## Hansford Dress Revue Winners

From left to right in the above picture are the second and first place winners of the Hansford County Dress Revue, held recently at Gruver, Texas. Anita Holt was second and Sandra Stump was first and will represent Hansford County in the District Dress Revue to be held at Amarillo, tomorrow, Friday August 1st.

## Pre Dress Revue On Television

4-H club members from Hansford County staged a Pre-District dress revue as a feature of the Cotton John Farm Program over Television Station KGNC Saturday afternoon, July 26th.

Home Demonstration Agent acted as narrator for the program, and presented each 4-H club girl with an interesting introduction.

The first group of girls presented represented 9 and 10 year old girls.

Karen Gibson was introduced with a tan and red apron. Karen is a member of the Busy Bee 4-H club and is the song leader for the club.

Karen also featured a first year sewing box. Quoting the introductions given by Miss Fain "Susan Holt a 10 year old 4-H club girl proudly wears this pink and white check apron, that she did every stitch on by herself. Susan is the daughter of Mr. and Mrs. Fred Holt of Spearman. The star will twinkle each time they see her in this neatly stitched apron.

Susan Hutchinson chose a pink and white check print for her apron that is finished with a pretty border print. Susan is the daughter of Mr. and Mrs. Craig Hutchinson of Spearman and a member of the Busy Bee 4-H club, and she is a most capable president. Just wish each of you could see her conduct a business meeting, Susan would be a big help in anyone's kitchen.

No one likes to sew better than Wilma Craig who wears this dainty print of lavender and green on a white background that was made into an attractive apron. Mr. and Mrs. Ward Nolder of Gruver are intensely interested in this 4-H girl. Wilma received first place honors in the apron division.

This attractive brunette, Sharon Carter, is right up in fashion with this red and white stripe apron. Food should be at its best if she helps prepare it. Sharon is reporter of the Morse 4-H club and the daughter of Mr. and Mrs. W. P. Carter.

Judy Gillispie is a 9 year old 4-H club girl from Morse, Texas and wears this light green apron with figures. Mr. and Mrs. Jack Gillispie will be right at home any time Judy wants to cook.

Sylvia Parks, daughter of Mr. and Mrs. H. B. Parks of Morse, is proudly wearing her apron of aqua and grey design on white background. Sylvia is the 9 year old member of the Morse club and one of the youngest members.

Second and third year 4-H club girls made skirts and blouses this year. These are just samples of the many that were made in Hansford county.

This mangle toned skirt teams with a cocoa brown blouse for Helen Greever. Helen is a Lone Star 4-H club member and 12 years old. Her blouse is a simple to make sleeveless blouse which compliment her skirt. Helen's parents are Mr. and Mrs. W. R. Greever of Spearman.

Fourth year girls and up made dresses of their own choice, so join us as we see these Hansford county stars revue their new dresses.

The stars are bright as this beautiful rose cotton gabardine is worn by Francis Morris of the Gruver 4-H club. She will enjoy wearing this sheath dress with bolero jacket on cool days, or removing the bolero jacket on the hottest day to show her pretty square neckline. Her accessories of black shoes and bag with gloves to match her dress, and complete her ensemble.

Francis is a Junior Leader in the Gruver 4-H club, and also secretary of her club. Mr. and Mrs. J. R. Morris are Francis' parents.

Karen Crain is not limited to one talent. Not only does she sing, but she sews, and it is no secret that she made this striking ensemble with jacket. Now lets take a look at her smart dress that is in white and lavender stripe cotton with V neckline and straight across the front with small straps across the shoulders and very small pleats make a pretty skirt. Accessories worn are patent shoes and bag. Karen is the daughter of Mr. and Mrs. Orville Crain of Waka.

Anita Holt will make stars sing as she wears this heavenly white embroidered linen sheath. The pattern is a very simple one, but its decorative lines takes care of that situation. This dress has no collar and is sleeveless. Notice the kick pleat in back and self material belt. Accessories include a white bag and shoes. Her parents are Mr. and Mrs. O. C. Holt of Spearman.

This blue flower print on a white background is made by a pattern that is extra flattering to Linda Holt with its empire waistline, surplice bodice, wide pleated skirt and sleeveless shoulder ties. Mr. and Mrs. Nolan Holt are Linda's parents. The Lone Star 4-H club is proud to have Linda as their president.

Judy Stump wears this loosely fitted dress with this big front neckline, which dips to a V in the back and is finished with collar. Judy served as secretary and reporter of the county 4-H council, and is one of the J. R. Stump family. To complete her costume she wears white shoes with a white bag and gloves. There was never a more demontable club reporter than Judy.

