Ranch Celebrates 100th Birthday

Invited guests at the recent Two Buckle Ranch Headquarters Centennial Celebration were Mrs. Edna (Leonard) Waybourn of Childress and Mrs. Frances (Schweitzer) Moss of Afton.

Descendants of ranch hands and owners were honored participants at the 100th birthday celebration which included an early morning breakfast; an address by Dr. David Murrah, Director of the Southwest Collection, Texas Tech; fiddle music from the porch of the Two Buckle headquarters; and an unveiling of a historical marker.

Mrs. Waybourn's father, J.F. Leonard, and Mrs. Moss's grandfather, Henry Schweitzer, worked on the Two Buckle Ranch, 233 sections of ranch land in Crosby, Lynn, and Dickens Counties owned by the Kentucky Cattle Raising Company. Schweitzer was listed on their payroll in 1886-1887. One of Leonard's children, Virgil, was born at the ranch in 1882. Both men and their families moved to the Motley County area when the ranch fell on hard times due to mismanagement.

The historic Two Buckle Ranch headquarters, located near Silver Falls, was open to the many guests who enjoyed seeing the authentic restoration of the house by present owners, Otis and Rosemary English of Lubbock. Photographic displays documenting the early history of the ranch included pictures of Schweitzer and Leonard.

The Crosbyton Lions Club served guests a pancake and sausage breakfast under the pecan trees which were planted in the early days of the ranch, while two fiddlers entertained the early morning crowd with old favorites. Tears came to the eyes of many as "Cowboy Prayer" was read to the accompaniment of the fiddlers.

Outlining events beginning in 1882, Dr. Murrah relived the short but exciting history of the Kentucky Cattle Raising Company, whose parent company was a whiskey distiller. In his address, Murrah contrasted the operation of other more successful and longer-lived ranches, such as the Matador Land & Cattle Company and the Pitchfork Land & Cattle Company, with the Two Buckle land and range conditions, the Kentucky Cattle Raising Company had higher expenditures and more employees, but fewer marketable cattle.

Many personal insights of the original owners were given through the correspondence documented and uncovered by Mrs. Rosemary English in her research for the Texas Historical Commission marker.

The marker, unveiled by Otis English, stated "Headquarters for the Two-Buckle Ranch was built near this site, at Silver Falls, in 1884 by the Kentucky Cattle Raising Company, which had been founded two years earlier by a group of Louisville,

Kentucky distillers. Claude Tilford was hired by the company to manage the 145,240 acre ranch, where a variety of grain and hay crops were grown. The ranch's cattle operation featured cross breeding and separation of breeding stock.

"In 1901 the C.B. Livestock Company bought 90,000 acres of the land and used the established headquarters for its -N- Ranching and Plains Development operations. A dipping vat was built in 1912 and was used by all area cattlemen to combat Texas cattle

fever. Since the 1915 breakup of the C.B. Livestock Company, succeeding owners have continued to add to and preserve the original headquarters site. A barn, garage, concrete storage tank, as well as a dam across the White River were added during the 1920s.

"Over the years, this land has been home for a number of families who have contributed to Crosby County's ranching heritage. The Two-Buckle Ranch Headquarters is a historic reminder of this early West Texas industry."

MRS. EDNA LEONARD WAYBOURN, guest at Two Buckle Ranch headquarters celebration is shown with Mrs. Rosemary English, present owner and hostess for the event.

WTU To Attend Austin Rate Hearing

After months of preparation, which included providing several thick volumes of written testimony and answering hundreds of questions from intervenors, West Texas Utilities Co. representatives went to Austin on Monday, September 17, for a formal retail rate hearing before the Public Utility Commission of Texas.

WTU filed the rate case on June 8, asking for an increase which would boost annual retail revenue by \$30.8 million. This would be a 12.4 percent increase over the test year revenue on which the case is based.

In support of its request, WTU filed seven volumes of testimony by Company Officials and expert witnesses on subjects covering all aspects of WTU's operations. Since the filing, auditors employed by the Texas Municipal League, which is intervening in behalf of several cities, have dug into WTU files to check data, while requests for information have come from all intervenors as well as from PUC staff. In bulk, the written requests for information are three volumes thicker than WTU's original filing.

