SELECT YOUR QUEEN

HIGH SCHOOL QUEEN CONTEST

Classes in high school elected candidates for the high school queen contest sponsored by the high school band. Some of the classes also elected a campaign manager.

The Seniors elected Adelade Shedeck. The campaign manager will be J. E. Gerber, and he will have at least two assistants.

The candidate from the junior class is Mona Burlison. This class has co-managers of the campaign. They are Zola Mae Sheets, and Le Roy Smith.

Sadie Ruth Hoskins will represent the Sophs, and the campaign managers are Dorothy Daniel, Benny Briley, Dickie Kiker, and Howard Dean Kelly.

Dorothy Hester is the freshmen candidate. They appointed a committee of 6 to conduct the campaign. The members of the committee are Frank Porter, Ray Halsey, Georgia Burlison, Mildred McKay, Rose Mary Mitchell, and Louise Schnell.

Get behind your favorite and help her to win. The votes are a penny each, and for every ten votes you get a chance on a Christmas turkey. Help the band, have some fun, and perhaps eat free turkey.

JUNIOR NEWS

Have you heard? Well I did. The juniors are having a party some time this week! At least that's what I heard from the room mothers.

I hope all the juniors passed this six weeks. And, as a matter of fact, I think some of us made better grades this six weeks than last.

Several of the juniors are coming out for basketball and I believe it is keeping them from their night life.

OSLO NEWS

Morning worship at the Oslo Lutheran Church next Sunday, Dec. 8. Second Sunday in Advent will begin at 11:00 a.m. Sermon theme: "The Son of Man cometh in a Cloud with Power and Great Glory." Luke 21:25-26.

Sunday school will begin at 10:00 a.m. The Sunday school and choir will meet next Sunday at 3:00 p.m. at the church to practice the Christmas pageant.

The Confirmation class will meet at the parsonage at 9:30 on Saturday.

The adult class will meet at the Alexander home at 7:30 on Monday evening.

NEWS ITEM

Gordon Stedje and Anna Marie Spivey were married at the Methodist church at Gruver by Rev. A. C. Cox last Sunday afternoon. Marcella Olsen was the bridesmaid and Jodie Knutson was the best man. Immediately after the ceremony a reception was held for friends and relatives of the bride and groom at the home of the bride. After the reception the happy couple departed in their car for an unannounced destination. They expect to be back in about a week and will make their new home in Oslo on the former Flugum place now owned by the mother of the groom, Mrs. Clara Stedje. We congratulate the newly weds and wish them many happy and prosperous years together.

The Luther League of the Oslo church met at the parsonage last Sunday evening. The program consisted of the discussion of the topic, "Profanity." It was presented by Ramond Reesing, Louise Knutson and Doris Dahl. After the program the annual business meeting was held. The following officers were elected: Clifford Stedje, president; Bill Johnson, V. president; Doris Dahl Secretary; Lenard Hill, treasurer. A committee of four was elected to purchase the Christmas tree, and to decorate the church for Christmas. After the business meeting a social hour followed.

Exchange

Higher Education

Two professors were talking between halves of a football game. The professor 'A' university said to the other professor.

"I see Zidch is playing on your team this year. He faked out at our school."

"Really, he's doing very well here."

"How did it happen?"

"Well, we figured that if you require an average of 75 for most students to pass, it would be only fair to require an average of only 50 for him."

"That sounds alright. So he made an average of 50?"

"Yes, or course, we gave him a special examination."

"I see. How many questions did you ask him?"

"We decided that if you asked the average student 10 questions, it would be fair to ask him two. So we did, and he passed."

"I see, and would mind telling me what the questions were?"

"Not at all. First I asked him what was th color of blue vitrall acid, and he said pink, and that was wrong. Next I asked him if he knew how to make sulphuric acid and he said no, which was right, so I passed him."

SOPHOMORE NEWS

All of our exams have been taken and have also been corrected. There were several good grades, and we are looking forward to having some more good ones.

We plan to have a party soon and everyone is looking forward to it.

The honor roll this month is:

A ROLL
Wilbur Fullbright, Betty Lou Ellsworth, Btty Jean Godfrey, Pearl Robertson, Pat Hutton, Charline Tucker, Faye Womble.

B ROLL

Lowell Robertson, James Van Sant, Margret Hull, Chrystal Read, Paul Hazelwood, Howary Kellp, Bobby Morton, Vivian Burgess, Dorothy Daniel, Sada Hoskins.

