Brotherton is Lion of Year

Darla Cruse At Girls State

Miss Darla Cruse of Flomot is in Seguin this week attending the 33rd annual Girls State, sponsored by the American Legion Auxiliary. She is representing Motley County's Post 337.

Mr. and Mrs. Ray Cruse accompanied their daughter to Lubbock Tuesday where she met other delegates from this area and they made the trip by bus.

In Girls State, the American Legion provides the type of program where the young citizen has the opportunity to know how his government operates and how he can be part of it.

Girls State was organized as a national Americanism activity in 1937 by the American Legion Auxiliary to provide citizenship training for girls of high school age.

Selection is based on character, leadership and scholarship.

By Grace Timmons

A surprised Glen Brotherton was awarded the "Outstanding Lion of the Year" award and Ervin Willard was installed as the new president of the civic club Tuesday night at the Ladies Night banquet and installation of officers, held in the First United Methodist Church basement.

Announcement of the Outstanding Lion Award, made by Lion Ronnie Christian came as a double surprise, since Glen as taitwister thought he was escorting the receiver of the award to the head table.

The outgoing president Pat Seigler expressed his appreciation to the club during his year of service by saying, "Lions Club is no better than each individual Lion and each of you has helped to make this a very profitable year for Lions."

Installing Ervin Willard and other officers was Lion John Brinson, a member of Paducah Lions. With gag gifts and tests he pointed out the responsibilities and problems of each office.

Mr. Brinson was introduced by Zone Chairman George Deaton, another guest from Paducah Lions.

Following the installation a most interesting program on "The History of Windmills" was given by Miss Billie Wolfe, Assistant Professor in the department of Home and Family Living College of Home Economics Texas Tech University.

Miss Wolfe expressed her delight at being present during installation of officers. "My father and brother were both presidents of Lions Club in Stephenville and I never knew what went on," she said.

Miss Wolfe's involvement with windmills grew out of an interest in the water systems in early housing. "When I would go out to early rural homes, I noticed that many of the windmills were being destroyed, and I decided that I had better document their existence before they became extinct," she said.

Her interest grew and was brought to the attention of Dr. Murray, president of Tech, who encouraged her to do extensive research and travel. Because of her efforts, Texas Tech Library will have the most extensive library collection on the history of windmills in the U.S.

Miss Wolfe has also been very instrumental in bringing windmills from all over the U.S. to the Texas Tech Museum. Her latest discovery and addition to the Museum is an Aermotor windmill erected in 1895 in Iowa. It has a folding tower that folds down by the use of a 300 pound weight so that it can be greased.

Miss Wolfe has written a book "History of Windmills," which includes pictures and folklore that she has collected from farmers and ranchers whom she has visited with all over the U.S. She is now working on a documentary 16 MM movie which will be used in educational T.V.

Miss Wolfe completed her dialogue on her colorful slide presentation by expressing her belief that windmills may be on their way back in American usage. "Windmills furnish a clean and inexpensive source of power and though, as you can see I am sentimental about windmills, don't be surprised if you witness a new era of them standing tall on the American Scene."

The installation followed an excellent banquet prepared and served by Methodist ladies. Officers and directors for the new fiscal year are (Lions) Ervin Willard, president; Joe Smith, 1st vice president; John M. Russell, 2nd vice president; Kirby Campbell, 3rd vice president; Loyd Hall, 1st year director; Tony Dean, 1st year director; Stan Irvine, 2nd year director; Larry Hoyle, 3rd year director; J. R. Whitworth, permanent director; Forrest Campbell, secretary; R. M. Stanley, Lion Tamer; Glen Brotherton, Tail Twister; Pat Sheridan, Recorder; Miss Rachel Patton, Lions Sweetheart; Miss Naomi Simpson, Lions Queen; and Pat Seigler, past president. John McCandless was welcomed as a new member.

