THE SPEARMAN REPORTER, HANSFORD COUNTY, THURSDAY, JULY 18, 1957

MYSTERY FARM OF THIS AREA

This is another of the series of Mystery Homes to be published each week for many months. If you can identify this home phone or mail a card to the Spearman Reporter and you may receive a one year subscription free. Please send in your identification as soon as possible. This enables us to visit the home and prepare a write-up for the next weeks newspaper.

on income largely from agricultural activities. Of the total population of 24 million, approximately 80 percent live on and derive their incomes from comparatively small farms around 40,000 villages in 66 provinces. Farming is generally of a mixed type involving (depending on location) sheep, goats, poultry, horses, mules, donkeys, cereals, fruits (pome and citrus), vegetables, olives, cotton, tobacco, etc.

The Ministry of Agriculture is divided into five General Directorates, including Agriculture, Forestry, Veterinary Affairs, State Seed Increasing Farms, and Agricultural Supplies (machinery, fertilizer, etc.); and two sections recently created and administered by the Ministry in the fields of Soil Conservation and Irrigation and Plant Control and Quarantine.

The General Directorate of Agriculture is comprised of 16 master sections, such as Poultry, Horticulture, Agricultural Education, Farm Machinery, etc. The Republic of Turkey is divided into 66 provinces, each of which has its own agricultural office called the Provincial Agricultural Directorate. In 61 of the provinces the provincial agricultural directorate has been expanded to include an agricultural extension organization. In the provinces the office is known as the Technical Agricultural Directorate. These offices typically have a provincial agricultural director, an assistant director, and subject matter specialists according to the location and character of the province.

There are a total of 540 counties in Turkey, or an average of about eight counties per province. Each county has a county agricultural agent. In some cases this individual has an assistant, and in most cases has one or more additional extension workers on his staff (usually called village agricultural teachers). This extension worker may be located either at the county agent's office or, depending upon the section of the country, its needs and facilities available, in one of the districts of the county. The county agricultural agents perform the usual job expected of such personnel, plus some administrative and regulatory work.

The farm advisors (county agents) are recruited from universities, but mostly from regional agricultural schools, training below a B.S. level.

The Extension organization has been increased rapidly in size during recent years and will soon include all 66 provinces. Some difficulty is experienced in getting new recruits in the advisory service because of the competition by private business and other agencies for trained personnel and the fact that they usually offer higher salaries. From a subject matter standpoint, courses being offered at the universities and the regional agricultural schools are being improved.

(Continued on Editorial Page)

Make-Up Games Saturday Nite

Make-up games will be played at the local Youth Program baseball diamond Saturday night. These games will begin at 6:30—they are games that were scheduled for July 4th.

Rev. J. Waid Griffin is the new owner of a Volkswagen—one of the first, if not the first of this make, in this area.

Rockets Down 400's 26-7

The Equity had their first win of the season the past week, downing the Case 400's 26-7. The Rockets combined excellent defensive play, with powerful hitting. Johnnie Crawford knocked a home run, and a double, and the rest of the evening was given intentional passes. Others hitting were Bobbie Campbell, with a grand-slam home run, and almost all of the Rockets were hitting good.

Bill Blackburn, pitcher for the 400's was missed in this game. Mickey Southerland paced the 400's with a home run and a single.

REVIVAL MEETING AT ASSEMBLY OF GOD CHURCH

A revival meeting began at the Spearman Assembly of God church Wednesday night, July 17th with the Best Evangelistic Party of Lexington, Mo. This meeting will continue for two weeks or longer with Evangelist O. L. Bost bringing the messages nightly.

Special singing each night by the Evangelistic Party and the folk of the local church will be a feature of these services.

Everyone will enjoy the old-time gospel messages of this Evangelist who has been preaching for over twenty years. Services nightly, beginning at eight. We cordially invite the public to attend these services.

M. O. COX, Pastor.

MARVIN CHAMBERS IS INVITED TO WICHITA

Sheriff J. B. Cooke phoned Marvin Chambers Tuesday and informed him that he (Sheriff Cooke) was planning a trip to Wichita Falls in the near future, and he hinted that maybe Marvin should come along and assist with a spell at the state institution there. This all came about when Marvin and Ed Munday built a large attractive scenic brick pillow right in the middle of the front door of Marvin's business house. Marvin won't tell you how he expects his customers to get into his store, just advise one and take to keep their shirts on and take a look-see when the job is completed.

We hope Marvin don't have to move a bale of cotton into the front door right soon . . . he might have to tear down a bit of the scenery.

FUTURE FARMERS OF AMERICA DELEGATES CONVENTION BOUND

The Spearman Chapter of Future Farmers of America met Saturday night to select delegates to send to the State F.F.A. Convention of Fort Worth, July 17-19. Jack Vanderburg, Wesley Garnett, and Larry Kingsley are the delegates to represent the Spearman Chapter at this 29th Annual State Convention. These delegates will leave Spearman Tuesday noon with Chapter adviser Ralph Maglaughlin and will return home Friday night.

Main Convention activities will be held in the Will Rogers Coliseum. Business sessions will include election of State F.F.A. officers for the coming year, conferring Lone Star Farmer Degrees on approved candidates; State Public Speaking Contest; Developing State Program of Work; Selecting entertainment personalities to represent Texas F.F.A. at the National Convention in Kansas City. Election of State F.F.A. sweetheart and other business activities.

Special education tours sponsored by the North Fort Worth Business Association will include both Swift and Armour Packing Companies, the Stockyards Area and the National Farm Life Insurance Company's home office. The four day activities will be climaxed with a chuck wagon dinner in North Side Coliseum followed by a program of boxing, wrestling, judo, dancing girls and other acts.

All these activities promise a fine F.F.A. Convention.

All-Star Game To Be Played

An all-star softball game, composed of the outstanding players in the Youth Program, will be played at the local Spearman field, Saturday night, July 27th, 7:00 p. m.

The players for this all-star game will be picked by coaches: Oscar Donnell, Otto Holland, Larry Reed, Don Chastain, Jerry Floyd, and E. J. Copeland.

As plans now stand, Judge Johnnie Lee will coach Jupiter, and Sam Watson will coach the Pluto team.

Big Oil Story for This Area If It Turns Out To Be True

This newspaper through the aid of Jesse Davis of Spearman Drug and Don Floyd of the Chamber of Commerce located a mighty interesting oil news story . . . if it turns out to be true.

First off, Jesse Davis of Spearman Drug sold medicine to an oil driller recently, who said he was working on a well drilling on the J. D. Amend farm between Morse and Gruver. He informed Davis that the drilling formed Davis had reached the contractor hole depth and had bottomed the drilling operation a few feet, and dismissed all men, regular crew except two men, and informed these two men that the concrete truck would be at the drilling site in a few minutes to plug the hole. The oil driller said the drill stem was left operating and just fifteen minutes before the concrete truck was due to arrive all "Hell Broke loose". Seems the gas they were seeking was just ready to

Pick-Up Overturns On Farwell Draw Bridge July 13

Lewis Carnes and Otto Docking of Spearman overturned a 1954 pick-up on the steel bridge over Farwell Draw on the Kimbell road Saturday evening at about 11:00 p. m. The accident occurred while Carnes was driving, and according to the Sheriff's office in Spearman, Carnes stated that he was apparently going too fast for conditions encountered and hit the bridge abutment overturning the pick-up right in the center of the bridge. No one was injured.

Car, Pick-up Colide On Highway 15 Late Saturday, July 13

A car-pick-up accident occurred on highway 15, 10 miles south of Spearman Saturday evening. A 1954 Mercury car driven by Donald D. Campbell of El Dorado, Kansas was stalled and Albert Michelson rammed the car with a 1951 Pontiac pick-up. No one was injured. The accident was investigated by the highway patrol out of Borger, and no other facts were available at the Sheriff's office in Spearman.

False Alarm Saturday

What looked like the whole country burning up Saturday, turned out to be a false alarm fire at the Lawrence Wilbanks place, southeast of Spearman. The boys were burning stubble, and it was thought that an oat crop was on fire. However, as the truck and fire boys arrived on the scene they were informed that it was being set on fire, to destroy stubble.

Barnes Well Is Important to Spearman Area

What few people know is the fact that the Barnes well just west of Spearman is of great importance to this city. This well will be drilled to the Elemnberger Lime, and it will take a long time to explore all the sands and formations between the surface and the rock formation that is the Elemnberger lime.

We are unofficially informed that the Humble organization will continue their operations based largely on the facts that are revealed in drilling the Barnes well. If this turns out a good commercial producer, we learn, (unofficially) that Humble organization will increase their drilling activities materially in this area.

CARD OF THANKS

I would like to take this opportunity to express my sincere appreciation to my many friends and relatives for their cards, letters, flowers, gifts, prayers, and deeds of thoughtfulness during my illness. Your expressions of friendship were most encouraging and I shall never forget them. May God bless you all.

MRS. E. C. BARNES.

NOTICE

Due to lack of attendance, all out-of-town baseball games have been cancelled. Friday night the Gordon's Corner Drug Gophers, play the Panhandle Furniture Mart Panthers, 7:00 p. m., local diamond.

be brought in, and broke through. With the skeleton crew on hand the two men could not handle the emergency, and both men were slightly injured before the gas was brought under control.

We checked with everyone we knew, including our Oil Editor, Bill Russell. Found out the well is over in Sherman County just across the county line, and we learned that Kenneth Mahapy, a driller was carried to an Amarillo hospital as result of some sort of an accident in this area. But we could not find out what company was drilling the well, and we do not have time to learn if the well came in as a commercial producer. Anyway, we will try to get this additional information next week. Perhaps Hall Jones can give us the needed information, but at this time he is evidently out of town as he failed to answer his phone . . . and we were unable to reach J. D. Amend at Amarillo.

Silver Harvest Jackpot Goes Up to \$450.00 This Saturday for Drawing

Sheriff Office Wants Swiped Plane Equipment

Some one in this area, probably small boys who did not realize the importance, took a microphone and head set from a plane parked in the McLain Brothers hangar at Spearman Saturday afternoon. Sheriff J. B. Cooke is anxious to return this equipment to the owner, Mr. Noltzen of Kansas who was here on business and parked the plane in the Hangar. Sheriff Cooke believes that perhaps some small boy swiped the equipment, and he is urging the parents or friends to return the same to the Sheriff's office.

Sheriff J. B. Cooke Has New Deputy

Mr. and Mrs. Don Hall and their two children, Karen Jean 10, and Jerry Don 7, have moved to Spearman and now reside at 426 South Haney. Mr. Hall has been employed by Sheriff Cooke as an assistant investigator in the Sheriff's Department. Prior to coming to Spearman, Mr. Hall was associated with the City of Beaver, Oklahoma and with the Sheriff's Department of Beaver. For the last year and a half he has been Captain of the Perryton Police Department. Mr. Hall is a veteran of World War II, having served three years in Germany during that conflict.

The family attends the First Christian Church and Mr. Hall has had considerable experience with the work of young people. They have come to serve the people of this county and if you have not met them, please take the first opportunity to get acquainted with this fine young family and welcome them to Hansford County.

TOP O TEXAS RODEO

AND KID PONY SHOW

AUG. 5-10
RODEO PERFORMANCES
7-8-9-10
NIGHT SHOWS 8:00

HANG YOUR HAT ON TOP O TEXAS

DANCING NIGHTLY
LEON MAULIFF
and the CIMARRON BOYS
PAMPA TEXAS

The Top O Texas Rodeo officials announced this week the engagement of Ruby Nance professional rodeo band to furnish music for the big Top O Texas show to be held at Pampa August 7-10.

All members of the Ruby Nance band are former circus musicians and for the past several years the band has performed for all of the top rodeos in the nation, including Madison Square Garden.

Another musical feature of the show will be the appearance of Leon McAuliffe and his Cimarron Boys of Tulsa, Oklahoma. This band is recognized as the leading western dance band in the nation. McAuliffe will be featured on the nightly rodeo program and will then play for dancing following the show. The dances will be held in the National Guard building on the rodeo grounds.

Top rodeo hands of the Southwest will be competing for approximately \$5000.00 prize money plus a number of appropriate special awards, including silver belt buckles, stetson hats, and other trophies.

Announcing the show will be Nat Fleming, popular TV personality and rodeo announcer of Wichita Falls. Fleming has announced the Pampa show several years and is recognized as one of the best in the field.

A down town ticket office will be set up in the lobby of the Pampa Hotel on July 29th and reserve seat tickets can be secured anytime after that date.

The Kid pony show and miniature rodeo will hold forth on Monday and Tuesday nights, August 5 and 6 prior to the opening of the big show on August 7.

Humble Oil Co. Active In The Panhandle

The Panhandle area has figured prominently in the activities of Humble Oil & Refining Company for more than thirty of its forty years in the petroleum business.

Humble Oil entered the production picture in this area in 1926 when its first well, the H. E. Merten No. 1 Gray County, was completed. A year earlier Humble Pipe Line Company had begun gathering operations in Panhandle fields.

Forty years ago this month, in Houston, Humble Oil & Refining Company came into corporate existence—the pooled properties and experience of a group of pioneer Texas oilmen who believed in themselves, each other and the future.

Although June is the company's anniversary, the story of Humble begins months earlier. Without a charter or a single signature the company began its operations on March 1, 1917, under a gentlemen's agreement among the principals. For three months and three weeks, until the charter was received on June 21, oral promises and individual integrity preserved a merger that involved \$8 million in properties and a net daily production of some 8800 barrels of oil.

