

THE SPEARMAN REPORTER

Year

Spearman, Hansford County, Texas, Thursday, July 17, 1930

Number 32

\$2.00 In Tests Will Oklahoma where, July 22

Entire Noon to be Paved
The activity commission next Tuesday afternoon, July 22, at 10 o'clock, will meet to consider the proposition to pave the street between the school building and the State bank building and the State office building. The commission is very anxious to complete the work before the meeting on next Tuesday afternoon, July 22, at 10 o'clock, when the work will be considered. There will be a "Protest Meeting" at this time any person who owns property along the route on which the paving is proposed, may meet with the commission and protest the paving, should they wish to do so. The date of the meeting has not been set.

Entire Voting Begun in Wednesday Morning
The voters who cannot be at home July 26, when the first primary will be held in Texas, have privilege of beginning Wednesday morning, of casting absentee ballots in sealed envelopes, with county clerk. The legal privilege will close July 22, as the law provides for the provision applies for more than 10 days and not "three" before the date of election.

Summer vacationists are expected to avail themselves of this privilege in large numbers this year.

Session of Commissioners Court
The commissioners court of Hansford county convened Monday morning at 10 o'clock, all business was transacted. Very little business was done. Only routine business such as allowing bills, etc., attended to. The court adjourned shortly after noon, Monday.

Recovering Nicely From Appendicitis Operation
Mr. Gill was taken to the New-Hampshire hospital last week for an appendicitis operation. He is recovering nicely, and reports that he will be able to return home during the coming week.

deville at Lyric Tonight and Friday Night
The musical Laynes are playing at Lyric Theatre, Spearman, tonight and Friday night. They have a good show and audience, and always well received. They feature the "Texas Girl" in acrobatic dances, variety orchestra, singing and entertainment, all of which is class. This company played Spearman two years ago.

G. Hazel, attorney at law, from Littlefield the first of week, to take a look at Spearman, county seat of Hansford county, and the surrounding country, with a view of locating Attorney Hazel was very favorably impressed and may decide to locate here.

Small Rally at Pampa Friday Night To Be Gigantic Event
Implementing his many friends' wishes, Senator Clint Small, candidate for governor, will arrive in Lubbock to Pampa Friday afternoon to make his only campaign speech in the Panhandle at a huge roundup of Small voters on the courthouse lawn at 8 o'clock.

Although he can ill-afford to spend the time to campaign in a town that is obviously for him at 100 per cent, Senator Small is coming to Pampa to express his gratitude for the loyal support of the Panhandle citizens here.

Chairman of the Pampa Small Governor, club said. Lee Small, state campaign manager, will be present in a telephone conversation with Judge Willis yesterday afternoon, and the senator had agreed to spend a few hours in Pampa after the Lubbock Speech.

The Small rally here Friday night is regarded by chairman of the clubs in the Panhandle as

Will Attend Small Rally At Pampa

A good sized delegation of Spearmanites will go to Pampa tomorrow, Friday night, to attend the great Clint Small for governor rally. Mr. Small will fly from Lubbock to Pampa and will speak at 8:00 o'clock, p. m. This will be Mr. Small's last appearance in the Panhandle during the campaign. His managers know that this section is strong for Small, anyway, so the campaigning will be done in other sections of the state. The Spearman delegation will very likely assemble at c. of c. headquarters and leave here about 3:30 or 4:00 o'clock. Those who have been over the road of late state that the best way to get to Pampa is to go by Borger.

Recovering Nicely From Operation

A. J. Curtis, twelve year old son of Mr. and Mrs. Homer Allen, will be brought home today from Northwest hospital at Amarillo, where he has been under the care of specialists for the past two weeks. A. J. underwent an operation for mastoiditis at Northwest hospital, and his many friends will be glad to learn that he went through this trying ordeal in fine shape and soon will be up and about again, as well as ever.

Director's Regular Meetings To Be Resumed Next Week

The directors of the Spearman chamber of commerce dispensed with the regular Wednesday noon meetings during the rush of the harvest season, but will resume the same on Wednesday of next week. There is much business before the c. of c. at the present time and the directors and Secretary Ratekin are anxious to again get in the harness and begin pulling for Spearman and the north plains.

Will Discuss Wheat Carnival

The matter of a great wheat carnival for Spearman, to be held the latter part of August or early in September, will be one of the important matters to be discussed at Wednesday's meeting. The plan is that this big venture will be engineered by the chamber of commerce and American Legion, assisted by all other organizations of the town. The proposition will very likely assume definite proportions at Wednesday's meeting.

Mr. and Mrs. Tom Pyburn and little daughter, Bettie Jo, came Sunday from Woodward and are the guests in the Walter Beck home. Mrs. Pyburn is a sister of Mrs. Beck.

Hansford County Farm Lands Are In Demand

W. S. McNabb, president of the McNabb Land Company, with offices in Spearman, Dalhart and Amarillo, reports that Hansford county farm lands are in almost all parts of the county. This firm has sold thousands of acres of farm and ranch lands throughout the north part of Texas and enjoys a good business at all its offices.

Mr. McNabb reports the sale of \$81,600 worth of Hansford county farm land last week. The land was sold in three days to four different buyers. The owners of the land will move to their new possessions at once, and begin making improvements on the same, so we understand.

Mrs. D. W. Hazlewood and the children are spending the week with relatives and friends in Texhoma and out in Cimarron county.

Miss Sybil Baley and Miss Opa Faye Ownbey are spending the week at the home of Mr. and Mrs. Ralph Bort of Gruver.

Mr. and Mrs. Tom Pyburn and little daughter, Bettie Jo, came Sunday from Woodward and are the guests in the Walter Beck home. Mrs. Pyburn is a sister of Mrs. Beck.

Mr. and Mrs. Alvino Richardson were in Spearman the first of the week, visiting and attending to business matters. Mr. Richardson informs us that he has sold his electrical business in Amarillo, and next week will move back to their home at Old Hansford. Mr. Richardson's health has not been the best for several years and of late he has been feeling the effects of the close confinement in his Amarillo business, hence he decided to sell it out and come back to Hansford county. Their many friends throughout this section will be glad to learn of their decision to return here, and sincerely hope that Mr. Richardson will soon be fully recovered.

Trapshooters Will Meet in Spearman, Sunday July 27, For Shoot

On invitation of Fred W. Brandt, the Panhandle Trapshooters Association will meet in Spearman on Sunday, July 27, for a regular shoot. Mr. Brandt has been a member of this organization for a number of years and has won a number of prizes in the contests. The trapshooters meet at any convenient town where a local gun club is organized and functioning and keeps a good trap in working condition. Nothing gets the goat of a trapshooter quite so badly as a trap that works only a part of the time, so we understand. The shooters will probably arrive in Spearman on Saturday night and Sunday morning, July 26 and 27, and will devote a great part of the 27th at the shooting grounds north of the Santa Fe.

They are a bunch of fine fellows and should be royally entertained while in Spearman.

Practice Shoot Sunday
Fred W. Brandt and Sid Powers announce a practice shoot for the Spearman Gun Club on next Sunday afternoon, beginning at 3:00 o'clock. All trapshooters are invited to be present and take a part. Arrangements for the big shoot on the 27th inst. will be discussed at that time.

Again Own Spearman Abstract Company
M. L. and L. S. McLean and J. E. Gerber are again owners and managers of the Spearman Abstract Company, including all books, records, office fixtures and supplies, and the business of this concern. Judge Flesher, who conducted this business for a while, closed out his interests here and returned to his home in Canyon.

McCellan Chevrolet Co. Acquire A New Member Of The Sales Force

On Tuesday morning of this week the local Chevrolet force were delightedly surprised by the appearance in their midst of an all-wise sage of the fowl kingdom. It is none other than a big, green owl, with large yellowish, blinking eyes.

In making his first appearance he perched himself upon the parts counter, looking at the customers as they came and went their way. He seemed perfectly contented in his new home and courteous and zealously greeted every customer alike with that winking eye, politely announcing his all-wise message to every prospective customer who entered the room. He seemed perfectly contented during the entire day, contenting himself with the role he was destined to play, but when the closing hour drew near, he was noticed by his keepers that he was growing impatient and restless. Before he could be persuaded to remain alone during the night, two of the boys were compelled to provide a nice, cozy bed for him near the front show window, where he could blink his greeting and sound his message to every passerby.

The Chevrolet force invites everyone to drop in and get acquainted with this new-comer at any convenient time.

Pringle P. T. A. Will Entertain Friday Night

The Parent-Teachers Association of Pringle will entertain the people of northwest Hutchinson county and southwest Hansford county on Friday night, July 18, with a big "Ice Cream Social." This entertainment is being staged at the request of Hutchinson county candidates, all of whom wish to become better acquainted with the voters of the great agricultural district of our sister county. Hansford county candidates are also cordially invited to attend the blow-out.

There will be ice cream and cake, lemonade and other delicacies; candidates and other speakers; and all will be under the management of the Pringle Parent Teachers Association, of which Miss Iris Lieb and Mrs. M. W. McCloy are very active members.

Richardsons Returning To Home At Hansford

Mr. and Mrs. Alvino Richardson were in Spearman the first of the week, visiting and attending to business matters. Mr. Richardson informs us that he has sold his electrical business in Amarillo, and next week will move back to their home at Old Hansford. Mr. Richardson's health has not been the best for several years and of late he has been feeling the effects of the close confinement in his Amarillo business, hence he decided to sell it out and come back to Hansford county. Their many friends throughout this section will be glad to learn of their decision to return here, and sincerely hope that Mr. Richardson will soon be fully recovered.

