72ND YEAR—No. 18 MATADOR, MOTLEY COUNTY, TEXAS, THURSDAY, JULY 7, 1966 PRICE SEVEN CENTS

TRAIL DUST

By DOUGLAS MEADOR

A mountain stream does not repair because a boulder falls to its course. The waters find way around and are not diminished by the interruption.

Some where in the Plans of Providence the Mesquite was destined to awaken from a mediocre position among trees and have phenomenal growth. Not only in West Texas and South-Central Texas, but also on the northern ranges of Mexico. In the land where Pancho Villa and his revolutionary soldiers once ranged, the Mesquite is conquering. New springs are showing and cedar trees are already claiming much sparse grass from the cattle in the state of Chihuahua there is evidence that the Mesquite will eventually take possession of the more fertile soil.

There is great poverty and great wealth closely associated over much of Mexico. The same, however, may be said of the United States. We are further advanced in some ways, but Mexico has a great potential, most of which rests in its almost limitless natural resources. There is enough rich soil and water on the great coastal plains of Western Mexico to feed the nation with abundance.

Surely there are no friendlier people in the world than our neighbors to the south. Their ways of life are different and their language is different, but the general attitude is one of friendship. They want to please their visitors. One word of caution, however, is: If you are in a hurry please do not go to Mexico. They can not and they do not want to change their pace, and it is intelligent and delightful.

Almost with the crossing of the border you feel the tenseness of our way of life escaping. The further you go into the interior, the gentler the attitude of life.

Citation Awarded Vance Gilbreath

TIES OF FRIENDSHIP extending across the years were renewed Saturday and Sunday at Flomot's 5th homecoming held every three years. Ex students of Flomot schools and former residents returned from long distances to attend the reunion.

Despite the excellent program arranged for returning exes, the pleasure of renewing old friendships and "visiting" appeared to top the list of entertainment.

Motley FFA Boys Win National Trip

Expense-paid trips to the National Future Farmers of America Convention in Kansas City, Kansas, in October were awarded two Motley County youths recently by Southwestern Public Service Co.

Gary Markham, 17, son of Mr. and Mrs. Elvin Markham and Kelly Hand, 17, son of Mr. and Mrs. Billy Hand of Roaring Springs, were among five boys from the High Plains area to win the trip.

The two boys were winners in two of five fields taught during the three-day FFA Electric Workshop sponsored by the SPSC and held at the Episcopal Church Conference Center, Amarillo, June 20-22.

Markham, winner of the electric controls award, received the School Agriculture Award this spring and the Farm Electrification Award as a sophomore.

Hand, who attended American Legion Boys State, won the farm wiring award. Recipient of his chapter's farm mechanics and livestock production awards, he will be a senior in Roaring Springs High School this fall.

Ninety-three boys from three states competed in the workshop contests, directed by Sam Thomas, SPSC agricultural management representative.

Girls, Boys State Delegates Report At Legion Meeting

Three enthusiastic Motley County youths who returned last month from Austin and a brief whirl in the world of politics presented the program at the monthly meeting of the American Legion and Auxiliary Monday night, July 4.

Karol King gave a graphic account of her ten day stay at Bluebonnet Girls State and her debut into politics with 400 other Texas girls. Miss King was a member of the House of Representatives and in the Nationalist Party, the Federalist being the other political party. She was sponsored by the Auxiliary, El Progreso Study Club, Eternas Study Club and Matador Garden Club.

Second on the program was Dick Moss, a delegate at the twenty-sixth annual American Legion Boys State, June 11-18, at the University of Texas, Austin. Moss was a member of the Longhorn party and elected to the 96-member House of Representatives by the 52 boys in his city.

Kelly Hand of Roaring Springs, a successful candidate for House of Representatives and Commissioner of the Court of Criminal Appeals, was affiliated with the Pioneer political party. Hand was sponsored by the local Legion post and the Roaring Springs Lions Club.

The purpose of both the Girls and Boys State programs is to "learn to do by doing." Upon arrival each citizen is assigned to one of the two existing political parties and functions as a member of his party, attends precinct, county and state conventions and votes in the party primary.

Other young guests at the meeting included Karen Elliott, last year's delegate to Girls State, who introduced the program, and the three boys who attended the Salvation Army's Camp Hobbitzelle, Robin Smauley, Billy Osborn and Doug Meador.

Elect Officers
Mrs. Fred Simpson, a Gold Star Mother, was re-elected president of the Ladies Auxiliary in a business meeting of that group following the program.

