**AFGHAN TO BE GIVEN AWAY** -- The Junior Class of Motley County School is selling tickets for an afghan to be given away at the Junior Play Friday night. The afghan was made and donated by Zola Mae Renfro. The play begins at 7:30 at the school and tickets for the afghan may be purchased from any Junior Class member or at Anderson's Department Store.

## Junior Play Set For March 4th

The 1983 Junior Play "No More Homework" is scheduled for Friday, March 4 beginning at 7:30 p.m.

The annual Lions Club Queens Contest and Candy Sale is also slated in conjunction with the play.

The three act comedy by John Henderson portrays things almost high school student has dreamed of. Such as running the school and doing away with homework.

The characters are Miss Goodin played by

Melba Mangram; Mrs. Clendenning, Carla Christian; Miss Ogilvie, Lisa Barber; Mr. Harper, Thomas Garst; Coach Guthrie, Chris Gwin; Mr. Lundquist, Wade Vandiver; Pamela Jones, Renee See Play Page 5

## Area Men Killed In Plane Crash

A Lubbock flight instructor and a student pilot from Paducah were killed early Wednesday, February 23 when their single engine airplane crashed in a heavy fog into a wooded area near the airport in Pineville, La.

The two victims who were the only persons in the plane were identified as Michael Brent Berryman, 27, of Paducah, son of Wade Berryman of Matador and Lynn Dalton Mathis, 44, a flight instructor for Sandene Aviation of Lubbock and an Internal Revenue Service agent.

The crash was heard about 2:45 a.m. Wednesday, but it took search crews about two hours to find the wreckage about 1 1/2 miles from the Esler Field Regional Airport.

A representative of Sheriff Michael T. Cappel said a thick fog blanketed the airport area at the time of the crash and that visibility was near zero.

"A state trooper who lived near the scene said he heard the plane take off from the field and turn around and try to come back in," she said.

"The way they were facing, they were attempting to land, and they missed the runway and went into the

woods," said State Trooper Sgt. Stan Guillory. "The biggest pieces I found were the motor and a couple of seats."

There was no fuel found at the crash site, and the Skyhawk 2 craft did not burn, Guillory said, so the plane may have been out of fuel when it attempted to land.

An investigator from the National Transportation Safety Board's regional office in Dallas was at the scene of the crash Wednesday afternoon to determine the cause of the accident.

Pete Terral, a spokesman for Esler Airport, said the tower was closed when the accident occurred.

Officials said Mathis had flown the plane from Winter Haven, Fla., to Lakeland, Fla., where he picked up Berryman.

The two men left Lakeland at 7:15 p.m. Tuesday headed for Texas and filed a flight plan calling for a refueling stop in Gulfport, Miss., officials said, but Gulfport authorities said there was no record that the plane stopped there.

"One of our deputies said the plane was loaded with seafood and fresh fruit from Florida," the sheriff's

representative said.

Funeral services for Michael Berryman, 27, of Paducah were held at 2:30 p.m. Friday, February 25 at First Baptist Church in Matador with Donald Lacy of Canyon officiating and the Rev. Gary Hillyard, pastor, assisting.

Burial was in East Mound Cemetery under the direction of Seigler Funeral Home.

Berryman was born in Matador and moved to Meade, Kan., in 1967. He graduated at Meade High School in 1974. He lived in Van Horn before moving to Paducah in 1977. He operated B&B Grain Co. in Paducah. He was a member of the Church of Christ.

Survivors include his father, Wade of Matador; a brother, Jeff of Meade, Kan.; a sister, Charlene Rattan of Claude; and his grandmother, Babe Harwood of Canyon.

Serving as pallbearers were Sherman Stevens, Randy Keith, Irless Gene Brooks, Ernie Fisher, Rickey Lawrence, Greg Felman, Randy Ackerman, and Bob Cox.

Honorary pallbearers were Duane Curbo, Steve Beck, Donny Slover, Joe Kent Keith, Chris Carmichael, Kelly Keltz, Rex Cottrell and Bruce Slover.

## PIK Is Called Fair Deal But Cutting Loans Could Hurt

The Payment-in-Kind (PIK) program, or "Crop Swap", as President Reagan chose to call it in a national address, is a pretty fair deal, a Hockley County farmer recently said. "But cutting loan levels, freezing target prices and reducing FmHA lending activity in future years as a part of the package would make the whole thing a very poor trade for farmers."

The Administration is advocating loans and target prices in 1984 and 1985 below those mandated by current law, plus a reduction in funding for both FmHA direct and insured farm ownership loans.

Under the Farm Act of 1981 the cotton target price, 76 cents per pound for the current year, is scheduled to rise to 81 cents in 1984 and 86 cents in 1985. The target for wheat, now \$4.30 per bushel, would move to \$4.45 next year and \$4.65 in 1985. The corn target price this year is \$2.86 per bushel and would rise to \$3.03 and \$3.18, respectively, in 1984 and 1985.