Trapshooters Will Meet in Spearman, Sunday July 27, For Shoot

On invitation of Fred W. Brandt, the Panhandle Trapshooters Association will meet in Spearman on Sunday, July 27, for a regular shoot. Mr. Brandt has been a member of this organization for a number of years and has won a number of prizes in the contests. The trapshooters meet at any convenient town where a local gun club is organized and functioning and keeps a good trap in working condition. Nothing gets the goat of a trapshooter quite so badly as a trap that works only a part of the time, so we understand. Again Own Spearman Abstract Company
M. L. and L. S. McLean and J. E. Gerber are again owners and managers of the Spearman Abstract Company, including all books, records, office fixtures and supplies, and the business of this concern. Judge Flesher, who conducted this business for a while, closed out his interests here and returned to his home in Canyon.

Spearman to Dumas Track Plan Is Made

A tentative agreement has been reached by the Santa Fe and the Rock Island for a joint track arrangement between Dumas and Spearman, it was announced yesterday.

An extension of time has been given the railroads by the Interstate Commerce Commission to work out a definite plan for operating trains over a line from a point north of Dumas eastward to Morse, where the Santa Fe will connect with a new line from Spearman.

The Santa Fe's application to build from Dumas to Spearman has been held in abeyance of the I. C. C. pending negotiations between the Santa Fe and the Rock Island. The Rock Island's new line from Dalhart to Morse, crosses the new Santa Fe line running from Amarillo to Las Animas, Colo., about 12 miles north of Dumas. If the agreement for a joint track is worked out, the Santa Fe will build from Spearman to Morse, and run its trains over the Rock Island from Morse to the main line of the Santa Fe near Dumas, and then south into Amarillo.—Amarillo News, July 15.

Telephone Construction Company Maintaining Headquarters Here

The Dwight Chapin Jr., Construction Company of Wichita, Kansas, established headquarters in Spearman last week. This company is engaged in building a telephone line for the Missouri-Kansas Pipe Line Company along the route of the big natural gas line which is being built from the Hutchinson county gas fields to Chicago and other industrial centers of the north. The Telephone Construction company works a large number of men in several different crews. One of the crews will be stationed here for several days. The phone line does not follow the pipe line closely for the reason that the latter being underground, may be run across fields, while it is impossible to contract with farmers to put up a string of telephone poles across their broad acres. The poles would interfere with the operation of tractors and combines, hence the phone line must follow the highways in order to secure right-of-way.

The tents of the phone line workmen, out in northeast Spearman, harken back to the glad days of '26, when the north Hutchinson oil field was being opened up.

Have You a Room to Let

Secretary Ratekin of the chamber of commerce, states that he is daily receiving many inquiries about furnished rooms and residences for rent in Spearman. Mr. Ratekin is anxious to be of assistance to anyone who desires to locate here, even for a short time, and if folks who have residences for rent or rooms to let will leave this information at the chamber of commerce offices it will be greatly appreciated. It seems that residences for rent in Spearman just ain't.

Pipe Line Crews Regular Visitors Here; They Like The Town

Large delegations from the pipe line crews which are laying the gas line from the north Hutchinson county fields to the large industrial centers of the north, are visiting Spearman quite often of late, from their headquarters on the north flats. The pyramist, W. A. King, and several of the construction foremen, are in regularly. These men were tendered the use of the offices of the chamber of commerce and extended other courtesies, all of which were greatly appreciated by these fine strangers within our midst.

When pay day rolls around all the workmen receive a check and as they never get to town except after banking hours, the Spearman banks arrange to remain open a few hours each evening in order to accommodate the boys, that they may make needed purchases.

The foremen and crews are high class gentlemen and workmen, and Spearman is glad to have them here. They visit about town, play golf and seem to enjoy the whole hospitality of the county seat.

Visited In Gruver

On Sunday Miss Sybil Baley motored from her home in Spearman to Gruver, where she was joined by her friend Miss Opa Faye Ownbey of Smett. The young ladies were guests in the home of Mr. and Mrs. R. Bort, and while there visited points of interest in Oklahoma, and Mrs. Bort endeavored to show the girls an enjoyable time and they report a most pleasant visit. On Tuesday afternoon the young ladies returned to Spearman, where Miss Ownbey will spend a few days with Miss Baley, before returning to her home near Smett.

Death of Mrs. Elias Hitch

Mrs. Elias Hitch died at her home in Guymon on Monday morning, July 14, at 9:20 o'clock. Deceased was 66 years old and had been in failing health for a number of years. Interment was had in Guymon cemetery on Wednesday afternoon at 3:30.

Mrs. Hitch was the mother of Mrs. Sid Clark of Spearman. Mr. and Mrs. Clark were notified of her serious illness Sunday, and went to Guymon immediately. The Elias Hitch family has resided in Guymon for more than 25 years.

Drs. Gibner & Spencer Install Modern X-Ray Machine In Spearman

During the past two weeks there has been installed in the offices of Drs. Spencer and Gibner, McLain Building, Spearman, one of the most modern X-Ray machines known in the medical and surgical world. This machine is of the Kelly-Koett type and is the largest of its kind in the Panhandle of Texas.

Drs. Spencer and Gibner are now fully equipped to handle all cases which require the use of the X-ray as an aid to correct diagnosis, and proper treatment.

The bringing of this great machine to Spearman will be greatly appreciated by the people of this section. It will dispense with the trouble and expense of making many dangerous, tiresome and expensive trips to nearby cities, to secure the benefits of the modern X-ray.

The local doctors invite their friends to call and inspect this fine machine at any time that it is not in use.

Western Telephone Corp. Making Ready to Build

L. L. Dewey, district manager for the Western Telephone Corporation, with headquarters at Guymon, was in Spearman the first of the week, conferring with the manager of the local telephone plant in regard to the building and expansion program planned for this town. Mr. Dewey states that the plans and specifications for the new building are now in the hands of contractors and builders and that the company expects to receive satisfactory bids on the work within a week or ten days.

An almost entirely new plant is contemplated for Spearman. Beginning with the new brick building, the improvements will include cables in the business section, a better long distance service, and an improved local service from every angle.

Talk of Common Battery Service Messers. Dewey and Lusk are very anxious to learn as quickly as is possible the sentiment in Spearman in regard to the common battery service. That is, they want to know at once whether Spearman would like to have phones that do not have to be cranked. With the common battery or flash light system, when central is wanted the patron merely lifts the receiver from the hook and this operation automatically gives connection with central office, when the call may be placed in the usual manner.

On Wednesday morning Mr. Lusk began the task of taking a sort of straw vote among the patrons of the telephone company in Spearman, to determine whether this service was desired. He states that almost everyone is highly in favor of the change. The phone management is anxious to give Spearman this improved and up-to-date service if it is desired, and is taking the time and trouble to make the canvas of the town at this time in order that it may be installed while the other work of improving and building is going on. It is necessary to have 300 subscribers before the common battery service will be installed, and the local company now has about 280. There is no doubt but that a sufficient number of subscribers may be secured, especially after the new switchboard and other equipment is installed which will insure an improved service.

Baptist Pastor Bars Mail Order Suspenders

The Rev. J. H. Richards, pastor of the First Baptist church of Spearman believes in folks being made comfortable when they attend services at his church. On last Sunday evening he delivered the message to his congregation, minus his coat. The pastor is taking the lead in the matter of male members of his congregation attending services in their shirt sleeves, and says he really would rather they would come to church coatless, as they remain awake much longer when they are cool and comfortable. Bro. Richards states that he wishes all the man-folks to come to church without their coats, but draws the line on loud colored, Sears-Roebuck galuses.

Statement to the Voters of Eighty-Fourth Judicial District

I wish to say to the voters of the Eighty-fourth Judicial District that Mr. W. L. McConnell, who is now a candidate for the office of District Attorney, formerly served Carson County as its county attorney during my tenure of office. Being acquainted with Mr. McConnell and the character of work which he performed for Carson County as County Attorney, I desire to state that I consider him well equipped and thoroughly competent to fill the duties of the office of District Attorney of this District.

In view of certain newspaper statements that have been made in behalf of his opponent, I feel that it is only fair to the people to inform them concerning a conversation which I had with the late John Holmes during the month of August last year when he was District Attorney. On that occasion, Mr. Holmes remarked to me that he aspired to the office of District Judge of this district and that he contemplated making the

KGRS Representative Visits In Spearman

V. V. Leonard, representing broadcasting station KGRS, Herring Hotel, Amarillo, was a visitor to Spearman on Wednesday. The object of Mr. Leonard's visit was to interest Spearman folks, especially the chamber of commerce, in the use of radio for advertising purposes. KGRS is fast gaining popularity as a broadcasting station. It covers a radius of 300 miles perfectly and has been heard at Harlingen to the south and Canada to the north. It is the station used by the Spearman Lions Club quartet, who sing and recite and Spearman in Amarillo several months ago. This matter of using radio for advertising purposes will be considered by the chamber of commerce at the next meeting of the directors.

Mrs. Dodson's Condition Is Slowly Improving

Reports from the Newman hospital at Shattuck indicate that Mrs. E. B. Dodson, who was taken there on Saturday, July 5, suffering with pneumonia and pneumonia is slowly improving. A telegram from the hospital superintendent to Mr. Dodson this Thursday morning stated: "Mrs. Dodson's condition growing better each day."

The many friends of the family will be glad to learn of Mrs. Dodson's improvement and hope for her a speedy and complete recovery.

