PRICE TEN CENTS

TRAIL DUST

By DOUGLAS MEADOR

Patience may be the true test of character since its base rests on faith in God, in people, and in the general goodness of the world. So many things are fixed in their timing and cannot be changed.

Why doesn't someone perfect a good tasting cough drop, even if its effect is questionable? The genius could surround himself with wealth and luxury and live in the high esteem of fellowmen.

The effect of campfires soon passes in the process of erosion, and it is no longer easy for the few remaining old-time cowboys to locate chuckwagon camp sites in the haze of memories. Many have been turned beneath the plow and others have been covered by the growth of mesquites. Canyons have eroded to absorb others. All but a few of the riders have gone to the long drive in eternity. But the chuck wagon was always near the roundup, where hungry, tired men could obtain beefsteak, beans, sourdough bread and coffee. It also carried the bedrolls in which men slept beneath the stars. Camp was ready to be moved after breakfast before dawn of the next day. Men did not work by the hour but by the month, seven days in a week. The men who kindled the campfires are gone and so is the way of life which was theirs. They have an honored place in history for their work in blazing a trail across a wilderness and testing the potentials of a hostile land; to be followed by the man with his hands on the handles of a plow. He, in turn has been followed by other cattlemen who produces more and better beef from the same soils.

The canisters of shame may frequently be decorated in such a manner as to be unnoticed on the shelf of decency.

The poor man who has money and has not learned to use it, multiplies his miseries with the never-cooling fire of ignorance.

The only way to avoid some disappointments, is never to want anything.

