GENERAL VIEW OF STORM WRECKAGE—(Above) Parts of seven houses, demolished by a tornado which struck Palestine, Tex., the night of Jan. 4, are scattered as far as the eye can see. Those left homeless by the storm search for personal effects. At the right H. M. Carpenter, 80, standing in what formerly was the bed room of his home near the spot where he was when the tornado struck. He suffered a slight head injury, and his son, Myron, also was injured slightly. (AP Photo).

China Peace Anticipated From Meeting

CHUNGKING, Jan. 7. (AP)—Gen. George C. Marshall met today with government and Communist peace negotiators and at the end of the first historic session declared that "we have made progress." President Truman's special envoy said the conference would be resumed tomorrow. Marshall met for about three hours with Gen. Chou En-Lai, head of the delegation of the Communists here to talk peace, and Gen. Chang Chun, representing the Chinese government. Both Chang and Chou agreed with Marshall that progress had been made. Earlier Chou had predicted that a truce-halting the spotted fighting in China's civil turmoil would be made effective before Thursday, when China's civil turmoil would be made effective before Thursday, when China's civil turmoil would be made effective before Thursday...

Red Cross Team Aiding Tornado Homeless, Hurt

NAOOGDOCHES, Jan. 7. (AP)—A Red Cross disaster team from St. Louis joined local officials and relief agencies today in caring for the 500 families made homeless and more than 800 persons injured by the tornadoes which tore across five East Texas counties Friday night. Against the backdrop of bomb-scarred London, the General Assembly of the United Nations will convene for its first meeting Thursday. Just how far America, Britain and Canada are willing to go in disclosing information about the atom is to be discussed thoroughly by the General Assembly. The issue of safeguarding American atom secrets may force a Big

UNO To Discuss Atomic Control

LONDON, Jan. 7. (AP)—With the issue of the atomic bomb uppermost in their minds, delegates of 51 members of the United Nations will set out this week to achieve the hope and dream of mankind—lasting peace. Against the backdrop of bomb-scarred London, the General Assembly of the United Nations will convene for its first meeting Thursday. Just how far America, Britain and Canada are willing to go in disclosing information about the atom is to be discussed thoroughly by the General Assembly. The issue of safeguarding American atom secrets may force a Big

County E Bond Sales Record Praiseworthy

Whether Howard county finished among the top 10 counties of the state was not known here Monday, but its record in the Victory Loan finale was nothing of which to be ashamed. Figures released by County Bond Chairman Ira Thurman show an official credit of \$504,407.50 in E bond sales against a quota of \$330,000, or a per centage of 152.7. The over-all total was \$1,329,634 against a quota of \$1,020,000 or 130 per cent. This would give the county an aggregate of \$14,491,738 in over-all non-bank bond sales for the entire length of the government's war financing campaign—July 1941 to Dec. 31, 1945. Final report from county officials showed \$15,207.25 in E bond sales during the last week, according to Ted O. Groebel, Victory Loan chairman. Howard county surpassed its quota on Dec. 6 for E bond sales when the total amount reached \$330,823.75 and the overall figure went to \$1,054,442.

Chicago Child Said Kidnaped; \$20,000 Asked

CHICAGO, Jan. 7. (AP)—Police Inspector Edward Daley reported today that Susan Degnan, 5, daughter of an executive of the metropolitan OPA, had been kidnaped and that \$20,000 in ransom had been demanded. The girl's father, James Degnan, summoned police when he found the girl's bed empty this morning. A note asking for the ransom was found in the room of the North Side apartment they share with another family, and a seven-foot ladder was found leaning against the window sill. Another daughter, aged 10, was found asleep in another room. A negro cook who has a room in the apartment told police of hearing a commotion at 2 a. m. in Susan's room, and that the girl said "I don't want to get up." "The pretty, blue-eyed, golden-haired girl was missed from her bed at 7:30 a. m. when her father, James Degnan went to awaken her for school. At 10 a. m. the kidnaper telephoned the North Side home, the City News Bureau said, to reiterate the ransom demand to Degnan, who earlier told newsmen: "I have no money and I know of no reason why I should be a target for a kidnaping for ransom." The news bureau said the telephone call was made by a man. Police traced the call to a number in the Rogers Park district. The Degnans live in Edgewater, which adjoins the Rogers Park district on the south. A ransom note found in the girl's room stressed that the family not notify the police or the newspapers or the child would be harmed. The threats were repeated over the telephone, the news bureau said, and the caller insisted on the ransom, saying he would call later. Shortly after 11 a. m. Detective Chief Walter Storms hurried from the scene of the kidnaping at 5943 Kenmore avenue, a two-story duplex house, to the Summerdale police station, collected six squads of policemen and raced west with them. Three FBI agents conferred with Degnan & did Sheriff Michael Mulcahy of Cook county (Chicago), a friend, Police Commissioner John C. Prendergast assumed personal charge of the case.

President Hopeful Of Palestine Probe

WASHINGTON, Jan. 7. (AP)—President Truman expressed confidence today that the "spirit of cooperation" will characterize all operations of the Anglo-American inquiry into the Palestine problem. The White House said in a statement issued as the group opened hearings that the agreement of British members to begin the inquiry here was an evidence of that cooperation. "The president is glad to note that the committee has started its proceedings so promptly," the statement said.

Give Vets Clothing Preference

WASHINGTON, Jan. 7. (AP)—Despite OPA's flat announcement that price ceilings will be clamped on raw cotton to check mounting clothing costs, agency officials acknowledged today they hope to avoid such action. They disclosed a big "maybe" in the plan as the government in another move, tried to assure sufficient apparel for veterans. It appealed to retail dealers to set aside for servicemen up to 100 per cent of their stocks of scarce garments. OPA officials who asked anonymity, said they wanted to make it clear there was "no bluff" in the agency's statement over the week-end that it plans to bring cotton

Pleads Guilty

A fine of \$1 and costs was assessed against Salbador Rosas in Justice court this morning after he had entered a plea of guilty on a drunkenness charge. Rosas was picked up by the city police over the weekend.

OPA Would Avoid Cotton Price Ceiling If Possible

under price control. But, they added, these plans are conditioned on whether the announcement has the effect of checking speculation in cotton prices, which OPA chief Chester Bowles said are being bid up by "traders who are betting on inflation." The agency also is counting on release of 1,500,000 bales of government cotton to stabilize prices and ease pressures on textile and garment ceilings. "But if the cotton price rise is not halted," said one official, "OPA definitely will go ahead with plans for ceilings." Rep. Camp (D-Ga) termed the OPA proposal "ridiculous," say-

Child Hurt Playing Near Railroad Dump

Leroy Faulkner, 7-year-old son of Mrs. Mae Holder, received treatment for a cut wrist about 6 p. m. Saturday at the Cowper Clinic Hospital. The child was playing on a dump pile near the railroad track when he fell and injured the undersurface of his right wrist and cut eight tendons leading to his hand. He was resting well Monday.

More 8th Army Men Coming Home

YOKOHAMA, Jan. 7. (AP)—Col. A. L. Shaw, a member of Lt. Gen. Robert L. Eichelberger's staff, said today that all 50-point and three and a half-year men in the US Eighth Army zone would be homeward bound by Jan. 31 unless shipping now assigned to Japan were diverted elsewhere. He said this included soldiers in the former Sixth Army area of southern Japan as well.

Judgment Passed On Three Cases

Judgment was passed last week on three more cases in district court. In her suit against James L. Miller for divorce, Annie Ruth Miller was granted custody of a minor child. Mary Beth Blackney was granted divorce from Sidney Blackney, with maiden name of Hughes restored. Georgia Sale was granted permission to change her surname to Robertson.