Three-Way May Go Down Over 5,000 Feet

A. F. Garner was in from the Three-Way test well, located 30 miles north of Spearman in Texas county, this Thursday morning. Mr. Garner stated that the drill was now down to a depth of 4,240 feet and working in a hard shale. This shale is so hard that the drillers are making only 8 to 10 feet per day, states Mr. Garner. The drillers will sink the hole on down to a depth of 4,500 feet, which is contract depth, and if oil is not struck at that depth, efforts will be made to put it on away with what ever depression there may exist from the low price of wheat and cattle.

These sands will be found at a depth of 5,000 to 5,200 feet. The Three-Way Company, which is owned by A. F. Garner and W. A. Howard, is in control of sufficient acreage around the well to make it a safe proposition, they believe, and the citizens of the country may be called on to buy up these leases in order to raise money to put the well on down from the 4,500 foot depth to the Wilcox sands, which are pretty sure to yield oil in paying quantities. This proposition is developing into a community affair, states Mr. Garner, and many people are becoming interested in it. A big oil well at this point will do away with what ever depression there may exist from the low price of wheat and cattle.

A Community Prospers In Direct Ratio To The Success Of Its Merchants

Merchants help make the town. They pay taxes, and circulate their dollars among town folks, and do the right thing to make good on every contract they make. They know you and you know them. You'll get a fair deal. And besides, their operating costs are not as high as out-of-town folks who have to pay traveling expenses to come here to get your dollars. Your home town merchant can invariably give you a lower price. So play fair with our town. Spearman C. of C.

THE NEW WANDERER IN SPACE

A modern's eye, through a modern telescope, perceived the ninth planet now known to revolve around the sun; before 1930 there were only eight. The eighth planet, Neptune, was discovered in 1846; the seventh, Uranus, in 1781. The new and ninth planet has long since ceased to be news, but, though most people may know that it is the third planet to be discovered in modern times, they may not know that the word planet has descended to us from the ancients, who could see five planets with the naked eye: Mercury, Venus, Mars, Jupiter, and Saturn, making with the earth the six besides the three which moderns have seen and named.

The ancients, not understanding the solar system as our astronomers do, included the sun and the moon with the planets. According to Webster's New International Dictionary, the word "planet," coming into English from Latin, is traceable to a Greek word meaning, properly, a wandering body, as distinguished from the "fixed stars." For to the Greeks the five planets above named, and the sun and moon, seemed to move or wander about in space, while the stars appeared to be stationary. We know to-day that the sun is itself a fixed star, while the moon, the earth's satellite, is called a secondary planet.

Phillips Petroleum Co. Buy Valuable Corner Lots In Spearman

A deal was consummated the first of this week in which D. W. Hazlewood sold to the Phillips Petroleum Company lots one and two, in block four, located at the north end of Main street, east side, Spearman. The price paid for the lots was not made public, but is said to be quite attractive. Allen's Tire Shop and Service Station is now located on these lots. This firm has a lease on the lots and the present building, Phillips representative decline to state what the plans are for the use of the lots, but Spearman business interests are glad to see this big concern making investments here. It shows, states Mr. Hazlewood, who personally conducted the negotiations with the Phillips representatives, that the biggest and best business concerns of the country have an eye on Spearman and the Spearman country, realizing that both offer exceptional opportunities for judicious investment. Those partially on the inside vision a handsome home of the famous "66" on the north end of Main, east side.

Mrs. Johanna Conroy

Word has reached Guymon of the death of Mrs. Johanna Conroy, 80 years of age, which occurred at St. Joseph's hospital in Kansas City, Sunday, June 29th. Mrs. Conroy's residence has for many years been divided between Guymon and points in Illinois and Missouri, her first residence in Guymon dating back more than twenty years. She has lived with her niece, Miss Margie Ryan, and together they were the owners of Main Street properties, and of the old frame building between the Walden and Lightner properties on Fifth St.

Mrs. Conroy is survived by a sister, Mrs. Mary Ryan, of Monmouth, Mo., and her niece, Miss Ryan of this city. Miss Ryan took her aunt to the hospital in Kansas City about a month ago, and word was received here that she was so much improved that they were to start back home some time this week. A relapse accompanied by an attack of pneumonia is understood to have been the cause of death, the report of which was a shock to the many friends here. The remains were taken to Chicago where funeral services and burial occurred.—Guymon Herald.

THE NEW WANDERER IN SPACE

A modern's eye, through a modern telescope, perceived the ninth planet now known to revolve around the sun; before 1930 there were only eight. The eighth planet, Neptune, was discovered in 1846; the seventh, Uranus, in 1781. The new and ninth planet has long since ceased to be news, but, though most people may know that it is the third planet to be discovered in modern times, they may not know that the word planet has descended to us from the ancients, who could see five planets with the naked eye: Mercury, Venus, Mars, Jupiter, and Saturn, making with the earth the six besides the three which moderns have seen and named.

The ancients, not understanding the solar system as our astronomers do, included the sun and the moon with the planets. According to Webster's New International Dictionary, the word "planet," coming into English from Latin, is traceable to a Greek word meaning, properly, a wandering body, as distinguished from the "fixed stars." For to the Greeks the five planets above named, and the sun and moon, seemed to move or wander about in space, while the stars appeared to be stationary. We know to-day that the sun is itself a fixed star, while the moon, the earth's satellite, is called a secondary planet.

International Sunday School Lesson

By DR. J. E. NUNN

FOR JULY 20, 1930

General Topic—Moses A Courageous Leader.

Scripture Lesson—Exodus 3:1-12

1. Now Moses was keeping the flock of Jethro his father-in-law, the priest of Midian; and he led the flock to the back of the wilderness, and came to the mountain of God, unto Horeb.

2. And the angel of Jehovah appeared unto him in a flame of fire out of the midst of a bush; and he looked and behold, the bush burned with fire, and the bush was not consumed.

3. And Moses said, I will turn aside now, and see this great sight, why the bush is not burnt.

4. And when Jehovah saw that he turned aside to see, God called unto him out of the midst of the bush, and said to Moses, Moses, And he said, Here am I.

5. And he said, Draw not nigh

hither: put off thy shoes from off thy feet, for the place whereon thou standest is holy ground.

6. Moreover he said, I am the God of thy father, the God of Abraham, the God of Isaac, and the God of Jacob. And Moses hid his face; for he was afraid to look upon God.

7. And Jehovah said, I have surely seen the affliction of my people that are in Egypt, and have heard their cry by reason of their taskmasters; for I know their sorrows:

8. And I am come down to deliver them out of the hand of the Egyptians, and to bring them up out of that land unto a good land and a large, unto a land flowing with milk and honey; unto the place of the Canaanite, and the Hittite, and the Amorite, and the Perizzite, and the Hivite, and the Jebusite.

9. And now, behold, the cry of the children of Israel is come unto me: moreover I have seen the oppression wherewith the Egyptians oppress them.

10. Come now therefore, and I will send thee unto Pharaoh, that thou mayest bring forth my people the children of Israel out of Egypt.

11. And Moses said unto God, who am I, that I should go unto Pharaoh, and that I should bring forth the children of Israel out of Egypt?

12. And he said, Certainly I will be with thee; and this shall be the token unto thee, that I have sent thee: when thou hast brought forth the people out of Egypt, ye shall serve God upon this mountain.

Golden Text:—By faith he sought Egypt, not fearing the wrath of the king: for he endured as seeing him who is invisible.—Heb. 11:27.

Time—Moses born, B. C. 1578; Pharaoh H. came to the throne B. C. 1567. Moses goes to Midian, B. C. 1539. Merneptah comes to the throne of Egypt, B. C. 1501. Moses returns to Egypt, B. C. 1499. The exodus, B. C. 1498. Death of Moses, B. C. 1459.

Place—Egypt, Midian, the Red Sea, Sinai, the wilderness south of Palestine.

Introduction

Moses was born a slave. At the time of his birth all Hebrew mothers were under orders from Pharaoh to throw their boy babies into the river, but he was such a beautiful baby that his mother could not bear the thought of feeding him to the crocodiles. For three anxious months she concealed him in her home. When she could no longer hide him, she adopted the bold strategy of putting him in a little ark and placing him in the edge of the water where Pharaoh's daughter would find him when she went to the river to bathe.

Early Life of Moses, Ex. 2:1-10

When the princess found the infant in his little bed, and heard his pitiful cry, her woman's heart was touched, and she resolved to save him from her father's cruel decree by adopting him as her son. For some years he was left under the care of his own mother, who was a devout member of the tribe of

Levi, and who taught him the religion of his fathers. Then he was taken into the palace, where he was trained as a young prince under the direction of Pharaoh's daughter. Later he was sent to the best schools, where he was educated in "all the wisdom of the Egyptians," who had the most advanced civilization of that age. Thus he received such an equipment for his life work as no one else among his people had.

Crisis in the Life of Moses Ex. 2:11-22

The crisis in the life of Moses came when he was forty years old. Realizing the dreadful condition of his fellow Hebrews, he determined to help them, even at the cost of giving up the luxuries of the palace and the prestige of his position as a member of the royal family. His first blundering effort, however, got him into trouble and made it necessary for him to leave the country. Forty years of wilderness life lay ahead of him before he was ready to enter upon his life work. During these years he gained better mastery over his impetuous temper, which had led him to kill the Egyptian. He learned much about the country through which he was later to lead his people. "He learned in the quiet of the desert solitudes to know God in that wonderfulness which revealed itself in the after years."

The Call of Moses, Ex. 3:1-10

One day, as Moses watched his father-in-law's flock at Mount Horeb, "the angel of Jehovah appeared unto him in a flame of fire out of the midst of a bush; and he looked, and behold, the bush burned with fire, and the bush was not consumed." Turning aside to find the explanation of this wonderful sight, Moses heard the voice of God, commanding him to take off his shoes, for he was on holy ground. Here Moses received his call to deliver the Israelites from the Egyptians and lead them into the promised land.

