Busy 1985 for Sheriff

Hansford County is doubly proud of our Sheriff's Department. Not only have they done an excellent job in solving local crimes this year, Sheriff R. L. McFarlin was elected president of the Texas Sheriff's Association.

The Department's final report for 1985 showed a busy year for the Department with 38 public intoxication offenses; Second on the list was 26 driving while intoxicated arrests. The Department's final report for 1985 shows 8 warrants from other counties; 2 parole violations; and three possession of drugs.

Another big plus for our Hansford County Sheriff's Department is their co-operation with local city police. Many of the calls received by our local officers are requests for information or assistance or complaints about violations of the city's Animal control ordinances.

One area of criminal activity that is a continual problem is "Family Disputes". Almost each night our Sheriff and City officers are called out to settle assaults, fights and as we said before public intoxication.

Sheriff McFarlin reported (3) assaults on peace officers; one resisting arrest, and eleven thefts,

five driving with license suspended; three disorderly conduct; two DPS warrants; nine traffic warrants; seven probation violations; two criminal mischiefs; six burglaries; 3 contempt of court; one indecency with a child;

five aggravated assaults; two conspiracy to commit murder; two hindering apprehension; 2 burglary of vehicle; 5 assaults; 3 illegal aliens; 1 making alcohol available to a minor; 1

aggravated sexual assault; one kidnapping; 3 theft by check; 2 unauthorized use of motor vehicle; 1 escapee; 2 arsons; and 3 credit card abuses.

"Discipline in Our School System."

Ken Friemel, Spearman Junior High Principal, and Allen Alford, were guest speakers at the Rotary Club Monday. Topic of their program was "Discipline in Our School System." It was learned at this meeting that the biggest problem in the Spearman School System was not

dope, alcohol, but was lack of parental supervision. The Rotarians were amazed to learn about this fact. The program was very interesting and in summarizing we might add that the Spearman School System and the Students attending this system may be the finest in the State of Texas.

Harry Stumpf presents the Spearman Lion to four Sunray Lion members. They are Lion Carter, Lion Jack Bain, Lion Tom Ferguson and Lion Don Graham. Lions Club rules state that if four

members from a visiting club come to your noon meeting they can claim your Lion banner or something equivalent and take it back to their home club. Four Spearman Lions plan to journey to Sunray

soon and reclaim the Spearman Lion. A big thanks to Carter, Bain, Ferguson and Graham for attending the Spearman Lions Club meeting.

Karen's Kozy Korner

Dieting is big business - a 15 billion dollar per year business to be exact. With an estimated 30,000 methods of weight control available you would think that we would all be trim. But that's not the case.

The average American goes on a diet ten times a year! Unfortunately, the national average for success is a dismal 5%. More than 95% of people who lose weight regain it within the next year.

So what's wrong? Part of the problem is that many dieters are taken in by diet fads and frauds. Here are just a couple of examples from the Food and Drug Administration.

Spot reducing creams and oils supposedly reduce fat deposits on specific parts of the body, such as the thighs. But medical scientists have established that fat will not leave certain areas of the body while staying in others. Fat leaves from areas of greater concentration first, then from leaner body regions.

The manufacturers of spot reducing creams also typically recommend some exercises for the body part you want to reduce. With this "spot-toning," individual muscle cells swell and this gives the appearance of firm skin. But it doesn't mean that any fat has been lost.

then there are the schemes to "melt" fat away with body wraps and latex exercise suits. These garments and wraps reduce body dimensions by removing fluids. Medical experts agree that they can cause a loss of inches and even pounds due to profuse perspiration. But the reduction is only temporary and the fluid will be replaced back as soon as you drink or eat.

You lose fat only when you consume fewer calories than you need to meet your body's energy requirement. The easiest - and cheapest - way to reduce is to watch your calories and get more exercise.

SBT Gallup Poll

Results of a nationwide survey of telephone customers track with Southwestern Bell Telephone's efforts to study customer attitudes in Texas.

A Gallup Poll done for the United States Telephone Association (USTA) showed two out of three residential telephone customers in the United States believe the overall quality of their local telephone service has remained about the same since the breakup of the Bell System nearly two years ago. Eighteen percent say their service has improved, while 14 percent say it is worse.

These nationwide results illustrate overall customer confidence in areas similar to Southwestern Bell Telephone's research involving customer attitudes, according to Jims Adams, president of the phone company's Texas Division.

