Check with American Agriculture office in Spearman... for hunting information!

DECEMBER BIRD-Pheasant season opens December 8 and Hansford County sportsmen can hardly wait. Good spring and summer rains have enhanced bird hatching and lack of flooding since has increased the survival rate-which all makes for a super season. This ring-necked pheasant has already spotted the hunter and is preparing to do his trick of disappearing for annual pheasant season. With Saturday being the opening day, daily bag limit through January is the same as 1978 with a two-cock limit with four cocks in possession.

4 cars hit cattle North of Gruver

Sheriff R.L. McFarlin reports a busy week-end for the local Sheriff's dept. Back in August, Carl Archer reported a theft of saddles from the Archer Ranch North of Gruver, known as the Brooks place. Saddles and equipment were stolen at the time. After a timely investigation the local Sheriff's dept reports that Cliff Giles, was arrested in Aztec, N. M. and charged with the theft at the Archer Ranch. He will be returned here to stand trial for alleged theft, Leonard Short and Monica Short who were under a grand jury indictment for the theft by check were arrested on grand jury indictments in Howard, Colorado and will be returned to stand trial. They will be charged for alleged theft by deception in Gruver, Texas. Their bond has been set at 5,000.00 each. John Michael Evans and Lin Mark Crooks who were residing in the Hansford County jail under 5 yr. sentences, had 3 more indictments added to their list this week. Each was charged with indictments for auto theft, and 1 for jail escape. The two knocked a hole in the side of the local jail just before Thanksgiving and made their escape in a pickup owned by a Spearman man and a truck owned by a Gruver man. They have been returned to the jail here. Two men from Gruver, Texas and two men from Guymon, Oklahoma, had problems with cattle on the highway Saturday evening at 7 p. m. The four cars hit cattle on highway 136, 9.8 miles North of Gruver Saturday evening. Miraculously none of the men were hurt. Elmo McClellan, Jr., of Gruver plowed into the cattle about the same time Norman Edens of Gruver did. Each man was driving towards the cattle on the highway and the lights blinded them and they plowed into the cattle. Following these two collisions, two more men following did the same thing in their cars. They were James Spurgeon of Guymon, and Ralph Hale of Guymon. The last two cars, driven by Spurgeon and Hale plowed into the cattle killed on the highway by the first two cars. The cattle belonged to Leon Hobbs. We do not know how many cattle were killed for sure.

Bank Displaying Western Paintings

The First State Bank of Spearman cordially invites you to come in and view the western art paintings of Jack Sorenson, famed western painter, now hanging in the bank during this Christmas holiday season.

The paintings will be on display all through December.

Sorenson is a very gifted young man who has already enjoyed national acclaim, has refined his technique and perfected his skill to a new high and is producing truly amazing paintings with a sensitivity to color, light and space which is refreshing and enriching.

Sorenson's paintings have recently been added to the permanent collection of the Santa Fe Railroad in Chicago, Illinois, and the historic Harmon Collection in Denver, Colo.

Dord Fitz, owner and director of the Fitz Gallery, Amarillo said of Sorenson "This young man is destined to be one of the greatest western painters of our time."

JACK SORENSON

There Are Good People In This World!!

There are some good honest people left in the world, and Mrs. Wynne Payne of Spearman can testify to this.

Her son and his wife, Mike and Vicki Stewart presented her with her first grandson Monday, Nov. 26 and she went to Amarillo last Friday to meet Vicki's mother at the airport. Evidently she dropped her billfold at the airport and did not discover it was missing until Saturday morning and she was frantically looking for addresses to notify the companies when she received a phone call from

Stephen Holt of Amarillo who told her that he had her billfold.

Mrs. Payne was so delighted with this news that she told him to keep the money (she had about \$65.00) and send the billfold to her C.O.D. He refused to keep the money, taking out enough only for the postage required and she received her billfold Tuesday morning.

Mrs. Payne said she asked him how old he was when he called her and he told her he was 30.

