### Don't Name It

Back home working and enjoying life after a thousand mile trip trying to find a place to fish. You just can't fish when the rain is pouring down, and this writer spent three days in Denton county last week end when it rained more than 10 inches. The highways were closed all over Denton and Grayson county. This writer drove from Pilot Point to Collinsville for an hours visit with our cotton picking brother, and within one hour range creek overflowed state highway 10 until traffic was stopped. Instead of an hours visit, we stayed all day, and would not have made it back to Denton county if the highway department had not ferried us across a mile wide strip of the highway.

Eddie Faye and I journeyed down to Pilot Point, Texas to attend the annual "Home Coming" Sunday. Left here Wednesday so I could get me fishing—but even the home coming was hampered by the moist weather. However, there were almost 300 visitors to the small city, and they came from as far away as San Francisco, California.

Didn't realize was getting so old, but most of the old timers I knew from the days 34 years ago when I printed the Pilot Point newspaper, were plumb old. One old codger was telling me about shooting a snake in a boat with me and killing the snake, but sinking the boat. I shure do not remember it, and I believe he had me mixed up with some one else—however I pretended to remember all about it, since the old timers had a habit of accusing you of having imbibed too freely if you did not remember their stories.

The country from Spearman to Fort Worth, Texas looks in mighty fine shape. However, folks in Grayson and Denton county have not been able to plant their cotton and peanuts—they are right uneasy now—since the cotton should have been planted in April. Wheat and oats look better than I have ever seen them at this time of the year. Up in Denton county they are afraid the oats will fall down and rot because of the excess of moisture.

John Berry and Virgil Matthews and about 9 other Spearmanites opened the fishing season at Lake Summetta in New Mexico last week end. They all report lots of snow, a lot of cold weather and muddy water. Caught a few fish but the bank fishermen with worms were doing much better than the fishermen who trolled in boats.

The Country Editor is in the dog house with Roy Russell. We

printed him a very nice advertisement in the Celebration issue of the Reporter, but instead of signing the name RUSSELL'S, we reverted to the old signature, The Spearman Dry Goods. This writer was one of those who urged Roy to adopt the new name when he opened his new store or rather redecorated store with new fixtures. However we forgot and signed Roy up as Spearman Dry Goods Co. We were terribly embarrassed over the error, but we claimed to Roy that we did it on purpose so he would get more value out of the advertisement—suggested that it caused lots of comment among readers.

### Logn - Thompson Vows Read

In a recent candlelight ceremony, Miss Dorothea Ann Sogn became the bride of Mr. Carroll Wayne Thompson. The marriage united the families of Mrs. Ingeberg Sogn of the Oslo Community and Mr. and Mrs. U. J. Thompson of Dunmer, Kentucky.

Nuptial vows were read by the Rev. Martin A. Baumann of the Trinity Lutheran Church, Guyton, Oklahoma, in the Oslo Lutheran Church, Oslo Community. The double ring ceremony was performed before the altar flanked by seven-branched candlebras and baskets of yellow gladiolus and white daisies.

The prelude music and traditional wedding marches for professional and recessional were played by Mrs. Fred Meyers of Texhoma, Oklahoma. She also accompanied Mrs. Emil Knutson of the Oslo Community who sang "Oh Perfect Love" before the ceremony and The Lord's Prayer while the couple knelt at the altar.

Mr. Dave Brown and Mr. Bruce Rollins both of Guyton, Oklahoma, and friends of the groom lighted the candles and were ushers.

Attending the bride as a matron of honor and maid of honor were her two sisters, Mrs. Carl Nields Jr. of Hardesty, Oklahoma, and Miss Kathryn Sogn of Oslo, who wore identical dresses of acetate blue. They carried a nosegay of yellow roses.

The bride was escorted to the altar by her uncle, John Dahl, who gave her in marriage. She was attired in a white laltz gown of white Chantilly lace over satin and designed with a fitted bodice and full skirt, a dainty jacket with long fitted sleeves that tapered to a point over the hands, a peter pan collar and fastened in the front with tiny self-covered buttons. Her finger tip veil, made of illusion, was fastened to a lace bonnet on which the lace design was outlined in seed pearls. She carried a white Bible topped with a white orchid with streamers of tiny yellow rose buds. For something old the bride wore her grandmother's cross and bracelet, new her dress, borrowed, her veil and something blue was her garter. She also had a penny in her shoe.