"I Will Be With Thee." v. 12

"And he said, Certainly I will be with thee." One would think that the promise of God's presence and help would have been enough for Moses, but it is always enough for us? We have the same great promise from Christ, "Lo, I am with you always," but we do not often forget it, and fail to avail ourselves of its comfort and power?

The revelation of God's name, "I AM," which was then made to Moses, meant everything to him, and should mean everything to us. "God alone can say 'I AM' without saying anything more. God alone is. Everybody and everything else in the world becomes; but God is. God never changes or becomes anything different from what he is now. What he is, that he was and ever will be."—Charles Kingsley. It was this unchanging God that sent Moses forth on his great errand, and that sends us also to our lesser tasks.

The Passover, Ex. 12:1-13; 16

At the time of the tenth plague, Moses, by God's direction, instituted the Jews' most important annual feast, the passover. It was so called because the death angel, when he saw the blood of the passover lamb sprinkled on the doorposts and lintels of the Hebrews, passed over those houses, and did not destroy those houses, and did not destroy those houses there. Ever since, the Jews have celebrated the passover each year, dressed as for a journey, and using unleavened bread. Christ, our Passover, was sacrificed for us, the Lamb of God slain for the sins of the world, and slain at the passover season; therefore our memorial, the Lord's supper, takes the place for Christians of the Jewish passover.

The Passage of the Red Sea Ex. 13:17; 15:26

The opposition of Pharaoh broke down with the death of the

firstborn, and the Israelites departed from Egypt bearing rich gifts which the terrified Egyptians pressed upon them—gifts which were scant pay for all the long labor of the enslaved nation. No sooner were they gone, however, than Pharaoh's mind changed. He could not bear to lose his slaves and suffer the humiliation which their going involved; so he posted after them with his army, and the Israelites found themselves, on the northwest shore of the Red Sea, cooped in between the Sea on their left, mountains in front of them and on their right, and the onrushing Egyptians in their rear. Then came another miraculous interposition, for a strong wind held back the shallow waters of the sea, making a path over which the Israelites passed to safety, while the Egyptian army following hot upon them in their heavy chariots drawn by horses, found themselves sinking in the muddy bottom and swifly drowned when a change in the wind sent the waters back again to their accustomed places. This wonderful event, like the ten plagues, was an intensification of a phenomenon that has been observed in the Gulf of Suez, marked as supernatural by its opportune occurrence.

The Golden Calf, Ex. 32:1-35

Moses had been 40 days on the sacred mount communing with Jehovah, and on his return, found himself facing a most disgraceful scene. Forgetting all the horrors of their slavery, the people's hearts had turned to the disgusting idolatry with which they had become familiar in Egypt. In imitation of the Egyptian bull worship, they prevailed on Aaron to take the gold and jewelry which they had brought in large numbers from Egypt and with them fashion a golden calf, which the people proceeded to worship with all the excesses which marked idolatrous festivals. Moses in his hot wrath punished the idolaters by slaying, with the aid of the Levites, about three thousand of them, thus purifying the people of their foul taint, and then he withdrew again into the mountain to make atonement for the people's sin. This he did by wrestling in prayer with God, even offering himself to be blotted out of the book of God's people if Jehovah would forgive the Hebrews and restore them to his favor. In all the Old Testament there is no more wonderful foreglimpse of the work of Christ than this, and surely nothing in the life of Moses better exhibits his largeness of heart and his prophetic insight.

Moses at the Burning Bush

Thinking of this event, Mrs. Browning sang: "Earth's crammed with heaven, And every common bush afire with God; But only he who sees, takes off his shoes. The rest sit around it and pluck blackberries." The revelation of God's name, "I AM," which was then made to Moses, meant everything to him, and should mean everything to us. "God alone can say 'I AM' without saying anything more. God alone is. Everybody and everything else in the world becomes; but God is. God never changes or becomes anything different from what he is now. What he is, that he was and ever will be."—Charles Kingsley. It was this unchanging God that sent Moses forth on his great errand, and that sends us also to our lesser tasks.

Gasoline Line Will Be Started Soon

Construction officials at Phillips are awaiting arrival of 7-inch pipe to begin construction of the Berger-St. Louis gasoline line which will be some 900 miles long and will cost \$15,000,000. It is expected that about 100 men will be put to work at this end of the line laying pipe. Contracts already have been let but it is understood that the contractors will employ that men they need out of the Berger field.

WELL FINISHED HOGS BRING BEST MARKET

Hog raisers throughout the country will begin soon to finish their hogs for an early fall market. Feeders are disappointed by the recent drop in market prices, and steps should be taken to offset this lower price.

This condition can be best offset by finishing the hogs in such a way that they will bring the highest prices when they are placed on the market. Hogs that are finished properly and show the results of proper feeding and care will return a profit to their owner, when the hogs which are fed out on corn alone are likely to be sold at a loss.

Experimenters have proved that a combination of corn and tankage will not put on the fastest gains or finish the hogs in the best condition. Addition of a protein concentrate will save time in finishing the animals, thereby lessening the amount of labor, feed, interest on investment, and other items of expense.

A ration recommended for hogs on pasture includes 50 pounds of tankage or fish meal and 50 pounds of linseed meal in one bin of self-feeders and shelled corn in the other bin, or full feed of ear corn. Hogs being fed in dry lot should receive a ration of 50 pounds of tankage or tankage and fish meal, 25 pounds of chopped alfalfa in one bin of self-feeder, and corn fed as on pasture.

The experienced feeder has proved that such a ration will return profits when he cannot break even with a feed consisting of only corn or corn and tankage.

AN AFFIRMATIVE NEGATIVE

The irate customer shook his portrait in the photographer's face.

"Do I look like this picture? The thing's an outrage. Why, you've given me an awful squint and the look of a prize fighter. Now, answer me, and no nonsense about it. Do you call that a good likeness?"

The photographer scanned the print, then looked at the customer. "The answer," he said, "is in the negative."

NOT TO BE TRUSTED

Some years ago in a Western State, then a territory, a popular citizen became involved with an influential and overbearing character.

Public sentiment leaned toward the defendant, but the law was against him, and, when the day of trial came the defendant, his counsel and friends held a consultation, and, fearful of the consequences, they decided that the defendant should plead guilty and beg the court's mercy.

The jury was charged by the court and retired. Presently it returned, and the foreman said: "We find the defendant not guilty."

The judge viewed the jury in surprise and said: "Gentlemen of the jury, how be it? This defendant pleads guilty, and you find him not guilty?"

The foreman answered: "Well, your Honor, the defendant is such a liar we can't believe him under oath."

\$2.00 PER YEAR IN ADVANCE In Texas and Panhandle Strip of Oklahoma; \$2.50 per year elsewhere.

Entered as second class matter November 21, 1919, at the post office at Spearman, Texas, under the act of March 3, 1879.

THERE'S BUSINESS TO GET

There are two ways of facing a business situation such as the one that now confronts us all. One is to lean back, yawn or weep, and say, "business has gone to pieces there is nothing I can do." The other is to get away from too much pessimistic conversation, study the general situation as it affects your own business, and then say: "business is bad, I must readjust my methods to meet the new problem."

Obviously the intelligent method is the latter method. Because the times are hard one should not simply sit back and acknowledge defeat. Because the spirit of pessimism is current, one should not lose all interest in achievement.

For there is still much business left. Recent figures show that employment is about 16 per cent below last year throughout the country. This is a general average, of

course. Other index figures such as freight car loadings, use of electric power in industry, and so forth are also down from 12 to 18 per cent.

In other words business is not completely gone. The country is operating on an 80 per cent basis as compared with last year.

Hence the business that has lost more than 20 per cent in volume during the past year is failing to meet the problems of these particular times, and it is up to the management to face the facts and see what can be done to meet the intense competition that naturally characterizes a time like this.

Don't take the attitude that there is nothing to do about it. There is still business worth fighting for.

RURAL EDUCATION

Rural boys and girls, some say, are denied their rightful share of the educational advantages offered by this country. The great disparity in equipment and salaries paid for educating a pupil in the city and in the country is cited. The absence of experienced teachers and the lack of capable supervision over rural education together with many other such like matters are brought to attention.

But one must not lose sight of the fact that the value of an education cannot be measured by its cost. A capable teacher on one end of a log and a willing student at other constitutes a first class university.

Country children benefit as much as they lose by the lack of equipment. Having no elaborate gymnasium paraphernalia and no well equipped laboratories they are often forced to devise ways of

finding entertainment and of working out their experiments for themselves. This stimulates the inventive genius which is always best nurtured by necessity.

Let no man assume that rural education has been at a standstill in recent years. The old days of the three Rs and a goodly application of the rod are passed. We now have ways of keeping the farm boy and girl interested in his school work—stimulated by such wonderful movements at 4-H club work.

In his club he learns not only how to play but how to tackle the business problems he must encounter later in life. He learns how to figure costs, how to keep outgo below income, and how to apply science to the business of farming.

A STATEMENT TO THE VOTERS OF THE 84TH JUDICIAL DISTRICT

Panhandle, Texas, July 8, 1930. Our attention has been called to an article by Clem Calhoun appearing in last week's issue of this paper, stating that he would not be a candidate for the office of district attorney for the 84th district, and asking the voters to support Mr. H. M. Hood, stating that Mr. Hood was not being supported by the criminal and the criminal's friend, thereby casting the reflection and leaving the inference that our fellow-townsmen and citizen, Mr. W. L. McConnell who is also a candidate for this office, would derive his support from such voters.

