Special Radio Program Tonight About Bonds

R. Collard, chairman of the Hansford county War Bond committee received the following program Wednesday: "Secy. of War Morgenthau, Secy. of Agriculture Wickard and national leaders of labor and management are appearing on a special program Thursday night, 8:30, from 10 to 10:30. "The War Time over the Blue work. The broadcast will be to discuss the national Bond quota system and the percent payroll savings plan. Special guest on the program is the hero Navy pilot Lieutenant Edward Henry O' who shot down 5 enemy craft in one day. Other speakers on the broadcast will include Mr. Green, president of the American Federation of Labor, Philip Murray, president of the U. S. Chamber of Commerce and T. C. Cashen, chairman of the railway executive association.

CATES AND SON MEAT MARKET

Announcement is being made week of the grand opening of the Cates and Son Market, Friday, April 23. Mr. Major Cates of Stratford has been employed as butcher for this market and comes to Spearman highly recommended. Our policy in the past has been to give the people what they wanted, and so many of our customers have demanded that we have a fresh meat department. We have made the necessary arrangements to handle fresh meat. Mr. Cates said today. Mr. Thomas will move his family to Spearman soon.

April 30-May 1 "Mayor of the Town" with George Murphy and Anne Shirley.

Farmers and farm owners will march to the polls on Saturday, May 2 to vote in the marketing referendum.

This issue, to be decided by ballots (not bullets) will be one of the most important to face wheat producers during the year according to F. R. Wallin, local chairman of the AAA committee. The vital feature of the vote is the fact that wheat loans are contingent on Quotas being passed. In order to pass, a two-thirds majority is required.

If Quotas pass, an 85 percent of parity loan on wheat will be guaranteed.

If Quotas fail to pass, Wallin points out that a disastrous slump in price is certain to occur because of record breaking stocks of wheat now stored in the United States.

He states that statistics show that there will be an estimated 1,428 million bushels of grain on hand after harvest, enough to last two complete years, and the greatest amount in history. In 1931, when prices hit an all time low, there was only 1,255 million bushels of wheat. Last year there was 1,331 million bushels, but wheat loans supported the price and it averaged 95.6 per bushel for the year.

The United States wheat carry over was almost 5 times as great in 1941 as in 1917—and our chances for export are much slimmer than 25 years ago.

For four years there has been a surplus of grain in the nation—but wheat loans have held up the price. Please note the following comparison:

1938 average loan rate 53.0
1939 average loan rate 63.0
1940 average loan rate 65.5
1941 average loan rate 98.0

Price received by farmer in 1938 56c; 1939, 69c; 1940, 68c and 1941 95.6c.

For convenience in voting, there will be four referendum boxes in the county. Polls will open at 9 a. m. and close at 8 p. m. The men in charge of the referendum in each community are:

Spearman, J. N. Jackson, J. L. Edwards and Claude Jackson. Vote at court house.

Gruver, Old Bank Building, F. A. Shapley, W. L. Harris and Darrel Cooper.

Oslo, school house, James Stedje, Gus Olsen, and Clarence Johnson.

Morse, school house, J. M. Miller, J. H. Davis, R. F. Womble.

If it is impossible to vote in person on May 2, any eligible voter may vote by absentee ballot. These ballots can be secured and marked at the County Agent's office now.

730 POLL TAX RECEIPTS ISSUED

Seven hundred and thirty poll taxes were paid before Jan. 1st according to information received from the Tax Collector's office today. Clerks issued 29 exemptions and estimated the over 60 years old vote at about 200. This brings Hansford county's voting strength to an approximate 959 voters.

Several county offices have not announced for re-election and no opposition has been filed to date.

Local Men Win Golf Prizes At Perryton

H. L. WILBANKS ASKS FOR RE-ELECTION AS SHERIFF, TAX COLLECTOR-ASSESSOR

H. L. Wilbanks authorized The Reporter this week to announce his candidacy for re-election to the office of Sheriff, Tax Collector and Assessor of Hansford county, subject to the action of the Democratic primary July 25.

"I have tried my best to render a service here as an officer, to treat everyone fairly. Where there were law violations I tried my best to apprehend the violators and see that the law was enforced," Wilbanks stated.