Ronald Edwards of Guyton, Oklahoma, was best man, and the groomsmen was Jack Thompson of Dunmer, Kentucky.

For her daughter's wedding Mrs. Sogn chose a blue dress. Mrs. Thompson wore a navy blue suit. They wore identical corsages of yellow roses.

Following the ceremony a reception was held in the Parish Hall. Serving of the cake and pouring of the coffee was done by the aunts of the bride, Mesdames: Wendell Reneau, Jewel Ward and Sherman Schibler Mrs. are.

### Happy Homes H. D. Club

The Happy Homes H. D. club is made up mostly of young mothers. In learning to be good homemakers we try to carry out most of the recommendations and demonstrations in our own homes. We as a club try to work together and give assistance to each other when needed. We have participated in many of the sewing classes. We have some very good leaders that have attended the training meetings on sewing, drapery making, upholstery, tailoring, leather craft and various other kinds of handwork. They then taught members in our club.

Some of our women attended the first aid course. To raise money we have sponsored a bazaar, some bake sales and sold candy. We try to encourage 4-H work and have helped with their banquet and dress review. Each year the 4-H members attend a meeting and give us a demonstration on some of their achievements.

In sponsoring our entertainment we try to think of the family as a whole. Each get-together is planned for fun and we include our husbands and children. Our first enchilada supper was held because so many of our members had never eaten Mexican food. Now it is considered an annual affair, as we enjoy it so much. Each Christmas we enjoy a real old fashioned get-together with all the goodies of Christmas and of course Santa Clause for the children. We have an outdoor meal of some kind each year. Last year we entertained another club with an outdoor breakfast. Games were played and prizes won. Each one enjoyed it very much.

As a club we have been very busy. At fair time we have a booth. At the celebration we try to have a float. We have taken several blue ribbons in our booth and have been commended by some of the business people for our ability and craftsmanship on building a float. For young mothers to take an active part in the community is an accomplishment. We never stay home because of our children. We take them with us and plan entertainment for them, so they fit in with our

way of life. We enjoy our work, play and especially our children, as no home is complete without them. After all they will be the homemakers of tomorrow.

Each Christmas we enjoy a real old fashioned get-together with all the goodies of Christmas and of course Santa Clause for the children. We have an outdoor meal of some kind each year. Last year we entertained another club with an outdoor breakfast. Games were played and prizes won. Each one enjoyed it very much.

As a club we have been very busy. At fair time we have a booth. At the celebration we try to have a float. We have taken several blue ribbons in our booth and have been commended by some of the business people for our ability and craftsmanship on building a float. For young mothers to take an active part in the community is an accomplishment. We never stay home because of our children. We take them with us and plan entertainment for them, so they fit in with our

### Happy Homes H. D. Club

The Happy Homes H. D. club is made up mostly of young mothers. In learning to be good homemakers we try to carry out most of the recommendations and demonstrations in our own homes. We as a club try to work together and give assistance to each other when needed. We have participated in many of the sewing classes. We have some very good leaders that have attended the training meetings on sewing, drapery making, upholstery, tailoring, leather craft and various other kinds of handwork. They then taught members in our club.

Some of our women attended the first aid course. To raise money we have sponsored a bazaar, some bake sales and sold candy. We try to encourage 4-H work and have helped with their banquet and dress review. Each year the 4-H members attend a meeting and give us a demonstration on some of their achievements.

**OSLO NEWS**

Mr. and Mrs. Odie Pederson from Clifton, Texas, were weekend guests in the Emil Knutson home. Mr. and Mrs. Pederson are the ones who are in charge of the supervision of the Lutheran Sunset Home for our old people. They now have 85 residents at the Home and we were very happy to have Mr. and Mrs. Pederson speak to us about the work there. A fellowship was held on Sunday night at the parish hall and slides were shown of the improvement and enjoyment they have with the idlyrly poplaoasares have with the elderly people.