It is our desire to say to the good people of your town and community, through the columns of your paper, that we have known Mr. McConnell for the past several years and know him to be a good, clean, law-abiding citizen and a capable and efficient attorney. We believe that with the experience he has had in the office of County Attorney here in this County and in the City Attorney's office at Waco from where he came to this county, and the general practice that he has had for some nine years since his graduation from the law department of our State University, that he will make an able and efficient District Attorney and reflect honor upon the office and justly deserves the support and confidence of the good people of this district.

Signed: Asbury A. Cailaghan, County Judge; C. L. Upham, District Clerk; Georgia B. Dibbley, County Treasurer; D. Elston, Surveyor; O. R. Beddingfield, Tax Assessor; O. L. Thorp, Sheriff and Tax Collector; H. H. Smith, City Attorney; J. Sid O'Keefe, Chairman Democratic Executive Committee.

Chicago has started a campaign to convince the world that it is really a quite and righteous city. But more than one stranger must die a natural death before anything like that can be put over.

SMALL RALLY

(Continued From Page One)

Chamber of Commerce and Board of City Development are arranging special features for the occasion.

The Small-for-Governor club, of which Mel Davis is secretary, is busy this week perfecting arrangements for the event, and Small enthusiasts predict that the biggest crowd in the history of Pampa will attend the rally.

Arrangements are now being made to care for all visitors who expect to spend the night here. When the hotels are full, visitors will be conducted to private homes and officials of the Small club request all citizens who will provide rooms for the guests to notify Miss Aurelia Miller at Small headquarters in the lobby of the Schneider hotel.

Bands from Wellington, Shamrock, Perryton, McLean, Groom, and Canadian have already been invited. Invitations to other bands are being mailed today. The entire membership of Small clubs at Wellington, Shamrock, McLean, Memphis and Clarendon are scheduled to attend the rally, chairmen of the organizations report.

The sheriff's department and police force have promised that the city will be thrown wide open to the visitors and that they will be shown every courtesy. It is planned to rope off the streets surrounding the east lawn of the courthouse in order that the large crowd may hear the senator without interference from motor ve-

hicles. Seats will be provided for the audience.

Judge Willis, Mr. Walker, Mr. Davis and other members of the executive committee of the Small club are calling a meeting of all business men of Pampa for tomorrow night at the chamber of commerce hall, where detailed plans for the huge rally will be made. Business men are being notified of the meeting this afternoon and in the morning by a special committee and a full attendance is expected.

Arrangements for speaking at the rally Friday night are in charge of Mr. Walker and Mr. Davis. Only a few preliminary speeches will precede Mr. Small's address. The candidate will be introduced by Judge Willis.—The Pampa Daily News.

Mr. and Mrs. Howard Gline, of the Kimball community, are the proud parents of a 9 1/2 pound boy, born on Wednesday, July 16. The youngster has been named Orson Howard.

Mr. and Mrs. W. W. Merritt visited in Borger Wednesday afternoon.

Mrs. W. P. Hill came from her home in Lipscomb last Saturday and spent Sunday in the homes of her sons Gene and Fester Hill, in Spearman. She was accompanied by her daughter, Mrs. R. B. Ranson and little Miss Edra Ranson. Mrs. Ranson is county treasurer of Lipscomb county.

When you make price your principal consideration you can never be sure. It's unwise to pay too much, but it is worse to pay too little. When you pay too much, you lose a little money—¹² but when you pay too little you sometimes lose everything, because the thing you bought is incapable of doing the thing it was bought to do. The common law of business balance prohibits paying a little and getting a lot. It can't be done. If you deal with the lowest bidder, 'tis well to add something for the risk you run—and if you do that you will have enough to buy known quality.

A painful truth for many, and yet a well established truth nevertheless—and nowhere more true than in the purchase of insurance. There is nothing more futile or worthless than insurance which fails of its purpose.

six inflated automobile tires. Miss Jeannette Bates, Hollywood dancer, won the contest and was awarded a silver cup by Bobbie Trout, famous aviatrix, who acted as official starter and referee.

The race was staged to test a new type of inner tube known as the Air Container, a product of the laboratories of the B. F. Goodrich Rubber Company. This tube seals punctures on running wheels, and is said by tire experts to be the most amazing invention since the introduction of the pneumatic tire.

Jimmy Davis, local Goodrich dealer, explains the construction of the Air Container as follows:

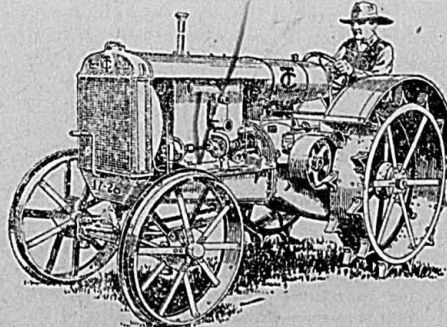

"A tube of the proper size is covered with a ply of nine-ounce cord fabric fully as wide as the tread surface of the tire. On top of this fabric is a specially shaped strip of puncture sealing rubber. The tube is cured, then turned inside out. This reversal of the tube compresses the special rubber strip underneath the 'patented' cord insert—this cord insert cut on the bias makes the compression even more powerful.

ables of Beverly Hills, Calif., recently witnessed an unusual nail-driving contest when six pretty young women drove 180 nails into

"In use when punctured, the compression member firmly grips the puncturing object, then preventing air from escaping."

DEAD TO
NATH BY HORSE

July 16, 1930. A prominent cattleman of the Miami county was dragged to his death by a horse at the ranch east of Miami about Tuesday morning. The Amabillo News has the account of the accident. The old son riding to the scene of the horse running and the horse for his mother she reached her ground he was on the ground feet entangled in the and all signs of life body was mangled benediction and must have had a long distance. The son of Judge C. Coffey, well-known attorney, handle and former county of Roberts county. He leaves his wife and three sons. Coffee is well known in this vicinity. He helped saddle some of the horses at the Anvil Park rodeo last week.

W. L. Helton happened to be at the scene of the accident a few minutes after Mrs. Coffee arrived. He was traveling along Highway 33, and drove over in a nearby field to talk with a farmer when Mr. Coffee's son rode up and informed them that his father had just been killed.—Canadian Record.

Those who are talking about the return of the corner saloon overlook the fact that there is not an available corner left. The filling stations have them all.

Miss Margaret Cooper of Lubbock visited in the Wilmeth home here Sunday and with relatives in Spearman last week end.

He's From West Texas

When it came to a question of whether the ranch owners should have the creek beds within their ranches on the ground that they were navigable streams after a cloudburst, a State Senator from West Texas became known to the whole State for his part in securing to the owners their creek beds. Maybe his technical basis was not sound. Maybe he was a bit ruthless in overriding the Governor's veto, as he did, with the help of his fellow-legislators. But he was, for the time being at least, the voice personified of West Texas. And West Texas seems to be pretty strong for the Hon. Clint C. Small for Governor.

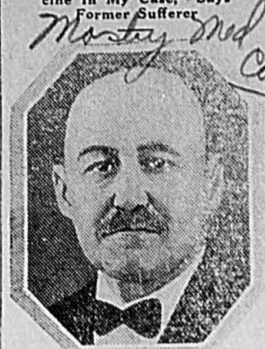

The question now is whether the sectional issue that was the springboard for Senator Small's candidacy will mark him as merely a sectional candidate. On that point circumstances are against the Senator, and only an extraordinary vigorous and clever campaign can surmount them, though these circumstances are in nowise derogatory to Senator Small.

The shortness of Senator Small's service in public life on a State-wide scale accounts, of course, for the fact that his name is not yet identified with measures of State-wide application and importance. One term in the Senate is too brief a time to make a reputation familiar to all parts of Texas. That is the principal handicap under which he labors.

The contest is essentially one in which a large section of the voters may be said to be in doubt. Who is the most likely man to beat Ferguson? Who is the strongest opponent for Mayfield? Who had best be pitted against Tom Love? These are the questions being weighed in the minds of thousands of Texas Democrats. The hint of sectional limited support will injure Senator Small's chances with this hesitant element more than anything else, unless it be his record of having voted for expulsion from the party of all Hoovers. As a matter of fact, brief as is his record, Senator Small has proved himself to be an able man, substantial, conservative, a bit blunt perhaps, but in the straightforward, frank, West Texas style. He is a chary of promises, giving you the idea that he will keep the few that he does make. Apparently he wears well, as long record of local office holding among his own people goes to prove. He is no prophet, but he has not been without honor in his own country. If he fails to make the second primary, his defeat will not prove fatal to his career. He is a good man, and we shall be hearing more of Clint C. Small.—Dallas News.

KONJOLA PUT KANSAS MAN BACK TO WORK

"Proved To Be Wonderful Medicine In My Case," Says Former Sufferer

MR. H. C. SHERMAN

Any medicine that can win seven years of rest have merit, and that is what Konjola has done. You wonder why Konjola has become a household word? Well, read what Mr. H. C. Sherman, painting contractor of Goddard, Kansas, says:

"Konjola proved to be a wonderful medicine in my case. Last July I was hurt in an automobile accident, and was in the hospital many weeks. When I got out, I was in a badly run-down condition; had rheumatism in the shoulder arm and hand, and my stomach was out of order. I suffered terrible pains, and medicines did me no good. The many endorsements of Konjola led me to try it, and six bottles of this wonderful medicine made me able to resume my work. I am feeling better in every way than for a long time."

Konjola's 32 ingredients work together, battling at their very source, the causes of stomach, liver, kidney and bowel troubles, and of rheumatism, neuritis and nervousness.

