THEY DODGE REBEL BULLETS

Former Army Fliers Find Big Business In Burma War

RANGOON, Burma, Aug. 31. (UP)—The Burmese civil war is proving a boon to former U. S. Army and Navy fliers here. Some are Texans.

These Americans are doing a good business chartering their aircraft to the Burmese Government for transport of soldiers, supplies and civil servants who otherwise would be grounded because of disrupted surface communications.

The young businessmen earn their money, though, dodging rebel bullets. Some of them have been captured (temporarily) by outlaws unexpectedly occupying airstrips in the hinterland after plane takeoffs from Rangoon.

In Burma there is no radio communication between towns or sky-riding planes and their destination point. This absence of radio produces another hazard for the U. S. pilots—blind flying in a lush monsoon.

Some of the Americans, ex-hump fliers, claim flying without radio during the monsoon is much more

hazardous than crossing the hump between India and China.

"Toughest flying in the world," is the way they put it.

Chief pilot of air carriers is Capt. R. A. Stratford of Savannah, Ga., with Barney Kullmoth of Iowa as his co-pilot. An Australian, George Birmingham, is the radio operator.

The Gibson-Shoemaker outfit hopes to extend its service by bringing in three more planes. Their four-month-old operation so far has been fairly uneventful.

In that they are more fortunate than Capt. Ladd Moore of Marshall, Tex., 34-year-old director of

operations for Indonesia Airways. Moore, whose aircraft is under charter to the Burmese war office for carrying troops and ammunition, has been hit three times while flying over rebel territory.

He said his narrowest escape came when rebels occupying the North Burma army base Meiktila hit his ammunition-laden plane.

"Actually," he said, "I was due to land the stuff at Meiktila, which was unable to warn Rangoon of the rebel attack. If only the rebels had held their fire, they would have captured me, my plane and the ammunition."

CAMPUS IN A PHONE BOOTH FOR DENTISTS TAKING SPECIAL STUDY

CHICAGO, Aug. 31. (UP)—Will the college campus of the future be a telephone booth?

Could be.

This fall the University of Illinois College of Dentistry in Chicago will provide postgraduate courses for some 7,000 dentists who won't be in Chicago. They will be in 135 other cities getting their instruction by telephone.

The idea started in 1947 when Dr. Saul Levy, a Scranton, Pa., dentist called Dr. Robert G. Kesel at the university dental school here. Dr. Levy said he wanted to attend the postgraduate course on control of tooth decay but couldn't spare the time to travel to Chicago.

"Why," he asked, "can't I hear the lectures by telephone?"

The result: Dr. Levy and 19 other Scranton dentists met in the chamber of commerce building on class nights, got out lantern slides and charts that had come in the mail, hooked an amplifier to the telephone, and listened. They didn't miss a word.

Word of the innovation, got around in the profession. Other dentists in towns outside the big

dental school centers became interested. Classes-by-wire were brought to dentists in Scranton and New Iberia, La., in the spring of 1948. There was a six city hookup in Illinois last fall.

But that was only a starter—and a small one, at that. The university, starting Oct. 10, will put on a postgraduate educational series that will reach 135 cities in 38 states and two in Canada over telephone lines.

There will be one session a month for six months. Each will start at 8:30 o'clock at night Eastern Standard time and will last two hours. These will originate at the University of Illinois Chicago campus.

There will be a different subject each month but the general theme is "Current Advances in Dentistry." The object is to bring dentists up to date on the latest developments in their field.

Six speakers will be heard on each program. They are research men, teachers, practicing dentists and specialists from a score of cities and universities. Each will speak six or seven minutes. A round-table discussion will follow.

FOR LOST TIME IN STRIKE

Ford Workers To Get Jobless Pay

AUSTIN, Aug. 31. (UP)—Jobless pay was being readied today for Ford Motor Co.'s Dallas plant workers for time lost last May during Ford's Dearborn plant strike.

Texas Employment Commission Chairman Harry Benge Crozier said checks would be mailed shortly to 816 workers.

TEC ruled yesterday that the workers were entitled to the pay since work stoppage did not result from a labor dispute at the Dallas plant itself.

Texas law, the commission ruled, requires payment of unemployment compensation under those circumstances.

At a hearing before the commission four weeks earlier company officials opposed payment of the compensation sought for the employees by union officials.