"I think our county has one of the lowest records of arrests in the State. Most of our law violations have come from out of this county and state, and a big majority of them have been brought before the courts of this county."

"I can honestly promise you the same kind of administration of this office in the future that you have received in the past. If my work and administration deserves your support and influence, you may know now that you will have my gratitude. I will endeavor to see each of you before election and ask for your vote in July.

Mrs Perry Hawkins is in bed with the mumps this week.

Floyd Wilbanks Better

Fay Klutts, today informed The Reporter that her father, Floyd Wilbanks, was gradually recovering from a recent illness. This paper wishes a speedy recovery for Mr Wilbanks.

BARBECUE DATE APRIL 28TH

For the fifth time a new date has been set for the 4H and Band Barbecue. Lion Club members voted to have the barbecue April 28th at the Doc Jones ranch. Club officials also voted to take out rain insurance, but the writer guaranteed that next Tuesday night would be fair and dry.

The cooks are raring to go and Marlon Glover says the beans will be worth waiting for. Buy your ticket from any Lion Club member.

VIC OGLE ASKS REELECTION AS COMMISSIONER

Viv Ogle, this week authorized The Reporter to announce his candidacy for re-election as County Commissioner of Precinct No. 2, subject to the action of the Democratic primary, July 25.

Mr Ogle says if re-elected he will continue to serve the county and precinct to the best of his ability as he has in the past. He urges the support and votes of the citizens of his precinct No. 2, in July.

School Heads Asked To Meet Saturday

R. E. Meek, chairman of the Hansford County Rationing Board has called a meeting of county school superintendents and teachers of country schools for Saturday 2 p. m. at the office of the board in Spearman.

At this meeting detailed information will be given on how to register industrial sugar consumers.

SUGAR SALES WILL STOP APRIL 27

Sugar sales in this county will stop April 27th at midnight, and will remain off the market for about one week for the nation wide sugar rationing.

April 28-29 owners of cafes, grocery stores, drug stores, bakeries, cafeterias and dining establishments must register at the Public School in their community. Registration booths will be open at Hitchland, Morse, Gruver and Spearman for industrial users above.

Individuals Register May 4

May 4, 5, 6 and 7th family heads will register at Hitchland, Oslo, New Hope, Morse, Gruver and Spearman. Anyone over 18 years of age can register for the entire family group. The person that registers MUST KNOW EACH PERSONS WEIGHT, HEIGHT, COLOR OF EYES AND HAIR AND AGE! This is important and a certificate of registration cannot be issued until the complete information is given.

Must Register in Own County

Persons who send their children to Spearman and live in an adjoining county must register at the nearest school in the county in which they live.

It is understood that two registration booths will be open at Morse to accommodate the Morse School district.

In other words the member of your family that registers the family group must go to the nearest public school in the community in which you live. Please register on the first day!

Each family is allowed to have in their possession 1-2 pound of sugar for each person of the family-group. Any excess sugar will be deducted from the rationing book. A penalty of 10 years in jail and a \$10,000.00 fine will put a stop to any would be sugar hoarders.

Booklets have been given to all "trade" users of sugar. They are requested to study this booklet and be able to answer all questions pertaining to their specific use of sugar.

When registration is over any one who failed to register will have to wait 2 weeks before applying to local rationing board. DO NOT go to school for War Ration books!

LIONS READY FOR CELEBRATION

Spearman Lions voted to give what-ever help necessary to help put over the coming Hansford County Celebration May 8-9.

Announcement was made of the Lion Club convention May 17-18-19 at Odessa, Texas.

W. I. Byron still needs several cars to transport the band to Amarillo Thursday and Friday. Call 10 or 12 and volunteer your car.

Rain insurance was taken out for the 4H barbecue and another date was set for April 28 to be at the Doc Jones ranch.

Payton Gibner, Vera Beth McClellan and Helen Richardson were guests of the club.

Next meeting, Tuesday, April 28 at Methodist Church annex.

TAG SALES ADD \$15,000 TO ROAD AND BRIDGE FUNDS

Approximately \$15,000.00 was added the county road and bridge funds from the sale of license tags during March and April this year.

