

AFTER 27-7 WIN AT ASPERMONT

Matadors Are In Playoffs

District Champions To Be Decided Friday

The Motley County Matadors captured a berth in the state play offs last week by beating the Aspermont Hornets 27-7, but their roughest test yet will be here Friday against Knox City. The winner of the battle will take home the district trophy.

"The Aspermont game was a hard fought ballgame for three quarters," Coach Danny Williams said. "The fourth quarter we finally took control of the game."

MC took the opening kickoff and returned it to their 32 yard line. Then they began moving slowly. The biggest gains in the drive were a 24 yard gain by Tim Shannon and a 10 yard gain by Bill Luckett. Shawn Bearden carried twice for 14 yards and with 7:27 left in the first quarter Shannon scored from the eight yardline. He kicked the point after and MC led 7-0. MC had moved 68 yards but it took them 12 plays.

The Hornets began the first drive at their 18 yard line. On the eighth play of the drive, with 3rd-and-10 Coke Barton recovered a Hornet fumble on the Hornet 45.

Darrell Moore had a long gainer on the next play, but a personal foul penalty destroyed the drive and MC had to punt three plays later.

The teams held each other for two more possessions each, then Aspermont got a break.

After taking over the ball on their 29, they were helped by a 15 yard face mask penalty then a long bomb pass play good to the Matador 6 yard line. From there they scored and kicked their PAT to tie up the game.

MC had to punt again on their next series, and Aspermont hit two more big gaining passes, one for 17 yards and one for 20. With eight seconds left in the half they tried a field goal and missed. The score at halftime was 7-7.

The tied score at the half was reminiscent of the 12-12 halftime score a year ago in the MC playoff game against Aspermont. In that game the Hornets came back in the second half to blast the Matadors. But the results this time were to be different.

Aspermont was a good ball team and didn't make many mistakes, but the game slowly slipped away from them.

The Matadors own mistakes kept them from scoring in the 3rd quarter. After holding the Hornets they began averaging over five yards a carry with Luckett, Shannon and Moore carrying. With 2nd-and-4, Shawn Bearden ran around left end for about 12 yards, pitched back to Shannon who ran for 13 more down to the 13 yard line. But from there the drive stalled and the Hornets took over on the 9-yard line.

MC held the Hornets, forcing them to punt and the 3rd quarter ended without a score.

MC took over on the Aspermont 38 after a bad punt. They moved to the 5-yard line in six plays and S. Bearden went up the middle for a touchdown with 9:59 left in the game. The Matadors led 14-7.

Again MC held the Hornets in four downs, then took over on the Aspermont 39. With 5:00 left in the game, after an eight play drive, S. Bearden dove in from the one to make the score 20-7. The PAT try failed.

The Hornets sputtered again and had to punt on fourth down. Shannon scored on a 20 yard run with 1:22 left in the game. The kick was good and MC won 27-7.

Shannon carried 28 times for 196 yards, Moore carried nine times for 61 yards and Luckett carried eight times for 31 yards. S. Bearden carried 12 times for 60 yards. The team total was 348 total yards.

The Matadors did not gain a single yard in passing, as seven of seven fell incomplete. MC had five penetrations and 20 first downs.

"The Knox City game should be a real close ball game," Williams said. All fans are encouraged to turn out and cheer the Matadors to a District Championship here Friday night.

Lions Hear Tips On Fire Prevention

By Lila Meador

Fire Chief Rodney Williams, head of the Matador Volunteer Fire Department spoke on fire prevention and fire protection, at the Nov. 2 meeting of Matador Lions Club, at the United Methodist Church.

Introduced by Lion Gerald Pipkin, Fire Chief Williams stressed means of escape during a fire and said that 80% of victims died of smoke inhalation. He showed slides illustrating fire hazards and declared that every home should be equipped with a smoke detector.

The presentation warned against trying to save valuables while trying to escape a fire: "Stay near the floor and concentrate on saving your life...plan an escape route -- but forget about your valuables."

Matador has a low insurance rate, compared to other communities, due principally to the efficiency of the Volunteer Fire Department, and, according to Williams, the department is making an effort to get ten of its firemen certified. "If we can get ten certified firemen in our department, Matador would be eligible for a reduction in fire insurance rates," he said.