Response to WTU's rate request has been varied. Of the 82 incorporated towns in the service area, 36 denied the increase, 19 suspended the case, while 6 denied the increase and joined 21 towns which had previously ceded jurisdiction over rates to the PUC.

Denying the increase were Alpine, Anson, Aspermont, Balmorhea, Ballinger, Benjamin, Big Lake, Blackwell, Bronte, Buffalo Gap, Clarendon, Clyde, Cross Plains, Crowell, Dodson, Hamlin, Haskell, Hawley, Iraan, Jayton, Knox City, Lawn, Lueders, Memphis, Merkel, O'Brien, Putnam, Rankin, Rochester, San Angelo, Santa Anna, Sonora, Sterling City, Tuscola, Tye and Woodson. WTU appealed each of these cases to the PUC.

Suspending rates were Abilene, Baird, Childress, Cisco, Eden, Estelline, Impact, Junction, Melvin, Menard, Munday, Paducah, Quanah, Spur, Stamford, Throckmorton, Vernon, Wellington, and Winters. Ceding jurisdiction were Marfa, Miles, Quitaque, Rising Star, Turkey and Valentine.

Towns which had already ceded jurisdiction are Albany, Chillicothe, Dickens, Eldorado, Goree, Hedley, Lakeview, Matador, McCamey, Mertzon, Moran, Paint Rock, Presidio, Roaring Springs, Robert Lee, Roby, Rotan, Rule, Shamrock, Trent, and Weinert.

Consultants for the Texas

Municipal League, which is representing 13 cities filed testimony this past week with the PUC recommending that instead of receiving a \$30.8 million increase in revenue WTU should cut its request by \$9.1 million. Although this appeared to suggest a rate reduction, WTU officials pointed out that the cities actually are recommending an increase in base rates, but suggesting that the Company's fuel cost estimates are too high.

Even after lowering the return on equity from the 17 percent sought by the Company to 15.5 percent and reducing Construction Work in progress from 100 percent to 40 percent, the cities' consultants still recommend a \$7.8 million in rates. This amount, a WTU official said, is "in the right direction, though inadequate to see the Company through its current construction program."

As for the fuel costs, the utility is allowed to recover its costs from the customers, based on factors set during rate cases.

If fuel costs are underestimated, the rates will be set higher during the following year. If the estimates are too high, any over-charge for fuel must be refunded by the Company with interest.

The hearing began at 1:30 p.m. Monday and is expected to last at least through the week.

Firemen Receive Check

The Matador Volunteer Fire Department received a check for \$150.00 recently from Texas Farm Bureau Insurance Companies as an expression of thanks for the Department's work on the property of J.C. Irwin, Box 118, Matador.

The money will be used for their application of equipment.

The Texas Farm Bureau Insurance Companies pay fire departments this amount when the department works at a fire in rural areas, involving property insured by them.

The Insurance Company believes fire departments have contributed to reduce the amount of loss involved by fire and more importantly, to preventing fires. It is their hope this money will help the Matador Fire Department in their program.

Disaster Grant Restrictions Explained To Lions

Restrictions which limited distribution of disaster funds for tornado victims were explained at regular meeting of Matador Lions Club September 4th. Speaker was Matador Mayor Gary Lancaster.

Although he was notified by Governor Mark White that the state had authorized a grant for \$350,000 for Matador residents who lost homes in the May 1st tornado, to date a contract has not been received, releasing the funds.

Contributions of \$29,000 were received from the Plainview area. This money was donated for uses by the city as they saw fit. The City of Matador has since given the City General Fund and

County General Fund \$10,000 a piece to help reimburse for out-of-pocket expense. The city thought this might prevent ad valorem tax increases for taxpayers in the disaster area.

Schools superintendent Charlie Johnson reported on the lack of progress in the school's application for disaster funds on a national level, but said the school has made a further application, "which will also probably be turned down."

Boss Lion Vann Francis presided at the meeting and Recorder Bil McCaghren introduced as a guest, Robert Birchfield of Andrews, formerly of Matador.

