

# THE SPEARMAN REPORTER

SIXTEENTH YEAR

Spearman, Hansford County, Texas, Friday, August 22, 1924.

NUMBER 36

## \$1,000 --- THE COW, SOW AND HEN!

Men who have made a study of the business of farming and who have checked up hundreds of farms, state that every farm should raise yearly at least \$1,000.00 profit with "The Cow, The Sow, The Hen." Here is how it is done:

5 Good Dairy Cows will bring in \$80 each, or ..... \$ 400.00  
15 Good Hogs at \$20 each will bring in ..... 300.00  
150 Good Laying Hens will bring in \$2.00 each ..... 300.00  
Over and above all expenses for feed ..... \$1,000.00

### REMEMBER:—

Prosperity follows the dairy cow.  
The hog is the farmer's best friend.  
Poultry products are worth more than wheat, barley, rye, buckwheat, flaxseed, rice and sweet potatoes combined.  
Foresight, thrift, efficiency and labor will bring prosperity to your farm and happiness and life's opportunities to your family.

## HOMESEEEKERS ARE COMING THIS WAY

The Wonderful Possibilities of the Spearman Country are Becoming Known to the Outside World.

That the Spearman country is attracting attention in all sections of the country, is made clear by the number of strangers in Spearman every day. And these strangers are men and women who are looking for homes. They want farming land, near a good school, where good water may be had at small expense, and where their neighbors will be 100-per cent American citizens. The Spearman country offers all of these things and many more, and the homeseeker and investor is beginning to realize it as never before. In this connection we are glad to mention the arrival in Spearman the first of the week of our old friend W. S. McNabb, for many years a resident of this country, now a resident of Mineral Wells, but who wishes he was back here. He blowed into town the other day with a party of sixteen, all looking for farm land. He showed them the country, and they were pleased. Some of them will come here to make their homes and others will follow. The Spearman country will become thickly settled within the next few years. It is coming, sure as sundown, and the man who gets in on the ground floor—who buys his land at the lowest price—had better buy this year. Land in this country will never again be so cheap as it is selling now. Among the prospectors charboned by Mr. McNabb were: W. W. Hoggard, wife and children; E. B. Petty, W. H. Hawkins and sons, J. C., P. F. and J. J. Hawkins, and Jess McNabb, a brother of W. S. After looking the country over, the party left Tuesday for their homes in Palo Pinto county.

### FOR SALE

Restaurant and meat market for sale. Good location; good business. Will sell fixtures and rent building, or will sell building and fixtures. 36tf. T. P. TACKITT,

SPEARMAN

## At the Churches

### METHODIST

Had a good day at Grand Plains last Sunday morning and at McBride in the afternoon. Will go to Grand Plains Sunday morning, August 24, for Sunday school at 10 o'clock and preaching at 11. Will remain there until after orchestra practice in the afternoon.

Sunday school, at Spearman at the usual hour Sunday morning, followed by the revival services. Everybody should attend and take a part in the meetings.

J. A. WHEELER, Pastor.

### BAPTIST

The pastor preached Sunday morning. Some of the members did not come to Sunday school and therefore missed a good lesson and a "big preachin'." But, I guess that is alright. I am not asking for excuses, because I know you have several. But you had better write them down. You may forget them. Some day you will be called upon to tell why you treated the Lord and his house with contempt. Not only that, but some of you have children in your home. You rush them out on work days to make a few dollars, but on Sunday morning you say to them, "well, this is Sunday; we'll take it easy today." Or maybe you will say, "now ma (or wife) don't you guess we better go see the children; we be so busy we can't go on do. Or maybe we better go to the river; you've worked so hard." You didn't say one word about yourself or ma being tired on work day; did you? Now, I know you must look after your business or it will get away, but what about the Lord's work. You work and eat but you say, "to hell with the Lord's work." I know what you say about the preacher: "It's none of your business if I want to take my family to the creek on Sunday for a little outing." You are right, but on the other hand, as the Lord's preachers are told to tell them the way of life. The Lord has said to me and to all other preachers, to go and warn men, whether they hear or not. Your failing to hear does not clear us; we must keep on keeping on. Some day you will understand. I pray that it will not be too late.

We are working in a meeting at Plemons, and trust that you are praying for the meeting.  
W. E. HAND, Pastor.

### JOKE IS ON THE CITY

The City of Spearman empounds certain animals found running at large within the limits of the said city, and holds them until the owner calls and takes them away. Recently the city officials put a two year old mule and a two year old filley in the "pound" and up to the present writing no one has called to claim the animals. The city, of course has to furnish feed for these animals, and they are, literally speaking, "eating their heads off." The owner of the mule and the filley will confer a great favor on the city of Spearman and particularly the city officials, by calling, paying charges and taking them away.

Read the Reporter.

## Seeing Things

## WALTER HODGES A SUICIDE

Lifeless Body Found in Road Near His Home on Tuesday Morning—Used a Shotgun.

Walter Hodges, farmer 30 years old, living two miles north of Spearman, was found dead in the road leading from town to his home on Tuesday morning.

