"Merlin. The Man of 1000 Mysteries will be brought to Spearman by the Spearman Lions club, January 13 and 14 at 8 p. m. in the High School Auditorium. Awe, skepticism, and bewilderment are just some of the thrills in store for those who attend the performance.

The Merlin Show is a colorful, fast-paced performance, using more than a ton of special equipment & presented by a top-notch entertainer who has amused and befuddled audiences for years by, among other things, reading the minds of people right in their own seats in the audience. If you can concentrate, Merlin claims to be able to read your mind and hypnotize you. It is said that he has often hypnotized individuals with a single glance.

Merlin has made a special study of Oriental Mysteries. The Orient has always been considered the home of the mysterious, the unknown and the uncanny. What is the secret of the fabled Hindu Rope Trick? For more than 400 years strange tales have been told of the mysterious occurrences from India in which a Hindu Mystic takes a long rope, coils it, and sets it on the ground. He ties a knot in one end of the rope. Slowly and mysteriously, the knotted end begins to ascend upward, until it is perhaps 30 feet in the air; the lower end still touching the ground. Then a small boy climbs the rope to the top and disappears. The rope falls limply to the ground. What is the strange secret of this and other mysteries of the Orient? How is it possible for one solid object to pass through another solid object? What is the secret of levitation? Of lip-reading and mind-reading? Many of these secrets have been carefully guarded for hundreds of years. All these and many more are mysteries at which Merlin is a past-master.

Curtain time for Merlin, is 8:00 p. m. in the High School Auditorium, January 13 and 14. Adult advanced tickets are now being sold at \$1.00 each. Adult tickets will be \$1.25 at the door. Children's tickets will be sold at the door, 12 and under 50c students over 12, 75c.

**Sure.**

You might find another car as new as the Delta 88.

**But not this year.**

This is Oldsmobile's Delta 88. It's unique. Unique because it's new. New clear through.

Styling is new. So new, not a line nor a highlight was borrowed from last year.

Power plant is new. Super Rocket V-8 is the biggest in Olds history: 425-cubic-inches big, up to 370-horses strong.

Transmission is new, too. Turbo Hydra-Matic, available on any Delta 88, provides up to 46% more torque from a standing start, superlative performance at all speeds.

New styling. New engine. New transmission. This year, only Delta 88 lets you have all three, all new. Other cars have a lot of catching up to do.
