## 13 Collegians Open Show at Six Flags

Thirteen university students from Texas and across the nation began a Roman holiday at Six Flags Over Texas this week as the park's annual campus review opened for the summer season.

The musical show, "T.V. B.C.," stars the talented array of young college men and women in a story of what the television industry might have been like during the days of the Roman Empire.

The 13 performers are a select group, a Six Flags official explained. They were selected from more than 2,000 applicants who auditioned for Six Flags scouts in a year-long talent search all over the United States.

Richard Campbell of Matador, one of eight Texans in the review, is a junior at Texas Tech in Lubbock and has performed in some university musical shows — more acting than most of the others have experienced. He is a journalism major, a good singer and a defensive end on the Tech football team. During the course of the show, Campbell holds down the part of the Roman Emperor, Julius Caesar.

The Six Flags talent search also garnered five out of state performers: Lynn Breunig from Knoxville, Tenn.; Deborah Hackett from La Mirada, Calif.; James Nockels from Carroll, Iowa; Colleen O'Mara from Hattiesburg, Miss.; and Diane Wastjer from Evansville, Ind.

In addition to Campbell, the other Texas troopers are: Buddy Dooley; Patrick L. Evans, Ellen Fuller, Victor Michels, Jan Owen, John K. Roberts and James S. Warren.

The review is performed at the Southern Palace Theater inside the park.

## TRAIL DUST

By DOUGLAS MEADOR

A pioneer of this area used to tell about his community where everyone was forced to haul water. He said they seldom had a death because about the time a man was sick enough to die, he had to haul some water.

A store in a neighboring town has alligator belts at \$12.50 each. Of course alligators are scarce in West Texas and I am reminded of my namesake uncle who would work a whole season with a range wagon, using hobble rope for a belt. I am certain he never heard of alligator belts, and the price would have been prohibitive, being more than the cost of his entire wardrobe with the exception of his boots.

The taste is least offended by the dose that has been graced by the tincture of love.

Then there is that West Texan who never worked. Early in life he had heard that to sweat on a certain day of the year would prove fatal. He didn't know the day and refused to take any chance.

It is ironical that many old items which pioneers had no choice but to use, are now worth as much as five times their original cost, as antiques.

Another fairly accurate way of determining a man's character is not to pay any attention to his own evaluation of himself.

Considering the embarrassment a bank account is subjected to, it is no wonder its face often shows streaks of blushing.

**YOUTHFUL LEGISLATORS**—In Austin this week, attending the 28th annual American Legion Boys State sponsored by the Department of Texas and held on the campus of the University of Texas, are three Motley County boys, shown above. From left they are, Donald Cox, of Matador, son of Mr. and Mrs. L. M. Cox, James Dale Palmer of Roaring Springs, son of Mr. and Mrs. J. D. Palmer, and Orville J. (Joey) Lee Jr., of Flomot, son of Mr. and Mrs. Orville Lee. The Lions Clubs of the three communities assist in sponsoring the boys who attend. Highlight of Boys State will be a trip to the Capitol, Friday morning where each elected Boys State official will be given an opportunity to serve in his respective office for a day.

## Baptists to Host Workers Meet

First Baptist Church will host the Caprock Baptist Association's Workers Conference Tuesday, June 18, it was announced last week by the pastor, Rev. Larry Heard.

Emphasis will be on "Doctrines" and speakers will be Rev. C. H. Murphy, pastor of First Baptist Church, Silverton, who will speak on "Heaven," and Rev. Floyd Bradley, pastor of First Baptist Church, Floydada, whose subject will be "Salvation."

The association will convene at 6:30 p.m. for Executive Board meeting, followed by supper at 7:15, served in the church basement. The evening service will begin at 8:00 p.m.

## PHARMACISTS MEET

Bob Stanley and son, James Stanley, last night attended a meeting of the Greenbelt Pharmaceutical Association, held in Childress. The meeting starting at 8 p.m., was held at Gay's Cafe, with pharmacists from area counties attending.

Mr. and Mrs. Jesse Spencer and daughter, Rita of Fort Worth, are visiting her mother, Mrs. R. L. Anderson and with her sister and husband, Mr. and Mrs. E. B. Jenkins. Also visiting Mr. and Mrs. Jenkins are their grandsons, Steven and Jeffrey Braselton of Corpus Christi.