In a way, Humble Oil & Refining Company dates from Spindletop for it was there that most of the men who later organized Humble met and became friends. W. S. Farish, who was one day to become chairman of the board of Standard Oil Company of New Jersey, came to Spindletop from Mississippi where he had practiced law. At the same time, R. L. Blaffer left New Orleans and his father's coal business to work in Beaumont for the railroad. He soon found himself in the oil business instead.

A third original incorporator of Humble, W. W. Fondren, started in the oil business at Corsicana with a drilling rig purchased from money saved when he worked there as a roustabout. He went to Humble, Texas, in 1906 when the field was discovered, and his equipment was part of the Humble Company when it was organized.

The Sterling family—Ross S. Sterling, Frank P. Sterling, and Miss Florence Sterling—organized the old Humble Oil Company, from which the present organization took its name. Another block of property came from the Weiss family of Beaumont, brought into the new company by H. C. Weiss, who took over the Weiss properties upon his father's death in 1912. Other holdings and properties which went into the merger were those of J. C. Wilson, Frank Ireland, Charles Goddard, L. A. Carlton, Ed Pather and Bert Broday—along with the Schulz Oil Company, owned principally by Mr. Blaffer and Mr. Farish.

The first board directors under the new charter included R. S. Sterling, Frank P. Sterling, W. S. Farish, R. L. Blaffer, H. C. Weiss, C. B. Goddard, L. A. Carlton, W. W. Fondren and Jesse Jones. Mr. Jones left the board after a few months and was succeeded by Judge E. E. Townes, who had represented several of the principals as attorney before the merger.

As an integrated company Humble started out with most of the necessary facilities . . . but nothing fancy.

There was one "washpot" refinery at Humble, Texas, which processed 300 gallons of gasoline a day from oil out of a single well. The marketing division, a model T truck, picked up each day's product at the refinery and hauled it into Houston for sale to "filling stations." There was a pipe line—three miles of gathering line in the Goose Creek field.

Until March of the following year the company had no geologists. This was not unusual. Petroleum geologists were a new and rare breed then. But there was a land department, established a few months after the company was founded.

It was a modest beginning in the light of Humble's present scope.

Then, as later, the emphasis was on production, and by 1918 Humble moved up into third place among Texas producers. Some months earlier, the company had already begun to expand its marketing operation, acquiring several service stations in south Texas. In 1918 six bulk stations were established, and number of additional service stations including five in Houston, growing markets.

EVERY FARM IDENTIFIED AS THAT OF MR. AND MRS. A. L. PARKS OF MORSE and PRINGLE COMMUNITIES.

Mystery Farm pictured above is that of Mr. and Mrs. A. L. Parks, of the Morse - Pringle community. There are two houses on this farm and the Parks' youngest daughter and her husband, Mr. and Mrs. Pool live in the smaller home. Parks' other daughter is none other than Spearman Mrs. Roy Lee Uptergrove. They are well known in Spearman, and it was a surprise to the reporter when we realized that Mrs. Uptergrove is the daughter of Mr. and Mrs. Parks. Parks' other sons, Kenneth and J. W. Swink complete the family. J. W. is attending Howard Payne Col-

lege, and Kenneth is going to enter T. C. U. in September. Both of the boys were active in 4-H and other activities at the Morse and Pringle schools. The Parks home is a modern 4 bedroom home. They are members of the First Baptist church at Morse, and are members of the Farm Bureau. Mr. Parks has lived on this farm all of his life. Now, this will complete generations of Parks; Mr. Parks' father, Mr. and Mrs. A. L. Parks, and their daughter Mrs. Pool and her husband. The Parks have six grandchildren, 3 boys and three girls! Couldn't have ordered them more perfect, ac-

ording to Mrs. Parks. Mr. Parks handles cattle in the winter, and has used every type of modern farming practice on his farm, including fertilizer to help improve production. He has two irrigation wells and 22 oil wells to keep him occupied in his spare time! Truly this is a very, very fine farm family, and it is a pleasure to have them as our Mystery Farm Family. Booker Kizzar won the free subscription for identifying the mystery farm as that of Mr. and Mrs. A. L. Parks.

Humble Oil--

In July, 1919, Humble bought Bonner Oil Company. John S. Bonner, head of the company, was made Humble's sales manager—bringing along a wealth of know-how in marketing. Also acquired in the Bonner deal were nine bulk stations, some equipment and merchandise, and two vitally important marketing assets—a trained sales staff and an established reputation in petroleum and lubricant sales along the Gulf Coast.

The scientific approach to petroleum exploration came to H. H. Humble in 1920. The first of them was Wallace Pratt, who was destined to become one of the world's foremost authorities in his field, and who later went on to the board of directors at Standard Oil Company of New Jersey. The next year, seven more were engaged. The early geological work was mainly limited to surface geology, with extensive mapping.

The now-mighty Humble Baytown Refinery was started in 1919, on 2200 acres of a boggy rice field on the Ship Channel. It was a monumental construction task, involving so many additions and improvements that when the refinery began unofficial operations in late 1920, the cost of completion had risen from a projected \$1 million to \$10 million. Starting out with a rated capacity of 10,000 barrels, in five years it had a capacity of 50,000 barrels. In 1927, two years later, it rose to 100,000 barrels.

While plans were being made for the refinery at Baytown, Humble Pipe Line Company was established. Its initial system took in 50 miles of small lines in Goose Creek and Durkburnett fields. Since then the system has come to include a network of 9,200 miles of line in Texas, serving 27,000 wells on 6,000 leases in 668 oilfields, and employing 2,000 people. Each day the lines deliver 675,600 barrels of crude petroleum and 24,000 barrels of petroleum products. Five billion barrels of crude have been pumped through the pipe line network since its establishment.

Before the end of 1919, occurred probably the most important single financial event in the history of Humble. Doubling

the number of its shares of stock, Humble sold fifty per cent of the stock to Standard Oil Company of New Jersey. This gave Humble a vital outlet, and it gave Jersey a source of crude and products.

Improved exploration techniques and the company's attention to production led Humble up the ladder in the early 1920's, until 1925 when Humble found itself the second largest producer east of the Rockies, with a net production of 18 million barrels. That same year, the Baytown refinery for the first time produced more motor fuel than lubricating oils—the start of its move into the vanguard of gasoline production.

Sales kept pace with expansion in production, transportation and refining. In 1926, sales half million gallons—a month mark. The next year Humble moved to multiply sales by setting up a greatly increased number of outlets. From 1926 until 1931, bulk stations increased from 68 to 161. Humble products went on retail sale at 244 fuel service stations, 69 leased stations and 681 dealers throughout Texas. Three important new products—Flashlight gasoline, Esso gasoline and 997 motor oil were introduced by an extensive advertising campaign in 1929-31.

The Depression was felt heavily by Humble's sales and production organization. From 1932 until 1935, retrenching operations were carried out. Unprofitable outlets were pounded away and production was cut back to conform to market demand—but Humble Humble personnel suffered no large-scale layoffs. What work there was—and there was still plenty to be done, was spaced among the employees, resulting in some cases in shorter work weeks.

By 1935, Humble had beaten the Depression. Still serving three-fourths of the state's population, the company began to build production and sales again. From 1935 to 1941, gasoline sales gallonage increased by nearly 40 per cent.

When war came in 1941, Humble was ready for the challenge. The Baytown refinery already was supplying large amounts of aviation gas to the services. It had put in the world's first commercial alkylation system in 1938, providing a basic component for manufacture of high-octane gasoline.

To meet war demands, Humble doubled its production, hitting a high of 308,000 barrels per day in 1944. The Baytown refinery swung into full operation. Besides aviation gasoline and lubricating oils, it produced much of the country's supply of toluene—for explosives—at one point, two-thirds of the total national production. In 1942, plants were set up to manufacture butyl and butadiene—synthetic rubber—from petroleum by-products, at Baytown and Ingleside. During 1945, these facilities produced about half of the total U. S. production.

After the war, Humble bought these plants from the federal government.

In the war period, Humble's refining capacity increased from 169,000 to 224,000 barrels per day. Since then, with Ingleside dismantled in 1946, the rated capacity at Baytown has further grown to 282,000 barrels.

In the last 10 years Baytown refinery has also become a major petrochemical plant manufacturing the intermediate materials from which synthetic fibers and many other new products are being made.

In 1943, Humble achieved a position it held ever since—America's largest domestic producer of crude oil. After the war, production dipped briefly, but by 1948 it had surpassed the war time daily production and stood at 368,000 barrels. Last year for the first time this fig-

HOME WIRING FOR SAFETY SHOULD BE KEPT UP-TO-DATE

COLLEGE STATION—Almost everyone has experienced that helplessness which is felt when the electricity goes off, for more and more household chores, from dishwashing to clothes-drying, are being shouldered by electrical servants. And through air conditioners and radio and TV sets, those ready kilowatts are providing a lot in the way of comfort, too.

But many homeowners are discovering that their houses are inadequately wired to handle the extra load of appliances, says W. L. Ulich, extension agricultural engineer. Blowing fuses, flickering lights, and shrinking TV pictures when additional electrical appliances are turned on are all signs that circuits are overloaded.

For safety's sake, call in an electrical contractor when this occurs, advises Ulich. Don't use heavier than 15 ampere fuses unless your circuits are built to handle them. And never use a coin to establish contact after a fuse has blown. Fuses and circuit breakers operate on the basis of flow of electric current. Excess flow of current not broken by a fuse or circuit breaker causes heat greater than insulations on wires can resist. The overheated wires can easily cause a fire.

If your house needs additional wiring, it will pay to take care of this need promptly. All appliances will work more efficiently and satisfactorily and may use less electric current to do the same work. Cost of wiring is small compared to the safety and convenience of a properly wired home, points out Ulich.

There are not one single authenticated record of the earth's having opened up and swallowed anyone or anything during an earthquake.

The New England states are Main, New Hampshire, Vermont, Massachusetts, Rhode Island and Connecticut.

Ure was exceeded, as 1956 production hit 371,000 barrels.

Also since World War II, Humble has moved into first place in gasoline sales in Texas, a position it has held since 1951.

Although the bulk of Humble's producing operations are in Texas, exploration and producing activities have been expanded broadly in the past several years. Humble's first offshore well was brought in off Grand Isle, Louisiana in 1948. Production in Mississippi dates from 1944 and in 1943 Humble completed the first producing oil well in Florida.

Another first was Humble's Navajo Reservation No. 1 completed in 1955 as the first commercial producer in Arizona. The company has had production in California since 1949 and is doing exploration work in Washington and Oregon. The most recent and farflung operation is a well soon to be drilled in Cold Bay, Alaska.

Although it has been a busy four decades for Humble, forty years of growth and service.

ADVERTISEMENT FOR PROPOSALS TO LEASE POST OFFICE QUARTERS

Proposals are hereby solicited to be received in the office of Postal Inspector, V. E. Bell at Lubbock, Texas up to and including August 10, 1957, to furnish quarters suitable for post office purposes at Spearman, Texas, used by the Post Office department, at a stated price per annum, including heat; light; power; water; toilet facilities; vault; and plumbing, heating and lighting fixtures; for a term of five or ten years from August 5, 1957.

Floor space about 2000 square feet is desired, plus loading platform 10' x 18' with overhead canopy.

Important considerations are a reasonably central location, good daylight, and accessibility to rear or side entrance for mails with adequate truck maneuvering area.

General building requirements, equipment specifications, and form of proposal, together with information concerning the provisions of the lease, may be obtained from the Postmaster or the Inspector whose name and address are indicated above.

Diagram of the rooms offered, showing inside dimensions, offsets, doors, windows, etc., and any adjoining ground for light areas, must be submitted with the proposal. Proponents may also submit photographs of their property and its surroundings if they so desire.

The Post Office department reserves the right to negotiate further with proponents for better terms, to reject any or all proposals, and to readvertise for new proposals.

Proponents may be required to show whether the property offered is mortgaged and to furnish a concurring agreement by the mortgagee. Detailed information will be furnished by the undersigned.

Should the annual rental be specified to be \$20,000.00 or more the proponent is required to submit with the proposal, a performance bond, a form for which will be supplied, unless the inspector named in this advertisement determines the premises proposed to be leased will require only minor alterations and repairs before commencement of the lease term. Said bond shall be surety for the preparation of the premises, the delivery of the premises to the government, the execution of the formal lease and its recordation, all in accordance with the terms of the proposal.

Proposals which do not include heat, light, power, water and sewerage service will also be considered.

Signed V. E. BELL, Room 212, Post Office Building, P. O. Box 351, Lubbock, Texas

JANQUIL FLOWER CLUB

Mrs. Bert Sheppard entertained members of the Janquil Flower Club at their regular meeting Friday July 5.
Mrs. Dick Kilgore was in charge of the program and gave an interesting lesson on Day Lilies, all wild flowers and garlands. She also discussed Christmas roses, a type of plant which blooms through the winter season.
The next meeting will be held July 19 in the home of Mrs. Chalmer Porter.
Attending the session were: Mesdames, Dick Kilgore, P. A. Lyon, Jr., Tom Sutton, Richard Holton and the hostess, Bert Sheppard.

PANHANDLE OUTDOOR LIFE

Gruver W.S.C.S. Meets at Church

The Women's Society of Christian Service met in the parlor of the Methodist Church in Gruver at 3:00 o'clock on July 11.

Mrs. Campbell gave the lesson from the World Out Look on Missions. This was a very interesting lesson on what people in other parts of the world are doing for Christ.