Boss Lion Donnie Jackson presided at the

meeting and led the club in applause for Walter Jones, who prepared and served the enjoyable meal. Lion Alan Bingham, secretary, reported on the Lions participation at the schools' Halloween carnival, and Lion Bob

Stanley introduced three guests: Joe Baden, Terry Clements, Social Security Representative from Plainview, and Rodney Williams. He also announced that 30 members has registered.

School Bells To Ring For Kindergarten

Registration for Kindergarten for the school year 1982-83 will begin at 9:30 a.m., Wednesday, November 17, 1982 in the Motley County School Cafeteria.

Parents are asked to bring birth certificates and immunization records. Mrs. Donna Hoyle will be the Kindergarten teacher for this school year.

A Second Glance

By Leon Watson

We received a lot of good comments and support concerning our column last week about pornography. It is a shame so many people are silent, yet against pornography.

We received one letter which said in part, "I wish the people around here would realize it's 1982 and not 1922...sex crimes do happen...pornography is part of life...so ease up."

This person took a brave stand for pornography, but was undoubtedly ashamed

to sign his name to the letter. If there is nothing wrong with it why is it sold from under the counter. I would like to know who thinks it's okay to sell pornography.

If a person can read a magazine filled with nudity and trashy stories, and not feel guilty, just a little guilty, then he had better take a long look at his life to see where he is heading.

Charter Bus Possibility For Future Ballgames

The Booster Club is taking a survey to determine how many fans would be interested in riding a chartered bus to the playoff games. In order to charter a bus for the games the club needs to know the size

to get. If you are interested in riding the bus to these games, please contact the school at 347-2676. The price per person to ride the bus is not known at this time, but will be within reason.

Local Senior Class To Present Play

Come One Come All!!! The Senior Class announces the production of "Man Overboard?" This comedy-mystery will have you laughing one minute and in suspense the next. The play will be presented Tuesday, November 16, beginning at 7:30 p.m. in the school gymnasium.

It is a delightful whodunit. Characters are Miss Hannah Blair, Deanna Durham; Katsy Plew, Kayla Johnson, Flossie Nelson, Nancy Cooper; Dotty Allen, Renee London; Melanie LeRoy, Darla Dempsey; Louise Carson, Dixie Nimmo; Arlena Dusen-

berry, Delynn Timmons; Miss Maria Cruikshank, Malti Patel; Captain O'shea, Roy Thompson. Also Mr. Henry Van Cleve, Craig Turner; Herbert Hooley, Shawn Bearden; Dick Moore, Tim Shannon; Bill Trent, Bill Luckett; Joe Nash, Terry Simpson; George Lawrence, Brent Campbell; Honey Boy Brown, John Russell; Albert Maxey, Lotus Winn; Tim, Clicky Sims and Butch, Randy Ho-Gland.

The Senior Class would like everyone to come and enjoy with them, "Man Overboard".

SOMEBODY STOP HIM -- Tim Shannon is finally pulled down after bursting through several would be tacklers at Aspermont Friday night. The Hornet defense was keying on Shannon and held him to only 196 yards rushing in 28 carries. MC won the important district clash 27-7, and qualified for the state playoffs

What About Rock Music?

By Joe Taylor

(Editor's Note: Joe Taylor is formerly of Crosbyton and now lives in North Hollywood, Calif.)

Is it just the music of this generation; or is it more?

As a musician and someone who has been involved in the record industry for over 15 years let me assure you, IT IS MORE.

In the past few years, Christian groups have begun to really speak to this question and a good deal of research has been done which has made it clear that there is definitely SOMETHING wrong with the music of this generation.

One of the problems to date is that the material has not specifically nailed down just exactly WHAT IS rock music. The term really covers too wide a variety of styles, beats, lyric messages etc. to be definitive. However there is good evidence that certain BEATS are the same to be found in satanic religions new and old. But no one has published a list of songs to show exactly what they're talking about.

There have been studies of the effect that disco beats have on the heart function. Research shows that acid rock, or heavy metal rock (also jazz), kills plants in a controlled environment, whereas hymn music caused plants to flourish in the same environment. Again, no one has said which groups and named the records played.