Legislation sought by USDA would freeze target prices on each commodity at the 1983 level. USDA claims authority to reduce the 1984 wheat loan rates from \$3.65 to \$3.55 per bushel and the corn loan from \$2.65 to \$2.55 without congressional action. The cotton loan, set by a statutory formula, drops this year from 57.08 cents to 55 cents per pound.

And, although the Administration proposes to increase the allocation of FmHA funds for farm operating loans from \$1.6 to \$1.8 billion, farm ownership guaranteed loans are slated for a one-

third cut from \$75 to \$50 million and insured farm ownership loans from \$700 million to \$600 million.

However, USDA does not include any of this as a part of the "Crop Swap" arrangement under which a farmer agrees to take a given percentage of his land out of production in return for a specified amount of the commodity he otherwise would have produced on that land.

Instead, USDA Secretary John Block contends that a freeze on target prices and lower loans is justified by the fact that production costs are increasing at rates slower than was anticipated when the current farm law was written in 1981.

And, in fact, target price freezes, lower commodity loans or reductions in available FmHA farm ownership loan funds cannot, legitimately, be called a part of the "trade" farmers are asked to make. They are separate and apart — things that will apply to PIK program participants and non-participants alike.

But, says Donald Johnson, Executive Vice President of Plains Cotton Growers, Inc., Lubbock, we think the price protection in current farm law should be maintained at full strength, at least until we find out if the slow-down in production cost increases is going to last and until we see whether the projected improvement in the market price of commodities is fact or fiction.

"Following any other course would be tantamount to opening the fortress gates before the first phase of the battle plan is even in operation."

## Phone Company Growth Not Evident in Area

General Telephone, on an update for 1982, state they have not experienced an increase in telephone movement in the Memphis area during a period of continued economic hardship, soaring construction costs, mounting equipment prices and higher interest rates," stated Jimmy Bennett, General Telephone Memphis Operations Manager.

During the past year, the Company has not noticed an increase in telephone lines in the Memphis area. They did, however, note that there was an increase in internal movement, i.e., change in type of service and change in service location.

Last year General Telephone's Western Division spent approximately \$1,540,300.00 on cable additions and replacements in the Memphis area. These dollars were spent in placing 640,000 miles of cable in the Memphis area. This included a new microwave system between the towns of Paducah and Ralls.

General Telephone continued its program of replacing and rehabilitating cable to improve service and reduce some of the costs in the Memphis area. The Company's cable rehabilitation and pressurization program is being stepped up.

The cable pressuriza-

tion program monitors points in the cable which will signal a control panel in the central office when a break occurs in the outer covering of the cable, thus allowing cable problems to be resolved quickly without serious damage.

An additional \$200,000 was spent in clean up after the recent ice storms in December and January which hit the Memphis area.

General Telephone opened a number of Local Service Offices and Local Service Agencies throughout the Memphis Operations Area. Twelve offices in all have been

opened in the last year at a cost of approximately \$300 per month per office. These facilities provide customers with a convenient location to pay bills, handle service problems, place applications over the phone and have minor repairs on equipment handled.

The Memphis Operations Area employs 147 employees at an annual income of \$610,300.00.

According to Jimmy Bennett, "Quality customer service is our bottom line objective for the Memphis area, and GTE will continue to diligently pursue that mission for 1983 with continuing service improvements."

## Clothing Project Meeting Set For March 8th

A clothing 4-H Project Meeting is planned for March 8, 1983 after school in the school cafeteria.

Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socioeconomic level, race, color, creed, religion, sex, handicap or national origin.

The program will deal with selecting the best color for your particular

hair, skin, and eye coloring according to the four seasons of the COLOR ME BEAUTIFUL book by Carole Jackson.

If you would like to be in the Clothing Project and haven't yet signed up, please come to this meeting. Bring a friend! The general public is also invited to attend this program. If you are interested in color and your appearance, you'll find this program very helpful in choosing your best colors.

## A Second Glance

By Leon Watson

One hundred forty seven years ago this Sunday, March 6, Mexican soldiers under General Santa Anna wiped out the defenders of the Alamo. Santa Anna's secretary later reported out of 5,000 men brought to Texas they lost 1,544 in that battle alone.

The officer in charge of separating the bodies of the Texans and Mexicans reported about 1,600 Mexicans were killed. Santa Anna reported losing 75 men and killing 600 Texans.

If you are unable to obtain the repair or correction of any defects in your new motor vehicle which are covered by the warranty on the vehicle, the Texas Motor Vehicle Commission may be able to assist you.

Section 3.04(h) of the Texas Motor Vehicle Commission Code (Article 4413(36), Vernon's Texas Civil Statutes), provides as follows: "(h) A retail buyer of a new motor vehicle may make a complaint concerning defects in a new motor vehicle which are covered by the war-

ranty agreement applicable to the vehicle.

Such complaint must be made by letter to the dealer, a copy of which shall be sent to the applicable manufacturer or distributor, and must specify the defects in the vehicle which are covered by the warranty.