Pasture Fires Keep Local Firemen Busy

Local firefighters were kept busy Saturday battling a series of pasture fires in various parts of Motley County.

The first alarm was sounded shortly after noon and firemen were summoned to the J. R. Moore Estate north of the Roaring Springs airfield. The blaze was quickly extinguished by the firetrucks and county grader.

Before the firetrucks returned from the fire on the Moore Estate, another alarm was sounded summoning firemen to a pasture fire on the Frank Campbell land on Ballard Creek about 6 miles northeast of Matador, near the old Ballard Camp of the Matador Ranch.

Later Saturday afternoon another fire was reported on the Stanley Burleson land about fifteen miles northwest of Matador, and rural firefighting equipment was summoned to the scene.

Before firemen returned from the fire on the Burleson land, another alarm was sounded summoning firefighting equipment to a series of three pasture fires approximately 23 miles southeast of Matador. All of these fires were within a short distance of each other. One was on land belonging to Dr. Robert N. Allison of Idalou. Another was on land leased by Jinks Wilson of Matador, and the third was on land belonging to the Swenson Land and Cattle Company. The fourth fire was also burning on the Swenson Ranch, approximately 6 miles to the east near the Delwin Community in Cottle County.

All of the fires were brought under control late Saturday night by members of the Matador and Paducah Fire Departments, together with graders from Motley and Cottle Counties and numerous volunteers armed with cattle spray-

ers and burlap sacks.

The fires on the Swenson land and Jinks Wilson land rekindled again both Sunday and Monday but were quickly brought under control.

Ranchers theorized that all of the fires were started by lightning from a dry thundercloud that had passed through the area earlier Saturday. Numerous reports were received of smaller areas that were set on fire by lightning but burned out by themselves, were set on fire by lightning but burned out by themselves. No available. The cloud left little in the way of moisture in the county. The only reported rain was a small shower accompanied by some small hail west of the Whiteflat community.

Several firemen have stated that the pasture fire problem could become very serious in the next few weeks, if the present dry weather conditions continue. Although most pastures have an abundant supply of green grass, the dry winter grass and dry grass from last years growth pose the greatest threat of fire.

Local firemen are preparing for a busy season of ranchland fires. Two Army surplus trucks have been purchased and are being made ready by members of the fire department to combat the rural fires. One truck is already in operation, and the other will be completed as soon as pumping apparatus can be secured. The truck presently in operation replaces an old tanker truck that was used as a rural fire truck for some 12 to 14 years. The local fire department also has a smaller four-wheel drive vehicle that is used exclusively for rural fires. When the other army surplus truck is put into operation, firefighters will have three all-terrain vehicles with a total water capacity of some two thousand gallons.

"Texas" Will Open 8th Season Tonight

CANYON - (Special) - "Texas", the musical drama of Texas history which plays in the Palo Duro Canyon on the high plains near Amarillo and Canyon, will open its eighth season on Thursday, (tonight) June 21. In its first seven seasons, "Texas" has played to crowded houses and during the opening night ceremonies of 1973, the 242nd person to enter will be given special recognition as the 500,000 member of the audience to see the production.

The opening night of each season is a Gala Festival, emphasizing some phase of panhandling life. The theme this year will be "Windmills". These giants of the plains made life possible in this dry country and are described in the script

of the show, so the Board of Directors of the Heritage Foundation is bringing together equipment for the pumping of water in the early days, and is sponsoring a competition for the best paintings, drawings, photographs, and three dimensional figures depicting windmills. The winners of the contest will display their creations on opening night.