Terms Medicare and Medicaid Explained

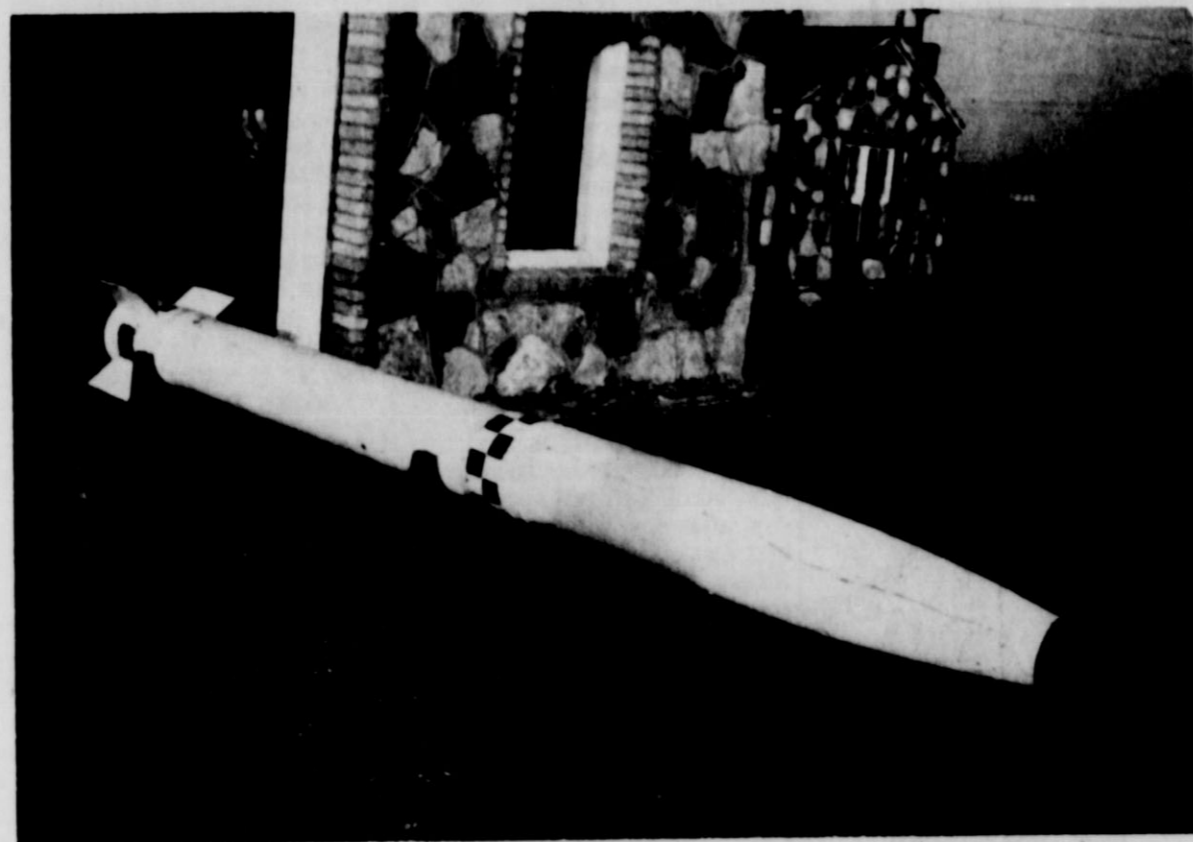

By Ray Purcell
Social Security Representative
Q. I have heard the terms "Medicare" and "Medicaid" but do not know the difference. Please explain.

A. Medicare is the term used to describe health insurance for the aged under social security. There are two parts to Medicare—Hospital Insurance (Part A) and Medical Insurance (Part B). Medicaid is the term used by the State Department of Public Welfare for its health insurance for persons receiving public assistance payments.

For more information contact your social security office at 1401-B West 5th Street, Plainview. If more convenient, meet with your social security representative. He is in Floydada at the courthouse on Wednesday morning, in Matador in the lobby of the First State Bank on the first and third Tuesday morning of each month and in Abernathy in the City Hall on the second Tuesday morning of each month.

COMPLETES NAVY COURSE

(Special to Tribune)
FHTNC) MEMPHIS Dec. 22—Navy Airman John L. Cole, son of Rev. and Mrs. Leo W. Cole of Flomot, Tex., graduated from the Class "A" Aviation Administration Course at the Naval Air Technical Training Center, Memphis.

ROCKET CENTER? Matador is not going to be another Cape Kennedy, Florida, and the above rocket was never intended for a trip to the moon. It was acquired last week from the US Army at Ft. Sill, Oklahoma by the Motley County VFW. The 600-pound Little John rocket was brought here by Commander Joe Smith and Alton (Susie) Marshall and will be painted before it is installed in a permanent display at the VFW Building. History of the small rocket will be published later in the Tribune.

Renewal Forms for Car Registrations Are Due in January

AUSTIN (Special) — If you own one or more of the more than seven million motor vehicles in Texas, there is some important mail coming your way early in January.

It is your registration renewal application. This is the second year of operation for the new, easy computerized registration procedure devised by the Texas Highway Department.

Last year, the system greatly reduced bothersome waits and long lines which plagued vehicle owners at county tax offices and substations in years past.

Prospects are that the system will work even better this year.

Also, it is not necessary to present last year's registration receipt of the certificate of title. The renewal application you will receive in the mail is all you will need.

Registration begins February 1 and continues through April 1.

The renewal application will arrive in the mail in a slender envelope marked, "Important — This is Your License Plate Renewal Application."

The application is a three-part form with instructions printed on it. One important thing to remember is THE CARD SHOULD NOT BE TORN APART.

After the registration period begins February 1, each vehicle owner can take the renewal application and the fee to his county tax office, or he can order his plates by mail.

If the owner wishes to register his vehicle by mail, he should send the entire three-part renewal application, the fee and an additional \$1 to the local county tax office as early as January with the understanding that his license plates may not be mailed until February 1.

The additional \$1 charge covers cost of handling and postage.

If owners are to receive their plates by mail before the April 1 deadline, then they must send the renewal form, fee and \$1 for each vehicle to be registered to the local county tax office by March 1. This allows 30 days for delivery of the plates before the April 1 registration deadline.

If the owner decides to go to the county tax office or substation he will find shorter waiting lines. All he needs to take with him is the renewal application and the fee. He will then receive his new plates and part of the form as his receipt.

Another part of the form is retained by the county and the third is sent to the Motor Vehicle Division of the Texas Highway Department in Austin. However the owner may decide to register his vehicle, by mail or in person, use of the renewal

Solons to Face Rough Session

By Vern Sanford
Texas Press Association

AUSTIN — Legislators by the hundreds are assembling in Austin to tackle a mountain of inherited and new problems in a hastily-revised State Capitol.

Workmen barely completed their renovation of the new offices of Senators and Representatives before the occupants (for at least the next 140 days) moved in.

There is little indication, of course, where the 62nd Legislature is heading, but nearly everybody agrees it faces a major fiscal crisis. Lt. Gov. Ben Barnes says the session may well be "the most difficult in Texas history."

Estimates of needed taxes range from \$645 million to \$850 million, and even higher in some cases.