The body was found by a truck driver, lying on the ground near his car, a shot-gun lying near by. A coroner's jury was immediately summoned and after an exhaustive investigation reported that in their opinion, the deceased came to his death by gunshot wounds self inflicted. The jurymen were: A. F. Barkley, F. W. Brandt, J. D. Hester, Edgar Womble, T. H. Taylor and W. D. Cooke. This young man was apparently getting along well, had raised a good crop and seemed to be enjoying life. His friends cannot account for his rash act.

The body was taken in charge by the Wilson Undertaking Company, and was buried in the cemetery at old Hansford on Thursday morning. The deceased was raised in Hansford county, having lived here practically all his life. He was a good citizen, and his friends throughout the county will grieve for his death.

### ROLAND PLANS BIG SALE

Geo. L. Roland has rented his 600 acre farm four miles south of Spearman to O. C. and Karl Raney, and is making preparations to move his family to Spearman, that their daughter, Miss Francis, may have the benefit of the Spearman schools. They will occupy their residence on Haney street. To make the move away from the farm possible, Mr. Roland is staging on September 10, a big sale of farm stock, implements, hogs, poultry, etc. Good farm machinery, work stock, milk cows, etc., will be featured at the sale.

### SOLD RESIDENCE PROPERTY

W. L. Davis this week sold his residence property in south Spearman to P. H. Jamison, prosperous farmer of the Holt community. Mr. Jamison will move his family to Spearman for the benefit of our splendid school. Spearman schools are drawing good people here from all sections. The school is our greatest asset.

### SCHOOL BOARD LETS CONTRACT

The contracts for carrying the school children to and from school were let by the school board the latter part of last week as follows: West route to J. D. Graham; east route to J. C. Livingston; south route to R. W. Little. The board did not sell the old school building as advertised, as the bids were considered too low. The board decided to keep the building and may find a use for it, instead of selling at a low figure.

## CHAUTAUQUA OPENS HERE NEXT FRIDAY

A Strong Program Every Afternoon and Evening for Five Days—Buy Season Ticket and Save Money.

The Chautauqua to be put on by the Redpath-Horner Company, opens in Spearman next Friday, August 29, and will continue five days. Chautauqua brings to us this season some of the very best entertainers in the United States. The program is a strong one, and the people of Spearman and vicinity who attend the sessions will not be disappointed. There will be five big days and ten high class entertainments are guaranteed. The business men of Spearman have gone to considerable trouble and expense to bring this excellent entertainment to our town, and we are sure that everyone will enjoy the sessions, and will appreciate the opportunity to see and hear the entertainers. Not a man in Spearman will make one penny out of these entertainments. Everyone works for the town and community free of charge. Elbert Hubbard once said: "For business we must depend on our friends; we can't expect any from our enemies." Let's all be friends. There are no pickpockets with this show. Come to see. Buy a season ticket and the expense will not be great.

Spearman Chautauqua, August 29 to September 3.

Mrs. Muri Jackson went to Amarillo Wednesday, where she will visit with relatives for several days.

A fine 11 pound son was born on Thursday, August 14, to Mr. and Mrs. V. H. Anderson.

Meet your friends at our place and visit. Plenty of room and seats. Seward-Hays Confectionery. 34tf.

FOR SALE—One touring Ford, in good condition, and priced at a bargain. See Rufus Raney. 34tf.

Mrs. Luther Cline and daughter Miss Opal and Miss Bernice Burran were shopping in Perryton Wednesday.

Mr. and Mrs. Dick James from Range visited their daughter, Mrs. S. E. Harbison, in Spearman this week.

M. L. Raney, father of O. C. and Karl, left Wednesday for Denver, Colorado, where he will visit one of his daughter's of that place for a while.

Dr. C. W. Austin of Mangum, was here the first of the week looking after business matters. The doctor owns a fine section of land in the Blodgett community.

\$40 to \$50 saving on your piano purchase. It costs you nothing to learn about this offer. Telephone or telegraph us at our expense, or write the Walker Music Company, Woodward, Oklahoma. 36tf.

We have just received a car of cane sugar and a car of Red Star flour. Get our prices before buying elsewhere for we have the best and our prices are right. 32tf. P. M. MAIZE & CO.

Dr. Powell, the eye, ear, nose and throat specialist, will be at Hale Drug store in Spearman on Wednesday afternoon and evening, September 3, Glasses fitted; tonsils and adenoids removed. I will be here every two weeks. 142f.

One good 3-row lister with planter attachment, in good condition, for sale or trade; 9 miles east of Spearman.

J. M. NORTH, Perryton, Texas. 33tf. Boost for Spearman.

One of the best pieces of work that has been ordered done by the city authorities in many a day, was the cleaning up of the wreck of the Hillhouse Drug Company, destroyed by fire several months ago. Joe Sollers is doing the work and when it is finished Main street will look much better.

## Hansford County Free Fair

October 7th and 8th, 1924.

The purpose of a county fair is to stimulate interest in the various products of the surrounding country, and develop a friendly rivalry among the people, thereby encouraging the growth of better crops and the production of better live stock within the country.

Everyone should be making preparations to attend this annual event.

WE APPRECIATE YOUR BUSINESS.