It is easily validated that rock groups tend to use satanic symbols on their album covers, but again, no names.

There is BACKWARD

MASKING, that some groups use to include satanic chants and blasphemy on the records which you actually hear backward and at first is not detectable. It's similar to subliminal advertising in movies which was outlawed years ago. Legislation is now being considered to outlaw backward masking. There is much more to condemn not only rock music but most of popular music, some easy listening and yes - Mom and Dads country music. A real compendium of groups and facts needs to be made which, the Lord willing, I will try to do now that doors are opening again to me in the music industry.

For about 14 years I've had direct contact with the record industry and have come in contact with many of the people and groups who produce popular music through my own music career and also due to the fact that I have painted billboards for every major record label of hundreds of these groups, most of which I would not do today knowing what I do now.

So in lieu of a real list of these groups, here are a few that I personally have first hand or reliable knowledge about:

THE ROLLING STONES: An English group. One of the most popular of all groups since about 1964; they have been involved in stianism, homosexuality and drugs since at least 1968.

My band in art school in 1965 used to do a whole album of their songs back when they did a lot of just old American Blues songs. But with their movie and record titled "Sympathy

for the Devil" of about 1968, I took my Rolling Stones records, broke them in half and trashed them. Since then I have not really purposely listened to their records except to figure out their words and new hits on the radio.

Style-wise I have to admit, I like a lot of their records, but nevertheless I refuse to listen to them. I've talked to their recording engineer, as well as one of the group members, Bill Wyman the bass player, and a few people who know them.

If your children have any of their records, I guarantee they are having droned into their minds that prostitution is ok, drugs and alcohol are ok, and that sexual license and satanism is ok.

On one album cover they dress as witches and wizards, (the Bible condemns both). Another, "Goats' Head Soup" has severed goats' head floating in a boiling caldron for a cover; not to mention another where they are dressed as drag-queens (homosexuals) and another titled "Black and Blue Over You" with a bound and beaten simnude girl for a cover.

LED ZEPPLIN: An English group; has been involved in witchcraft, drugs, sodomy and sexual license, and rebellion to all moral values since at least 1969. They have been and are now one of the main groups with teens and preteens, and yet are old enough to be their fathers.

I have always despised the group and their music. One song in particular has always upset me so much that I can not stand to

listen to it. And recently I found out exactly why. Recorded BACKWARDS on the record are phrases ridiculing Jesus Christ and praising Satan? The song is a simple, slow folk-song in its style titled "Stairway to Heaven". I absolutely guarantee you it is not Heaven they are referring to but rather the depths of hell! If your children have any of their records, they are listening to seduction, sexual abomination and the praises of satan!

THE DOORS: American; they came out about 1967 and I liked a few of their first hits, but by a year later could not stand to hear the lead singer-song writer, Jim Morrison's sick drug thickened tongue slowly and endlessly yelling some phrase at the end of the songs.

Some of the words to his songs are so disturbing and filthy that it would not do to repeat to anyone. One of their album covers used a crucified woman on a telephone pole! "L.A. Woman". He was arrested for "gross" conduct on stage at one concert and died a few years later of a drug over dose, as have many of these satan worshipers.

DEEP PURPLE: An English group; I was invited to one of their rehearsal sessions about 1975. I didn't know the group or their music, but what I saw were a bunch of hippie looking guys in their late 20's and 30's in expensive clothes with overhung bellies and a lot of well-dressed women even older standing around adoring a bunch of ego maniacs. Their music was so loud and oppressive that I felt a smothering pressure on my chest and short of becoming ill, I left. It is pretty well accepted that in order to be able to listen to really heavy rock music you have to give in to it mentally and not resist it, or else be stoned and of course those elements went hand in hand with that heavy music. Several ex-dopers have said as much.

I experienced the same thing at a rehearsal session with ERIC BURDEN (from England) and his group Tovarish. Eric Burden and The Animals came out with the Beatles did. Their big hit was a rock version of the folk song "House of the Rising Sun". Burden was suffering from nasal damage and depression from cocaine use by 1972, when I knew him and like a lot of these guys, burned out long before his time.