Mrs. Tom Dozier, Mrs. W. L. Harris and Mrs. R. Murrell assisted Mrs. Campbell. Mrs. W. J. Eddleman gave the devotional, choosing the 41st verse of the 40th chapter of Isaiah.

Mrs. Winder closed the meeting with prayer. Mmes. present included: W. J. Eddleman, W. L. Harris, R. Murrell, Ernest Sluder, C. Winder, M. F. Barkley, Ted McClellan, Glenn Truax, Art Evans, D. L. McClellan, R. Campbell and Tom Dozier.

NOTICE TO CREDITORS OF THE ESTATE OF MARTHA ROBINSON, DECEASED

Notice is hereby given that original letters of administration upon the estate of Martha Robinson, deceased, were granted to me on the 1st day of July, 1957, by the County Court of Hansford County, Texas. All persons having claims against said estate are hereby required to present the same to me within the time prescribed by law. All persons owing said estate are hereby notified to make payment to me. My residence and post office address are, Spearman, Hansford County, Texas.

NATALIE C. GREENE, Administratrix of the Estate of Martha Robinson, deceased. Natalie C. Greene.

Mrs. Lester Munday flew to Port Arthur where her husband is an instructor in a Boy Scout camp. Later, they will return to Spearman for a visit, then Lester will go to New Jersey for advanced instruction in Scout work. In early September the Munday's will take up residence in Port Arthur.

laid with a linen cut-work cloth and held at one end the double wedding ring cake. The bride placed her bouquet at the opposite end of the table. Members of the reception party were Mrs. J. W. McGonagill, Mrs. E. P. Akin and Mrs. A. B. Herring.

For traveling on their wedding trip to the Gulf coast, young Mrs. Guice selected a pink linen suit with which she wore matching accessories. The orchid from her bridal bouquet formed her shoulder corsage. Upon their return on July 7, the couple will make their home in Alexandria, La.

Out-of-town guests for the wedding included: Mr. and Mrs. Clara D. Hathorn of Alexandria; Mr. and Mrs. G. I. Dyson of Ruston; Mr. and Mrs. R. E. Woodard and Mr. and Mrs. R. E. Woodard Jr. of Gibsland; Mr. and Mrs. M. L. Guice, Mr. and Mrs. H. L. Guice, Miss Rebecca Guice and Mrs. C. N. Berry, all of Winstboro.

JANQUIL FLOWER CLUB

Mrs. Bert Sheppard entertained members of the Janquil Flower Club at their regular meeting Friday July 5.

Mrs. Dick Kilgore was in charge of the program and gave an interesting lesson on Day Lilies, wild flowers and goards. She also discussed Christmas roses, a type of plant which blooms through the winter season.

The next meeting will be held July 19 in the home of Mrs. Chalmers Porter.

Attending the session were: Mesdames, Dick Kilgore, P. A. Lyon, Jr., Tom Sutton, Richard Holton and the hostess, Bert Sheppard.

Bald eagles are so named because of the effect of the white feathers on the heads.

I once heard an old time mule skinner say, "I saw Jew Roper hitch six horses to a loaded boiler wagon, walk off a hundred yards, so vell, come here Dude and the six horses in perfect timing tightened the tugs and the wagon began to roll". The load was extremely heavy and the animals had to work in perfect harmony to get the load moving. Dude was one of the lead horses and when he started to tighten the tugs the others commenced to pull.

Another story the veteran related was also tied in with the Ranger oil boom which was in about 1918-1919. There was a drilling contractor inquired of a teamster if he could bring his teams over and move a boiler which was loaded on a wagon stuck in sand, to another location and the teamster related, "I could pull the devil out of hades if I could get ahold of him".

The teamster left and soon returned with the six mules and hitched them to the load. The mules began to 'shoot traps' (first one then the other pulling) and finally the skinner stated that the load was too much for six animals and a bystander stated "Doc standing here can take his one team of horses and start the load with the two animals". The first teamster unhitched his mules and the second one hitched his to the load. Clifford Gilbert, present day Post Master of Carbon, Texas was the one that volunteered the services of his brother Howard's horses. Clifford stated "I didn't know whether or not Howard's team could move the load but when he spoke to the team I placed my hand on the hips of one of the horses and they flattened out for what seemed like five minutes and finally the load began to roll".

One team of trained draft horses that were well fed moved a load that six average mules could not. In this atomic age there are not many oldtimers around that had to do all of their transporting via the horse and mule method and especially there are not many of the expert mule skimmers left. These experts, in that day and time, could take a team and make them do all that they were capable of doing. These men prided themselves in the fact that they were tops in the profession. More than once the expression has been stated "I can hitch my team to a tree and they will pull until they choke themselves down".

Horses that were 'honest' and that would pull until their last ounce of strength was a goal of

the oldtime teamsters and when they reached their goal there was pride expressed in the admiration of the horseflesh.

The smell of sweating workstock is gone in most of the areas of the Panhandle but there are still some ranches that keep a team or two around in case of a blizzard or conditions where a pickup truck can't make the feed route for cattle in the winter.

The Hayhook ranch, the Johnson's Turkey Track, Archer, and many others still have work animals.

Mules are a cross from a male donkey and a female of the horse specie or mare. However, a cross from a male horse and a female donkey is the same in a way, but strangely enough the offspring is not a mule but a hennie. Both hennies and mules are the same in some respects in that they are both 50-50, half and half, but which specie is the sire and dam makes a whale of a difference. Both animals are hybrids and are supposed to not reproduce or have offsprings — that is, not more than one in a hundred thousand times.

Aurba Bowers, Hemphill county rancher and quarterhorse raiser, has at the ranch a hennia called old Beauty which has produced at least two colts. The first colt appeared as tho it was sired by a donkey while the other was sired by a registered quarter horse called Cueball. The last colt born June 19, 1957 is a honey colored animal with a blaze face that looks more like a horse than it does a donkey while the older colt, about two years old, resembles a donkey.

What would be the correct names for animals of this breeding is anybody's guess. Will they reproduce is still anybody's guess, but Mr. Bowers is going to see if they will bear offsprings.

Mrs. Jack Whitson is making a habit of winning the Silver Harvest money. Her name was called two successive Saturdays. First for \$84.00 then she drew a \$10.00 trades certificate.

Mr. and Mrs. Hugh Hazelwood and two girls, Sandra and Carolyn of Lubbock visited last week with his mother, Mrs. D. W. Hazelwood, and other relatives here.

Mr. and Mrs. Joe Dunn and children of El Reno, Okla. spent the week with Mr. and Mrs. Joe Novak. Hadden Gast, nephew of Mrs. Novak, is spending the summer with them. He lives in Roseville, Calif.

Lt. and Mrs. Arnold Richardson and boys of Colorado Springs, are visiting here a few days with his mother and sister.

Mrs. Charlie Rosson and Mrs. Owen Pendergraft visited the Jack Lamb. Mr. Lamb has been ill in the Hereford County Hospital but is much improved.

Mrs. Tip Collingsworth of Per-

ryton has been taking care of her father, Jake Lamb on the night shift, at Hereford hospital.

Birdine Crawford and Margaret Kirk attended the quarterly meeting of the Panhandle Pen Women, Tuesday at the Amarillo Country Club.

Vans of new store fixtures are unloading at the newly decorated building on main street where Roy Russell will move his Dry Goods business soon.

Mr. and Mrs. Andy Hamilton, who have lived in this area since January have moved back to Lubbock.

Mr. and Mrs. Roy Wilmeth are vacationing in Colorado and New Mexico.

Mrs. Hall Jones and Kathryn are visiting with Mr. and Mrs.

Slim Windom in Albuquerque.

Rev. and Mrs. Calvin Springer left Monday for Wyandotte, Okla. for a church encampment. They will visit relatives down State and be back in about two weeks.

Mr. and Mrs. J. H. Martin and boys, Mrs. Wesley Weston and Mrs. Bill Weston are in Oklahoma attending Camp Meeting. They will be home this week.

Marcus Gould is visiting with his brother Don, and family near the Great Lakes.

Mrs. Bill Gould, Tommy and Edna are visiting relatives in Rogers, Arkansas, Tulsa and other Oklahoma towns.

Patent medicine consumption increased 740 per cent from 1880 to 1910 while the population increased only 83 per cent.

Biggest Sellers...because they're Biggest Savers!

You can tell from the way they're put together that Chevrolet trucks stay on the job . . . save on the job!

A truck with built-in stamina—that's Chevy. Whether highballing down highways or roughing it across rugged terrain, or doing delivery duty in town, dependable "can-take-it" Chevrolets are cutting

downtime to the barest minimum. A truck with a choice of ready-to-go power—that's Chevy. From an advanced lineup of eight engines—140 to 210 hp—you can save by choosing the power precisely matched to your job. Thanks to compact weight-saving design, Chevrolet's V8's deliver high power per pound of engine weight—power that works harder for you. Chevy truck 6's are famous for their stay-

ing power. Whichever engine you choose, you know it's got the power to back up every inch of brawn in every Chevrolet Task-Force truck. A truck for your job—that's Chevrolet, too. From pickups to middleweights to high-tonnage tandems, there's one just right for your job. See your Chevrolet dealer. He'll show you a model that's practically made to order for your kind of hauling.

SERVICE

Loss and Gain

The older man is saying, "I have worked hard to make this farm pay. But I wonder if that is enough. What is ahead... how much loss and how much gain? He has asked this minister to explain it all. *What does it profit a man if he gains the whole world and loses his own soul?* Things do not satisfy. Man is a spiritual creature. He cannot be content with food and shelter. He was made for fellowship with God and his soul will always be hungry until he knows that he is a son of God and learns to walk with the Eternal Spirit. *He must go forward with Christ.* He must go to church and live in daily consciousness of the favor and blessing of his God. As he sharpens his tools to lose or gain, so must he sharpen his mind and his heart for God. *Any business will pay when God is the senior partner.*

YOU IN THE CHURCH THE CHURCH IN YOU

Character is a by-product of the church. It is here that young and old alike are showered with benedictions that bring and influence for a better citizenship and a more democratic life. In the church the minister and the making religious character. Students today declare that the church alone can furnish leadership to handle the affairs of state in these perilous times. Then we ask our children should go to the church of our choice on Sunday. Yes in the Church and the Church is the place from a combination for good. It is a regular CHURCH. GODS and a daily BIBLE READER.

We Need Greater Churches And Greater Faith

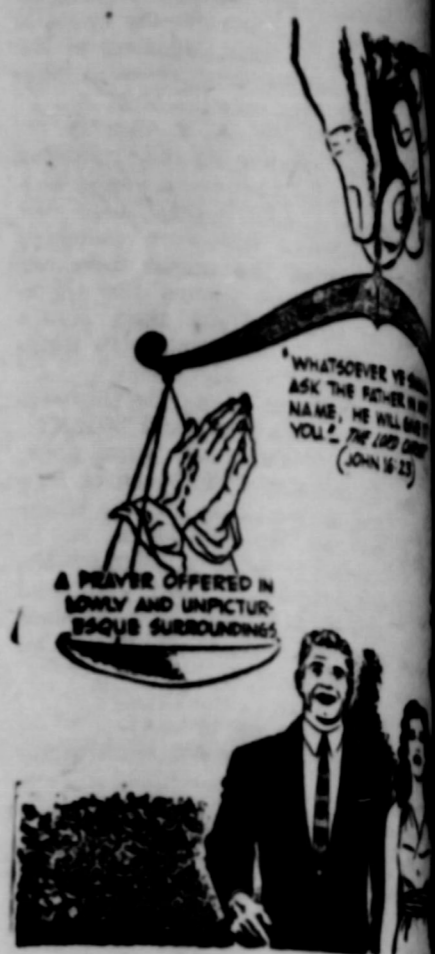

to give us POWER for LIVING and to COMBAT ATHEISTIC "ISMS"

MAY THIS PAGE BE A BLESSING TO MANY IS THE SINCERE WISH OF HANSFORD COUNTY MINISTERS. This religious service is paid for by the public spirited firms 100% interested in the spiritual life of Hansford County. They urge regular church attendance and support.

and just let them watch the
chinery and learn all they c
in operating the new equipm

I have never felt inclined
doubt Bruce Sheets in any of
statements... even about f
ing... and he tells me that
and Bill Hutton and Joe Day
a marvelous fishing trip to L
Charlotte, in New Mexico. We
go so far as to ask him posit
ly if he meant that they cau
FISH. He said YES, and a
more than we did when you
that Methodist preacher was al
the last time...

This continues to be a won
to this writer. The Lake in N
Mexico is very small and Br
said there were 17 boats on
lake part-of the time, with
catching fish besides the ban f
ermen, who were doing even l
ter than boat fishermen. Th
must be something about the
mate or the water that makes f
grow fast, or there must be so
political influence that causes
fish and game department of N
Mexico to keep the lake stock
continually... cause we kn
that a lot of Texans go there a
all seem satisfied with the fi
ing.

Had a visit with the daugh
of our Linotype operator, J
Kirk. She and her husband fr
Monroe, Louisiana visited Joe
er the week end. She proved t
other wonder to this editor th
is more puzzling than fishing
how an ugly dady like Joe Ki
could raise such a very beautif
attractive young lady as I
daughter. She is a register
nurse and married less than
weeks ago.

They told me that fishing,
at Black Lake and other lakes
Louisiana was mighty good ne
for the first time this year. S
the floods and high water l
just about eliminated fishing
the past three months, but eve
one was now catching th
limit.