Christmas Beef Giveaway

This beautiful new office building, located on main street, downtown Spearman, will be ready for occupancy by the first of the year, according to the contractors. The new building will have 20 offices, and they will all be used by the new owner, Carl M. Archer, of Spearman. The new office building will have a vault, and a wood-burning fire place in Mr. Archer's office. It is a great asset to the community and we congratulate Mr Archer for his faith in Spearman and the community. Besides this building, Mr. Archer has just finished a large grain storage facility at Speartex Grain in Spearman!

COLLECTOR OF THE MONTH

Bonnie Ball's exquisite bell collection will be on display at the Hansford County Library through December. The bell has long been one of the most beautiful and joyful symbols of the Christmas season, and Bonnie's bells are no exception. The bells on display are in an array of colors and designs. There are red, blue, green, and purple bells, carnival glass, custard and cameo bells, lead crystal and hand painted bells. The designs represented include the threaded diamond pattern, lily-of-the-valley, daisy and but-

ton, and Faberge'. There are Christmas bells, Madonna bells, Bi-Centennial and Norman Rockwell bells, craftsmen bells, and bells in the shape of figurines. There is a carved olive wood bell from Bethlehem and a hand painted bell from Israel.

Bonnie and her husband Billy have lived in Spearman for 10 years, coming here from Otton, Texas. Billy is a farmer in the Spearman area. They have 3 children and one grandson.

Five Youth To Enter District Show

Five Hansford County youth will match their foods-and-nutrition "knowhow" against that of youth from surrounding counties at the District 4-H Food Show, December 8 in Amarillo.

Cometing for a senior-division top place will be Will Jarvis of Spearman, breads and desserts.

In the junior division will be Teresa Tindell of Spearman, main dish; Kerri Holt of Spearman, side dish.

Also, Kathy Poole of Morse, breads and desserts; and Kathy Gumfory of Gruver, snacks and beverages.

It contestants earned the right to enter the district contest when they won top honors in county competition.

4-H Food Shows are sponsored by the Texas Agricultural Extension Service, The Texas A&M University System, and the Morrison Milling Company of Denton, Texas.

TURKEYWALK WINNERS-shown above are Travis and Clint Patterson, sons of Mr. and Mrs. Pat Patterson of Spearman, who won \$100 for collecting the most money (\$590.00) in their participation in the American Heart Association sponsored Turkeywalk held recently. The boys rode bicycles in the competition.

Farm Women Survey Planned

WASHINGTON--A nationwide survey and a study of farm women and their role in agriculture were announced today by Secretary of Agriculture Bob Bergland. The survey and the study are parts of the U.S. Department of Agriculture's Farm Women's Project, established recently to look into the status of farm women in relation to USDA programs, the program management procedures and job structure.

"The intent of the survey is to provide a record of farm women's experience with USDA services and farm programs and their perceptions of the department," the Secretary said. "It will also provide us with a knowledge of women's roles in making farm management decisions. This knowledge will help the department better serve the needs of farm women who can and do use USDA

programs, and it will help identify opportunities where women can participate in USDA farm programs at management and advisory levels."

The survey will be conducted next summer by the National Opinion Research Center of Chicago, under a cooperative agreement with USDA. Total cost of the survey will be \$305,000, of which USDA's share is \$280,000.

The Farm Women's Project will also report on a study of the legal rights of farm women in relation to USDA programs and services.

USDA programs, services, and funds for which farm women are eligible will be identified. The study will also determine the current rate of participation by women in USDA farm programs; USDA jobs for which farm women qualify; and the present job

participation by farm women in such positions; and the involvement of farm women in farm program management by USDA agencies responsible for administering farm policies.

Carol Forbes, who is directing the project, said the Farm Women's Project is soliciting ideas and suggestions from farm women in regard to both the survey and the study. Comments and requests for information may be made to: Farm Women's Project, 1548 South Building, U. S. Department of Agriculture, Washington, D.C. 20250. The telephone number is (202)447-2582.

