## Foreign Culture Program Given

By Lila Meador

Mrs. Carl King presented the program for El Progreso Club, Thursday, February 10 in regular meeting held at the Summit Savings Association's community room. Mrs. W. D. Lipscomb was hostess for the meeting, called to order by the president, Mrs. John Hamilton.

Business included reading of the secretary's report by Mrs. Joe Campbell. A motion was made and passed that the club send a contribution to the Santa Rosa District in support of Special Olympics program for handicapped persons.

Mrs. Hamilton announced plans for the Santa Rosa District spring convention, March 18-19 in Seymour and urged members to attend. The program includes a banquet speaker on Friday night, Lt. Col. Joe Dotson (Ret.), Director of Special Olympics Program for Fort Worth.

Mrs. Hamilton also distributed pamphlets from the Arthritis Foundation, West Texas Chapter, located in Lubbock offering rehabilitation services for those suffering from this disease, and a sheet urging support of legislation to repeal withholding on interest and dividends, to be sent to Congressman Jack Hightower in Washington.

Mrs. Frank Pohl, program leader, introduced Mrs. King for her talk on the subject, "Introduction To Foreign Culture," given largely from personal experiences.

Mrs. King, a self-styled "Army brat," has lived in several foreign countries and enlightened her audience with authentic information as she spoke on Arabic, Jewish, Egyptian, Chinese, Japanese, French, German and Turkish nationalities, contrasting their traditions and customs with those of this country. During her talk she displayed a hand-

made Arabic rug and two plaques made of inlaid wood which were admired, and at the conclusion, the club expressed its appreciation with a standing ovation.

Born in Paris, France, Mrs. King enjoyed a colorful life as the daughter of a U. S. Army officer as they moved to Army posts in various countries, and later, as the wife of an Air Force Sergeant. Her mother is French and she spoke with more authority on that culture.

The former Sandra Lucas and Carl King of Matador were married during World War II when he was stationed in California. Later, while he was serving in the Korean conflict, Mrs. King and their two small boys, Tom and Bill, made their home in Matador for two and a half years. After the family reunited in California, Sandra joined the Women's Army Auxiliary Corps (WAAC) and retired as a sergeant. They returned to Matador 12 years ago to make this their home.

Quotation for the day was an Arabic proverb: "Custom is the fifth element in the Universe." Inspirational Thought was by the leader. Mrs. Lipscomb served refreshments of cake and coffee from a table featuring the Valentine motif, with red crystal swans on each side of a red and white floral arrangement, and a white linen and lace cloth underlaid with red.

In addition to those mentioned, others present were Mes-

dames W. F. Jacobs, Phil Green, W. N. Pipkin, Robert Dickson, Harold Campbell, Furman Vinson, Bill McCaghren, Douglas Meador, E. A. Day, Robert Darsey, Ted Elliott, D. E. Pitts, L. B. Campbell, R. E. Campbell Jr., and Miss Mary Keith.

## Social Security In Motley County

By Terry J. Clements

The laws and regulations on Social Security programs are similar to the frequently used saying about the weather. It goes something like "If you don't like the weather here, just wait around awhile -- it will change." Sometimes Social Security policies seem to change in this same manner.

A few weeks ago, we discussed the government pension offset. An important element of this provision is the exception. That is, the conditions under which the offset will not apply. Well, on January 12, 1983, the President signed into law a measure that affects this exception.

In general, the government pension offset calls for reducing a spouse's benefit by the amount of any government pension

received by the person. Previously, the government pension offset would not apply if:

1. The beneficiary was eligible for the government pension before 12-82 and,

2. The beneficiary met the eligibility requirements for the Social Security benefit as they were in 01/77.

The new law extends the exception to July, 1983. However, those meeting the exception for the new period (12/82 through 6/83) are subject to different requirements. All beneficiaries, whether male or female, must have been receiving one-half support from the wage earner. On the other hand, the provision included claims for all types of spouse's benefit. As we said, the original law required that the beneficiary meet the requirements for spouse's benefits as

they were in 01/77.

Therefore, divorced spouses who could not meet the original exception because of a 20 year marriage requirement, may be able to take advantage of the new provision. It should be noted that the individual can still take advantage of the "old" exception. The new law however, provides an opportunity to avoid the offset for those who become eligible for the government pension after 11-82 or could not otherwise meet the exception as it was written.

If there is a social security matter you would like to see discussed in this column, call me at 293-4371. Please call us any time you have a question concerning Social Security. Our office is located at 1401-B West 5th in Plainview if you need to visit our office.

## Payments Due Before Checks Can Be Issued

State Comptroller Bob Bullock said recently he has \$1.5 million worth of state checks he can't give the people they're made out to because these people owe money to the state.

"The law says I can't issue a state check to anyone indebted to the state and I intend to collect every penny due before I turn loose of this money," Bullock said.

About 71 percent of

the 5,000 checks Bullock is holding can't be sent to the payees because they are behind in their sales or franchise taxes. If these delinquent taxpayers would pay their overdue taxes, Bullock would release checks worth \$899,000.

