SPECIAL CANVASSING BOARD:

Mrs. Joe Traylor, Floyd Mitts  
Horace Hays, Jr.

THE MANNER of holding said election shall be governed by the General Laws of the State of Texas as regulating general elections.

A COPY of this order, signed by the County Judge of said County, and certified to by the County Clerk shall serve as proper and sufficient notice of said election.

NOTICE OF SAID ELECTION shall be given by posting and publication of a copy of this order, at the top of which shall appear the words "NOTICE OF ELECTION FOR ISSUANCE OF BONDS". Said Notice shall be posted in each of the election precincts of said county, and at the County Courthouse, not less than fourteen (14) days prior to the date of which said election is to be held, and be published on the same day in each of two successive weeks, in a newspaper of general circulation, published in Hansford County, Texas, the first of said publications to be made not less than fourteen (14) days prior to the date set for said election.

The above order having been read in full, it was moved by Commissioner Renner and seconded by Commissioner Vernon that it be passed. Thereupon the question being called for, the following members of the Court voted

election the following proposition shall be submitted to the qualified taxpaying electors who own taxable property in said County, and who have duly rendered the same for taxation for their action thereupon:

"SHALL the Commissioners' Court of Hansford County, Texas, be authorized to issue the bonds of said County in the total principal sum of ONE HUNDRED SEVENTY FIVE THOUSAND DOLLARS (\$175,000), to mature serially at such time as may be deemed most expedient by the Commissioners' Court, but not later than twenty (20) years from date thereof, and to bear interest at a rate not to exceed FIVE PER CENTUM (5 per cent) per annum, and to levy ad valorem taxes sufficient to pay the interest on said bonds and create a sinking fund sufficient to pay the principal thereof at maturity, for permanent improvement purposes, to-wit: the construction of improvements, additions and repairs to the present County Courthouse, including the construction and erection of the County Jail, said building thereafter to constitute the County Courthouse and Jail Building, in the City of Spearman, the County Seat of Hansford County, Texas, pursuant to authority conferred by the Constitution and laws of the State of Texas."

ALL VOTERS who are legally qualified voters of said Hansford County, Texas, and who are resident property taxpayers of said County, and who have duly rendered their property for taxation, shall be entitled to vote at said election; and said election shall be held under the provisions of Chapter 1 and 2, Title 22, Revised Civil Statutes of 1925, and the Constitution and laws of the State of Texas.

IT IS FURTHER ORDERED that the ballots for said election shall be prepared in sufficient number and in conformity with Chapter 6, V.A.T.S. Election Code, as amended, and that printed on such ballots shall appear the following:

"FOR THE ISSUANCE OF BONDS AND THE LEVYING OF THE TAX IN PAYMENT THEREOF"

"AGAINST THE ISSUANCE OF BONDS AND THE LEVYING OF THE TAX IN PAYMENT THEREOF"

EACH VOTER shall mark out with black ink or pencil one of such expressions, thus leaving the other as indicating his vote on the proposition.

**Morse H. D. Club**

The Morse H. D. Club met in the home of Mrs. Besse Henderson October 10. A song was sung for the opening exercises. The roll call was answered with "A Household Hint." Mrs. Lynn Davis demonstrated a Chipper Tuna Casserole dish and Mrs. Jack Johnson broiled frozen fish fillets. Those enjoying the fish were Mesdames Mack Dortch, Ella Parks, Willard McCloy, Allen Forbis, H. B. Parks, Besse Henderson, Lynn Davis, Jack Johnson, Joe Reising, and one visitor, Mrs.

**New Publications On Irrigation Available**

College Station. Irrigation is a means of maintaining a continuous supply of available moisture in the plant root zone of the soil throughout the growing season. The irrigator should keep a careful check on soil moisture conditions, for irrigation must be started soon enough to arrive at the last portion of the field, before its available water has been exhausted, says R. V. Thurmond, extension agricultural engineer. A practical method for estimating the available soil moisture is to take a small amount of soil, squeeze it in the hand so as to form a ball, then refer to a chart that is given in a leaflet, L-335, "How to Estimate Soil Moisture by Feel" for a description of the feel and appearance of different textured soils for various moisture percentages.

