Gruver Hounds Represent New Headache For Spearman

Along with overcrowded schools, overpopulated homes, new housing additions, Spearman Sport lovers now have a real headache with Coaches Chapman and Matthews. Gruver Grey Hounds looking like the team to beat to win the Class A District football honors. Gruver Hounds opened the season last Friday a decided underdog against the well trained and big Panhandle Panthers. Even local Gruverites came prepared to fabricate an explanation of a defeat for the Hounds, and no doubt the Panhandle Fans came over to really enjoy an Opening Victory. This is one of the heaviest maize yields we have ever heard of in this area, and farmers are hoping for an even better maize crop than they had earlier anticipated. The 125 bushels per acre, however, is likely to be above average for the county. The maize was irrigated.

Spearman P. T. A. Will Sponsor Polio Shots

Dear Parents, The Spearman PTA has chosen for their project for the coming year—"Complete Polio Protection for our school children. Numerous volunteers are already working on the project details that such a large project may entail in order to obtain vaccine and necessary equipment so every child in our school may have full protection against polio without cost. Three spaced injections of vaccine are needed for polio immunity. Your child may have all three if needed, or if he or she has had an injection only those needed to complete the series will be given. Tentative plans are to have the units set up in the cafeteria with the local doctors and nurses donating their time and the PTA mothers handling the book work. A record will be filed in the school health office and you will receive a copy for future use. The series are scheduled for the first injections to be given this month, September 19. The second in October or early November and the third in May—this gives full immunity by summer. Boosters will not be given. Many of our mothers are devoting every effort to insure the success of the project and since the record keeping is one of the most important jobs of all.

Mrs. Robert Alexander Is Honored

Mrs. Robert Alexander of Gruver was recently accepted as a life member of the Texas Federation of Music Clubs. The life membership was presented to her by her family. Life membership dues are a hundred dollars. But becoming a life member is not as simple as that. A candidate must have a record of having accomplished outstanding work in the field of music. Mrs. Alexander did just that in promoting music interests and activities among the communities she could reach. A story of her music activities with her picture will appear in September issue of Texas Music News. Mrs. Alexander's life is typical of what a woman can do to promote good music and interest in it because she loves music and knows how to promote it for the good of all. Not many children know what they want to do when they grow up. But Nella Beth O'Brian did. Between rendition of "Old Froggie Went a Courting" and "When the Roll is Called Up Yonder" on her toy piano, she declared she was going to be a pianist some day. The child was so business like about her goal, friends and relatives gave her pennies to further her chosen career. Nella Beth held to her viewpoint so firmly that her father got her a piano when he deemed it right and the proper time for her to begin her lessons. That was a great day for her. Practice was a pleasure. Soon she was playing "Rustic Dances" and "Spring Song". At 16 years of age Nella Beth graduated from Stratford high school, and as much as she wanted to study music, and teach it, her father showed her why it would be best economy to go to college and become a school teacher first. She entered North Texas State Normal at Denton, near the location she made her declaration to teach music. But Nella Beth had her music in her life, so she was soon playing for physical education classes and became a member of the Treble Clef Club. Later she transferred to West Texas State at Canyon where she managed time to play for folk dancing classes and to sing with the College Chorus. Nella Beth graduated and began teaching school. At last she was teaching piano, too. Some of her pupils took lessons. Wherever she taught she always had piano pupils on the side. In 1919 Nella Beth married Robert Alexander and they moved to the Oslo community where she was invited to be assistant organist at the church. She continued to teach rural schools, near the ranch with a few piano pupils in tow. One fine day Nella Beth dreamed up the idea for a "country orchestra" for the young people. She saw where there would be time to practice on Sunday afternoons if they could find a band teacher. She found Fred Kruger Guyton band teacher available. He took a dim view of the situation at first. Twenty miles of dirt road lay between his home base and the Oslo school. There was not much money to be promised, but every family was willing for the teacher to spend the night with the folk and have a good visit and plenty of good food. Mr. Kruger was willing to try. He was well pleased with the talent he found and perfected an orchestra to the extent that he presented them at the Guyton fair and other programs. When the orchestra was no more, Nella Beth went to work organizing a singing convention, that met one Sunday each month in different communities. After Sunday school and dinner on the grounds they sang all afternoon. Singing brought togetherness at Lakeside, Grand Plains, McBride and Kimbell communities and the people had wonderful times singing gospel songs. In 1929 the Alexander's had a little son take his place in the family which increased their happiness but decreased Nella Beth's teaching time. While she was busy with the baby, she was also busy planning a music club for Gruver. Seven years later she organized the club in 1936. The organization later became a member of the state music club federation. That done, she was well and good so far. But Nella Beth never wanted to see music appreciation become static. There was an open field for promoting more music in schools. So she started to work on the idea. It was hard to get the ground work done. But she never gave up the idea. In 1952 the Gruver Harmony Music Club was organized and Nella Beth was elected as its installing officer. She has worked in the music club 22 years, and is the chair-

Thurs. Fast and Prayer Service	9:00 a. m. to 3:00 p. m.
Thursday Evening Prayer Meeting	7:30 p. m.

The story is told of a young boy of five who on bending low and looking into a well was surprised to find a face looking at him. He scowled at it, and it scowled back at him. He stuck out his tongue. The face in the well did the same.

Then he called it harsh names, and to his surprise the voice in the well sent them back at him with redoubled volume. Angry, he hurried to his mother to relate the incident.

"Go," said the mother, "smile down at the face in the well and say nice things to it and see what happens."