The company argued that the various Ford plants constitute one establishment and that the Dallas workers were members of the same labor union as the striking Dearborn workers.

TEC's ruling said that "it is obvious to us that the strike in Michigan did not exist at either the factory or the premises where the Dallas claimants were employed." The Dallas layoff, it said, was solely because of a shortage of parts.

"We recognize that it is our responsibility to apply our unemployment compensation law as it is written. We therefore hold that the claimants in this case are not disqualified for benefits. . . ." the written decision read.

All three commissioners agreed on the conclusion, but differed on pointing up a possible change in the law.

Berlin Chief Fears More Soviet Tricks

BERLIN, Aug. 31. (UP)—Brig Gen Frank L. Howley predicted today that Russia would try more tricks to oust the Western Allies from Berlin.

The retiring U. S. commandant of Berlin told a news conference "they will keep trying tricks and pressure as long as they think they can get away with it."

"My guess is that they won't get away with it and I would advise them not to try."

Howley, who published today an 80,000 word report on his four years as American chief in Berlin, said America "is not willing to let bygones be bygones and forget everything that has happened here in the past. We will not forget the lessons we have learned."

At his final news conference before sailing for home next week, Howley paid a long, earnest tribute to the German people of Berlin and predicted "your city will one day be the capital of a united Germany. I cannot say when that will be because there is no way of predicting when the Russians will stop their pressure to tear the country apart."

In his own summary to the detailed report of U. S. occupation in Berlin, Howley blamed Russian efforts to seize the entire city for the friction between the four powers.

Beer Control Left Up To The District Court

OKLAHOMA CITY, Aug. 31. (UP)—Said the Oklahoma Supreme Court to an Oklahoma district court: Texans' over-indulgence in 32 beer in the Sooner State is your problem—not ours.

The supreme court held a special summer session to hear arguments about three taverns on the Oklahoma side of the Red River—just north of Quanah, Tex. Jackson County (Okla.) officials have protested conditions there.

The taverns draw about 90 per cent of their customers from Texas, County Atty. Loy Criswell told the court. He had the word of Sheriff Mayland Owens of Hardeman County, Tex., to back him up.

Beer is illegal in that section of Texas.

Eleven months ago the state supreme court issued an order permitting a tavern owned by Roff Weekley to operate as long as state beer laws were not violated. Earlier this month, however, the Jackson County District Court revoked Weekley's license.

Yesterday, at Criswell's request, the court lifted its order of 11 months ago, leaving the matter to the district court.

Criswell also told the court the other taverns agreed to abide by the latest district court order effecting Weekley's place. But, he said, they have remained open instead of closing as Weekley did.

He said contempt of court citations will be filed against the two.

Texas REA Unit Makes A Record Loan Re-Rayment

WASHINGTON, Aug. 31. (UP)—A rural co-op from Texas has handed the REA its biggest advance loan repayment check in history.

The check for \$135,529 was delivered yesterday.

John Heck, president of the board of the Lyntegar Electric Co-operative, Inc., of Tahoka, Tex.; Tom Gerrard, attorney, and C. L. Pennington, manager, presented the check to REA Administrator Claude Wickard.

Sen. Johnson of Texas was present.

The Lyntegar Co-operative has received loans totaling \$3,089,000 from REA in the past 11 years. The organization operates 2,800 miles of line, serving 5,953 rural customers.

Of the amount borrowed, the co-op has now paid back \$487,197, which, with the latest check, is \$200,000 ahead of the repayment schedule.

Husband Fled 26 Years Ago; It's Time For Divorce

DETROIT, Aug. 31. (UP)—After 26 years, Mrs. Sophie Nichols has decided that, minus a husband, a marriage isn't a marriage.

Yesterday the former Detroit school teacher officially shucked herself of Walter Nichols, who hasn't been heard from since he bolted their wedding reception Dec. 23, 1923. She told Circuit Judge Chester P. O'Hara:

Nichols left after picking up the wedding presents and the contents of ladies' pocketbooks while the others feasted. It was the climax to a whirlwind courtship.

Judge O'Hara agreed that it sounded pretty much like abandonment and annulled the marriage.

"I stayed married because I didn't want to be fooled twice," Mrs. Nichols said.

Would Withdraw Securities Offer

WASHINGTON, Aug. 31. (UP)—Mrs. Tuckers Foods, Inc. of Sherman, Tex., has asked the Securities and Exchange Commission to let it withdraw a registration covering proposed sale of 200,000 shares of \$2.50 par common stock.