The owner may make further complaint by sending to the Commission a copy of the letter. The Commission may hold a hearing on all unsatisfied complaints to determine whether there has been a violation of the Act."

Complaints involving new motor vehicle warranty repair problems should be in writing, stating the details of the complaint and should be sent to: Texas Motor Vehicle Commission, P.O. Box 2293, Austin, Texas 78768.

**-Let's Ask the Experts!-**

**SOME TRUTHS ON ADVERTISING**

Advertising experts—the International Newspaper Advertising Executives—have come up with some tips on how to organize advertisements efficiently.

There are five major elements to consider: the headline, the illustration, the body copy, the price and the signature, or logo. There are a number of standard advertisement layouts, designed so that one can simply drop in the elements to create a layout. This gives a retailer more time to work on the parts of his or her job which can't be so easily reduced to a system.

If items in an advertisement have something in common, it's a good idea to organize them under a common headline.

Sometimes the two items have nothing in common. This may call for each item getting its own headline, illustration and copy, with only the logo being common to both.

For instance in a one-item ad, the headline may be placed on top, with the illustration on the left, copy on the right and the store name at the bottom of the ad. Another possibility would be to place the headline on top with the illustration directly below and the copy directly below that.

Three-item ads are treated similarly. If the three items have something in common, write a common headline and play each item off the headline.

Two item ads present special organizational problems. If the two items in the ad are related, use a common headline, one which applies to both items.

This same principle of orderly division of the available space applies no matter how many items you have in an ad. As long as the items are all related to each other in some way, it is a good idea to organize them under a common headline, such as "The Great Garage Sale," for auto accessories.

## Appreciate each day as if last

By ANN BROWN

**WE KNOW** life is brief and death is certain, so why don't we appreciate each day—which may well be our last?

If every parent was aware of the child sent off to school might never return, would the little one be allowed to leave in tears? And if children realized they might be seeing their parents for the last time, how would they treat them?

Who can imagine a teenager storming out impudent and rebellious if he knew he would never see his parents again?

Yet not one of us has any guarantee when we part with friends or family that we will

meet them again in this world.

The sudden and tragic departure of another of Canyon's precious young people reminds us how important it is to live each day as if it were our last—because it very well may be. David said, "There is but a step between me and death." And so it is with us all.

Everyone who has driven a car very long has seen how easy it is to be cornered in an automobile.

How many drivers have found themselves in situations where the approaching car had to pull back or take the ditch to avoid death for both? But suppose the ditch is 20 feet deep and full of

water, or there is a car between you and the ditch? When one grows old and infirm, and life becomes a burden, death is a merciful deliverer. But when a healthy youth is snatched away, death is a cruel thief.

Children expect to bury their parents; they can do so and go on with their lives. But parents do not expect to bury their children, and when they do, it is a traumatic shock from which they may never recover.

We all live dangerously every day. That being true, it behooves us to make the most of our lives—and respect the lives of others.

But most of all, we need to be reminded of the brevity of

life so we can improve the quality of it. Would husbands be unkind to their wives when they leave in the morning if they knew that was the last time they would see them?

And what kind of meal would wives prepare for their husbands if they knew it was the last time they would have that privilege?

Who ever regretted being kind to family or friends? But how many times have we suffered agonies over being unkind?

Love is not "never having to say you are sorry." Love is treating your loved ones with kindness and courtesy so there is nothing to say you are sorry for.

## Land Commissioner Brings Vet Land Program Closer

Texas Land Commissioner Garry Mauro has appointed Lorenzo M. Sedeno as Area Representative for the Veterans Outreach program in the Panhandle region of Texas. Veterans Outreach is an extension of the Veterans Land Program of the General Land Office. Sedeno and four other field representatives will be going out to every county in Texas to establish contact with veterans groups and their representatives.

The object of the statewide drive is to acquaint Texas veterans with the benefits of the land loan program and assist them with problems and questions concerning the loan process.

"For all the success this program has had in the past, it has to be upgraded and updated to meet the current needs of our Texas veterans. I'm concerned about each and every veteran in this state, especially Vietnam veterans, and I'm concerned about prompt service. This program is going to run like a business and it will be manned by trained professionals both in the central office and out in the field," said Mauro.

Authorized by the people of Texas in 1946, nearly 80,000 veterans have participated in the Veterans Land Program. The loan program operates at no cost to the taxpayer and actually returns money from proceeds. Long term, low interest loans of up to \$20,000 can be obtained for a minimum of 10 acres.

Lorenzo M. Sedeno is a native Texas from San Angelo who now lives in Lubbock. For three years he was administrative aide to Congressman Kent Hance. In that position he was in charge of Veterans affairs and social programs among his many other responsibilities. Prior to that he was self-employed as a life underwriter for 14

years. He has been a member of the Lubbock Human Relations Commission, the Legal Aid Society, the Community Service Commission, the Bilingual and Biculture Committee on Mass Communications and several other organizations. Sedeno has held

many community service offices, including President of the Pastoral Council of the Diocese of Amarillo, President of Bozeman Elementary School P.T.A. and Vice President of Project Upward Bound.