## GUARANTY STATE BANK

Spearman, Texas

## ANOTHER OIL WELL NORTH OF RIVER

Gulf-Whittenburg is One of the Best Producers in the Field—Brought in Last Sunday.

The Gulf-Whittenburg well, on section 2, block x02, seven miles west of Plemons, touched the second sand Sunday morning and shut down, awaiting orders to drill in. The well was then flowing about 80 barrels per day and has 80,000 feet of gas. It is the opinion of oil men that as soon as this well is drilled in, it will flow over the top of the derrick. Acreage around the new well is selling high as a cat's back. This new well makes eleven producing wells for Hutchinson county, and spreads the proven territory several miles west and north. It is located in the Whittenburg pasture, north of the river.

The Gulf Production Company is preparing to erect large storage tanks at the new well, and the Pantax Pipe Line Company is preparing to run a four-inch pipe line from their station at Pantax to the new producer. This great producer, located seven miles west of Plemons, on the north side of the river, would indicate that the real oil field is located north of the river and the gas south of the river. With its immense crops of wheat, cotton, corn, milo maize, alfalfa, and hundreds of other commodities, Hansford county does not need an oil field, particularly, but if it is here, we can't help but be glad.

### GUN CLUB IS GOING GOOD

A large crowd was out at the field last Sunday evening to participate in the regular weekly shoot of the Spearman Gun Club, and to watch the performance. The Club meets every Sunday afternoon for target practice and everybody is invited to attend the shoot. The shooters, however kindly request that everybody be as quiet as possible while a squad is in action. Motors should not be allowed to run and loud talking should not be indulged in. The enthusiasm displayed at a ball game is hardly admissible at a gun club meet. However, the members of the club invite everybody to come and watch the shooting. Everyone is cordially invited and welcome. The field is located west of the Santa Fe depot, and on the north side of the track. At the shoot last Sunday evening the following scores were made.

	sa.	bk.
McCarter	25	20
Gibner	25	21
Kelly	25	19
Campfield	25	20
Brandt	25	23
Clark	25	21
Roland	25	21
Mosely	25	18
Hughes	25	19

Typewriter ribbons and carbon paper at the Reporter office.

Earl Calloway is building a residence in the west part of town which he will rent.

James Riley and C. L. Koontz came up from Erick, Oklahoma, Wednesday to look after business matters and to visit with the latter's brother Harve Koontz.

## THE SPEARMAN BAND IS FOR EVERYBODY

This Organization is for Everybody and all Who Will be Invited and Urged to Attend Meetings.

The Spearman Band is not a private organization. It is for everybody and was organized for the purpose of furnishing music for the entire town and community. Everybody, man, woman, girl or boy, who can play an instrument now, or who wishes to learn to play, is invited to attend the meetings and help push the good work along. There is no reason for staying out if you wish to take a part. Don't wait for an invitation. The leaders in this band work have endeavored to see everybody whom they thought would take a part, but if you have been overlooked, come to the meeting on Wednesday night, at the school house. You can start now as well as you could at the beginning. And don't forget that you are welcome as the flowers in May. The band is being financed by the Spearman Farmers and Citizens Commercial Club, and this organization does not work in the interests of any particular class, bunch or crowd. It works for the best interests of Spearman and the Spearman country and that is just what the band is for. The band is an offspring of the Commercial Club, and its purpose is to assist the Commercial Club in the work of making Spearman and the Spearman country a better place in which to live.

Leo. Dacus made a business trip to Perryton Wednesday.

P. A. Lyon is building a new garage at his home in south Spearman.

D. H. Hammond is building an addition to one of his residences in the west part of town.

Mrs. Mattie Sheets is having a nice residence constructed in the south part of town.

The basement is about completed and the work of construction on the fine home of Mr. and Mrs. Cal Oldham will soon be well under way. This new residence is located just north of the school building.

### County Agent Column

Large amount of Poultry culling now being done.

Four demonstrations in culling poultry were held last week, and 19 people were present. These demonstrations were held at Lakeside, Woodrow, Hansford, and Grand Plains.

24 people met the county agent at Woodrow School house Friday night and discussed, extermination of rabbits, pure seed wheat, poultry culling, and the community exhibit for the Hansford County Fair. Mr. Jasper was elected to take charge of the Woodrow exhibit.

A poultry culling demonstration will be held at Mr. Cluck's Friday afternoon, August 22.

The County Agent went to McBride Sunday afternoon to discuss the community exhibit, pure seed wheat, rabbit extermination, and poultry culling. Thirty people were present.

A poultry culling demonstration will be held at Mr. Hemphill's Friday August 29th. Everyone is invited. The time is about two o'clock. It is easy to learn to cull your poultry. Remember the date and come.

Mr. Bridenstien, who is working for the Department of Agriculture of U. S. will mix grain in Hansford county about September 1. This poison is for rabbits and prairie dogs. If you need some poison, notify the county agent, and he will tell you when to bring your oats to have them mixed.

If you wish to learn to cull your poultry in order that you may get the most eggs this winter, call the county agent.

Pure seed wheat will pay. The County Agent will order pure seed wheat from the Kansas Agricultural College for you.