"Every quarter, 1,350 Texas customers are surveyed to determine their perceptions of Southwestern Bell Telephone," Adams said. "ask questions about the company's management, about the quality of service we provide, and the value of that service to the customer."

Adams said results of this research reveal that eight out of 10 Southwestern Bell customers rate the quality of transmission, dependability and selection of phone services as excellent or good.

According to the USTA, the Gallup study was the first objective, scientific, nationwide survey of residential phone customers since divestiture.

Other key comparisons of the Gallup poll and Southwestern Bell Telephone's customer research

shows:

-Two thirds or more of all telephone service compares favorably in value with other necessities, such as electricity, food and home heating fuel. Just under half think their monthly bill for local telephone service is inexpensive or about right. Meanwhile, eight out of 10 Southwestern Bell Telephone customers say they get their money's worth from local telephone service.

-Seven out of 20 respondents in the national survey believe that telephone company employees really care about helping their customers; three out of five say their local telephone company is well managed. Southwestern Bell's survey shows seven out of 10 customers say helpfulness of company employees really care about their customers; three out of five say their local telephone company is well managed. Southwestern Bell's survey shows seven out of 10 customers say helpfulness of company employees is excellent and that the company's management is good.

"We're pleased that results of the Gallup-USTA survey reflect, on a national level, what we've known for some time in Texas--that customer attitudes and service are much better than some headlines and 'guesswork' assessments have indicated,"

Adams said. "Our measurements show that customer perceptions of service are now higher than they were before divestiture."

Last year Southwestern Bell launched an informational program called Tele-Help brochures, Adams said. "Our research indicates that customers participating in the Tele-Help program feel they have a much better

understanding of how industry changes affect their service."

Southwestern Bell also helps support the Tele-Consumer Hotline--a toll-free information service developed by the consumer Federation of America and the Telecommunications Research and Action Center. Adams said the hotline has received about 4,400 call from Southwestern Bell customers since March of this year.

The Lady

Much promotional effort has been forthcoming of late from New York about restoration of the Statue of Liberty.

The Lady--as one blurb goes--represents America, its open door to the world's homeless, jobless refugees.

Today's American should keep his or her perspective in the face of this emotional appeal for money. Restoring the old statue is desirable; it is a symbol of a time when this country could absorb an almost unlimited number of immigrants.

In the commercial pitch for funds, however, the current money-raising effort also includes the subtle inference that the open door policy is desirable, good and

moral--traditional Americana.

Not true today. With seven percent still unemployed, with millions of illegal aliens filling jobs in this country, with no more free land to give away to settlers moving westward, times have changed.

Like other nations in the world today, the U.S. must limit emigration into the U.S. It is not doing a satisfactory job of that because an irresponsible Congress regularly refuses, for political reasons, to provide border

security.

The open-door policy to the world's refugees a century ago was an idealistic policy Americans can be proud of. It brought most of our forefathers to these shores. It is, however, not logical, desirable or moral as a policy today.

These People Can Get You A Tax Break

Pictured above are Debbie Smith, Bruce Julian, and Thalia Garner, ready to help you with your IRA.

What will you do for a tax break this year?

Tax time is here, and you have just a few weeks to file the federal income tax return for 1985. There aren't many legal tax breaks left, but you can still get a \$2000 tax deduction for 1985. It's an Individual Retirement Account. An IRA. You can start an IRA and deposit to it right up to the time your income tax return is filed. It's for people with earned income. Married couples with a non-working spouse can deduct up to \$2250. When both work, deduct up to \$4000.

How do you start an IRA?

When taxes are involved, you need the best advice available. Bruce Julian, Thalia Garner and Debbie Smith are ready to explain how an IRA gets started and how to make deposits to your IRA. They've helped hundreds of people like yourself get a tax break every year. You can earn high interest rates, compounded daily. There's no maintenance fee or service charge. Every dollar is insured safe by FDIC to \$100,000.

Come to First National Bank for your tax break

Come to the second floor of First National to visit with Thalia, Debbie or Bruce about your Individual Retirement Account. Or call us at 435-3676 to find out how to help your tax situation.

Among The Neighbors

There is a great deal of anticipation concerning the Sesquicentennial program to be held in Gruver, Saturday, February 1st, at 7:00 p.m.

The committee has spent many hours and a great deal of effort in providing a program of interest for all residents of Hansford County, whether old-timers or recent citizens. The program promises to be amusing, entertaining, informative and well worth one's time.

