PRICE TEN CENTS

TRAIL DUST

By DOUGLAS MEADOR

When friendship is strong enough to escape the violent atmosphere of love and the talons of jealousy, it develops a passive strength which may bridge the river that flows along the boundary of life.

++ It is seldom possible for a journey to follow the course of anticipation, since destiny itself is not removed from changing plans when there is fresh and unexpected wind in the sails.

++ If a man follows the music of curiosity he may learn a new melody, or merely cause discord in a strange orchestra.

++ Whatever strength the printed word may possess is metered through its accuracy.

++ Skill amounting to genius is required in timing a convincing engagement that makes impossible the participation in a dreaded household chore. Husbands who attain this estate are subject to the envy of their contemporaries.

++ A gentle and extremely wise old man once told me that fear is so contagious that most of the people I feared were afraid of me, or detested me because I feared them.

++ Critics of modern life apparently have overlooked an important trend in education: Baby-sitters are being paid for some impressive training in motherhood. (Trail Dust 7-25-57)

Governor Proclaims 'Farm Safety Week'

AUSTIN - Governor Dolph Briscoe has proclaimed July 25 - 31, Texas Farm Safety Week built around the theme "Safety is a Good Investment." Purpose of the observance is to call attention to methods of preventing the needless accidents on Texas farms and ranches that annually take 200 lives and cause multi-million dollar losses.

Governor Briscoe pointed out that safety must be a personal commitment and an integral part of everyday living. It's up to each farmer, he said, to protect priceless human resources through such practices as: developing a home fire escape plan, storing clearly marked poisons well out of children's reach, training family and workers to perform tasks safely, and providing and wearing appropriate protective equipment so that accidents aren't given a

chance to happen. Since traffic, firearms and drowning accidents pose the greatest hazards for Texas farm families, a specific investment in their prevention would be well during Farm Safety Week.

Drivers can learn to avoid collisions in the eight-hour National Safety Council Defensive Driving Course. Offered regularly around the state, it can also save graduates 10 per cent on their automobile insurance. More information is available from the Texas Safety Association, P. O. Box 9345, Austin, Tex. 78766. The National Rifle Association's Hunter and Firearm Safety Courses (coordinated by the Texas Parks and Wildlife Dept.) and the American Red Cross First Aid and Learn-To-Swim Courses also provide valuable safety training.

Farm Safety Week is an annual nationwide observance launched in 1944 to help reduce accident losses impairing wartime farm production. A sampling of the 169 accidental farm deaths recorded by the Texas Farm Bureau for 1976 indicates that accident prevention efforts are still timely and necessary today.

THREE CLUB PLAY

'Twas a weighty decision in selecting only three clubs for play - but since playing, have decided perhaps that is all we may need - at least I did as well as usual . . . perhaps even a bit better.

Playing were Loys, Louise, Leona, Laverna, Lindy, Mickey, Francine, Dorothy, Winifred, Frances, Geneva, Dorothy R., and Hazel . . . Hazel won the ball with low net score (34).

Louise's game wasn't affected by using only 3 clubs, as she had 38 (gross) . . . nothing bothers her game! (This past week end, Louise and Alfred were in Ruidoso and played golf at "Inn of the Mountain Gods" . . . they enjoyed playing on the course - said it was most beautiful.)

cars around. Individual tables were centered with miniature golf carts and golfers with umbrellas (quite fitting - we had barely finished playing when it started raining).

Joining the mentioned playing were these diners: Lucretia Jr., Nell Brotherton, Faye, Elaine, Norma Nell, Opal, La Voe, Lillian, Pat and Nell Clem. Lucretia Jr., offered thanks.

Several new recipes, along with some old stand-bys made for tasty and gourmet eating. Frances brought German chocolate ice cream and it was really yummy!

Five of us really enjoyed having our lunch on Dorothy's patio underneath a colorful umbrella and with a cool breeze . . . made one feel like estate or country club living in such a picturesque spot.

Your reporter (Hazel) brought her golf scrap book - at last finished and up to date, after many hours spent in getting it assembled. Members enjoyed looking through it. Lillian and La Voe were the only ones present who were charter members when the present Women's Association was organized, in July 1955!

Members made contributions (\$5.00 each) for the RR fund.

Mr. and Mrs. Gail Bradley of Corpus Christi visited relatives here last week

before attending the Jinkins Mrs. Robert Darsey and Mrs. R. E. Campbell Jr., They accompanied her sister, Mrs. Henry Solomon to her home in Tula after the reunion and left from there to return home.

They spent the week end in Big Spring visiting their sisters, Mrs. Bob York, and Mrs. Homer Shankle and family, in the latter's home.