The first bale of cotton has been ginned in Stephens county that was in the "More cotton on Fewer Acres" contest. The producer used 1800 pounds of bran in poisoning the Grasshoppers, and received 30 cents per pound for the cotton.

Get rid of surplus male birds. Pen the male birds you wish to use in breeding pens next year.

Separate pullets and cockrels, both sexes will develop into stronger and more vigorous birds.

Produce infertile eggs only.

Advise with your county agent in regard to organizing an egg circle. Ask your County Agent how to preserve eggs in water glass for home use next winter, so the fresh eggs may be marketed when the price of eggs is highest.

Use a mash containing the necessary amount of animal protein will help to make the moult later.

Clean the poultry houses and premises daily. Disinfect at least once a week. This will help keep down insects and diseases.

"Home Brew Emulsion"

(Spray with a pump weekly.) Dissolve 2 pounds laundry soap in 1 gallon boiling water, as it cools add 1 gallon crude carbolic acid, and mix thoroughly with 2 gallons kerosene, spray houses, etc., weekly using 1 part emulsion and 7 parts water.

Another good spray is 1 part kerosene to 10 parts water.

10 to 12 pinches of sodium fluoride in the feathers is a good preventative or will kill all kinds of lice. An ounce of sodium fluoride in 1 gal. water make a good dip for same.

Potassium permanganate for Drinking Water

A 2 percent solution of potash permanganate used in the drinking water is a good disinfectant.

To Kill Blue Bugs

Thoroughly clean all poultry premises and paint houses, etc., inside and out with equal parts of carbolic acid and kerosene.

The County Agent has a list of men who live in Oklahoma who have seed wheat for sale. I have a letter from the Agricultural college of Oklahoma in regard to this seed wheat. The price of this seed will not be as much as the wheat from The Kansas Agricultural College, but may not be as pure as the wheat grown at the Kansas College. Those wishing to see this list may do so by calling at the County Agent's office.

YOUNG MEN—Invest and Save by insuring in:

The Amicable Life Insurance Co., of Waco.

The Missouri State Life Insurance Co.

The Standard Accident Co. of Detroit.

C. D. WORKS, Local Agent.

Spearman Fair, October 7 and 8.

# Satisfied Users and Owners of the DAVIS Milo Harvester DEVICE

When Writing These Men Include Postage.  
A Large Number of Satisfied Users are Not Listed.

Texhoma, Oklahoma,  
May 14, 1924.

Mr. Paul Davis,  
Sir:—

I have used the Davis Harvester Device and find it does all if not more than you claim. I think it the only way to gather maize. I like it fine as well as others who saw it work.

Yours,  
H. C. ZENTZ.

Hooker, Oklahoma,  
May 17, 1924.

To Whom it may Concern:

I consider the Davis Maize Picker one of the greatest labor-saving devices of the present for the farmer. Although it was very wet all last fall I cut 350 acres with one and 240 acres was cut with only three men. Of this 140 acres yielded over 20 bushels per acre. On account of the wet fall all the maize in the country was of a very poor quality; but my maize is better than much of the hand headed. After threshing I binned my maize and have kept it in the bin all winter and spring without heating.

H. C. DUER.

Campo, Colorado.

Dear Sir:—I was well pleased with your maize picker. I think it the best piece of machinery that a maize grower can own. I harvested maize, kafir and feterita for several parties around Campo, and they were all well pleased with the work.

Yours truly,  
PRESTON SIMER.

Liberal, Kansas,  
July, 1924.

Dear Mr. Davis:—Regarding the Maize Picker, I will say it is the best thing I know of with which to gather maize. I know mine has saved me money. Anyone thinking of cutting maize with a header can not afford to be without this attachment.

Yours truly,  
RAY STALCUP.

May 24, 1924.

Mr. Davis:—I have been well pleased with the toppler last fall. Also have always said a good word for it and will do all I can to get a few of them out, out here.

Yours very truly,  
ISAAB B. THIESSEN,  
Garden City, Kansas.

Mr. Paul W. Davis,  
Hooker, Oklahoma.

Dear Sir:—Will say your maize harvester is just the thing for the farmers who plant maize, for it sure is a labor saver. I would not raise maize without one.

Yours truly,  
LOUIS LONG, Optima, Okla.

Guymon, Okla.  
May 28, 1924.

Mr. Paul W. Davis,  
Hooker, Oklahoma.

Dear Sir:—I cut about three hundred acres of maize last fall with one of your milo picker attachments and it sure worked fine. One of the neighbors who headed his maize by hand said that he threw more maize over the wagon than this machine leaves in the field. The machine saves a great deal of labor in cutting and then I can get threshed much cheaper than ordinary header cut stuff. I would not try to cut another crop without one of the milo picker attachments.

Yours very truly,  
W. A. RALSTON,

July 24, 1924.

Dear Mr. Davis:—I have used one of your attachments. I cut 225 acres of maize. Same as hand cut threshing; also had good feed out of pummies. I can recommend your attachment to anyone raising maize or Kafir.

Yours truly,  
D. A. ARTZ, Dalhart, Texas.

Texhoma, Oklahoma,  
June 20, 1924.