**We Specialize in SERVICE!**

Oil for a little girl's roller skates? Yes, ma'am! Strap need adjusting? We can fix that, too. If it's service you want, you came to the right place!

Fortunately for your Phillips 66 Dealer, he services more cars than roller skates. But he goes about it in the same friendly, helpful way. You'll find he takes an interest in your car. His service includes getting your car brushed out...

the windows cleaned all the way around... your battery and tires checked. It means friendliness, courtesy, the desire to please you.

That's why a little girl who comes in for "roller skate oil" is likely to keep coming back years later for Phillips 66 FLITE-FUEL and TROP-ARTIC Motor Oil, and all the little courtesies that add up to "Hospitality on the Highway."

### Don't Name It

Would have been disappointed if had not received some sort of comment from Preacher Nichols about the prospective Elk hunting trip. Here it is and it's sharp as a blunted tack.

Bill, you should be the happiest man in the world. You are in the boat with the rest of us on not having enough money to go around.

It is easier to catch the eagle than it is to hold him. He flies away and leaves the tailfeathers in our hands.

Bill, you are the most fortunate man in the world; you can shoot the bull in Colorado on an elk hunt; just the same as you can in your printing office. You are right on some of the changes we need in our government. Regardless to what we have in Washington, the people are to blame for it. They voted for it.

When you come back from your big elk hunt bring the elk with you. We would rather see it than to read what you said about it getting away. See? Any man may not be broke before he takes a trip but I will guarantee he will be bent before he gets back home. It takes quite awhile for us to recover financially after we have gone on an extensive trip. Have a good time.

J. H. N.

Right at this time I'm not sure that I will go along to wash the dishes and build the fire for Bill Hutton and Bruce and Doc. I've got a sorta hansford-county-Asiatic flu creeping up, and unless the half gallon of pills I have been taking makes me feel lots better, I will have to give up the prospective trip. You may rest assure if I'm on my feet I will go, cause a trip to the mountains and the good fresh air and plenty of exercise is the best medicine in the world.

Kinda hate to miss the two football games that will be played this week end. Believe the Lynx will take care of the Vega Longhorns here at Spearman, and feel sure the Gruver Hounds will come back from Sunray with a victory for the records.

Sure wish the newspapers would not be so positive in picking winners before the games are played. Even before the first game of the year, the sports writers had selected Baylor Bears as the prospective Champions of the Southwest Conference. I was all thrilled . . . but now the old Alma Mater has lost two games, one the conference game with Arkansas at Waco Saturday night. Don't know what happened or HOW. I was able to get the first part of the game on my two lunged radio, and Baylor had a score of 14 to 0 when the music stopped. Later I found the Arkansas Hill Billies had tied the score and finally defeated the Bears. That's bad . . . too bad.

Was able to get a fairly good report on the West-Texas game and was mighty glad when the Buffalos broke the tie to win their game.

OH YES . . . another reason why I should sacrifice my own feelings and make the Elk hunting trip to Colorado . . . is the chance to bring back some needed moisture for Hansford county. Shore wish I had not been so unselfish long time ago . . . and endured the hardships of fishing

and hunting to bring moisture to Hansford county. Looks like I will have to make trips ever now and then as long as I live and it's a great sacrifice. Hope that I can score up about 3 inches of moisture for the county . . . it could be used to a great advantage.

Right now the writer has just about given up any hopes of printing a representative historical issue of the Reporter when we celebrate our fiftieth anniversary in December of this year. It really keeps everyone working pretty hard just printing what comes thru the front door, and the country editor would have to employ at least two more people to be able to print a real representative historical issue. We just can't employ help for full time job much less pick up a printer and reporter for a month's time.