Oldest known bale is on display

COLLEGE STATION—An ancient bale of Mississippi cotton, the oldest bale known to exist, is now on permanent display at Texas A&M University. The old cotton raised by slave labor in 1859 was originally baled by hand with heavy iron bands. In 1955 it was re-pressed and enclosed in a glass case as a museum piece. Cotton experts at Texas A&M say the old fiber is as strong as when it was pressed in the 1860s. Cotton is very durable when baled and will remain in top condition for a long time, they note.

The relic was exhibited at the St. Louis World's Fair in 1904 and in the New Orleans Cotton Exchange in 1945. Prior to the World's Fair, the tattered bale was on exhibit at Memphis in 1890 and in Chicago in 1893.

Crawfish crops are a good investment

COLLEGE STATION — Jambalaya and crawfish pie will be common dishes in Texas kitchens and restaurants once producers get into gear and a few more Lone Star palates sample this cross between lobster and shrimp, says Dr. Jim Davis.

Davis, an extension fisheries specialist at Texas A&M University, believes Texas will be the next great producer of crawfish in the United States, second only to the crustacean's native stomping grounds, Louisiana.

Centered in the southeastern part of Texas are some of the world's best breeding grounds for crawfish farming, Davis says. The reason: converted rice fields are magnificent places to farm crawfish.

PIONEER Harvest Hotline

John Maxson reports
Hansford Co. Results

Again this year Pioneer brand seeds are delivering outstanding yields in field after field. But we know it takes more than one year's performance to tell the whole story. Look at these results, then ask your Pioneer dealer to show you records from several years. You'll see for yourself why Pioneer brand seeds have become famous for their consistency.

This tall, semi-upright leafed hybrid has demonstrated better standability than most popular competitive upright leafed hybrids. And that made an important difference to Hansford County farmers this year. V. B. Morris of Gruver reported a yield of 158.7 bu./A. with 3360 in a comparison field where lodging was a problem with other hybrids in the test. 3360 has outstanding head smut tolerance, excellent MDMV tolerance and good early season vigor to get off to a good start. In 27 comparisons on the Northern High Plains, 3360 averaged 8.7 bu./A. more than competitive hybrids. And it offers the same kind of outstanding performance potential again next year.

One of the most popular hybrids on the Northern High Plains, 3184 proved its reputation in 32 comparisons again this year. It averaged 14.9 bu./A. more than competitive hybrids and demonstrated the consistency of performance that's made it so popular. Strong stalks and roots provide excellent standability, and it holds ears well to minimize field losses.

In nearby Sherman County, Joe Morris recorded a yield of 162.9 bu./A. with this outstanding hybrid. Although it's relatively new to many High Plains farmers, 3183 is an established favorite across the U.S. And this year's averages prove why. In 34 comparisons it yielded 12 bu./A. more than competitive hybrids. Excellent drought tolerance and very good seedling vigor give it extra appeal in this area, too.

Peggy's Pointers

Peggy Winegarner Co. Extension Agent (H.E.) Accessories, fabrics, notions and sewing tools make great Christmas gifts or stocking stuffers.

ACCESSORIES
Belts are a fashion must this fall and range from wide to skinny. Choose from fabric belts in sashes, cummerbunds, obis or cinches.

Or, select thin belts in leather or leather-like strips, braided ropes, or shiny silver or gold metals.

When emphasis on the leg, choose opaque or textured hosiery in fashion colors or skin tones if unsure of colors.

If the person on your list is a bit daring, select knitted leggings to team with boots or pumps for a warm winter.

Jewelry is always a popular gift. Choose jeweled pins, clips or brooches, bead necklaces or pearl chokers and ropes.

Or, select big geometric earrings and bold colored bangle bracelets.

Gold or silver chains, pins or earrings are classic and always appreciated.

Hair ornaments are fun and include feathers, combs, jeweled or plain picks, clips and bows.

Hats may be just the choice for your favorite female. Popular styles include the pillbox, brim, fedora or cloche.

FABRICS, NOTIONS, TOOLS
For the homesewers on your list, give yardage of fabric teamed with notions and a pattern.

Other appreciated items include a cutting board, scissors, shears, pinking shears, thread clippers, a needle board, a sewing organizer caddy, fashion or French rulers, a wall thread holder, a stem iron and/or iron cover to prevent shine when pressing, and pressing hams, rollers or boards.

