## TRAIL DUST

By DOUGLAS MEADOR

Destiny employs such whimsical methods that the blooming of a single rose may change the course of a life; beauty is the estate of angels.

My position in society would be strengthened if the Supreme Court would enforce a desegregation of the rich and poor. The state of my solvency is consistently such as to produce unrest among my creditors and an absence of understanding in the circles where I apply for credit.

Once torn by gleaming plows, the old field is healed now, except for the trace of furrow scars and a few twisted Bois De Arc posts that cling to pieces of rusty wire, refusing to submit to decay. The sounds of plodding hoofs and chiming traces rest beneath a soft blanket of years. Dreams that were planted in the brown soil have long been harvested and stored in an old man's heart to nourish the lonely hours. Melancholy winds whine through canyons of the sky; a star falls through the old fingers of night and the prairie grass whispers its secrets.

Faunting a sublime wisdom, nature is scarcely more profound than in the creation of parasites, that all of them are not orchids.

Egotism is frequently nourished by the application of praise intended merely to justify a trifling execution of duty.

Few things strain a woman's friendship overtures more than trying to appear cordial to another woman who has bought a dress out of the pattern of a garment she possesses.

Thunder is merely a follower of might.

## MOTLEY SCHOOL NAMED TO PILOT CAREER EDUCATION

Motley County is one of five schools chosen by the Education Service Center, Region XVII to implement a career education program this year, still a priority program for public schools across the nation. Superintendent Charles Johnson made the announcement.

The other four schools are Abernathy, Borden County, Hale Center and Jayton. Taking the lead in implementing the program in Motley County are the superintendent, principals Wayland Moore and J. E. Edwards, teachers Carol Turner, W. Z. Martin and Buddy Foster.

The main purpose of career education is to prepare young people for a productive and rewarding life. It helps them in their search for values in a work-oriented society and in integrating those values into their own life in such a way that work becomes meaningful and satisfying.

The Education Service Center serves 65 school districts in a 20-county region. Brownfield was the first pilot school in the region for the career education program.

## RANCHING HERITAGE CENTER TO HOLD ANNUAL MEETING

LUBBOCK - Life for the American ranch family, from the 1830s to the early 20th Century, will be recreated in activities at Texas Tech University's Ranching Heritage Center during the sixth annual Ranch Day Oct. 4.

John W. Warner, chief administrator of the American Revolution Bicentennial Administration, will come from Washington to deliver the Ranch Day address on "200 Years - How Far We Have Come."

Activities will begin at 10 a.m. on the ranch and end by 12 noon when a barbecue lunch will be served by the Albany, Tex., Texas Trails Chuckwagon.

In the house, and out-of-doors there will be typical ranch activities going on - kitchen work, a party, school classes, blacksmithing, and even sourdough biscuits baking and coffee brewing over the campfire.

Registration will start at 9:30 a.m. in the lobby of The Museum of Texas Tech University where exhibits related to ranching will be on display.

Anyone can join the Ranch Headquarters Association which helps support the Ranching Heritage Center and which sponsors Ranch Day for its members.

Memberships cost \$5 for individuals, \$10 for couples, \$12.50 for each family, and \$25 for organizations. Cost of the barbecue is \$4 per person with sack lunches at \$1.50 each for children under 12. The Ranching Heritage Center is more than a collection of authentic structures brought from Texas ranches and restored to depict the history of ranching in America. It is designed to recreate the spirit of the men and women who helped build the American West.

With its official opening next July 3, 4 and 5, it will stand in the spotlight of the nation's bicentennial celebration.

On the 1975 Ranch Day, there will be outside activities especially for children - pitching horseshoes, sack races, a bean bag toss and other activities associated with the children of the past.

For grownups, Jack Aull will demonstrate "horsin' around." There will be exhibits of barbed wire, bits and spurs, guns, and saddles. Cecil Caldwell and J.C. Burton will provide the fiddlin'. There'll be wagon rides and longhorns in the corral.

The main event will start at 1:15 p.m. with a business meeting and the Ranch Day

address. Participating in the program will be Chairman Clint Formby of the Texas Tech Board of Regents, Cliff Teinert of the Albany Fandangle singing "The Cowboy Prayer," Lubbock Mayor Roy Bass welcoming members and their guests, and Jana King singing Tom B. Simmons Jr., president of the Executive Committee of the Ranch Headquarters Association, will preside at the business meeting. Bob Nash will be master of ceremonies.

Special guests will be Texas & Southwestern Cattle Raisers Association directors, committeemen and their wives.

In addition to a quilt exhibit in The Museum, a special exhibit is being added this year, "Life on the Ranch - and Unfinished Picture." Patrick H. Butler, curator of history at The Museum, has assembled some furnishings which could be used later at the Ranching Heritage Center and lists of items still needed.

"Whatever people have - from buggies to potholders made before 1920 - The Museum would like to have inquiries, at least, and probably will want most of whatever might be offered," Butler said.

## Valley Takes 29-6 Victory

by Gary Welling

The Motley Matadors were beaten in their District 2-B North Zone opener by the Valley Patriots Friday night on Burleson Field, 29-6.