## Mahon Deplores Breakdown of Law and Order

In a statement from Washington this week by Congressman George Mahon in which he deplored the present crime situation in the nation, especially in large cities, he said: "what this country urgently needs is not more laws but more enforcement of the laws we already have."

"With some exceptions, big city mayors have demanded more and more handouts from Washington and have failed to lower the boom on law violators."

"The Supreme Court by handing down decisions which over protect the criminal and under protect the public has vastly complicated the problems of law enforcement officers. Law enforcement officers are not receiving adequate support."

"This all adds up to an intolerable situation and the patience of the American people is reaching the breaking point. There is a sense of insecurity everywhere."

"I am encouraged over the rising tide of concern and resentment which the people are displaying. They are rightly demanding an end to the appeasement of the lawless. This is the first step toward effective action."

## Rites at Paducah for Mrs. L. Smith

Funeral services for Mrs. Lula Bell (Jake) Smith, 84, a resident of Matador since 1949, were held at 5 p.m. Tuesday in the First Baptist Church of Paducah with the Rev. Bob Beck officiating.

Mrs. Smith died at 10:15 p.m. Sunday, June 9, at her home here after a lengthy illness. She was a native of Greenville.

Burial was in the Garden of Memories Cemetery at Paducah, under the direction of Norris Funeral Home.

Survivors include six sons, Dan Smith of Bronte, Fritz and Sandy Smith of Paducah, Mutt Smith of Matador, Ernest Smith of Lake City, Colo., and Neal Smith of Lubbock; four daughters, Mrs. Clara Trulock of Muleshoe, Mrs. Thelma Clark of Seymour, Mrs. Odell Green of Earth, and Mrs. Louise Trulock of Paducah; and a number of grandchildren and great-grandchildren.

## Social Security Schedule Given

A representative of the Social Security Administration will be in Matador, at the First State Bank, on the following dates: Tuesday, July 2, August 6, and September 3, at 9:30 a.m.

Announcement was made by the Social Security Branch Office at 1401-B West 5th Street, Plainview. Service may also be obtained by phoning that office, 293-4371, the announcement stated.

## Fair Weather Puts Farmers in Fields

WARMTH and sunshine returning to West Texas in the past few days has put the farmer into his field, attempting to get seeds planted during the brief remaining planting period.

Old-timers say the country has the most favorable season in two decades. The period for planting cotton and other row crops is becoming critically short. Some

farmers report having planted four times.

Early cold weather caused seeds to rot before sprouting and recently heavy rains, hail and high winds have destroyed young crops.

Soil in most fields is in excellent condition and with continued sunshine and warm (hot) weather, crops will develop rapidly.

Streets in Matador and Roaring Springs have been near deserted during the past three days as farmers hurry to get their crops planted. Cottonseed, which is expensive, is declared available, despite the greater than usual demands.

While farmers are hurrying to get seed into the ground, cattlemen say range conditions are the best in many years. Water holes are filled and continued rains have produced abundant grass.

At present the farmer hopes to get his crop planted and up to sufficient size to withstand rains which may follow the unusually rainy winter and spring.

**WOMAN IN POLITICS**—Miss Judy Marrs, daughter of Mr. and Mrs. Bruce Marrs is in Austin attending Bluebonnet Girls State, at St. Edward's University, a mythical 51st state, where, for a period, the citizens of Girls State organize their own city, county and state governments. Mrs. Marrs and her other daughter, Peggy, accompanied Judy to Amarillo, Monday, and she joined a busload of delegates from the Panhandle, Tuesday morning for the trip to Austin. Approximately 450 girls from throughout the state are attending Girls State, which will continue through June 21.

## From Vietnam

Sgt. Herman Melvin Hearn, son of Mr. and Mrs. Herman Hearn, Rochester, arrived home May 11 after spending the past year in Viet Nam. His wife, the former Eulalia Smith, daughter of Mr. and Mrs. Joe F. Smith of Flomot, and their two daughters met him at the airport in Lubbock.

He saw his younger daughter, who is eight months old, for the first time.

Mrs. Smith met her husband in Hawaii for a week's visit in February of this year. Sgt. Smith and his family will move to Camp Fort Hood, where he will be stationed for the remaining six months of service.