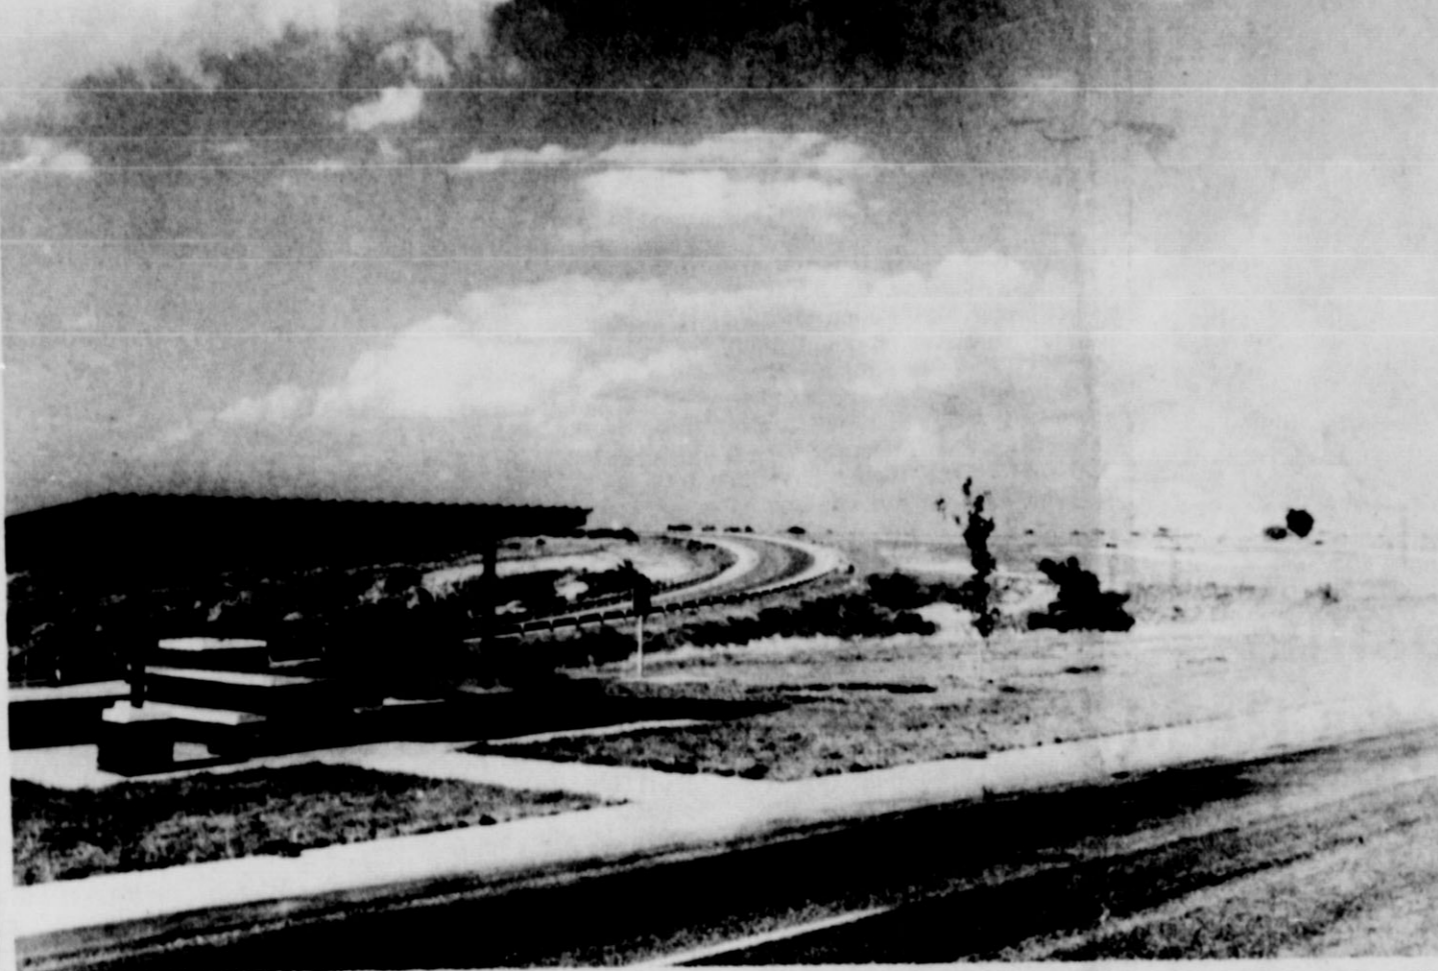

The names of the finalists will be listed in the opening night program and the best-of-show award will be given from the stage.