The most humorous thing
the visit was the fact that J
daughter complained about
terrible heat in the Panhandle
Texas. We could not underst
how anyone that lives just
side the hinges of Hades co
complain about hot weather
the Panhandle.

You Name It

This hot weather is hitting
maize pretty hard. Of course,
extreme heat also ruined a
of wheat, but still, for some
the boys, it was the first and
crop they have had in si
years. The stubble has just a
drove the hay fever victims to
mountains. I went blind as a
for three days last week. Ha
wear welder's glasses for sev
days, and even yet, can't see
good.

The dry goods boys are r
whooping it up in Spearman
of the dry goods stores or
modeling, and their stores w
outstanding. They are wisel
ting ready for the town to g
but all of them are very
tious. They don't realize wh
smart move they are mal
cause the town is growing

A personal note to Jess I
I have interviewed several
and their wives about the
ing situation in Spearman.
of them just laugh at a coup
hundreds homes; they say
need at least 400. Yes F
HUNDRED new homes in S
man. I'm so ignorant, I can't
count that many houses. B
the hay fever ever clears u
of my eyes, maybe I will
to see the light myself. Four
dred new homes sounds real
to me. And, I guaranteee
that Northern Natural coul
a lot of them up, what with
big expansion in the area.
I was all "shook up".
Northern Natural not goi
build that big fuel plant
here at the edge of Spea
but believe everything is go
be all right. Merle Beck and
Blodgett have promised to
herd on the crew, and to be
that they come in to Spe
hod, or to do all their shopping,
small way, rumors have it now,
Northern will have ext
building program going on
here at their plant west of
two miles. Probably, it w
one of their bigger plant
quarters, mainly used as a
receiving station for this ar
replaced.

Fact
was talk
when the

more permanent type of industry creeping into Spearman, maybe this time, all of the buildings will stay full incidentally, the answer to keeping main street going, will be those 400 new homes!

Turks

(continued from page one)

proved and specialized in such a way as to give graduates a better educational background for advisory work.

The field staff includes about 1010 advisers. This includes 540 county agents, 110 assistant county agents, and about 360 (village agricultural teachers), county level extension workers (village agricultural teachers). Virtually none of the field staff are university graduates. Practically all are graduates of the regional agricultural schools.

Present Extension Needs in Turkey
The Ministry of Agriculture through the provincial Governor has established Extension programs, as indicated above, in most provinces and expects soon to have an Extension organization in all of the 66 provinces. Even though many Turkish technicians have been trained in Extension in the U.S. under the ICA program or by the Turkish Government, either on short-term or long-term basis, there is a definite need for the training of more such officials and the improvement of the organization and coordination of available Turkish resources for servicing provincial and county programs.

Included in this is the need for:
(a) The development of in-service training programs for county workers both at national training centers and in provincial programs by all available subject-matter specialists. The national training centers would include subject-matter short course, (learn by doing) type of instruction and the establishment of a formal extension training course under the ICA-University of Ankara Contract.

(b) County program building of a nature that involves participation of local village people and provincial county workers as a basis for provincial and national extension programs.

Objective and Purpose
The training of this group should be more than a lecture tour. It should include, if at all possible, observations and participation in state-wide Extension programs at the land grant college with emphasis on the short-course type of training program; bi-district, district and sub-district Extension agent training meetings, including administrative and program building district meetings; county Extension worker activities in the use of organized communities in the development of County Extension programs and plans of work; how they motivate such programs through the demonstration and cooperative efforts of all agricultural agencies; 4-H Club activities including local meetings, training and use of leaders, statewide or district 4-H Club camps, achievement day plans, importance of record keeping and specific examples of 4-H community projects or activities. Finally, how Extension agents use the results of research in carrying out their plans of work.

Disarmament talk continues. The United States has proposed clear weapons be suspended for ten months. Effective inspection and control would be a basic part of the plan. They are all vital. The U.S. must remain strong. We can never deal effectively with the communists if we are weak. Strength is the language they understand. The American people know that.

Report From Senator Lyndon Johnson

Dear Friend:
OUR WORLD: The shakeup in Russia has stirred the world. A hard struggle for power among top communists has been going on since Stalin's death. Molotov and several other "old Bolsheviks" appear to have lost. Khrushchev stays on top. Most observers believe he is not totally powerful, as Stalin was. But he is in the saddle. How high and how long he will ride remains to be seen.

OSLO NEWS

A small but beautiful wedding took place in the Oslo church on Tuesday at 6:00 p. m. Marietta Luttrell was united in marriage to Gordon Olsen. A reception followed in the parish hall. Mr. and Mrs. Otto Johnson of Midland are visiting their daughter and son-in-law, Mr. and Mrs. L. M. Carroll and children. Last weekend Mr. and Mrs. L. M. Carroll visited some of her relationships at Cranfills Gap, Texas, and also his parents, Mr. and Mrs. H. R. Carroll of Gatesville. Last Wednesday little Raymond Walker went to have an indefinite vacation with his grandparents, Mr. and Mrs. Pete Dahl of Amarillo. Mrs. J. P. Knudson was organist at the Stavlo-Hill wedding in the Baptist Church of Sunday on Sunday afternoon. Sally Stavlo, daughter of Mr. and Mrs. Arthur Stavlo, was united in marriage to Philip Hill of Dallas. Mr. and Mrs. Joel Stavlo, John Mark, Mary Ann and Alice Marie and Mrs. Emil Knudson and

Kathryn also attended this wedding from here. Patsy Johnson, daughter of Mr. and Mrs. Syd Johnson of Fort Worth is visiting in the home of her aunt and uncle, Mr. and Mrs. Anson Ward.

OUR NATION: As for appropriations, we have continued to make cuts in the President's budget. Most of the important appropriation bills have been passed. Some are in conference between the Senate and the House.

If we split the difference in appropriation bills in conference, total cuts in the budget to date are \$4,445,000,000. Even that includes only the reduction made in the foreign aid authorization bill. Further cuts are expected in the actual appropriation bill. The people looked at the President's budget. They said it was too high. They demanded reductions. They are getting reductions.

The editors told me they approve our budget-cutting efforts. They want the U.S. to talk realistically—about disarmament. They want to save their sons from having to fight a war. They are thoughtful Texans, deeply concerned about the issues that affect them and their children. It was good to be with them.

OUR STATE: I made two talks in Texas recently. One was before the annual membership meeting of the Fredericksburg Chamber of Commerce. The other was during the annual convention in San Antonio, of the Texas Press Association. I thoroughly enjoyed both occasions. Texas has the best editors of

any State. They are well-informed. They are down-to-earth. They know the needs of their readers. At the San Antonio meeting, I was impressed all over again by their knowledge and understanding. The editors told me they approve our budget-cutting efforts. They want the U.S. to talk realistically—about disarmament. They want to save their sons from having to fight a war. They are thoughtful Texans, deeply concerned about the issues that affect them and their children. It was good to be with them.

Nephew Is Killed In Car Wreck

Mrs. Vernie Rosson was notified early Sunday morning of the death of a nephew, Robert Brown, 21, who was killed in a car wreck near Ardmore, Oklahoma. He was blinded by an on-coming car, and he hit a cow. The impact threw the cow against his windshield and the cars crashed head-on. The man and his wife, occupants in the other car, were killed. Their home was at Turkey, Texas. Mr. and Mrs. Rosson, Mr. and Mrs. C. B. Dodson of Dalhart, and Mrs. Ted Berry of Texhoma went to Lindsey, Oklahoma to attend the funeral services.

Ralph D. Irwin, son of Mr. and Mrs. R. A. Irwin of Gruver, was chosen by Phillips Petroleum Company as one of 50 students to receive a \$500 scholarship for college work recently.

Mr. and Mrs. Preston Smith and children and Mr. and Mrs. Orville Fullbright and daughters left Monday for Oklahoma where they plan to attend a church encampment at Wyandotte.

Rev. Wm. Kelly is in charge of Union Church while the pastors are away at a Camp Meeting in Oklahoma.

Rig No. 23 Is Back For More Drilling Here

Falcon-Seaboard Drilling Rig 23 is coming back for more work. The rig recently completed several wells in the area. It is understood they will drill on two sections, 23 miles southwest of Perryton.

equipment they kept on the men who were deprived of their job and just let them watch the machinery and learn all they could in operating the new equipment.

I have never felt inclined to doubt Bruce Sheets in any of his statements. . . even about fishing. . . and he tells me that he and Bill Hutton and Joe Day had a marvelous fishing trip to Lake Charlotte, in New Mexico. We did go so far as to ask him positively if he meant that they caught FISH. He said YES, and a lot more than we did when you and that Methodist preacher was along the last time. . .

This continues to be a wonder to this writer. The Lake in New Mexico is very small and Bruce said there were 17 boats on the lake part-of the time, with all catching fish besides the ban fishermen, who were doing even better than boat fishermen. There must be something about the climate or the water that makes fish grow fast, or there must be some political influence that causes the fish and game department of New Mexico to keep the lake stocked continually. . . cause we know that a lot of Texans go there and all seem satisfied with the fishing.

Had a visit with the daughter of our Linotype operator, Joe Kirk. She and her husband from Monroe, Louisiana visited Joe over the week end. She proved another wonder to this editor that is more puzzling than fishing. . . how an ugly dady like Joe Kirk could raise such a very beautiful, attractive young lady as his daughter. She is a registered nurse and married less than 3 weeks ago.

They told me that fishing at Black Lake and other lakes in Louisiana was mighty good now, for the first time this year. Said the floods and high water had just about eliminated fishing for the past three months, but everyone was now catching their limit.

The most humorous thing of the visit was the fact that Joe's daughter complained about the terrible heat in the Panhandle of Texas. We could not understand how anyone that lives just outside the hinges of Hades could complain about hot weather in the Panhandle.

You Name It

This hot weather is hitting the maize pretty hard. Of course, the extreme heat also ruined a lot of wheat, but still, for some of the boys, it was the first and best crop they have had in seven years. The stubble has just about drove the hay fever victims to the mountains. I went blind as a bat for three days last week. Had to wear welder's glasses for several days, and even yet, can't see too good.

The day goods boys are really whooping it up in Spearman! All of the dry goods stores are remodeling, and their stores will be outstanding. They are wisely getting ready for the town to grow; but all of them are very cautious. They don't realize what a smart move they are making; cause the town is growing!

A personal note to Jess Davis! I have interviewed several men and their wives about the housing situation in Spearman. All of them just laugh at a couple of hundreds homes; they say we need at least 400. Yes FOUR HUNDRED new homes in Spearman. I'm so ignorant, I can't even count that many houses. But, if the hay fever ever clears up out of my eyes, maybe I will begin to see the light myself. Four hundred new homes sounds real good to me. And, I guarantee you, that Northern Natural could fill a lot of them up, what with their big expansion in the area.

Softball Team To Enter Pampa Tournament

Plans are now being made for an adult softball team to enter the Pampa Industrial Softball Tournament, the week of July 29th, through August 4th. The tournament will include two divisions. First division will be for the determination of two teams to represent the 6th district in the ASA State Tournament, at Brownwood, Texas, August 6-12. The second division will be a tournament to compete for trophies and prestige.

All persons interested in forming a softball tournament team, contact Don Floyd.

Lone Star 4-H

The Lone Star 4-H club met in the Schubert's lovely country home Monday, July 15 for their regular meeting. Mrs. F. B. Schubert gave a very interesting and beneficial demonstration on making butter cake. Marilyn Schubert and Monet Washington directed the games for the recreation period. Mrs. Schubert served cake, ice cream, and punch to the following visitors:

Connie and Audrie Barker, Mary Ellen, Patricia, and Mrs. Robert Novak and the following members: Marilyn Schubert, Mattie Lou Archer, Cynthia McWhirter, Helen Greever, Monet Washington, and Sharon Novak.

4-H Boys Camp to Be Held July 29

Bill Goldston, Hansford County Agriculture Agent, announces there will be a 4-H Boys Camp July 29-31 at Cima Del Mundo Camp near Las Vegas, New Mexico.

He plans to take about 30 4-H boys and four fathers.

An informal program has been arranged.

Cars and station wagons will be provided to take the boys and pickups will go along carrying the bed rolls and camp equipment.

This camp is located near the summit of the mountains in the Pecos High Country.

There will be fishing, swimming and games for all and hikes for those who prefer them.

Mrs. Cates returned to her home in Ada, Oklahoma after an extended visit with her sons, Pat and Lucian Cates of Spearman.

THIS AND THAT AROUND GRUVER

There will be no column next week as we hope to be able to take a few days vacation. It is hot and dry, and we need rain very much. But perhaps it will come soon. Harvest is all over, and in spite of everything that went wrong it was still pretty good.

Cary Robinson of Lebo spent several days, visiting in the home of his sister, Mrs. O. J. Gross. He told us that harvest conditions were much worse than they were here. He said there was lots of wheat, but practically no hope of getting it. It had rained and rained, until it was impossible for machines to get into the fields.

Mrs. Bill Etling is home from the hospital, but will have to remain in bed for some time. She is some better, but far from well.

We had the pleasure of seeing some of the pictures that Jim Davis has sent from their home in Alaska. Jim and his family are living in a Quonset hut, right on the beach. In one picture the children were gathering a native berry. Jim's wife had canned a great many of them. Near by is a regular settlement that the government had built for a construction crew. The large house in which the foreman had lived was near by Jim and his family had hoped they might get to live in it. But not so. The government would rather let the whole thing stand and go to pieces.