## Roaring Springs Has Storm Scare

A tornado sighted near Mead about 9 a.m. Monday was the cause of excitement at Roaring Springs when word was received for "Roaring Springs to take cover" since the storm was headed that direction.

A storm signal was sounded and the town "took cover." In a short time the business section was deserted. Many residents went to a hill west of town to better observe the clouds.

About 25-inch of rain resulted from the cloud but no storm developed.

## A&M-Alabama Game To be Shown Lions

For special attention of Aggies and Exes is the announcement that the A&M-Alabama Cotton Bowl game played Jan. 1, will be shown at the meeting of Matador Lions Club, Tuesday.

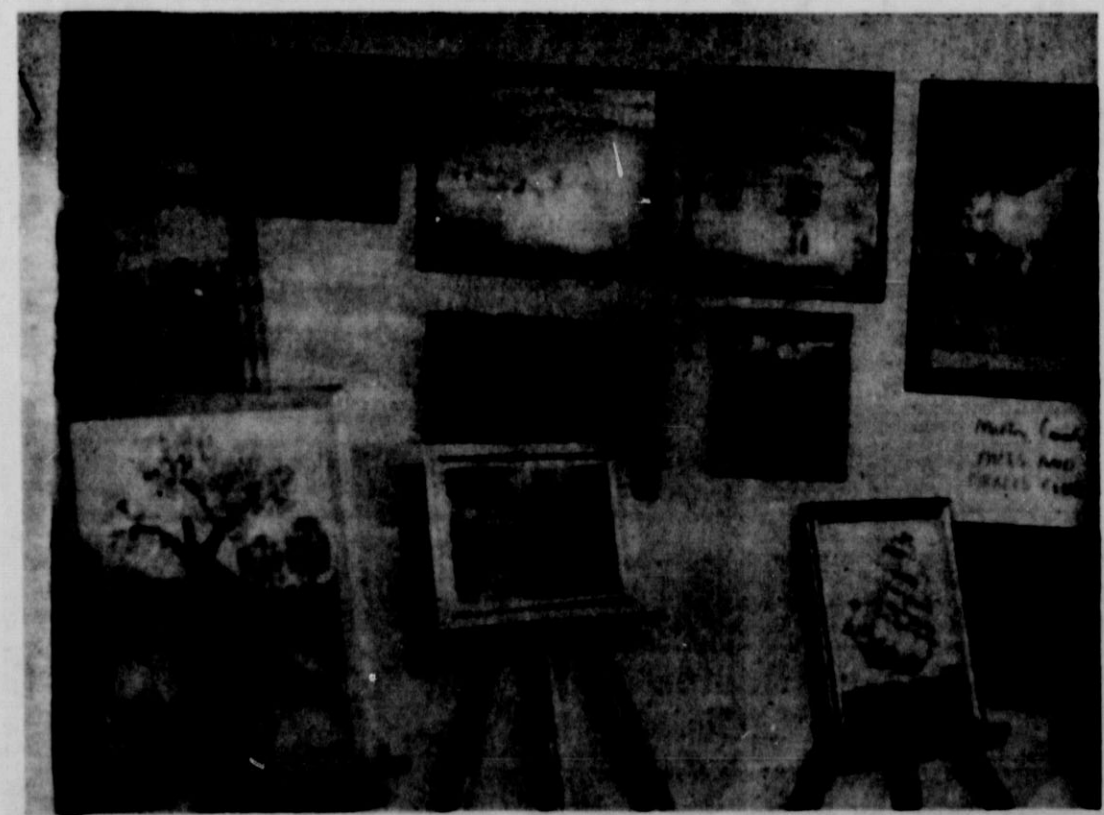

Arrangements for the film were made several months ago by the program committee, according to the announcement.

All Lions Club members are urged to attend the regular luncheon-meeting.

## HOME FROM LUBBOCK

Mrs. Farris Fish has returned to her home here, from Lubbock where she spent five weeks following hip surgery in West Texas Hospital. Although still confined to bed, Mrs. Fish is very optimistic regarding the success of the surgery for arthritis, in enabling her to walk again.

Mrs. Fish went with a Seigler ambulance to bring his wife home, Saturday.