STOCKING STUFFERS

For stocking stuffers, choose an assortment of thread, needles, elastic, zippers, buttons, buckles and hem, bias or twill tape.

Other handy items include folding purse scissors, a tape measure with metric measurements, a knit picker to remove picks or pulls in knits, a needle threader, making pencils and personalized embroidery name patches to sew into home-sewn garments.

Also, a small sewing kit is handy for travelers.

SEWING HOLIDAY FABRICS
Holiday season is here and sparkle is the fashion. Look for metallic and sequined fabrics everywhere.

When sewing with metallic or sequined fabric, select simple patterns without gathers or buttonholes. This fabric has a nap, so buy fabric according.

When pinning fabric, insert pins under sequins, not through them. Use tailor tacks for making.

Use shears that are well sharpened because these fabrics will definitely dull blades and may eventually ruin the shears.

Make all fitting alterations before stitching. Ripped seams will leave broken metallic disks or a permanent line of stitching holes. Use a fine needle and change often because of dulling.

As sequins break in a seam, pull off and attach new sequins.

For cleaning and pressing, read the recommendations on the end of the fabric bolt. Most fabrics must be dry-cleaned.

Press fabric on the wrong side with a dry iron at a low temperature setting.

To help prevent flattening, cover the ironing board with a terry towel.

Always test a scrap of fabric to make sure the steam will not discolor or melt the metallic.

Members of the Christian Women's Fellowship of the First Christian Church held their annual bazaar Dec. 1 at the church.

A spokesman for the bazaar said that they opened at 10 a.m. and by 11 a.m. were almost sold out and that the bazaar was a huge success.

The women have been busy over the past few months making handcrafted items for the bazaar, which also featured baked goods.

The world's largest Christmas wrapping, 42 feet long and seven feet in diameter, was constructed as a showroom display at a garage in Essex, England, according to the Guinness Book of Records. It took two weeks to build and concealed a Ford Escort car.

Ministerial Alliance To Meet

Spearman Ministerial Alliance met on Tuesday, December 6 at 9:30 a.m. at Faith Lutheran Church. Refreshments of coffee cake, apple juice, and coffee were served by Intern Jim Berg. The meeting was called to order by the president David Nuckles and a beautiful devotional was given by Carter McKemy.

In the absence of the secretary-treasurer, Frank Oglesby, there were no minutes to read and no treasurer's report.

It was decided to have the traditional ministers and wives Christmas party on the eleventh day of Christmas rather than before Christmas. The Christmas party will be held on Friday, January 4 at 7:00 p.m. in the Garden room of the Cattleman's Restaurant.

Because the regular meeting date in January would be January 1 and everyone would be watching parades and football games on TV, the date was changed to Tuesday, January 8 at 9:30 a.m. at the First Presbyterian Church. Tony Gonzales will lead devotions.

David Nuckles invited everyone to view a film, "In Remembrance of Me" concerning the observance of the Lord's Suppers, on Sunday, December 9 at 7:00 p.m. at the Assembly of God.

Members present were Jim Berg, Ed Freeman, Tony Gonzales, Carter McKemy, David Nuckles, David Stauffer, and Don Wirsdorfer.

On Our 62nd
CHRISTMAS Holiday Season

We are proud to present the
Western Art
OF JACK SORENSON,
AMARILLO, TEXAS.
Now On Display

Christmas 1979

You are invited to stop in at the bank, and view this beautiful Western Art, which will be on display through the month of December.

JACK SORENSON

This very gifted young man who has already enjoyed national acclaim, has refined his technique and perfected his skill to a new high and is producing truly amazing paintings with a sensitivity to color, light and space which is refreshing and enriching. Using a very limited palette of black, brown, yellow and white, Sorenson captures the mountains and the plains, hot and cold, day and night through the four seasons. "This young man is destined to be one of the greatest western painters of our time." - Dorel Fitz, owner and director of the Fitz Gallery, Amarillo, Texas. "A hard working artist who lives what he paints." - Kenneth Smith of Old Town Art Gallery, Irving, Texas. Sorenson paintings have recently been added to the permanent collection of the Santa Fe Railroad in Chicago, Illinois, and the historic Hermon Collection in Denver, Colorado.