The Booster Club would like to invite and encourage everyone to support the Motley Mavericks at Crowell this Thursday (tonight) at 6:00 p.m. and the Mighty Matadors at Amherst, Friday at 8 p.m.

They are Ben Charles Grundy, Coy Franks, Joe Edd Helms, and Kelly Meyer. The demonstrations include cotton varieties, plant populations, nematode resistant varieties, row spacing, and other cultural practices.

We have planned a Cotton Tour to show some of these demonstrations. It will be

Monday, September 24, at 1:30 p.m., beginning at the Ben C. Grundy farm, 10 miles north of Matador at intersection State 70 and FM 2009.

We will also have Emory Boring, Extension Entomologist, and Al Alexander, Extension Agronomist there to discuss cotton production, management and new developments. This should be a very beneficial and educational tour with some ideas that can be used by each producer.

Warrens Celebrate 60th Anniversary

The Colquitt Warrens of Dell Valley are celebrating their 60th wedding anniversary. They will be remembered here as residents through the 1940s and early 50s. They ran an abstract office here.

On a certain night a few years ago, Colquitt Warren took special care with his appearance. Finally he was satisfied. That night he had a special errand...perhaps the most important errand of his life. He drove to the home of Ina LaToska Williams and sat for a moment in the car, and squaring his shoulders he then went inside...to ask permission from Ina's father to marry her.

The happy young couple received the answer they had prayed for. Her father looked at them both and replied, "You are both 21, and you have my permission." Colquitt beamed at his betrothed and bolted outside to turn off the motor of his car. He had left it running just in case.

Colquitt Warren and Ina LaToska Williams were married by a Justice of the Peace in Kirtland in Childress County on August 24, 1924.

Ina and Colquitt both graduated from Childress High School and both wanted to be teachers. Before they were married they searched for teaching jobs where they could teach together. The prospective employers were puzzled by the fact that these two young people were making application together until Ina and Colquitt revealed their future plans to marry in August before the school session began in September. They found employment in a two room school

house in Cottle County. Ina taught the lower grades and Colquitt taught the junior high and senior high grades.

Later they moved to Dickens where Colquitt owned and operated an Abstract and Title Company for over twenty years. Ina worked in the Court House where she acquired the title of Deputy Sheriff. She did the paper work required for the Sheriff's department, and it isn't known whether or not she ever arrested anyone...but she was prepared.

It was on a visit to a daughter then living in Carlsbad that Colquitt decided it was time for another change in their lives. He saw the property in Crow Flat and told Ina he wasn't going home, but was going to live there. They homesteaded it, and built their home themselves. They have created a warm and welcoming oasis to all who come to their gate.

A few years later, Colquitt went back to college and taught himself to speak Spanish. Then he took up writing and has had several stories published under the name of Tom Bean.

Ina is also a writer, and each week contributes to the Hudspeth County Herald, and in between times she is a marvelous needle person.

The Warrens have five children, Jean Lyles of Hereford, Jo Edwards of Artesia, N.M., Jane Latimer of Amarillo, John Warren of Dickens, Jerry Warren of Ranger. They have 19 grandchildren and 25 great grandchildren, and are known affectionately to all as "Mammy and Pappy."

Veteran Gilmer educator and former high school football coach Truett Rattan, 65, died in his sleep at his home in Gilmer recently, a few days after beginning his 31st year of work in local schools.

Funeral services were held at the First Baptist Church there with Dr. David Jenkins officiating. Burial was in Sunset Memorial Park, Gilmer, under the direction of Loyd Funeral Home.

Mr. Rattan's wife, Ivaughn, found him dead one morning about 6:15 a.m. at their home. A spokesman for Loyd Funeral Home said it appeared Mr. Rattan, who had a history of heart disease, had been dead for about an hour when his body was found.

Mr. Rattan had been

hospitalized earlier this year, but had recuperated enough to return to work and had done so at Gilmer Elementary School, where he held the part-time post of assistant principal.

Born July 21, 1919 in Crosbyton, he graduated from Matador High School in 1938.

He was in his 40th year as an educator at his death.