Although the Matadors came out on the losing side of the score, they broke the 8-game shutout record of the Patriots by being the first team to score on them in eight games, five of which were carried over from last year.

The first quarter was one of defense, which was evident from the starting kick-off, with the Patriots meeting their stiffest competition of the year, and neither team getting on the score board.

The Patriots broke the ice first in the second quarter, with a field goal by Lucero, and a start of 3-0 in their favor. They then came back with two touchdowns and an extra point, for a score of 16-0 at halftime.

The big play of the game, at least to the Motley fans, was a 93-yard run and touchdown by senior fullback Joe Campbell. However, the Patriots came back and scored another TD and extra point and widened the margin of the score to 23-6 at the third quarter finish.

Final quarter of the game was completely dominated by the Patriots and they capitalized on Motley's mistakes, with another score, bringing the total to 29-6.

The Matadors go on the road Friday and travel to happy, where they meet the Cowboys on their home field at 8:00 p.m.

## Construction Is Underway For Museum In Plainview

Plainview's own Llano Estacado Museum - its exterior walls up as of last week - now being built as a joint project of Wayland Baptist College and the Hale County Historical Society, will be completed sometime in May, 1976. Formal dedication is planned for July 4th.

Dr. Gwin Morris, executive director of the museum says, "This museum will tell the story of the people of this area from early 'Plainview Man' 8,000 years ago through the Indian era, the removal of the Indians, the coming of the settlers, and finally to the formation of political units, the counties. We'll cover homes, families, schools, churches, businesses - the whole aspect of life through these times."

## New Honors Won At Fair

## Arts and Crafts To Meet Monday

Motley County Arts and Crafts Club will meet Monday, Oct. 6, for a business meeting at 10:30 a.m. and a program during the afternoon, with Mrs. Eldred Seigler in charge. All members are reminded of the meeting and urged to attend.

Jim Barnhill and his Texas Tech roommate, Carl Sims of Henrietta, spent the week end with the former's parents, Mr. and Mrs. John Barnhill.

Elmore Plemons of Austin visited here during the past week with his mother and brother, Mrs. H. Plemons and Will Plemons.

Indian artifacts from digs at Quitaque and around Lubbock will be on exhibit along with private collections that have been donated. Most of the museum's contents are now housed in Matador Hall, an old unused girl's dormitory.

Long-range plans include expanding the rear of the new building into a "living museum." An old "dugout" house will be moved in, then a "box and strip" building, and finally examples of the lumber and brick structures to be found in West Texas prior to 1930. A church and a schoolhouse will be brought in, to enhance the illusion of a typical High Plains town in the 1900's.

In keeping with the idea of recreating pioneer days, Matador Hall will be converted into a Pioneer Arts and Crafts Building. Blacksmithing, quilting, soap-making, and cooking will be demonstrated and eventually taught as short courses. Estimated completion date for this phase is 1978.

Morris also anticipates a program in museum science developing to a point that Wayland will award a Bachelor of Science degree to museum science majors. The Llano Estacado Museum will also provide jobs for 10 to 15 work-study students.

### El Progresso Club Begins New Season

Meeting Thursday, Sept. 25 at the ranch home of the president, Mrs. Harold Campbell, El Progresso Study Club began the 1975-76 season with Bicentennial as its theme.

The book, "The Constitution Explained" by Harry Atwood, was given in review by Mrs. W. N. Pipkin.

Mrs. Campbell opened the meeting, conducted a business session and gave a resume of the programs for the coming year.

"Did you know," Mrs. Pipkin began -- "that the United States was without a constitution for 10 years after the Revolutionary War?"

"The country was in a state of chaos and despair. The people who lived here then tried fruitless experiments, one after another with countless failures, until they were much at sea as to the future course... money was worth 2 1/2 cents on the dollar, the zero! Credit was ruined, trade was paralyzed, discipline was at a low ebb, and anarchy, bankruptcy and confusion prevailed."

"It took slightly more than four months to write the Constitution, almost a year to have it ratified by the states and another year to set up the government under it, Mrs. Pipkin told her listeners.

"And yet," she continued, "within three years, conditions had so changed and Washington had so recovered from his depression because of the beneficent effect of the Constitution that he began writing letters of cheer and hope to his friends."

On Feb. 3, 1787, about seven months before the Constitution, Washington had written Henry Knox: "If any person had told me there would have been such formidable rebellion as exists, I would have thought him fit for a madhouse."

Three months later the authors of the Constitution met in convention in Philadelphia.

Before the Constitution was written and adopted, Mrs. Pipkin said, Congress was composed of but one house and each State had but a single vote; Congress had no power to levy taxes for the support of the government which operated under the "Articles of Confederation and Perpetual Union between the States," which had not gone into effect until March, 1781 because Maryland did not give her consent until that time.

Mr. Atwood was prompted to write the book because he became interested in the Constitution as a subject for research and interpretation, Mrs. Pipkin explained.

He gave up his law practice in Chicago in 1918 to devote his entire time not only to the Constitution itself, but to the

vast amount of historical material that throws light on its making and its meaning. In October, 1924, Dr. John J. Tigert, United States Commissioner of Education, made the challenging statement: "I do not believe there are more than a very limited number of persons, perhaps a hundred, who really know what is in the Constitution of the United States."