**TOURIST ATTRACTION** for Matador is the display of art work and handicrafts arranged by Motley County Arts and Crafts Club in the windows of the former Commercial Grocery. Handicrafts (not pictured) are on display in the opposite window. Mrs. Ward Rattan, president of the club, said the display was arranged as an attraction for the Texas Plains Trail. From Crosbyton to Matador, the Trail follows FM 28 almost to Dougherty, turning east to Roaring Springs on FM 684, where it joins State Hwy 70 going north and crossing US Hwy 70 at the intersection west of Matador. In visiting other towns recently, Mr. and Mrs. Rattan noticed several had collections of historical interest, brought to the attention of tourists by large signs inviting them to visit the town.

**NO STARVATION** in Matador. Above photo is proof that people are not hungry in Matador with lamb's-quarters (delectable greens) growing out of the sidewalk, free for the taking. Also jack rabbits are fat and plentiful, and the black-eye pea crop looks very promising. The information should give comfort to the "people watchers" of the Citizen's Board of Inquiry into Hunger and Malnutrition, in Washington. The board released an article to the press in April declaring there was chronic hunger in 256 counties in the nation. Motley, Cottle and Foard were listed as "hunger counties" in West Texas.

## Shower is Courtesy For Miss Hamilton

Miss Mary Jane Hamilton, bride-elect of Carl Carter was honored with a pre-nuptial shower Monday night at the home of Mrs. Marvin Brotherton.

Sharing hostess duties with Mrs. Brotherton were Mesdames Fred Simpson, A. L. Fair, Albert Daffern, J. R. Whitworth, W. N. Pipkin, Frank Pohl, R. W. Overstreet, Glenn Woodruff, John Fitzgerald, Scott Robbins, W. C. Pallmeyer and W. F. Jacobs and Miss Roberta Jameson.

Reception hours for the courtesy were from 8:00 to 9:30, with Mrs. Pohl registering the guests.

A white, embroidered organdy cloth over blue covered the dining table. Opposite the crystal punch service was an arrangement of blue daisies and white shasta daisies, and tall white tapers in twin silver holders. Served with the punch were cookies, blue molded mints and nuts. The bride-elect's chosen colors were also featured in tea napkins stamped with the couple's names in blue.

Mesdames Jacobs, Fitzgerald and Whitworth alternated in pouring.

Attending from out of town were Mrs. Tom Hamilton and Miss Doris Lesh of Plainview, and Mrs. Ethel Brown of Roaring Springs. Also present to meet friends of his fiancée, was Mr. Carter.

## Play School Is Concluded

The Play School, conducted by Matador High School home economics girls ended Friday, June 7, with a picnic in the park and a visit to Mat, the buffalo.

The children brought sack lunches which they ate in the City Park after a period of playing on the swings and other playground equipment.

Due to the recent weather, most of the daily play sessions were held in the school gymnasium, where they listened to recorded music and stories. The swings, seesaws and slides on the school playgrounds were also enjoyed by the youngsters. Excitement ran high when they were taken on a tour of the high school.

Refreshments of orange juice and cookies were served. These had been frozen by the girls in Homemaking classes before school was out for the summer.

Mrs. A. L. Fair, Home Ec teacher, supervised the project. Girls participating were June Sanderfer, Brenda Wason, Gail Lynn, Laura Jacobs, Melissa Bailey, Debra Garrison, Jean Lee, Cindy Marshall, Debbie Smallwood, Mae Storey, Jan Higginbotham, Jeannette Day and Sammie Thompson.

Children who attended included Bobby Mitchell, Jackie Bearden, Letha Bumpus, Charles Ray Campbell, Robert Davenport, David Green, Barbara Lee, Lavon

**Editorial**

**ALREADY A GUARANTEED INCOME**  
Participants in the poor people's march on Washington are demanding a minimum wage—earned or unearned.

If they get it, and with Congress running scared the way it did after the riots following the King assassination there is a probability they will, there should certainly be rigid stipulations attached to the program.

A city official at Waco said last week his department is finding it impossible to locate men who will work in the street, water and sewer departments. And in this case, as in most today, there is no discrimination as to race, color or creed, and probably not to age unless the job is too physically punishing.

The same thing is doubtless true all over the country. There must be hundreds of cities finding it difficult, if not impossible, to hire workers.

If that is true, then the poor people should be able to find employment if they really want it, and there should be no need for a guaranteed annual income.

If there is not some stipulation that the would-be recipients of a guaranteed income take employment if it is available, then we're going to be paying people to be lazy and shiftless.