Seven hundred passenger cars were licensed bringing in \$8,000.00; 84 commercial trucks, \$4,000.00 and 345 farm trucks, \$3,000.00.

Deputy J. B. Cooke said he expected another thousand or so dollars from license sales by the first of July.

Volunteer Wheat May Be Harvested If—

County Agent Hatton attended a meeting Friday at Dumas to hear recent rulings concerning volunteer wheat. Charley Thomas State AAA committeeman gave Hatton the following information:

"The only way excess volunteer wheat can be cut is to cut and store it on farm under market quota provisions. This means the farmer cannot sell the wheat, but can get a 50 percent loan provided the Marketing Quotas pass May 2nd. The only way excess volunteer wheat can be sold is by making less than normal production (county average 8.2) or underplanting allotment next year. If volunteer wheat is harvested this year NO allotments or parity payments will be made until after land is measured for 1943 wheat crop. If the farmer is not in compliance in 1942-43 he cannot harvest volunteer wheat.

Thomas said that the rumor of being able to feed volunteer wheat was false.

PARITY PAYMENT

"Parity payment of 10c per bushel times normal yield, will be paid this year to farmers in compliance," said C. L. Thomas State AAA committeeman, at a meeting in Dumas last Friday.

Parity payment covers allotment land only.

Mrs A. E. Roach had as her guests this week-end her brother S. W. Norwood and niece Mrs Tom Clay of Samnorwood, Tex.

No Cuff Rule Applies Only To New Woolens

went into effect April 1, concerning wool pants says "No cuff shall be placed on ready-made new woolens after April 1," this regulation does not apply to tailored suits ordered before May 30th, nor does it apply to any other cloth except new wool.

After May 30th, you cannot order any wool suit with cuffs, if double breasted coat is ordered you cannot have a vest. The length of pants will be regulated as to specified sizes. Unusually long coats, patch pockets, inside pockets faced with wool, vents, belts any type of fancy back, extra trousers, cutaways, and double breasted tuxedos will be forbidden.

It is unlawful to put cuffs on new wool ready-made trousers at home, at tailor shops are mercantile stores.

McClellan Chevrolet Co. Adds New Employees

Glenn Webb, formerly of Enid, Oklahoma has been employed by the McClellan Chevrolet Co., as head of the Gleaner Baldwin service department. "Mr Webb has had several years experience as a dealer and mechanic and we are proud to have him with us this year," said Bill McClellan.

R. Y. (Jonsey) Jones of Amarillo is back with the McClellan Company this year as parts and service man for the Avery combine.

C. L. Blandford, Wellington, Texas, has been with the company a short time and will work in the parts department.

Bill said that he still had old J. D. Mitchell with him and he knew that J. D. could get the job done in the motor repair department.

Spearman and vicinity received 3.05 inches of rain since last Thursday, according to the official report of F. W. Brandt. The rains started last Friday and continued in showers until Wednesday, April 22. Skies were overcast Wednesday and the forecast was rain for Thursday.

Here's how it fell:

April 17, .80 inch; 18th, .05 inch; 19th 1.80 inches; and 20th .40 inch for a total of the past 6 days at 3.05 inches. This record fall added to last weeks total gives Spearman a total of 4.71. (Only 4 other April's in the past 61 years recorded as much moisture as we have received so far on the 22nd day) Last April, 1941, we received 1.38 inches for the entire month.

A light hail fell in Spearman Sunday afternoon. No damage was reported.

Gruver experienced one of the worst hail storms in many years last Sunday afternoon. The ground was covered to a depth of several inches, in some places the hail stones drifted to a depth of four feet.

Altogether about 4 inches and half of moisture fell. Much damage was done to all gardens and newly planted lawns. Several hundred chickens were lost in the storm.

The Horace Hays house was damaged, and the roof was practically destroyed. Rooms of the school house were also damaged by the storm. Lee McClellan and his wife were driving home from Gruver Sunday and saw a funnel shaped cloud just north of them. This small cloud was responsible for the uprooting of many fence posts near the Ned Turner farm home. His house took a terrific beating from the hail.