The boy did so. To his astonishment the smile he now gave the boy in the well came back to him, widened and enlarged. The gracious words he now uttered came back to him with increased emphasis.

So it is with life. What we give to it, whether good or bad, returns to us with generous dividends.

"For life is the mirror of king and slave, 'Tis just what you are and do.

Then give to the world the best you have And the best will come back to you."

Maybe you would like to begin a recipe file today and include these favorite recipes of Hansford County Homemakers. If you have a favorite recipe, will you please share it with us and send it to the Agent. We thank Mrs. Roy Jones, Spearman, for her Ice Cream recipe. It is the best I've ever eaten.

ICE CREAM

6 whole eggs
1 1/4 cups sugar
1 pkg. Junket mix, dissolved in 1/2 pt. cream (1 cup)
1 can Eagle Brand Milk (condensed)
1 1/2 T. vanilla
Milk to fill freezer
Beat whites of eggs until stiff. Beat eggs yolks slightly and add sugar, then add eggs whites and mix.
Then dissolve 1 pkg. powdered junket mix in 1 cup cream, plus 1 cup milk.
Add Eagle Brand milk. Add this mixture to egg mixture. Add 1 1/2 T. Vanilla.
Finish filling 1 gallon freezer with whole milk. Good Luck! !

This'N That Around Gruver

The whole community is shocked and saddened at the passing of Arthur Bernstein. Art was one of the real pioneers having spent most of his life in this county. He came here as a lad with his father 57 years ago. Our deepest sympathy is extended his wife and children.

We are sorry to report that Mrs. A. L. Thoreson is in an Amarillo hospital. We do not know the nature of her illness at this writing.

We are happy to report that Mrs. Minda Etling is back at home. She spent many weeks in the Sanford hospital in Perryton. When she went to the hospital she expected to be there for a couple of days. But she had a bad fall and fractured her shoulder, thus keeping her there all these weeks.

Mrs. Hugh Fraser has a sister who is very ill in a hospital in Jacksonville, Texas. She is older than Mrs. Fraser and blind and crippled. The sad part is that Mrs. Fraser herself is unable physically to visit her sister.

Among the new citizens of Gruver is Mrs. Howard Dent and her children. She is a sister of Mrs. J. T. Hoy. Her husband is a government employee in Lebanon. He felt that his family would be safer here, so sent them home. We welcome them.

Rev. and Mrs. A. G. Purvis were called away suddenly last week. Mrs. Purvis's father passed away suddenly. We extend our sympathy to Mrs. Purvis and her

family.
Mrs. Coy Holt, and the Holt boys, Mr. and Mrs. Harley Alexander, and Mr. and Mrs. Robert Alexander all will leave here Friday of this week for their annual hunt. They will be joined by General Van Fleet, as they have been for several years. They will hunt together.

Fire broke out in the Rock Island stock pens Monday evening about 7:00 p. m. The Gruver fire department responded to the call, and quickly had the fire under control. Damage to the pens was slight. The F. D. big trouble was with a pile of crossties. They had to be put out one by one.

We wonder what Billy Miller thinks of the Gruver Football team now. I don't think Billy gave our boys much of a chance against Panhandle. We did however win by a fair margin. Probably a lot of people were surprised.

Word has come that Jack and Blanch Taber are having a fine time on their vacation. They went from here to Laramie. Next we heard they were in Yellowstone. From there we don't know where they will go.

We were glad to see Mr. and Mrs. Lloyd Frier again. They were here of course to attend the funeral services for Art Bernstein. They make their home in Vyborg, S. D.

We also got to see Mr. Al Stern, whose wife is the former Vera Bernstein. They make their home in Tucson, Arizona. It is sad to meet old friends and make new ones under sad circumstances.

Ward and Elizabeth Spivey are moving into town. O. V. and Mrs. Walker, Jr. are moving out to their place on the farm.

Music Club Met Wednesday Morning

Music club met in called session in the Steak House dining room at ten o'clock Wednesday. Purpose of the meeting was to pass year books out and make plans for the coming year's activities. Coffee and doughnuts were enjoyed and the President, Mrs. J. D. Wilbanks made a number of announcements.

Present were members: Mesdames: J. T. McWhirter, Glen Chambers, Billy Miller, Rus Sanders, Tom Sutton, Perrin Lyon, J. L. Brock Chalmers Porter, Russell Townsend, J. D. Wilbanks and Joel Lee Lackey.

Mrs. W. A. Schubert and her son John Schubert returned Tuesday from a few days trip through Cimmaron Canyon, New Mexico. They report enjoyable weather and a pleasant sight seeing trip.

Mrs. Melba Razor visited Monday with Mrs. Clifford Stedje.

Miss Kathryn Koutson is home from summer school and will return to Parkland, Washington to school in a few weeks.

Farmer Wills Amarillo Police

Hale Center, Tex., Man Reports—
"\$7.34 invested in ammonia netted \$40.56 in wheat yield."

W. H. Jackson, successful High Plains farmer, says 66 ammonia proved to me it can help me make more money when the work is done. The irrigated wheat I fertilized with Phillips 66 Ammonia gave me a 25 bushel-per-acre increase in yield. This netted me \$40.56 per acre.

Other successful Southwestern farmers use Phillips 66 ammonia to give them higher grain yields... and more grazing. The 82% nitrogen in Phillips 66 Ammonia gives young wheat a fast start, supplies protein-rich forage that puts on more beef at less cost.

Many of these farmers plow down Phillips 66 ammonia when the work is done. It decomposes crop residue, to provide extra plant food for the soil more productive. Remember, Phillips 66 gives you more nitrogen per dollar than any other fertilizer—a full 82%.