Oil Dispute Settlement Near, 3 Strikes Pend

GI's Protest Slow Release

MANILA, Jan. 7. (AP)—At least 12,000 American soldiers jammed into the shell-battered ruins of the Philippines Hall of Congress tonight for a noisy but orderly mass protest to the demobilization slowdown and thundered approval of a resolution calling for a Congressional investigation. Boos rang through the hall as an enlisted man, acting as chairman, read a statement from Lt. Gen. W. D. Styer, commanding Army forces in the Western Pacific, explaining the delay in home-bound trips. Earlier, thousands of milling en-

listed men had marched to Styer's headquarters and sent in a committee of five, which was told by the general that the "changing international situation" prevented sending all eligible men home at once. Long before 6 p. m., servicemen began gathering and climbing the twisted masonry fronting the great flight of ruined steps to the capitol entrance, where a makeshift stage had been set up with a wheezing loudspeaker. By the time T-4 Harold Schiffrin, Rochester, N. Y., the chairman, called the meeting to order the triangular lot in front of the legislative hall was packed with thousands of soldiers. Kennedy read Styer's statement asserting that the Army in the Philippines was doing its best to get men home, shipping 349,318 high-point soldiers to the states since the war ended. "Bear in mind," the statement said, "it took us 30 months to build our strength in the Western Pacific, yet it has been reduced in four months by two-thirds." Styer's statement said there still remained much work to do, supplying occupation forces in Japan, Okinawa, Korea and elsewhere, "rolling up" unnecessary bases and disposing of surplus property. Meanwhile, a charge was hurled that a uniformed man, representing himself as an officer, examined hundreds of soldier telegrams to Congress which already had been turned into a cable office here. It is said he had no such authority.

Cotton Ceiling Proposal Blasted By Texas Men

By the Associated Press Texas cotton men today continued to voice opposition to OPA chief Bowles' plan to place a ceiling on raw cotton to keep clothing costs down. Their reaction ranged from the charge that it was "an oppressive measure" to the belief of West Texas cotton men that "small growers would be forced to turn to grain crops. Lamar Fleming Jr., president of Anderson-Clayton and Co., Houston, said last night the OPA plan to impose a ceiling on the 1946 crop was "an oppressive measure that would not be submitted and could not be enforced." "Ceilings will not make grades available that do not exist. Nor can ceilings applicable to next fall's crop give any relief to a shortage this winter and spring. "The OPA evidently declared itself without thinking the matter through," Fleming said. "I do not believe Congress will permit the OPA to put a ceiling on cotton in time of peace. The acquiescence of Congress is necessary; for the OPA law will expire June 30 unless Congress renews it." Joseph W. Evans, president of the Houston Cotton Exchange, said the OPA action "appeared to be an effort on the part of the government to adjust the price of American cotton to the world competitive level." Byrrie C. Jackson, of Hillsboro, chairman of the Cotton Committee of Texas, said last night: "My own opinion is that Mr. Bowles took the step because of pressure of cotton manufacturers." Wichita Falls cotton men said they believed such a ceiling would force the smaller grower in West Texas to seek some other crop. They predicted over 90 per cent will turn to grain crops. Little comment was available in Big Spring today on the proposed ceiling on raw cotton. Most of those contacted said they were not well enough acquainted with particulars to "make definite statements, but most all expressed opposition to the general idea of a ceiling. Some believe the measure will never be put into effect, and if it is passed they doubt that it will attain the desired aim.

Over Million Workers May Be Idle Next Week

WASHINGTON, Jan. 7. (AP)—The oil fact-finding panel reconvened today with signs that the oldest postwar wage dispute—between the CIO-Oil Workers and a large segment of the industry—is near settlement. Agreement on an 18 per cent wage increase for the Texas Company's West Tulsa Refinery, matching the amount Sinclair Refining Company previously had settled for at all its operations, was reached by government officials as a significant break in the three and one-half month dispute. The union struck in September for a 30 per cent increase, leading to navy seizure of 53 refineries and pipelines on October 4. Strikes in steel, electrical manufacturing and meat packing industries are scheduled to begin in that order on Monday, Tuesday and Wednesday of next week, idling 1,100,000 workers. This number would augment the strike of CIO-Auto Workers at General Motors, CIO-Glassworkers at Pittsburgh Plate Glass and Libbey-Owens-Ford and an independent union strike at 21 Western Electric Company plants. With only a week remaining to avert the additional shutdowns, there are these prospects, aside from whatever may stem from the oil fact-finding inquiry. Steel—President Truman's fact-finding panel has asked the US Steel Corporation and CIO Steelworkers to resume collective bargaining. Government labor sources say they are hopeful the company will make its first counter offer to the union's demands for a \$2 daily wage increase. General Motors—The fact-finding board which has finished its inquiry into the strike of 176,000 CIO-Auto Workers over a 30 per cent wage increase demand likely will report to Mr. Truman by Wednesday or Thursday. Meat-packing—Government economists and wage-price policy administrators worked to clarify the government's position on a price increase for the "big four" meat packers. This might permit an acceptable compromise to be proposed at a series of Chicago meetings arranged by Conciliation Chief Edward L. Warren for Wednesday, Thursday and Friday. The CIO-United Electrical Workers late Saturday scheduled their January 15 strike to support of demands for a \$2 daily wage increase. Involved are some 200,000 workers at General Electric, General Motors and Westinghouse.

Steel Companies, Union Preparing For Walkouts

PITTSBURGH, Jan. 7. (AP)—The great steel strike of 1946 will begin a week from today—unless something occurs to prevent this record-breaking walkout of 800,000 workers. The giant opponents, the steel industry and the CIO Steelworkers Union—as far apart as ever on the issues—were going ahead with their strike preparations today. Steel mills are rushing to produce all they can before the shut-down Jan. 14. Steelworkers are counting their pennies, budgeting their cash. Some in Pittsburgh, especially among minor executives in the steel plants, still cling to a belief that there will be no strike. But this seems to be mainly a "hunch." Here is a summary of the issues and arguments in the dispute: The union demanded a general pay raise of \$2 a day for all the workers. The steel companies said they can't give any raise at all unless the OPA lets them charge higher prices for steel. So the union voted to strike. The opponents disagree flatly over: 1. Whether a strike would be a violation of the union's contracts. 2. Who's to blame for the lack of collective bargaining over the wage demand. 3. The size of the industry's profits.

Returned Marine To Talk In Coahoma

Cpl. M. W. (Buster) Farris, a returned Marine from the Pacific theatre, will be the principal speaker at a meeting of the Men's Brotherhood of the Coahoma Baptist Church Tuesday night at 7:30. Following the service he and Maj. Fred P. Woodson of the Army Air Corps will lead an open forum. Maj. Woodson was speaker at the evening services last Sunday. Refreshments will be served and the public is invited to attend. Doyle Winstead is president of the organization.

Supreme Court Hears Argument Of Yamashita Defense Lawyers

WASHINGTON, Jan. 7. (AP)—The supreme court called for argument today on whether to step into the case of Japanese Gen. Tomoyuki Yamashita, under sentence to die for Philippines atrocities. This is the high court's first encounter with the case of a convicted war criminal. Its decision may decide the course of other war crimes hearings. Yamashita asked—in airmailed petitions—that he be brought from Manila to Washington for a hearing before the supreme court or one of its justices. Instead, three of the US army lawyers who were appointed to defend him in his Manila trial were flown here to represent him. A five-member American military commission decreed death by hanging for the "Tiger of Malaya."

The commission's action was precedent-setting in international law in that Yamashita was condemned for condoning uncounted atrocities by his troops. On this point, the conqueror of Singapore and former Japanese commander in the Philippines protested to the supreme court: "The war crime of a subordinate, committed without the order, authority, or knowledge of his superior, is not the war crime of the superior. "It cannot properly be contended that the commanding general of an American occupational force becomes a criminal—everytime an American soldier violates the law. It is the basic premise of all civilized criminal justice that one man is not held to answer for the crime of another."

How women and girls may get wanted relief from functional periodic pain

Cardui, many women say, has brought relief from the cramp-like aches and nervous strain of functional periodic pain. This is a tonic, it should stimulate and aid digestion. It has built resistance for the "bliss" in some. Started 3 days before "your time", it should help relieve pain due to purely functional periodic pain. Try it.

Ready To Serve

It is mobilized all the year to meet human needs. It works among the most needy of our citizens.

It ministers to suffering humanity regardless of class, creed or color.

It stands on the bottom levels reclaiming, rehabilitating, rebuilding.

It practices what it preaches in devotion to God and country: always in the "front lines" in any national crisis—Carries the word of God in all its works.

It spends your money for the purpose to which you subscribe it.

Slim Summerville Of Movie Fame Dies

LAGUNA BEACH, Calif., Jan. 7 (AP)—Slim Summerville, who grew up with the movies, is dead.

The gaudy comic, born George J. Somerville in Albuquerque, N. M., 51 years ago, succumbed Saturday night to his third stroke in recent weeks at his home here.