Mrs. J. M. Ayers has been under treatment in a Perryton hospital for several days. She is much improved, and will probably be home this week.

The former Johnna Rafferty and her children are spending two weeks with Mr. and Mrs. Ed Rafferty. Her husband is a captain in the National Guard and is in Camp at Fort Hood.

Mrs. Mattie Layton is on vacation from her work in the Post Office. She is in Chicago visiting her daughter and her family. She arrived there just in time for the flood that took place. We hope that she is not in danger.

Kelly Garrett had a narrow escape last week. He and his helper were taking a water tank off of a truck, so they could use the truck for hauling grain.

Something slipped and Kelly received a severe cut on his head. Several stitches were required to repair the damage. But happily it was not serious and Kelly is back on the job.

Mr. Oren Morrison of Oklahoma is visiting his brother Leo. He is looking fine, but like the rest of us he is getting older.

H. B. Shapley and his family have been here visiting his parents, Mr. and Mrs. Jake Shapley. H. B. is doing just fine. He has a good job and looks good.

Gruver is losing two of her ministers in fact three. The Church of Christ minister resigned some time ago, and the new minister should be here right away.

Rev. Bill Burton, pastor of the Gruver Baptist Church for the last three years, resigned last Sunday. Early in August he and his family will move to O'Donnell, where he will take up the Baptist work there. We wish him every success in his new field.

Rev. Dokas, pastor of the Christian Church has also resigned the work here. We understand that he and his family will be moving to Dallas. We also wish him every success wherever he may go.

Judy Davis spent the between-semester vacation with her parents, Mr. and Mrs. Willard Davis. She will return to West Texas State at Canyon. Larry Jacobs and Gayle Moore are also students at Canyon.

Mrs. Bob Brooker of Canyon was visiting in Spearman Monday.

Mr. and Mrs. J. D. Kamp and Ronald of Riverside, California visited with their sons, Mrs. Wilbert Davis and family Tuesday and Wednesday.

The Johnnie Loeis are vacationing at Monument Lake, Colorado.

Mrs. E. J. Copeland was attending to business in Amarillo recently.

Mrs. Otha Brooks was visiting in Spearman Tuesday.

Mrs. Dan Shradler returned to Texhoma Saturday to be with her mother who is recovering from a recent illness.

A.S.C. Office Regulations

Elzey Vanderburg, manager of the A.S.C. office reports the excess wheat acreage will soon be measured.

Quite a few wheat loans are being made despite the low test weight and the market price.

The conservation reserve and cotton acreage will be measured soon.

At one time Hansford County felt proud to boast of fine cotton gins. As of now, Hansford County has 80 farmers producing cotton; the biggest allotment is about 88 acres. The allotments range from 4 to 80 acres.

Penalty must be satisfied on all grain before a tenant can be issued a marketing card even though his own farm is in compliance.

J. W. Gamble, state auditor for A.S.C. county offices has been auditing the Hansford County office of the past week.

A few payments remain to be made on soil bank acreage reserve.

No word has been received in the local A.S.C. that the soil bank program will carry over into 1958.

Mr. and Mrs. Oscar McLeod spent two weeks in Truth or Consequences, New Mexico. Mrs. M. C. Head, Mr. McLeod's sister, accompanied them.

Monet Perry and Merle Washington were house guests in the Bill Johnson home in Cherokee, Okla. over the week end. While there they attended a rehearsal dinner and local church wedding of their cousin Peggy Jo. Both Perry and Monet took part in the wedding. Monet was junior bridesmaid therefore she also attended the brunch Sunday morning.

Clarence Mitchell's Anita Gould and Snow have returned from custom wheat cutting east of Denver. The wheat averaged 20-20 bushels on dry land. They will return to Colorado the last of this week and after finishing harvest there they will go on to Montana.

Guests in the home of Helen Fisher and Mrs. J. H. Buchanan the past week were Mr. and Mrs. William Smith of Joplin, Mo. and Mr. and Mrs. ...

Drouth Back In County

Weatherman Fred Brandt put the heat treatment to the county this week. The temperature straight days for four hit 100 or better for July 13, 14, 15, and 16. And as we write this the thermometer is showing 100 for the 17th. Farmers say the big maize is suffering, and the wheat pastures in the county are also suffering. However, some of the boys in the area have got sense enough to park up and head for the mountains, to get out of the heat, and you can't blame them!

Wardrobe Bears Still Leading League!

Coach Omer Donnell's Flashy Bears are still leading the league in the Youth Program softball standing this year. The First State Bank Indians, coached by Larry Reed are the runner-up.

A large crowd is expected for this important game. Completing the standing are the Case 40's and the last place are the Bockets and Lions. These two teams will play tonight to see who gets out of the cellar.

SEED WHEAT CLEANING TIME

Call now and get your name on list to get your seed wheat cleaned. This is a list of varieties my customers have for sale. This seed wheat is cleaned and in limited amounts.

EARLY TRIUMPH, WICHITA, KIOWA, ROMANACHE, CONCHO, CHEYENNE, PAWNEE, CERTIFIED CONCHO

We also can separate wheat from barley. Call for appointment to get your seed wheat cleaned or buy seed wheat.

Harold O. Dondlinger
Hitchland, Texas

TEEN TOWN NEWS

Teen Town was held Monday, the 15th, in the V. F. W. Hall. Ping pong cards, and dancing was enjoyed by everyone. This was one of our best Teen Towns.

Those attending were: Jayce Faye Sparks, Lou Clark, Sharon Novak, Anita Holt, Richard Kirk, Bennie George, Frank Sutherland, Mike Garnett, Dickie Pendley, Connie Anthony, Joan Greene, Mike Holt, Buddy King, Glenda Butts, Toni Chevalier, Ann Huse, Charles Townsend, Wilbur McGuire, Punk Jackson, Monet Washington, Richard Goley, Wesley Garnett, Kay Chambers, Hazel Holt, Lanita Tucker, Fred King, Jim Carley, Horseheave Oooley, Winkle Carol Boyd, Marsha Samsing, Shirley Davis, Andy Rhodes, Kay McLeod, Roxie McLeod, Mary Sue Tucker, Jerry Sheets, Dan Vaughn, Bob Shoats, Dave Hand, Carl Kizzar, Jr., Carol Ladd, Jim Weaver, and Don Ladd Paul.

Teen Town will be held Monday, the 22nd! All you teens be sure and come.

Mr. and Mrs. Kiff White and Tommie are leaving for a vacation at Yellowstone National Park and points in Minnesota this week.

Mr. and Mrs. Jack Brown of Dallas visited Mr. and Mrs. Robert Alexander of Gruver several days the past week. Mrs. Brown is now Alexander's sister.

Mr. and Mrs. Robert Alexander

and Mr. and Mrs. Bobby Alexander of Gruver, attended funeral services for Mrs. Alexander's uncle, Mr. Griffin in Alvin, Texas, this week.

DAHLIA FLOWER CLUB

The Dahlia Flower Club met July 8th, with Mrs. Ethel Hester. A very interesting program "The Care and Culture of Chrysanthemums" was given by Mattie Davis.

Members present: — Mattie Davis, Lydia Allen, Flossie Crook, Mildred Daily, Ethel Bailey and hostess, Ethel Hester.

The next meeting will be July 22nd with Mrs. Marie Baggerly.

Dry ice is solidified carbon dioxide gas.

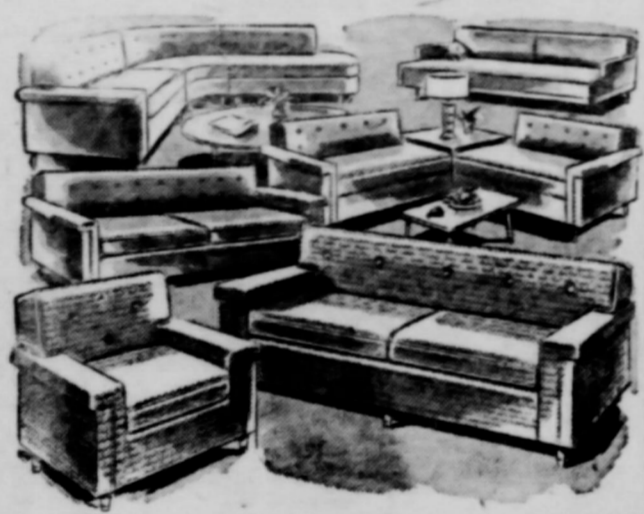

Queenie Arrives

Baby Queenie, Feature J. Tidwell Carnival show July 22-27, sponsored by the youth of the county, is very gentle. Tidwell Carnival of thrilling rides. Fun for all.

This is another many months. If Reporter and you identification as a write-up for the on income largely from agricultural activities. Of the total population of 24 million, approximately 80 percent live on and derive their incomes from comparatively small farms or 40,000 villages in 66 provinces. Farming is generally of a multiple type involving (depending on location) sheep, goats, poultry, horses, mules, donkeys, cereals, fruits (pome and citrus), vegetables, olives, cotton, tobacco, etc.

The Ministry of Agriculture divided into five General Directorates, including Agriculture, Forestry, Veterinary Affairs, State Seed Increasing Farms, Agricultural Supplies (machinery, fertilizer, etc.), and two sections recently created and administered by the Ministry in the fields of Soil Conservation and Irrigation and Plant Control and Quarantine.

The General Directorate of Agriculture is comprised of 16 provincial sections, such as Poultry, Horticulture, Agricultural Education, Farm Machinery, etc.

The Republic of Turkey is divided into 66 provinces, each of which has its own agricultural office called the Provincial Agricultural Directorate. In 61 of the provinces the provincial agricultural directorate has expanded to include an agricultural extension organization. The provinces the office is known as the Technical Agricultural Directorate. These offices typically have a provincial agricultural director, an assistant director, and subject matter specialists according to the location and character of the province.

There are a total of 540 counties in Turkey, or an average of about eight counties per province. Each county has a county agricultural agent. In some of these individuals has an assistant and in most cases has one or more additional extension workers on his staff (usually village agricultural teachers). This extension worker may be located either at the county center's office or, depending on the section of the country, needs and facilities available, one of the districts of the county. The county agricultural agent performs the usual job expected of such personnel, plus some administrative and regulatory functions. The farm advisors (county agents) are recruited from universities, but mostly from real agricultural schools, trained below a B.S. level.

The Extension organization has been increased rapidly in recent years and will include all 66 provinces. A difficulty is experienced in recruiting new recruits in the advisory service because of the competition by private business and agencies for trained personnel and the fact that they all offer higher salaries. The subject matter standards courses being offered at universities and the regional agricultural schools are being distributed in the

(Continued on Editorial Page)

Make-Up Games Saturday Nite

Make-up games will be played at the local Youth Program ball diamond Saturday night. These games will begin at 7:00 p.m. and will be scheduled for July 4th.

Rev. J. Waid Griffin is the owner of a Volkswagen—the first, if not the first of its kind, in this area.

The Spearman Reporter

THE SPEARMAN REPORTER, HANSFORD COUNTY, THURSDAY, JULY 18, 1957

MYSTERY FARM OF THIS AREA

This is another of the series of Mystery Homes to be published each week for many months. If you can identify this home phone or mail a card to the Spearman Reporter and you may receive a one year subscription free. Please send in your identification as soon as possible. This enables us to visit the home and prepare a write-up for the next weeks newspaper.

Pick-Up Overturns On Farwell Draw Bridge July 13

Lewis Carnes and Otto Docking of Spearman overturned a 1954 pick-up on the steel bridge over Farwell Draw on the Kimbell road Saturday evening at about 11:00 p. m. The accident occurred while Carnes was driving and according to the Sheriff's office in Spearman, Carnes stated that he was apparently going too fast for conditions encountered and hit the bridge abutment overturning the pick-up right in the center of the bridge. No one was injured.

Car, Pick-up Collide On Highway 15 Late Saturday, July 13

A car-pick-up accident occurred on highway 15, 10 miles south of Spearman Saturday evening. A 1954 Mercury car driven by Donald D. Campbell of El Dorado, Kansas was stalled and Albert Michelson rammed the car with a 1951 Pontiac pick-up. No one was injured. The accident was investigated by the highway patrol out of Borger, and no other facts were available at the Sheriff's office in Spearman.

False Alarm Saturday

What looked like the whole country burning up Saturday, turned out to be a false alarm fire at the Lawrence Wilbanks place, southeast of Spearman. The boys were burning stubble, and it was thought that an outcrop was on fire. However, as the truck and fire boys arrived on the scene they were informed that it was being set on fire, to destroy stubble.

Barnes Well Is Important to Spearman Area

What few people know is the fact that the Barnes well just west of Spearman is of great importance to this city. This well will be drilled to the Elenberger Lime, and it will take a long time to explore all the sands and formations between the surface and the rock formation that is the Elenberger lime. We are unofficially informed that the Humble organization will continue their operations based largely on the facts that are revealed in drilling the Barnes well. If this turns out a good commercial producer, we learn (unofficially) that Humble organization will increase their drilling activities materially in this area.

CARD OF THANKS

I would like to take this opportunity to express my sincere appreciation to my many friends and relatives for their cards, letters, flowers, gifts, prayers, and deeds of thoughtfulness during my illness. Your expressions of friendship were most encouraging and I shall never forget them. May God bless you all. MRS. E. C. BARNES.

NOTICE

Due to lack of attendance, all out-of-town baseball games have been cancelled. Friday night the Gordon's Corner Drug Gophers, play the Panhandle Furniture Mart Panthers, 7:00 p. m., local diamond.