Kind Sir:—

I am writing you a testimonial for your attachment for headers. I will say that I sure think it a good attachment and that I had success with mine.

I and my wife headed 450 acres of maize last year with the attachment and will have something like that this year.

Maize is not to be cut while green as I found out, but soon as it is ripe the attachment sure does the work. Hoping you success in selling many more of them this year, I remain, as ever  
FRANK A. PACK, Texhoma, Okla.,

Hooker, Okla.  
May 4, 1924.

To Whom This May Concern:—

I have used one of the maize pickers for two seasons and can say I like it fine. They save both time and expense. They save in several ways because you can gather a large crop in a few days, where it would take a month to gather it by hand.

You many also save a large grocery bill by gathering quick and not boarding hand so long. This means a great deal to the farmer now days.

I have worked for Mr. Davis and know that he builds his picker with the best materials. They are not only built well; they run well.

I say this for the pickers because I know anyone having used one once will not gather by hand, losing both time and money.

CHARLES PRESLEY,  
Stonington, Colorado  
May 18, 1924.

Mr. Paul W. Davis:—  
Dear Friend:—

I will drop you a few lines in regard to the maize picker I bought from you and will say it sure does the work. It doesn't take near as much labor to handle a crop with it as it does with a common header and one can put maize in a big stack that is as high as it is wide as it was last fall. When I threshed my crop it was dry and in good shape. Had 3,000 bushels. Some of the boys timed it when we were threshing and found it running 55 bushels in 6 minutes, so the threshing bill came cheaper that way. They are alright.

As Ever, yours,  
B. R. HOLLAND.

## The Modern Woman's Favorite Car

Chevrolet Coupe appeals strongly to the women. Its graceful lines, fine finish, extra wide doors, big cheerful windows, and deep upholstery meet her requirements. Its sturdy construction, economy, ease of operation, and roomy package compartment convince her of its practical value. More and more women are becoming owners and drivers of their own transportation units. For business, social, or marketing purposes, Chevrolet saves an immense amount of valuable time and conserves the energy of today's busy woman.

## IT PAYS TO USE GOOD SEED WHEAT

By H. M. Bainer, Director,  
The Southwestern Wheat Improvement Association.

Even though Kansas, Nebraska, Oklahoma and Texas have just harvested a big wheat crop, good authority has conservatively estimated that, through the use of better seed alone, the total yield could easily have been increased 25,000,000 bushels. This is equivalent to an additional profit of \$25,000,000, as good seed costs very little more than ordinary seed. In fact, if better seed had been sown, thereby improving the quality of the crop and eliminating smut, rye and mixtures, the increase in value would easily have been twice this amount.

Mr. A. H. Leidigh, agronomist of the Texas Experiment Station, says: "Through the use of superior varieties of seed wheat in Northwest Texas, during recent years, large increases in yields have been secured. This kind of seed been uniformly sown last fall, in the place of country-run mixtures, the profits to Panhandle farmers this year would have been increased thousands upon thousands of dollars."

Central-North Texas is known by the mixed wheat it grows; pure seed is almost unknown. The Texas Agricultural Experiment Station has repeatedly tested the mixtures grown, as well as graded versus ungraded seed, and has found that the yield can be greatly improved through pure seed. The Station is ready to recommend and help locate seed of certain pure wheats for sowing in this part of the state."

Country-run seed is generally improved as was in town

### ACTUAL RESULTS FROM GOOD SEED.

In Kansas (From 6 1/2 to 12 bushels gain.) County Agent Roy E. Gwin, of Columbus, writes: "Last fall, Mr. W. H. Shaffer sowed part of his field with a pure variety of wheat which gave him an average yield of 31 bushels per acre, while the balance of the field sown with ordinary seed yielded 21 bushels per acre." Mr. G. L. Bainer, a well known farmer of Scott County, reports a gain of 6 1/2 bushels per acre in favor of good seed. Still another farmer from Pratt County reports 23 bushels an acre from good seed, while his neighbor sowed "just wheat" and harvested 11 bushels an acre.

down one grade of rye. On town attending delivered in Kansas, 1923, to April, included over 3 attending to with enough from one to a loss of approval attend this one market is son.

Mixed seed is one variety in mixed seed such conditions, but it is the question to assume that a two or more varieties is unprofitable. Crops from this kind do not ripen evenly, and when grade as "mixed," with considerable reduction in price.

The dry method—applying copper carbonate for smut.

In Nebraska (A gain of 9 bushels.) County Agent C. R. Young, of Dakota City, says: "I furnished seven farmers with good, pure seed wheat, which outyielded the wheat from the common seed of the county by 9 bushels per acre."

In Oklahoma (A gain of 3 bushels.) A report from County Agent Tom M. Marks, of Ellis County, says: "During the past three years, I have kept an accurate record of the yields of twenty fields of wheat sown with good seed of adapted varieties in comparison with the yields from fields sown with the common varieties. All fields were handled alike, so far as preparation, date of sowing and quality of soil were concerned. The three-year average showed an increase of almost three bushels per acre in favor of the adapted varieties."

In Texas (A gain of 7 bushels.) Our last year's records show that eight Panhandle farmers sowed a total of 968 acres of wheat; they made an average yield of 17 bushels per acre on 460 acres, sown with good seed, and 10 bushels per acre on 508 acres, sown with country-run seed.