"I am happy to have a person in Lorenzo's

experience representing the Veterans Land Program. His familiarity with veterans needs as well as his background in government and community affairs will make him a great asset to the program," commented Commissioner Mauro.

### VACATION SAVINGS TIPS

#### TIME-SHARING BEATS VACATION INFLATION

Did you know there is a proven way to secure your vacation for years to come at today's prices? You can through a plan started some 15 years ago in Europe called time-sharing.

Time-sharing gives you all the advantages of your own vacation villa with none of the headaches. Because what you're "buying" is time at a place of your choice for a specified number of weeks each year. You are not buying real estate or even any of the property that goes in to your vacation home.

With time-sharing, you're getting a totally worry-free vacation where you want it, when you want it. Instead of tying up a lot of money in a piece of real property (which most of us can't afford to do anyway), you'll be paying just a fraction of the cost. And you will assure yourself and your family of regular vacations every year. Just this—no more worries about "Can we afford to go on vacation this year?" You can because you have already paid for it.

In the words of Peter Ahnert, president of Ahnert Enterprises, which owns Tree Tops and the Greenhouse in the Poconos, two of the country's leading time-sharing properties, "As the years go by and inflation heats up, your vacations will ever less. And things look even better as your income increases every year. Time-sharing is one of the best ways for vacationers to protect themselves against inflation."

Get all the facts through a free booklet, "The Consumer Guide To Time-Sharing." Call toll-free, 800-233-8244.

## NEWS OF EDUCATION

### GOOD WRITING

Superior writing requires clear thinking and thus enhances the learning process.

That's the logic behind a new approach to teaching at Smith, the prestigious women's college in Northampton, Mass., where today's student is writing and re-writing more term papers than required of her predecessor.

The change is fundamental: it cuts across all departments, not just English classrooms; it requires extra term papers from students, even science majors; and it subjects the papers to peer critique and multiple revision before their professors read them.

"Good writing is fundamentally linked to clear thinking, and revision is an essential component of good writing," explains Jill K. Conway, president of Smith. "Our counselors emphasize to students that re-thinking and re-writing material are not punitive or remedial exercises, but are essential to the process of clear thought and expression."

The program, begun in 1980 on a \$135,000 grant from Conoco Inc., the energy company, starts with the faculty. Professors attend workshops on how to use writing to teach thinking and to weave more writing assignments into a semester, even if it means

altering a once-sacred course syllabus.

Counselors in Smith's Center for Academic Assistance help professors as "getting at the heart of design writing assignments in their various disciplines, and they share the added workload in the classroom."

They coach students in clear, forceful writing, and help them critique each other's drafts.

Their manual, *Writing Papers: A Handbook for Students at Smith*, acknowledges that good writing is difficult, but insists that it is not mysterious: "writing well takes practice and hard work. But, unlike genius, it is all perspiration; it does not depend upon intuition or inspiration. Good papers are made, not born."

The handbook, termed by a New England teachers' association as "a wonder-ful find for teachers of English," concentrates on ways to give prose the energy it needs—clarity, point, vitality. And it makes a promise:

"If you learn to give your college papers this energy, you will find that your other writing—everything

from business letters to love letters, from law briefs to lab reports—will also improve."

Lamenting the declining ability of people entering business to express themselves clearly in writing, Henry G. Corey, Conoco's director of contributions and university relations, acclaims the Smith program as "getting at the heart of the problem."

Faculty members term it "invigoratingly successful. It is producing papers of unquestionably higher quality." Students in a 1982 art class conceded that the multiple-draft strategy provided a way of learning superior to that of the conventional lectures-and-examinations method. Their professor concurred: "They learned more than any other students I have ever taught."

And the instructors? They enjoyed the fresh approach, particularly a new freedom from dull papers. "One result I did not anticipate was that my class was one of the most stimulating I have ever taught," declared a psychology professor.

"Some 40,000 copies of the handbook have been obtained by high schools as a teaching aid. Copies are available at \$1.63 each, postage paid. For quantity discount, write Ann Shanahan, Smith College, Northampton, MA 01063.

## Mrs. Frank Pohl Hosts El Progresso

El Progresso Study Club met February 24, at the Summit Savings and Loan with Mrs. Frank Pohl as hostess.

Mrs. John Hamilton, president, called the meeting to order. Minutes were read and approved.

Mrs. Hamilton reminded everyone of the District Convention in Seymour, March 18 and 19. Those attending are to bring a picture of their grandmother for the drawing of door prizes.

Reports were given by committee chairman.

The next meeting will be "Guest Evening" at the First United Methodist Church and the program will be "Russia and the Scandinavian Country," by Mrs. Robert Dickson.

Mrs. Joe Campbell, acting leader, introduced Mrs. Furman Vinson, a nationalized Texas from California. Mrs. Vinson gave a review "Looking Back," a story of happenings of the past forty years. This story included

happenings from W.W. II, men and women in service, fads, fashions, music, literature, movies, heroes, presidents, underdeclared wars, recessions, depression, drought, flood, happiness, all came to our minds as they reminisced these events.