Survivors include his wife, the former Ivaughn Veazey; a son, Don Rattan of Arlington; a daughter, Mrs. Kateva Rossi of Dallas; two brothers, Lawrence Rattan of Amarillo and Raymond Rattan of Dallas; three sisters, Justine Mullins of Dallas, Velda Meek of Plano and Dorothy Heredon of Bristow, Okla.; and a grandchild.

French Village Dedicates U.S. Fighter Plaque

Lt. Col. (Ret.) Jack Robinson Jr. and his wife Nancy, of Arlington, returned home recently from a European tour which included a visit to a French village where a plaque was dedicated to the 406th Fighter Group which was quartered there during World War II. Robinson, who grew up in Matador and is a graduate of Matador High School, served with the 406th.

In a letter to Mrs. Hazel Donovan, he writes: "Nancy and I were gone for six weeks and it would be impossible to describe the two weeks of my 'Sentimental Journey.' We had such good reception at every stop. I am enclosing an English translation of a speech given by a small village French Mayor in Normandy. The occasion was his welcome for us and for the unveiling of the plaque for the 406th Fighter Group.

"We were surrounded by a large group of poor French farmers from the area and a count and his wife who won the Chateau de Franquetot, which we used during the war for quarters for some of our personnel, and where the ceremony was held. I believe the speech better expresses the overall attitude of the people everywhere we went than any other words I have seen in print. The speech was given by the Mayor of Coigny, Monsieur Debrix."

Following is the speech: "More than 40 years ago on the night of the 5th of June 1944, few people could imagine that they would witness the most important military operation in world history.

"The object was to give back to Europe what she cherished most, her Liberty.

"Although under different circumstances, once again as in 1917, it was the American people who paid with their lives

by taking this very important mission into their hands.

"What sacrifice, I ask each of my fellow countrymen here present to imagine what it would be to leave loved ones with the thought of them being widowed or left orphans, arms at ready for a fight where few will return with only the idea of liberating the United States of America from oppression by a mad tyrant.

"Would we have done it? Would we do it tomorrow? A very unrealistic image, but it shows the merits and evidence of our token of esteem that we pay to our guests today, those who honour us by coming back to these surroundings where incomparable deeds were done.

"In our eyes you are heroes for always, no words, no speeches, no phrases could exprime our gratitude. You as a nation accepted to put your lives at stake and those of your families to free a nation... our nation.

"It was not your problem, but for duty's sake you settled it in the name of supreme Liberty.

"This being the 40th and perhaps the last official anniversary, I ask all Frenchmen present to remember and hand down to their children and future generations this modest testimony of a very young man who lived these great events. Never forget what they have done for us, and each time you meet an American let it be that you reserve for him gratitude and deep respect.

"This plaque which is for you and now being unveiled commemorates the memory of your combats, particularly of this region and the Chateau de Franquetot. In thoughts of recognition this little French girl will give you these flowers on behalf of us all."

Motley County Loses 41-0 To Kress

The Motley County Matadors were blasted last Friday night by the rifle arm of Kress quarterback Anthony Alvarado, who fired scoring passes of 20, 22 and 84 yards, and had two scoring runs during Kress's 41-0 victory.

The game was a non-district contest, and Motley County Coach Moe Eddleman said the team is still improving.

"We ran 53 plays this week and had 11 first downs," Eddleman said. "We made it to

the 20 yard line a few times but just never scored."

Cody Christian scored a touchdown on a punt return, but it was called back because of a clipping penalty.

The coaches named Mickey Zarate best defensive player and Christian as best offensive player of the game.

The Matadors will play at Amherst next Friday at 8 p.m. Fans are urged to turn out and give their support.

Wyatt Painting Dedicated In Tulia

A reception Sunday from 4:30 to 6 p.m. at the home of Dr. and Mrs. Kenneth Wyatt in Tulia was a prelude to evening activities at the First United Methodist Church when Dr. Wyatt's painting "Offer Them Christ," was the highlight of a special dedication service.

The original oil painting commemorates the 200th year of the Methodist Church in America.

According to the Tulia Herald, the idea for the painting came to Dr. Charles Kinder, president of the Foundation for Evangelism of the Methodist Church, and Dr. Wyatt at the Methodist Layman's retreat last year at Ceta Canyon. Dr. Kinder, who lives in Nashville, Tenn., was the featured speaker at the dedication service.