### Sow Clean Seed at Least.

Even though country-run seed may lack purity, it can be greatly improved by cleaning and grading. Good authority states that 20 per cent of the wheat sown in the Southwest consists of cracked, immature or injured kernels that will not grow. The feeding value of these kernels, which are useless as seed, will pay the expense of running the seed through a fanning mill. It is generally known that the best wheat farmers, who clean their seed and sow only the purest, obtain yields of at least 3 to 5 bushels more than the country average.

### Avoid Rye.

The presence of rye in wheat cuts down the grade as well as the price. It darkens the flour and produces a heavy bread. Five per cent of rye in a choice milling wheat will reduce the price from 3 to 5 cents a bushel. Over 2 1/2 per cent of the Hard Winter wheat coming into Kansas City during 1919, 1920 and 1921 graded

The wet method—applying formaldehyde for smut.

### Look Out for Smut.

The loss in the Southwest this year from stinking smut is greater than for the past several years—amounting to millions of dollars. Fully 90 per cent of this loss could have been prevented through seed treatment just before sowing. The cost of the material for treating seed is from 1 to 5 cents a bushel.

### Treatments for Smut.

Use of Formaldehyde. The old standard and dependable remedy for smut consists of dipping, floating or sprinkling the seed in a solution containing 1 pint of formaldehyde to 40 gallons of water.

Use of Copper Carbonate. This new, dry method of seed treatment is now being quite generally recommended by agricultural colleges. It consists of thoroughly mixing the seed with copper carbonate dust, at the rate of 2 ounces to a bushel. "Coppercarb," a well known commercial mixture may be used at the rate of 4 ounces to a bushel of wheat. This treatment cannot be made by hand; it must be done in some kind of a mixer, either home-made or commercial. An old churn, as shown in the illustration, or a concrete mixer will do.

For more information on either of the above methods, see your county agent or write the state agricultural college.

### How and Where to Obtain Seed Wheat.

Those desiring to locate pure or certified seed should see their county agent or write the state agricultural college. The Southwestern Wheat Improvement Association is locating a lot of good seed, as well as the districts needing seed. Where seed is needed, arrangements are being made so that the local mill, elevator or county agent will have on hand a supply of suitable seed, which can be bought or exchanged, usually on a cost basis. If you have more seed than you need or if you desire good seed and are unable to obtain it through your county agent, write The Southwestern Wheat Improvement Association, 846 New York Life Building, Kansas City, Missouri.

Edwards, deceased, were granted to me, the undersigned, on the 12th day of June a. d. 1924, by the county Court of Hansford county. All persons having claims against said estate are hereby required to present the same to me within the time prescribed by law. My residence and post-office address is Spearman, Hansford county, State of Texas.

A. F. BARKLEY,  
Administrator of W. P. Edwards, deceased.

#### WORDS OF GOOD CHEER

Any man inclined to worry over his misfortunes should read the following, penned two thousand years ago:

"Five times received I forty stripes save one; thrice was I stoned; thrice I suffered shipwreck; a night and a day have I been in the deep. In journeyings often, in perils of water, in perils of robbers, in weariness and pain thirst, in cold and nakedness."

Whoever had misery dealt to him like that? Still, Paul could remain cheerful under it; and at the end, when facing the violent and disgraceful death of a criminal, he could write:

"I have fought the good fight. I have finished my course, I have kept the faith."

Verily, a faith like that will remove mountains, and is priceless to its possessor!

#### BLACK HULL FOR SALE

This is good seed from summer fallow land. Have tried it out for two years, both years testing higher and yielding better than my Kanred. Also, grows a strong wiry straw and a compact head, in which the kernels are well covered so they do not bleach from the weather, nor shatter easily from hail. Until September 1, will sell this seed at \$1.25 per bushel. Will exchange with members of Wheat Growers Association on same basis. Weigh at Equity Exchange or McClellan Grain Company.  
R. L. PORTER.  
3414p.

#### THE AUTO AS A LEVELER

There are no strangers on the open road. Therefore it is good for every one to occasionally cast aside the business and take to the road. The automobile has made this mode of recreation within the reach of all. There are few so poor but they can command the price of a motor car—be it nothing better than a second-hand dilapidated flivver. The shining car of the millionaire and the humble bus of the lowly tourist are parked aside by side in the open places. They touch elbows for the time and for the time are brothers in fact. Each gets an insight into the others viewpoint of life and a fraternity is established.

On the open road the troubles of one are the troubles of many. Few there be who will not halt to lend aid to a fellow traveler in distress. It is a free masonry born of an idea that possesses all to get away from the conventional and for the time being be again a normal person, living a normal person, living a normal life and thinking normal thoughts.

On the open road the troubles of our civilization are cast aside and those who take to the road are revealed in their true character, stripped of the things they pretend to be.

Should you doubt this world is yet a friendly old place, just wheel out the old bus and take a flier into the great outdoors, equipped with only a frying pan and a bit of canvas. You will find that there is still such a thing as hospitality in the land.—Chillicothe Valley News.