Funeral services, followed by cremation, will be held tomorrow.

He was a poproom porter when Edgar Kennedy, another of the veteran comedians, found him in the old days and took him to Mack Sennett, where he started at \$3.50 a day. He went through the Keystone Kops, pie-slinging era, directed comedies, went into more pretentious films, starred for years with Zasu Pitts, and had just completed "The Hoodlum Saint" when he was stricken.

IDEAL — American hosiery designers chose Peggy Knudsen, (above) film actress, as their favorite model.

WOMEN! WHO SUFFER FIERY MISERY OF HOT FLASHES

If the functional "middle-age" period peculiar to women causes you to suffer from hot flashes, nervous tension, irritability—try famous Lydia E. Pinkham's Vegetable Compound to relieve such symptoms.

Pinkham's Compound is one of the best known medicines for this purpose. Also a grand stomachic tonic!

RFC To Establish Special Agencies For Surplus Sales

DALLAS, Jan. 7—In order to assist federal agencies, state and local governments, veterans and small business in filling their requirements from inventories of available surplus property and to speed up the sales of surplus property, the Reconstruction Finance Corporation, announced Saturday that it is establishing a special service section for these groups in its Washington and 31 regional offices.

The section will consist of three units, a federal agency, state and local government unit, a veterans unit and a small business unit. All inquiries made will be handled by the Special Service Section which will serve as an information center for prospective purchasers.

A large quantity of telephone equipment and parts manufactured for the US Signal Corps is being offered for sale. Disposal of this surplus property which is usable by most telephone companies is expected to ease the shortage of this type of communication equipment.

Sealed bids for this property will be received by the RFC agency, 70 Pine street, New York City, before 10 a. m. January 25.

The RFC stated that the Federal Housing Authority and the Veterans' Administration have advised that they will claim the 5,000 Quonset huts recently declared surplus by the Navy department. The huts were declared surplus for disposal by RFC.

Charles Lovelace To Be Eagle Scout

Highlight of the Court of Honor to be held at 7 p. m. Tuesday in the high school gymnasium will be the presentation of the Eagle Badge to Charles Lovelace.

George Mclear will be in charge of the session when two films are to be shown by J. C. Webb.

Winter Winds Cut Like a Knife

The skin of the lips is especially thin and tender, and if cracked and painful, needs medication. Mentholatum, a comforting medicated balm, gently stimulates the local blood supply to the "sore" area, and helps revive dry, "thirsty" skin cells so they can retain needed moisture.

You will be well advised to use cooling, soothing Mentholatum at first sign of raw, chapped skin. Jar, tubes, 30¢.

The Nation Today—

January 15, March 15 -- Two Dates To Watch For Filing Income Tax

By JAMES MARLOW WASHINGTON, Jan. 7. (AP) — January 15 is a tax deadline. It does not affect everyone.

It affects about 10,000,000 out of 150,000,000 taxpayers.

You're one of the 10,000,000 and by January 15 must do something about the tax on your 1945 income if—

- 1. You've been making quarterly payments on your estimated tax for 1945. The fourth, final payment is due January 15.

2. You've been making the payments but under-estimated the tax owed by more than 20 per cent. You must make the correction by January 15. There's a penalty if you don't.

3. You should have, but didn't file an estimate on 1945 tax.

4. You're a farmer who hasn't paid any tax on 1945 income.

The full 1945 income tax was withheld regularly in 1945 from the wages or salaries of about 40,000,000 people. They knew early last year it would be deducted.

So they didn't have to file an estimate or make any quarterly payments. The full tax was deducted from wages or salaries up to \$5,000.

But last March 15 about 10,000,000 people did have to file an estimate. Those who had to do this were:

- 1. Persons whose 1945 wages were more than 5,000, plus \$500 for each exemption besides a taxpayer's own exemption.

Persons who had more than \$100 income in 1945, in addition to the wages from which tax regularly was withheld. Example: Smith's wages were \$4,000. Full tax was withheld from that, but he figured to get \$200 from renting a room. He'd have to make quarterly payments on the tax on \$200.

3. Persons — like merchants, landlords, doctors, lawyers—who received income from which taxes were not withheld. They had to make an estimate on their income and the tax due on it, and then pay the tax in quarterly installments.

4. Farmers. Under the law farmers didn't have to file an estimate in 1945 on 1945 income but were allowed until Jan. 15, 1946, to do so. They must pay the full tax by January 15.

If you're making your final quarterly payments — and don't have to make changes in your estimate — just pay the fourth and final bill sent you by the internal revenue collector.

If you find you under-estimated you tax by less than 20 per cent you can go ahead and pay your bill! Then, on March 15 when all 50,000,000 taxpayers of 1945 must file a final return — you can file your final return, make the correction, and pay what you owe.

Suppose you underestimated by more than 20 per cent. Since, correct the mistake by January 15 there's a penalty for this, you must and pay in full by that date the tax owed on 1945 income.

You can do this on Form 1040ES. If you want to save yourself extra trouble, use form 1040. Thus, by correcting the tax in full on form 1040, you won't have to make that final return which everyone else has to make on March 15. If you use Form 1040ES on January 15, you'll still have to use Form 1040 on March 15.

The first balloon ascension in the United States was made by a Frenchman, Jean Pierre Blanchard, on Jan. 9, 1793.

Public Records

Building Permits S. P. Hult, to build a frame and stucco wash house at 900 San Antonio, cost \$100.

Pedro Villareal, to build a frame addition at 701 N. San Antonio, cost \$200.

C. E. Lawdermilk, to build a frame building at 1011 W. 3rd, cost \$600.

Lee Hanson, to build a frame addition at 1401 Runnels, cost \$2,000.

Lester Fisher, to take out window at 220 Main, cost \$75.

Confederate Vet Is Death Victim

HOUSTON, Jan. 7. (AP)—Funeral services are to be held here this afternoon for Gen. William Banks, commander-in-chief of the United Confederate Veterans and one of the last surviving veterans in Texas of the Civil war.

He died yesterday at the age of 100 at the home of a daughter, Mrs. Nell Wolfe, Little York, Tex. His birthday was Christmas.

Cosden Chatter

Morris W. Griffice who is home on leave showed us a Cosden check payable to him dated February 10, 1945, which was mailed to him while he was overseas.

When he received the check, he placed it in his billfold, carried it all through the Guam invasion and when he arrived home Christmas morning he was still carrying it in his pocket.

Cosden checks go to war, too! Mr. and Mrs. Doyle Hayworth, are the parents of a boy which was born January 2, 1946. He weighed 7 pounds 5 oz. and was named Johnnie Doyle Hayworth.

We received a letter this week from Mary Kay Echter (Lumpkins), the former Cosden Personnel stenographer, who has gotten married since leaving the company.

Miss Lumpkins became the bride of Lt. Robert W. Echter in October at Tampa, Florida, where they are now making their home since he has received his discharge.

Mary Kay sends her "hello" to all the Cosden employees.

Oliver W. Lea, writes from Pacific Grove, Calif., where he and his wife had started to spend Christmas when they had a car wreck and were both in the hospital for 3 days. However, he says they are doing very nicely and hope to be back soon.

Ross B. Hughes was called to California this week due to his mother being seriously ill.

We received a letter from Terrell V. Thompson, which contained 2 pictures of himself and buddies, written in Chinkai, Korea, telling us that he has received the "Chatter" regularly and has every copy since January 1945.

Terrell writes that he has been doing a little hunting recently and has killed a number of geese, one deer and a wild boar. He expects to be in the states sometime in February.

We would like to welcome the following former Cosden employees who have received their discharges and resumed their work with Cosden: Lewis W. Monrocy, pipeline department, William E. Pate, operations and Frank H. Stacey, maintenance department.

Claude A. Ramsey was a visitor in the office Friday. He has received his discharge from the Navy and will report back for work Monday, January 7, 1946.

Idaho's capital and largest city, Boise, numbers about 26,000 population.

A "Look at the Books" or "A Finger in the Pie"?

Which is the UAW-CIO really after? Is it seeking facts—or new economic power? Does it want to know things—or run things? These questions concern you as well as General Motors.

For years the facts about General Motors have been made public.

In spite of this, the UAW-CIO demands a chance to look at our books, with the hint that we could meet Union demands "if the truth were really known."

We have firmly declined to recognize this as a basis for bargaining.