**Letter To
The Editor**

Dear Billy,
Thank you for the free publicity you so freely gave for the Fruitcake Reve. You and your employees are so greatly appreciated by me for your contributions to our community. Many times I have asked for your help and you always give it with a smile.

Thank you again,
Frances Loftin

Dear Mr. Miller:

In 1961 state government turned to the sales tax as a means of getting out of the property tax business.

The tax has proven to be a strong backbone for state government's financial operations. It can continue to be our strong suit--so long as we don't abandon the state's right and ability to turn to it when needed.

But we will abandon that right and that ability if we let the cities, the schools and the counties saddle the sales tax with every increase and every new sales tax proposal they are making.

As Mike Kingston said in the Dallas Morning News, we would be facing the highest sales tax in the nation. I am enclosing a copy of Mr. Kingston's article.

Even if you ignore the schools and the counties, a city sales tax of three percent as proposed by the Texas Municipal League (along with the state's four and the transit authorities' one) would put us at eight percent--a number matched only by that financial genius New York City.

At that rate we lose forever the ability of the state to turn again to the sales tax, and we lose the ability of Texas business to compete with our neighboring states, the rest of the Sunbelt and all other major industrial states--all of whom have lower sales taxes. Should that come about, there is no doubt that we would ultimately be looking at a state income tax. It has already happened in 45 other states.

Our neighbor Louisiana is a good example. Louisiana's local governments depend on their three percent sales tax for 42 percent of their local tax income. By comparison, Texas cities get 8.8 per cent of their local tax income from the sales tax. Hand-in-hand, the state of Louisiana has an income tax and leans on it for 19 percent of the state's tax income.

But most of all, I can't believe the taxpayers of Texas are willing to take on such a drastic increase in the sales tax. Business pays some 58 percent of all sales tax and I don't believe the business community wants such a tremendous increase.

And I certainly don't believe that 350,000 people who collect the sales tax from their customers want any more responsibility in this area for the meager one percent handling fee they get.

The state can be a helpmate to the cities, but it can't be everyone's Sugar Daddy with the sales tax. There are other options open to the cities, hard though the decisions may be.

The sales tax may look like an easy way out, but it is a shortsighted solution. We would be trading short-term benefit for long-term damage in a state throttled with an income tax and unable to compete in the national marketplace.

Sincerely,
BOB BULLOCK
Comptroller of Public Accounts.

Collect Soil Samples Now

Fall and winter are good times for farmers and ranchers to have soil tested, says Layton Barton, County Agent with the Texas Agricultural Extension Service, Texas A&M University System.

At present, Extension Service laboratories are processing soil samples as soon as they arrive, and reports are mailed within five to seven days.

Use of a new computer program has helped speed up reporting. However, waiting until near planting time to have soil tested can result in not having results when they are most useful, cautions Barton.

In addition to getting a prompt reply from the laboratory, sampling well in advance of planting allows time to obtain needed fertilizers.

In many instances, wet soil during winter may hamper collection, so Barton advises fall sampling. Since wet soil adds to shipping costs, samples should be air-dried for a day or two. They should not be heated, however, since heating some soils to high temperatures fixes potassium so that it cannot be tested by normal laboratory procedures.

Pint boxes, mailing cartons, history sheets and instructions for collecting and mailing samples are available from the County Extension office. Study sampling instructions and follow them as closely as possible, advises Barton.

To get reliable information from a soil test, the sample must be as nearly representative of soil in the field as possible. For a representative sample, make a composite by taking a core or slice of soil from 10 to 15 spots in fields not larger than 40 acres. Letting one sample represent fields as large as 100 to 200 acres only give general information.

For specific information the sampling unit should be uniform. The exact size will depend

on a number of factors, including soil variation. To sample soil property, divide the field or farm according to the type of soil as well as past and future cropping practices, suggests Barton.