"Texas" will play from June 21 through August 25, nightly except Sundays, this summer. For tickets write "Texas", Box 268, Canyon, Texas 79015. Phone 806-655-2182.

VISIT RELATIVES

Mr. and Mrs. Clay Jameson and son, Jason spent last week visiting friends and relatives in East Texas and Oklahoma. They visited with Mrs. Jameson's aunt and uncle, Mr. and Mrs. P. E. Ellis of Paris and with Mr. and Mrs. Billy Hale of Dallas and Mr. and Mrs. Hal Courtney and children, Quinn and Shann and Mr. and Mrs. Ros Bearden and sons, Shawn and Brandt of Madill, Okla. They also attended the annual Sand Bass Festival at Lake Texoma while in Madill, returning home on Sunday.

Minister and Mrs. Lloyd Hall and children, James, Karen, Jason and Jeffrey returned home Friday, from a vacation trip which took them to Des Moines, Iowa and a visit with his brother and family. They first visited relatives in Waco and Belton.

NEWEST of the three roadside parks in Motley County, above, is about 12 miles west of Matador on U.S. Highway 70, on top of the Caprock. The historic marker at the right, designates the Henry H. Campbell headquarters who organized the Matador Land & Cattle Company. The ranch land to the right is owned by grandsons of the ranch founder. The most beautiful roadside park in the county is just south of Matador, on State Highway 70. The land was donated by the late Mrs. U. L. Willie. The third roadside park in the county is about ten miles east of Matador, just beyond the Teepee Creek bridge.

Texas Leads Nation In Roadside Parks

(Special to the Tribune)

AUSTIN - Almost one of every seven roadside parks and safety rest areas along highways in the United States is located in Texas.

A U.S. Department of Transportation survey of 7,572 roadside park facilities in the nation shows that 1,059 are along the Texas Highway system.

The State with the next largest number of rest areas in Tennessee with 366 sites.

Texas leads the other states in the number of "super" safety rest areas found along Interstate highways. There were 111 safety rest areas counted in the inventory last year from a nationwide total of 1,175.

The sheer size of Texas and the State-maintained highway system - more than 70 thousand miles - have a lot to do with Texas' leadership in the rest area field.

first roadside parks built in the early '30s, which included only a few simple tables arranged under a welcoming tree.

Texas first roadside park is in use still, duly marked as the first of its kind with a historical marker. It is located on State Highway 71 in Fayette County, near the community of West Point.

THE PROGRAM started almost by accident. Years later, the late Gibb Gilchrist, who was State Highway Engineer at the time, recalled:

"Texas was undoubtedly the first state in the United States to build roadside parks. A chap named William Pape, Sr., was county foreman on a road near Smithville where there were some beautiful live oak trees along a creek.

"He built some tables and benches and things of that kind that would cause people to stop. I found out about it and determined that I either had to fire him or join him. So we joined him and everybody on the Highway Commission and Judge Ely (W. R. Ely of Abilene) in particular pushed along the idea until all engineers became advocates."

Aside from the convenience and aesthetic benefit, Texas' roadside parks, safety rest areas and scenic turnouts add a big plus in safety. The rest areas provide convenient places for the tiring driver to stop, stretch, rest and take a break from the wheel. After a few minutes rest, the once-weary driver can continue on his way refreshed and more alert.

MORE TO THE point is the fact that Texas was the first State to build roadside parks, starting back in the early 1930s.

Today's modern safety rest areas on Interstate and some major US-numbered highways include comfort stations, drinking water, information displays, sewage dumping stations for recreational vehicles as well as the familiar picnic arbor units.