Marie Stedje came home for the week and to be present at the wedding of her brother.

Agnes Bredesen, who has been at her home near Lake Mills, Ia. for the past few weeks, returned to Oslo last Saturday. She will again assume her duties at the Emil Knutson home.

Marcella Olsen, who is taking a nurses training course at the St. Anthony hospital at Amarillo, came home for the week end to be present at the Stedje-Spivey wedding.

Another new car has made its appearance in Oslo. James Stedje is now driving a 1941 maroon colored Ford.

Farmers in Oslo will be busy replanting wheat as soon as the fields are dry enough. The recent rain has raised the hopes of every one in Oslo that we may hope to have a crop next year.

GRUVER NEWS

A number of Gruver citizens were visitors in Amarillo last Monday. Among them were Mr. and Mrs. Dave McClellan, Mr. and Mrs. Vic Ogle, Ward and Elizabeth Spivey, Herbert Hughes, and Rosalie Hughes.

Gruver citizens are happy these days. There is lots of good moisture in the fields and electric services has been restored to normal. There are still a few telephones out of commission but this is no great hardship. The Cal Farley Circus will be at the Gruver High School Friday night. This is not a commercial adventure on Cal's part. He nor his people do not even charge for gasoline expenses. Every penny realized from this program will stay in Gruver for the use of the P.T.A. You will enjoy this entertainment.

On wednesday of this week, Dr. Sanford of Perryton was at the high school auditorium administering the schick test to all students and to children of pre school age. No charge, whatever, was made for the test. Diptheria vaccinations is resulting in almost complete control of the disease. All honor to the doctors who are giving so generously of their time in such preventative work.

LIBRARY NEWS

A number of books and magazines have been ordered for the library. This will be good news for many of our students who have read about everything we have on the shelves.

In addition to books and magazines we are starting a library of phonograph records for the benefit of the speech class and any other who might be interested in listening to them.

SNOOPER SNOOPER SNOOPER

Why was it such a secret about going to Perryton last Tuesday night Adelade? Were you just a little bit late?

Did his size scare you D. R.? or were you ready to leave anyway?

Were you keeping your Gruver friends from feeling lonely, Marjorie? Maybe you just happened to meet them in that corner, I wouldn't know.

Mr Black looked pretty lonely in the show Sunday. Couldn't you do something about it Nellie?

What was Jewel thinking of Sunday? She couldn't remember what the show was about ten minutes after it was over.

How does it feel to sit at home and wait, Colleen? Maybe he won't have to go to see his kin folks next time.

Is Deacon's constitution a little bit weak, Frances?

What turned Curley against the girls?

FIRST GRADE NEWS

We are getting along nicely in our work. We are happy to get our report cards this week. We are all working hard now on writing and phonics.

Barbara Jean Van Sant, Neil McNabb, and Gary Hancock, were on last week's chapel program. We will have another program. The following children were on the A roll:

Jerry Harbour, Colene Schell, Barbara Van Sant, Elaine Daily, Elin Hull, Mary Faith Oakes, Arla Williams, Opal Mae Carpenter, Barbara Beck, Juanita Faus, Lillie Bailey, Ronald Hilton, Neil McNabb, Larry Overton, Frank Buzzard, Gary Hancock.

AN EDITORIAL—Contributed

Have you noticed how our Library has improved during the last two years? Some valuable reference books, as well as a number of story books and magazines, have been added recently. Plans are now underway to add some phonograph records for use in the speech classes. The books which become torn and frayed are carefully mended by Mrs. Kenny, librarian. They are also kept in order by her. Mrs. Kenny has charge of checking all books in and out, including story books and reference books. Another help to the library is the donation of books and magazines by various pupils of th school. Already several books and magazines have been added to the library in this way.

F. H. T.

Because of bad weather and other things the FHT did not have their social which had been planned.

A dead line for paying dues has been made and all girls remaining in the club will have paid their dues at that time.

In order to determine which girl will go to the state rally we are giving points for taking part on the program, being program chairman, and bringing new ideas into the club.

FOODS DEMONSTRATOR

Being the food demonstrator for the Medlin home demonstration club, I felt it my duty to compile with the Texas Food Standard that tells us the food needed for each member of the family. I figured out the food needed for my family by the Texas Food Standard then I figured out what proportion that I could produce and grow at home to lower my grocery bill.