Mr. and Mrs. W. L. Johnson and family went to Levelland, Texas, over the weekend to visit Mrs. Johnson's mother, Mrs. Laura Walker. Mr. and Mrs. Gordon Stedje and family also spent the week-end in Levelland visiting the Earl Remick and Mrs. Ed Heische homes.

Mr. and Mrs. Austra Ward and Mrs. Brandvik were Sunday dinner guests in the Emil Knutson home.

Mr. and Mrs. Paul Smith who are staying in Texhoma at the present time, were coffee guests in the James Stedje home Sunday afternoon. Mr. Smith is well known among almost everyone in this neighborhood, as he was doing weatherstripping on a lot of windows during the dirty thirties.

The Oslo Luther League is sponsoring a hamburger fry at the Stedje park May 18th, starting at 5:00 in the evening. Volley ball and other games will be played, and the evening will be closed with Vesper Services, sponsored by our young people and adults.

No Sunday school and church will be held Sunday May 11th, at Oslo Lutheran Church as every one will attend Baccalaureate services at the High School auditorium in Gruver at 11:00.

**Report From Morse Home Demonstration Club Membership**

The Morse Home Demonstration Club was organized in 1936. The club now consists of sixteen members. They are as follows: Mesdames Herman Blanton, Pete Cator, Lily Crowl, Besse Henderson, Mack Dorch, Jack Johnson, Charles Johnson, Johnny Diggs, Carson McCloy, M. W. McCloy, Si McCloy, H. B. Parks, Ella Parks, Joe Reinswig, Jim Womble, and Allen Furbus. Mrs. Mack Dorch has belonged the longest of any member.

Our club has participated in most of the projects. They are as follows: sewing, (advanced, tailored, basic) upholstery, draperies, hassocks, hats, copper draft, laquer painting, wood fibre plants, landscaping, winter bouquets, and many more.

We have had several different money making projects. One which was a lot of fun and also netted us a good sum of money was an all lady negro minstrel. We have had 42 parties charging to much per couple, pie suppers, gypsy box, bake sale, and are now having the mystery box.

Four of our members have attended state meetings. Mrs. H. B. Parks went to Austin, Mrs. Jack Johnson to Galveston, Mrs. Mack Dorch to Galveston, and Mrs. Joe Reinswig attended the state and national meeting at San Antonio in 1956.

All in all we feel our club has progressed through the years I'm sure that each club member is a better homemaker from belonging to the club.

**Washington News Letter From Your Congressman Walter Rogers**

The President's proposal to reorganize the Pentagon to become more controversial each day. Some are taking a position that it is being made into a political issue and that partisanship petticoats are beginning to show in the Armed Services Committee. The general agitation about the proposal was reflected by the sharp exchange that took place between a Texas newspaper reporter and the President in his recent news conference. The papers here played the story big. The paper which is considered to be the most conservative of the three Washington newspapers carried a rather extended story about the incident and referred to three other questions that seemed to have raised the President's ire. The incident about the Pentagon reorganization arose when a newspaper reporter, who is a woman representing a Texas newspaper, asked the President a question concerning the possibility of a "Prussian" type organization being created if his plan was adopted. The President shot back an answer in the nature of a question. He asked this newspaper woman, "Have you read the law?" The reporter replied, "Yes Sir." The President is then quoted as having said, "No you haven't, I don't think."

Another question put to the President by one reporter that was credited by the local newspapers as having raised his ire had to do with the President's recent suggestion that the people buy the reporter, after getting the President to confirm that he had asked the people to buy, then asked the President if he would tell the reporters what he had bought. It was then that the President became obviously annoyed and said that he had not discussed the matter with his personal aide who took care of his buying needs. Another reporter, who asked some questions concerning the President's position on the unemployment benefits bill in the Congress, was cut off by a statement by the President that "he thought the reporter knew something about the matter."

All of this left many of the next news conference would produce and when it would be held.

**When Is A Chicken Not A Chicken?**  
 Hearings are now being held on a bill to amend the Interstate Commerce Act as it concerns the right to haul agricultural products without being subject to regulations. The battle as to what is an agricultural product and what is not an agricultural product has been going on for some time. In recent years the question arose as to whether or not a chicken that had been killed and cut up or frozen was still a chicken that could be hauled under the agricultural exemption, or if it became a manufactured product and had to be hauled in accordance with certain ICC regulations.