Mrs. W. F. Jacobs sang "Memories" accompanied by Mrs. Pohl on the casio. The inspiration was by Robert Louis Stevenson, "As yesterday is history, and tomorrow may never come, I have resolved from this day on, I will do all the business I can honestly, have all the fun I can reasonably, do all the good I can willingly, and save my digestion by thinking pleasantly."

Meeting adjourned and refreshments were served to those mentioned as well as Miss Rachel Patton, Mrs. W. D. Lipscomb, Mrs. Bill McCoghren, Mrs. A. B. Simpson, Mrs. Robert Darsey, and Mrs. R. E. Campbell, Jr.

## Social Security In Motley County

By Terry J. Clements

A recent change in legislation temporarily affects the due process provisions for disability beneficiaries who have been found no longer disabled.

As of February 1983, people who are appealing the decision to stop their Social Security disability benefits can elect to have their benefits and Medicare protection continued until the appeal has been decided by an administrative law judge.

This law was enacted on January 12. No benefits under this provision can be paid for months before February and no benefits can be paid for months beyond June 1984, even if the

appeal has not been decided by that time.

Under the old law, disability benefits generally were continued only for two months after the month a decision was made that the person was no longer disabled, and benefits could not be resumed unless the person won an appeal.

The new law applies to cases in which a decision is made after January 12, 1983 and before October 1983 to end disability benefits.

It also applies to cases in which a reconsideration decision or a hearing before an administrative law judge is still pending.

The provision permits beneficiaries to choose if they wish to have

payments only continued, Medicare coverage only, or both. Those receiving auxiliary benefits also have the right to decide whether they want checks to continue.

People should be aware that if they elect to have benefit payments continued and they lose their appeal, they may have to repay the disability benefits they received while their appeal was pending.

Of course, if the final decision is that the person is still disabled, benefits will continue unchanged.

The new provision does not apply to people whose initial claim for disability benefits is denied. These people cannot receive any benefits unless they receive a favorable decision on their claim.

If you have any question concerning the disability program under Social Security or questions concerning Social Security in general, please call us at 293-4371, we will be glad to help you. Our office is located at 1401-B West 5th Street in Plainview if you need to visit our office.

WHAT IS THE STORY behind this picture? If you know send a letter to the Matador Tribune, Box 490, Matador, Texas 79244. The Tribune has many pictures which may be picked up by the public. Come by and look through them.

## These Are The Stories

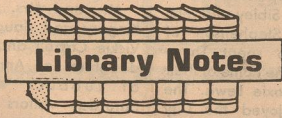

Dear Leon,

The picture of the pistol in the February 17 issue was of an old pistol I found south of my house in Matador while cleaning up the property.

It was a .44 and had three bullets in the cylinder. We tried to see if anyone knew when it may have been lost or anything connected with the event, but no information was ever received.

I still have the pistol. Bill Pallmeyer Rt. 1 Meridian, Tx. 76665

THIS IS THE STORY - Bob Cooper of Roaring Springs thinks the old rooming house pictured in last weeks Tribune was located in Matador where the present fire station is now. A man named Duncan owned the building which was later used for storage. Mrs. Ward Rattan said newspaper clippings she has showed that the rooming house was located about where the present Matador Tribune now is.

New books in the library are A THREAD OF BLUE DENIM by Patricia Penton Leimbach, THE GENEROUS YEARS by Chet Huntley, THE MISTS OF AVALON by Marion Zimmer Bradley, THE WHIP by Catherine Cookson, EMERALD by Phyllis Whitney, and CONFESSIONS OF AN ACTOR by Laurence Olivier.

Lay Representative Gerald Garst and librarian Beverly Darsey will attend the semi-annual West Texas Library System Meeting at Lubbock's Mahon Library on Friday, March 11. The Motley County Library will be closed that Friday. The library will also be closed on Tuesday, March 15, while library

aide Joan Patton attends a LIBRARY SERVICES TO THE AGING workshop in Amarillo sponsored by the Texas State Library. Volunteers for the library last week were Freda Keahey, Frances Finch, Earline Vaughn, and Memori Assiter. We thank our volunteers for their time and work!

We also thank the following for recent books donations: Memori Assiter, Martha Davis, and Beverly Vinson.

Mark your calendar for Tuesday, March 8, at 7:00 p.m. The film TEXAS: MORE THAN A STATE OF MIND will be shown to the public in the library film room. Admission is free to ALL library films.

## Correction

A paragraph in the Matador Garden Club report in last week's Tribune should have read: "At the invitation of Mrs. J. P. Sturdivant, the club met in her

recently completed (not remodeled) new home." The Tribune regrets the error, which was made in composition.

## Country Roundup Set For Friday

A Country Round-up will be held in Memphis at the Movie House on the south side of the square at 8:00 p.m. Friday, March 4.