It should be made clear now that work is the only answer to the problem. Jobs are the big need, and it doesn't seem that it would be necessary for the government to start new projects just to put people to work when business and city governments are so short-handed.

There is already such a thing as a guaranteed income—for those who are willing to work at what jobs can be found.

**Beet Armyworms Attack Cotton**

Beet armyworms have been found in several Motley County cotton fields County Agent Bill Pallmeyer disclosed this week. These worms which may be black, light green, or dark green can ruin a stand of cotton by feeding on the leaves and stem.

According to Extension Entomologist in Lubbock, the only satisfactory control is an application of insecticide. Recommendations are given in the Cotton Insect Control Guide recently mailed to all cotton producers.

Replanting was not recommended to control the worms as their cycle is 21 to 27 days. Many plants also host this insect which has been found moving into cotton from weedy ditches and fence rows.

### COW POKES

By Ace Reid

"Maw, quite excitin' that ole cow or she's gonna quite givin' down her milk!"

### COUNTY AGENT PALLMEYER SAYS:

Several people have asked about the chemical composition of mesquite seed. The mesquite bean is 41.9 percent crude protein, 153 percent phosphorus, 48 percent potassium and 06 percent calcium. The bean and the pod are 11.0 percent crude protein, 10 percent phosphorus, 66 percent potassium and 08 percent calcium. The mesquite pod alone has 7.6 percent crude protein, 09 percent phosphorus, 80 percent potassium and 08 percent calcium.

Mesquite beans would make fair livestock feed, but it must be remembered that it takes a lot of beans to make a pound of feed. Also mesquite does not make a bean crop every year and uses large amounts of water. If this water were used to grow grass, up to four times more feed would be available.

Aphids, commonly known as plant lice, are difficult to see and excessive damage to plants may occur before they are noticed. Because they are small, they don't move around unless disturbed and are often the same color as the plant part on which they feed, they are hard to see. Too, aphids usually feed on the underside of leaves or in unfolding terminals, and their feeding may cause the leaves to curl around them as is the case on peach trees and other plants.

Homeowners should be particularly suspicious of plants that have flies and wasps flying around them. Aphids excrete a sweet, sticky substance called honeydew that attracts these insects. Lady beetles, green lace-

wings, or other predators feed on aphids. Honeydew is also a good sign to look for and is easy to see as it sparkles in the sun. A black sooty mold commonly grows on the honeydew substrate.

Modern chemistry has given the home gardener a variety of effective chemical controls. Some, such as soil applied systemic insecticides, can be used with little harm to lady beetles and other beneficial insects. Both soil applied systemics or contact sprays are available to the home gardener.

Homeowners can use a 2 percent disulfoton (sold under the trade name of Scope or Syston) granular or dry fertilizer mixtures. Sprays which are effective in controlling aphids include dimethoate (Cygon), diazinon, malathion, naled (Dibrom) or lindane.

Detailed information on aphid control is available in my office.

After spring flowering bulbs have finished blooming, allow the foliage to mature and turn yellow before removing. Some gardeners try to help nature along by removing the foliage in order to tidy up the garden. This is not a recommended practice since the bulbs need this foliage so long as it is green. The foliage manufactures food which is stored in the bulb for next year's flowers.

Spring and early summer storms frequently cause considerable wind damage to trees. When should this damage be repaired? Damaged branches or limbs should be removed immediately. Make the cut flush with the tree trunk or limb from which it is growing. Paint all wounds with a good tree wound dressing to

prevent the entrance of disease and/or insects.

A few suggestions for removing a heavy limb to prevent tearing of the bark include—the making of a cut from the underside about 8 inches from the main trunk. Make this cut at least one-third of the way through the branch or until the saw binds. Make the second cut from above and several inches further out on the trunk. Continue cutting until the branch is removed. Make the final cut flush and parallel to the main trunk. Apply tree wound to the exposed surface.

Sick appliances have warning symptoms as do sick people. If heeded, these warnings may prevent fire, damage to property and dangers to personal health.

Here are the four main symptoms as listed by the engineer: Is your appliance blinking on and off? If it is, you're being warned that there is a loose connection somewhere. It may be only a loose screw, but repairing it is a good idea.