1. The Full Facts are Published

How much General Motors takes in each year—how much it pays employees—how much it pays to stockholders—how much it pays in taxes—how much net profit we make—and many other facts are plainly stated in annual reports and quarterly reports.

These are broadcast to 425,000 stockholders from coast to coast—sent to newspapers and libraries. Additional copies are free for the asking.

2. All Figures are Thoroughly Checked

Every General Motors Annual Statement is audited by outside auditors. Similar figures are filed with the Securities & Exchange Commission.

Does the UAW-CIO honestly believe that General Motors would or could deceive these experts?

3. The Basis of Collective Bargaining is Defined

The Wagner Act lays down the rules for collective bargaining. These cover such areas as rates of pay, hours of work, working conditions.

No mention is made of earnings, prices, sales volume, taxes and the like. These are recognized as the problems of management.

4. Something New has been Added

The obvious fact is that the UAW-CIO has gone beyond its rights under the law—and is reaching not for information but for new power—not for a look at past figures, but for the power to sit in on forecasting and planning the future.

A "look at the books" is a clever catch phrase intended as an opening wedge whereby Unions hope to pry their way into the whole field of management.

It leads surely to the day when Union bosses, under threat of strike, will demand the right to tell what we can make, when we can make it, where we can make it, and how much we must charge you—all with an eye on what labor can take out of the business, rather than on the value that goes into the product.

5. This Threatens All Business

If the Union can do this in the case of General Motors, it can do it to every business in this land of ours.

Is this just imagination? Union spokesmen have said, "The Union has stated time after time that this issue is bigger than just an ordinary wage argument, that it is bigger than the Corporation and bigger than the Union."

For Labor Unions to use the monopolistic power of their vast membership to extend the scope of wage negotiations to include more than wages, hours and working conditions is the first step toward handing the management of business over to the Union bosses.

We therefore reject the idea of a "look at the books" not because we have anything to hide but because the idea itself hides a threat to GM, to all business, and to you, the public.

GENERAL MOTORS "MORE AND BETTER THINGS FOR MORE PEOPLE"

K And T Electric Able To Make Needed Repairs

K. and T. Electric Shop was encouraging Monday about the immediate future in electrical field. At their shop at 400 East Third street Henry Thames is now able to supply all of the necessary repair parts, and also the manpower to install the equipment and make needed repairs.

Recently back from the armed services are Miller Russell of the navy, and, more recently, Albert Pettus was released from the army after serving for two years overseas. Both are first class electrical mechanics, and if the equipment

can be repaired either of the men can do the job.

The K. and T. Shop has twice as much repair equipment on hand now as it had at this time last year, and what with increased supplies of repair parts Thames' can insure prompt, efficient work at almost any time. Many of the hard to get repair items are back on the market, and copper, a metal essential to electrical work, is again available.

The electrical shop now has for sale a farm welder for which the farmers find many uses in repairing all types of metal farm equip-

ment. Thames' has been promised several deep-freeze units which will be sold directly from the floor as soon as they arrive.

Now available for rural dwellers are Kohler plants for either farms or oil field workers. These units can be provided at any time and come in various sizes ranging from 500 watts to the five KVA type supplying 5,000 watts. One of the latter models is now on the floor.

Well into their third year of service the K. and T. Electric Shop and all of their employees can now promise the best of service on all electrical equipment.

Texas Electric Has Confidence In City's Growth

Texas Electric Service Company has confidence in the continuing growth and prosperity of the Big Spring area it serves. The company, which headquarters in Big Spring, also covers Coahoma, Ackery, Forsan, Ross City, Garden City, Lamesa, O'Donnell and oil fields and rural communities.

In checking files, Texas Electric Service of the Big Spring district shows more than twice the amount of customers connected to their lines than in 1933. Among the newer customers are listed over 700 rural connections since it has been possible for TES to make several rural extensions, C. S. Blomshield, district manager, said.

Blomshield says no definite indication has been given as to when to expect a shipment of a reasonable amount of small appliances. However, most of the electrical dealers in this district have received a few major appliances. No doubt, within about three months, nearly all expect to see a marked improvement in stocks. Table and floor lamps are now becoming available in quantities.

By summer, Blomshield predicts air conditioning equipment and fans will be available.

Important in TES operation for this district, besides the residential and commercial service, are oil well pumping, pipe line pumping, refinery, packing and storage plants, ice plants, cotton oil mills, feed and grain elevators, chemical plant and numerous small industries.

Bahamas Make Bid For Silk Market

NASSAU, B. I., (AP)—Silk worms and mulberry trees have been imported to the Bahama Islands in an attempt to make the islands a major production center for silk.

About 15 months ago, the British Caribbean Silk Co. launched the project, bringing in cuttings from Osgian mulberry trees in South America and planting them on one of the 29 islands. Plans call for more cuttings to be brought for planting on other islands.

The Bahamas' semi-tropical climate is ideal for silk worm culture, and six crops of cocoons are harvested each year—four more than the number usually collected in Japan.

Pritchett Team Play Gets Pritchett Out

BALTIMORE, (AP)—Fate and the US Army teamed up in a rare manner to turn the overseas replacement problem into purely a family affair for the Pritchett brothers of Bishop's Head, Md.

T/Sgt. James W. Pritchett, with 62 points and five campaigns to his credit, was sweating it out on Shikoku in Japan.

Finally, the replacement walked in, fresh from the States. He was Pfc. Philip L. Pritchett, a younger brother with only 10 points. It was a surprise meeting, since neither knew the other's whereabouts.

The 24th Infantry Division announced that the younger Pritchett has been assigned to his brother's old company and his old job.

SAY YOU SAW IT IN THE HERALD

PLENTY OF TIRES?—So it seems, from this view of Creighton's Tire Service and with rationing removed it looks like there will be plenty for everybody. But, Creighton's regret to remind customers, tires are as scarce as ever in the popular sizes. No certificates are needed, but a voluntary rationing program of tires to those who need them most has been set up. Until Creighton's can once again furnish those good Seiberling tires, they ask that customers drive carefully and conserve rubber.

JOE'S FOOD AND FEED HAS AMPLE SUPPLY OF CHICKEN GRAIN RATIONS

January is the season of the year to begin planning feed for chickens in order to get the maximum production of eggs, J. B. Stevenson, manager of Joe's Food and Feed Store, reminds poultry raisers.

In his store in the Coop Gin building, he has ample supplies of laying mash, hen scratch grain, and all kinds of balanced grain rations put out by RCA. His chicken feeds are compounded according to latest scientific information to aid nature produce more and better eggs. He also has plenty of baby chick starter feed on hand.

Stevenson will buy eggs brought in to him, averaging a dozen cases a week now, but expected to increase as the egg season advances.

He sells these eggs both wholesale to other grocers and retail to customers in his grocery department. For other livestock, Stevenson handles a good supply of mineral block salt, cheapest form of salt on the market, but one of the best. He also has in stock plenty of winter time feed supplying protein, a

substance often lacking in winter livestock diets. All kinds of dairy food, range cubes for cattle and sheep are expected in in a few days.

The food section of the store features quality meats, plenty of fresh meat and some cured, although that is still a scarce item. Fresh fruits and staple groceries are plentiful.

In its location at the Coop Gin for four years, Joe's Food and Feed hires four employees, always ready to serve the customers promptly and efficiently. Connor B. Stevenson, brother of the owner, has just returned from the army and is assisting in the store.

Red-Faced Cop

TULSA, Okla., (AP)—Police jailer Ray Cowan told the city commission "it was very embarrassing" in a letter asking \$16 for broken glasses, a ruined shirt and the market, but one of the best. He also has in stock plenty of winter time feed supplying protein, a woman prisoner.

Argentine Farmers Serve 4 Meals A Day

BUENOS AIRES, (AP)—In a new code of labor regulations for harvest hands, the Argentine government stipulated they could work from sunrise to sunset, but must be served four meals. For breakfast, the code ordered cheese and hot or cold meat; for lunch, soup, meat stew and vegetables; for the four o'clock break mate, a kind of tea; and for supper, soup and a meat stew.

Minimum wages from \$2 per day for ordinary harvest hands to \$3 for machine operators were ordered by the code.

Nelson's Game In Groove, Nears Los Angeles Title

Texan Has 212 For 54 Holes

LOS ANGELES, Jan. 7 (AP)—Byron Nelson, the golfing nonpareil, was on the threshold today of capturing one of the few major tournament titles to elude his grasp—the \$13,333.33 Los Angeles Open.