**Hereford, Tex., Man Reports— More Maize On Fewer Acres Using Phillips 66 Ammonia**

Earl Holt, Hereford, Tex., says: "I harvested more grain from 250 acres of irrigated maize fertilized with Phillips 66 Ammonia than I got from my previous larger acreage which received no ammonia. And I got this increase using only one irrigation well for the entire 250 acres."

Other Southwestern farmers have discovered that 82% nitrogen from top quality Phillips 66 Agricultural Ammonia helps them get more profit per acre through higher yields. They get more cotton that classes higher at the gin... yields of sorghum grain and ensilage are increased... more marketable vegetables are harvested... and profits on wheat are increased through higher yields of grain and extended grazing periods.

Phillips 66 Agricultural Ammonia contains 82% nitrogen and gives you more nitrogen per dollar than any other form of commercial fertilizer available.

**Phillips 66 Order Your Supply Of Phillips 66 Agricultural Ammonia Today!**

**LEE OIL CO., SPEARMAN, TEXAS**  
 Telephone OL 9-2861

A case went to the Supreme Court involving this question, and the Court held that the chickens retained their identity as chickens even after they were killed and could be shipped without the hauler complying with rules and regulations of the ICC. The Supreme Court in its decision said, "A chicken that has been killed and dressed is still a chicken."

All of this was brought out in the hearings before the Interstate Commerce Committee of which I am a member. When the language of the Supreme Court was quoted by one witness, it brought to my mind the fact that a very serious situation could arise on this subject in Texas. I recall that while serving as District Attorney, we were investigating a man who was charged with stealing. Under Texas law he could be sent to the penitentiary for this. However, he argued that he was not guilty of chicken stealing although he had stolen the carcass of several chickens. At that time dressed chickens

were selling for about 75c each. He had stolen three of these dead chickens. If the chickens had been killed, the largest penalty that could be put upon the thief would be a fine, because the value of what he stole was less than \$5.00, but, if the chickens had continued to be chickens even though they had lost their lives, the theft of only one of them would have subjected the man to conviction of a felony for which he could have gone to the penitentiary for several years and would have lost his citizenship. It is my recollection that the Texas Courts have held that a dead chicken is no longer a chicken under the Chicken Law— The same as a cow is no longer a cow after it is slaughtered. This being the case, I am wondering what will happen in the future in view of the language of the Supreme Court in the frozen chicken case. If the Justice of the Supreme Court who wrote that opinion and used the language, "A chicken

that has been killed and dressed is still a chicken," ever steals a dead chicken in Texas and gets caught, he might wish he had never used the language.

**Medlin H. D. Club Reports For National H. D. Week**

Mr. and Mrs. Roy Lee Uptergrove are a very enterprising young couple. The Medlin H. D. Club is very proud to number Betty Uptergrove among their members. She is serving this year as vice-president.

This young couple have three lovely young daughters; Susan, Valerie and Lee Ann.

They planned long and well toward their new home. Roy Lee is a carpenter and Betty is the decorator. They moved into their new, yet unfinished home two and one half years ago and have enjoyed their home while working on it. Since added many conveniences and 2 daughters.

Recently Betty did some redecorating in her kitchen and as an added attraction she used sprays enamel on her refrigerator

to make it the new decorator pink. This added a very smart note to her kitchen.

Betty and Roy Lee also added some shelves and a big board in their storage closet. This increased useful space and made a very nice place for Roy Lee's work clothes.

This modern home is very spacious and homey. There are three bedrooms, two baths and a world of storage, including special storage in the children's rooms. There is a large hall and central heating system. A large living room which opens with about a half-room doorway into the kitchen-dining area. A rock fireplace adds to the livable look of the living room as do floor to ceiling windows.

They have a very spacious utility porch and attached garage. There is a nice big porch on the East to enjoy the summer afternoon.

The last of the rock was added

recently to the house.

The yard is very attractive. The landscaping program almost all this year has been done and Betty and Roy Lee are very proud to have their new home as residents of Spearman.

Mrs. Cecil Crayton, the Writer's Guild in Amarillo.