One of the most gracious social events in Spearman in a long time was the observance of the 90th birthday of Mrs. Rex (Ora) Sanders. Her grandchildren hosted the affair which was held in the home of Mrs. Julia Adams at 712 Wilbanks. Other hostesses were Penny Ralston and Lynda Sanders, and Mike Sanders, of Clarendon, was also instrumental as were Phil Sanders and Dan Ralston. Mrs. Sanders was pleased that all nine of her great grandchildren could be there, but regretted that her two sisters were unable to attend.

Her sons, Rue and wife Ann, and R.E. and wife, Velma were also present. The serving table was covered in a lovely cut-work cloth which Mrs. Sanders had made for Rue and Ann when they married. Mrs. Sander's chosen colors of rose and pink were used in the centerpiece, set off with silver candelabra. Beautifully decorated cakes also carried out the motif and was served with coffee and punch. Adding to the color of the affair were the gorgeous bouquets sent by the many admiring and grateful friends and neighbors as a tribute to her many years of community and church service and personal kindnesses.

Panhandle Crisis Center

Good news! The Panhandle Crisis Center shelter is nearly ready for use! The January in-service meeting for volunteers was held at the shelter. We were all delighted with the way things are looking. The response of the community to the request for furnishings has been tremendous. And the manpower for moving the furniture has been willingly donated from members of El Centro's hispanic population. See? The entire community has become involved: the lending of dollies, of a pickup, of donating food, etc. It's great!

Furthermore, We've received a grant of \$14,650 from the Federal Department of Criminal Justice to help finance this project. The three counties served by the PCC are to match this fund with local contributions, and we are well on our way to doing that. One of the factors that contributed to the granting of this money was that the counties have demonstrated (and are continuing to demonstrate) their support.

There's no need to worry about the wise handling of these funds, as well of funds from the Texas Department of Health and the Texas Department of Human Services, for detailed records must be turned in, sometimes as often as each month. This puts a tremendous work load on the office manager and the Project Director, but they are dealing with it cheerfully and efficiently.

One of the most gratifying things to experience is the cooperative attitude of some of the "abusers." True, most of them feel threatened by this type of help for their victims. But some are responding to offers of help for handling their frustrations and anger in ways that do not harm their partners. So

again, we can assure you that the PCC is dedicated to saving families, not to breaking them up.

One of the things required of the PCC by the founders is a special project each quarter. This quarter, we are cooperating with Health Fair that is to be held at the Expo Center March 20, from 10 a.m. to 6 p.m.. Information and checkups on nearly every possible major difficulty will be available, as well as brief presentations of aerobics, trampoline, Karate, Jump-rope-a-thons, puppet shows about nutrition, Jazzercise, coronary-pulmonary resuscitation, etc. You'll be hearing more about this as time goes on, but mark your calendar right now!

Our statistics continue to mount. So far, each month shows more calls than for the same month a year ago. The support groups are progressing nicely, with the membership in the groups is growing.

But don't worry- we are not resting on our laurels. Instead, we are encouraged to redouble our efforts, for we can see results coming in. The support that is coming from you members of the community is one of those encouragements.

Speaking of support: we always stand in need of more volunteers for anything from answering the telephone to baby sitting for clients during support group meetings (we have a nursery-room provided), to office work, to emergency ministry to victims when they call for help. Remember, counsellors are not "cast to the wolves" along and unaided. If you feel at all interested in any of these categories, please give us a call at 435-5008.

Spearman hosts Annual Blood Drive

Every few minutes, an American receives a blood transfusion. Blood is needed for open heart surgery, organ transplants, accident victims, and persons with debilitating illnesses such as cancer. More than 30,000 units of blood are transfused daily across the US. To keep up with the amount of blood used, healthy volunteer blood donors are needed every day to keep the lifeline flowing so that blood is available for any patient needing it.

Despite the tremendous need, fewer than five percent of those eligible to be blood donors give each year. The process is quick, easy and safe. Disposable needles are used and all equipment is sterilized. Volunteer donors undergo a rigorous examination, including a medical history, blood pressure, hematocrit and other procedures. There is no possibility that a blood donor will contract an infectious disease from donating blood.

Tests are performed on the donated blood for antibodies to hepatitis B and HTLV-III, the virus thought to cause AIDS. All these measures and many others are taken to provide the safest possible unit of blood for patients.

The Blood Drive will be at the Catholic Church Parish Hall, in Spearman, on Monday Feb. 3rd. 35 pints are needed. Time will be from 4:00 p.m. to 7:00 p.m.