FUTURE FARMERS OF AMERICA DELEGATES CONVENTION BOUND

The Spearman Chapter of Future Farmers of America met Saturday night to select delegates to send to the State FFA Convention of Fort Worth, July 17-19. Jack Vandenberg, Wesley Garnett and Larry Kingsley are the delegates to represent the Spearman Chapter at this 29th Annual State Convention. These delegates will leave Spearman Tuesday noon with Chapter adviser Ralph Magaughlin and will return home Friday night.

Main Convention activities will be held in the Will Rogers Coliseum. Business sessions will include election of State FFA officers for the coming year, conferring Lone Star Farmer Degrees on approved candidates, State Public Speaking Contest, Developing State Program of Work, Selecting entertainment personalities to represent Texas FFA at the National Convention in Kansas City. Election of State FFA sweetheart and other business activities.

Special education tours sponsored by the North Fort Worth Business Association will include both Swift and Armour Packing Companies, the Stockyards Area and the National Farm Life Insurance Company's home office. The four day activities will be climaxed with a chuck wagon dinner in North Side Coliseum followed by a program of boxing, wrestling, judo, dancing girls and other acts.

All these activities promise a fine FFA Convention.

All-Star Game To Be Played

An all-star softball game, composed of the outstanding players in the Youth Program, will be played at the local Spearman field, Saturday night, July 27th, 7:00 p. m.

The players for this all-star game will be picked by coaches: Oscar Donnell, Otto Holland, Larry Reed, Don Chastain, Jerry Floyd, and E. J. Copeland.

As plays now stand, Judge Johnnie Lee will coach Jupiter, and Sam Watson will coach the Pluto team.

Big Oil Story for This Area If It Turns Out To Be True

This newspaper through the aid of Jesse Davis of Spearman Drug and Don Floyd of the Chamber of Commerce located a mighty interesting oil news story... if it turns out to be true.

First off, Jesse Davis of Spearman Drug sold medicine to the oil driller recently, who said he was working on a well drilling on the J. D. Amend farm between Morse and Graver. He informed Davis that the drilling contractor had reached the bottom hole depth and had termed the drilling operation a failure, and dismissed all the regular crew except two men, and informed these two men that the concrete truck would be at the drilling site in a few minutes to plug the hole. The oil driller said the drill stem was left operating and just fifteen minutes before the concrete truck was due to arrive all "Hell Broke Loose". Seems the gas they were seeking was just ready to

Silver Harvest Jackpot Goes Up to \$450.00 This Saturday for Drawing

Sheriff Office Wants Swiped Plane Equipment

Some one in this area, probably small boys who did not realize the importance, took a microphone and head set from a plane parked in the McLain Brothers hangar at Spearman Saturday afternoon. Sheriff J. B. Cooke is anxious to return this equipment to the owner, Mr. Nolitzen of Kansas who was here on business and parked the plane in the Hangar. Sheriff Cooke believes that perhaps some small boy swiped the equipment, and he is urging the parents or friends to return the same to the Sheriff's office.

Sheriff J. B. Cooke Has New Deputy

Mr. and Mrs. Don Hall and their two children, Karen Jean 10 and Jerry Don 7, have moved to Spearman and now reside at 426 South Haney. Mr. Hall has been employed by Sheriff Cooke as an assistant investigator in the Sheriff's Department. Prior to coming to Spearman, Mr. Hall was associated with the City of Beaver, Oklahoma and with the Sheriff's Department of Beaver. For the last year and a half he has been Captain of the Perryton Police Department. Mr. Hall is a veteran of World War II having served three years in Germany during that conflict.

The family attends the First Christian Church and Mr. Hall has had considerable experience with the work of young people. They have come to serve the people of this county and if you have not met them, please take the first opportunity to get acquainted with this fine young family and welcome them to Hansford County.

Humble Oil Co. Active In The Panhandle

The Panhandle area has figured prominently in the activities of Humble Oil & Refining Company for more than thirty of its forty years in the petroleum business.

Humble Oil entered the production picture in this area in 1926 when its first well, the H. H. Merten No. 1 Gray County, was completed. A year earlier Humble Pine Line Company had begun gathering operations in Panhandle fields.

Forty years ago this month in Houston, Humble Oil & Refining Company came into corporate existence—they pooled properties and experience of a group of pioneer Texas oilmen who believed in themselves, each other and the future.

Although June is the company's anniversary, the story of Humble begins months earlier. Without a charter or a single signature the company began its operations on March 1, 1917, under a gentlemen's agreement among the principals. For three months and three weeks until the charter was received on June 21, oral promises and individual integrity preserved a merger that involved \$8 million in properties and a net daily production of some 8800 barrels of oil.

In a way, Humble Oil & Refining Company dates from Spindletop for it was there that most of the men who later organized Humble met and became friends. W. S. Farish, who was one day to become chairman of the board of Standard Oil Company of New Jersey, came to Spindletop from Mississippi where he had practiced law at the same time, R. L. Blaffer left New Orleans and his father's coal business to work in Beaumont for the railroad. He soon found himself in the oil business instead.

A third original incorporator of Humble, W. W. Fondren, started in the oil business at Corsicana with a drilling rig purchased from money saved when he worked there as a roustabout. He went to Humble, Texas, in 1906 when the field was discovered, and his equipment was part of the Humble Company when it was organized.

The Sterling family—Ross S. Sterling, Frank P. Sterling, and Miss Florence Sterling—organized the old Humble Oil Company, from which the present organization took its name. Another block of property came from the Wiess family of Beaumont, brought into the new company by H. C. Wiess, who took over the Wiess properties upon his father's death in 1912. Other holdings and properties which went into the merger were those of J. C. Wilson, Frank Ireland, Charles Goddard, L. A. Carlton, Ed Pather and Bert Broday—along with the Schulz Oil Company, owned principally by Mr. Blaffer and Mr. Farish.

The first board directors under the new charter included R. S. Sterling, Frank P. Sterling, W. S. Farish, R. L. Blaffer, H. C. Wiess, C. B. Goddard, L. A. Carlton, W. W. Fondren and Jesse Jones. Mr. Jones left the board after a few months and was succeeded by Judge E. E. Townes, who had represented several of the principals as attorney before the merger.

As an integrated company Humble started out with most of the necessary facilities... but nothing fancy.

There was one "washpot" refinery at Humble, Texas, which processed 300 gallons of gasoline a day from oil out of a single well. The marketing division, a model T truck, picked up each day's product at the refinery and hauled it into Houston for sale to "filling stations." There was a pipe line—three miles of gathering line in the Goose Creek field.

Until March of the following year, the company had no geologists. This was not unusual. Petroleum geologists were a new and rare breed then. But there was a land department, established a few months after the company was founded.

It was a modest beginning in the light of Humble's present scope. Then, as later, the emphasis was on production, and by 1918 Humble moved up into third place among Texas producers. Some months earlier, the company had already begun to expand its marketing operation, acquiring several service stations in South Texas. In 1918 six bulk stations were established, and number of additional service stations including five in Houston, growing number. (Continued on Classified Page)

Rockets Down 400's 26-7

The Equity had their first win of the season the past week, downing the Case 400's 26-7. The Rockets combined excellent defensive play, with powerful hitting. Johnnie Crawford knocked a home run, and a double, and the rest of the evening was given intentional passes. Others hitting were Bobbie Campbell, with a grand-slam home run, and almost all of the Rockets were hitting good.

Bill Blackburn, pitcher for the 400's was missed in this game. Mickey Southerland paced the 400's with a home run and a single.

REVIVAL MEETING AT ASSEMBLY OF GOD CHURCH

A revival meeting began at the Spearman Assembly of God church Wednesday night, July 17th with the Best Evangelistic Party of Lexington, Mo. This meeting will continue for two weeks or longer with Evangelist O. L. Bost bringing the messages nightly.

Special singing each night by the Evangelistic Party and the folk of the local church will be a feature of these services.

Everyone will enjoy the old-time gospel messages of this Evangelist who has been preaching for over twenty years. Services nightly, beginning at eight. We cordially invite the public to attend these services. M. O. COX, Pastor.

MARVIN CHAMBERS IS INVITED TO WICHITA

Sheriff J. B. Cooke phoned Marvin Chambers Tuesday and informed him that he (Sheriff Cooke) was planning a trip to Wichita Falls in the near future, and he hinted that maybe Marvin should go along and Marv should stop at the state institution there. This all came about when Marvin and Ed Munday built a large attractive scenic brick pillow right in the slam middle of the front door of his business house. Marvin won't tell you how he expects his customers to get into his store, just advise one and take to keep their shirts on and take a look-see when the job is completed.

We hope Marvin don't have to move a bale of cotton into the front door right now... he might have to tear down a bit of the scenery.

on income largely from agricultural activities. Of the total population of 24 million, approximately 80 percent live on and derive their incomes from comparatively small farms around 40,000 villages in 66 provinces. Farming is generally of a mixed type involving (depending on location) sheep, goats, poultry, horses, mules, donkeys, cereals, fruits (pome and citrus), vegetables, olives, cotton, tobacco, etc.

The Ministry of Agriculture is divided into five General Directorates, including Agriculture, Forestry, Veterinary Affairs, State Seed Increasing Farms, and Agricultural Supplies (machinery, fertilizer, etc.); and two sections recently created and administered by the Ministry in the fields of Soil Conservation and Irrigation and Plant Control and Quarantine.

The General Directorate of Agriculture is comprised of 16 master sections, such as Poultry, Horticulture, Agricultural Education, Farm Machinery, etc. The Republic of Turkey is divided into 66 provinces, each of which has its own agricultural office called the Provincial Agricultural Directorate. In 61 of the provinces the provincial agricultural directorate has been expanded to include an agricultural extension organization. In the provinces the office is known as the Technical Agricultural Directorate. These offices typically have a provincial agricultural director, an assistant director, and subject matter specialists according to the location and character of the province.

There are a total of 540 counties in Turkey, or an average of about eight counties per province. Each county has a county agricultural agent. This extension worker may be located either at the county agent's office or, depending upon the section of the country, in needs and facilities available, in one of the districts of the county. The county agricultural agents perform the usual job expected of such personnel, plus some administrative and regulatory work. The farm advisors (county agents) are recruited from universities, but mostly from regional agricultural schools, training below a B.S. level.

The Extension organization has been increased rapidly in size during recent years and will soon include all 66 provinces. Some difficulty is experienced in getting new recruits in the advisory service because of the competition by private business and other agencies for trained personnel and the fact that they usually offer higher salaries. From a subject matter standpoint, courses being offered at the universities and the regional agricultural schools are being improved.

Make-Up Games Saturday Nite

Make-up games will be played at the local Youth Program baseball diamond Saturday night. These games will begin at 6:30—they are games that were scheduled for July 4th.

Rev. J. Waid Griffin is the new owner of a Volkswagen—one of the first, if not the first of this make, in this area.

TOP O TEXAS RODEO AND KID PONY SHOW

AUG. 5-10
RODEO PERFORMANCES 7-8-9-10
NIGHT SHOWS 8:00

HANG YOUR HAT ON TOP O TEXAS

DANCING NIGHTLY
LEON MAULIFF and the CIMARRON BOYS
PAMPA TEXAS

The Top O Texas Rodeo officials announced this week the engagement of Ruby Nance professional rodeo band to furnish music for the big Top O Texas show to be held at Pampa August 7-10.

All members of the Ruby Nance band are former circus musicians and for the past several years the band has performed for all of the top rodeos in the nation, including Madison Square Garden.

Another musical feature of the show will be the appearance of Leon Mauliff and his Cimarron Boys of Tulsa, Oklahoma. This band is recognized as the leading western dance band in the nation. Mauliff will be featured on the nightly rodeo program and will then play for dancing following the show. The dances will be held in the National Guard building on the rodeo grounds.

Top rodeo hands of the South-west will be competing for approximately \$5000.00 prize money plus a number of appropriate special awards, including silver belt buckles, stetson hats, and other trophies.

Announcing the show will be Nat Fleming, popular TV personality and rodeo announcer of Wichita Falls. Fleming has announced the Pampa show several years and is recognized as one of the best in the field.

A down town ticket office will be set up in the lobby of the Pampa Hotel on July 29th and reserve seat tickets can be secured any time after that date.

The Kid pony show and miniature rodeo will hold forth on Monday and Tuesday nights, August 5 and 6 prior to the opening of the big show on August 7.

PICK 'EM FRESHER

at Our "FARM" in the HEART of TOWN!

You'd have to grow your own to get fresher produce than the fruit and vegetables we feature. They're right off nearby farms and orchards... picked at the flavor peak and rushed to our market with the dew still on them. That's why our Produce Department is your very own "farm" in the heart of town. Come pick this week's special values—including farm fresh SWEET CORN. Every ear is just full of plump, juicy tender kernels with that wonderful down-on-the-farm flavor you like so much. THURSDAY P. M.—FRIDAY and SATURDAY.

EVERY FARM IDENTIFIED AS THAT OF MR. AND MRS. A. L. PARKS OF MORSE and PRINGLE COMMUNITIES.