Konjola is sold in Spearman at Hastings Pharmacy, and by all the best druggists in all towns throughout this entire section.

He who sings his own praises is invariably a soloist.

Tires have a life span which may be materially increased by proper care. When we equip your car with Firestone tires we do not consider the transaction completed. We help you to get all the tire miles possible from your car.

Periodical Examination

We inspect your tires periodically: Test the air pressure,—the valves; examine the tread and side walls for cuts and injuries; see that wheels are properly aligned and that rims are not bent. Anything that may tend to shorten the life of a tire is quickly detected and the cause removed.

Truck and Bus Owners

Our truck and bus tire service will lower your operating costs. Realize greater profits. Send for "The Proposal of Service." It will throw new light on your operating cost problems. No obligation.

How to Raise Poultry

By Dr. L. D. LeGear, V. S., St. Louis, Mo.

Dr. LeGear is a graduate of the Ontario Veterinary College, 1892. Thirty-six years of veterinary practice on diseases of live stock and poultry. Eminent authority on poultry and stock raising. Nationally known poultry breeder. Noted author and lecturer.

ARTICLE XLVI

Note—This is another series of 52 stories on raising poultry by the well known poultry authority, Dr. L. D. LeGear, V. S., of St. Louis, Mo. Our readers are asked to read them carefully and save them for future reference.

Brooding For Larger Poultry Profits

Brooding Must Give Way to Economy of Artificial Methods if Large Broods Be Handled Successfully.

can act as foster mother to 20 chicks while a brooder can take care of 100 of moderate size can accommodate up to 500 or more. More attention is required in caring for a single brooder than for a tier tiny family. The fuel brooder operation is negligible in comparison with the labor required in caring for an equal number of chicks with a self-evident, therefore, the profit is the primary element, in handling of large broods, artificial brooding is the only method worthy of attention.

ands of chicks can be raised successfully by artificial means. Broods would be handled with facility if hens were used. A fact so well known to poultrymen that they probably question the need of brooding at all. I find, however, that many to poultry raising is merely in to other occupations. are inclined to distrust any substitute for the time tested method of rearing chicks.

are deterred, for the most part, by a belief that artificial brooding is unreliable unless supported by constant care. This has been true some years ago, but today, many moderately priced brooders are available are absolutely dependable, economical, and which require relatively little attention for satisfactory results.

Other factor which no doubt many smaller operators adopting artificial brooding multitude of conflicting methods. This tends to a really simple matter ap-

pear quite complicated. As a matter of fact, there is no one method of outstanding superiority and no single device that is decidedly better than all others.

The thing to be considered first of all is the size of your flock as a whole, and next the size of individual broods which you can handle with the greatest ease. Then, buy as many units as you need, install and operate them according to the manufacturer's instructions. You will find that it is a really simple matter after all and a labor saver of decided value, even for comparatively small numbers of chicks.

The principle use in all brooders is the same, some artificial means of furnishing heat as a substitute for the hen's natural body heat. The heating unit, may use gas, kerosene, hot water, coal or electricity. Whatever the fuel, the general arrangement remains the same. The unit is centrally located under a circular metal hood so arranged that the heat is deflected downward from the hood onto the backs of the chicks. Around this hood is usually a slit curtain to partially confine the heat. This unit with hood and curtain is called the hover.

The hover unit is the central feature of any system of artificial brooding. Space is lacking in an article of this kind to discuss the various types of brooders, all of which have their uses. They will be discussed in a later article.

Artificial brooding offers you the opportunity to bring into poultry raising the sort of mass production methods which make possible the gigantic commercial enterprises of our time. Without such methods, no business can ever progress beyond the "one horse" stage. If you raise chickens only for the needs of your own family, profit is a secondary consideration and the system employed is of no great moment. If, however, you are aiming for profits you cannot afford to ignore the efficiency of modern devices for artificial brooding.

As a parting word of advice, let me counsel those who hesitate to adopt the modern method of brooding not to regard it as something surrounded by mystery or hedged about by difficulties demanding professional skill. Quite the reverse is true, for, while it is true that artificial brooding has its problems, they are much the same as those of natural brooding and no more difficult of solution. There are, moreover, many compensating factors in favor of artificial brooding which make it the in-

capable choice of all who want to realize the greatest possible profit from their chicken raising whether it is their sole source of income or merely a side issue.—Copyright, 1929, by Dr. L. D. LeGear, V. S.

NOTICE TO LAND OWNERS

To H. P. Covey, Wm. Berg, Ezra S. Hoopes, G. L. Kozz, Johanna Jungburt, A. M. Beabrook, J. E. Young and A. C. Greever, non-residents of Hansford County, Texas:

You are hereby notified that the undersigned Jury of freeholders, acting under and by virtue of an order of the Commissioners Court of Hansford County, will on the 21st day of July, A. D. 1930, proceed to lay out and survey a road commencing at the S. E. Corner of Survey No. 72, in Block 4T, T. & N. O. Ry. Co., Thence north on section lines a distance of approximately 4 miles and terminating at the N. W. Corner of Sec. 27, Block 4T, Grantee T. & N. O. Ry. Co., Hansford County, Texas; and which may run through or along the section lines of certain lands owned by you, and will at the same time assess the damages incidental to the opening of said road, when you may present to us a statement in writing of the damages, if any, claimed by you.

Witness our hands this the 17th day of June, A. D. 1930.

A. L. JACKSON, E. M. GROVES, A. J. WILBANKS, C. F. BENNETT, J. R. COLLARD, Jury of View.

BUSINESS IS BRISK

Bootleggers have become so numerous in Windsor (Ontario) that they are wearing identification tags to prevent them from attempting to sell their wares to one another.

AN ADVOCATE OF SIMPLICITY

"Do you like bridge?" "No," answered Cactus Joe. "It looks to me like one of them games where they put a lot of arithmetic so's to take a regular card player's mind off'n the run of the deck."

TROUBLE AHEAD

Wanted—A Real Rough Guy.—"I want a cow-hand who knows cows, not under 35 years old nor over 50. One who smokes, drinks, swears, tells the truth and hates sheep headers. W. F. H.—the Three M Ranch, Largo Canyon, P. O. Aztec, N. M."

CHEAP

"Did you have to pay anything to that man you ran over the other day?" "No—he happened to be a relation of my husband's, fortunately."

FOR SALE

S. E. HARBISON FURNITURE COMPANY

Money Raising Sale

Starts Saturday July 19th, at 9:00 O'clock

Don't Come To Harbison's Sale

—If you want cheaply constructed, poorly finished furniture, bought for sale purposes. We don't have it. We handle only high-grade, dependable merchandise. Bring this bill with you and demand merchandise as advertised—for we want you to trade with us after the sale is over.

We have called to our assistance one of the most successful sales companies in the Southwest—merchants who know merchandising values and service. We have instructed them to sell with only one object in view, and that is to sell and sell for cash—regardless of cost or value.

The goods must be sold, as we must have cash. Every article marked in plain figures.

BE HERE OPENING DAY

Mattresses

45-pound all cotton mattress, rolled edge, biscuit tufted, floral art tick. Worth \$12.50 of any man's money, for only.

\$6.98

Cane Chairs

These are strictly No. 1 chairs—not seconds

While they last for only

98c

Queens Ware

We have quite a large assortment we are going to close out in this sale at almost give-away prices.

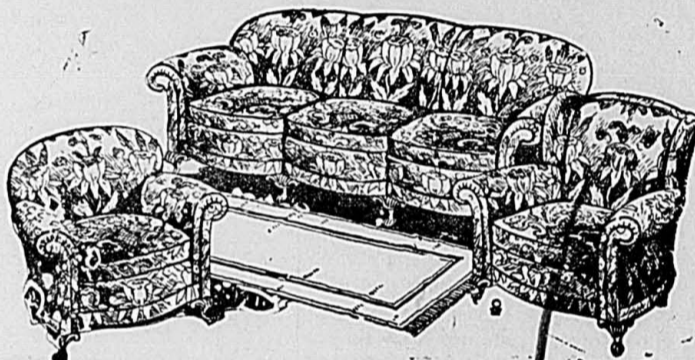

Cups and Saucers, Bowls, Pitchers, Plates, Platters
Creamers, Etc.

Heavy Buying and Short Crops

These Sacrificing prices and short crops are not what we expected. We all have our disappointments in business, in raising crops and in the prices we receive for them. You have had yours, and we are no exception. We prepared for a big business—just as you expected and hoped that you would make a reasonable yield and at least get a fair price to reward you. You have to sacrifice and take what you can get.

We must do that, too, for we can not pay our bills with the goods on our floors. The goods must move—regardless of cost. We have bought heavy—our stock is too large now, with more to be shipped. We are going to reduce it in the next few days, regardless of cost or value. Be here on opening day. You will not believe your eyes unless you come and see.

LIVING ROOM SUITES

No. 207—2-piece suit—covering: Roseand tape. Removable cushionings, \$64.48
No. 5—Same suit as above, only 3 piecesuit \$73.98

We have about 25 or 30 Living Room Suites in stock. We are going to sell them. Be here first day if you expect to buy a Living Room Suite.

THEY WILL NOT LAST LONG AT THESE PRICES

BED ROOM SUITES

Now folks, here is your chance. If you ever expect to buy a bed room suit, don't let this opportunity get away.

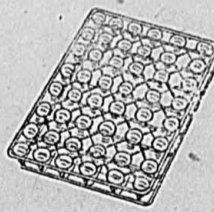

No. 1003—4-piece suit, Walnut only, for \$76.98
No. 202—4-piece suit, walnut only, for \$49.78
No. 3400—4-piece suit, ivory, green or French walnut, for only ... \$69.48

We haven't space to list all of our suits. Come and look them over. Be here the first day.