To enough time to collect a good sample and fill out the information sheet as completely as possible. Contact the county Extension office for details on how soil tests can supply information that will help you make greater profits from fertilizer use.

Carter To Visit Texas

President Jimmy Carter will visit Texas Saturday Dec. 8 as part of his campaign kickoff tour.

The President will be in Austin for two fundraising events as well as a series of meetings with elected democratic officeholders.

A host committee of prominent Democrats and elected officials includes Lt. Gov. Hobby, Austin businessman Leberman, Texas State House Speaker Billy Clayton, Agriculture Commissioner Reagan Brown, Land Commissioner Bob Armstrong, State Treasurer Warren G. Harding, former Atty. Gen. John Hill, National Democratic Committeeman Jess Hav, Texas Democratic

Chairman Billy Goldberg, and former Texas Democratic Chairman Calvin Guest.

The events will be a brunch at the Driskill Hotel and a reception in Austin's Municipal Auditorium.

Leberman said, "We're encouraging Texas Democrats to unite behind President Carter. Based on the vital issues which affect our state such as energy, federal spending and economic policy, it is clear that the President represents the best available option for Texas Democrats."

Tickets for the Austin events may be purchased by calling the Carter-Mondale Campaign office in Austin at 512-477-3562.

Agricultural News

Layton Barton Co. Extension Agent (Agri.) - The farmer's increasing concern over the nation's energy supply will be approached from two directions—as a liability and as a potential asset—during the Energy for Agriculture Conference to be held Tuesday, Dec. 11, in Amarillo.

Finding alternative fuels for agricultural use and using agricultural products as sources of energy will be among the topics of the conference which begins at 8:30 a.m. It will be held at the Texas A&M University Agricultural Research and Extension Center, 6500 Amarillo Blvd. West. The conference is being sponsored by the Panhandle Economic Program and the Texas Agricultural Extension Service, said Paul Gross, district Extension agent.

The current energy situation will be reviewed by Dr. Otto Doering, agricultural economist at Purdue University, Lafayette, Ind. Alternative fuels for agri-

culture will be discussed by Dr. Spencer Baen of the Center for Energy and Mineral Resources at Texas A&M University, College Station.

Legislators from two states will discuss energy legislation and opportunities. Kansas State Rep. Dean Shelar, of Minneola, will explore gasohol from the standpoint of fuel and as a cash crop. Texas State Sen. Bob Price of Pampa will report on energy legislation in the Lone Star State.

After lunch, directors of the Northwest Texas Grain Producers Cooperative in Dallam will discuss plans for alcohol production. Crops which can be used for biomass energy production will be discussed by Dr. Frank Petr (cq), Extension area agronomist at Amarillo.

Prospects for marketing crops for use in producing biomass energy will be explored by Dr. William E. Black, Extension agricultural economist in marketing and policy at Texas A&M College Station.

Gross said persons attending the conference will have oppor-

tunities to question the speakers. County Extension Agents Vernon Cook of Roberts County and Kenneth Holloway of Moore County will chair the morning and afternoon sessions, respectively. The program will adjourn at 4 p.m.

REED THEM THEIR RIGHTS... Jerry Reed co-stars as a tough, imaginative young cop — who helps devise a plan to trap Miami's criminals with the evidence needed for conviction — in "Hot Stuff," the new Columbia Pictures comedy opening Dec. 5 at the LYRIC Theatre.

Fruitcake Review

The Fruitcake Review which was presented by local talent Friday and Saturday nights in the Spearman High School Auditorium was a big success.

A good crowd was in attendance for both performances. The show was co-sponsored by the Spearman Chamber of Commerce and the YMCA.

Everyone enjoyed the show which was a highlight of the holiday season for local residents.

Mary Lou Wyson, manager of the Chamber of Commerce, reported Tuesday that they had cleared \$4200 in their money making project.

There were 92 people performing in the show with about 150 people involved, including committees, ushers, stage crew and all that is necessary to put on such a performance.

The Chamber will use their portion of the funds to print a brochure on Spearman.