ERIC CLAPTON: (English) has been said to be the world's "greatest" rock guitarist. I never agreed with that after hearing a Christian guitarist years ago with one finger missing even who could make his electric guitar sound like cellos and cornets in harmony! He was largely ignored due to his Christian testimony, I felt, but I remember that Clapton admitted this same guy was in fact better than himself. So much for the man's honesty. Clapton was reputed to have become a believer in Christ himself, but like many other entertainment greats it was very debatable. And when he came out with his album about 1975, "E.C. Was Here" which showed the back of a nude girl with "E.C." scrawled in lipstick on her back, I refused to

paint a billboard of it.

THE BEATLES: An English group; their success is a phenomena that may never be equaled. I was one of their biggest fans until about 1968 when they began to get into eastern religions and drugs and while at first I thought "Sergeant Peppers Lonely Hearts Club Band", 1968, was the most creative record I'd ever heard, it soon began to make me feel depressed to hear it, and still does today as it recreates a world of sexual degradation and drug deaths that I saw from New York's hippy areas to L.A.'s Sunset Strip from 1969 to about 1974. I have always felt that the Beatles were very talented musicians and some of their tunes are classic in structure and strength. However, let me add that I know for a fact they STOLE the tune and most of the lyrics to "Let It Be". I've seen it in a very old hymn-book and they added the catholic flavor to the words. Also I met a musician who claimed to have ghost-written for them and this has come out from other musicians such as Peter of Peter and Gorden, 1968.

At any rate, I do not listen to their music today, and since about 1969 when John Lennon (recently murdered) pronounced themselves to be "more popular than Jesus Christ", I lost interest in them.

Some of their records include satanic chants from the Tibetan Book of the Dead, one album is titled, "Magical Mystery Tour". Black magic and Mystery Babylon I assure you is meant. And George Harrison's single "My Sweet Lord" was not about "The Lord of Lords" Jesus, but rather Hare Krishna, to whom he has been devoted for years.

If that's not enough to break your love for them, read their biography, where they state that they were "Anti-American" and "Antichrists"! George Harrison has had a statue of the Indian goddess Kali that he has worshiped. She is the most satanic, vile and bloody of all the demonic Indian gods.

I have run into the Beatles a few times in Hollywood, but I never took the time to talk to them. I even baby-sat George Harrison's nephew a few times, little Willie Johns. His mother (whose sister was married to Harrison) gave Sillie to a friend of mine one evening, and she brought the baby to where I was working and left him. (People tend to give me their children) So, I took him home with me, trying to distract him from asking "where's me mummy?" I convinced the poor little guy, (a four year old with a thick English accent) that his Mummy would be there soon. About 3 a.m. she called from a party and told me to keep Willie and bring him home the next day! This kind of motherly neglect is common, I assure you, of music industry and Hollywood people.

There is much more that could be said on the Beatles, more than enough to cause you to get rid of their influence through their music.

FLEETWOOD MAC: (San Francisco) One of their first hits was about a Welsh witch. Need I say more? Stevie Nicks the female lead singer whose

pretty voice drones out their chant-like melodies, claims to be a witch. They are into drugs and satanism, and even though their music is acutely pretty, I can not stand to listen to even a few bars of it. I strongly recommend you keep it away from your kids.

ELTON JOHN: (English) He used to rehearse in a studio near my billboard studio at the Old Columbia movie lot in Hollywood. And I ran into him there and also when Ringo Star (the Beatles drummer) would drive him to rehearse past our huge doors. Rumor was that he was homosexual, but I make it a policy to not just believe rumors. And the times that I talked to Elton he showed no evidence of the rumor, was friendly and I was surprised when he said he knew who I was and had seen my work.

I became friends with his stage crew and even helped arrange for a troupe of Scottish dancers to do his large L.A. concert. I intended to take advantage of the opportunity to get into his crowd and thought I might get to design one of his covers, which would have been quite a credit at the time, however, I soon after read his announcement that he was in fact homosexual and I dropped the association.

I would not recommend any of his records after his first hit, "How Beautiful Life Is When You're In The World", if even that.