CAMPAIGN PROMOTES WEST TEXAS AREA

A campaign to promote the great area of West Texas is planned by the West Texas Chamber of Commerce, according to executive vice-president J. Fike Godfrey. Title of the campaign is "Wonderful West Texas."

Purpose of the campaign is to sell and remind West Texans what a great place West Texas is, to sell visitors passing through West Texas on the advantages of West Texas; to attract industry to West Texas, and to increase the tourist and travel business in West Texas.

Mr. Godfrey said the Texas Association of Broadcasters is cooperating by furnishing public service time on a potential of 101 radio stations and 18 television stations.

Eleven West Texas Outdoor Advertising companies are cooperating by furnishing 134 billboards as a public service.

Visiting Mrs. D. E. Pitts last Wednesday was her granddaughter and family, Mr. and Mrs. Donnie Cruse, Regina and Brand-O of Plainview. They were accompanied home by Mr. Cruse's brother Darrell of Flomot.

SEVERAL OF THE nine tourist information bureaus operated by the Texas Highway Department on the State's borders have adjacent rest areas. Also, the Judge Roy Bean Visitor Center at Langtry probably has a unique facility - an adjoining cactus garden.

The super rest areas also have miniature "tourist information centers" - InfoBords, comprising approximately 54 square feet of enclosed, glassed area for maps, pictures, text and pictures about scenic and historical attractions within a few miles of the rest area. Some of the pictures are in full color, contributing to the attractiveness of the information displays.

The Texas Highway Department was a pioneer in the design and installation of the tourist information-loaded InfoBords in the rest area facilities. Millions of motorists stop to read the information panels every year, and many of them visit attractions described on the InfoBords.

CHURCH TO HOLD GOSPEL MEETING

A series of gospel messages will be presented in a meeting at the Church of Christ in Roaring Springs, starting Sunday, June 24 and continuing through Friday, June 29, according to an announcement by Minister L. E. O'Neal.

Lloyd Hall, minister of the Matador Church of Christ, will do the preaching for the meeting.

Everyone is extended an invitation to attend the meeting. Services will be at 8:30 o'clock each evening.

Two Teachers To Receive Fellowships

(Special to the Tribune)

Two teachers from the South Plains area of Texas were named to receive fellowships to attend the Sixteenth Annual Petroleum Institute for Educators June 4-22, 1973 at the University of Houston.

The two teachers are Mr. Edgar R. Jarman, Lubbock and Mr. B. L. Peacock, Roaring Springs.

Mr. Jarman teaches chemistry and science at Coronado High School in Lubbock. He earned his B.S. and M.S. degrees in the field of Science.

Mr. Peacock teaches science and biology on the high school level in the Motley County Independent School District. He earned his B.S. and M.Ed. degrees in the field of Agricultural Education at Texas Tech University.

Announcement of those selected was made by Mr. R. G. Tucker, Amoco Production Co., South Plains area Institute Chairman for the Oil Information Committee of the Texas Mid-Continent Oil & Gas Assn.

The Petroleum Institute, designed particularly for science, mathematics and social studies teachers, will be coordinated this year by Dr. Jack Sheridan, professor of education, University of Houston. Lectures, provided by experts from the oil industry, will include exploration, production, manufacturing, transportation, marketing and research. Three hours of graduate credit in the field of education are granted upon successful completion of assignments.

The Petroleum Institute, Mr. Tucker said, is to provide a broadened understanding of oil and gas as important energy sources, and to develop an awareness of the industrial importance of the petroleum industry in Texas.

The Texas South Plains area contributors to the Petroleum Institute are: Brownfield State Bank & Trust Co., First National Bank, Brownfield, Getty Oil Co., Meter Service & Supply Co., Inc., and Shell Oil Co.

RETURN HOME

Mr. and Mrs. C. R. Davis and Charles returned home Friday from a two-week fishing trip to Pat Mays Lake in East Texas. A group of relatives joined them there for a family get-together.