#### SOME MORE BONEHEADS

A few nights ago a blind Ford had the nerve to run into a big Studebaker with both eyes wide open on the streets of O'Donnell. When the cars were separated, the Studebaker had to go on the shelf for repairs, while the Ford went merrily along. No one was hurt in the mixup.—O'Donnell Index.

The Lord seems to take special care of the Bonehead family. Whenever you see a fellow driving a blind Ford, or any other blind car for that matter, you can safely bet that he is a lineal descendant of old Damphol Bonehead who climbed out on the limb of a big tree and cut the limb between him and the tree. But the Lord broke the fall by hanging old Damphol's shirttail over a fence post just before he hit the ground.

Smarty Damphol, the oldest one of Damphol, ran a race with a passenger train to the crossing. The train won, and a big crowd attended the funeral of Smarty's three friends who rode in his Ford as he raced with the train. Smarty was thrown clear of the wreck and landed safely on his head. Smarty has a new horn on his car, which the blows every time he crosses a rabbit trail. He does this to let the rabbits know he is coming.

Thirsty Bonehead Damphol, the youngest brother of Smarty, bought a bottle of rip-gizzard from a bootlegger and treated his friends but the Lord took care of Thirsty by allowing his friends to drink it all up from him.

The friends were all buried the following day.—Sterling City News-Record.

#### TRACTOR TO TRADE

## U.S. Royal Cords

BALLOON ~ BALLOON-TYPE ~ HIGH PRESSURE  
Built of Latex-treated Cords

TIRE building took a big step forward when the makers of United States Tires invented the Latex Process.

The added strength and wearing quality given by Latex-treated cords is something that the user of Royal Cords can tell you about from his own experience.

Royal Cords are the standard of value in cord tire equipment—even more certainly today than ever before.

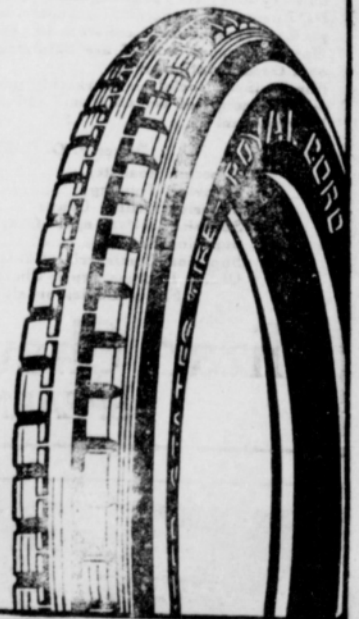

And this holds good whether you are considering a High-Pressure Tire, a Balloon-Type Tire to fit your present wheels and rims, or a Balloon Tire for a 20 or 21 inch wheel.

United States Tires  
are Good Tires

Buy U.S. Tires from

Spearman Motor Company

# Flour - Sugar - Salt - Coal - Grain Drills

We are stocking heavy in the above commodities and by buying in large quantities are enabled to give our customers the advantage of the lowest prices.

Car load of Great West Flour—made in Amarillo—on hand now. The price is right and you had better buy right now. This flour is a home product; made by home people and by buying from us, you are dealing with home people. There is no better flour on the market. Try it.

Car load of Stock Salt will arrive next week.

Plenty of Coal on hand. Fill your coal bins now. Bring in a load of wheat and return with a load of coal. Load both ways; there's money in it.

Call and inspect the "Thomas" grain drill. We guarantee this drill to do the work right, and also guarantee that the price is right. We want you to see this drill before you buy.

## USE

## MORE ELECTRICITY

Are you taking advantage of the many convenient and labor-saving devices electricity affords? Electricity is about the only thing that is cheaper now than before the war. This is caused by the practical application of service and economical operation.

Both power and light rates will be lowered when enough electricity is used to justify it.

Let Electricity Do Your Work.

### TWENTY-FIVE YEARS AGO

Ladies wore bustles. Operations were rare. Nobody swatted the fly. Nobody had seen a silo. Nobody had appendicitis. Nobody wore white shoes. Nobody sprayed orchards. Cream was 5 cents a pint. Most young men had "livery bills." Cantaloupes were muskmellons. You never heard of a "tin lizzie." Doctors wanted to see your tongue.

Milk shake was a favorite drink. Advertisers did not tell the truth. Nobody cared for the price of gasoline. Farmers came to town for their mail. The hired girl drew one fifty a week. The butcher "threw in" a chunk of liver. Folks said pneumatic tires were a joke. Nobody "listened in" on a telephone. There were no sane Fourths nor electric meters. Strawstacks were burned instead of baled. Publishing a country newspaper was not a business—it was "charity."

People thought English sparrows were birds. Jules Verne was the only convert to the submarine. The airplane was a dream and discounted by most everybody as impractical. The radio was unheard of and probably unthought of by its inventor. Wireless telephaphy was regarded as a thing impossible and the man who talked it was regarded as a nut. Prohibition for the entire United States was a thing discussed and

agitated, but not believed to be a possibility.