Mystery Farm pictured above is that of Mr. and Mrs. A. L. Parks, of the Morse - Pringle community. There are two houses on this farm and the Parks have a daughter and her husband, Mr. and Mrs. Pool live in the smaller home. Parks other daughter is none other than Spearman Mrs. Roy Lee Uptergrove. They are well known in Spearman, and it was a surprise to the reporter when we realized that Mrs. Uptergrove is the daughter of Mr. and Mrs. Parks. The Parks have two foster sons, Kenneth and J. W. Swink complete the Parks family. J. W. is attending Howard Payne Col-

lege, and Kenneth is going to enter T. C. U. in September. Both of the boys were active in 4-H and other activities at the Morse and Pringle schools. The Parks home is a modern 4 bedroom home. They are members of the First Baptist church at Morse, and are members of the Farm Bureau. Mr. Parks has lived on this farm all of his life. Now, this will complete generations of Parks; Mr. Parks father, Mr. and Mrs. A. L. Parks, and their daughter Mrs. Pool and her husband. The Parks have six grandchildren, 3 boys and three girls! Couldn't have ordered them more perfect, ac-

ording to Mrs. Parks. Mr. Parks handles cattle in the winter, and has used every type of modern farming practice on his farm, including fertilizer to help improve production. He has two irrigation wells and 22 oil wells to keep him occupied in his spare time! Truly this is a very, very fine farm family, and it is a pleasure to have them as our Mystery Farm Family. Booker Kizzar won the free subscription for identifying the mystery farm as that of Mr. and Mrs. A. L. Parks.

Gruber W.S.C.S. Meets at Church

The Women's Society of Christian Service met in the parlor of the Methodist Church in Gruber at 3:00 o'clock on July 11.

Mrs. Campbell gave the lesson from the World Out Look on Missions. This was a very interesting lesson on what people in other parts of the world are doing for Christ.

Mrs. Tom Dozier, Mrs. W. L. Harris and Mrs. R. Murrell assisted Mrs. Campbell. Mrs. W. J. Eddleman gave the devotional, choosing the 41st verse of the 49th chapter of Isaiah.

Mrs. Winder closed the meeting with prayer. Mmes. present included: W. J. Eddleman, W. L. Harris, R. Murrell, Ernest Sluder, C. Winder, M. F. Barkley, Ted McClellan, Glenn Truax, Art Evans, D. L. McClellan, R. Campbell and Tom Dozier.

NOTICE TO CREDITORS OF THE ESTATE OF MARTHA ROBINSON, DECEASED

Notice is hereby given that original letters of administration upon the estate of Martha Robinson, deceased, were granted to me on the 1st day of July, 1957, by the County Court of Hansford County, Texas. All persons having claims against said estate are hereby required to present the same to me within the time prescribed by law. All persons owing said estate are hereby notified to make payment to me. My residence and post office address are, Spearman, Hansford County, Texas.

NATALIE C. GREENE, Administratrix of the Estate of Martha Robinson, deceased. Natalie C. Greene.

Mrs. Lester Munday flew to Port Arthur where her husband is an instructor in a Boy Scout camp. Later, they will return to Spearman for a visit, then Lester will go to New Jersey for advanced instruction in Scout work. In early September the Mundays will take up residence in Port Arthur.

laid with a linen cut-work cloth and held at one end the double wedding ring cake. The bride placed her bouquet at the opposite end of the table. Members of the reception house party were Mrs. J. W. McGonagill, Mrs. E. P. Akin and Mrs. A. B. Herring.

For traveling on their wedding trip to the Gulf coast, young Mrs. Guice selected a pink linen suit with which she wore matching accessories. The orchid from her bridal bouquet formed her shoulder corsage. Upon their return on July 7, the couple will make their home in Alexandria.

Out-of-town guests for the wedding included: Mr. and Mrs. Clara D. Hathorn of Alexandria; Mr. and Mrs. G. I. Dyson of Ruston; Mr. and Mrs. R. E. Woodard and Mr. and Mrs. R. E. Woodard Jr. of Gibsland; Mr. and Mrs. M. L. Guice, Mr. and Mrs. H. L. Guice, Miss Rebecca Guice and Mrs. C. N. Berry, all of Wimboboro.

MAN OF WOMAN OWN YOUR OWN BUSINESS

A new item. First time offered start in spare time, if satisfied then work full time.

Refilling and collecting money from bulk machines in this area. To qualify you must have a car, reference, \$720. cash to secure territory and inventory (Deposit secured by written contract.) Devoting 4 hours a week to business your end on percentage of collections should net approximately \$350. monthly with very good possibility of taking over full time. Income increasing accordingly. If applicant can qualify financial assistance will be given by the company for expansion to full time position with above average income. Include phone in application. Write P. O. Box Z, Spearman, Texas. No 11-p

JANQUIL FLOWER CLUB

Mrs. Bert Sheppard entertained members of the Janquil Flower Club at their regular meeting Friday July 5.

Mrs. Dick Kilgore was in charge of the program and gave an interesting lesson on Day Lilies, wild flowers and garlands. She also discussed Christmas roses, a type of plant which blooms through the winter season.

The next meeting will be held July 19 in the home of Mrs. Chal-lars Porter.

Attending the session were: Mesdames, Dick Kilgore, P. A. Lyon, Jr., Tom Sutton, Richard Holton and the hostess, Bert Sheppard.

Bald eagles are so named because of the effect of the white feathers on the heads.

I once heard an old time mule skinner say, "I saw Jew Roper hitch six horses to a loaded boiler wagon, walk off a hundred yards, so well, come here Dude and the six horses, in perfect timing tightened the tugs and the wagon began to roll." The load was extremely heavy and the animals had to work in perfect harmony to get the load moving. Dude was the start of to tighten the tugs the others commenced to pull.

Another story the veteran related was also tied in with the Ranger oil boom which was in about 1918-1919. There was a drilling contractor inquired of a teamster if he could bring his teams over and move a boiler, which was loaded on a wagon back in sand, to another location and the teamster related, "I could pull the devil out of hades if I could get ahold of him".

The teamster left and soon returned with the six mules and hitched them to the load. The mules began to "shoot craps" (first one then the other pulling) and finally the skinner stated that the load was too much for six animals and a bystander stated "Doe standing here can take his one team of horses and start the load with the two animals". The first teamster unhitched his mules and the second one hitched his to the load. Clifford Gilbert, present day Post Master of Carbon, Texas was the one that volunteered the services of his brother Howard's horses. Clifford stated "I didn't know whether or not Howard's team could move the load but when he spoke to the team I placed by hand on the hips of one of the horses and they flattened out for what seemed like five minutes and finally the load began to roll".

One team of trained draft horses that were well fed moved a load that six average mules could not. In this atomic age there are not many oldtimers around that had to do all of their transporting via the horse and mule method and especially there are not many of the expert mule skinner left. These experts, in that day and time, could take a team and make them do all that they were capable of doing. These men prided themselves in the fact that they were tops in the profession. More than once the expression has been stated "I can hitch my team to a tree and they will pull until they choke themselves down". Horses that were 'honest' and that would pull until their last ounce of strength was a goal of

the oldtime teamsters and when they reached their goal there was pride expressed in the admiration of the horseflesh.

The smell of sweating workstock is gone in most of the areas of the Panhandle but there are still some ranches that keep a team or two around in case of a blizzard or conditions where a pickup truck can't make the feed route for cattle in the winter.

The Hayhook ranch, the Johnson, Turkey Track, Archer, and many others still have work animals.

Mules are a cross from a male donkey and a female of the horse specie or mare. However, a cross from a male horse and a female donkey is the same in a way, but strangely enough the offspring is not a mule but a hennie. Both hennies and mules are the same in some respects in that they are both 50-50, half and half, but which specie is the sire and dam makes a whale of a difference. Both animals are hybrids and are supposed to not reproduce or have offsprings — that is, not more than one in a hundred thousand times.

Aurba Dowers, Hemphill county rancher and quarterhorse raiser, has at the ranch a hennie called old Beauty which has produced at least two colts. The first colt appeared as tho it was sired by a donkey while the other was sired by a registered quarter horse called Cuchall. The last colt born June 19, 1957 is a honey colored animal with a blaze face that looks more like a horse than it does a donkey while the older colt, about two years old, resembles a donkey.

What would be the correct names for animals of this breeding is anybody's guess. Will they reproduce is still anybody's guess, but Mr. Dowers is going to see if they will bear offsprings.

Mrs. Jack Whitson is making a habit of winning the Silver Harvest money. Her name was called two successive Saturdays. First for \$64.00 then she drew a \$10.00 trades certificate.

Mr. and Mrs. Hugh Hazelwood and two girls, Sandra and Carolyn of Lubbock visited last week with his mother, Mrs. D. W. Hazelwood, and other relatives here.

Mr. and Mrs. Joe Dunn and children of El Reno, Okla. spent the week with Mr. and Mrs. Joe Novak. Hadden Gast, nephew of Mrs. Novak, is spending the summer with them. He lives in Roseville, Calif.

Lt. and Mrs. Arnold Richardson and boys of Colorado Springs, are visiting here a few days with his mother and sister.

Mrs. Charlie Rosson and Mrs. Owen Pendergraft visited the Jack Lambs. Mr. Lamb has been ill in the Hereford County Hospital but is much improved.

Mrs. Tip Colingsworth of Per-

ryton has been taking care of her father, Jake Lamb on the night shift, at Hereford hospital.

Bireine Crawford and Margaret Kirk attended the quarterly meeting of the Panhandle Pen Women, Tuesday at the Amarillo Country Club.

Vans of new store fixtures are unloading at the newly decorated building on main street where Roy Russell, will move his Dry Goods business soon.

Mr. and Mrs. Andy Hamilton who have lived in this area since January have moved back to Lubbock.

Mr. and Mrs. Roy Wilmethe are vacationing in Colorado and New Mexico.

Mrs. Hall Jones and Kathryn are visiting with Mr. and Mrs.

Shm Windom in Albuquerque.

Rev. and Mrs. Calvin Springer left Monday for Wyandotte, Okla. for a church encampment. They will visit relatives down State and be back in about two weeks.

Mr. and Mrs. J. H. Martin and boys, Mrs. Wesley Weston and Mrs. Bill Weston are in Oklahoma attending Camp Meeting. They will be home this week.

Marcus Gould is visiting with his brother Don and family near the Great Lakes.

Mrs. Bill Gould, Tommy and Edna are visiting relatives in Rogers, Arkansas, Tulsa and other Oklahoma towns.

Patent medicine consumption increased 740 per cent from 1890 to 1910 while the population increased only 83 per cent.

SUN-BRELLA DAYS ARE HERE!

Get out and go! And take along lots of Coke!

Call 'em Sun-brella Days . . . time to plan picnics, broil barbecues, time for family outings! Good times, when the unique good taste of Coca-Cola fits right in. Biggest Sellers...because they're Biggest Savers!

You can tell from the way they're put together that Chevrolet trucks stay on the job . . . save on the job!

A truck with built-in stamina—that's Chevy. Whether highballing down highways or roughing it across rugged terrain, or doing de-livery duty in town, dependable "can-take-it" Chevrolets are cutting

downtime to the barest minimum. A truck with a choice of ready-to-go power—that's Chevy. From an advanced lineup of eight engines—140 to 210 hp—you can save by choosing the power precisely matched to your job. Thanks to compact weight-saving design, Chevrolet's V8's deliver high power per pound of engine weight—power that works harder for you. Chevy truck 6's are famous for their stay-

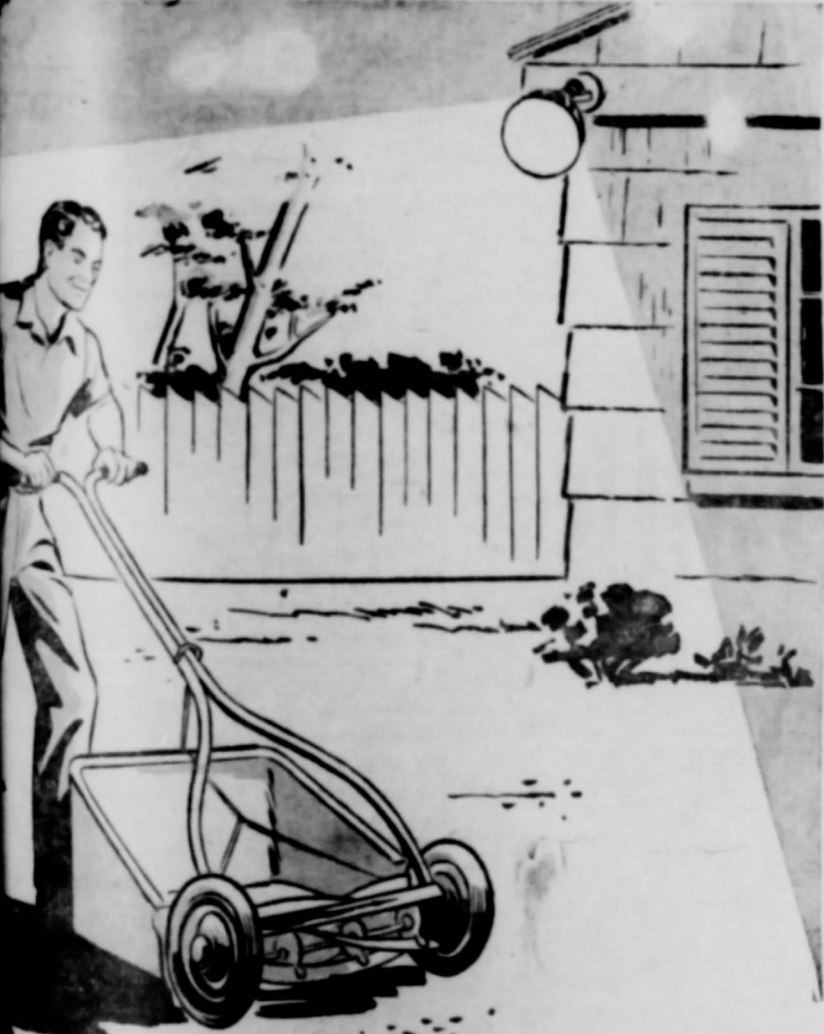

ing power. Whichever engine you choose, you know it's got the power to back up every inch of brawn in every Chevrolet Task-Force truck. A truck for your job—that's Chevrolet, too. From pickups to middleweights to high-tonnage tandems, there's one just right for your job. See your Chevrolet dealer. He'll show you a model that's practically made to order for your kind of hauling.