They were accompanied by their son-in-law, Don Baxter and sons, Don Jr., and David of Afton, and were joined on Friday by Mrs. Baxter and daughters, Paula and Cathy, who returned home last Tuesday.

TRAIL DUST

By DOUGLAS MEADOR

If you can remember running boards on cars and the period when most drivers fixed their own flats, there is a possibility that you are having trouble relating your exact age.

Time was squeezing the last sunlight out of the tube of days and the limping hound walked carefully out of the range of speeding cars. The sorrowful eyes seldom looked up hopefully at the passing traffic, but more at the ground where his feet were instinctively trying to find a little softness. The long ears dangled below the animal's head and his flanks were gaunt. His tail seemed almost to drag the ground as he plodded his way, unwanted in an indifferent world. A gentle word, a morsel of food or even perhaps a drink of water would have brought light to the troubled eyes. His fate is but a part of the pattern of misery that spreads across the lives of man and other animals. Many humans plod homeless ways, one step at a time into the future, often hungry, ill and unwanted.

The repertoire of a mockingbird's songs is fascinating, like the music from a record that has no label. Recently heard one song that sounded like a creaking windmill, which the bird may have heard and recorded as a song, with others which are usually easy to identify. Fortunately, our little feathered friends have not copied human sounds, including rock and roll music.

The stupidity of the Watergate affair is its greatest affront to the confidence of citizens. It is not possible to justify its existence except in a covenant of idiots.

If we live a little scared we produce better and have more compassion for those with whom we are associated. Nothing inflames a man's ego and sets fire to his arrogance like being absolutely sure of himself.

It has always been easier for me to overlook an indiscretion in the conduct of another if the breach of conduct occurred during heeily time.

Good Crowd At Motley Singers

The Motley County Singing Convention met for their 81st consecutive year on Sunday, June 17, in the American Legion Building in Matador. A good crowd was reported.

Singers, groups and patrons of gospel singing were here from Floydada, Dickens, Spur and Lockney and other area towns. President Walter Craft was in charge of the program.

The group meets twice annually, once in June and again in October.

IN METHODIST HOSPITAL

Roy Smith is a patient in Methodist Hospital, Lubbock, for medical treatment. He was accompanied by Mrs. Smith Tuesday, June 5. Miss Kate Stanley and Mrs. Lemma Rector visited Mr. Smith in the hospital and with Mrs. Smith who is staying with her husband, on Monday.

NOTICE

The Tribune office will be closed in the afternoon on Thursday, Friday and Saturday, but will be open until noon those three days.

Mrs. Melvin Meason met her son, Harold (Sparky) Meason of Corpus Christi, in Comfort, Sunday, June 10, for a short visit, returning home Wednesday.

LOCAL WOMEN IN LUBBOCK TOURNEY

Women's West Texas Golf Association's 38th Annual Tournament was played at Lubbock Country Club, June 10th through June 15th. Our Air Port CC was represented by La Voe, Nell, Louise and Laverna. (Someway, they were always listed as being from Irving, don't know if Irving has an Air Port CC, or just why there were listed as being from Irving, but we claim them as our very own.) Geneva had signed to play, but due to the serious condition and subsequent death of her mother, she had to

withdraw. Finnie Seale and her sister, Ethel Patterson of Snyder also played. There were 168 entries from El Paso to Dallas, and from the Panhandle to San Angelo.

SIDELIGHTS - Bill Seals, E. T. Patterson, Buzz Thacker, Lucretia and Bundy Campbell were among some of the followers of the players during the week - also Jana and Johnny Thacker of Burleson were there and on Friday, Louise, Geneva, Winifred and Hazel accompanied the (ailing) Laverna and joined the gallery seeing golf played by the champions - and near champs - as it should be played (even some of them "flub-up" though) - on the most beautiful course around these parts. 'Twas a thrill!

luncheon; Impressed with all the colorful, attractive decorations, of pastel checked gingham - blue, pink, yellow and green. Mirrors and bulletin boards were framed with the colorful gingham ruffles, and all tables had flower arrangements, made of checked gingham and dyed baby's breath, with colorful birds perched a-top. Similar arrangements were also placed throughout the rooms.

