Farmers Plead With Pickers As Fields **Grow Whiter**

GINS AT CAPACITY

Mammoth Crop Being Gathered As Fair **Days Continue**

With one fair, warm day following another, Motley county · cotton farmers are facing the Annie May Gannon, of Wil- . problem of gathering a record crop of the fleecy staple while an acute shortage of pickers prevails. Altho the highways are swarming with people seeking cotton picking, most of the travelers prefer to go farther west where they believe they will receive better wages and find better cotton. Joe Bloodworth, manager of the Whiteflat Gin Company farm, declared Monday, he had 300 bales of cotton open and only a small number of pickers. Many average farmers say they have from 20 to 50 bales of cotton open in the fields and that more is opening every day because of the unusual varm dry days. It is believed the gigantic crop will soon reach the peak of gathering, altho no killing

frost has been registered this fall. Mr. and Mrs. John Q. Citizen Motley County Dear Friends:

"When Groceries are sold for less

money, Bob will sell them"

You know how things are—everyone needs to save all they can. It seemed for a while that this fall would be the one we had been looking forward to but the price of cotton has changed the picture. So you, like everyone else, must spend your money wisely, especially your grocery dollars. Perhaps that is the reason more new customers come to our store every day, because we can give more value for the money.

When you spend a dime with us you receive ten cents worth of merchandise, for we sell for cash (this is for your benefit and protection) therefore you don't have to pay any bad accounts. Human nature is so constructed that some people don't or can't pay their bills and the grocery store which sells on time must add these lost ac-**Buy groceries** counts to the price of merchandise bought by you. This

is logical and a fact which defies any other answer. at a cash store--If you are not already a customer of Bob's Foodway, get full value for we invite you to come in today and try the purchase of one bill of groceries. Compare our prices, our quality every dollar ... and our new, modern stock of the finest groceries and

meats obtainable. Remember that during a year's time you spend more money for food than anything else and when you save a few pennies on each article, the saving amounts to dollars within the year. Quit paying for groceries you never bought and never received, and trade at a grocery which has no lost accounts. There is is no easier way to earn money than to save it.

Oil Company Employes Review Four Years' Self Help Under Credit Plan

Wage - Earning Sponsors Oklahoma's First Credit Union Finance Cars, Homes, Farms and Even Babies

PONCA CITY, Okla.: Some 1700 sitizens of this community in the amploy of the Continental Oil Company are now commemorating the fourth anniversary of a cooperative enterprise that has given them the financial power to build homes, buy cars and furniture, take up side-line farming and even to raise families which otherwise would be a severe strain on the pocketbook.

The enterprise is officially known as a Credit Union but was better described today by Joe C. Creager, lits treasurer, as a wage pool that supports reliable members who need cash or credit but have no reliable account their jobs. tollateral except their jobs.

The Credit Union operates on the principle that borrowing is a national habit, a convenience and often a dire necessity which should be made as available to the man of small means as it is to the well-to-do. Borrowing, explains Treasurer Creager, is just another name for credit or installment buying and is the life-blood of American business. With most banks lacking the facilities to handle small loans and with the ever-present loan shark ready to pounce on a hard-pressed workman, the employee's Credit Union offers the only relief to the wage earner who has unexpected sickness, an addition to his family or is threatened with the loss of his home or his car. The Credit Union operates on the

Creager today pointed to the rec-ord of more than half a million dollars loaned by the Conoco Credit Union during the last four years and cited the example of a girl who was over her head in debt due to the prolonged illness of her mother. "The Credit Union." he said, "looked The Credit Union." he said. "looked into her troubles in a sympathetic manner, not with a view of finding out how much profit they could make on a loan but with the object of putting her on her feet. Treasurer Joe Creager, agreeing that this refinery worker can afford a new car, obligingly extends a loan.

pher's pay."

Between recitals of other nearly impossible achievements of the Credit Union, Treasurer Creager explained that assistance is not confined to members who are in trouble. "We have made loans," he said, "for wedding expenses, for the buying of Christmas presents, for backalimony payments and almost anything else you can think of. With the shorter hours and increased leisure, a lot of men are going in for farming and making a success of it. The Credit Union not only finances them but gives much-needed advice on the size and type of

and every doctor and hospital in link between the Credit Union and the company. The company furnishes his salary and office space and seems to consider it a good invest ment in view of the improvement produced in the workers morale.

The Conoco unit came into being a few days after enabling laws were passed by the Oklahoma State Legislature in 1933, and was the first in this area. Employees elect a board of directors who in turn lect a credit committee, a super visory committee, a president, treasurer and other officers. Start-ing with 108 members and deposits of \$381.64, this Credit Union now has more than 1700 members and close to \$150,000 to draw upon. Funds consist of voluntary savings and profit earned on loans or through

investments is paid as interest to depositors.

The essence of the success of the Conoco Credit Union, according to Treasurer Creager, is the sympathetic and close contact of the fellow members and their elected officers and committees. "Then, too, he says, "the money works for those it belongs to and puts support behind the consumption of goods instead of production. It's done a lot of good."

Chevrolet today made public its Civil Service Exams new prices. They represent an increase ranging from 3.4 per cent, The United States Service Comto 5 percent, or in dollars, of \$26 mission has announced open com-

to \$34 per model. The popular sedan in the Master DeLuxe series shows an increase of \$26, from \$770 to \$796. The increase in the case of seven models is less than \$30, and in the other five is between \$30 and \$34, the latter figure applying to the Purchasing officer. \$3,200 a year Master Sport Sedan.