OZZIE: (An ex-member of Black Sabbath) bites the heads off of live chickens in concert. That makes him a real "geek" according to Webster's dictionary. This guy and his music is absolutely to be avoided.

THE EAGLES: (An American Group) Their religion is occult, they read Carlos Castaneda's occult books, went to the desert and under the spell of pyote (a drug from a plant) wrote some or all of their hits. Their songs style-wise would be classified as rock, country-rock and country. Their message in "One of These Nights", is that they're looking for a daughter of the devil in disguise as an angle of light. "Hotel California" depicts a satanic seance in a hotel room. Their album covers contain occult symbols of the American Indian. Their tunes are pretty, making them all the more diabolical.

After hearing "One of These Nights", a few times, I figured out the satanic message of it, but it was weeks before I could get the tune out of my head. Your kids may be susceptible to the same thing.

JOURNEY: (An American Group) Their songs seem harmless but look at their album cover. The pentagram, the Egyptian scarab, the pyramid, all satanic symbols. Their music can not help but give those symbols a positive association to your child.

BLACK SABBATH: (An English Group) One of their first covers shows a group of demons gathered around someone in bed. Need I say more?

If your kid has any Black Sabbath records you may have problems.

BLUE OYSTER CULT: (From New York) The name says enough.

NAZERETH: (From Scotland) One of the cover of the L.P. titled "No Mean

City" is a beautifully executed painting of a most hideous demon. I called up Atlantic Records and told them why I refused to paint a billboard of the cover and would you believe they agreed with me? But said they had no control over it as it came from their company in England.

I finally lost a lot of business as more and more I refused to paint covers for the same reasons, and by 1979 quit all together.

BEACH BOYS: (American) Even the good old Beach Boys who originally put out fun, cute songs about surfing and cars, in recent years have used their fame and following to promote T.M., (transcendental meditation) which is being taught as a course in some colleges now. The part they don't tell you at first is that you have to chant-scream your "new name" till you become possessed with a spirit.

And lastly for those who prefer easy listening music and country and western.

JOHN DENVER: (American) Aside from his songs that mention passing the pipe around, (filled with hasehesh) John said a few years ago that he expects to some day "become a god" just like his mentor Werner Erhard.

WILLIE NELSON:

(American) Who can help but like good ole Willie-n-Waylon? I really like some of Willie's recordings. But does it bother you that he can sing church songs in concert and in interviews admit that he believes in reincarnation?

PUNK AND NEW WAVE: (It began in England)

SEX PISTOLS: (An English Group) They practiced what they preached; gross sex, violence and murder. Other groups by the scores are as bad or worse. Some sing about things that are so shockingly sick and demonic, it defies the imagination.

These are just a handful of what this generation listens to. There is something definitely wrong with todays music and I haven't even mentioned Hard-Rock by so-called Christian groups. I wish Christians would forget about trying to "Impress" the world with how "we're just as good as them" and create their own style and let the world have its garbage.

Your kids are not just listening to "their" music, they're listening to religious proselytizing like you've never imagined. Parents, its your duty to monitor what your child hears, especially when it's religious sermons disguised as "music".

Some used to say that goldenrod indicated buried treasure.

The Editor**

Dear Mr. Watson:
South Plains Health Provider is presently developing its continuation application for federal funds to maintain the operation of our community clinics.

A community meeting for your clinic will be held Thursday, November 11, (today) 7:00 p.m., in your clinic. Funding and future services will be discussed.

Since community support and input is vital to a successful application, we invite you or your representative to be present at this meeting.

Thank you for your anticipated assistance.
Sincerely,
James M. Clayton
Project Director

receiving photocopies (if possible) of any coverage of an event involving my husband's grandfather, John R. Best.

On or about July 10, 1908, John R. Best got into an argument with his brother-in-law, Charles H. Hand, and ended up shooting him. Charles H. Hand died, and on July 14, 1908 John R. Best was indicted by the Grand Jury for murder.

I understand for some reason the case was later re-filed, hearings were again held about the 22nd or 23rd of November, 1908, and after testimony of witnesses, the Grand Jury again indicted Best.

It was almost five years later before he was convicted at a trial heard in District Court of Baylor Co., on July 21, 1913.