School buses are still having a hard time traveling. J. H. Gruver says that a lot of wheat was damaged, but that he did not know how bad it was since roads have been impassable in that section.

MORSE

Four to six inches of moisture was reported at Morse this week. No hail damage has been reported from that section.

OSLO

2.3 inches of moisture reported. Slight hail damage in the south east part.

EAST

Mr and Mrs Ray Skinner reported 4 inch rain Sunday night. No hail damage.

HOLT

Three and one half to 4 inches of rain, no hail damage.

BARBECUE

Doc Jones says he will sponsor boat races instead of the 4H barbecue.

Sid Clark III

Sid Clark, our next door neighbor, has been absent without leave from his barber shop the past week. Sid is under the care of a specialist in Amarillo and you can bet he will come back home as soon as possible.

W. A. James of Seminole, Texas is the new barber next door. He moved his wife and three sons, Charles, Dale and Walter to Spearman last week-end.

FRESHMAN NEWS

—Barbara Jean Daily

Well, six weeks exams are over once again, and are we glad. There are only five weeks of school left. I imagine everyone will be ready for 3 months vacation by that time.

We are very glad to have Floydcan back in school. She has been out two weeks. It has rained so much that a number of pupils who live in the country cannot get to school. If it ever stops raining maybe we will have everyone in school again.

JUNIOR NEWS

—Dickie Kiker

Six weeks tests are over at last, but that doesn't seem to lessen the tension any. Along with work on the Junior-Senior Banquet the Juniors have taken up a newspaper survey. It seems that Billy Miller is doing some advance work like this now so maybe these Juniors had better buckle down. With this survey, the students will study about outstanding editors, columnists, etc., in the United States and study the facilities for news service, as A. P. U. P., INS, syndicates etc. A short period will be devoted to propaganda analysis.

Miss Hughes came back from a meeting in Dallas. She bought the decorations, favors, etc for the banquet. It seems to be progressing fairly well for a bunch that have so many more things on their minds.

SENIORS

—Zola Mae Sheets

Only four more weeks until school will be out. What with the Junior-Senior banquet and all that goes with graduation we really have our hands full.

We received our report cards Tuesday. This is the last time we will get them until school is out.

Mary Lee Dacus is back in school this week after having been out three days last week. She went to Dallas to the annual State Future Homemakers convention.

Mona Burleson is also back after being out a week with the mumps.

Now that almost everybody has had the mumps, rainy weather has come to prevent our being in school all at one time.

The Seniors are still waiting for their class copy pictures from Mr Perry. We wonder if we will get them before school is out.

Yes, vaccine prepares you to beat trouble... now how does this oil work that principle?

From where I sit...

by Joe Marsh

VERY OFTEN these days, I get to thinking about the soldier boys at camp. And the sailors, too.

What worries me is . . . what happens when they get a day off after working their heads off all week? They go to town . . . and what then?

What happens? The answer is . . . mostly nothing! Because most towns near army camps just don't have nearly enough entertainment facilities to take care of the soldiers on leave. So the boys just stand around, leaning against lampposts or sitting on doorsteps. And sometimes, the local townfolk find themselves wondering what's changed the town . . . instead of pitching in to help the boys have a good time in decent surroundings.

In many towns, however, the situation is better. Many towns have nice, community places where a soldier can go sit down and "chew the fat" and enjoy some cake and milk, or maybe a good glass of beer. The boys like that. And they're not likely to get in trouble . . . because common sense tells you

nothing can be wrong about a couple of glasses of beer.

There's another reason, too. The beer industry is cooperating with the army and with the law-enforcement officers to help keep the places where beer is sold, clean and decent. The brewers don't want their beer sold to soldiers in places where bad conditions exist . . . and they're right.

Seems to me that we Americans ought to get together and do everything we can to make things pleasant for the boys who are in training. They're doing their duty . . . maybe we have some duties, too, in this direction.

There are lots of ways of helping. We ought to support them all. All of us have our part to play in winning this war . . . and making life a little easier for the boys in camp is something we all can do something about.

Joe Marsh

Like a plague, modern driving conditions are widely attacking motor oil—wasting it away. Nature can't modernize her oil. And the best refining even weakens certain natural "immunities" . . .