The company told the commission yesterday it felt market conditions were unfavorable for sale of the securities.

**WOULD THREATEN STABILITY'**

**Public Appeals Published To Head Off Ford Strike**

DETROIT, Mich., Aug. 31. (AP)—The Detroit Board of Commerce sought today to head off a strike of Ford workers throughout the nation.

It published full-page ads in Detroit newspapers declaring another Ford strike, at this time, would threaten the economic stability of the nation.

The appeal for industrial peace was made as the Ford Motor Co. and the CIO United Auto Workers were reported to have reached a tentative agreement on virtually all major issues. These are called non-economic. They include seniority rights and grievance procedures.

Most of the time in the bargaining talks on a new contract, now in the thirteenth week, has been spent on the non-economic issues. But no progress was reported on the union's economic demands—pensions, health benefits, and a fourth round wage hike.

CIA President Walter Reuther has threatened to call a strike of 106,000 Ford workers if necessary to win these demands.

Reuther was expected to press economic demands at bargaining talks today. He refused to answer the newspaper's queries yesterday as to when the union might file a five-day strike notice. Rank and file members already have authorized a strike.

No major developments are expected, however, in negotiations over pension, health benefits and a wage increase until early in September when a presidential fact-finding commission reports on

similar issues in the steel industry.

The board of commerce captioned its ad "Ford strike scoreboard proves that nobody wins." It declared the 23-day strike last May over a "speed-up dispute" cost the nation \$243 million directly. It added "98,312 Ford workers lost 13,536,247 man hours—with a loss of \$23 million in wages."

The board made up of 5,850 business and professional members, de-

clared: "The automotive industry is the keystone in America's economy—one out of every seven workers depends upon it for a living. Paralyze the automotive industry—and you paralyze America."

Harvey Campbell, executive vice-president of the board, said reprints of the ad will go to business men and chambers of commerce throughout the Midwest.

**Pilot Who Quit Red Army For U.S. Changes Mind, Returns**

VIENNA, Austria, Aug. 31. (AP)—Soviet Pilot Anatole Barsov voluntarily returned today to the Red Army from which he fled as a political refugee last October.

In a brief ceremony at the zonal demarcation line, American authorities handed him over to a group of Russian officers.

The transfer was made on the bridge linking Linz in the U.S. zone with Urfahr in the Russian zone. The transfer took place only a few miles from the American air base where Barsov and two other Russian airmen crash-landed in a twin-engine bomber last Oct. 9.

Before formally turning Barsov over to the Russians, the American camp gave him a final chance to change his mind. The Russian filer

stuck to the decision he had made July 28 when he told the Soviet Embassy in Washington he "repented" his desertion and wanted to go back to Russia.

Barsov was flown here from the U.S. on Aug. 24. This morning American Army authorities received instructions from the State Department to return Barsov to the proper Russian authorities.

Barsov and his Navigator Piotr Sivogov flew their bomber from an airbase in the western Ukraine after what they said was more than a year of planning. They were accompanied by a Russian sergeant who was handed back to Soviet authorities at his own request.

The two officers were taken to the United States last February. Lt. Gen. Geoffrey Keyes, American high commissioner to Austria, declined to make any statement on the incident.

One Army spokesman said today the State Department acted with more "baste than judgment" in authorizing Barsov's release.

"There are at least three Americans missing in the Russian zone of Austria and at least two Americans missing in the Russian zone of Germany," he said.

"We did not even try to bargain Barsov's return for the return of our own people," he said.

American circles in Vienna speculated on Barsov's probable fate.

It was noted that Russia's latest note to Yugoslavia contained a bitter denunciation of deserters.

American sources said they expected Barsov to be used for propaganda attacks against the United States for a few weeks and then to drop from sight.

**Mileage Death Rate Reaches All-Time Low**

CHICAGO, Aug. 31. (AP)—The mileage death rate for the nation's traffic accidents in the first half of 1949 hit an all-time low of 8.8.

This milestone in traffic accident prevention was reported today by the National Safety Council. It was the first time in the history of such record-keeping that the half-year rate has been less than seven deaths for each 100 million miles of vehicular travel.