Chevrolet Task-Force 57 Trucks

The "Big Wheel" in trucks!

Only franchised Chevrolet dealers display this famous trademark

Up... for cooler yard work!

When you can do after the hot sun goes eas where chores like one regularly, perma- recommended. For weeding, portable light where you need equipment dealer soon tures you need. Enjoy have light for outdoor too!

A mushroom reflector unit like this puts plenty of light on your work. Equipped with a ground spike and waterproof extension cord, it is easily moved from place to place.

Loss and Gain

The older man is saying, "I have worked hard to make this farm pay. But I wonder if that is enough. What is ahead... how much loss and how much gain? He has asked this minister to explain it all. What does it profit a man if he gains the whole world and loses his own soul? Things do not satisfy. Man is a spiritual creature. He cannot be content with food and shelter. He was made for fellowship with God and his soul will always be hungry until he knows that he is a son of God and learns to walk with the Eternal Spirit. He must go forward with Christ. He must go to church and live in daily consciousness of the favor and blessing of his God. As he sharpens his tools to lose or gain, so must he sharpen his mind and his heart for God. Any business will pay when God is the senior partner.

YOU IN THE CHURCH THE CHURCH IN YOU

Character is a by-product of the church. It is here that young and old alike are observed with benevolent prayerful interest. In the church the ministerial and laity are united in a common purpose. The church is the place where the affairs of life can furnish leadership to help us with our children about to go to the church of our choice on Sunday. You in the Church and the Church in you form a combination for good. Be a regular church-goer and a daily Bible reader.

equipment they kept on the men who were deprived of their job and just let them watch the machinery and learn all they could in operating the new equipment.

I have never felt inclined to doubt Bruce Sheets in any of his statements... even about fishing... and he tells me that he and Bill Hutton and Joe Day had a marvelous fishing trip to Lake Charlotte, in New Mexico. We did go so far as to ask him positively if he meant that they caught FISIT. He said YES, and a lot more than we did when you and that Methodist preacher was along the last time...

This continues to be a wonder to this writer. The Lake in New Mexico is very small and Bruce said there were 17 boats on the lake part of the time, with all catching fish besides the ban fishermen, who were doing even better than boat fishermen. There must be something about the climate of the water that makes fish grow fast, or there must be some political influence that causes the fish and game department of New Mexico to keep the lake stocked continually... cause we know that a lot of Texans go there and all seem satisfied with the fishing.

Had a visit with the daughter of our Linotype operator, Joe Kirk. She and her husband from Monroe, Louisiana visited Joe over the week end. She proved another wonder to this editor that is more puzzling than fishing... how an ugly dandy like Joe Kirk could raise such a very beautiful, attractive young lady as his daughter. She is a registered nurse and married less than 5 weeks ago.

They told me that fishing at Black Lake and other lakes in Louisiana was mighty good now, for the first time this year. Said the floods and high water had just about eliminated fishing for the past three months, but everyone was now catching their limit.

The most humorous thing of the visit was the fact that Joe's daughter complained about the terrible heat in the Panhandle of Texas. We could not understand how anyone that lives just outside the hinges of Hades could complain about hot weather in the Panhandle.

You Name It

This hot weather is hitting the maize pretty hard. Of course, the extreme heat also ruined a lot of wheat, but still, for some of the boys, it was the first and best crop they have had in seven years. The stubble has just about dove the hay fever victims to the mountains. I went blind as a bat for three days last week. Had to wear welder's glasses for several days, and even yet, can't see too good.

The dry goods boys are really whooping it up in Spearman! All of the dry goods stores or remodeling, and their stores will be outstanding. They are wisely getting ready for the town to grow; but all of them are very cautious. They don't realize what a smart move they are making; cause the town is growing!

A personal note to Jess Davis! I have interviewed several men and their wives about the housing situation in Spearman. All of them just laugh at a couple of hundreds of homes; they say FOUR HUNDRED new homes in Spearman I'm so ignorant, I can't even count that many houses. But, if the hay fever ever clears up out of my eyes, maybe I will begin to see the light myself. Four hundred new homes sounds real good to me. And, I guarantee you, that Northern Natural could fill a lot of them up, what with their big expansion in the area.

I was all "shook up" about Northern Natural not going to build that big fuel plant right here at the edge of Spearman, but believe everything is going to be all right. Merle Beck and Mrs. Blodgett have promised to ride herd on the crew, and be sure that they come in to Spearman to do all their shopping, etc. Any Northern will have extensive building program going on right here at their plant west of town, two miles. Probably, it will be one of their bigger plant headquarters; mainly used as a pipe receiving station for this area.

Main street in Spearman is gradually taking on a prominent look. It won't be long until every building is full, and with the

Softball Team To Enter Pampa Tournament

Plans are now being made for an adult softball team to enter the Pampa Industrial Softball Tournament, the week of July 29th, through August 4th.

Lone Star 4-H

The Lone Star 4-H club met in the Schubert's lovely country home Monday, July 15 for their regular meeting.

4-H Boys Camp to Be Held July 29

Bill Goldston, Hansford County Agriculture Agent, announces there will be a 4-H Boys' Camp July 29-31 at Cima Del Mundo Camp near Las Vegas, New Mexico.

THIS AND THAT AROUND GRUVER

There will be no column next week, as we hope to be able to take a few days vacation.

Cary Robinson of Lebo spent several days, visiting in the home of his sister, Mrs. O. J. Gross.

We had the pleasure of seeing some of the pictures that Jim Davis has sent from his home in Alaska.

Mrs. J. M. Ayers has been under treatment in a Perryton hospital for several days.

The former Johanna Rafferty and her children are spending two weeks with Mr. and Mrs. Ed Rafferty.

Mrs. Mattie Layton is on vacation from her work in the Post Office. She is in Chicago visiting her daughter and her family.

Kelly Garrett had a narrow escape last week. He and his helper were taking a water tank off of a truck.

Something slipped and Kelly received a severe cut on his head. Several stitches were required to repair the damage.

Mr. Oren Morrison of Oklahoma is visiting his brother Leo. He is looking fine, but like the rest of us he is getting older.

H. B. Shapley and his family have been here visiting his parents. Mr. and Mrs. Jake Shapley, H. B. is doing just fine.

Gruver is losing two of her ministers, in fact three. The Church of Christ minister resigned some time ago.

Rev. Bill Burton, pastor of the Gruver Baptist Church for the last three years, resigned last Sunday.

Rev. Dokes, pastor of the Christian Church has also resigned the work here. We understand that he and his family will be moving to Dallas.

Judy Davis spent the between some time with her parents. Mr. and Mrs. Willard Davis.

Mrs. Bob Brooker of Canyon was visiting in Spearman Monday.

Mr. and Mrs. J. D. Kamp and Ronald of Riverside, California visited with their niece Mrs. Willard Davis and family Tuesday and Wednesday.

The Johnnie Lees are vacationing at Monument Lake, Colorado.

Mrs. E. J. Copeland was attending to business in Amarillo recently.

Mrs. Otha Brooks was visiting in Spearman Tuesday.

Mrs. Dan Shradler returned to Texhoma Saturday to be with her

A.S.C. Office Regulations

Elzey Vanderburg, reporter of the A.S.C. office reports the excess wheat acreage will soon be measured.

Quite a few wheat loans are being made despite the low test weight and the market price.

The conservation reserve and cotton acreage will be measured soon.

At one time Hansford County felt proud to boast of fine cotton gins. As of now, Hansford County has 80 farmers producing cotton.

Penalty must be satisfied on all grain before a tenant can be issued a marketing card.

A few payments remain to be made on soil bank acreage reserve.

No word has been received in the local A.S.C. that the soil bank program will carry over into 1938.

Mr. and Mrs. Oscar McLeod spent two weeks in Truth or Consequences, New Mexico.

Monet, Perry and Merle Washington were house guests in the Bill Johnson home in Cherokee, Okla.

Clarence Mitchell, Anita Gould and Steve have returned from custom wheat cutting east of Denver.

Guests in the home of Mrs. Fisher and Mrs. J. H. Buchanan the past week were Mr. and Mrs. Dan Shradler.

Drouth Back In County

Weatherman Fred Brandt put the heat treatment to the county this week.

Some of the boys in the area have got some enough to park up and head for the mountains.

Wardrobe Bears Still Leading League!

Coach Oscar Donald's Fluffy Bears are still leading the league in the Youth Program softball.

Mr. and Mrs. Jack Brown of Dallas visited Mr. and Mrs. Robert Alexander of Gruver several days the past week.

Mr. and Mrs. Kiff White and family are leaving for a vacation at Yellowstone National Park and points in Minnesota this week.

Mr. and Mrs. Robert Alexander of Dallas visited Mr. and Mrs. Robert Alexander of Gruver several days the past week.

Mr. and Mrs. Robert Alexander of Dallas visited Mr. and Mrs. Robert Alexander of Gruver several days the past week.

Mr. and Mrs. Robert Alexander of Dallas visited Mr. and Mrs. Robert Alexander of Gruver several days the past week.

Mr. and Mrs. Robert Alexander of Dallas visited Mr. and Mrs. Robert Alexander of Gruver several days the past week.

Mr. and Mrs. Robert Alexander of Dallas visited Mr. and Mrs. Robert Alexander of Gruver several days the past week.

Mr. and Mrs. Robert Alexander of Dallas visited Mr. and Mrs. Robert Alexander of Gruver several days the past week.

Mr. and Mrs. Robert Alexander of Dallas visited Mr. and Mrs. Robert Alexander of Gruver several days the past week.

TEEN TOWN NEWS

and Mr. and Mrs. Bobby Alexander of Gruver, attending funeral services for Mrs. Alexander's uncle, Mr. Griffen in Alford, Texas.

DAHLIA FLOWER CLUB

The Dahlia Flower Club met July 8th, with Mrs. Ethel Hester. A very interesting program, "The Care and Culture of Chrysanthemums" was given by Mattie Davis.

Members present — Mattie Davis, Lydia Allen, Flossie Crooks, Mildred Daily, Ethel Baley and hostess, Ethel Hester.

The next meeting will be July 22 with Mrs. Marie Baggery.

Dry ice is solidified carbon dioxide gas.

Queenie Arrives

Bobby Queenie Feature at J. Tidwell Carnival shows July 22-27, sponsored by the out and see her... she is very gentle, Tidwell Car of thrilling rides. Fun for

The

Anniversary and Fund Drive for Gruver Baptist Church Sunday August 4th.

Deana May Douglas To Study in Detroit

Mrs. Deana Mae Douglas of Deana Mays Beauty shop, with her husband, Will Douglas, will leave for Detroit, Michigan, July 25th, where she will spend two weeks studying advance hair design at the nationally famous Virginia Farrell Academy of Advanced Hair Styling.

Deana May studied extensively in the United States and in Canada. Due to the rapid progress of the beauty profession, she looks forward to studying each year with famous artists entering her to bring the latest trends in hair fashion to her patrons.

In Deana May's absence, her sister, Mrs. Gwen Thompson of Pueblo, Colorado, will serve the patrons of the beauty shop. Mrs. Thompson is a skilled Cosmetologist, having had many years experience in the beauty field.

August Schedule For 4-H Clubs

The following schedule has been set up for the Hansford County 4-H clubs by Miss Barbara Fain, Home Demonstration Agent.

400's Forfeit To Lions

The Case 400's forfeited the first game in the league this year in the Lions Saturday night. Coach Donald's Fluffy Bears were the first to forfeit the year, and it was caused by a shortage of players for the 400's.

H. D. CLUB CALENDAR

Miss Barbara Fain, Hansford County Home Demonstration Agent, has announced she will meet with the County H. D. Clubs in August and give the first demonstration on "Storage in the Living Room".

To second meeting will be presented by leaders on "New Fabrics". The following dates are for the August H. D. Club meetings.

FREEZING THRU THE AGES

OUR FOREFATHERS FROZE STOCKS OF MEATS, BREAD DURING THE WINTER. THEY KEPT THE FOODS FROZEN BY BURYING THEM IN BARRELS AND SIMPLY LEAVING THEM OUTDOORS.

PACKAGED FROZEN FOOD BEGAN TO REACH AMERICAN HOUSEHOLDS IN 1930. ONLY 1930'S WERE SOLD THE SERUMS TO WORLD WAR II BASE HOSPITALS. G.E.'S FIRST HOME FREEZERS WERE MADE IN 1946.

TODAY, 8 MILLION FREEZERS ARE HELPING FAMILIES TO EAT BETTER, MORE ECONOMICALLY. G.E.'S NEW BOOKSHELF FREEZER DISPLAYS CONTENT LIKE BOOKS ON A SHELF—EASY TO SEE, EASY TO REACH.

NOWADAYS, COMPLETE MEALS ARE READY QUICKLY AND EASILY FROM THE FREEZER.