Those performers scheduled to appear are, old time, cowboy, swing and pop fiddler, Frankie McWhorter; Leather & Lace; old time fiddler, Mac Graham; the group, "Mystery"; and, the Top of Texas Cloggers. The admission will be

LUNCHEON

The Springs Ranch Ladies Golf Association met for their regular monthly luncheon and business meeting last week. Steve Hill, L. T. Cooper and Doug Terry met with the group to explain organization and rules of the Ranch and club and to answer questions.

We appreciated their attending this meeting. Others enjoying the luncheon were Lillian, Mamie, Leona, Geneva, Loys, La Voe, Frances Moss, Olivia, Louise, Dorothy C., Lucretia, Edwadinne and Hazel.

Lucretia presided at the business meeting. Frances Moss was welcomed as a new member, into our association.

ONE CLUB PLAY

Something very different -- playing with one club. Louise won the ball (90). Others playing: Geneva, Leona, Dorothy C., Olivia, Frances, La Voe and Hazel.

Geneva used an old wooden putter -- and shot a 95. Most of us got along better than we thought we would.

And a set of clubs for Syd Pipkin from hubby Gerald -- also made in Freeport. Opal is anticipating improved putting, since she has been using an OLD putter of Bill's -- one used on the first golf courses around.

SUNDAY SCRAMBLE  
Twenty-one players took part and two teams tied with 64. Played the tie off -- and winner was determined on the first hole. Winning team -- Howard, Roy Gene, Geneva, Tom and Laverna. Runners up -- Bush Jordan, La Voe, Olivia, Leona and Allan. Other two teams: Alfred, Nell Clem, James, Frances Moss, Marvin and Frank; Jackie Nunn, Joe, Loys, Buzz and Kenny.

Putting was a surprise on every green -- would you believe a loft or a slice? 'Twas fun -- but glad it's over.

TWO VERY NICE birthday presents for two local ladies -- recently Opal Pipkin received a brass hand-crafted Golf Pride putter made in Freeport, from daughter Patty and Vernard.

## Library To Present Film On Texas

March is TEXAS BOOK MONTH. During this month everyone is encouraged to give a book about TEXAS to your local library.

As a special TEXAS BOOK MONTH feature, Motley County Library will present the film, TEXAS: MORE THAN A STATE OF MIND, on Tuesday evening, March 8, at 7:00 p.m. in the library film room. Admission is free and

everyone is invited. TEXAS: MORE THAN A STATE OF MIND is a pictorial survey of the land called Texas. The narrator, John Connally, uses the Ten Texas Tourist Trails to describe both the heritage and the natural resources of the state as well as the people in each of the regions. The unique geographic variety in Texas is depicted.

## R.S. GUILD HAS MEETING

Mrs. Ray Zabielski was host to the Roaring Springs Guild when it met in the home of Miss Lula Swim on Wednesday night February 16. Mrs. Truitt Read was in charge.

Miss Swim presented the devotional. Rev. Eddie Marcum brought the lesson on the meaning of Ash Wednesday. He closed the meeting with prayer.

A refreshment plate was served to the

following: Rev. and Mrs. Eddie Marcum and Joy, Miss Lula Swim, Miss Freda Keahey and Mesdames Alta Duval, Ruby Burt, B. L. Peacock, Opal Bradford, Ray Zabielski and J. B. Cooper.

Mr. and Mrs. John C. Ballard of Snyder and Billie Odell and Kelly of Lubbock were luncheon guests of Bessie Saulcey and Allie Lawrence. Also were local residents Mr. and Mrs. L. A. Mullins. The group visited in the afternoon with Mr. and Mrs. James Smith in Matador and their guests, Mr. and Mrs. Ray Davis of New Mexico and Mrs. Willy Lee of Muleshoe.

Osie Lee Brown and Auther Sanders accompanied their brother A. C. (Pete) Sanders of Midland to Henderson last Friday where they attended funeral services for their brother-in-law, Arthur Starling. Mr. Starling and his wife Bennie grew up in Motley County and will be remembered here as Little Hat. Lonnie Joe Brown of Matador also accompanied his mother and uncle. They returned Sunday.

Spread a meat loaf mixture into a pie pan and build up sides into crust shape. Bake until partially done and spread with filling of mashed potatoes. Dot with butter and paprika and bake until potatoes are browned.

## Hints For Homemakers

### DELIGHTFUL DESSERT

Many of today's busy women are taking a fancy to a fancy dessert that is easy to make—and easy to make in advance. What's more, it requires no baking and costs less than 40 cents per serving.

You can put a twinkle in your family's eyes with this delectable Twinkies Toffee Temptation. It combines cream-filled sponge cakes, crushed toffee candy, vanilla pudding and whipped topping.

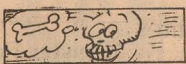

The origins of the recipe remain a mystery. It first gained wide public attention through a popular radio talk show host on WGN radio in Chicago. Eddie Schwartz got the recipe from a listener, discussed it on the air and was flooded with requests for copies. Each holiday season, he has repeated the recipe with similar results.