These new prices now include assistant purchasing officer, \$2,600 a year; junior purchasing officer, the S. A. E. group of accessories \$2.000 a year; Procurement Divi such as front and rear bumpers, spare tire and tube, radiator ornament, and in addition, on the tained from the Secretary of the DeLuxe models, the right hand United States Civil Service Board tail lamp, all of which were not of Examiners at the post office or heretofore included in the total customhouse in any city which prices listed but were sold at an has a post office of the first or extra charge to the buyer.

WINTER OIL-PLATING

Barely room for a whisker between engine parts,

Suppose other oils dared to claim they flow as fast as your correct Winter grade of Conoco Germ Processed oil. That still could never change the fact that this patented oil has gone into all the million narrow places that need it, before other oils budge an inch.

Only one thing can give you all that difference... exclusive OIL-PLATING.

OIL-PLATING is a lining of slippy rich lubricant, sort of welded all over your engine's insides by Germ

OIL-PLATING cannot drain down all day, all night, all Winter. Keeps your engine constantly oiled in advance -while you're still at your desk . . . or at breakfast.

No faint chance of an instant's poor oiling. Not half a turn of the starter wasted. And you don't often "add a quart," for OIL-PLATING neither drains right down nor burns right up. The most noticeable Winter change you ever ordered...Germ Processed oil from your Conoco Mileage Merchant. Continental Oil Co.

Young Texan on Broadway

Recognition came to a young Texas actress recently when Miss Recognition came to a young Texas actress recently when Miss Gladene Parr of Waelder was chosen from among 300 applicants for a role in the latest production of the Theater Guild of New York. The play, "Madame Bovary," opened in Washington and then in New York. Miss Parr is a graduate of the Speech department of the Texas State College for Women, and won a prominent role in "Cavalcade" last summer. While a student in Denton she was named the most beautiful girl and the most outstanding dramatic stu-

standing of the problems of highway construction and financing. He has spent many years in related phases of highway construcion and for the past several years

DATUS E. PROPER

has been vice president and sales phalt Co. Mr. Proper long has in accord with the objectives of the Association, namely, the preservation of revenues collected from the motoring public highway construction and objectives will be reurged actively in all

parts of the state, he said. The election of Franz C. Groos Bank of San Antonio, as secretary-treasurer was announced concurrent with Mr. Proper's selec-

Mr. Proper is an associate member of the American Society of Civil Engineers and served in 1935-36 as vice president of the Texas section of this technical group. He is a member of the Rotary Club and was president of the San Antonio Club in 1934-35. He is also immediate past president of the San Antonio Chamber of Commerce and has been active in other civic organi-

He is a vetran of the World War, enlisting as a private and being discharged as a first lieutenant of feld artillery. He served several years after the war on the engineering staff of the Missouri Pacific lines with headquarters at Houston. His technical training includes a civil engineering degree from Iowa State College, one of the foremest highway engineering schools in the country.

Two Cars And **New Truck In** '38 Ford Line

NEW YORK. Oct. 27-An advance showing of 1938 Ford V-8 cars and trucks opened this afternoon at the Ford Metropolitan showrooms at 1710 Broadway.

Two distinct Ford V-8 cars, differing in appearance, appointments and price, were presented. president of the Groos National One was the de luxe Ford V-8, the other the standard Ford V-8.

The standard car is designed for owners to whom economy in first cost and operating cost is para--

mount. The de luxe car provides added luxery and style for those

Both cars have the same V-8 chassis. The eight de luxe types are available only with the 85 horsepower V-8 engine, the three standard types with either the 85

sister of the standard. It is entirely new in appearance. The radiator grille is of new design. Appearance of the hood is longer and more sweeping. Fenders are massive. Interior appointments are in keeping with the styling of the exterior. Substantially more in the cloesd sedans, greater passenger comfort and much larger luggage space are provided.

The standard V-8 cars reveal new styling, with a different radiator grille design, long hood and flowing contours. The spacious nteriors are roomy and attrective ly upholstered and appointed.

In adition to the two passenger cars, Ford is to present an ex-panded line of V-8 trucks and commercial cars. Both are newly styled to lend added "eye appeal" in commercial transportation.

A new group of "one-tonner' trucks also is offered, in addition to the 112-inch commercial cars and the 134-inch and 157-inch wheelbase trucks.

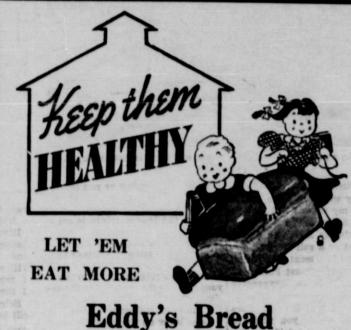

The new "one-tonner" is designed specifically to bridge the gap between the commercial cars and the truck groups. Available with either 85 horsepower or 60 horsepower engine, it is expected to make the economies of the latter engine more widely available in commercial transportation.

Other advances for 1938 are the new 134-inch wheelbase truck, re-placing the 131½-inch wheelbase in the big truck line, a new frame width for the 134-inch and 157inch wheelbase units, improved brakes and easier steering and stronger construction throughout.

ight Heart, Light Home to See Best in Life

Life is fleeting, says the poet. Hence, we say "Why not get the utmost out of life 'ere it fleets?" To lighten the heart, light the home. For two reasons: conserve eyesight ... brighten the domestic scene. Doctors can tell you of proper light's value; our lighting advisor can show you how good light will beautify living room, dining room, bedroom, kitchen or basement. Glare and sudden contrasts are eyesight's worst enemies. Ask our lighting advisor to show you how they can be eliminated at little or no additional expense. There is no charge for a lighting demonstration.