I planted my spring garden about the first of April and in this garden I planted english peas, onions, mustard, rape, turnips, radishes, lettuce, carrots, and beets. By the first of May I planted another garden that included beans, black eyed peas, lima beans, english peas, squash, tomatoes, parsnips, cucumber, pepper, collards, okra, and more lettuce, radishes, new Zealand, spinach, mustard, and turnips.

I began gathering vegetables from the garden by the first of May. By having two gardens, when the first garden planted matured, the other garden was large enough to gather vegetables from. This was possible for us to have tender crisp vegetables to eat all the time. The two gardens furnished all the vegetables that we could use all summer and fall also for our neighbors. From the two gardens I canned:

- 90 - Quarts Beans
- 30 - " Black eyed peas
- 16 - " English peas
- 20 - " beets
- 40 - " greens

- 90 - " tomatoes
- 30 - " cucumbers
- 25 - " squash
- 20 - " rhubarb
- 30 - " lima beans
- 12 - " asparagus

100 pounds of cabbage made into kraut.

21 bushels of green peas produced at home.

9 bushels of green peas sold for \$6.50

3 gallons of peas were dried for winter use.

3 gallons lima beans and 3 gallons of pinto beans.

I raised 275 chickens, I bought 100 baby chicks for the hatchery and hatched 175 with the hen.

Twenty-three chickens were dressed and put in a storage locker. I sold \$23.00 worth of my chickens that had 88 left. Feed for my chickens cost me \$12.50. The chickens ate the waste grain from the elevators that help to lower the cost of feed.

I hatched off 156 turkeys and raised 138, 14 drowned, train ran over two, and two died. I sold 90 turkeys on the first market, and they brought \$154.70. The feed cost \$35.00 for the 138 turkeys with a profit of 119.70 with 40 turkeys left.

One thousand quarts were canned of all fruits vegetables and meats.

Fruits put out last year were 8 cherries, 12 plums, 8 peaches, 4 apricots, 300 strawberries, and 10 rhubarb. Strawberries and rhubarb produced fruit this year.

would be operated on next morning. This is done so that every one of the 167 patients in the building can come around to your room and give you some advice—and what advise. They talk of the new and modern electric pump attachment that keeps blood from rising in your throat until the patient chokes. Some advise you to insist on a Block nerve blackout, others want you to take the gas, while some say that if there really is no danger of pneumonia, following the operation, one should insist in a regular "anesthesia." On man remembers that when they tied down John Browns tongue, and inserted the bracket to make the operation less difficult, that the nurse in charge adjusted the bracket too tight and cracked the mans jaw bone. Another begins to brag about what a roper old Doc Archer is. He explains that Archer does not believe in cutting the tonsils and that after he has everything ready, with the mouth wide open as the Mammouth cave, he has the nurse punch the tonsil up and throws a half hitch around them with a sling, pulling them out by the roots.

All this advise is supposed to curdle one's blood until the surgeon can play tunes in the throat, without having to pump out the blood. I'm not so sure but what that's a pretty good idea. I'm telling you the honest truth I didn't bleed a drop. They pulled out one blood clot from my mouth that followed the tonsils, and from

CHUP... You have learned... must obey orders, and not ask questions, by the time you comes operation day. A sawed-off little fellow with snow white pants and shirt and black tie came in with a bed on wheels—"Jump on buddy, we're gonna take you for a one way ride," he says. "Listen Mussolini," I said, "I can walk up to the operating room." "That's what you think," he shouts, "You might walk up, but you durn shure want to ride back, so you'd just as well get used to the motion—HOP ON!"

The operating room consists of a chair that is uncomfortable, because it is made to keep the body seated at a right angle and the neck stretched at an obtuse angle, and the mouth open at a 180 degree angle. One climbs off the bed to see Doc Archer all done up like a ghost, with his mouth covered with gauze, his eyes protected by that little machine gun eye glass that keeps blinking in your eyes. You get seated and a nurse reaches over to a table and grabs a sheet and makes a run at you like it was a game. Before you know anything, you are pinned into the chair, with nothing but your mouth and eyes exposed to the atmosphere. You glance around and see enough tools laid out on a table to construct an airplane. The doc shoots you a couple of times, picks up his pliers and yank they come—and it's all over.

THANK GOODNESS.

AMERICAN BOY IS COMPANION TO THOUSANDS

Hundreds of thousands of boys and young men read THE AMERICAN BOY Magazine every month and consider it more as a living companion than as a magazine.

"It's as much a buddy to me as my neighborhood chum" writes one high school senior. "THE AMERICAN BOY seems to understand a boy's problems and considers them in such a sympathetic and helpful way. It gives advice and entertaining reading on every subject in which a young fellow is interested. It is particularly helpful in sports. I made our school basketball team because of playing tips I read in THE AMERICAN BOY."