### A SPECIFIC FOR VANITY

Successful actors, like other successful people, need to be on their guard against the "swelled head". Joseph Jefferson, known and loved all over the country for his Rip Van Winkle, once told John Drew how he himself was cured of an incipient case of that malady. Mr. Drew retells the anecdote in his entertaining book of reminiscences:

Mr. Jefferson told me that when he had made his big success with Rip Van Winkle he thought himself fairly important. One night as he was going to his room in the Fifth Avenue Hotel a stockily built man with a grizzled beard got into the elevator with him. "Are you playing in town now, Mr. Jefferson?" he asked.

Mr. Jefferson as he replied in the affirmative rather pitied the man for his ignorance and his total lack of understanding of what was going on in the world. What a simperton he must be who did not know that "Rip" was having an extraordinary run. When the man reached his floor and got out Mr. Jefferson asked the elevator boy: "Who was that?"

"Why," said the boy, in his turn pitying Mr. Jefferson for his ignorance. "that's General Grant!"—The Youth's Companion.

Some men can save money and others can hardly save their breath.

A new baby upsets a household, and a new car often does the same thing.

### TOPICS IN BRIEF

Many of us live expensively to impress our friends who live expensively to impress us.—Columbia Record.

Maybe wild life is not disappearing; maybe it is just effecting a merger with domestic life.—Little Rock Arkansas Gazette.

Any President can lead congress if he can get advance information concerning the way it is going.—Muskogee Phoenix.

At the Methodist General Conference the only big fight was staged by the pacifists.—Boston Shoe and Leather Reporter.

Republican senatorial race in New Jersey should be a sharp conflict. The candidates are Edge and Kean.—Little Rock Arkansas Gazette.

The theory that pulling down the rich will help the poor is beautifully adorned by the presence of fifty thousand vagrant children in Petrograd alone.—Columbia Record.

Civilization is a complicated system that defeats its own ends by making it easier for weaklings to survive.—Jersey City Journal.

Anyhow, it is a low-down exhibition of spite on the part of Manhattan to revenge itself on our "dry" Southern delegates by closing all the wet spots during the convention.—Columbia Record.

What Mr. Coolidge needs most is not a platform, but a raft.—Columbia Record.

If we keep cool with Coolidge, do we have to freeze to death with Lodge?—Dallas News.

It will soon be time to waste sympathy on husbands left at home during the summer.—Life.

Cal's steam-roller is fine at Cleveland, but has the front-wheel shimmy in Washington.—Dallas News.

Just to make it interesting, we dare either party to put in a bobbed hair plank.—Associated Editors.

And perhaps there would be more religion in business if there were less business in religion.—Columbia Record.

What annoys us during the season for building political fences is the constant sound of the hammer.—Buffalo Evening News.

The paradox is that prohibition put over by the will of the people, is defied by the won't of the people.—Columbia Record.

World's front-page editor says, "Old Glory thinks Coolidge is bluffing." So did the Boston police.—Wall Street Journal.

The former Crown Prince is now selling threshing machines. The one operated by his father didn't prove a success.—Tampa Tribune.

The Women's International League for Peace and Freedom forgets that that wasn't the way it got the freedom.—American Lumberman.

There wouldn't be the necessity to investigate so many folks in Washington if there were more investigating done before they get in Washington.—Columbia Record.

Plans are being made to utilize hemp left over from manufacture of cordage, in making a substitute for lumber.

To generate electricity without using coal, a European inventor has built a windmill that charges storage batteries.

The American condor, the largest bird that flies, is fast becoming extinct, though a few still exist in the Sierras.

Russia has raised the rents on its fishing concessions to Japanese 15 per cent over last year, and made a special assessment of 5 per cent of the rent to be used toward the upkeep of hatcheries.

Guido of Arezzo, one of the founders of musical notation, was the inventor of the Sol-fa, using the syllable ut for doh, and si, the seventh of the scale, was not added until the seventeenth century.

Transportation development will make possible the placing of an observatory at the North Pole and thus allow astronomers to make observations in the land of six months nights, declares one explorer.

At Philadelphia thirty art students were awarded "traveling scholarships." If only some of our saxophone students could be awarded something like that!—American Lumberman.

The first skywriter to come to America got \$1,000,000 in a year. And yet we have been led to believe that the higher literature did not pay.—New York Herald Tribune.

### PIGS FOR SALE

100 pigs, weighing from 40 to 80 pounds, for sale at once. If you want one or more pigs, see me. 36t3p CHAS. T. RODGERS, Eleven miles south and two west of Spearman.

### RENTS STILL ARE GOING UP.

Nation's Increase in Last Three Months Is 3 Per Cent, Report Shows

New York, April 26.—The nation's rent bill continues to rise, according to a survey by the industrial conference board, an organization of employers. The increase was 85 per cent in the past ten years, 9 per cent in the last year, and 3 per cent in the last three months.

## Who Is the Goat?

Certainly not the landlord. Every time your rent is raised, the landlord gets just that much more of your savings of the pleasure, comfort and convenience that that money would buy for you.

How long will you continue to be the goat?

Your rent money, or possibly just a little more, will make the monthly payments on a home of your very own.

To those interested in becoming home owners we offer free information on the financing, planning and building of homes. Come in and look over our home plans, and let us tell you how you can have a home for the same money that you are paying out for rent.