This beautiful slub weave cotton and rayon blend material made in a smart dress of the latest fashion for Sandra Stump, and you will agree it is most flattering. Note the back which drops to a chemise line of interest, and the front neckline that is complete with collar and bow. Sandra does most of her sewing and this dress will fit nicely into her wardrobe. Her accessories are black suede shoes and bag, gloves to match her dress and black hat. Mr. and Mrs. J. R. Stump of Waka are her parents. Sandra was selected winner of the 1958 Hansford County dress revue, and she will represent our county at the district dress revue August 1st, in Amarillo.

Eloise Johnson, a Stateline 4-H club girl wears this beautiful cotton print that is gathered above and below the waist with a lined front bodice that buttons up to allow a neckline scoop. The cummerbund is tacked into soft folds over the fitted midriff. A full skirt is most flattering to this tiny waistline. Her parents are Mr. and Mrs. Bill Johnson.

You have seen a sample of our dress revue project for 1958. We think each girl is truly a Hansford County 4-H Star.

## News in Hansford

Records of rainfall for the past 78 years in Hansford County indicate that the drought years of 1951 through 1956 were worse than the notorious dust bowl days of the 1930's. The period from 1931 through 1936 had an average annual rainfall of 16.92 inches, while the period from 1951 thru 1956 only received an annual average of 14.92 inches. Why then were there so many more dust storms during the 1930's than the 1950's? Why was so much more land damaged during the dust bowl? Probably there are several reasons. Better farming equipment, better financial situation. Probably the people's awareness to the dangers of erosion played a big part. Certainly much has been learned about conservation methods in this area in the last 25 or 30 years. Whatever the reasons are the board of supervisors of the Hansford SCD want to commend the people of this area for their progressive attitude and their acceptance for Soil and water conservation practices.

Farmers taking part in the feed wheat part in the feed wheat program may grow up to 30 acres of wheat for feed or other use on the farm without being subject to marketing quotas. In determining future wheat allotments, however such a farm would receive credit only for the farm allotment as production history in 1959.

**Is The Bible Supreme Authority In Religion**

We believe the Bible to be the word of God given to us by inspiration of the Holy Spirit. It is the supreme authority in religion to all who will believe its divine origin. In accepting the Bible as our authority it is impossible for a man or group of men to have any authority except as given them by that Book.

For our age the New Testament, not the old, is the supreme authority in the Christian religion. Should we admit of other authority when there is no room for other authority than the New Testament.

Within the New Testament itself is declared its authority in religion: that it contains all the revelation needed to our salvation: and that it furnishes all necessary things to make us perfect. Consider these teachings from the New Testament itself.

1. All truth is revealed . . . John 14:26 . . . 2. Paul taught the WHOLE council of God. Acts 20:27. 3. We have EVERYTHING pertaining to LIFE & GODLINESS. 4. The FAITH (gospel of salvation) was delivered to the saints. Jude 3:5. We have all that will make us PERFECT, 2 Timothy 3:16. 6. Only one TRUTH (gospel) is allowed according to Paul. Galatians 1:6,7.

What other thing could we wish for or hope to find that would make us any better or nearer our Lord and Savior. Since there is no room for "later day revelations" (later than the days of the Apostles) and no place for the authority of men we need to be very careful how we live in the light of the warnings and teachings of this greatest of all books.

It behoves us to go to this book or rules that we might play the game of life according to the rules that God has written. Should we dare to make our own rules and try to make the Bible conform to them we reject the authority of God. We are thus condemned by that very Book: "let us walk by the same rule" Phillipians 3:16.

DAVID E. PARKER

was mighty hungry. Mr. Day asked the boys if they wanted sompin to eat, and they all allowed they did, but since there was no cooking equipment along, they wondered how they could prepare the plentiful supply of food that was part of the load. Mr. Day stopped at the river and took out a shovel, scrubbed it thoroughly with sand and soap and when the fire burned down to coals he had a flap Jack mix ready for hot cakes. Joe said he made an over-size flap jack and told one of his friends to hand him that plate. The plate was a thoroughly dried out seasoned cow chip. When Day flapped the hot cake onto the plate he informed his friends that they would not be expected to eat the last two cakes. All enjoyed the feed.

**PANHANDLE OUTDOOR LIFE**

To the average person, news of a bumper quail crop wouldn't register much enthusiasm, but to the veterans of the hunt, bits of news relating to the increase in the bird population will be highly esteemed.

