## Blizzard's Payoff Reaches 4-Year Low

## Slight Relief Is Indicated By Tomorrow

Traffic Moving Again, But At A Slow Pace

The weatherman missed on his prediction of more snow Thursday night, but he hit it on the head in the forecast of a new

In fact, residents in the Big Spring area concluded the weather experts had been too modest when the verdict was in Friday morning-a reading of seven degrees at the US Weather Bureau at the airport and six degrees at the US Experiment

This was the lowest reading since Jan. 19, 1943 when the area weather and almost on a par with the Jan. 21, 1935 round of six-degree temperature.

Not much immediate relief was in sight, although the forecast figured the minimum might be 10 degrees higher Saturday morning. The high for today was plugged at ice. Saturday the top temperature slowly rising temperatures over ish resistance in the Holy Land. the weekend.

The splendid traffic record in the face of the adverse weather continued, and the amount of traffic dropped off sharply although buses did resume schedules, which

an icy mush Thursday afternoon, solidified before nightfall and were like glass Friday morning.
Falls, multiplied, but here again Paris.

Lady Luck was riding with the population, for there were no serious injuries reported on this score.

There had been scattered calls to the city for water cut-offs in the wake of broken pipes, but the siege on this was due to come later with thawing weather. Similarly, the extent of bursted radiators and cracked blocks could not be properly appraised until more moderate temperatures appear.

Sharp wind, which cut like a knife Thursday night, had subsided Friday morning and the cold was not bitter.

Still no reports of livestock loss were heard, although the stabbing norther in the wake of snow and earlier cold, caused apprehension about cattle and sheep.

## It's 30 Below In Minnesota

Air travel was curtailed, train

and bus schedules delayed and motor traffic made hazardous today by fresh falls of snow, freezing rain, sleet, and fog over a wide section of the country.

Bitter cold struck the Dakotas and Minnesota today and the mercury dropped to more than 30 below zero at Bemidji, Minn. near the 30 below mark at Pembina, N. D., and from 15 to 20 below in parts of South Dakota. Federal forecasters said the cold

wave would move eastward to the Atlantic Coast and predicted lower temperatures for the North Central area.

Chicago had its heaviest snowfall in two years, measuring about six inches.

In Chicago a streetcar ran through an ice-closed switch and careened off the tracks into a poolroom at Forty-Third and South State Streets. Wabash Avenue police said 18 persons suffered minor injuries.

Four men were killed near Jefferson City, Mo., in a traffic accident during a heavy snowstorm.

#### Pecos Man Treated For Cold Exposure

BAIRD, Jan. 3. (P)-Marion M. Gardner, 21, of Pecos, Texas, was in the hospital here today suffering from the effects of more than 15 hours exposure to bitter cold after his car stalled during a snowstorm Wednesday night.

Hospital attendants fear Gardner might develop pneumonia. The youth was rescued shortly after noon yesterday when Highway Patrol Sgt. Royal Kelley of Abilene discovered his car on State Highway 36 about 15 miles southwest of here.

#### MISHAPS DOWN TO ZERO DURING BITTER WEATHER

Just for the heck of it Big Spring police checked back through activity sheets for the past week and then hastily crossed their fingers.

They already were aware of a scarcity of traffic mishaps during the past three days while streets have been covered with snow and ice, but the actual record for the week was considered even more amazing. City offciers have not been called to investigate any type of traffic accident which required wrecker or towing service for a vehicle involved since Sunday aft-

There may have been some instances when fenders of bumpers were banged around, officers said, but no serious damage. And, of course, wreckers are seen frequently on the streets, but the calls are caused by mechanical difficulty brought on by the cold weather.

WASHINGTON, Jan. 3. (AP)—A tax-trimming bill calling for a 20 percent cut in income taxes on the first \$300,000 of individual inserted today by comes was offered today by Rep. Knutson (R-Minn).

The prospective Republican chairman of the house ways and means committee modified his bill at the last minute before introduction at the noon opening of congress. Instead of a flat 20 percent cut across the board all indi-vidual income tax brackets, Knutson recommended:

1. A 20 percent cut on the first \$300,000 of income. 2. A 10:5 percent reduction on that portion of income exceeding \$300,000.