Ever touch an appliance and feel a little tingle? This is another sign of trouble. It calls for close inspection for loose wiring or poor insulation. In some cases, the appliance may need a ground wire.

Watch out for the short circuit. A symptom of this is a shock from a metal lamp base. The trouble is usually exposed wiring.

Blown fuses or tripped circuits, after plugging in your appliance, point to a serious malady—an overload. This is a major cause of fires within the home. Too many appliances on one circuit throw your electrical system out of balance. Something has to give, and too often it's the homeowner.

Remember the fuse must be fitted to the size of your wiring. If the fuse will let more power through than the wiring can safely carry, it is not a safety de-

## OBITUARY

### H. D. Marshall

Herman Dennis Marshall was born January 27, 1888 at Resel, Texas and passed away June 5, 1968 at the age of 80 years, four months and eight days.

Mr. Marshall died about 11:30 a.m. last Wednesday at Plains Convalescent Center in Plainview. He had been in Plainview the past nine months.

He came to this area in June, 1910, living first in Dickens County where he was married Dec. 25, 1910 to Miss Jessie Ruth Sampson. Their ceremony was performed in the Steele Hill community near Spur. They lived in Kent County a while and came to Motley County in 1912. After living for a time in other localities, they returned in 1916 to make their home in the Teepee Flat community near Roaring Springs for 27 years.

They had made their home in Matador since 1950. Mrs. Marshall passed away July 11, 1967. Both were preceded in death by two children, a son, Dennis who died in infancy, and a daughter, Mrs. Opal Fletcher, who died in 1941.

Funeral services for Mr. Marshall were held at 10 a.m. Saturday in the First Baptist Church, Matador, with Rev. Victor Crabtree, retired Baptist Minister of Dickens, officiating. Assisting was Rev. Henry Rhynes, pastor of the First Baptist Church of Roaring Springs.

Burial was in the Roaring Springs Cemetery, Seigler Funeral Home in charge of arrangements.

Pallbearers were Emmet Jenkins, C. M. Barton Jr., Joe Campbell, Curtis King, H. C. Smith of Roaring Springs and Hub Swarigen of Childress.

Mr. Marshall had been a long-time member and a past-president of the Motley County Singing Convention and had served as director of the Motley-Dickens Counties Old Settlers Association. He had also served on the Roaring Springs School board.

He is survived by two sons, W. H. (Buck) Marshall of Roaring Springs and Raymond (Cotton) Marshall of Oklahoma City; three daughters, Mrs. John Green, Bakersfield, Calif., Mrs. Fred Clower, Plainview and Mrs. Tressie Warren, Lubbock; three brothers, Lee Marshall, Roaring Springs, John Marshall, Whiteface, and Lawrence Marshall, Plainview; two sisters, Mrs. Annie Webb, Roaring Springs and Mrs. Lizzie Osborn, Plainview; 11 grandchildren and 8 great-grandchildren.

### Texas Directory Lists Museums

AUSTIN—(Special) The new Texas Museum Directory, compiled by the Texas State Historical Survey Committee and published by the Humble Oil and Refining Company of Houston, is now available for distribution.

The announcement was made by Charles R. Woodburn, president of the Texas State Historical Survey Committee. Reflecting the continued rapid growth of museums in Texas, the fifth edition of the directory lists 282 museums open to the public. The directory it replaces listed 243 museums.

Texas continues to lead the nation in the number of museums. In addition to the 282 existing museums, there are an additional 170 museums in various stages of development.

The Survey Committee has long encouraged the development of historical museums at the local level.

This year, the committee offered professional guidance to the state's smaller museums by sponsoring the Second Small Museum Institute in Fort Worth.

Free copies of the directory may be obtained by writing the Humble Touring Service, P. O. Box 2180, Houston, Texas 77001.

The new directory is readily available to tourists as copies are distributed by the Texas Highway Department, by Chambers of Commerce and by other tourist-oriented organizations.

## Landowners, Taxes Benefit In County Oil

Oil and gas wells provide approximately \$967,000 a year of Motley County's economic output, according to statistics released this week by Texas Mid-Continent Oil & Gas Association.

Based on most recent U.S. Bureau of Mines production figures, the Association compilation showed that Motley County produced crude oil valued at \$966,000 in 1966 and natural gas worth \$1,000.