With a 212 for 54 holes, Lord Byron ruled the gallery's favorite to wrap up the \$2,666.67 first place Victory bond in the final round. Nelson methodically stroked out a one-over par-72 in yesterday's third round to take a two-stroke lead.

Still tied for the runner-up shot were Sam Snead, and Jim Ferrier who posted 73's for 214 totals. Close up were Ben Hogan, 216; Jim

Demaret, Houston, Texas, and Tony Penna, 217; Harold (Jug) McSpaden and Herman Barron, 218.

The field was pared to 60 after the third round. Harry Bassler was the only player to hit even par—71, and a second-round 79 helped him out well back with a 221. Players with 54 hole totals of 233 and under remained in the running.

Some of the old-timers who fell by the wayside included MacDonal Smith, Craig Wood and Leonard Dodson. Only one amateur—Ray Sleppy of Inglewood, with 222—was among the leaders.

Mildred (Babe) Didrickson, invading a man's world, dropped out at the end of two rounds of 81.

LOOKING 'EM OVER

With ANGUS LECESTER
Last Friday night's turnout for the Steer fieldhouse's basketball game between the resident quintet and O'Donnell influenced a decision on the part of local school officials to keep the home schedule on a nocturnal basis.

The cage game has never paid the freight locally. Good, bad or indifferent the Bovine clubs weren't able to lure the adult trade. Even support of the student body did not come up to par.

On the other hand, business for all kinds of afternoon school activity—whether it be basketball, band concerts or a debate on what's happened to George Spelvin—has always been brisk due to the fact that the studies like an opportunity to cut classes legitimately.

So a change in playing time was contemplated.

The gym was virtually packed for the O'Donnell bout, however, despite the fact that the bout hadn't been widely publicized. The chieftains feel that at long last local fans are taking to the sport.

A prominent sprinkling of the older citizenry dropped in to see the Steers shellack the O'Donnell troupe and most of them seemed to appreciate what they saw. Athletic Director John Dibrell, for one, thinks they'll be back for more.

Plans Shape Up

Should Big Spring become a member of Jack Knott's proposed Central Texas professional baseball league in 1947—along with Temple, Austin, Waco, San Angelo and Brownwood—Abilene could probably be influenced to resign the WT-NM setup and join the family.

The Taylor county capital's team is going to experience trying financial problems in its alliance with the WT-NM loop, unless they produce a contender for championship honors.

The future of the professional game in that city depends upon the promoter's ability to create a spirit of rivalry with other units of the circuit—a difficult task in view of the fact that Abilene is so far removed from other cities in the sprawling WT-NM league.

Knott's proposed circuit is

Robin Comes Thru

In the Sugar Bowl football game at New Orleans last New Year's Day, Bob Fenimore—on the proverbial spot as All-American back—made his critics eat their critiques.

The Stillwater ace averaged five yards in 25 carrying tries, punted four times for a 47.2 yard average, though he missed the ball completely on one attempted boot. In addition, he intercepted two passes.

'Dates' For Sellers

CLEVELAND, (UP)—Dates with six of the prettiest girls in James Ford Rhodes high school here were auctioned off in a Victory bond rally which raised a total of \$131,000. The school's bond quota was \$45,000. Winners of the dates were boys who sold the most bonds.

Player Sales May Net Cards Half Million

ST. LOUIS, Jan. 7 (AP)—The talent-laden St. Louis Cardinals were minus two of their outstanding stars today after beginning baseball's biggest spring house-cleaning by disposing of a pair of former team captains—Catcher Walker Cooper and Second Baseman Jimmy Brown.

Cooper, generally regarded as one of the best receivers in the business, was sold yesterday to the New York Giants for \$175,000 cash, one of the three-biggest money deals in the game's history. Brown was sent to the Pittsburgh Pirates for cash believed to be between \$30,000 and \$40,000.

These transactions, first in a series expected to net the Cardinals in the neighborhood of a half-million dollars before the season opens, were both expected.

Cooper had asked to be traded or sold and Brown's second base position had been filled ably during his three years in the army by Lou Klein and Emil Verban who will both be available for 1946.

The big catcher and his pitching brother Mort were at odds with the Cardinal management over salaries before Walker entered the navy last May 2.

Mort was sold last May to the Boston Braves in a deal that left the Giants chagrined, since they had been bidding for the right-hander. Although Boston was also after Walker, the Cardinals were more likely to favor the Giants if the

JIMMY BROWN

huge price tag could be agreed upon.

Breadon said he did not think the Cooper deal would weaken the 1946 Red Birds since he did not expect him out of service before late summer.

Owner Horace Stoneham on this point, saying Cooper might be discharged as early as April.

Fifteen Major Cage Quintets Still Unbeaten

NEW YORK, Jan. 7 (AP)—Wyoming, Notre Dame and Cornell surged to the fore of the national collegiate basketball picture last week as Kentucky dropped out of the unbeaten ranks and DePaul lost its third straight.

Wyoming, making a triumphant sweep on its eastern tour, trounced St. Joseph's of Philadelphia, Long Island and Washington of St. Louis to run its winning streak to nine straight and take over the country's No. 1 spot on the basis of won and lost percentages.

Notre Dame won its seventh straight with a thrilling uphull 43-42 triumph over DePaul. Cornell's veteran team chalked up its sixth in a row by trouncing Columbia for the second time, 66-43. Kentucky's seven-game streak was shattered by the unpredictable Temple Owls who turned in a stunning 53-45 triumph on New Year's night.

The week's developments left 15 major quintets unbeaten: Wyoming 9-0, Indiana 8-0, Iowa 7-0, Notre Dame 7-0, West Virginia 7-0, Cornell 6-0, Baldwin-Wallace 6-0, Yale 5-0, Tulane 5-0, Northwestern 5-0, Holy Cross 3-0, Georgia 3-0, Gettysburg 3-0, Georgia Tech 3-0, and Navy 2-0.

This is how the various conferences are going:
Eastern intercollegiate—Cornell on top with 3-0. The Big Red seems a cinch to out Penn as champions.

Big Ten—Ohio State leading at 3-0, but Indiana 2-0 and Minnesota and Iowa, each 1-0, also are unbeaten.

Big Six—Nebraska currently on top, but Kansas, yet to open its league season, is favored to cop title.

Southeast—Kentucky and Tennessee favored, but Georgia and Georgia Tech currently leading.

Southern—North Carolina favored to retain championship although Duke is current leader.

Southwest—Arkansas and Rice tied for the top at 2-0.

Big Seven—Wyoming a big favorite.

Missouri Valley—League play opens this week with Oklahoma Aggies a standout.

Pacific Coast (north)—Oregon State and Washington State tied at 2-0.

Pacific Coast (south)—California and Southern California tied at 2-0.

Stork No Weaking
HOUSTON, (UP)—The stork carries big loads in Texas. His latest super-cargo load contained Yolanda Martinez—weight at birth 18 pounds.

Her parents say she's as cute as any baby ever born—and twice as big as most.

Local Kegling Brigades Routed In League Play

Douglass Clan Trips Dozier Contingent

Teams representing Odessa and Midland came to town with the proverbial "blood in their eye" Sunday, sweeping everything in sight in Tri-City bowling league competition with local quartets at the West Texas alleys.

Jake Douglass' home club lost a 2-1 series to Jim Payne's Odessa troupe, then were roundly shelacked by Midland, 3-0.

E. B. Dozier's aggregation lost to both Midland and Odessa by the same count, 2-1, then to keep their record clean dropped a 2-1 decision to Douglass' contingent.

Odessa cakewalked into the driver's seat by thumping Midland, also by a 2-1 score.

Stanley Wheeler, one of Jake's better keggers, had a 214 in one game to threaten Odessa's W. O. Shafer for scoring honors. Shafer wound up with a 224 in one outing.

The four clubs get together again Sunday, Jan. 20, in Odessa for another series of round-robin matches.

Hogs On Prowl For Bear This Week At Waco

By Associated Press

Baylor's surprising Bears, who pushed themselves into the South-west conference championship picture with an impressive record in the practice period, will find out this week if they are holding false hopes.