## YESTERDAY

Everybody's Church

Yesterday is forever gone. There is no point in looking back and bewailing our failures. To chide ourselves for past neglect or mediate on what "might have been" is to waste valuable time.

## TODAY

Today is ours! If we would save it from the same pit of failure into which we permitted yesterday to plunge, then we must be up and at the business of living. Today will be yesterday before many of us realize it.

### TOMORROW

Tomorrow will be pay day for what we do today. Whether it pays in regrets or in the fruits of successful labors, depends entirely upon the individual, you and me.

Go to Church next Sunday and every Sunday.

Achieving a budget not to exceed 25 bilions will not be at all easy, but no effort should be spared in working in that direction. Chief difficulty will be in seeking to maintain proper support of the military on a semi-wartime basis in peace-times. Right now the military requires 18 billions per

Another big chunk, which will be difficult to pare, is that of veterans benefits, for this is not only politically ticklish, but morally involved. Appeals for food and clothing in

foreign countries wil lbe felt, too, along with the maintenance of many wartime agencies and services, despite the proclamation declaring a cessation of hostilities.

At the best, the demands will be many and keen, but there is much to be said for a policy which will seek utmost economy. It will be well to tackle this matter without any primary thought of tax relief, although any adjustments which can be safely made in this direction will be welcomed. Too great a cut in taxes might imperil chances of effectively attacking the national debt as well as aggravating inflationary trends.

One thing seems sure - that we should deal the debt some telling blows in the next few years if we ever hope to do anything about it. If not, we had better brace ourselves for the whirlwind.

## Double Responsibility Involved

come one of the targets of John E. Rankin and the house committee on un-American activities. Mr. Rankin promises to look into the situation, enlisting aid of patriotic organizations, with the view of driving "pink" professors, "subsidized from questionable sources" from their positions.

He has not yet, of course, got down to naming the sources or unmasking, much less proving, those pink political hues held by some professors.

Now we do not doubt that there may be some in the educational field who are pink or even downright red. That they are in substantial force is extremely doubtful. They should be uprooted if they persist in forcing' their doctrines upon students, who have no alternative but to listen. On the other hand, this sort of search can easily degenerate in-

Educators, and thus education, may be . to witch hunting-and it is to be hoped that the committee bears this in mind.

> Many in the educational profession are free thinkers, liberal thinkers, but they are a long way from being communistic. Too many people, probably like Mr. Rankin, would like to prevent freedom from presenting facts on all sides of all issues. That is dangerous. It is un-American, too and it is diametrically opposed to the right of academic freedom.

Mr. Rankin's committee should bear in mind that it has a double responsibility in not only ferreting out un-American activities, but also in not doing damage to the educational system by succumbing to the temptation of sensationalism and broad innuendo:

#### Eikenberg To Rid Self Of Muscle

HOUSTON, Jan. 3. (AP)- Now that football season is over, Rice Institute quarterback Virgil "Ike' Eikenberg will turn in his gridiron uniform - and one of his leg muscles.

Early in the past season Eikenberg suffered a muscle injury in one leg. The leg would straighten out but the injured tendon would not snap the member back.

Inventive Eddie Wojecki, Owl trainer solved the problem. He made a leg muscle out of an automobile innertube. One end of the tube was strapped to the player's thigh and the other end below

the knee. Wojecki's contraption worked. Big Ike played a greater part of every game with the hand-made muscle doing part of the work.

#### Seal Campaign Short Of Goal

Howard County Tuberculosis Association still is more than \$500 short of its 1946 Christmas seal goal, Mrs. Louise Horton, secretary, announced Friday after a new tabulation of receipts.

Seal sale workers counted about \$240 Thursday night, bringing the The Solomon islands were so total up to \$2,486.20, but the fignamed because their discoverer, ure remained more than \$200 off

C. O. Nalley, seal sale chairman, said the chief lag is in the slow response to seal supplies mailed to individuals at the start of the drive. He issued another plea for prompt remittance, and pointed out that if half the list still unaccounted for responds the goal will be exceeded No response has been received

from some 1,200 cards, Nalley said. Approximately 1,000 follow-up cards have been mailed but results have been slow.

Since 1900 the US death rate from Tuberculosis has been reduced from about 200 per 100,000 to about 40.