I would appreciate learning whether coverage on the above has been preserved, whether it would be possible to obtain photocopies, and, if so, how I might obtain same and the approximate cost.

Thank you for your assistance and information.

Yours truly,

Trappers Fund Discussed By Local Ranchers
A committee of local ranchers met November 4th to discuss the local trappers fund. Last year the state of Texas required a \$200 per month raise to support the trapper and the State Trappers Fund. This money is used for salary, mileage and helicopter support. Again this year all ranch land owners in Motley County are asked to contribute 1¢ per acre to the trappers fund. Letters have been

mailed to all non-resident land owners informing them of this program. If enough money is not raised we will not only lose out trapper, but also all helicopter support. If you will help in this effort please make checks payable to: Motley County Trappers Fund and send to Vann Francis, Chairman, Box 478, Matador, TX. 79244. If you desire you may deposit your check at the First State Bank of Matador.

TV and Your Child Tips From TSTA

The Texas State Teachers Association-partners in your child's education—cautions parents to be alert to children's television viewing habits.

Here is the final part of a four part series on "Television and Your Child."

TV—Keeping It Under Control

Children who watch TV late at night often don't do their homework, are sleepy in school the next day and have a shorter attention span.

Reading skills do not develop when the child watches TV excessively instead of reading.

Children who don't play with friends haven't learned the social skills necessary for classroom interaction.

Two or more TV sets split families. Family life is sacrificed.

Television does not have to be watched all the time. Here are a few things that can be done instead. There are many alternatives.

Parents should read to children, or encourage

them to read for the same amount of time they watch TV.

Children must be encouraged to finish homework before watching TV. Parents may plan enjoyable mental and physical activities both indoors and outdoors.

Television should never be used as a babysitter. Instead, help your children learn to entertain themselves.

Avoid excessive or violent TV viewing in your home, and remember... there's another choice... turn the set off!

Television isn't all good or all bad. It can help or hurt your child—depending on how you choose to use it.

The goals of TSTA are to encourage better, more selective TV use by children and youth in Texas and to encourage broadcasters to provide more quality programs for the young audiences.

TSTA encourages parents to be involved, interested and concerned because the more teachers and parents work together, the more we'll help our children.

Gift Ideas At Post Office

Postmaster Nell Clegg of Matador recently announced release of the U.S. Postal Service's 1982 Commemorative Mint Set and the latest edition of THE POSTAL SERVICE GUIDE TO U.S. STAMPS, a Postal Service book on stamp collecting for the new collector as well as the experienced philatelist.

The 1982 Commemorative Mint Set contains 20 issues - 17 single stamps and three blocks of four stamps - a total of 29 stamps and individual plastic mounts which help protect each issue. The set includes a random single stamp from the 50 State Birds and Flowers issue.

The 1982 Commemorative Mint Set is the most recent in a series of annual sets released by the Postal Service each year prior to the holiday season. The cover of the \$6.50 Mint Set features a montage of artwork related to the commemorative stamps issued during 1982.

The new full-color ninth edition of THE POSTAL GUIDE TO U.S. STAMPS is on sale and is priced at \$3.50.

the same as last year's book, which was titled STAMPS & STORIES. The 280-page book provides interesting philatelic information for the novice and experienced collector. It includes latest market values, information on price trends of selected stamp issues, catalogue numbers and current prices for souvenir pages and commemorative panels, an index listing of every U.S. Commemorative stamp ever issued and a listing of the locations of Postal Service Philatelic Centers. Coded addresses for both the intended recipient and the sender. Since mail sorting depends on the ZIP Code as well as the name of the particular city and state, the use of the correct ZIP Code will aid us in processing the mail.

"Last year, our customers helped us tremendously. They mailed early in the season and early in the day. We hope they will choose to cooperate with us again this year, so we both will have an enjoyable holiday mailing season."

Foot Facts

By
Dr. Robert Brodtkin

Care of New Feet

Why are baby's feet so important? They must last a lifetime. And during that lifetime they will have to carry him the equivalent of two and a half times around the world. Can you imagine what a long trip that would be with feet that hurt and ache? Podiatrists (foot specialists) are concerned with this problem because the first year of life is one of the most important periods in your child's development. There are two reasons why this is so.