Friday and Saturday night the Bruins meet Arkansas at Waco and if the Bears do well against the Razorbacks—copping at least one game—they'll be awarded an excellent chance of winning or gaining a piece of the title.

Baylor will be the last conference team to swing into championship action and they'll certainly be opening the race against the top hands. Arkansas is the general choice to win the title.

The Porkers showed last week-end they are the team to beat. They blasted Texas 55-47 and 90-63—the latter game setting a new record in scoring for a single contest. The 153 points was seven better than the mark set at College Station Feb. 6, 1945, when Texas beat A. and M. 87-59. The Arkansas score also was within five points of the all-time mark for one team—Rice's 95 points against Baylor at Houston Feb. 3, 1945.

The Rice Owls, defending champions, finished the first week with an unbeaten slate as the boys in blue trimmed Texas Christian 69-45 and Southern Methodist 49-29. Texas Christian and Texas A. and M. were splitting even for the week, the Frogs downing the Aggies 51-41 after A. and M. had beaten Southern Methodist 45-38.

Five games are on this week's schedule. In addition to the Arkansas-Baylor series, Rice meets Southern Methodist at Dallas Friday night, while Saturday night Rice tackles Texas Christian at Fort Worth and Texas and Texas A. and M. get together at Austin.

Mines laid by Nazi submarines closed the entrance to New York harbor for a 30-hour period in November, 1942.

Raids On Ohio Prep Gridders By Other Schools Influenced Widdoes To Quit

By HUGH FULLERTON, JR.

NEW YORK, Jan. 7 (AP)—When the Association of College Baseball Coaches gets together tomorrow in St. Louis, the boys likely will find some good material for yelping in the fact that the Reds recently signed Ted Kluszewski out of Indiana U. while he still had a couple of years of baseball and football eligibility.

But the Cincinnati club isn't anticipating any trouble with I. U., with which it has very friendly relations. . . . Ted was married recently and was determined to play pro ball, one Redleg official explains. "and Indiana probably would prefer to have him go with us than any of the other clubs that were after him" . . . The lowdown on that puzzling Ohio State coaching switch, as related by Midwesters, is that the "invasion" of Ohio by out-of-state coaches was primarily responsible. . . . Seems that Carroll Widdoes isn't the persuasive type needed to keep the boys at home while Paul Bixler operates in the Paul Brown manner.

Cooper Dooper Sam Breadon, a most persuasive talker, took a hundred and seventy five G's for Walker; Explaining that New York fans might like To see a catcher who can throw a strike.

Monday Matinee Five thousand men of the 82nd Airborne Division will be guests of promoter Mike Jacobs at tonight's Lee Savold-Al Hoosman fight . . . Bob Feller, who busted into print about barnstorming last fall, and who will help with a pre-training camp for GI base-

Time For Responsibility

With The News

By Dewitt Mackenzie
AP World Traveler

PARIS, Jan. 7 — The French capital's famous gull-show, the Folies Bergeres, has, of course, always been a revealing affair, but in these post-war days one finds it making disclosures in a far larger sense than is implied in our little pun.

One shouldn't expect, for instance, to be able to gauge the state of the nation from a visit to the folies, or yet to make interesting psychological observations regarding the genus Yankee-GI. Still that has been the experience of Madame Mack and myself on renewing acquaintance after some years with this internationally known variety show.

We noted that a large percentage of the crowd was American officers and GIs.

Our first discovery had to do with the state of the nation, and it was indeed startling. The great theater was unheated although it was sub-freezing. Most spectators kept their overcoats on, as did many of the orchestra, and they still were cold. The real sufferers, however, were the ladies of the cast, who were in an unhappy state of deshabille for such a night. G strings aren't great protection against wintry blasts, and some girls were blue with cold. Still, they went through two and a half hours of torture without losing their smiles.

So here again there was registered in an extraordinary manner one of the most dangerous problems not only of France but of all Europe—the terrible shortage of coal and other fuel.

Mrs. Mack and I were much interested in getting the reaction of the GIs to this G-string symphony, which is considerably more liberal than the shows to which the boys are accustomed at home. The present folies, by the way, are no more free-and-easy than were those which I saw offered a generation ago during the last war to the dads of the present GIs. But the folies always were naughty. That's the naked truth.

It must be admitted that some very handsome Emures drifted across the stage. Still, and we thought this would be of particular interest to the girls back home) the GIs showed little or no enthusiasm. They applauded a superb strong-man act, some very funny turns by a comedian and other bits—but had small commendation for the back-to-nature scenes. The boys just sat there, chewing gum and viewing the display with an impartial and unemotional attitude.

Today officially begins the United Clothes collection campaign, a nation-wide humanitarian venture to relieve the sufferings of miserably populated all over the world.

While there may be a few people who would be reluctant to give old garments to the cause on the ground that some might find their way into countries which were formerly enemy territory, this is not the real obstacle. Most people recognize that regardless of past or future status, these starving and freezing millions are still human beings. Few are so hard bitten as to suggest that it is wise to let them fall victim to the elements on the grounds that they have earned extinction. This is the easy answer, but it is not the correct one.

Moreover, the bulk of the clothing will go to those who have suffered invasion and impoverishment, who have had their belongings, their food, their liberty taken away during the terrible years of the war. These are those who have truly gone down into the "valley of the shadow." They are "one of the least of these, my brethren."

Many practical military men, not given to sentimental appraisals of a situation, are saying on their return from Europe that we are in danger of losing the peace because of failure to even partly offset some of the miseries of the peoples of that unhappy continent. It may be the same old story, and even if these gaunt, hollow-eyed people have no moral right to expect us to save them, it is not an easy thing for people to forget the spectre of their children dying for lack of a crumb or a cloth, their loved-ones collapsing for want of succor. In such hours of torture, they look not upon the right or wrong of a situation, but upon what might be done.

Here is an opportunity for America to be big. It matters not if it costs us in the light of a perennially soft-hearted people, for it will gain far, far more than it could ever lose.

But if we are to succeed, the real thing that counts is a personal concern to the point that each will take time to go through stocks of clothing and taking all that can be spared to collection points. There is enough material cluttering up the closets of this city and county to more than fulfill our obligation. And after all, we should be primarily concerned what we do here at home instead of anywhere else.

And what does all this mean? Well, if you are going to suggest that the boys are naive, you will be wrong. Healthy minded lads don't get naive. I think it means that a little of this sort of entertainment goes a long way with the average American.

The Timid Soul

With The AEF: Manila Biggest Boom Town In The Orient

By HAL BOYLE

MANILA, Jan. 7 (AP)—Manila is the biggest boom town in the Orient. It is a combination of Tombstone, Ariz., and a Missouri country fair. There is so much traffic—still predominantly army vehicles—that it takes three military police at some intersections to break up the jams.

Crews are steadily at work on road repairs but Manila streets are tougher than Tokyo's. When shell craters fill up with water it takes an amphibious duck to plow through them. The natives say it never rains here at this season but the sun hasn't poked its head out of the storm clouds more than an hour or two in eight days.

Little has been done yet to repair Manila. Ruins sag under climbing vegetation in the heart of the city. Rough wooden buildings reminiscent of a frontier western town are springing up everywhere. They serve an urgent temporary need but if allowed to remain it may take the Philippine capital decades instead of years to regain its old leisurely beauty. You can still see traces of its former charm among dwellings and public buildings blasted into all but shapeless chunks of concrete and rusted iron girders.

For all the shattering destruction wrought here, however, there is more life and feeling of activity than in any city in the Far East with the possible exception of Shanghai. Much of this business boom is based on the dollars of free-spending American soldiers and sailors. Half of Manila seems to be earning its living keeping the military entertained and there remains the question of what will happen when the rest of the troops move out and homeward.

Manila's two main streets—the Escolta and Rizal avenue—have gone completely honkeytonk in the kind of commercial shop suey that finds souvenir stores, photo galleries and blaring night clubs shouldering for space. There is a snack shop in the American hardware building and a variety show in the staid, former Philippine Bank of Commerce. The Escolta once was Manila's Fifth avenue. . . . Now it's an alcoholic razzle dazzle complete with bar girls, tinpan pianos and one peso a shot whisky. But the streets are crowded with shoppers and spenders and everybody seems happy and hopeful.

