese free, as part of the nations surplus cheese give away.

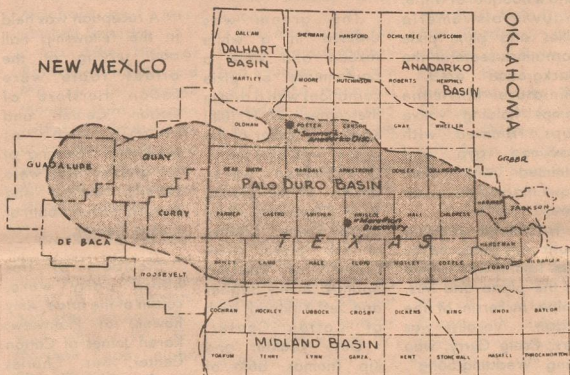

The pasteurized processed American cheese, donated by the U.S. Department of

Agriculture for food help programs, is being passed out by senior citizens at the Senior Citizens Hall in Roaring Springs, the VFW in Matador and the Community Center in Flomot.

The cheese was requested by County Judge Billy Whitaker several weeks ago. About 4,000 pounds

were received to be given away in the county. It cannot be sold or exchanged, but is available to residents, one box per family, who show their social security card and sign the register.

The cheese may be picked up from 9 a.m. to 5 p.m. daily, according to Whitaker.

PALO DURO BASIN is shaded on map drawn by John H. Nicholson, Amarillo consulting geologist. Mayfield No. 1 in Briscoe County is considered the discovery well for the strike. The SunMark-Anadarko will in Potter County is producing both oil and gas.

With two minutes to go in the game Smyer led 50-60, but in the remaining seconds of

Local PTA Disbands To Organize PTO

Motley County PTA members met February 22 at the school cafeteria and voted to disband the PTA.

After the vote carried, the motion was made to form a PTO which is a local Parent Teacher Organization. It was decided that more interest in this organization might be shown due to the fact that all of the dues collected from members could be kept for use within the school.

New officers for 1982-1983 were elected. Those serving will be President, Lindy Stafford; Vice-President, Vicky Pierce; Secretary, Chelsea Read; and

Treasurer, Myrna Stephens.

The plans for the new playground are being drawn at Texas Tech, and the committee hopes to have these plans to present at the

March PTO meeting.

The date for the March meeting will be announced at a later time. Everyone in the community is invited to attend and join the new organization.

Quality Care is... An untold story.

We think it's time you learned about the untold story of the nursing home professional and nursing home progress.

Today there is a growing army of health care professionals who, though largely unheralded, perform an increasingly important service to our community.

They are the men and women who care for our aged. Doctors and nurses, physical therapists, dieticians, activity coordinators, nurses aides and administrative staff.

Rendering nursing home care is not the most glamorous side of the medical profession. These professionals receive little public recognition for their work in comparison to those who work in hospital centers.

But these dedicated professionals help ease the pain and loneliness of those they serve; and help our nursing home - enrich the social and physical environment our residents need.

Their job is difficult and often unappreciated. That's why we invite you to learn their story. Visit our nursing home and see the job we do for our community.

Has The Life Gone Out Of Your Boat?

This is the question I read on a billboard beside the road as I traveled down the highway. As I dwelled on the thought, I realized that it had more of an impact on me other than being an advertisement for insurance. Or maybe in another sense, it could be another ad for insurance.

The word of God many times refers to our body as a vessel. And just as a ship on the raging sea, our boat is tossed and hit on every side by the dangers and snares of the devil. We're hit on every side, with discouragement, temptation, sickness, financial pressures, and everything Satan can create to cause us to get off the course God has put us on.

In Nehemiah the 8th chapter it says that the **JOY** of the Lord is our strength! Even though satan tries his best to defeat us, we don't need to walk around with our chin touching our toes!

Romans 15:13 says: **Now** (not after relief has come) the God of hope fill you with all **JOY** and **PEACE** in **believing**, that ye may abound in **HOPE**, through the power of the **HOLY GHOST**.

This insurance policy we have through the hope of Jesus Christ is good as long as we keep our policy current and up-to-date.

I've heard the statement many times that the life a Christian lives may be the only Bible some people will ever read. So let me leave you all with this one question: "If you were on trial for your life as a **CHRISTIAN**, would you have enough evidence to convict you?" Fellowship with Christ this Sunday. He loves you!

A Second Glance

Leon Watson

Well, I resign as a weather man. Last week I said I thought the winter weather was over and the day the paper came out, it snowed.

I tried to keep a low profile around town but some of you readers managed to find me and tell me what you thought of my forecasting.

I make one last forecast before I leave it to the pro-weathermen. It will be cloudy to clear during the nights and days and temperatures will be between 10 below to 130 above with wind blowing in various places. There is an 80 per cent chance of rain during the next three months with chances occurring once

in a while throughout the spring. There. Now gripe at me!!!

There are a lot of interesting tales which can be told after a body attends a convention, but few are as hair-raising as Glen Woodruff's.

Mr. Woodruff attended a Ford Dealers Convention recently in Dallas, and while there he was robbed, tied up, and his car stolen.

But he wasn't hurt and we are thankful for that. He was in good spirits this week and was even asked to give a report to the Lions Club on how not to spend the night in Dallas.

NOTICE TO PROPERTY OWNERS OF MOTLEY COUNTY

The new Property Tax Laws which became effective in Texas on January 1, 1982 make it very important that every property owner in the county take certain actions before May 1, 1982. Some of these actions are as follows:

1. If you qualify for a Residence Homestead Exemption, you must make application for it at the County Tax Office. Last year's application, if you made one, will suffice unless you have moved since then. Also, if you have become 65 years of age since last year, you must reapply to get an additional Homestead Exemption.

2. Practically all owners of acreage in the county are eligible for productivity valuation on agricultural lands. Failure to properly apply for it will result in more than a doubling of taxes in most cases. A new application is not necessary of an accurate application was made last year and there has been no changes in ownership, acreage, or land use.

3. The law requires that all vehicles used for the production of income must be rendered at the tax office. Also all inventories, fixtures, and equipment of businesses and farm and ranch operations must be rendered. Failure to render can result in it being valued by others less knowledgeable of its true value, and can result in the loss of some rights of protest of assessed valuations.

4. Implements of farming and ranching are now exempt from taxation if owned by an individual; however, this exemption must be applied for each year at the County Tax Office.

5. All the forms to apply for exemptions and to make renditions are available at the Tax Office as well as a new edition of the pamphlet "Taxpayers' Rights, Remedies, Responsibilities".

If you have questions, please call or come in to the County Tax Office.