Lockers were decorated with tasseled checked gingham scrolls. The individual name tags were held by painted wooden clothes pins, covered with strips of velvet ribbon holding checked rosebuds. PLAYERS were presented with generously filled "goodies" bags. All decorations made most pleasing and attractive appearance. HOSTESSES wore long dresses of the gingham.

LUBBOCK CC went ALL OUT in hosting the affair and were most hospitable.

Ethel had back surgery about a year ago and the doctors told her that her golfing days were probably over, but she "never said die" - and has made a remarkable come-back. Enjoyed seeing Jerry King of Crosbyton. she and husband A. R. were following the championship flight. All fun seeing ones we knew and meeting new ones. Weather was ideal all week - little warm (98) and windy on Friday. COUNTRY CLUB living would be great!

WWTGA will play at Plainview CC next June with field limited to 154 players. hope our gals try again. and we follow them!!

++++
ON THE WAY out of Lubbock, Laverna took us for a preview of their new home being built. and nearing completion. Most spacious and beautiful. will make a nice addition to all the other homes on the South side hilltop in Matador.

Indian Is Topic Of WSCS Program

Methodist Woman's Society of Christian Service of the United Methodist Church met Tuesday night, June 12, with Mrs. Elbert Seigler as leader.

Program topic, "Dominion of the Great Spirit," concerned the Indian, and the leader read an article from the Response Magazine, on the Yuma United Methodist Indian Mission located within the Southern California-Arizona Conference. Scripture was Malachi 2:10, and opening hymn was "This is My Father's World."

The second part of the program was from the study book, "Live a New Life." This discussion concerned missionaries coming into Indian camps, introducing the Indians to their God, who is known as the Father of All Men.

The Indians were led to believe that a God did exist; a God that provides for all his children. Closing song was, "In Christ There is no East or West."

During a business session, Mrs. Nelson McMahan, secretary, read a letter from the president of the Methodist Navaho Indian Mission in Farmington, N.M. and the society voted to send \$25. to this home. Mrs. John Hamilton of Amarillo

STUDIES ABOUT THE BIBLE

In general we have noted the spheres of solid materials such as planets and moons. Also there are gaseous stars, of some density, which are relative spheres. Then there are individual particles in space, as well as asteroids and comets. These objects make up the observable universe and are known to science as MATTER.

We may also observe the expanse of our universe. Ancient wisdom taught that the sky was limited and of a definite shape - possibly geometric. The boundary of the sky might be reached. However, today's astronomers have found no end to the expanse. This is SPACE.

All matter in space is in movement, in orbit, exploding, rotating, revolving. Movements of mass materials in space are set at from 1000 miles per hour for the rotation of the earth at its equator to 26,000 miles per second for some galaxies. Science calls this MOTION.

All the motions known to science - from the slow growth of a plant to the extreme velocity of a galaxy - must have an energizer. Something must cause all this motion in the universe. That cause is known as FORCE.

Another factor which figures in the making and keeping of our universe is time - the measured sequence between two events. Time is noted in periods of from a fraction of a second to light years. A necessary ingredient in analyzing the universe is TIME.

A few centuries ago scientists were able to fathom all things known to exist in the universe to the extent that they established the basic factors from which all things operate. They narrowed the factors down to five: TIME, FORCE, MOTION, SPACE, and MATTER.

Now let us read the very first verse in the Bible: "In the beginning (time) God (force) created (motion) the heavens (space) and the earth (matter)."

The five factors involved in the existence of all things are told in just ten words in the first verse of the Bible. The Bible is the word of God.