American-made goods are pouring in. Kentucky bourbon was scarce at \$40 a quart last August. Now it's plentiful at \$7.50. All prices are dropping steadily. Most stores and miniature department stores, stocking everything they can buy. One hole in the wall, for instance, had souvenir shirts, Philippine panama hats, liquor, new women's cosmetics and American oatmeal. The oatmeal sold for 50 cents a large package and you could also have your picture taken while it was being wrapped up, or get your watch repaired.

Stocks of badly needed clothing are beginning to arrive but many children still trot around bare as Lady Godiva. One small shoe shine boy who works outside one army post exchange wears a shirt made from a bag. . . . When he bends over your shoes—he won't touch them for less than two bits in this still high priced and booming burg—you can read clearly stencilled on his back: "Overseas Ham."

Washington Merry-Go-Round—

Wallace Starting Own Campaign

By DREW PEARSON

WASHINGTON. — Secretary of Commerce Henry Wallace isn't taking any chances on being left holding the political bag if the Truman administration begins to lose out with the public. He continues on excellent terms with Truman, but has also embarked on a speech-making campaign which, while supporting most of Truman's enunciated program, makes it plain that the ex-vice-president still has a very forthright political mind of his own.

It didn't get much attention, but Wallace made a significant speech at a negro fraternity meeting in Washington the other night which drew wide acclaim in the negro press—a segment of the public that Bob Hannegan has been worried about ever since Mrs. Truman tossed aside the question of the DAR and Hazel Scott, wife of the negro Congressman, who was barred from singing in Constitution Hall.

Wallace's next talk will be at a ten-state farm meeting in St. Paul on January 11. This will be Wallace's first farm speech in almost two years and has more significance than meets the naked eye. After January, Wallace will make three or four speeches a month all over the country, renewing his contacts with the hundreds of delegates who voted for him at the last Democratic convention, at the same time checking his political fences around the nation.

Wallace doesn't plan to resign from the cabinet before June, and when he does he will go out with Truman's blessing in order to campaign for liberal Congressmen who will support the Truman program. Strongest, so there will be no break with the Truman administration—unless.

The "unless" hinges on plans to get Wallace to testify before Congress regarding Truman's recommended labor legislation and the much debated cooling-off period. Wallace is opposed to this, and if called before Congress will be forced to say so—in which case he will follow customary practice and submit his resignation. Troublemakers on Capitol Hill already are maneuvering to put him on the spot.

Secretary of Agriculture Anderson has come a long way from the day when he went out to New Mexico many years ago, suffering from tuberculosis. Attaining membership in the cabinet of the US is quite a climb for a country boy. There are only a handful of men every four years who attain that honor and distinction.

At heart, however, Clinton Anderson is still a frustrated man. Most people don't know it, but his secret ambition long was to become an author.

When he first went to New Mexico, Anderson had plenty of time to write. And he turned out dozens of magazine articles, aimed primarily at the Saturday Evening Post. As fast as he sent them to Philadelphia, however, Post editors sent them back. Anderson collected a fine assortment of rejection slips and finally stopped writing. He turned to insurance, cattle raising and politics, in all of which he has been eminently successful.

The other day, however, Anderson got his revenge. Bearded Forest Davis of the Saturday Evening Post, sometimes nicknamed the "Missing Link," dropped in to see Anderson and offered him a part-time writing job. He said the Saturday Evening Post could use one article per month from the Secretary of Agriculture.

William F. Johnson of South Carolina was 33 when he went on the court in 1804 and Bushrod Washington was 36 when appointed in 1798.

Ann Is A Young Woman In A Hurry

By GENE HANDSAKER

HOLLYWOOD — Several of me walked into Ann Rutherford's nifty bar — my reflections and I, that is, in the mirrored walls—and over the straight cokes Ann soon was telling how to keep in the social swim though busy.

Ann is a pretty gal in a hurry. She reads while shopping, while brushing her teeth (with the book propped on the towel rack), while putting up her hair at bedtime, and writes letters under the drier at the beauty parlor.

She's the wide-eyed, vivacious, dark-haired Polly Benedict of the Andy Hardy movies but is gladder for more sophisticated roles in "Murder in the Music Hall" and "Madonna's Secret," not yet released.

Her large Beverly Hills home, especially the bleached-mahogany library where parties are given, is furnished in up-to-the-minute splendor. There's a built-in automatic photograph in the wall, the floor is plushly carpeted, the furniture is creamy and soft, and the window looks out on the swimming pool.

Ann's husband is David May II, vice president of the May Company department stores. Their smiling 14-month-old daughter, Gloria Ann, has a nursery furnished in red (because Ann rebelled against traditional pink and blue) and filled with pandas and bears whose insides are music boxes.

"My husband brought business-like system into my life and I brought a little merriment into his," party-loving Ann said. She talks with gestures, smiles, resounding clarity, great energy and uninhibited speed.

A Christmas gift from her husband last year was a large filing cabinet in which she keeps household records. A smaller card index lists friends' names (such as Turner, Lana) with addresses, telephone number, birth dates, names and birth dates of children.

Periodically Ann shops to replenish, a shelfful of gifts and greeting cards, all ready for birthday giving. Lists prepared in advance guide her two servants on how much food to prepare whenever she telephones that guests from two to two dozen—are coming.

A favorite game at her parties is Indications, in which contestants, in two teams, try to act out in pantomime the book, song, poem and movie titles assigned to them. "Any time you're driving by and you see cars parked in front come in," Ann invited. "That means we're having a party."

Stone Last Pre-Roosevelt Justice

By ALEXANDER R. GEORGE

(For JACK SIMMONS)

WASHINGTON — A "youngish" Supreme Court of the United States moves quietly into another year of helping chart the course of the nation.

The average age of members of the present court is 57-14 years younger than the average 71 of the court into which President Roosevelt nine years ago successfully sought to inject "new and younger blood."

When Mr. Roosevelt asked Congress for authority to name new justices if the old ones did not retire at the age of 70—the court to have a maximum of 15 instead of nine members—six of the justices were over 70.

Today only one member of the court, 73-year-old Chief Justice Harlan F. Stone, is over 70. Stone, incidentally, is the only member of the current court who was on the high bench when President Roosevelt launched his battle to enlarge the court.

Under the law, justices who have reached 70 and have served 10 years may resign and continue to draw full pay of \$20,000 a year for the remainder of their lives. Comparatively few justices, however, have retired at 70.

Oliver Wendell Holmes, whose intellectual vigor in his late eighties was internationally recognized was the oldest man ever to sit on the Supreme Court. He was going on 91 and had been a justice 29 years when he resigned in 1932 because of failing health. The late Louis D. Brandeis was 82 when he retired from the court in 1939.

Charles Evans Hughes retired in 1941 at the age of 79. Thirteen years earlier, before he became a member of the court, Mr. Hughes defended the capacities of judges who were 70. In a lecture at Columbia university, he said: "Under present conditions of living and in view of the increased

facilities of maintaining health and vigor, the age of 70 may well be thought too early for compulsory retirement. Such retirement is too often the community's loss. A compulsory retirement at 75 could more easily be defended."

Friends of Stone have said that he would remain on the bench as long as his good health continued. Stone, apparently in excellent health, will have served 21 years on the high court next March 2.

The baby of the present court is 47-year-old Justice William O. Douglas. Appointed at the age of 40, Douglas was the youngest man to go on the high bench since 1811 when 32-year-old Joseph Story was named a justice. Two of Story's associates were also young-

sters. William F. Johnson of South Carolina was 33 when he went on the court in 1804 and Bushrod Washington was 36 when appointed in 1798.

Sunset tonight 5:57 p. m. Sunrise tomorrow 7:48 a. m.

Several Autos Badly Battered In Collisions

Badly battered vehicles but no serious injuries resulted from an epidemic of automobile wrecks that kept county, city and state highway officials busy over the weekend.

Willie Ed Roberts, who said he was carrying his family from Cameron, Okla., to Mesa, Ariz., showed up at the sheriff's office this morning to report his car and trailer had been struck by an unidentified party while he was traveling in the direction of Big Spring some seven miles east of town.

Roberts said all his children had been treated for bruises at a local hospital but released. James Edward Roberts, 9, suffered a gash on the head; his brother, Ned Walton, 5, had head injuries; while one of the migrant's daughters, Nita Imogene, 13, complained of a shoulder bruise.

The mishap occurred at approximately 7:20 p. m. Sunday.