BUT CONOCO Nth OIL makes it all up—and then some—with its modern man-made preventives. They get the credit for its healthy record of more than twice the mileage averaged by five other fine oils in a Death-Test lasting till engines burned up.

The rival oils, in identical cars, under impartial observation, braved blistering Death Valley with a strict 5-quart fill apiece and no more. One gave out when Conoco Nth was still more than two-thirds up! None came closer than a bare 58% of Conoco Nth mileage!

Get this same Conoco Nth oil for the Spring change that your engine must have. You'll be getting the added modern synthetic, Thialkene inhibitor, to forestall the fouling attacks of highest engine speeds and pressures. Instead of breaking down into so-called varnish, gums and worse obstructions, your Conoco Nth oil can stay more like its own good self—to help your mileage stay up.

The out-and-out Death Valley victory proved it—and proved once again that an

OIL-PLATED engine lives long. OIL-PLATING, a recognized Conoco advantage through the years, comes from the other great synthetic in Conoco Nth. This exerts magnet-like action to envelop inner parts in close-bonded lubricant that doesn't all quickly drain down. Instead it stays plated in place—much as any other plating—and that's what the conventional movable oil film slides on!

You're one more remove from excess wear—from the hazard of repairs and delay these days. You're up to the Nth degree of oil mileage for your car. Change now at Your Mileage Merchant's Conoco station. Continental Oil Company

BLUE RIBBON WINNERS

Maybe you can't drop a bomb on Toyko—or maybe you are wishing there was some other way that you could get at those Japs—you can push the Japs ego to zero in a hurry, and boost Uncle Sam's pride to the high heavens if you plant a victory garden and produce 75 percent of your living at home.

Here's how those blue ribbon winners listed in last week's paper got their home food production to 75 percent. 1. They planted a garden large enough to produce 75 to 100 quarts of canned food per family member. Yes, some of their gardens halled out like those of Mrs Fred Cooper Mrs J. M. Ayres and Mrs Anson Ward, but they planted again, and some good neighbor's divided some of their garden with those lost in the hall.

2. Some used the cold storage lockers for meats, fresh fruits and vegetables. Recently Virdie P. Wheeler while recover-

ering from a tonsillectomy had the opportunity to eat fresh strawberries from the cold storage locker of Mrs E. W. McJunkin. These berries had been stored several months and were delicious.

3. Each family has two or more cows to produce sufficient milk and dairy products for their family.

4. Each family has 100 or more laying hens and produce 50 to 100 friers for home use.

5. They also provide pork and beef for their family needs, and best of all, they have records as proof of their accomplishments.

There were several families in the county who deserve honors for having sold enough eggs and dairy products to take care of their family living or nearly so: They are Leo Morrison, high

record on egg sale. E. W. McJunkin, good record on sale of both eggs and dairy products. W. O. Groves, M. J. Groves and E. T. Read, high record on sale of dairy products. Gilbert J. Brandvik, William C. Spearman, good sale of dairy products. All products sold were surplus, above family needs.

Producing your living at home is the patriotic thing to do right now for your family and your country. If you are interested in helping win the war join the Victory Garden Campaign.

Larance T. Dossett, Dennis B. Ford, Frank T. Kirkman, James F. Van Sant and Edgar V. Laakey are families having an order in for over 200 dozen jars for canning purposes the coming canning season. Join the army of Food for Freedom producers and help America win this war.

Uncle Sam asks us to Hoard Coal Now

Coal is one thing the Government definitely wants us to hoard this spring and summer. We are asked to buy coal now, if we are coal users, (1) to protect ourselves against a possible coal shortage next winter, and (2) to help make more freight cars available then for moving vital war material. Spreading coal shipments over a longer period than usual will do just that. Most folks wait until the last minute to order their winter's coal supply. Many millions of tons of coal must then be moved by rail in a very short time. Next winter's war needs and the tire shortage will put the greatest load on the railroads in their history. War freight must move first, and those who wait too long to order their coal may not be able to get prompt delivery when they need it. So we repeat Uncle Sam's friendly warning to us all. If you use coal, get in your winter coal supply now, in the off season, when transportation is available. You'll help yourself and also help win this war.