"The goal set by President Truman in 1946 is in sight," the council president, Ned H. Dearborn, said in a statement. "At that time he asked that the mileage death rate, then about 12 deaths per 100 million miles, be cut in half."

The toll of actual deaths, however, rose slightly in July. The annual fight to make a gain in lives saved remains close.

For July the death toll was 2,850, an increase of 2 per cent from the 2,790 July toll of 1948. July, January and April are the only months this year to record more deaths than last.

At the end of seven months the 1949 death total was 16,540, still 11 per cent under the 16,700 count at the end of July, 1948.

**Former Panama President Freed**

PANAMA, Panama, Aug. 31. (AP)—Former President Arnulfo Arias Madrid was released from prison late last night under a recent amnesty decree pardoning all defendants charged with political offenses.

The decree was issued by President Daniel Chavis in tribute to the late President Domingo Diaz Arosemena, who died last week. It covered Arias and a score of other defendants charged with attempting to overthrow Diaz's administration last spring.

Chavis is filling out Diaz's term, which expires Oct. 1, 1952.

**Cohen Nabbed—For Disturbing Peace**

LOS ANGELES, Aug. 31. (AP)—Gambler Mickey Cohen was arrested at his home tonight. The charge—disturbing the peace.

The arrest resulted from Cohen's cursing of a policeman two weeks ago when they arrested his "business manager," Mike Howard, said Capt. Lynn White.

Chief Police William A. Worton last week stated that Cohen would be watched closely as a member of the city's "undesirable element," and expressed anger over the verbal dressing-down Cohen gave officers.

Police reported they found a gun

in Howard's apartment when they arrested him two weeks ago and today he was arraigned on a charge of possessing firearms illegally as an ex-convict.

Cohen later was released on \$100 bond. He paid it out of his own pocket.

# Robeson, With Communist Talk, Got The Trouble He Asked For

An outfit denounced by former Attorney General Tom Clark as subversive staged a "rally" at a picnic grove in Westchester County, New York at which Paul Robeson, the fellow-traveling Negro singer, was to be the principal attraction.

Robeson's claim that the whole thing was part of an organized terror against the Negro people was as silly as anything he has said lately, and he has gotten off some pretty silly remarks. It is likely that the suggestion of Jackie Robinson, the Brooklyn Dodgers' colored star second baseman, remains the best possible solution of the Robeson case. Buy Robeson a one-way ticket to Russia, Jackie suggested.

# Tito Resistance Represents A Real Dilemma For Stalin

A great many Americans are still skeptical of the genuineness of the quarrel between Marshal Stalin and Marshal Tito; they think it is a put-up job to lull the West, to break down trade restrictions, and thereby open a route for badly-needed Western goods into the Soviet Union.

and through. The quarrel between him and Stalin stems from Russia's desire to make Yugoslavia a raw-materials state, while industrial development is confined to the other satellites and to Russia. Tito disagrees violently. He wants to develop his country industrially. He is, presumably, against the forced collectivization of Yugoslav farms in behalf of furthering the industrialization of other satellites. The Yugoslav peasants are fierce individualists in love with the land, and would resist collectivization to the death. The Kremlin knows how stubborn the peasants can be, and so does Tito.

# Notebook—Hal Boyle

# Christophers Out To Do Good; All Faiths Are Represented

"The time is here for action—for offering something better than the subversives can offer." I WENT TO SEE FATHER KELLER because I had been hearing a good deal about misunderstanding and bad feeling among religious groups, and I wanted to know if there was another side to the story.

The man in the Roman collar is sure that there is. "The Christophers," he said, "are people of all faiths. Some have no particular faith. We're all sorts of people—housewives, actors, employers, union officials. We concentrate on a few fields—teaching, government work, labor-management, and the spreading of ideas by radio, movies, publishing and so on.

# Matter Of Fact—Joseph Alsop

# European Crisis Immediate; That Of Asia Just As Sure

One conclusion appears reasonable to the traveler returned from a journey of political observation around the world. This is that American foreign policy, both in Europe and in Asia, is now faced with failure. The danger is not apparent here, because Secretary of the Treasury John Snyder and other Administration advocates of business as usual are sitting on the crisis, like so many nervous hens hatching time bombs. Yet it is important to try to understand what is happening.

bankruptcy is already apparent. It is first, to try to erect an autarchic economic system within the sterling bloc, insulated against the United States and the rest of the world. It is, second, to cut British commitments abroad to the bone. And it is, third, to make barter deals with the Soviet Union and the Soviet sphere.