Mrs. J. H. Taylor, an extended daughter Mrs. J. Denton. Mrs. Taylor came home with the Jack Taylor's and her friends.

## OUTDOORS IN TEXAS

According to Game Warden Woody Pond, the bass and crappie are biting at Buffalo Lake but not too vigorously. Warden Pond also said that the channel cat haven't started to bite at this time. The warden said that he would call me when they did start hitting. I am just waiting for that time to spend a day of channel catfishing.

For those who are in the know, it is usually simple to catch a daily limit of these most choice fish if you have the right kind of bait. This right kind of bait consists of a specially prepared conglomeration made from dried minnows, oil of anise, oil of roden and banana oil. Most fishermen below the caprock and on south to Abilene are familiar with this preparation.

A few years back I was bank fishing at Lake Pt. Phantom Hill and was using shrimp, minnows and stench bait to no avail. A short distance down the bank there was a couple who spent most of their time pulling out channel catfish that ran from one to four pounds. I kept moving down the bank until I finally was sitting next to the man. I asked what kind of bait he was using. He told me and also gave me the address of the manufacturer but wouldn't spare me any of the bait.

After a while he departed to Abilene with a tow-sack of the larger fish in the meantime he had dropped a small particle of the precious bait on the ground. After he left I picked up the piece, mixed it in with some of my bait and almost landed a nice channel cat. Up until this time I hadn't had so much as a nibble on my line. Later I ordered a quart of the bait from Quanah, Texas. There are not many people who prepare this bait for commercial use but it can be purchased from some of the bait dealers at Quanah.

**Ochiltree County's Lake Fryer**  
For months it has been mentioned that it was believed that this lake would have its official opening on May 1. However, it was learned that the official opening will be June 1. Picnic ground are available, plus boating facilities at this time.

**Dog Gone**  
First time since the blizzard a year or so back my dogs have scratched out. These two have disappeared. They are two litter mates, male and female pointers, four years of age. If you know anything of the whereabouts of these two meandering dogs, please call me. They have my name and address on the collar.

The fishermen from the Panhandle are keeping the roads hot towards many distant lakes this spring. Milton Bryan, Bob Haynes and others have been having good luck at Lake Stamford. Mr. Haynes said that he preferred this lake above all others for crappie and bass. Harper Scoggins and M. C. Johnson said that Leedy Lake in Oklahoma is one of the most productive bodies of water.

The black bass are getting ready to spawn in the Panhandle. I noticed five nests on the Duncan Ranch the other day. The male bass prepare these nests. On two of them, the bass guarding the nests appeared to be over four pounds.

During the winter there were very few quail, either blues or bobs, noticed. Now they are appearing all over the Panhandle. They are paired off and have moved out from the winter range to the nesting sites. Weldon Fromm, Game Warden at Matador, said there are quail all over the countryside in that area.

## R. L. McClellan Tractor Case-O-Matic Demo

R. L. McClellan, local Case agent, is going to put on a tractor demonstration Saturday, May 17th. He urges everyone in the whole area to be sure and attend this event. Many farmers saw the Case-O-Matic tractors out in the recent WORLD PREMIERE show. Now! Case challenges all competitive dealers to publicly compare with Case-O-Matic drive tractors in field test next Saturday.

In the event of rain, (and R. L. needs one on his wheat) the demonstration will be held at the same time, same location, on Wednesday, May 21st. The show will start at 2:00 P. M., whether held on Saturday or Wednesday.

Would you like to see the Chamber of Commerce moved downtown? The office in the new West Office building is available for lease to the Chamber of Commerce.

**ADVANTAGES:** More accessible to Chamber patrons. More office space. The rapid growth of our city has greatly increased our Chamber of Commerce functions and records, necessitating more office space.

**PROBLEMS:** There is no appropriation in the 1958 budget to pay lease on such office.

**SOLUTION:** Interested people may make voluntary contributions to lease. Contact any of the board of directors for information.

The Chamber of Commerce is planning a calendar of events and would like all clubs and organizations to contact the Chamber office as to the time and date of each regular meeting. Call in advance of any special meeting. You may check thru the Chamber office to avoid conflicts of other events.