### Dairymen Advised To Get Ready For Colder Weather

College Station. — The summer season is over and the fall session is now underway. Dairymen should now begin checking their management to make sure that they are ready for the colder weather that lies ahead.

Advise A. M. Meekma and J. M. Davis, extension dairy husbandmen.

Cow comfort is one of the more important points to check for the coming months, say the husbandmen. A dissatisfied, uncomfortable cow is not going to perform at her best. Special at-

ention should be given to good feed and adequate shelter. And remember that contented cows usually make a more contented dairyman.

Determining the best feed to buy is another problem that must be confronted. Meekma and Davis remind, feed prices often change from season to season and deciding which one to buy is sometimes difficult. For help in solving this problem, they advise seeing local county agents for the publication MP-167, "Which Feed is the Best Buy?"

The specialists also advise de-barring will save space at the feed rack and in the shelter barn. It will also prevent painful injuries to cows and heartaches to the owner. There is no place for horns in the modern dairy herd.

Any herd can be improved by culling lowest producers, hard breeders, and least desirable cows. Now is a good time to cull those cows that will not carry their part of the load during the coming winter months. It can be unprofitable to carry any "dead weight" through the winter.

A Sheep Short Course, the first of a series, will be held at Texas A. and M. College October 21-22. Fundamentals of sheep production and management will be stressed. Much of the material to be discussed during the short course will be demonstrated at the Sheep Center of the Animal Husbandry Department.

Molokai, the leper colony in the Hawaiian Islands, is supported by the U. S.

### THE WONDROUS YEARS OF OUR TIME...

Man's use of petroleum — of oil and natural gas — began before the first records of history.

But petroleum's full usefulness to man has been a matter of decades only.

They have been wondrous years, those decades. Years that saw automobiles built by the millions because gasoline was available as a cheap source of power. Years that saw the oceans dwindle under the high speed of great ships powered by oil. Years that saw the evolution of a more comfortable living in homes warmed by oil and natural gas. Years that saw rubber, fibers, paints and many other useful items of everyday living produced from petroleum's hydrocarbons. Years that saw the earth shrink under the wings of the airplane, and great wars decided by the availability of oil.

Thus, the oil industry has led the way into the wondrous years of our time. The industry, through foresight, ingenuity, research, and risk-taking, has found and produced the oil required in greater quantity each year, has conserved

oil for the future, has devised the transportation systems that move oil economically, has built the refineries and plants that convert crude oil and natural gas to the hundreds of useful products needed by a growing United States.

The Humble Company, founded in 1917, has participated in petroleum's progress during four great decades, and has pioneered in the development of many current techniques for finding, producing and refining oil. This week, with the industry, Humble invites you to consider the variety and extent of oil's progress . . . Surely no other industry has contributed more to the making of modern America.

# DISCORDS

O H, how important they are! No music would be sweet without them. No life can mean much until it first suffers them.

*It takes discords to prove the true beauty of the finer harmonies.*

Without discords we have stagnation... no opportunity for comparison.

One must see them, concords and discords, alongside each other if one is to have the full picture. Compare the selfish with the unselfish; the cactus with the rose; the christian life with the life of the wayward. Compare the touch of the beginner with that of the concert pianist.

Ah, there it is. Now you understand. God put His church right in the middle of all this and furnished it with a pew and an altar where men might pray.

He offers His grace to sustain us in our darkest hour — when discords disrupt and darkness dulls our way. *The doors of His church are ajar and He invites all men; even men of disrepute — men who still question His authority. Won't you come to church?*

**YOU IN THE CHURCH  
THE CHURCH IN YOU**

Character is a by-product of the church. It is here that the young and old alike are showered with benedictions stronger democracy. In the church the ministerial are the church alone can furnish leadership to handle the affairs of state in these perilous times. Then we with our children should go to the church of our choice on Sunday. "You in the Church and the Church in you" here a combination for good. Be a regular CHURCH-GOER and a daily BIBLE READER.