# Today's Birthday

ARTHUR MICHAEL GODFREY, born Aug. 31, 1905 in New York City, son of a newspaperman, radio broadcaster and actor at his own commercial, he started on the radio as "Red Godfrey, the Warbling Banjoist." Fred Allen calls him the "Huck Finn of Radio." Godfrey ran away from home when 14 and worked at various jobs, coal miner, office boy, cab driver. At 17 he joined the Navy and became a radio operator. From 1934 to 1937 he tried other jobs, then served three years in the Coast Guard where he trained further in the technical side of radio. Starting broadcasting in 1939 he has often been on several programs a day.

China is almost gone. The next target is Southeast Asia, which was also Japan's target after the conquest of China was almost complete. After Southeast Asia, the objective is Japan itself, as the major Soviet efforts to train Communist shock troops of repatriated Japanese soldiers so clearly suggest.

# Relations With Iran At A Low Ebb; Teheran Pressing For U. S. Loan

WASHINGTON.—The Iranian government is attempting a new backstage squeeze for a big U. S. hand-out. It is a demand for a \$250 million World Bank loan. The proposal was sprung by A. H. Eftehali, head of the Iranian State Bank and governor of the World Bank. He is due here next month for a meeting of bank governors.

Members of Congress who want to hit the lecture trail can now do so through a new speakers bureau organized in Washington to handle exclusively congressional clients. Sen. Edward L. Leahy, D., R. I., appointed to fill the seat formerly held by Attorney General Howard McGrath, is rated one of the ablest tax experts in the country.

HERE'S WAY TO CONSERVE GAS OKLAHOMA CITY, Aug. 31. (U. S. Motor Vehicle) Lohman C. Cole saw a motorist weaving back and forth across the street. "Believe it or not, officer, I was trying to keep from running out of gasoline," the driver said. "I was slogging the gas back and forth in my tank so I could get it all in my carburetor."

# Around The Rim—The Herald Staff

# Digging For Historical Items Real Task That Needs To Be Done

You probably noticed the announcement of a Centennial edition of the Herald on Oct. 2. It's quite an undertaking. When it is off the press, it won't be all that we would like it to be, such efforts never are; but it will be something you should find both valuable and interesting.

What was the first business? When did the railroad arrive in Big Spring? What was the first industry? The first school? When was the high school built? When did commercial airline service start and when was the first flight for air mail service? What is the background on the formation of the county and city governments? Who was the first chamber of commerce manager? When was the first crop planted in the area and what has been the record of production for cotton? These are but a few of the hundreds of questions which arise. Some of the answers may be found readily. Others require a lot of digging.

# The Nation Today—By James Marlow

# Wheels Go Round And Round In Fixing Size Of Our Air Force

WASHINGTON.—YOU CAN GET gray hair just trying to keep up with the size of the Air Force. Should it have 70 groups? or 48? There's been a wrangle over that for years. Congress is still see-sawing.

group idea and voted money to get it started. But Mr. Truman was cool to the '60 group idea. That would cost a lot of money when government expenses already were high.

ON JAN. 1, 1948, IT REPORTED. IT said we needed 70 groups by 1952. It indicated Russia might be able to start an atomic attack by 1953. Then Congress set up an air policy committee of its own, made up of senators and representatives.

Now senators and representatives will have to sit down and try to reach an agreement or compromise on the money for the Air Force. So at this moment no one can say whether they'll let the Air Force have the \$800 million after all, or part of it, or none of it.

# Economic Pressure Or Revolt Stalin's Weapons Against Tito

ONE OF THE HOTTEST PIECES OF current news out of Europe is the report reaching Washington that Stalin's hold on the Red satellite states has been badly shaken by Moscow's row with Marshal Tito of Yugoslavia.

big steel mill, and the indications are that he also will get a large loan from the World Bank. So that seems to reduce the possibilities to the one of inspiring within Yugoslavia a revolt which might be assisted surreptitiously and unofficially by neighboring Red satellites. Observers recognize that this may be what Russia now is maneuvering for. In any event there is no doubt that heavy pressure is being brought to arouse discontent among the Yugoslavs with their government.