FREE! FREE!—With the First 10 Bed Room Suites sold, one Bed Lamp FREE!

Harbison Furniture Company

SPEARMAN, TEXAS

TERMS OF SALE

Cash—no trade-ins, no refunds. Merchandise exchanged if returned in 24 hours if not damaged in any way.

Things to Keep More Profits

The decline in the prices of staple crops of Texas, of this State are going to shape themselves in a better shape...

More Pay Days

The farmer has finally realized that it is not economically sound to work all the year and to have but one pay day each year.

Prices Are Lower

Wheat in South Texas is in shape. The early vegetable have been normal or above...

INTELLIGENT TRAVELING

Traveling and touring are major interests at this time. Soon we will hear our friends telling about how many miles they made per day during their vacations...

port of an automotive engineer. In their quest for speed and mere mileage most people forget about the interesting and picturesque spots with which our country abounds.

Many people will travel a thousand miles and see and experience less than they could discover here in Hansford county in a Sunday Afternoon's drive over the unfrequented highways.

Furthermore one's knowledge is not enhanced by the distance one travels, but rather by the things of interest one can find in a limited area.

A GOOD SUGGESTION

Official: "No, I can't find you a job. I have so many people here after jobs that I can't even remember their names."

GOOD ALIBI

Defending Counsel: "Think, gentlemen of the jury, my client is so deaf that he only hears the voice of conscience with difficulty."

We wonder whether some of our heroes would care to become ancestors if they could get previews of some of their descendants.

The Weekly Newspaper Then and Now

No one who was familiar with the weekly newspapers of twenty-five years ago can fail of astonishment in examining today the contemporary weekly press.

Partisanship sometimes took on a fever which heated every page. Usually there was an opposition organ across the street, if it was a county seat town.

The contrast reflected by the present condition is worthy of comment, perhaps of encomium. The weekly press is not excited over the various candidates and contentions of this voting year.

In short, the Texas weekly press of 1930 is broader minded, more tolerant, but not less vigilant, than that of three decades ago.

A HINT TO THE HENS

Abbie, the little girl of the family, was seated at the breakfast table one morning. As usual eggs were served.

Either she was not hungry or she had grown tired of the bill of fare, for very earnestly and soberly she remarked:

"I do wish hens would lay something besides eggs."

Remarkable New Motor Oil Is Announced By The Texas Company

It has been known for some years that changin engine designs and driving conditions were making increasingly heavy demands upon the motor lubricants.

The Texas Company has been successful. The new Texaco Golden Motor Oil recently announced by the Texas Company and now on sale by Texaco Filling Stations throughout the country is creating a sensation in automotive and oil refining circles.

The oil presents the combined efforts of the marketing and technical divisions of The Texas Company to produce an oil of pronounced superiority incorporating the highest attainable development of all the desirable qualities a motor oil should have for maximum performance under all engine conditions.

It is refined from a special selection of the major crudes to give greater viscosity at higher operating temperatures with a lower viscosity at lower temperatures, and at the same time retain the excep-

Thousands of New Words are included in the Merriam Webster, such as aerograph, broadtail, credit union, Babalism, patrogenesis, etc. New names and places are listed such as Cather, Sandburg, Stalin, Latvia, etc. Constantly improved and kept up to date.

WEBSTER'S NEW INTERNATIONAL DICTIONARY Get The Best

The "Supreme Authority" in courts, colleges, schools, and among government officials both Federal and State. 452,000 entries including 408,000 ready for terms, 32,000 geographical subjects, 12,000 biographical entries. Over 6,000 illustrations, and 100 valuable tables.

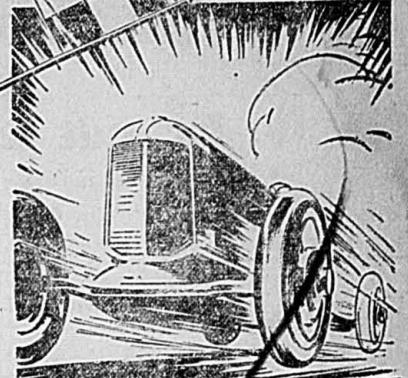

tionally low carbon residue content which has always characterized Texaco Motor Oil in the past. It has a flatter viscosity curve, the low pour test characteristic is improved in that the force necessary to shear the oil is less, the

flash and fire points are higher and the carbon residue still low. Laboratory tests and road test on the oil's performance have shown that the new Texaco is an unquestionably superior motor oil. It is manufactured in five

grades conforming to Society of Automotive Engineers Viscosity ratings and on sale everywhere in the United States at 30 cents a quart, with the exception of the very heaviest grade, which is sold at 35 cents a quart.

CLOSE ON THE HEELS OF ITS ACCOMPLISHMENT AT

INDIANAPOLIS MAY 30, CONOCO WINS 3RD, 4TH, AND 5TH PLACES AT ALTOONA AT BETTER THAN ONE HUNDRED MILES PER HOUR

Frank Farmer, in a Miller Special, "placed" third with an average speed of 102.2 miles per hour. "Shorty" Cantlon, in a Miller-Schofield Special, was fourth with 101.5 miles per hour. "Speed" Gardner was fifth in a Miller Front Drive Special. All three used CONOCO Germ-Processed Motor Oil in this convincing demonstration of the qualities of this regular "stock" motor oil.

Indianapolis race; after they had observed its full body and good color as it came from Dave Evans' motor, the word went out that CONOCO Germ-Processed Motor Oil had displayed the qualities necessary to solve the lubrication problems of racing motors.

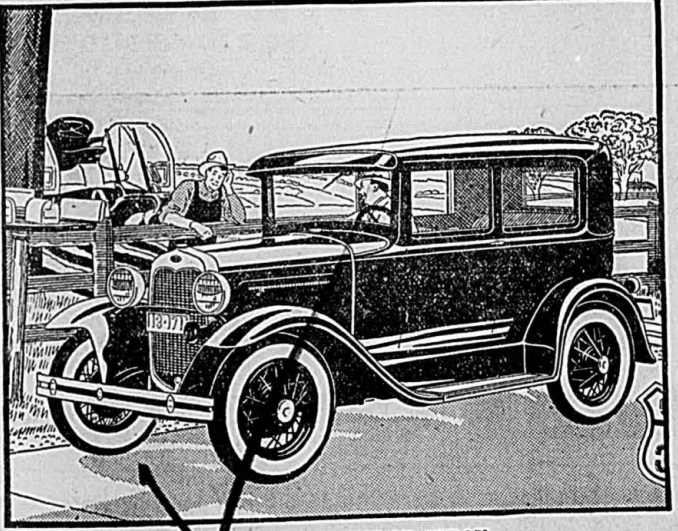

Germ-Processed Motor Oil, close on the heels of Indianapolis... a victory won with the same stock Germ-Processed oil that you can buy at any Red Triangle station.

These CONOCO victories have a definite meaning to every one who drives a car. They substantiate every claim that was made for it when the oil was introduced last November.

You can experience the safety and economy of this oil by stopping at the next Red Triangle Station and asking for:

CONOCO GERM PROCESSED MOTOR OIL. The story of the Altoona race cannot be told without reference to the accomplishment of CONOCO Germ-Processed Motor Oil at Indianapolis. For it was in that 100-mile classic that the stamina of this new oil was impressed on the racing fraternity.

RELIABILITY ECONOMY GOOD PERFORMANCE

THE NEW FORD TUDOR SEDAN

YOU are buying proved performance when you buy a Ford. You know it has been built for many thousands of miles of satisfactory, economical service.

Letters from users in every part of the world show the value of the sound design of the car, good materials and accuracy in manufacturing. You sense a feeling of sincere pride in the oft-repeated phrase—"Let me tell you what my new Ford did."

Further tribute to the sturdiness, reliability and general all-round performance of the new Ford is shown in the repeated and growing purchases by government bureaus, by police departments, and by large industrial companies which keep careful day-by-day cost records. In most cases, the new Ford has been chosen only after exhaustive tests covering speed and power, safety, comfort, ease of control, oil and gas

consumption, low yearly depreciation, and low cost of up-keep.

They have found, as you will find, that the Ford embodies every feature you want or need in a motor car at an unusually low price.

NEW LOW FORD PRICES

Table listing Ford models and prices: Roadster \$435, Phaeton 440, Tudor Sedan 495, Coupe 495, Sport Coupe 525, De Luxe Coupe 545, Three-window Fordor Sedan 600, Convertible Cabriolet 625, De Luxe Phaeton 625, De Luxe Sedan 640, Town Sedan 660.

(All prices f. o. b. Detroit, plus freight and delivery. Bumpers and spare tire extra, at low cost.) Universal Credit Company plan of time payments offers another Ford economy.

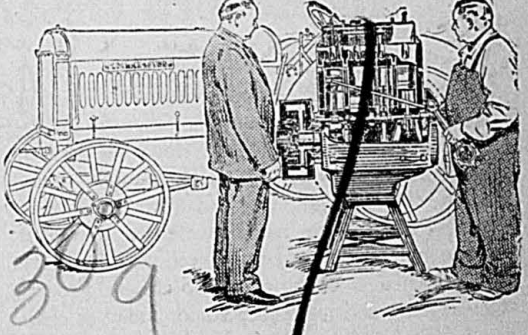

ASK FOR A DEMONSTRATION NOT very far from wherever you are is a Ford dealer who will be glad to give you a demonstration ride in the new Ford.

book visiting, accompanied by their daughter Orene, of Texas Tech.