First, the feet are soft and pliable at this age and can usually be corrected easily if a problem exists. There are some foot conditions, the most common being metatarsus adductus (intoeing), which require corrective plaster casting. The treatment lasts about four weeks if begun at four months of age; in a one-year old the same

treatment may require 8-10 weeks. Second, the feet grow very rapidly during the first year. In fact, at age one, your baby's feet will be almost half the size they will be at age twenty-one.

Hints For Baby's Foot Care

1. Avoid the use of shoes and socks except for purposes of warmth. Shoes are only needed when he starts to stand and walk.

2. Do not bind the bedclothing over the baby's feet. This can restrict movement and retard normal development.

3. Have your baby's feet checked by your family podiatrist before he begins to walk. There are some foot problems which the child will "grow out of". However, many foot and lower extremity conditions require treatment, and it is usually better to begin such treatments early.

Carolyn Limmer Named Facilitator

Mrs. Carolyn Pohl Limmer, daughter of Mr. and Mrs. Frank Pohl of Matador, is one of the 10 Vocational Home Economics Education teachers in Texas who is serving as an Area Facilitator for a Consumer and Home-making Education research project. The project is in cooperation with the Department of Vocational Home Economics, Texas Education Agency.

This study will focus on the effectiveness of Consumer and Home-making Education as perceived by former students. The findings will be used to improve Consumer and Home-making Education in Texas by making programs more relevant to students.

Findings from the research will be utilized in planning inservice conferences for teachers, updating of teacher educators at universities and revision of Consumer and Home-making Education curriculum. The area Facilitators met in Austin in October and were briefed on the project by project directors, Dr. Camille G. Bell, Chairperson of Home Economics Education, and Dr. Linda R. Glosson, Director, Home Economics Instructional Materials Center, Texas Tech University. Jean Barton, Director of Vocational Home Economics, and Judith Hetherly, Occupational Education Specialist II, participated in the meeting also.

Mrs. Limmer teaches in the Homemaking Department of Snyder High School.

Lubbock Rites Held For Gerald Leslie

Services for Gerald Leslie, of 5817 Ave. H, Lubbock were held Monday, Nov. 1, 1982 at Southcrest Baptist Church with the pastor officiating, assisted by Rev. Norris Fulfer of Martinez, California, brother of Mrs. Leslie, the former Chloye Fulfer of Matador.

Burial was in Lubbock City Cemetery under direction of Rix Funeral Home, Lubbock.

Mr. Leslie died on Thursday, Oct. 28 of injuries he suffered in a single-vehicle accident. He was pronounced dead at Lubbock General Hospital at 8:55 p.m.

His wife, a passenger in the car, was treated at Lubbock General Hospital for bruises and an injury to her right arm. She was released on Sunday, in a satisfactory condition.

According to police reports, the Leslie car, traveling south on Avenue H, swerved to miss an east-bound vehicle as it entered an

intersection and slammed into a utility pole on the southeast corner of the intersection.

A lifelong resident of Lubbock, Mr. Leslie was a member of Southcrest Baptist Church. He was a mechanic. The couple was married in Clovis, N.M. and were parents of two daughters.

Survivors include his wife; daughters, Mrs. Dusty Billingsley (Gerri) of Amarillo and Karla Leslie of Lafayette, La.; his mother, Mrs. Audrey Leslie of Lubbock; four sisters, Mmes. Carol Young, Kay Kemp and Annetta Martin, all of Lubbock and Sharon Conway of Grove City, Pa.; and one grandchild.

Attending the funeral from Matador were relatives, Mrs. Roy Smith and Mrs. Ava Clyde Crump. Rev. Norris Fulfer was accompanied by his wife, and also Mrs. Leslie's other brother, Chaplain G. W. Fulfer and his wife, of San Diego, Calif.

Social Security In Motley County

By Terry J. Clements

It was recently publicized that Social Security is now "dipping into the till." What does this mean?

Recently I discussed the financing of Social Security, the problems, and some of the causes. This week I will describe some of the ideas and suggestions that have been made for solving Social Security's financial problems.