Bullock said there's almost \$63,000 frozen because people haven't repaid loans obtained under the Hinson-Hazelwood and National Direct Student

loan programs. "There are 101 retired state employees who have a total of \$40,448 coming to them if they'll pay up," Bullock continued. "There's also \$516,019 due 866 retired teachers and \$31,089 due 67 state employees."

He said \$5.3 million owed Texas has been collected since 1978 when the law became effective.

## This Is The Story

Dear Leon,  
The picture which was in the paper Feb. 3 was taken on Feb. 20, 1945 in Avon Park Army Air Force Base in Florida.

The crew had just established a new world record time in changing a B-17 engine. The time was one hour and 26 minutes. I have an 8x10 enlargement of this picture. I also have the names of the other members of the crew; but they would not mean anything to anyone in Motley County.

I do not remember where any of the other crew members lived at the time and I have never heard anything from anyone since the war ended. I have several pictures that were taken at this event, so I do not have any use for the one at

Tonight the high school boys varsity will be playing against at Roosevelt High School in Lubbock.

Don't forget there will be U.I.L. One Act Play tryouts Friday.

The Junior High Basketball teams are through playing for the season. They have had a very successful record.

The Student Council and FHA girls would like to thank all of those who made the FHA Banquet and Student Council Dance a success.

There were many smiling faces on Valentine's Day at Motley High. Renee

London really was surprised when roses were sent to her by

Holly Hobbs bouquet was really something to see and when Darla Dempsey's flowers arrived she smiled and everyone was heard to say, "Ah, Gee."

Mrs. Hay's roses were just pretty as they could be as she toted them down the hall for all to see.

Even Miss Davis got a plant from her very special friend. And so this brings my Valentine poem to a very happy end.

## Cheese Distributed

### Again In Roaring Springs

Last week the Roaring Springs Senior Citizens again distributed cheese and butter.

The next cheese and butter distribution will be in March.

If someone is picking up your cheese for you, be sure that another neighbor doesn't pick it up also. This happened during the last distribution and some of the duplicate cheese was brought back and some wasn't. Thanks to the ones who brought it back.

From now on each household will have to pick up its own cheese and butter. If you are sick or unable to come,

please contact Odessa Mullins to receive your cheese.

Remember the cheese and butter is one to a household, no matter how many families live there.

Please bring your Social Security Number with you when you pick up your cheese. This is for your benefit as well as the records. If you are getting cheese somewhere else, it will show up when our records are checked. So please help out county to have a good record.

The Outreach phone number is 347-2881 or 348-3081.

## Over 4 Million Acres Planted In Cotton In Area

Cotton acreage bases in the 25 High Plains counties represented by Plains Cotton Growers, Inc. total 4,874,512, according to figures from the state office of USDA's Agricultural Stabilization and Conservation Service in College Station.

That will be the starting point in attempts to estimate 1983 planted acreage, PCG officials say, once the extent of payment-in-kind (PIK) program participation is known. Understandably, speculation on the subject is widespread already, although the final PIK sign-up is four weeks away on March 11. It will be important to have a reasonable estimate of planted acreage as early as possible, especially to ginners and other allied industry people making plans for 1983 operations, points out PCG Executive Vice President Donald Johnson.

Acreage planted to cotton in the 25 PCG counties in 1981, the highest ever, totaled 4,644,900, only 95.3 percent of the 1983 base. A county-by-county review of underplanted bases indicates that they occurred more frequently in counties where farms have both grain and cotton acreage bases, probably because some farms have aggregate bases greater than total cropland.

It is reasonable then to assume, given adequate planting moisture, that acreage bases remaining after satisfying conservation use requirements under the regular acreage reduction program (ARP) and PIK programs

in 1983 will be fully planted.

If so, 100 percent participation in both the ARP at 20 percent diversion and PIK, which would require 30 percent diversion, would leave about 2.44 million acres devoted to cotton production. And, it follows that each percentage point that participation falls below 100 would add another 24,400 acres to the planting potential.

Area-wide program participation at 90 percent therefore should result in 2,684,000 acres planted to cotton in 1983, about 58 percent of the estimated acreage planted in 1982. The percentage of program participation of course will vary by county and even by gin point, PCG says, requiring separate calculations to arrive at

anything like an accurate assessment of 1983 acreage potential in different localities.

The 25 PCG counties, with 1983 acreage bases in parentheses, are Bailey (175,231), Borden (31,514), Briscoe (74,726), Castro (105,760), Cochran (197,682), Crosby (245,673), Dawson (320,064), Deaf Smith (16,819), Dickens (75,536), Floyd (259,683).

Gaines (472,950), Garza (55,894), Hale (308,121), Hockley (363,613), Howard (114,540), Lamb (298,048), Lubbock (363,908), Lynn (312,581), Martin (171,094), Midland (43,028), Motley (69,478), Parmer (105,508), Swisher (133,463), Terry (372,675) and Yoakum (186,927).