Texas oil production in 1967, responding to demands for more domestic crude as a result of the Israeli-Arab conflict, totaled 1,050,000,000 barrels, a statewide increase over 1966 of about 5 percent. Production last year varied widely among state Railroad Commission districts, however, ranging from 3.5 percent below 1966 to 15 percent above.

"Production from Motley County last summer helped prevent any oil scarcity for U.S. consumers at a time when one-third of the world's supply was cut off," said Corbin J. Robertson, Houston, Association president. "We

must keep in mind, however, that it may be difficult for Texas fields to sustain production in future emergencies if the discovery of new reserves continues to lag, due to lack of exploratory drilling."

The annual study showed that Motley County ranked 161st among Texas counties in total value of its production of some 325,000 barrels of oil and 7.6 million cubic feet of natural gas.

### WASHINGTON AND "SMALL BUSINESS" By C. WILSON HARDER

"Why is the economy booming and overheated all over the country except in our area?"

So writes a Utah businessman who sees no increase in business there. He is probably being facetious with his question. But on the other hand, one could assume that he is serious, that he has been reading all about the exciting gains of our economy and is downright puzzled that his locality is not sharing in this increased business and prosperity.

There has been much talk about a booming, overheated economy in recent years, most of it issuing from Washington.

Just a few months ago, Gardner Ackley, chairman of the President's Council of Economic Advisors, was urging Congress to hurry and pass a tax increase to head off "excessive acceleration" in the economy. (Later, the argument for an increase shifted to anti-inflation.)

In December, the President boasted: "We are now in the 82nd month of the American economic miracle. This sustained prosperity is unparalleled in our history."

Then the Secretary of Commerce forecast "a new wave of prosperity" in 1968, with significant gains in employment, income, profits and purchasing power. He did not mention the best bet of all, inflation, except

to repeat that a tax surcharge would help combat it.

The economy may look like it is "heating up" to government business analysts who gloat over the total dollars of the Gross National Product, but if they came down from their ivory towers they would find thousands of small businesses having a dickens of a time trying to make ends meet.

This "prosperity" they talk about must be perplexing to millions of American businessmen and wage-earners, whose profits and purchasing power have declined.

Business expansion has been pretty well limited to the corporation giants of industry, partly due to Vietnam, and many of them are reporting lower profits on higher sales.

Washington likes to equate prosperity and economic growth with the increase of the Gross National Product, the total dollar volume of goods and services produced each year. But this includes the ever-increasing government expenditures, and is inflated by rising prices, so GNP gains often do not reflect what is happening to the private segment of the economy.

Increased Federal spending and relentless inflation hardly add up to what the taxpaying-consumer and businessman would call "prosperity."

If Americans are going to be hit by yet another wave of this curious type of prosperity in 1968, they may be washed up on the beach, high and dry, where they, too, are likely to become overheated.

### Bus Trip Over Plains Trail Is Scheduled

A special bus tour of most of the recently designated Plains Trail, originally set for today, has been re-scheduled. The 600-mile tour will originate in Amarillo with a reception at the Villa Inn on the night preceding the tour.

Seats will be available to all persons wishing to make the trip, at a price of \$32.50 each at the Amarillo Chamber of Commerce office. The price includes meals en route and overnight accommodations at Lubbock.

The two-day trek, originally scheduled to start at 7 a.m. today will include visits to Panhandle and Berger, then luncheon at Boys Ranch. From Boys Ranch the tour will move to Hereford, Muleshoe and Levelland prior to the overnight stop in Lubbock.

Supper will be served in the Hub City the first evening with breakfast the following morning prior to starting the second leg of the trip. This leg includes Crosbyton, Roaring Springs, Matador and a luncheon stop at Silverton. The return to Amarillo will be via Claude.

Purpose of the project is to acquaint area citizens with the points of interest on the Plains Trail, one of several trails throughout the state.

Bob Stanley called the Amarillo Chamber of Commerce and learned that the bus tour had been delayed, but would be re-scheduled. The manager of the Amarillo C of C said it was hoped some representatives from Matador and other area towns would make the tour.

A group of local businessmen plan to serve coffee and doughnuts to those aboard the bus when a stop is made here. Information concerning the tour may be obtained from the Amarillo Chamber of Commerce.

**Program Slated On Grub Control**

Livestock owners in Motley County are urged to attend a meeting in the courthouse at Matador Thursday night, June 20 at 9:00 o'clock.