L. A. Peterson, Lorraine, and L. C. Stayton, Downey, Calif., were involved in a crash that took place some 18 miles east of Big Spring at about 7:25 o'clock Sunday evening.

Peterson was lodged in the county jail after Stayton claimed he ran onto the former's parked automobile before he could distinguish its presence. The Stayton machine was a total wreck but both parties escaped unhurt.

Fourth and Bell streets was the scene of a crash at about 1:30 o'clock Sunday afternoon. J. A. Miller, Cross Plains, was at the wheel of one of the vehicles while Isadore Weiner, Big Spring, was piloting the other.

Hospitalized after a collision that happened at 6:55 p. m. Sunday was Mrs. A. M. Harris, who claimed that a taxicab being driven by Barney Hensley rammed into the side of her machine. Wounds included a lacerated head.

Blinding rain was said to have been the cause of a car tangle that occurred on lower Main street this morning. Neither Mrs. Doyle Vaughn nor Frank E. Purdue, operators of the cars involved, were injured.

Brooksie Nell Phillips reported to the city police that a car side-swiped her vehicle while she was putting it into her drive-way last night and roared away into the darkness before she could inventory the resulting damages.

KILLED IN POLITICAL CLASHES—A grieving father holds the body of his three-year-old daughter, discovered among those killed in bloody political clashes at Leon, Mexico, Jan. 2.

Advance Approval Required By AAA

Farm operators who desire to carry out one or more of the practices approved by the AAA for 1946 must gain prior approval from the county committee before beginning the work.

If approval is not obtained in advance, no payment will be made, according to M. Weaver of the local office.

The following practices and rates have been approved for the coming year:

- (1) Construction of Standard terraces and spreader terraces—\$79.20 per mile.
- (2) Construction of tanks — 10 cents per cubic yard.
- (3) Drilling wells—\$2 per foot.
- (4) Deep plowing — \$1.50 per acre.
- (5) Contour listing—30 cents per acre.
- (6) Leaving stalks or stubble of sorghums on ground—35 cents per acre.
- (7) Deferred grazing.
- (8) Growing green manure crops (including peas)—\$1.50 per acre, and.
- (9) Eradication of destructive plants on non crop pasture land.

Mrs. J. W. Harris Buried In Texline

Funeral services were held Sunday afternoon in the Texline Church of Christ for Mrs. J. W. Harris who died Saturday in a Big Spring hospital following a two months illness. Burial was in a Texline cemetery.

Mrs. Harris was 81 years old and had lived in Texline for a number of years.

Survivors included Mrs. J. W. Elrod of Big Spring, Mrs. James Orr of Sedan, N. M., Mrs. C. T. Clay of Louisville, Ky., Mrs. J. H. Shirley and Mrs. Phil Cousins of Clayton, N. M., and Mrs. J. B. Baker of Texline, daughters; two sons, A. M. Harris of Big Spring and J. T. Harris of Ferguson, Alberta, Canada.

Final rites were conducted by Evangelist Truman House. The body was carried overland to Daltart by a Nalley car, and arrangements were made by the Nalley funeral home.

LOS ANGELES CAB DRIVER TOURS NATION

Harry E. Arisohn, Los Angeles taxi driver may claim something of a record for cross-country excursions when he gets back to the west coast this week.

Stopping briefly in Big Spring Monday morning, the California caddy disclosed that he was on the last leg of a round trip to New York City, a junket instigated for hauling service men and boosting a film soon to be released by a motion picture company.

Military personnel en route to Los Angeles with Arisohn included two Navy men, two from the Army and one Coastguardsman, while six Marines were carried on the east-bound trip last week.

A serious accident was narrowly averted in Bloomington, Ill., Arisohn said, when he plowed into a snowbank to miss an obstruction left by road repairs.

The stop in Big Spring was made to effect minor repairs to the cab.

In Fireman School

H. V. Crocker, fire chief, left Sunday for Memphis, Tenn., where he will attend one of the best firemen's schools in the United States, city officials said Monday. The school, sponsored by the Memphis fire department and the National Board of Fire Underwriters, will be held through Jan. 11th.

Bids Solicited For USO Property

Bids will be accepted Tuesday after 9 a. m. on certain items of furniture and fixtures at the USO club.

Donald H. Hogan, representing the USO Building Services is to be here through Tuesday to make arrangements for disposal of the equipment.

Parts of the furnishings, adaptable to use in occupation zones, will not be offered since some of it already is ticketed for Pacific areas, said Hogan.

Under regulations furnished Dr. C. W. Deats, chairman of the USO council, the property may not be given away. On the other hand the USO is obligated to sell the material for its cash value. The general policy is followed of selling without preference to any individual or group.

The property can be sold in small units, but wherever possible it is desirable to sell the entire lot to one person or organization. USO has indicated a desire where possible to sell the equipment to some organization which would carry on a similar type of work.

The right to accept or reject any and all bids is reserved.

C. Of C. Directors Approve Changes In Unit By-Laws

Chamber of commerce directors Monday noon voted approval of a few changes in the by-laws of the organization, subject to action by the membership.

These concerned chiefly the matter of electing directors, of quorums, etc. One proposal would give the board the optional authority to name not less than, five nor more, than 10 members other than the 20 elected by the membership.

The number attending a board or membership meeting would constitute a quorum. Instead of retiring directors being the nominating committee, the holdover directors would serve in this capacity.

A guest at this meeting was J. B. Mills, president of the Federal Hotel company, new owners of the Settles and Crawford. Mills expressed a desire to provide the best possible service and to fit into community activities.

Merle Stewart was named chairman of the arrangements committee for the Feb. 11 annual chamber banquet, K. H. McGibbon as head of attendance, and Joe Pickie as program chairman.

Nine Women Arrested Pay Vagrancy Fines

Nine women paid \$15 fines for vagrancy Monday in city court, police said. The group was arrested Saturday and Sunday in the flats section of town.

Jim Sweed paid a \$50 fine for petty theft. He was arrested for prowling in automobiles and stealing mechanical equipment, officers stated.

Marines Recruit Here This Week

New selling points for the United States Marine corps will be proffered prospective volunteers by a recruiting team which will set up shop in the lobby of the post office Thursday and Friday.

The recruiters will be available for interview during the hours of 8 a. m. to 4:30 p. m. on those days. Enlistment periods of two, three and four years are now optional with individuals going into that branch of the service. Age limit is from 17 to 25 years, inclusive, except in the case of ex-servicemen who can return to duty if they are not past 31 years age.

Steward Discharged, Expected Home Today

O. T. Steward, Boilermaker 3/c, received his discharge in San Pedro, Calif., and is expected to arrive here today to join his wife and two daughters, Dee Ann and Janice Sue. They have been making their home with her aunts, Mr. and Mrs. Bob Wren. Steward spent 16 months in the South Pacific.

O. T.'s brother, Lt. Ralph "Speedy" Steward, who has been declared officially dead after missing over Germany since Dec. 23, 1944, and he sailed for opposite theatres the same time. His parents, Mr. and Mrs. W. T. Steward received official word from the government Friday.

A female katydid can never deny the male's charge that "Katy did." She has no sound equipment.

POW Camp Officer Sentenced To Hang

YOKOHAMA, Jan. 7 (AP)—Lt. Kel Yuri, former commandant of the Omuta prisoner-of-war camp, was sentenced today to hang for ordering the bayonet execution of one American soldier and allowing another to starve to death.

An eight-man US military commission condemned Yuri to die.

The court's verdict will be reviewed by General MacArthur and Lt. Gen. C. P. Hall, acting commander of the US Eighth Army.

He was convicted of having Pvt. Noah C. Heard, Salinas, Calif., bayoneted and of permitting Marine Cpl. James G. Pavlokos, Chicago, to starve in solitary confinement.

Wolcott Home

County Tax Assessor-Collector George Wolcott was returned to his home in Big Spring Friday night from a Dallas Hospital where he underwent major surgery early in December. Although improving, it was reported Monday that it will be sometime before he will be able to resume work in his office.

Cotton Futures Sent In Decline By Order

NEW YORK, Jan. 7 (AP)—Cotton futures were thrown into a drastic decline at the opening of the New York Cotton Exchange today following announcement that the government was planning ceilings on the 1946 crop in a move to stabilize textile prices.

The opening call brought a drop of 80 cents to \$1.90 a bale and subsequent transactions reflected extreme confusion as traders attempted to appraise the new situation.