"Offer Them Christ" captures the moment in history when John Wesley sent Thomas Coke across

the Atlantic to ordain Francis Asbury, a decision which prompted the coming together of various Methodist societies in America to form the Methodist Church. Sept. 18, 1784 was the date of Coke's sailing from Pill, England, a tidewater port five miles down the River Avon, from Bristol, England.

Wyatt, a Methodist minister known for his paintings of the American West, flew to England and stood on the river bank at Pill to be able to make his painting authentic. The river itself has remained the same for thousands of years and the buildings in Pill are generally the same as 200 years ago.

For his models in the painting, Wyatt used members of the Tulia First United Methodist Church, with the exception of the figure of John Wesley, who was portrayed by Ervin Kern of Lakeland, Florida. All the models were present for the dedication. The painting was unveiled Jan 8 in Kissimmee, Fla., at the Congress on Evangelism.

Prints from the painting are being acquired by Methodist churches in this area, and proceeds from the sales will be used exclusively for evangelism in the United Methodist Church.

"To God Be the Glory" could very well be Kenneth Wyatt's motto. He never studied art, and says his ability to paint comes from God. His paintings sell for thousands of dollars each, and though his landscapes capture sunlight on a snow covered mountain, or on a field of bluebonnets with equal breathtaking beauty, he is best known perhaps, for his Western art. The actor Ken Curtis (Festus of Gunsmoke fame) owns 19 of Wyatt's paintings, and one hangs in President Reagan's Santa Barbara ranch home.

The beautiful Wyatt home is filled with originals, not only of the artist's paintings and sculptures, but many other objects of priceless heritage, all graciously presided over by the owners, Kenneth and Veda Wyatt.

It was standing room only at the Tulia church Sunday night as friends and congregations came from over the state and out of the state for the dedication of the painting. Members of the local First United Methodist Church and several guests attended the reception at the home and the dedication service. These included Bro. Eddie Marcum, Johnny Turner and son Colbey, Mr. and Mrs. Duke Lipscomb and Mesdames Charlie Johnson, Gale Stafford, Furman Vinson, Homer T. Jenkins, Mike Hoyle, Frank Pohl, Vance Gilbreath, Henry Ford, Dick Wright, R.E. Donovan, Robert Dorsey, Douglas Meador, Lewis Bostick, C.T. Jinkins and John Hamilton.

The most efficient, the most economical heating and cooling system for your home.

THE Electric heat pump.

It's part of "the plan" — the Energy Saving Plan

Here's how it works:

For Winter Heating

- Heat is absorbed by refrigerant in the outside coils.
- The compressor pressurizes the refrigerant and sends it to the inside coils.
- The heat from the inside coil is circulated through the house by the fan.
- The refrigerant flows outside and the cycle is repeated.

THE ELECTRIC HEAT PUMP: It can save you money on your home energy bills. And when it's used along with other WTU-recommended energy conservation measures according to the ENERGY SAVING PLAN, you can save even more. WTU will pay YOU money when you install an electric heat pump to meet the E.S.P. requirements that add to your home's comfort and energy efficiency. That's where the ELECTRIC HEAT PUMP comes in — it's part of "the plan" because it's the most efficient system for heating and cooling. During the winter it removes heat from the outside air and pumps it into your home. In the summer it reverses the process and becomes an air conditioner, so you get even comfort year-round. CALL YOUR LOCAL WTU OFFICE OR A FACTORY-TRAINED ELECTRIC HEAT PUMP DEALER TODAY TO FIND OUT MORE ABOUT SAVING ENERGY AND MONEY ON YOUR HOME ELECTRIC BILLS.

To Qualify, Your Home must be served by WTU and meet our Energy Efficiency Requirements.

Jr. High Mavericks Win Over Valley

The Motley County Jr. High football team opened play last Thursday against Valley. The M.C. Mavericks won the game by a score of 6-0.

Leading the way for Motley were 8th graders David Stafford, Gilbert Hernandez, and Brent Marshall. Marshall scored the only points of the ball game, taking an option pitch-out from quarterback Gilbert Hernandez and going 15 yards for the touchdown. Stafford was the leading ball carrier for the Mavericks. The offense gained

over 150 yards, while the defense held Valley to less than 50 yards.