Mrs. Pipkin gave an outline of the Articles of the Constitution and the Amendments that followed. In closing, Mrs. Pipkin read the legend of Washington's Prophetic Vision: "Three great perils will come upon the Republic. The most fearful is the third, passing which the whole world united shall not prevail against her. Let every child of the Republic learn to live for his God, his land, and the Union."

The annual President's Tea followed the program, with Mrs. J. E. Edwards, Mrs. Robert Darsey and Mrs. R. E. Campbell Jr., as hostesses.

The table was laid with a white cloth and centered with a cluster of miniature flags, representing the 13 Colonies, with a decoupage copy of the Declaration of Independence in the background. Scattered over the table were several unrecirculated 1976 commemorative coins, and replicas of the Seal of the United States. Refreshments were coffee, tea and cake.

In addition to those mentioned, others present were, Messdames Frank Pohl, J. L. Woodruff, Ben Keltz, W. D. Lipscomb, A. J. Daffern, W. F. Jacobs, Ralph Stapleton, Furman Vinson and Douglas Meador, and Miss Mary Keith.

**ATTEND SHOWBOAT**  
Mr. and Mrs. L. H. Dirickson attended the Lubbock Theatre Center's presentation of Edna Ferber's "Showboat," Sunday afternoon. The play is the first of the new season and played to a full house with great acclaim -- "Old Man River," being the theme song.

Mrs. Bill Webb of Lubbock, who is employed by Southwestern Bell Telephone Company, recently was promoted as head of the engineering department. The former Rosmary Shanks, Mrs. Webb is a 10-year employee of the company. Her husband is a barber and hair stylist in Lubbock.

Mrs. Clarence Groves of Arlington spent the week end with her sister-in-law, Mrs. Velma Fulfer. Also visiting were Mrs. Fulfer's granddaughters, Gerri and Karla Leslie of Lubbock.

### PEACE

Every individual Christian is in a position to be at peace with self and God. Note that God places some responsibilities on the individual Christian. "Let your forbearing spirit be known to all men."

This is an imperative sentence. And the "understood" subject is YOU. YOU are requested or commanded to do something. Let all men know the kind of spirit you have. How do you let people know that you have a forbearing spirit? Simply by practicing forbearance. That is the responsibility of each Christian. A person who refuses to develop forbearance - also translated moderation (KJ) and gentleness (Greek Interlinear) - refuses God. In such case a person will not have the peace which passes all understanding.

Paul further writes, "The things you have learned and received and heard and seen in me, practice these things; and the God of peace shall be with you. Phil. 4:9. Paul expresses his formula for peace to Timothy in these words.

...but now has been revealed by the appearing of our Savior Christ Jesus, who abolished death, and brought life and immortality to light through the gospel, for which I was appointed a preacher and an apostle and a teacher. For this reason I also suffer these things, but I am not ashamed; for I know whom I have believed and I am convinced that He is able to guard what I have entrusted to Him until that day. 2 Tim. 1:10-12.

**THE WHAT CYCLE?**

Did you know that there is exactly the same amount of water on our planet today as there was when Cleopatra floated her barge down the Nile, and even eons before? And that it's the SAME water? And that the same amount will be present in all the years to come?

All true. What happens to water is known as the hydrologic cycle, which simply means that the same water is used again and again and again.

Water evaporated by the sun into the atmosphere becomes clouds which return the moisture to the earth in the form of rain or snow or sleet, only to evaporate again to continue its cycle.

All of which makes a tiny drop of water a mighty interesting thing.

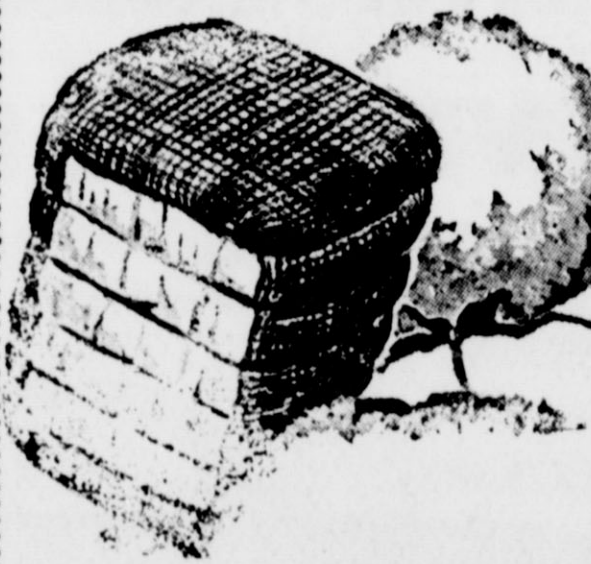

But it is no more scarce today than it has been at any time in the history of our planet. What makes it seem scarce is that so many more people are using it because populations continue to grow, and we continue to find so many new uses for it.

Consider the days 100 years ago or so when a family of

So, even though there is no less water than there ever was, there is less water per person, and we need to use it wisely, care for it, keep it clean, so that it will sustain many generations to come.