This bit of news or, put in another way, this casual remark about what the quail situation might be this fall is passed on to the bird hunters. State Game Warden Waldon Fromme, Matador, said yesterday that he counted exactly 27 covys of birds in a 15 mile track east of Matador. Mr. Fromme also said that he noticed several pairs of quail along the same route. "About 13 or 17 of the covys were blue while the rest were blue." Fromme also said that a majority of the covys appeared very much like they were reaching the mature state. Quail reach the adult appearance in six weeks. Observing 27 covys of birds along a 15 mile ranch road is a whole lot of birds in anybody's part of the country. I haven't seen 27 covys of birds in a single day in many years.

to fill a barrel half full of water. Then add water until the barrel is full, and in so doing the animals could be hauled for days and they would still be lively and in good condition when the pickup truck arrived at some of the western lakes.

Arkansas, Georgia and some of the other southern states are noted for their delicious peaches, but not so the Texas Panhandle. Probably one year out of ten there is a peach crop in this area, but usually this fruit will bloom out during some of our warm early spring days when the temperature is high and then the next day or so the crop will be completely killed by a hard freeze.

Haskell Hall, energetic liquor control board inspector, recently mentioned the secret of how to successfully grow this choice fruit. Mr. Hall said that his father, a native Dallas County farmer and rancher, has done very well with this particular method. The method is simple: Dig a hole about two feet deep around the tree and about four feet in diameter, and then fill the hole with water in the early spring just before a hard freeze. The cold weather will freeze the water into a solid cake of ice. Before the weather warms up there should be haz-

grass or cottonseed hulls stacked around the fruit tree and upon the ice to form a sort of insulation so the ice will not melt until summer is really at hand. The ice will retard the tree so that it will not bloom out until the danger of cold weather has passed, thus assuring a full crop of peaches.

There is one other reason why each home owner can't have all of the choice cherries he desires. Lack of initiative cherries are adapted to a colder climate and will thrive throughout this part of Texas. Four years out of five they will produce. The tree is also excellent for shade.

**Swamps on High Plains**  
Bonne Lake, a mile or so east of Dumas, is usually bone dry but today there were three young lads equipped with motorboat and water skis performing a few monkeyshines as the cars passed on Highway 15. John Eastly, Sheriff of Moore County, said there were three boats on the lake yesterday and that the fellows were "really skinning up a storm." Heavy rains fell last week in this area and filled many of the "buffalo waller" lakes. Ross Turner, Sheriff of Sherman County, said that they received 2.7 inches of rain in Stratford and that to the south rainfall measur-

ed up to 4 inches. To drive would make a stranger think of the swamps in the South, especially when lakes would be observed in the middle of maize fields. If the water lasts until winter we should have good duck and goose shooting, considering the thousands of sections of maize and heira stubble that will be so handy for these migratory fowl.

If the rains do continue, the whole top part of Texas will turn out to be a jungle of tall weeds and grass and also a perfect haven for not only upland game birds such as quail and pheasants but a selected area for mallards, pintails, red-heads, canvas-backs and many other species of ducks.

Mr. and Mrs. C. J. Crawford of Mullin and Mrs. Elmer Shovel of Abilene were guests of Mrs. Crawford's sisters, Mrs. Anna Harris of Morse, Mrs. Ben Jenkins and Mrs. B. C. Holt.

Mrs. Vera B. Anderson, a niece of Coalsonwood, Arizona, was also a guest.

Mr. and Mrs. Ned Turner have been on vacation in Colorado. Their son, Loyall, was left in charge of the farm. Hope you people had a good time. Sure you did.

**Paula Faye Jackson Honored**

Miss Paula Faye Jackson, 714 Lamar, Amarillo, the daughter of Mrs. Albert L. Jackson, Spearman is the bride-elect of Robert John Nelson, son of Mr. and Mrs. George Nelson of Waukegan, Ill.

Announcement and wedding plans were revealed at a tea given recently in the home of Mr. and Mrs. Will D. McLean, 120 N. Avondale, Amarillo. In receiving line were Mrs. Will D. McLean, the honoree, Miss Paula Jackson, and Mrs. Albert L. Jackson, Mrs. Marie Francis assisted in the entertaining of the guest. The bride-elect's chosen color of blue and white were used in the decorative theme. Crystal bowls of white malleable daisies and blue delphiniums were used throughout the entertaining rooms. On the serving table and completely encircled with white daisies, delicate greenery, interwoven with satin ribbons, was an intricately carved creation of spraforn featuring a "barney" with a fringe on top. Inside was a miniature bride and groom. Narrow satin ribbons tied to shoes with the names Paul and "Bob" and a gilted tin can with "October 4" extended from back of carriage to announce the forthcoming nuptials. The crystal and silver service were placed on gold medallions of the outer margin of the table. Mrs. Leland Poling served refreshments and Miss Vicki McLean registered the guests.