Standouts on defense were Jarrett Jameson, Gilbert Guerrero and Brent and Brian Marshall. George Mangrum carried the ball one time and picked up 8 yards. He also did a good job on defense.

This week the Mavericks will travel to Crowell. The game has been changed due to repairs on the field at home. Game time is at 6:00 p.m. Everyone is urged to attend.

BRIEF EXPLANATORY STATEMENTS OF PROPOSED

CONSTITUTIONAL AMENDMENTS

GENERAL ELECTION

NOVEMBER 6, 1984

PROPOSITION NO. 1 ON THE BALLOT

House Joint Resolution 29 proposes a constitutional amendment that provides to state-chartered banks the same rights and privileges that are or may be granted to national banks of the United States domiciled in this state. For example, if national banks become authorized to maintain branch offices, this amendment would extend the same privilege to state banks.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment to provide state banks the same rights and privileges as national banks."

PROPOSITION NO. 2 ON THE BALLOT

House Joint Resolution 19 proposes a constitutional amendment that restructures the Permanent University Fund to provide: (1) for the expansion of the institutions eligible to participate in the bonding capacity of the fund to include the components of The University of Texas and Texas A&M University systems that have been added to those two systems of higher education since the Permanent University Fund was last restructured by constitutional amendment; (2) for the expansion of the purposes for which bond proceeds can be expended from new construction to include major repair and rehabilitation projects and the acquisition of major capital equipment (e.g., computers and laboratory equipment) and library books and materials; (3) for an increase in the bonding capacity from 20% (2/3 for The University of Texas System and 1/3 for the Texas A&M University System) to 30% (20% for The University of Texas System and 10% for Texas A&M University System) of the value of the assets (exclusive of real estate) in the Permanent University Fund in order to provide sufficient bond proceeds to care for the addition of 10 new institutions to those authorized to participate in the Permanent University Fund bonding program and to care for the expanded purposes for which the bond proceeds can be spent; and (4) for the dedication of the dividend, interest, and other income from the Permanent University Fund remaining after payment of principal and interest due on bonds and notes issued, to the provision of support and maintenance (over and above normal legislative appropriations) for Texas A&M University in Brazos County, Prairie View A&M University, and The University of Texas at Austin. House Joint Resolution 19 also annually appropriates \$100 million in each fiscal year, beginning September 1, 1985 (from the first money coming into the state treasury that is not otherwise appropriated by the constitution) for the use of those

agencies and institutions of higher education which are not included in The University of Texas or Texas A&M University Systems and, therefore, not eligible to participate in the Permanent University Fund bonding program. The amount of this appropriation could be adjusted every five years by a 2/3 vote of the Legislature, but could not be adjusted in such a way as to affect outstanding bonding indebtedness. Each institution of higher education that is eligible to participate (i.e., those institutions of higher education outside The University of Texas and Texas A&M University Systems) would be authorized to expend directly its share (such share to be determined pursuant to an equitable formula) of the \$100 million appropriation for the purposes of acquiring land, constructing and equipping buildings or other permanent improvements, major repair and rehabilitation of other permanent buildings or improvements, and acquisition of major capital equipment (e.g., computers and laboratory equipment) and library books and materials. Additionally, each institution would be authorized to issue bonds backed by a pledge of up to 50% of its share of the \$100 million annual appropriation for the purpose of land acquisition, new construction, and major repair and rehabilitation projects.

Except in the case of fire or natural disaster and in other extraordinary cases, verified by a two-thirds vote of each house of the legislature, all institutions of higher education would be precluded from receiving appropriations of general revenue funds for the purposes of land acquisition, new construction, and major repair and rehabilitation projects. The proposed amendment will appear on the ballot as follows: "The constitutional amendment to create from general revenue a special higher education assistance fund for construction and related activities, to restructure the Permanent University Fund, and to increase the number of institutions eligible to benefit from the Permanent University Fund."

PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 65 proposes a constitutional amendment which authorizes the legislature to provide for the payment of assistance to the surviving dependent parents, brothers, and sisters of officers, employees and agents of the state or its political subdivisions, including members of organized volunteer fire departments and members of organized police reserve or auxiliary units authorized to make arrests, who die in the course of performing hazardous official duties. Payments to surviving spouses and dependent children of

such officers, employees, and agents are already authorized by the Constitution.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the legislature to provide for payment of assistance to the surviving dependent parents, brothers, and sisters of certain public servants killed while on duty."

PROPOSITION NO. 4 ON THE BALLOT

Senate Joint Resolution 20 proposes a constitutional amendment which abolishes the office of county treasurer in Bexar and Collin counties if a majority of the voters in each of those counties vote in favor of abolishing the office of county treasurer in a local election to be held on the issue. All the powers, duties, and functions of the office of county treasurer in each of those counties would be transferred to the county clerk.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment to abolish the office of county treasurer in Bexar and Collin counties."

PROPOSITION NO. 5 ON THE BALLOT

Senate Joint Resolution 22 proposes a constitutional amendment which provides a new method of filling a vacancy in the office of Lieutenant Governor. The amendment requires the President pro tempore of the Senate to call together the committee of the whole Senate within 30 days after a vacancy occurs in the office of Lieutenant Governor. The committee would be required to elect one of its members to perform the duties of the Lieutenant Governor until the next general election. This individual would continue his duties as Senator at the same time that he performs the Lieutenant Governor's duties. If the Senator who is elected ceases to be a Senator before the next general election, another Senator must be elected according to the usual procedure to perform the Lieutenant Governor's duties. The President pro tempore would be required to perform the Lieutenant Governor's duties pending the election of one of its members by the committee of the whole Senate. The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the state senate to fill a vacancy in the office of lieutenant governor."

PROPOSITION NO. 6 ON THE BALLOT

House Joint Resolution 73 proposes a constitutional amendment that permits the use of public funds and credit for payment of premiums on non-assessable life, health, or accident insurance policies and annuity contracts issued by a mutual insurance company authorized to do business in this state. The constitutional prohibition against a grant of public money to an individual, association, or corporation or against becoming a stockholder in a corporation, association, or company has limited life and health group policies of political subdivisions to non-mutual insurance companies. The amendment would permit mutual insurance companies to bid for those policies.

The proposed constitutional amendment will appear on the ballot as follows: The constitutional amendment to permit use of public funds and credit for payment of premiums on certain insurance contracts of mutual insurance companies authorized to do business in Texas."

PROPOSITION NO. 7 ON THE BALLOT

House Joint Resolution 4 proposes a constitutional amendment to change the membership of the State Commission on Judicial Conduct to include one Judge of a Municipal Court and one Judge of a County Court at Law, who shall be selected at large and appointed by the Supreme Court with the advice and consent of the Senate.

The amendment also provides additional grounds for removal from office of judges or justices of Texas courts, and provides additional disciplinary actions that could be taken in lieu of removal or censure. The amendment would extend the Commission's disciplinary authority to masters, magistrates, and retired or former judges who hear cases by designation. The amendment creates a tribunal to review recommendations of the State Commission on Judicial Conduct for removal or retirement of a judge or justice. The review tribunal would be composed of seven (7) Justices or Judges of the Courts of Appeals selected by lot by the Chief Justice of the Supreme Court. The amendment also provides for appeal of the review tribunal's decision to the Supreme Court of Texas and grants an accused judge the right to discovery of evidence.

The proposition will appear on the ballot as follows: The constitutional amendment relating to the membership of the State Commission on Judicial Conduct and the authority and procedure to discipline active judges, certain retired and former judges, and certain masters and magistrates of the courts."

PROPOSITION NO. 8 ON THE BALLOT

House Joint Resolution 22 proposes a constitutional amendment which increases the per diem of members of the Legislature. The amount of per diem allowed during a calendar year would be equal to the maximum amount set in federal income tax statutes as of January 1 of that same year as a deduction for ordinary and necessary business expenses incurred by a state legislator. Current per diem is \$30; the maximum deduction is now \$75.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment to provide a per diem for members of the legislature equal to the maximum daily amount allowed by federal law as a deduction for ordinary and necessary business expenses incurred by a state legislator."