Many famous athletes in all sports credit much of their success to helpful suggestions received from sports articles carried in The American Boy Magazine. Virtually every issue offers advice from a famous coach or player. Football, basketball, track, tennis, in fact every major sport is covered in fiction and fact articles.

Teachers, librarians, parents and leaders of boys' club also

recommend The American Boy enthusiastically. They have found that as a general rule regular readers of the American Boy advance more rapidly and develop more worthwhile characteristics than do boys who do not read it.

Trained writers and artists, famous coaches and athletes, explorers, scientists and men successful in business and industry join with an experienced staff to produce in The American Boy, the sort of reading matter boys like best.

The American Boy sells on most newsstands at 25c a copy. Subscription prices are \$2.00 for one year or \$3.50 for three years. Foreign and Canadian prices 50c extra. To subscribe simply send your name address and remittance direct to the American Boy, 7430 Second Blvd., Detroit, Michigan.

The one who will be found in trial capable of great acts of love is ever the one who is always doing considerate small ones.

BROTHER OF W. L. McCONNELL DIES
Word was received this week of the death of James T. McConnell, brother of District Attorney W. L. McConnell.
James T. McConnell lived at San Saba, Texas.

THERMOMETER AID IN PREVENTING COLDS
One of the most potentially useful gadgets in the home during the winter months is the thermometer. Unfortunately its possibilities as a health guardian are seldom realized by the general public.
In home where the thermometer is used intelligently it becomes a valuable defence mechanism. As a preventer of colds and more serious respiratory diseases that have their origin directly and indirectly in overheated rooms, it and does render a valient service.
Both from the disease preventive and health developing standpoints, the thermometer should be kept within the safety limits of 68 and 72 degrees. Were this rule generally observed, and exercise in the outdoors regularly taken, it is entirely possible that many persons who contract cold and more serious respiratory conditions during the winter could sid step them, in addition feel healthier.
Mr and Mrs Claude Blue of Albuquerque N. Mexico, were week end guests in the home of Carl Hutchison, Mrs Blue and Mr Hutchison are sisters.
Wayne Hutchison went to Amarillo Tuesday, where he enrolled in the Amarillo Commercial college.

Invitation. Gov. Miles has asked the Mayors of every New Mexican City as well as civic and fraternal leaders to take an active part in the event. The premier is scheduled for the evening of Dec. 14, but the elaborate and colorful historical three day program will begin on Friday, Dec. 13.

A host of Hollywood stars and celebrities will move from the film capital by special train over the Santa Fe Trail for the event. These celebrities will be headed by Errol Flynn, Olivia DeHavilland, Raymond Massey, Ronald Regan, Big Boy Williams and many others who are featured in the film. Many others of film and radio will be there.

Colonel Thomas B. Carton, chairman of the executive committee, declares that the premier will outshine others by virtue of Santa Fe's three hundred years of Fiesta experience as well as the legion of stars and big names who will take part in the public appearances and other functions.

Those who bring sunshine to the lives of others cannot keep it from themselves.

FIRST METHODIST CHURCH
We were so happy to meet so many of the members of the church Sunday at the services and the hearty welcomes that we received made us feel like our line had fallen in pleasant places. We are happy to be here.
We find in checking the rolls of our church that there were a great number absent, we would be happy to greet you on next Sunday in the services. The church is the one institution that a community cannot get along without, so make your church mean something.
The success of any organization depends upon the loyalty of the members that make up that organization. So the success of the church depends upon the loyalty of its members. Too many times we spend our time making excuses for not doing what we know we should do.
We invite all strangers and people who do not have a church home to our services.
W. B. HICKS, Pastor

PEOPLE ARE CLUB WOMEN
How old are home demonstration club women? How many children do they have? How long have they been club women? What are their families annual income? These are some of the questions the Extension Service of Texas A & M College asked of home demonstration club women in 193 clubs in one county in each of the 12 extension districts. Findings of the study have been compiled by Louise Bryant, extension specialist in home management.
She found that 22 percent of the HD women in Texas are below 30 years of age, 29 percent are between 30 and 39, 24 percent are between 40 and 49, and 17 percent are between the age of 50 and 59 and 8 percent are over 60.
Forty-four percent of the HD women answering the questions reported the family's net income for 1939 under \$500, while 31 percent said their family's income was between \$500 and \$1000.