The bakers of Twinkies cakes reviewed the recipe and adapted it for uniformity. The directions are simple enough to let the youngsters prepare it as a special treat.

### TWINKIES TOFFEE TEMPTATION

- 1 package (3 3/4 oz) vanilla instant pudding
- 2 cups milk
- 1 multi-pak (10) Hostess Twinkies cakes
- 1 package (8 oz) chocolate covered toffee candy bars, crushed
- 1 container (4 oz) non-dairy whipped topping

Prepare pudding with milk as directed on package. Set aside. Slice Twinkies in half lengthwise. Line a 13x9x2-inch casserole dish with bottom halves of Twinkies, creamed filling side up. Sprinkle on 1/2 cup crushed candy. Pour on pudding. Arrange top halves of Twinkies on pudding. Spread on whipped topping. Top with remaining candy. Cover and refrigerate at least 2 hours. Makes 10-12 servings.

Teeth are bones—but harder than most of the other bones in the body.

## Big Tastin' Sloppy Joe Pie Is New Twist On Old Favorite

Satisfy hearty appetites with this quick-to-fix main dish pie made with the popular ingredients of sloppy joe. The thick and chewy crust, easy to make with refrigerated flaky biscuits, is filled with a savory sloppy joe mixture topped with cheese.

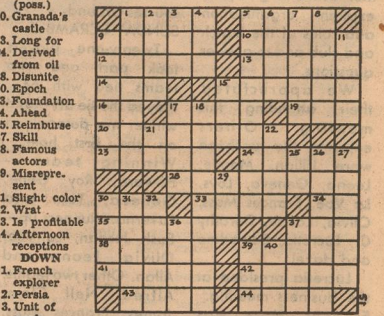

### BIG TASTIN' SLOPPY JOE PIE

- 1 lb. ground beef
- 1/2 cup chopped onion
- 8-oz. can tomato sauce
- 8-oz. can whole kernel corn, drained
- 1/4 cup water
- 1 envelope (1.31 oz.) sloppy joe or chili seasoning mix
- 10-oz. can Hungry Jack refrigerated flaky biscuits
- 2 tablespoons milk
- 1/3 cup cornmeal
- 4 oz. (1 cup) shredded cheddar cheese

Heat oven to 375°F. Brown ground beef and onion; drain. Stir in tomato sauce, corn, water and seasoning mix. Heat meat mixture until hot and bubbly; reduce heat and simmer while preparing crust. Separate biscuit dough into 10 biscuits; flatten slightly. Dip each in milk, then in cornmeal. Arrange 7 biscuits around sides and 3 on bottom of ungreased 9 or 10-inch pie plate; press biscuits to form crust. (Biscuits will form petal-like shape around rim of pan.) Sprinkle crust with 1/2 cup cheese. Spoon hot meat mixture over cheese; sprinkle with remaining cheese. Bake 20 to 25 minutes until crust is deep golden brown. Cool 5 minutes before serving. 4 to 6 servings.

## Foot Facts

By Dr. Robert Brodtkin, D.P.M

### Foot Problems In Children

It is a commonly held belief that infants and children have flat feet—that the arch develops as the child grows. However, when looking at an X-ray, one sees that the bones of a child's foot are in the same alignment as in an adult's foot.

In fact, the normal values for the angulation of the foot bones with each other and with the ground, are the same in both child and adult. The reason that a child's foot appears flat is because it is so fat. The normal deposits of baby fat along the medial arch make it seem that the arch is flat.

In order to determine true flattening of the arch in a young child it is necessary to examine the back of the heel, the leg, and the knee. Your family podiatrist can best determine whether or not a flat foot is actually present. If it is

found that the child does have true flat feet then treatment is recommended.

For mild to moderate cases of flat feet treatment would consist of shoe modifications or special shoe inserts, called orthotics. For severe flat feet surgery may be needed.

There are two conditions commonly seen in children which can be normal stages of development. These are bowleggedness and knock-knees, both of which will be seen in children at different ages. An infant is always bowlegged while knock-knees are normal in a child of 4-6 years.

Again, it often requires professional attention to determine if an abnormality is present. Usually, it only takes the magic of time for a youngster to outgrow knock-knees or bowleggedness, and specific treatment is generally not indicated.

## FIRST AID FACTS

### Care For The Chronically Ill

With rising medical costs, Americans are discovering that a positive home health care program for a chronically ill family member can be preferable to a lengthy hospital or rest home recuperation. What's more, home care is economical.

The key to a successful adjustment period is a positive family attitude and programmed activities that involve each family member, including your sick loved one.

Start by giving weekly household duties to each family member. Include the chronically ill by creating activities that are simple, yet important. For example, a bedridden relative can answer the telephone, make shopping lists, help with homework, clip money-saving coupons and become politically active by phone and letter. The chronically ill can also be cheered by learning new crafts such as flower arranging, painting, macrame and needlepoint.