Matador Fems Roll To Third Victory

by Lance Jameson

The Matador H. S. girls won their third straight basketball conference game here on the home court Tuesday night against Guthrie 52 to 36. Debbie Smallwood scored 19, Bridget Barton 18, and Erma Sims tallied 13 to spark the Matadors fems to a 3-0 district record.

The Guthrie boys team took a victory from the Matadors by a 64-45 margin. Dewayne Campbell scored 11, David Lee 8, Bill Barnhill, Andy Green and Ricky Lawrence 6 points each for the Matadors. The loss dropped Matador to a 1-2 loop reading.

The remaining M.H.S. basketball games to be played this season will be conference bouts and are scheduled for Tuesday and Friday nights. Girl games will be played first and will start at 7 p.m. The next two Tuesday night games will be here on the Matador home court. The following is a list of the remaining scheduled games for the 1971 season.

The current registration system is the product of much work and planning. The system began to take shape in 1967 with the installation of the first computer equipment by the Motor Vehicle Division of the Highway Department.

Interest Shown In Ranch Project

Favorable interest was shown here in the Nance Ranch Project sponsored by the West Texas State University at a supper held at El Matador Restaurant Thursday night.

Approximately 45 attended from Quitaque, Paducah, Childress, Turkey and other area communities.

It was explained that the 2,393-acre ranch had been given to the school by the widow of the late George Nance, but that an estimate \$100,000 cattle and funds would be needed to put it into operation.

It was declared the project would be designed to area conditions and include cow-calf and feedlot operations.

Leaders were sought in the communities represented and Bill Moss volunteered to head the drive here. Volunteers from Paducah and Quitaque accepted at the meeting.

NEW TAX RULES ON FOSTER CHILDREN

(Dallas, Texas) — The Tax Reform Act of 1969 makes it easier to qualify foster children as dependents. Ellis Campbell, Jr., IRS District Director for North Texas said today.

A foster child now can be claimed as a dependent on the same terms as a natural child if he lives with the taxpayer and is a member of the household for the entire year.

The effect of the Act also is to permit a taxpayer a dependency exemption for a foster child who makes \$625 or more if the child is under 19 or a full time student and the other dependency tests are met. Previously, such a foster child could not qualify as a dependent even though all other dependency requirements were met.

A foster child is defined as one in the care of someone other than natural or adopted parents who cares for the child as his own.

Wildlife Commission Chairman Pearce Johnson is running him off. Harry Jersig of San Antonio and L. P. Gilvin of Amarillo, two of the three-man Commission, asked him to stay, said Singleton. Gilvin, however, is due to be replaced on the agency soon.

Employment with an "international conservation organization" lured him from the \$25,000 a year state job, Singleton told newsmen. He recommended that his deputy, Robert G. Mauermann, be named to replace him.

Johnson, who opposed the other two commissioners' plan to buy Mustang Island land for \$4.2 million, had no comment.

Meanwhile, funds to buy the island — state and federal — reached the state treasury but were frozen there, pending a federal court case hearing.

3 Sooners Purchase Slice of Panhandle

GUYPON, Okla. (Sp) — The largest land sale in the Oklahoma Panhandle since 1939 has been consummated with the purchase of 32,290 acres of Texas County ranchland that was at one time known as the famous Anchor D Ranch.

The purchase price is estimated at over \$2.5 million. Legal proceedings necessary to complete the transaction stretched out over most of a year. The land was sold by the

MHS Gains One But Loses Two

Over the holidays, MHS graduated two senior students. They were Robin Smauley, son of Mr. and Mrs. C. C. Smauley, and Randall Elliott, son of Mr. and Mrs. J. D. Elliott of Hart. Their plans for the future are still indefinite.

While in school both were interested in sports; Randall this year participated as a Matador manager. Robin, while attending school, also worked at the Seigler Funeral home.

The sophomore class had a surprise when they came back from the holidays and as a result, welcomed a new classmate, Billy Don Whitaker. Billy Don is the son of Mr. and Mrs. Billy Joe Whitaker, residents of Paducah. He and his younger three brothers are staying with their grandmother, Mrs. Ed Whitaker, until their parents can join them. Billy Don states that his favorite pastime is working with horses and hopes to become a veterinarian.

MHS is now getting along with one less person this semester, but things are not all lost ... all three younger brothers of Billy Don are in Matador Grade School.