WORK

"I am the foundation of all prosperity. I am the fount from which all worthwhile accomplishments flow. Everything that is of value in this world has something of me in it. I am the salt that gives life its savor.

I am the sole support of the poor, and the rich who attempt to do without me live futile, frustrated lives, and till premature graves.

I made America. I built her matchless industries, laid her incomparable railroads, created her cities, and reared her skyscrapers.

I am the friend of every ambitious youth. It he makes my acquaintance when he is young and keeps me by his side throughout his life, I can do more for him than the richest parent.

I keep the body lean and fit, the mind alert, and when I am neglected, both body and mind grow fat and sluggish. I am the parent of genius itself.

I am represented in every paper that flies from the press, in every loaf of bread that springs from the oven, in every train that crosses the continent, in every plane that wings its way through the sky, and in every ship that steams the ocean.

Fools hate me, wise men love me. The man who keeps his hand in mine throughout his life, never dies completely — because that which he has wrought with my help, lives on after he has gone. The man who shirks me and scorns my aid — never really lives even though he may continue to be present.

WHO AM I?

With their eighth victory under their wings the Owls hiked their Junior League lead to four games.

David Garrison, who met with much success on the mound Monday night against Quitaque, was starting pitcher Garrison was relieved in the fourth by Mark Hill, followed by Ronnie Welling. Silverton stole nine hits off this trio.

The first three Eagles up in the ball game went down on strikes, while the Owls scored in the first on a wild pitch. An error in the second gave Matador its first run.

Trailing 4-1 in the third, Kenneth Marshall got a base on balls and Hill was on by fielders choice. Welling followed with a single, the Eagles' only hit as they brought in six runs and shaded the Owls 7-6.

After the third inning rally, the Eagles scored no more until the final inning when Hill slipped in.

Don Cox, batting 346, belted a triple and a single for two of Matador's four hits. Garrison and Welling each singled.

The Eagles take their last swoop at the powerful Silverton Owls in the final game of the season July 14 in Matador. Indications are that if the Eagles can overcome the pitching problem that becomes acute only when they meet the Owls, they could easily avenge the three

losses handed them by Silverton.

Outsiders Crush Paducah Dragons

Excellent fielding by short stop, Jimmy Welling, precision pitching by Charles Meador and a series of good hits in the sixth converted a scoreless game into a 7-2 victory for the Matador Outsiders Sunday afternoon when they tangled with Paducah.

Meador pitched nine innings of outstanding ball and surrendered five hits to Paducah, while Matador managed 11 hits off Crumpler, losing pitcher.

Welling aptly handled a hail of grounders and contributed two hits to Matador's scoring effort to share the limelight with Meador.

After five scoreless innings, Matador scored three runs on errors in the sixth to take the lead. Paducah retaliated with one run in the seventh.

Apparently tiring of the meager score, Matador came alive in the eighth, scoring four runs and out-distancing the Dragons 7-1. Tim Green led off with a single, Pat Green doubled and Meador drove in both runners with a single. With Meador a-broad Jimmy Don Green blasted a triple and Tom Green singled, scoring Meador and J. Green with Matador's final runs.

Paducah scored again in the ninth on an error to produce the final 7-2 verdict.

COUNTY AGENT DALLMEYER SAYS:

Stockmen who missed Dr. Jan Bonsma while he was in this area will be interested in the following information. He is scheduled for a meeting at Texas Tech in Lubbock on Friday, July 15. I don't have the time of the program, but have been notified that the meeting is open to anyone interested. Watch the Lubbock paper and TV stations farm programs for additional information.

He will also be at the 4-H Barn in Wichita Falls on Saturday, July 16, at 6:30 p.m. Additional information on this meeting can be obtained by writing the Wichita Falls Chamber of Commerce.

Dr. Bonsma has worked out a system to tell how to select good breeding animals; learn if cows and heifers are bred and determine if cows are producing calves as they should by looking at certain body characteristics. I attended one of these meetings in Hereford in 1965, and would recommend attending such a meeting if at all possible. These two meetings are all that

are scheduled for Texas at the present time, with his tour also covering several states.

★ Watch evergreens carefully this time of the year, especially if old worm bags are found on twigs. Eggs are laid in the bags, and tiny larvae start making small bags by chewing off small pieces of the tree.

Sprays or dusts of Toxaphene, Sevis or Malation are effective, but be sure to follow directions. Also pick up and burn all bags found.