THE YUGOSLAV DICTATOR'S defiance in refusing to surrender his country's sovereignty to Moscow, has placed Russia in the difficult position of having to make him eat crow—and quickly—unless she is to sustain a disastrous loss of face among the satellites. But how to get at the recalcitrant and imperturbable Tito, who refuses to budge from his position? Of course mighty Russia could handle Yugoslavia by force handsily enough if there weren't outside interference. But there might be another world war going full tilt overnight.

## BOARD TO MAKE REPORT Mediation Dropped In Steel Dispute

NEW YORK, Aug. 31. — Presidential fact-finders went to work today to shape their recommendations for preventing a national steel strike. They have abandoned a mediation plan.

The three-man board yesterday withdrew its offer to serve as mediator in the dispute after industry leaders insisted the negotiations would have to be on an individual company basis.

This, said Board Chairman Carroll Daugherty, would be "physically impossible."

He said the board would be immediately the job of weighing evidence and drawing up proposals for a settlement between the companies and the CIO United Steel Workers.

These recommendations, which won't be binding on either side, are due in President Truman's hands by Sept. 10.

That will leave the disputants three days to try to get together—on the basis of the recommendations—before the steelworkers' Sept. 14 strike deadline.

In 18 days of hearings the board has gathered 8,850 pages of exhibits and testimony from the union and the industry.

The steelworkers have demanded a 12½-cent hourly wage increase, plus pension and insurance benefits.

The union says the entire "package" will amount to 30 cents hourly per worker, while the companies maintain it would cost them 40 to 43 cents per hour.

In calling off the board's mediation offer, Daugherty said: "In a long meeting last night the industry representatives decided they did not want industry-wide mediation. They so informed the board today. They suggested individual mediation."

"This would have required us to mediate in some 30 different situations. The board has therefore come to the conclusion that such a task would be physically impossible and has accordingly withdrawn its offer to mediate."

The union had not stated its position on the mediation proposal. Union Counsel Arthur J. Goldberg declined to say whether the union planned to accept or reject it.

Philip Murray, president of both the steelworkers and the CIO, said he had no comment on the attitude of the steel companies.

The board yesterday turned down an industry request that the board seek to persuade the union to delay its strike date. Daugherty said such a request was not in the board's jurisdiction.

## Five Men Perish In Truck Mishap

SANFORD, Fla., Aug. 31. — Five men were killed and two seriously hurt when their car struck a bridge abutment north of here late last night.

The men were returning to Palatka after attending a baseball game here.

The dead were identified as: T. W. Millnor of High Springs, A. M. Colg of Palatka, Dr. Frank G. Abernathy, Jr., an osteopath of Memphis, Tenn., T. C. Vann of Palatka and M. C. Foage of Palatka.

Sheriff P. A. Mero said the car apparently was traveling at a high rate of speed when it hit Monroe Bridge over the St. Johns River.

## Pin Is Removed From Boy's Lung

BROWNWOOD, Aug. 31. — A two and one-half inch straight pin was removed yesterday from the lung of Manley Head, 13.

Doctors said the youth would be all right.

## Bond Issue Voted

BRYAN, Aug. 31. — A \$1 million bond issue for the improvement of streets, fire department, water mains and electric distribution lines was approved by voters yesterday.

## CHEERED BY HARLEM THROG Robeson Defiant, Pledges To Return To Scene Of Riot

NEW YORK, Aug. 31. — Paul Robeson, declaring that "from now on out we take the offensive," vows he'll return to Peekskill, N. Y., where a riot broke up his scheduled concert Saturday night.

The Negro singer spoke last night to a crowd of 3,000 cheering supporters at a Harlem rally protesting the riot, which started after veterans' groups staged an anti-Communist rally outside the concert grove.

"I want to warn the Legion," the singer declared, "that I have been to Memphis, Tenn. and Florida, and I'll be in Peekskill again."

Robeson referred to attendance at last night's rally which included 1,000 persons standing outside the doors, and said "they've got their answer here tonight. I don't see any Legion here tonight."

"We'll have our meetings and our concerts all over the United States. The sure way to get police protection is to make it clear we will protect ourselves."

Robeson and his supporters have charged Westchester County officials with laxity in not providing police protection at the riot scene in a wooded picnic grove outside Peekskill.

Law officials of the county are investigating the disturbance on orders from Gov. Thomas E. Dewey.

City Councilman Benjamin Davis, a Negro, and one of the Communist leaders now on trial for