All of the members of this family were present, including in-laws and their families, with the exception of Walter Wilmet and Mr. and Mrs. Howard Hunt of Lubbock. The latter is remembered here as Miss Opal McClellan.

Mr. and Mrs. S. H. Higgs of Mercedes and Bob Fuller were welcome guests of the happy party. The evening was spent in fishing, playing games, etc., as is usual on such occasions. Along about 7:00 o'clock the picnic lunch was spread, and was, of course, the most enjoyable event of the day. The ladies served bounteous helpings of fruit salad, fried chicken, sandwiches, pickles, pies and cake. Later in the evening four large watermelons were disposed of with apparently little effort. The last even ended the party and everyone went away full, happy and contented. One very noticeable feature of this gathering was the presence of four generations of McClellans, they being: L. S. McClellan, great-grandfather; D. L. McClellan, grandfather; Randolph McClellan, father, and little Billie Lee McClellan, great-grandson.

Missionary Society

The Missionary Society met on last Wednesday afternoon with Mrs. Dave Hester, ten ladies being present. The lesson was taken from the new book: "Roads to the City of God." The next meeting will be held with Mrs. C. D. Foote, on Wednesday afternoon, July 23.

First Christian Church

There will be no preaching at the First Christian church on next Sunday, July 20, as the pastor will be away. All other services will be held at the usual hour. Bro. Bogue stated to a reporter that he would be on hand on Sunday, July 27, to preach at both the morning and evening hours.

Woman's Missionary Union

W. M. U. met with Mrs. A. L. Rippey Wednesday afternoon, with eleven present. The lesson on Revelations, was conducted by Mrs. Brandt.

After the lesson dainty refreshments were served. Now that the harvest is over the losing group of the food sale will entertain with a picnic at some place out of town.

Everyone who can possibly go is asked to meet at the basement next Wednesday afternoon at 3:30. Each lady is to bring a well-filled basket.

WANTED: Cook at housekeeping. Phone 406. R. L. Brewer.

H. V. DeArmand, secretary of the Canadian chamber of commerce, was a visitor to Spearman on Wednesday. Mr. DeArmand states that his town and the country adjacent thereto are in good shape.

Read Thomason Bros. ad on the back page.

Mr. and Mrs. Geo. M. Whitson Jr., arrived from Lansing, Michigan, last week and will make their home here in the future. They will occupy the Whitson homestead in south Spearman.

Special prices at Thomason Bros. Saturday.

Swimming all day; evenings too, at Crystal Pool in east Spearman.

You will enjoy a swim at Crystal Pool. Nice, clean water, the best of order. Fine for the kiddies.

Let the boy be boys and go swimming. We have no "Ole Swimming Hole" on the creek, but we have Crystal Pool, in east Spearman.

Special prices at Thomason Bros. Saturday.

Mrs. G. C. Hamilton and daughters Margie and Magda, left Tuesday for their home in Houston, after a very pleasant visit in the home of her daughter, Mrs. Lester McLain.

Mrs. J. B. Cooke is visiting relatives and friends in Lubbock this week.

See our Saturday Specials—Thomason Bros.

Mr. and Mrs. Geo. N. Reed and the children spent the greater part of the past week on a vacation trip out to Two Buttes and other interesting places in Colorado.

See our Saturday Specials—Thomason Bros.

Dr. Powell, eye, ear, nose and throat specialist, will be at Dr. Gower's offices in Spearman on Wednesday, July 23. Glasses fitted, tonsils and adenoids removed.

Better read Thomason Bros. ad on the back page.

Call For Bids

Bids will be received by the city commission of the city of Spearman, Texas, on July 22, at 10 o'clock a. m., on the paving of five blocks of Dressen Street; two blocks on Locust street, and one block on Davis street, all in Spearman, Texas. Specifications on file in offices of city commissioners, in city hall, Spearman. Signed, CITY COMMISSION.

DROWNING'S AVOIDABLE

This time of the year demands a heavy toll of lives by drowning. Every metropolitan newspaper contains many accounts of loss of life at beaches or on streams and lakes. Tragedy of this character usually stalks even into our own community during these summer months.

And the unfortunate part of it all is that most of these catastrophes are avoidable. If more people were taught how to handle themselves in the water and what to do to rescue a drowning person, the loss of life would be enormously reduced.

When a swimmer or bather is caught by a current and carried beyond his depth, the first thing for the strong swimmers in the vicinity to do is to rush to the rescue. People rarely call for help in just. If the victim is below the surface when boats and swimmers arrive, dive for him, don't attempt to fish him out of the water with a hook. A good diver can cover

a large area under the water in a few minutes, and unless the victim was last seen, he can be recovered in time to be in nine cases out of ten.

It is always well to remember that a drowning person is not dead until he is recovered. The most effective of approach is to dive under the water when about ten feet from the victim, and come up behind him, grabbing his ankles and pulling yourself up over his back. This means of a good hold across chest you can then throw ashore with ease.

There are countless devices of this kind for dealing with problems of how to handle a drowning person. It seems little more widespread instruction on the subject to those who are able to handle themselves. Obviously well in the water would materially decrease the annual life through drowning.

Churches and Society

Sunday Evening Picnic Greatly Enjoyed

Mr. and Mrs. L. S. McLain entertained on last Sunday evening with a picnic, honoring her mother Mrs. G. C. Hamilton and sisters the Misses Magda and Margie Hamilton, who are here from Houston, guests in the McLain home. After a most pleasant visit of an hour or so and some interesting games, a bountiful picnic dinner was served to the following: Mr. and Mrs. T. P. McLain, Mr. and Mrs. M. T. McLain and children, Gus and Reva, Mr. and Mrs. Ira Fellers, Mr. and Mrs. Kenneth Rayzor, Mr. and Mrs. Tom Statts, all of Perryton; John and Loyd Terry and Francis Wheeler of Abernathy, Texas, Mrs. G. C. Hamilton, Horace Hamilton, Magda and Marga Hamilton, all of Houston, Texas; Mr. and Mrs. M. L. McLain and children, Mr. and Mrs. L. S. McLain, Mr. and Mrs. J. E. Gerber and children and Mr. and Mrs. Elbert Keith of Spearman.

Mrs. Floyd Neely and daughter have returned to Canyon, where Mrs. Neely is attending a beauty school. She will receive her certificate in permanent waving at the close of the present term.

Methodist Church

Sunday school promptly at 10 o'clock. Preaching at 11 a. m. Evening worship at 8:30. Many new faces have been in each of our services recently and we are glad to welcome you in our midst and want you to be present at each service.

At the evening service Sunday, July 20, Dr. Geo. S. Slover, formerly president of Clarendon College, but now Secretary of Ed. Hospital, Commissioner, Director of Golden Cross, will occupy the pulpit. You should make a special effort to attend this service as well as all others of the day. H. A. NICHOLS, Pastor.

At the Baptist Church

Regular services at the Baptist church next Sunday, and everyone cordially invited to attend. The stranger within our midst is extended a cordial invitation to attend services at this church. The room is kept cool and comfortable, the singing is good, and you are welcome. A good attendance is reported at all services last Sunday.

Family Reunion and Picnic Greatly Enjoyed

On Sunday afternoon and evening a picnic on the Palo Duro was greatly enjoyed by a group of 44 people, including children, grown-ups, old folks, nephews, nieces, aunts, uncles, grand father, great-grandfather, et cetera. The occasion was principally in honor of Mr. and Mrs. L. S. McClellan, who were here from Lub-

Vote For H. M. Hood For District Attorney His Record Deserves Your Support

County Judge H. M. Hood of Stinnett, Texas is now serving his fourth year as an official in Hutchinson county, during this time Hood has seen all the officials in this District, in Hutchinson county and the city of Borger come and go connected with the law enforcement machinery either by defeat or resignation. He has been investigated by every and all agencies of the county, State and Federal Government and his record stands today as clear as the day he took office in 1927, free from "ACCUSATION OR SUSPICION." Every inducement of official corruption has at all times been before him, but, he consistently obeyed the law himself as a private citizen and as a public official, and stood firm for a vigorous law enforcement program. He has taken an active part and has been thrown into the midst of every political fight in Hutchinson County for the past four years, always pursuing and fighting for what he thought morally and legally right. He has been characterized as the driest official of this county and has fought continuously and vigorously the "Dripping Wet" element of this county.

Since he has been an official here he has tried and heard hundreds and hundreds of criminal cases involving practically every criminal statute of Texas, and has worked with all Grand Juries for the past three and a half years in reporting to them the many felony cases he hears as magistrate, and further, at all times he has been interested in, and has had occasion to observe the working of the district

courts of this county. This alone would give him sufficient practical experience to acquaint him with the duties of the office he is now seeking "He has been tried and tested under the most unusual circumstances and conditions that a county official has ever known and proven himself at all times worthy of the respect, confidence and support of those who believe in law and order and the enforcement of our laws."

He has made Hutchinson County a good official and will make the 84th Judicial District a good district attorney. He has had the experience, he has the ability and he has the courage of his convictions to make a fight for the right at all times. He possesses those inherent qualities that make men of strong moral character. He was one of the first men of Borger in 1926 to join a church, which was the First Methodist Church of Borger, and he is now president of the Board of Trustees of that church. He is a man of good judgment, reasonable, tactful and nearer the geographical center of the district and particularly near where the greatest business of a district attorney's office must be handled. We recommend him to you without reservation, for your support as district attorney of the 84th Judicial District and ask of you not to pay any attention to the "Eleventh Hour Political Propaganda" which is often used in this county, and we ask that you go to the polls on the 26th and vote for H. M. Hood for District Attorney.
