Garrad, 40, with a load of 127 head of Black Angus cattle, enroute from Prairie Stock Yards, Starkville, Mississippi, told investigating officers Highway Patrolman Ira Kuhlman and Neal Haralson that he was on his way to Clovis with the load of cattle. The accident happened about 3:30 Sunday afternoon four miles north of Matador. Only one animal was killed, but the load scattered in several directions and were gathered by local ranchers. 116 head have been recovered and others are believed to be in the Bob Martin or other pastures, and will be found later. - Tribune photo

Can You Spot The Difference In INSURANCE **AGENCIES?**

It's easy. If an agent represents many companies and handles all types of insurance, you know he is fiercely independent. He isn't tied to any one company and by representing many, he can place your business where it's best for you. Working on a commission basis he represents only your interests.

And if he lives in the community, he's local. A local, independent agent is hard to beat.