Grub control will be discussed by Charles Cobb, Chemagro Co-operation. The following day, methods of grub control will be shown. The pour-on method will be used at the John Russell place and the spray method at the Ward Rattan place.

Grubs are costing all cattle owners money. This program offers an opportunity to reduce these losses, said County Agent Bill Pallmeyer.

### Larger Response In Labor Survey

RESPONSE to the labor supply survey being conducted by the Motley County Development Committee, is increasing, and at present approximately 100 men and women have filed applications.

Largest single response was 28 received one day last week after final mailing to all box-holders in the county.

Records of the survey are on file in event any type of industry is interested in Motley County. It is the first requirement of industry to know the available labor supply in the immediate area.

Other counties which have been successful in attracting industry have first conducted the same type of survey. Of course many other factors are always considered but the first is the known available labor.

### NOTICE OF BOARD OF EQUALIZATION MEETING

Notice is hereby given that a meeting of the Board of Equalization of the Roaring Springs Independent School District will be held Saturday, June 15, 1968 from 9 a.m. until 12 a.m. in the school library. All interested persons are welcome to attend.

J. M. Thacker, President  
Board of Trustees

### ATTENDS WTCC MEETING

Bob Stanley yesterday morning attended a directors meeting of the West Texas Chamber of Commerce held in Lubbock at the Southwestern Bell Telephone Building, starting at 10 a.m. and being concluded at noon.

### SOIL TEMPERATURES

Following soil temperatures were recorded by County Agent Bill Pallmeyer: June 4, 67; 5, 67; 6, 70; 7, 75; 8, 77; 9, 75; and June 10, 74.

This will be the last readings published on soil temperature. "For the past 19 days," Pallmeyer stated, "all readings have been 65 or above and I am sure you have noted how fast germination of seed has been, since temperature of the soil has risen."

Mr. and Mrs. Douglas Pitts and family, Kenneth, Don and Lou spent last week on vacation in Santa Barbara, Val Verdia and Los Alamos, New Mexico.

Mr. and Mrs. Ben Edwards, accompanied by their grandchildren, Ben Charles and Laura Grundy, spent several days in Ruidoso, N.M. last week.

COME TO CHURCH SUNDAY

### "For Pete's Sake" Scheduled at Spur

A new religious film released by World Wide Pictures, "For Pete's Sake," will premiere at the Palace Theatre in Spur, June 22-23, according to an announcement last week from the First Baptist Church of Spur.

Described as a comedy-drama, produced in wide screen and brilliant Eastman color, the feature stars Robert Sampson and Pippa Scott in a mile-high Denver setting, against the magnificent backdrop of the Rockies.

Evangelist Billy Graham appears in the film as he preaches during one of his crusades. Other characters include well-known television and motion pictures stars.

### CARD OF THANKS

I sincerely thank all of my many friends for the lovely cards, flowers and the phone calls and visits during my two recent stays in the hospital. I also want to thank you for the delicious food that you have brought to our home.

Anne Williams, Afton (2)

### TO MY FRIENDS

Until I am able to write and thank each of you personally, may I take this means of expressing my appreciation for your cards, letters, flowers, calls and inquiries regarding my progress during my recent surgery and subsequent hospitalization. I am sincerely grateful to all of you for these expressions of your concern.

Mrs. Farris Fish (2)

### CARD OF THANKS

We find it hard to express our gratitude enough to the many wonderful friends who remembered us with so much kindness, food and flowers, and sympathy at this time of loss and sadness. It strengthens and encourages us so much to know there are so many wonderful people who are our friends.

The B. A. Goss Family (1)

### CARD OF THANKS

To our many friends and neighbors we wish to express our heartfelt gratitude in this hour of sorrow during the loss of our beloved husband and father, Paul Smith, for the beautiful flowers, food, memorial contributions and words of comfort, which we shall always remember. May God richly bless each and every one of you, is our prayer.

Mrs. Paul Smith; Mr. and Mrs. Paul D. Smith and family; Mr. and Mrs. Everett Smith and family; Mr. and Mrs. Glendell Smith; Mr. and Mrs. Curtis Smith and Dana. (1)

The five-story topchase to the Tower of the Americas at HemisFair '68 was constructed at ground level and raised to the top of the 622-foot structure after completion of basic construction.