First, let's discuss interfund borrowing that was recently referred to as "dipping into the till." Remember, Social Security has three trust funds; Retirement, Disability and Health Insurance. The Retirement and Disability trust funds are being depleted while the Health Insurance trust fund is increasing.

For example, the combined trust funds increased by over three billion dollars in 1981. Interfund borrowing, as implied, permits borrowing between trust funds to pay monthly benefits. Interfund borrowing is permitted under current legislation but cannot extend beyond June of 1983.

Some individuals propose that this date be extended to permit additional time for considering other ways to solve the short and long range funding problems.

One of the more obvious solutions is to simply raise payroll taxes. Actually, instead of raising taxes, this would probably involve "moving up" tax increases already scheduled for 1985 and 1990.

Others suggest using the general revenues in some manner. Some recommend that the trust fund borrow from general revenues as necessary during periods of high employment to prevent deficits. Another suggestion is that general revenues be used to help pay for the hospital portion of Medicare. The hospital part of Medicare is currently paid from payroll taxes. Some who support this recommendation say that Medicare is not a cash benefit program and also that the hospital benefits are not related on the amount of past earnings as are retirement or disability benefits. The medical portion of Medicare is currently financed by general revenues and

monthly premiums.

Universal coverage is another idea that has been discussed. Action based on this proposal might be to cover some or all jobs not currently under Social Security. Examples of excluded workers are Federal employees, certain state and local employees, and some employees of non-profit organizations.

Changing the method of figuring cost of living increases has been a proposal. In the last column, we discussed the problem caused by the cost of living rising faster than wages. Some people recommend a provision for basing the cost of living on wages during such a period. There is a variety of proposals for cost of living increase modification.

Presently, a person who makes average wages can expect monthly benefits to replace about 42% of earnings lost to retirement. This rate for persons with earnings paid on the maximum base is about 28% while for persons paid on the Federal minimum wage can expect a ratio of around 54%. Some proposals support dropping these replacement rates by three to five percent.

The progressive trend of longer life spans is a basis for raising the retirement age. The common proposal is to gradually change the retirement age from 65 to age 68.

The above list of suggested changes to Social Security law are from a variety of difference sources and represent only some of the possibilities. It is hoped that this discussion will provide an idea of some considerations of how Social Security could be changed to solve the funding problems. The National Commission on Social Security, a bipartisan task force, is currently studying the Social Security financing problems. They are expected to make recommendations to Congress by 12/31/82 on ways to solve these problems. The proposals may or may not include those that have been addressed in this article.

Next we'll conclude this three-part series by discussing some general concerns about Social Security.

Clower Testifies To Get UPS In State

Ira S. Clower, general manager of the Afton Co-Op Gin in Afton, testified last week in Dallas before the Railroad Commission of Texas as to his business's need for having United Parcel Service available for shipments within the state.

UPS is applying to the Commission for authority to pick up and deliver packages between any point in Texas, otherwise known as "intrastate" operating rights. Currently, the nation's largest package delivery firm can only move packages on an interstate basis, or within the commercial free zones of Dallas-Fort Worth, Houston and San Antonio.

Texas is one of just two states that restrict UPS intrastate.

Clower testified that the lack of UPS service within the state has seriously hampered the operation of his business. Clower cited no pick up or delivery service, slow delivery time and prohibitive rates on small shipments as the major problems being encountered with other delivery services Afton Co-Op Gin currently uses. And, parcel post also does not fill their needs, Clower added.

UPS has been seeking intrastate authority from the Commission since 1966. These hearings are expected to continue well into 1983.

Thank You

I am very grateful for the tremendous expression of support in the recent election. We face difficult times, both as individuals and as a nation, but I believe our greatest days are yet to come. I will continue to do my very best to merit your continued respect and confidence.

Q. Some refiners advertise that using their oil will improve gasoline mileage. Why?

A. A motor oil's ability to improve gasoline mileage is directly related to its ability to reduce friction. While motor oil itself is a lubricant and therefore reduces friction between rubbing surfaces, Gulf Oil experts point out that this ability is improved through the addition of friction modifiers or additives that further enhance the oil's ability to reduce friction. Oiler oil, so to speak.

Beat a little water into eggs when making an omelet - instead of milk or cream, for a more tender result.