Other family members can assist in caring for the chronically ill by learning how to make their relative more comfortable. The most common complaint of a disabled person is bedsores, an uncomforta-

ble, but easily treated minor ailment. To properly care for bedsores, CLEANSE the affected area with warm water and mild soap. TREAT by applying a small amount of first aid cream or topical ointment. COVER the area with a non-stick sterile pad. TAPE securely with hypoallergenic first aid tape. You will find that large pads are ideal for treating bedsores because they provide excellent cushioning and absorbency and do not stick to the wound.

So, stock up on products which make home care treatment easier. A kit containing the essential elements, including large non-stick sterile pads, hypoallergenic tape, first aid cream, scissors and gauze should always be on hand. And, be sure to consult a physician at the first sign of infection.

## ENTERTAINING IDEAS

### CHOCOLATE MOUSSE PIE

Chocolate mousse is an exceedingly popular dessert on restaurant menus. But it's served less often at home, probably because most recipes sound complex, take more than an hour to prepare, and dirty a half-dozen pans and bowls in the process.

Not this recipe. It's "easy as pie." In fact, it is a pie! Chocolate Mousse Pie requires only three ingredients, only one bowl, and only three minutes to make. Canned chocolate pudding and frozen whipped topping form a fluffy chocolate mousse filling for freezing in a ready-made chocolate crumb crust (sold in its own foil pan).

Easy as pie? Certainly. And that can be the cook's secret. No one who tastes this luscious "ice cream pie" will guess how simple it is to prepare. The flavor and delicacy are comparable to those complicated French recipes.

Some of the extra time you save by fixing this easy dessert can be used to "fuss" with chocolate curls for garnish, if you have the creative inclination. Here are two recommended ways to "curl" chocolate.

The most straightforward method is to shave thin strips from a thick milk chocolate bar, using a vegetable peeler. Slowly pull the peeler toward you and watch the curls "magically" form.

Another approach is to melt about one-fourth cup chocolate chips or solid semi-sweet chocolate (or a combination of the two). Use very low heat or a microwave oven. Spread a very thin "icing" of melted chocolate onto a rim-less metal cookie sheet. Chocolate should be about one-sixteenth inch thin. Set pan in refrigerator or freezer for a few minutes to chill chocolate to the right state: just firm but not brittle. Mark inch-wide strips, then hold a flexible, narrow spatula at a 40-degree angle to roll up curls. Any failures can be re-melted and the process repeated.

### CHOCOLATE MOUSSE PIE

- 1 can (17.5 oz.) Thank You Brand Chocolate or Chocolate Fudge Pudding
- 1 carton (9 oz.) frozen dairy-blend whipped topping, thawed
- 1 ready-made chocolate crumb pie crust

With electric mixer or wire whip, gently combine pudding and whipped topping. Fill pie shell, swirling mousse into a pretty pattern on top. Freeze until firm before serving. (Clear plastic crust liner can be inverted for a protective dome to cover pie during freezing.)

Pie can be served solidly frozen, but for less icy texture—soften pie for a few minutes at room temperature or for one hour in refrigerator. If desired, garnish pie with additional whipped topping and chocolate curls.

**Cards Of Thanks**

Dear Friends,  
Just want to say "Thank You" for your prayers said in my behalf, the beautiful cards, flowers and visits. The good food was also appreciated very much by J. D. and myself.  
May God bless you in your time of need.  
With Love,  
Opal Craven

We would like to take this opportunity to express our appreciation for all the flowers, cards, phone calls and words of sympathy and the friendship at the loss of our beloved Mike.  
May God bless you all.  
Wade, Nell and Jeff Berryman

I would like to express my gratitude to everyone in Motley County who came to see me when I was ill in the Crosbyton Hospital. And then later in Lubbock General Hospital.  
I will always be grateful to the dear friends who sat by my bedside when I was so ill and for the cards, telephone calls and the prayers that were given in my behalf.  
Thanks to Bro Marcum for his visits and words of encouragement.  
Thanks for the food brought to my home after my return home.  
May God bless all of you.  
Joe Gipson

Thanks for everything while I was in the hospital, especially your prayers.  
Jeremy Davis  
I would like to thank everyone who sent me cards and letters and called me while I was in the hospital.  
Also for visits and your prayers and good wishes for a safe recovery.  
May God bless each of you.  
Arrie Aulick

We want to express our thanks and appreciation for the many kind deeds and friendship shown us at this time of sorrow following the loss of our brother Bill.  
May God bless each one of you.

**Events To Remember**  
On April 23, 1983, the Army Reserve became the first federal military reserve to be organized.

The value of a strong reserve was demonstrated during the Korean Hostilities when a record 240,500 Army Reservists were called to active duty. In the first year of the conflict, when military activity was the heaviest, Army Reservists won six of the 27 medals of honor and a quarter of other top combat decorations.  
In 1970, the Department of Defense unveiled a new "Total Force Concept" which gave the Army Reserve a starring role in our National Security Strategy. The Army Reserve today is better able to support the active force than at any time in its history. In this regard, it contributes to the Total Army 68 percent of light equipment maintenance units, 56 percent of Army security agency units, 44 percent of medical units and 33 percent of special forces.
